والعلامات حتى 22 سبتمبر 2015

اكرر اننا لا نحدد مواعيد بل فقط نشجع بعضنا بعضا بقرب مجيء المسيح

وأیضا أوضح أنه يوجد نبوات لم نراها بعد مثل ابن الهلاك وهرمجدون

ولكن ایضا علامات كثيرة من التي قال عنها الكتاب انها في الزمان الاخير بدأت تحدث بوضوح

ويجب أن ننتبه اليها. ونذكر بعضنا باننا نحتاج ان نستعد. والاستعداد ليس فقط قبل مجيء

المسيح بل ایضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر

هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه. بمعنى نحتاج من الان ان نستعد بقوة بأيمان

عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيقة اقتربت

جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت

سيكون صعب جدا بل أستطيع ان أقول من مثل العذارى انه لن يكون هناك زيت الا ما جمعه

سابقا. أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشتر اشاعات ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لانه كان مستعد ومنتظر مجيء المسيح ولم ياتي المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَأَن تُوْمِنُونَ.

ثالثا لننتبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

Blood Moon Sequence Happens Only 9 Times In 2,000 Years

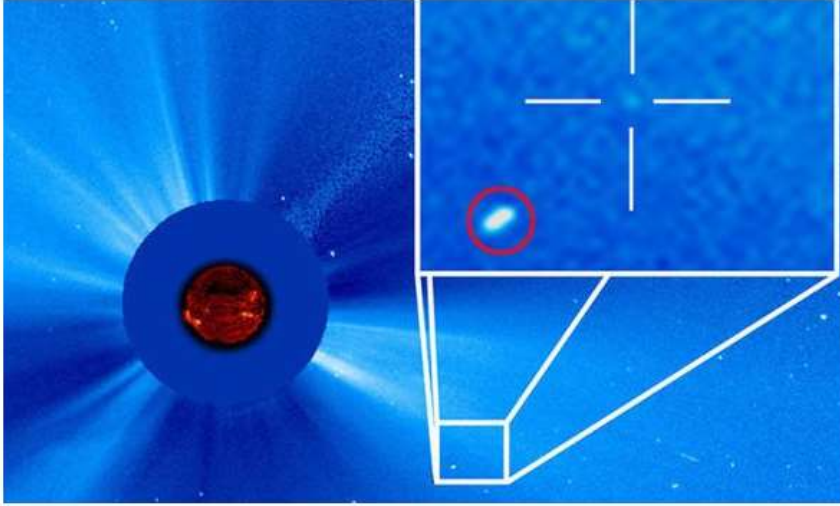

20 SEPTEMBER, 2015

The grand finale of the rare blood-moon tetrad will be a spectacular “supermoon” eclipse, the first in more than three decades. And the scholar who discovered the correlation between a sequence of four blood moons and events in the history of the Jewish people thinks the extremely rare conclusion of the tetrad with a supermoon is a message from God to the nations of the world: Do not divide the land of Israel. Pastor Mark Biltz of El Shaddai Ministries told WND the final blood moon of a series of four occurring on Jewish holy days in 2014 and 2015 is “a loud call to Israel and to the nations.”

Huge New Comet Identified Flying Near Sun Just Days Before 'Blood Moon' Event

18 SEPTEMBER, 2015

The new comet was discovered this week as online conspiracy theorists continue to claim a huge space rock will wipe out mankind by the end of the Blood Moon lunar event on September 28. The flaming space rock was also the 3,000th "sun-grazing comet" to be discovered by the Solar and Heliospheric Observatory (SOHO) – a specialist telescope on board an unmanned space probe – since it began photographing the Sun 20 years ago.

An iridescent, multi-hued cloud phenomenon was recently spotted in Costa Rica skies, and residents were left awestruck and mystified.

The spectacle in the sky was reported this past Tuesday afternoon in numerous cities including, San Jose, Parrita, Pavas, Escazu and Hatillo. Coincidentally, the sighting occurred on the country's Independence Day.

Many witnesses took to social media to post photos and video of the luminous cloud formation, with some even noting that it looked like an "end of times" scene.

Extensive and destructive floods across eastern Japan have swept more than 700 bags containing Fukushima-contaminated soil and grass into Japan's rivers, with many still unaccounted for and some spilling their radioactive content into the water system.

Authorities in the small city of Nikko in Japan's Tochigi Prefecture, some 175 km away from the Fukushima nuclear power plant, have said that at least 334 bags containing radioactive soil have been swept into a tributary of the Kinugawa river, The Asahi Shimbun reports.

Flash floods from torrential downpour kill at least 15 in Utah

Posted on [September 16, 2015](#)

September 2015 – SALT LAKE CITY, Utah — Flash floods killed 12 people near Utah's border with Arizona when a "large wall of water and debris" triggered by heavy rain pounding nearby canyons swept them away in their cars, officials said on Tuesday. In Zion National Park to the north, three people died and four were missing after going to explore canyons, officials said. "Another tragedy for our state. Reeling right now," Utah Lieutenant Governor Spencer Cox said on Twitter. In the small city of Hildale, Utah, hundreds of volunteers were helping search for one person still missing, Washington County officials said, after floodwaters swept through streets. "It was an act from God," Hildale Mayor Phillip Barlow told reporters of Monday's tragedy, according to the Deseret News. "This is something we can't control...It happened too fast."

Crews have worked since Monday evening monitoring flood crossings and searching the banks of Short Creek amid sporadic rain showers. Contractors using heavy equipment have worked to clear thousands of tons of mud and debris, and the National Guard has been called in to help with the cleanup. "In the flash flooding two occupied vehicles were hit by a large wall of water and debris at the Canyon Street Maxwell Crossing and were carried into the Flood," Washington County officials said in a statement overnight. Utah Governor Gary Herbert said he was "heartbroken," and that the state has offered its full resources to Hildale to aid the search and rescue effort.

Roughly 2,700 people were ordered to evacuate the town of San Andreas, California as a wildfire raged in the surrounding area, the Associated Press reported on Friday, but that order has now been lifted. A state of emergency has been declared.

Other areas remain under evacuation orders, however, according to state fire officials, and those in San Andreas have been told to remain prepared.

Powerful quake off Chile slams waves into coastal towns, eight killed

SANTIAGO | BY ANTHONY ESPOSITO

Strong aftershocks rippled through Chile on Thursday after a magnitude 8.3 earthquake that killed at least eight people and slammed powerful waves into coastal towns, forcing more than a million people from their homes.

After the powerful quake hit on Wednesday evening, the government ordered evacuations from coastal areas to avoid a repeat of a quake disaster in 2010 when authorities were slow to warn of a tsunami that killed hundreds.

This is How Much the Ground Moved During Chile's Massive Earthquake

When Chile was hit by a magnitude 8.3 earthquake this week, the very ground shifted. By comparing images before and after the earthquake with an interferogram, geophysicists can measure just how much and where the ground moved.

An interferogram is a geophysical tool for tracking changes in surface topography over time. It can be used to find landslides, or to spot when a magma chamber is filling and forcing a volcano to bulge out prior to an eruption. It can track subsidence when groundwater is being over-pumped or a river delta is sinking, or to watch the incredibly slow flow of glaciers. But

A powerful 8.3 magnitude earthquake followed by a dozen strong aftershocks has struck off the coast of central Chile. Authorities have issued tsunami warning for the area, urging people along the coastline to evacuate.

Magnitude-5.2 earthquake rattles Tokyo, injures 13

Posted on [September 12, 2015](#)

September 2015 – TOKYO, Japan – An earthquake with an estimated magnitude of **5.2** struck the Tokyo metropolitan area at 5:49 a.m. on Sept. 12, injuring at least 13 people. The epicenter of the quake was about 57 kilometers beneath Tokyo Bay, the Japan Meteorological Agency said. The quake recorded an intensity of lower 5 on the Japanese scale of 7 in Chofu, western Tokyo, and 4 in many of Tokyo's 23 wards, as well as Yokohama, Kawasaki, and other areas in Kanagawa Prefecture, southern Saitama Prefecture and Urayasu, and many other municipalities in Chiba Prefecture. An intensity of 3 was recorded in parts in Ibaraki, Tochigi, Yamanashi, Gunma, Nagano and Shizuoka prefectures.

According to local fire departments, at least 11 people in Tokyo, one in Matsudo, Chiba Prefecture, and another in Sagami-hara, Kanagawa Prefecture were injured in falls. Among them, a woman in her 80s in Nakano Ward and a resident of Matsudo in her 60s fell from beds and suffered fractured limbs. Several tectonic plates meet under Tokyo Bay and their jagged boundary lines trigger magnitude-5 to -6 earthquakes in the Kanto region every few years, agency officials explained. The earthquake had no relation with major temblors whose epicenter is directly below Tokyo, which have repeatedly rattled the region in the past, the agency said. It warned of a possible aftershock that could reach an intensity of around 4, which could exacerbate the damage caused by recent torrential rain and extensive floods in eastern Japan. –[Asahi](#)

A warm winter that left little snow in the mountains -- followed by warm spring and summer weather -- took a toll on salmon and Dolly Varden returning to spawn upstream from Jakolof Bay near Seldovia. Thousands of fish piled up dead in an area where the streambed was dry.

Fishery researchers with the Seldovia Village Tribe found the dead fish in late August and posted the information about their discovery on the Local Environmental Observer Network managed by the Alaska Native Tribal Health Consortium. The LEO Network allows people on the ground to spread news about unusual occurrences in their environment. Im Neuhofener Altrhein bei Altrip sind tausende Fische gestorben. Nach Angaben der zuständigen Verbandsgemeinde ist das Wasser am vergangenen Wochenende umgekippt und enthält kaum noch Sauerstoff. Ein Angler hatte bereits am Donnerstag viele tote Fische entdeckt und die Behörden alarmiert. Die Feuerwehr habe den Altrheinarm mit schwimmenden Wasserpumpen belüftet. Der Sauerstoffgehalt sei nun wieder etwas gestiegen, hieß es. Als Ursache des Fischsterbens wird vermutet, dass sich das nur drei Meter tiefe Gewässer im Sommer zu stark erwärmt hat.

近日，有市民反映即墨宋化水库不断有死鱼漂向岸边，这种状况已经持续了很长时间，大量鱼堆积在岸边，没有得到及时清理，不少已经散发出腥臭味，而这些鱼可能是有人在水库里放养的。事后记者从即墨市宋化水库管理所了解到，由于水位持续下降，缺氧导致鱼类死亡。

“我是昨天回老家，顺道去水库转了一圈，下去一看，吓我一跳，岸边全是漂着的死鱼，大的能有三四十厘米，沿着西边大坝，一公里多都是。”近日，老家在即墨宋化水库附近的孙先生向本报反映，宋化水库大坝边上出现了不少死鱼，不少已经开始腐烂，似乎已经死去了很长时间，但这么多鱼堆积在岸边，却没有人来清理。

Second mass fish die-off in Rosetta branch in summer

Sep. 14, 2015 15:00

By THE CAIRO POST

CAIRO: Thousands of dead fish were seen floating on the Nile River Sunday in Beheira, Delta; more than 1,000 kilos of fish were collected to be eliminated and 200 kilos were seized from vendors in the local market, Youm7 reported.

Water samples were taken every two hours from the river, to make sure that city water was potable, as well as to detect the reasons for the mass fish deaths. The samples will also be taken from drinking water plants.

Yunlin ducks to be culled amid bird flu virus scare

IRREGULAR DEATHS: Farms in Tainan and Chiayi told authorities of ducks dying, prompting tests to be done, with a report on the results of the work expected today

About 8,900 broiler ducks at two farms in Yunlin County's Dounan Township (斗南) are to be culled, while a suspected H5N2 infection was reported at farms in Tainan and Chiayi County on Monday.

Ducks at the Yunlin farms on Monday were found to have contracted a new type of the highly pathogenic H5N2 bird flu virus, the Bureau of Animal and Plant Health Inspection and Quarantine said.

The bureau said that it would perform precautionary culls at the farms even though the animals were generally in good health.

The farms are unenclosed facilities within a 1km radius of a previously affected farm, but the ducks to be culled might have been exposed to the virus through interaction with migratory birds, the bureau said.

The U.S. Fish and Wildlife Service said Friday it is investigating the deaths of 25 Pacific walrus found on an isolated northwest Alaska beach.

A person connected to an Air Force radar station in the remote area spotted the animals and notified the agency this week. The walrus included 12 pups, and some were missing their heads and tusks.

The cause of death has not been determined, said Fish and Wildlife Service spokeswoman Andrea Medeiros, and investigators do not want to speculate.

ICA declare quarantine in nine municipalities and one township, from where they can not enter or leave pigs. Losses of \$ 100 million.

As happened 15 years ago, the Colombian Agricultural Institute ICA declared quarantine in nine village and township for the death of 200 thousand pigs for classical swine fever in Sucre.

Municipalities in quarantine disease: San Benito Abad, San Marcos, Majagual, Guaranda, Sucre, Sincé, Galeras, Corozal and Betulia, besides the village of Canutalito in sheep.

"The quarantine is that animals of the municipalities in question shall not enter or leave the premises where they are to prevent the virus from spreading to other departments such as Cordoba and Antioquia," Sierra said.

He said that the Institute professionals and members of the Society of Pork are doing mass vaccinations in the places where they report that there are sick animals in order to prevent it from spreading.

Tuna and mackerel populations have suffered a “catastrophic” decline of nearly three quarters in the last 40 years, according to new research.

WWF and the Zoological Society of London found that numbers of the scombridae family of fish, which also includes bonito, fell by 74% between 1970 and 2012, outstripping a decline of 49% for 1,234 ocean species over the same period.

Mass Animal Die-Off With 100% Mortality Rate Baffles Scientists; Something Is Going Terribly Wrong On Planet Earth

17 SEPTEMBER, 2015

A critically endangered species of antelope has been driven further to the brink of extinction following a mysterious and substantial die-off of its herd over the summer. The herd of saigas, which are native to regions of Kazakhstan, Russia and Mongolia, began dying during their calving period in May, reports Newser, and scientists are at a loss to figure out why. According to reports, some 12,000 saigas died from a still-unexplained digestive issue after scientists speculated that there might have been too much greenery, reports Live Science.

WASHINGTON -- The Food and Drug Administration warned doctors and hospitals Thursday to use extra caution in disinfecting a hard-to-clean medical scope that has been linked to the spread of powerful "superbugs" in outbreaks across the country.

The agency said that even meticulous cleaning of the duodenoscopes, which are used on about 500,000 patients a year, may not entirely eliminate the risk. And it advised doctors and hospitals that it is studying possible solutions, including new disinfection protocols.

Bad news for apiphobes: "Killer" bees are on the move in the United States.

Scientists from the University of California, San Diego recently collected hundreds of bees around the Golden State to determine how far north hybrid honeybees, or [Africanized bees](#), have spread since they first arrived in the state in 1994.

They found that Africanized bees — which possess genes from both European and African [honeybees](#) — now live as far north as California's delta region (about 25 miles, or 40 kilometers, south of Sacramento). And in the southern part of the state, so-called "killer" bees run the show. About 65 percent of the honeybees that buzz around San Diego County have a mix of European and African genes, the researchers found. [[No Creepy Crawlies Here: Gallery of the Cutest Bugs](#)]

Russia Unveils Tank-Mounted Rocket Launcher Capable Of Incinerating 8 City Blocks

15 SEPTEMBER, 2015

When the Soviets were thinking about landwar in the late 1970s, they struck upon idea: How about strapping as many rockets as possible to a T-72 tank chassis, and using it on the battlefield? Thus, the TOS-1 Heavy Flamethrower System was conceived. If you're confused by the "flamethrower" bit in that designation, it's understandable. The TOS-1 (and its more modern variant, the TOS-1A) look nothing like traditional flamethrowers, either handheld or tank-mounted, used in World War II and other conflicts.

Russia shipping tanks into Syria, in 'first clear sign of offensive weapons'

Tensions rise between US and Russia over efforts in Syria

Russia's military build-up in Syria has grown to include the shipment of a half-dozen highly sophisticated battle tanks -- and more troops -- a defense official told Fox News, in what the source called the "first clear sign of offensive weapons arriving in Syria."

The Pentagon has now tracked a total of 15 Russian Antonov-124 Condor flights into Syria, reflecting a steady stream of military cargo into Syria. According to the latest intelligence, this also includes the arrival of two more Russian cargo ships, containing the tanks.

Up to this point, the official said, the Russian cargo and weapons that have been delivered to Syria could be viewed as defensive in nature. The arrival of tanks cannot be viewed this way.

The official said that Russian offensive operations could launch from Bassel Al-Assad International Airport "very soon."

First Iranian marines land in Syria, link up with newly-arrived Russian troops

DEBKAfile **Exclusive Report** September 11, 2015, 8:45 AM (IDT)

First Rev Guards elite troops land in Syria

Iran this week sent its first ground troops to Syria, around 1,000 marines and elite troops of the Iranian Revolutionary Guards Corps (IRGC). They moved straight into Ghorin, a small military air facility just south of the port town of Latakia, and hooked up with the just-landed Russian marines at Jablah. Three weeks ago, DEBKA file began reporting on Russian-Iranian military intervention afoot for saving the Syrian ruler Bashar Assad, followed on September 1 by the first disclosure of the Russian buildup in Syria.

Our military sources report now that Moscow is about to send a shipment of advanced S-300 air defense missile systems for deployment at Jablah, the base the Russians have built outside Latakia for the intake of the Russian troops. The S-300 systems will also shield the Iranian facility at Ghorin.

Jablah has been converted into a busy depot for the Russian troops still arriving in Syria, combatants from units of Marine Brigades 810 and 336.

Russian MiG-31 interceptor craft standing by at the Mezza airbase at Damascus airport offer the combined Russian-Iranian force air cover. To the west, the giant Dmitri Donskoy TK-20 nuclear submarine is on its way to Syrian waters. Latakia is therefore fast growing into a powerful Russian-Iranian military enclave, able to accommodate Assad and top regime officials if they are forced to leave Damascus. According to our military sources, it is too soon to determine the exact function of this enclave, whether defensive or, after settling in, the Russian and/or the Iranian forces are planning to go after Syrian rebel and Islamic State forces making gains in northern Syria.

There is no evidence to bear out the curious briefing high-ranking defense sources gave Israeli military correspondents Thursday that the incoming Iranian troops have come to beef up the large-scale Syrian army-Hizballah units, who have been unsuccessfully battering away at the rebel fighters holding the key town of Zabadani for nearly two months. Our sources find the Iranian and Russian units fully occupied for now in expanding and outfitting their new quarters at Ghorin and Jablah.

U.S. Boots On The Ground In Syria?

16 SEPTEMBER, 2015

Defense officials have told CNBC the Pentagon has boots on the ground in Syria assisting the Kurds. The nature of the special ops was not disclosed. Earlier this week the Pentagon stated it has not included Syrian Kurds in its training of mercenary groups fighting to depose the government of Bashar al-Assad. The program is confined to training "moderate Syrian opposition forces outside of Syria," Pentagon Press Secretary Peter Cook said on Tuesday. Asked about cooperating with the Kurds, Cook said the Pentagon will "work on range of groups on the ground and we will continue to do so going forward."

China Compiles 'Facebook' Of U.S. Government Employees

17 SEPTEMBER, 2015

The incompetence of the U.S. government in allowing the records of millions of federal workers to be hacked and stolen is simply staggering. Fox News reports that according to private security firm CrowdStrike's founder, Dmitri Alperovitch, the Chinese are compiling a massive 'Facebook' like database on American federal government employees for use in espionage and blackmail.

The data was stolen from high profile attacks against the U.S. Office of Personnel Management, as well as intrusions into the Anthem and CareFirst BlueCross BlueShield health insurance networks. "That can now be used to embarrass you publicly and force you to work for the Chinese government," Alperovitch says. "It's, in effect, a private version of Facebook with much more detail about your life than even Facebook has that the Chinese now have access to." **FULL REPORT**

Putin's offer to shield & develop Israel's gas fields predated Russia's military buildup in Syria

DEBKAfile Exclusive Report September 13, 2015, 11:57 AM (IDT)

Tags: Russian buildup in Syria, Israeli security, Leviathan gas field, Vladimir Putin, Benjamin Netanyahu

More than a fortnight ago, Russian President Vladimir put a proposition to Israel for Moscow to undertake responsibility for guarding Israel's Mediterranean gas fields, along with the offer of a Russian investment of \$7-10 billion for developing Leviathan, the largest well, and building a pipeline to Turkey for exporting the gas to Europe, **DEBKAfile** reports. The offer was made to Prime Minister Binyamin Netanyahu in confidential phone conversations and through quiet envoys.

At the time, Putin did not share with Netanyahu his plans for an imminent buildup of marines, air force units, warships and missiles in Syria, although the plan had been worked out in detail with Tehran in late July. The Russian ruler put it this way: Leviathan abuts on the fringes of Lebanon's economic water zone and is therefore vulnerable to potential sabotage by Iran, Syria or Hizballah, whether by commando or rocket attack.

A multibillion Russian investment in the field would make it a Russian project which neither Syria nor Hizballah would dare attack, even though it belongs to Israel. But now the situation has assumed a different face. Russian forces are streaming to Latakia, and Moscow has declared the area from Tartous, Syria up to Cyprus closed to shipping and air traffic from Sept. 15 to Oct. 7 in view of a "military exercise including test firings of guided missiles" from Russian warships.

When he offered a shield for Israeli gas fields in late August, The Russian ruler knew that implementation would rest with Russian military forces on the spot, rather than Iranian and Syrian reluctance to harm Russian interests.

Then, on Aug. 30, Netanyahu discussed the new Russian proposition with Italian Prime Minister Matteo Renzi when they met in Florence, in the context of the former Italian Prime Minister Silvio Berlusconi's involvement in Middle Eastern and European energy business and his close ties with Putin.

The Israeli prime minister never explicitly confirmed to Putin that he would consider the Russian transaction.

A Matter of Time Before ISIS 'Holocaust' Hits West

WASHINGTON -- After the Holocaust, the world said "never again." But a group of religious freedom fighters says the world is allowing genocide to happen again.

ISIS is wiping out Christians in entire regions of the Middle East and Persian Gulf. Former Rep. Frank Wolf, R-Va., has seen the evidence himself.

"In 2003, there were 1.5 million Christians in Iraq. Now the number is 300,000," Wolf, with the 21st Century Wilberforce Initiative, said at the National Press Club.

And ISIS declares it won't stop there; it will bring this purging to the West.

After years of fighting in Iraq and Afghanistan, America and its allies are tired of war. But that doesn't mean the Islamic State's genocidal killers are going to give the civilized world a pass.

Professor Gregory Stanton, president of Genocide Watch, says Europe's pacifism has done nothing but create a huge refugee crisis that probably won't end until ISIS is defeated.

"NATO simply hasn't stepped up to the plate on this," Stanton told participants. "The result: all of the refugees that are now flooding into Europe."

Dr. Katrina Lantos Swett, chairwoman of the U.S. Commission on International Religious Freedom (USCIRF), wants military action, but she believes the bigger, longer fight is to win the hearts and minds

Europe Flooded With Reports Of “ISIS Terrorists” Posing As Refugees

12 SEPTEMBER, 2015

While the US is looking back at the 14 year anniversary of what is widely accepted as the biggest terrorist event in modern US history, in Europe it is time to look forward to what may be the advent of domestic “terrorism” in the coming months, whether real or false flagged. Earlier this week, one of our contributors Erico Tavares pointed out something disturbing, namely that in Europe’s perpetual search for “crises” on which to capitalize in its relentless encroachment to a European superstate, the current migrant crisis may be a blessing in disguise (assuming, of course, it wasn’t premeditated from day one as others have suggested).

SHOCK AS DATA REVEALS OBAMA AUTHORIZING 250,000 MUSLIM MIGRANTS INTO US ANNUALLY

Geoffrey Grider | September 14, 2015 | 8 Comments

STATE DEPARTMENT AND HOMELAND SECURITY DATA REVEALS THAT THE UNITED STATES ALREADY ADMITS MORE THAN A QUARTER OF A MILLION MUSLIM MIGRANTS EACH YEAR. PRESIDENT OBAMA INTENDS TO ADD ANOTHER 10,000 SYRIAN MIGRANTS ON TOP OF THAT.

***EDITOR'S NOTE:** Every minute of every day, 2.1 Muslims legally enter our borders and are given legal immigrant status by the Obama administration. That's 3,024 Muslims every 24 hours. An estimated 40% of all these "migrants" have terror ties with ISIS and Al Qaeda. This is a form of Islamic jihad known as Hijrah, where Muslims travel to non-Muslim nations and take it over by swelling their ranks. Once it reaches a critical mass it cannot be stopped. They don't need terror weapons, they just breed until there are more of them than there are of us. Muslims never, ever assimilate into the nations in which they live. They take it over and conquer their host country for Allah.*

In 2013 alone, 117,423 migrants from Muslim-majority countries were permanently resettled within the United States— having been given lawful permanent resident status. Additionally in 2013, the United States voluntarily admitted an extra 122,921 temporary migrants from Muslim countries as foreign students and foreign workers as well as 39,932 refugees and asylees from Muslim countries.

Most of the violence was concentrated on the

Temple Mount, where Muslim rioters repeatedly hurled firecrackers, stones and firebombs at the one entrance through which non-Muslims can access the holy site.

During the High Holy Days beginning with Rosh Hashanah, many Jews like to visit the Temple Mount, as this was a biblical time of pilgrimage to the ancient place of worship.

SPEAKING AT THE AL-AQSA MOSQUE IN JERUSALEM, AYED STATED THAT EUROPEAN COUNTRIES WERE NOT ROLLING OUT THE RED CARPET FOR MUSLIM MIGRANTS BECAUSE THEY WERE COMPASSIONATE, BUT BECAUSE EUROPE WAS IN DIRE NEED OF A NEW SOURCE OF LABOR.

***EDITOR'S NOTE:** As a young history student who studied the Third Reich in school, I used to daydream about going back in time so I could see for myself what it was like to be in an entire country of people who were blinded to the truth. "What must have it been like to be in Nazi Germany in 1933?", I used to wonder. Now today in 2015, I wonder no longer because I am living in a time period that is about to see global war on an unimaginable scale, with all the world's leaders blind as bats, helplessly impotent and unwilling to stop the madness. Any idiot can see the coming Muslim invasion, their leaders are telling you what's coming. The phony Muslim Migrants situation is a war tactic! And here in America, with a Muslim president who is importing Muslim terrorists by the tens of thousands every month, we just may be the first country to fall. Mark it down, you are living in the last days.*

"Soon, we will trample them underfoot, Allah willing. Europe has become old and decrepit and needs human reinforcement....they are not motivated by compassion for the Levant, its people and its refugees," said Ayed.

Riyadh, Saudi Arabia

TEL AVIV – As fighting in Yemen continues to escalate, the Iranian-backed Houthi rebels have plans to fire ballistic missiles into Riyadh, the capital and largest city of Saudi Arabia, according to Middle Eastern defense officials speaking to WND.

Such a move would be a game-changer in the months-long battle for control of Yemen that already has spilled across the Saudi border.

In June, marking the first use of ballistic missiles by the Houthis in the conflict, the rebels fired a Scud missile at Saudi Arabia, which the kingdom said it shot down. The Houthi rebels and its allied armies had fired the Scud toward the southwest Saudi town of Khamees Mushait, which houses the largest air force base in southern Saudi Arabia.

Ultrathin 'invisibility cloak' can match any background

In the movie "Predator," an alien uses a cloaking device to hide in plain sight, but the effect is far from perfect: The alien's attempt to conceal itself is thwarted by distortions of light bending around it. Now, researchers have built an ultrathin "invisibility cloak" that gets around this problem, by turning objects into perfect, flat mirrors.

Almost a third of Americans can imagine themselves supporting a coup against the US government, according to a new survey. Slightly less than 50 percent would "hypothetically" back a military takeover if the government violated the Constitution.

The results come from a recent online survey conducted by UK-based YouGov, which polled 1,000 people from September 2-3.

When asked if there was a situation in which respondents saw themselves supporting a military coup against the elected government, 29 percent answered "yes," while 41 percent said "no." Another 30 percent weren't sure.

Giant Double Rainbows Appear Above Ground Zero

11 SEPTEMBER, 2015

On the eve of the 14th anniversary of September 11, 2001, New Yorkers saw something unusual across the sky. But this time, it wasn't smoke or flashing lights from emergency vehicles. Instead, it was a quiet message of hope, as subtle as it was powerful: As one Facebook commenter pointed out, if you look closely you can see a double rainbow. First came the thunder, then the horror.

Witnesses on Saturday described the collapse of a massive construction crane during a vicious thunderstorm a day earlier, an accident that killed 107 people at the Grand Mosque in Mecca, Saudi Arabia, one of Islam's holiest sites.

This Is EXACTLY What The Early Phases Of A Market Meltdown Look Like

By Michael Snyder, on September 9th, 2015

[f](#) [t](#) [p](#) [v](#) [in](#) [su](#) [e](#)

There is so much confusion out there. On the days when the Dow goes down by several hundred points, lots of people pat me on the back and tell me that I "nailed" my call for the second half of this year. But on the days when the Dow goes up by several hundred points, I get lots of people contacting me and telling me that they are confused because they thought the stock market was supposed to go down. Well, the truth is that if there is going to be a full-blown market meltdown, we would expect for there to be wildly dramatic swings in the market both up and down. A perfect example of this is what we experienced during the financial crisis of 2008. **9 of the 20 largest single day declines** in stock market history **happened that year**, but **9 of the 20 largest single day increases** in stock market history also **happened that year**. If we are moving into another great financial crisis, there should be massive ups **and** massive downs, and that is precisely what we are witnessing right now.

On Tuesday, the Dow surged several hundred points. There was much celebrating in the mainstream media over this, but what they failed to realize was that this was another big red flag. And we saw this volatility carry over into Wednesday. The Dow was up 171 points early in the day before ending down 239 points.

Global Currency War could ominously drag the world toward World War III

Posted on [September 14, 2015](#)

September 2015 – GLOBAL ECONOMY – In 1934, United States President Franklin Delano Roosevelt outlawed the private ownership of gold. After confiscating billions in bullion, Roosevelt shocked the world by revaluing it. The cost for an ounce of gold, previously set at \$20.67, was suddenly \$35. Overnight, Roosevelt devalued the dollar by 69 percent. The president told the country that it was a radical effort to stimulate America's economy. A cheaper dollar would make America's exports less expensive and help American companies sell more products to the rest of the world, he said. More money would flow into America, and more jobs would be created. It did those things. And it also marched the world another giant step closer to war. From the world's perspective, President Roosevelt's actions felt like a full-on economic broadside designed to steal a bigger chunk of a stagnating global economy. To the world, it was another—albeit much bigger—salvo in an ongoing global currency and trade war! And it responded in kind.

Today, the economic guns of 1934 are thundering once more. The world's economy is mired. China, Europe and America face sluggish growth. Commodity prices have cratered. And demand for materials has been blown to smithereens. Meanwhile, global debt is skyrocketing. And stock markets are rattled. Desperate nations are doing everything they can—including destroying their currencies—to stimulate their economies and keep disruptive internal social forces at bay. Could we really be headed toward world war again? The parallels are ominous. It is in this current tense climate that, on August 11, China surprised the world by

(NaturalNews) For much of the presidency of Barack Obama, a record number of Americans have subsisted in part or in whole on taxpayer-subsidized programs.

For much of his presidency, Obama has claimed that is because he "inherited" the worst economy in modern history and that government programs were necessary in order to keep families from starving.

In 2009, Obama and fellow Democrats declared the Great Recession officially over. In spite of this, the number of Americans

Nigeria Central Bank Urges "Don't Panic" As Banks Halt Lending To Each Other

When the head of the central bank utters the two words "don't panic" you know the economy, currency, and financial system is in trouble...and that's just what Nigerian central bank Governor Godwin Emefiele just did. Following government intervention to sweep cash from local to central accounts, banks have panicked. As [Reuters reports](#), overnight **interbank lending rates spiked to 200%**, which Emefiele opined was "a momentary action... just sentiment," but the interbank naira market was **paralyzed for a third day on Thursday**, with banks unwilling to lend to each other, even when rates fell back to 20-30%.

Corporations On Attack Against Christians

19 SEPTEMBER, 2015

Are you ready for a new method of persecution against “Christianity”? To hear progressives tell it, big business is a bastion of conservatism and reactionary thought. So why are corporations so eager to champion homosexuality and insult Christian beliefs? One pastor argues it’s because business leaders aren’t just interested in making money – they want to turn the culture away from Christianity. **Carl Gallups**, a pastor, talk show host, and author of the new book **“Be Thou Prepared,”** argues Christians should be aware of the social agenda being pushed by a powerful minority, including those in high positions in corporate America.

“In addition to making money, corporations are often dedicated to using their money to push the agendas that are near and dear to the hearts of the corporate managers,” Gallups told WND. “Increasingly, these managers are discovering they possess great power to shape the direction of public opinion and social norms.” One of the ways they do this, Gallups notes, is through partnerships and funding agreements with far left activists. In the latest case, Frito-Lay is **supporting Dan Savage**, a pro-homosexuality activist noted for delivering **a profanity-laden tirade against Christianity in front of a huge school audience** and wishing **cancer on Sarah Palin**. A pastor's quick thinking saved lives on Sunday when a self-described "man of Islam" entered a Texas church and declared he was ready to "slay infidels."

John Johnson III of the Corinth Missionary Baptist church in Bullard, Texas, came face-to-face with Rasheed Abdul Aziz, 40, after morning services Sept. 13.

Aziz was wielding a handgun and wearing camouflage pants, a tactical vest, combat boots and a helmet when he allegedly said, "People are going to die today," KLTU-7 reported Monday.

"Immediately my mind went to the fact that I knew we had several children and young members that were playing and running in the fellowship hall, I mouthed to them, 'This man has a weapon, I need

An atheist organization forced a schoolteacher to paint over her board for student prayer requests.

The Appignani Humanist Legal Center, a division of the American Humanist Association, sent a [letter](#) to the Mississippi school district, threatening a lawsuit if teacher Randi Rogers did not remove her "prayer request" board.

"The teacher's actions in displaying the 'Prayer Requests' board, which she seems to acknowledge is illegal, and her insistence on continuing to take prayer requests and keep the board up (even if she must remove the word 'prayer') violates the Establishment Clause of the First Amendment," the letter reads.

Hundreds of Muslims fleeing their home countries are finding their peace in Christianity, according to recent reports.

In his Berlin church alone, Pastor Gottfried Martens has seen his congregation swell to close to 600 as refugees accept Christ, the *Associated Press* reports.

However, the nagging belief remains that the men and women are only in church to claim asylum and not give their hearts to God.

"I know there are—again and again—people coming here because they have some kind of hope regarding their asylum," Martens tells the *AP*. "I am inviting them to join us because I know that whoever comes here

SAUDI KINGDOM SAYS "WE WILL BUILD 200 MOSQUES IN GERMANY!"

SAUDI ARABIA HAS REPORTEDLY RESPONDED TO THE GROWING NUMBER OF PEOPLE FLEEING THE MIDDLE EAST FOR WESTERN EUROPE – BY OFFERING TO BUILD 200 MOSQUES IN GERMANY.

***EDITOR'S NOTE:** Germany, the same nation that brought you Hitler's Holocaust just a generation ago, are about to themselves be victims of a new holocaust of jihad, one of their own making. Muslims are focusing their efforts on bringing down Germany, the strongest and wealthiest of all the EU nations. Muslims never assimilate, they patiently gather in number and when in large groups they attack. Just wait till no German pork store will be able to sell their products, and German beer? Fuggetaboutit. The nearly one million Muslim migrants will with one voice rise up and DEMAND Sharia concessions, and they will get them. Welcome to Germanistan.*

Syria's richer Gulf neighbours have been accused of not doing their fair share in the humanitarian crisis, with Bahrain, Kuwait, Qatar, Oman and the UAE also keeping their doors firmly shut to asylum-seekers.

According to the Frankfurter Allgemeine Zeitung, which quoted a report in the Lebanese newspaper Al Diyar, **Saudi Arabia would build one mosque for every 100 refugees** who entered Germany in extraordinary numbers last weekend.

Producers of the recently-released faith-based film *Audacity* were contacted last week by Chris Routson of Middletown, Ohio, who wanted to share with them his story of recommending the film to two lesbian co-workers and subsequently being fired after 13 years as a well-regarded employee.

"I have had good reviews from my supervisors for the past 13 years at my job, and I have always been outspoken about my faith to other employees and have never had any problems up until the last week of my employment," Routson said.

Routson was told that he was terminated not because of his faith, but for making his co-workers "uncomfortable." He was first told to stop doing this after he friended one of his lesbian co-workers on Facebook, and recommended the film *Audacity* to her on his own time from home.

Christian Coach Under Investigation For Post-Game Prayers

17 SEPTEMBER, 2015

A football coach in Washington is under investigation for praying on the field after games. Joe Kennedy, the assistant head coach for the varsity team at Bremerton High School and the head coach for the junior varsity team, takes time after each game to pray at the 50-yard line. According to reports, Kennedy prays of his own volition and sometimes prays alone, but there are also instances when students and players decide to join him.

This Politician Just Called Traditional Marriage Supporters 'Neanderthals'

17 SEPTEMBER, 2015

David Cameron privately described opponents of gay marriage as 'Neanderthals', according to a new biography on the Prime Minister. The revelation came in a biography, written by Sir Anthony Seldon and Peter Snowdon, which was compiled from over 300 interviews with senior figures at Number 10. Sir Anthony said that the issue of gay marriage was very divisive in the party, with some calling it a "self-inflicted wound."

OBAMA RAISES THE RAINBOW FLAG OVER THE UNITED STATES ARMY WITH NEW NOMINATION

PRESIDENT OBAMA, IN A HISTORIC FIRST FOR THE PENTAGON, HAS CHOSEN TO NOMINATE ERIC FANNING TO LEAD THE ARMY, A MOVE THAT WOULD MAKE HIM THE FIRST OPENLY GAY CIVILIAN SECRETARY OF ONE OF THE MILITARY SERVICES.

Fanning's nomination is the latest in a series of actions taken by the administration to advance the rights of gays and lesbians throughout the federal government. The Obama administration has overhauled internal policies to provide benefits to same-sex partners, appointed gay men and lesbians to the executive branch and the federal bench and ended the 18-year ban on gays serving openly in the military.
