

تعليق على بعض الاحداث العالمية

والعلامات حتى 12 يناير 2016

Holy_bible_1

اكرر اننا لا نحدد مواعيد بل فقط نشجع بعضنا بعضا بقرب مجيء المسيح

وأیضا أوضح أنه يوجد نبوات لم نراها بعد مثل ابن الهلاك وهرمجدون

ولكن ایضا علامات كثيرة من التي قال عنها الكتاب انها في الزمان الاخير بدأت تحدث بوضوح

ويجب أن ننتبه اليها. ونذكر بعضنا باننا نحتاج ان نستعد. والاستعداد ليس فقط قبل مجيء

المسيح بل ایضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر

هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه. بمعنى نحتاج من الان ان نستعد بقوة بأيمان

عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيقة اقتربت

جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت

سيكون صعب جدا بل أستطيع ان أقول من مثل العذارى انه لن يكون هناك زيت الا ما جمعه

سابقا. أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشتر اشاعات ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لانه كان مستعد ومنتظر مجيء المسيح ولم ياتي المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَأَن تُوْمِنُونَ.

ثالثا لننتبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَاَنْتَصِبُوا وَاَرْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ».

Polar vortex to usher widespread cold, snow chances into US during mid-January

By Alex Sosnowski, AccuWeather.com Senior Meteorologist
January 6, 2016; 7:30 AM ET | Share

A glancing blow from the polar vortex will direct cold air southward and could raise the chance of snow in the central and eastern United States toward the middle of January.

The pattern of cold air coming and going will be a theme through January.

Vanuatu on red alert as Cyclone Ula, category 4 storm, approaches

REUTERS

By Morag MacKinnon

January 10, 2016 3:07 AM

By Morag
MacKinnon

PERTH, January
10 (Reuters) -

Residents of Vanuatu are taking shelter as a category four cyclone brings heavy rain and strong winds

to the same area devastated by the largest cyclone in the South Pacific island nation's history last year, aid workers said on Sunday. Disaster management authorities have issued a red alert for islands in Tafea, the southernmost of Vanuatu's six provinces, a spokesman of CARE Australia told Reuters.

LONDON- A 6.9 magnitude earthquake struck on Monday, around 330 km (205 miles) north-northwest of Indonesia's Molucca Islands, the US Geological Survey said.

The USGS said the quake was 102 km deep.

The NOAA Pacific Tsunami Warning Center said that, based on available information, "a destructive Pacific-wide tsunami is not expected.

Earthquakes shake out data showing unknown fault line in Edmond area

by Adam Wilmoth • Published: January 1, 2016 •

shares

The swarm of earthquakes that rattled Edmond this week reveal a previously unknown fault line and could signal additional shaking in the area, according to seismologist Daniel McNamara.

The research geophysicist at the U.S. Geological Survey's Geologic Hazards Science Center in Golden, Colo., has been studying the state's ongoing earthquake swarm.

Researchers have used oil and natural gas industry data and other maps to identify previously undocumented fault lines. But sometimes faults are revealed when a series of earthquakes fire off with epicenters in a linear pattern.

"These are all ancient faults that have not been active since the days of the dinosaurs," McNamara said. "They're being reactivated at depth. They don't even come to the surface. They're all 5 to 10 kilometers down."

This week's quakes indicate a fault that runs northeast at least two miles from near Interstate 35 and Second Street, McNamara said. Because the newly revealed fault is not on any existing fault map, it's difficult to tell how far it extends or whether it underlies more of Edmond or connects to a larger fault, he said.

Dispose of Waste MCC again, Thousands of Dead Fish in the River Kerumutan

Saturday, January 2nd, 2016 | 15:28:22 [Tweet](#)

Palawan, riaueditor.com - Thousands of dead fish lying on the surface Kerumutan River. Allegedly, the death of thousands of fish this river due to sewage contaminated Palm Oil Mill (MCC) oil palm plantation PT Makmur Mainstay Oil (PT MAS) operating in the village of Dusun Tua District of Pangkalan Lesung.

PHOTO: IST

Thousands of dead fish were found local residents on Thursday (31/12) yesterday morning. Some types of fish poisoning among catfish flounder, sabaan yellow fish, fish tunggik, toman rice or cork, and bade fish (full moon).

"There are hundreds of kilograms of fish were collected residents. The fish are floating on the surface of the river. There are dead and some are already weak gasping dying," said Saidina Ali (56), Chairman of the District Pokmaswas Base Dimples.

Saidina Ali were also community leaders in District admitted Dimples got a call of local residents. "I was with the Department of Fisheries Base Dimples UPTD straight down taking samples of water and fish," he explained as he mentions in addition to citizens taken many more fish are still floating in the River Kerumutan precisely in Base Village Tambun Malako District of Bandar Petangan.

"The cause of death of these fish are allegedly due to sewage spills MCC PT MAS operating in the village of Dusun Tua Subdistrict Base Dimples," he said, adding besides fish floating in the river brought palm oil spill seems to flow from the downstream of the river.

Dead fish shock after 'red sea'

Published on: Wednesday, January 06, 2016

Email to a friend

Printer Friendly

KUANTAN: A week after the "red sea" phenomenon at Balok beach here, nearby villagers were in for another shock Tuesday when they found hundreds of dead fish floating in Sungai Tonggak near Gebeng.

A restaurant operator at the village, Khairul Azmi Yahya, 30, said he realised the odd occurrence where hundreds of fish were found floating in the river and stranded on the banks at 7am, when he was about to open shop.

"It was strange because there were many white objects floating in the river and when I went closer, I realised they were actually mullets.

"I wondered why only mullets were turning up dead, as the fish is known to be highly resistant," he said when met here Tuesday.

Khairul Azmi added that many residents who were on their way to stopped by to watch and take pictures of the occurrence.

He said, however, the number of fish (being washed up the bank) had declined in the afternoon as they were drifted away by the currents.

"I hope the cause of death of these fish can be informed to the people here, because there are some industries around the river. It is worrying as there could be chemicals that may be harmful to health or to children who play in the water here," he said.

Meanwhile, another restaurant operator Rafizah Abdul Rahman, 25, hoped all the fish would be swept away by high tides Tuesday evening, as she feared the stench of dead fish may affect her customers or residents in the village.

Meanwhile, Pahang Fisheries Director Adnan Hussain when contacted confirmed the department had received a report on the death of the fish and they had collected samples to determine the cause of the incident.

"We have taken water samples and tested certain parameters such as the rate of dissolved oxygen, turbidity levels and the pH of the water in the area," he said.

The death of fish in the ponds of **Maricá** (RJ) mobilizes cleaning agents since Saturday (2). According to the municipality, the occurrence was reported to the State Environmental Institute (INEA) and the collection of samples of water for analysis and determination of the causes was requested. County teams collect the fish ponds.

A resident reported the death toll in the Lagoon Maricá Bar (photo) on Saturday morning. The situation is also repeated in Jacaroá Lagoon. The INEA reported that, on Tuesday (5), will make a survey in locations where the occurrence was found.

According to the Municipal Assistant Secretary for the Environment, the phenomenon is usually associated with increased the city's population, when the volume of illegal dumping of sewage in ponds increases. The council also reported that one of the possible causes is the extreme heat and other factors that interfere with the oxygenation of the water.

Photos: Over 100 tons of dead fish in Dong Nai River

Tonnes of fish bred in floating rafts in Bien Hoa City, southern Dong Nai Province have died in the past few days, causing vast damage to local farming households.

Fish farmers in Dong Nai Province's Hiep Hoa Commune have been selling fish for cheap following mass deaths there in the last few days.

Fish breeder Le Van Khiem in Hiep Hoa Commune said local people were heartbroken about having to see dead fish belly up in a section of the Cai River.

He estimated in his floating-raft area alone up to 200kg of fish died each day.

"This is a brood of fish that we invested all our money in, aiming at serving the increasing consumption in Tet," Khiem said.

Breeders had to barter dead fish away at a cheap price to animal-feed processing plants. Khiem said he and many other breeders estimated to suffer hundreds of million dong in losses in this period.

Local breeders are investing money to install oxygen machines at fish-breeding floating rafts, aiming at rescuing the rest of the fish.

Hiep Hoa Commune now has 241 households breeding fish in floating rafts.

AMALFI ENVIRONMENT

ROBERTO
MONTAÑEZ 2016

About two thousand dead fish have appeared on the banks of Porce river for three days, mortality occurred in the sector Naranjales of Tinatacita, municipality of Amalfi, sidewalk now the fact is being investigated by the environmental authority Corantioquia and officials EPM.

On Wednesday water samples were collected from various sections of the river, between Amalfi and Anorí limits, to establish the causes of environmental disaster, **which until now handles the hypothesis of a possible poisoning by chemicals used in artisanal mining.** A presumption which has an important precedent as the secretary of government of the municipality of Amalfi, Diego Ríos: "In previous years we had a case of poisoning of fish with cyanide, the product of a mine that was approved and closed, are developing research to establish the exact extent of the disaster and determine the cause. "

Corantioquia reports that so far there have been similar cases of deaths of fish the river Cauca and Magdalena sections due to the low flow of the dry season, **which is analyzing samples of Porce river to rule out a case of poisoning.**

So far there have been no human poisonings in the affected municipalities, despite the consumption of these fish by residents of the sector. The mayor calls the community to avoid eating fish Porce,

Collapse Of Wild Bee Populations To Devastate Supply Of Almonds, Blueberries And Apples

8 JANUARY, 2016

Wild bees are disappearing in some of the nation's most crucial agricultural areas – a phenomenon that may have devastating effects on crops such as blueberries, almonds and apples. That's the conclusion of researchers at the University of Vermont's Gund Institute for Ecological Economics, who have prepared the first national map of bee populations in response to a 2014 White House memo calling for a "national assessment of wild pollinators and their habitats."

Christian Pilgrimage

A once in a lifetime experience Awaits you in the land of the bible

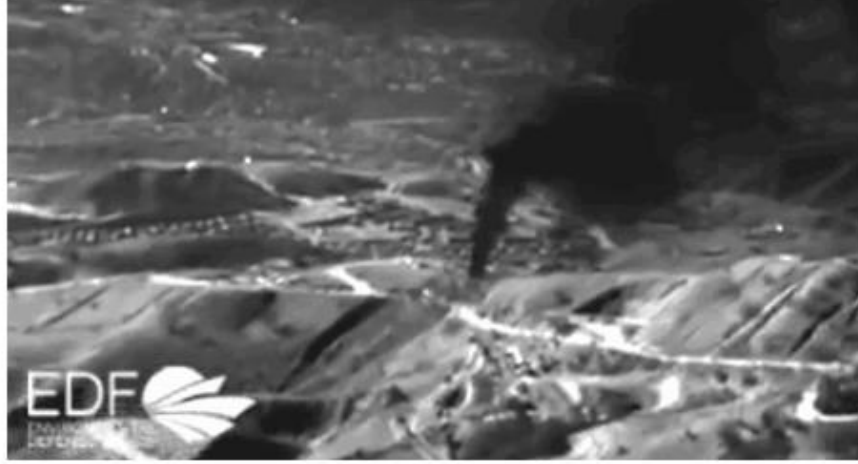

Shop now

Their research is further confirmation that something is causing a rapid decline in wild bee populations in the United States – a decline which could soon begin having noticeable effects in terms of prices and availability of the many foods which depend on wild bee pollination, while

Unprecedented Catastrophe Underway Near Los Angeles, California - Why Haven't We Heard About This From The Mainstream Media?

By Stefan Stanford - All News Pipeline - Live Free Or Die

The story over at ENENews tells us about the largest gas leak ever recorded, equivalent to the strength of a volcanic eruption, and according to one expert, "It's so far above and beyond what I've ever seen." Telling us that what we're now watching unfolding in Los Angeles (with barely a peep from the mainstream media!!!) is 'potentially devastating on a planetary scale', we're also told we're watching a disaster unfolding in slow motion that may take up to 4 months or more to stop and is leaving thousands of Californians suffering nosebleeds and vomiting according to this story.

Being called the biggest environmental disaster since the 2010 BP oil spill, activist Erin Brockovich joins Democracy Now in the 2nd video below to talk about this unbelievable mess that has left one California city a 'ghost town' as shared in the 3rd video below while in the 1st video below, we hear the warning from a medical doctor, "if you're in the area, get out now!"

A little-known, untreatable virus is quickly spreading across the Americas

By Lydia Rameey
January 4, 2016 5:31 PM

(AP Photo/Felipe Dana)

A baby in Brazil born with microcephaly, a condition in which the brain is abnormally small.

A little-known virus is gaining a major foothold in South and Central America.

The Zika virus, which has only recently moved beyond Africa and Southeast Asia, has already had debilitating effects in the Americas. It's especially problematic in Brazil, where it appears to be connected to a serious birth defect.

The Zika virus was originally identified in [1947 in Uganda](#). It's primarily transmitted by tropical mosquitoes — the same kind known for spreading dengue — that pick up the virus from infected people, [according to the CDC](#). It was relatively unknown until 2007, when there was an outbreak of the virus in [Micronesia](#).

A scientist has called the new superbug one of the most Important Issues of the year.

A superbug that first inflicted pain in China but has now been discovered in Canada and a dozen other countries is sounding alarms within the medical community, with one health professor calling it the biggest, but most under-reported, story of 2015.

When can you retire?

"It's clearly the biggest story to come out [in 2015]," said Lance Price, a professor of environmental health at George Washington University, where he studies antibiotic resistance, the Star reported. "There have been horrible things all year, but this is the most disturbing."

Rise Of Bedbugs In The United States

10 JANUARY, 2016

A guy in Detroit – the No. 1 city in America for bedbug infestation – got so bugged early Sunday by the lingering problem in his apartment that he sprayed himself with alcohol to kill the pests. But, later, when he lit a cigarette he nearly killed himself along with the bedbugs. He's recuperating from severe burns. Not everyone plagued with bedbugs is as fortunate as this victim. It turns out the bedbug infestations spreading through major cities in America are actually *killing* people.

North Korea has set the world on edge with its claimed successful hydrogen-bomb test.

The United States and Japan have called on the U.N. Security Council to hold an emergency meeting to discuss North Korea's claim of a successful hydrogen-bomb test, an act that violates several international resolutions.

Terrorism-related arrests made in Sacramento, Houston

By Don Thompson Associated Press

2 COMMENTS

SACRAMENTO, Calif. -- Authorities said Thursday that two people with ties to the Islamic State have been arrested on terrorism-related charges in California and Texas, including a refugee from Syria who is charged with lying to federal investigators about his travels to the civil war in that country.

The arrests feed a national debate over whether the United States is doing enough to screen refugees from Syria for terrorists from that nation.

Court documents say the men wanted to aid terrorist organizations affiliated with the Islamic State group. However, one man is accused of assisting a group that allied with the Islamic State organization only after he had returned to the United States. He earlier said he wouldn't join Islamic State group himself because it was killing fellow Muslims.

A criminal complaint unsealed Thursday accuses that man, Aws Mohammed Younis Al-Jayab, 23, of Sacramento, of traveling to Syria to fight and lying to investigators about it. U.S. Attorney Benjamin Wagner said in a statement that while Al-Jayab was potentially dangerous, there is no indication that he planned any attacks in the United States.

The number of U.S. newborns named "Mohammed" has jumped 100-fold since 1964, one way of determining the growth of second and third generation Muslims, according to a leading immigration watchdog.

Based on Social Security Administration baby name figures, there were only 29 babies born with one of the spellings of Mohammed in 1964. That has surged to 2,931.

STUDY: OBAMA HAS ISSUED MORE RESTRICTIVE EXECUTIVE ORDERS THAN PAST SIX ADMINISTRATIONS

Uses more words that create binding, legal obligations, such as 'shall' and 'must'.

Steve Watson | Infowars.com - JANUARY 6, 2016 195 Comments

A study undertaken by the Mercatus Institute reveals that President Obama has used more restrictive executive orders than his previous SIX predecessors in the White House.

Despite Obama running on a campaign promise not to abuse executive orders, the findings indicate that while he has not used as many orders as past Presidents, the language in Obama's executive orders is much more restrictive.

UN Agenda 2030: A Recipe for Global Socialism

Written by [Alex Newman](#)

[Tweet](#) [Share](#) [Like](#) 1.9k

font size | [Print](#) | [Email](#)

The United Nations and its mostly autocratic member regimes have big plans for your life, your children, your country, and your world. And those plans are not limited to the coercive "climate" agreement recently concluded in Paris.

While the establishment media in the United States was hyping ISIS, football, and of course "global warming," virtually every national government/dictatorship on the planet met at the 70th annual General Assembly at UN headquarters in New York to adopt a draconian 15-year master plan for the planet. Top globalists such as former NATO chief Javier Solana, a socialist, are celebrating the plan, which the summit unanimously "approved," as the next "Great Leap Forward" — yes, the old campaign slogan of the Chinese Communist Party.

ULINE Shipping Supplies

www.ULINE.com

Huge Catalog! Over 30,000 Products. Same Day Shipping from 11 Locations

The master plan is comprised of 17 "Post-2015 Sustainable Development Goals" (SDGs) with 169 specific "targets" to be foisted on all of humanity — literally all of it, as the plan itself states explicitly. "As we embark on this collective journey, we pledge that no one will be left behind," reads the UN manifesto, entitled *Transforming Our World: the 2030 Agenda for Sustainable Development*. But if you love liberty, self-government, free markets, or the U.S. Constitution, you will almost certainly be wishing that the UN would leave you behind.

Officially dubbed "Agenda 2030," the UN plot, as its full title suggests, is aimed at "transforming" the world. The program is a follow-up to the last 15-year UN plan, the defunct "Millennium Development Goals," or MDGs. It also dovetails nicely with the deeply

'Pope Francis' Calls for Collaboration With World's Religions, Those Who 'Meet God in Different Ways'

By Heather Clark on January 9, 2016 · 20 Comments

ROME — In his first-ever video declaring his "prayer intentions," the Roman Catholic leader Jorge Bergoglio, also known as Pope Francis, called for dialogue and collaboration among those of the various world religions on Tuesday, asserting that they are simply "seeking or meeting God in different ways."

"Most of the planet's inhabitants declare themselves believers," he states in the production released on the Feast of Epiphany. "This should lead to dialogue among religions. We should not stop praying for it and collaborating with those who think differently."

Investment Expert Warns The Economy Is 'Ten Times Worse' Than In 2008 And Will Inevitably Implode

5 JANUARY, 2016

Economic experts and long-time investors continue to sound the alarm that the global economy is not all it is made out to be and in fact has been teetering on the edge for some time. While no one has a crystal ball, experts see signs of danger, especially if certain conditions occur.

One of them is Daniel Ameduri, who – in a recent report to subscribers of the Weekly Wealth Digest, offered via the Future Money Trends website and republished by The Daily Sheeple – noted that the global economy has yet to really recover from the “Great Recession” of 2008. “For the past 7 years, the world has been living through a really ugly experiment, hyper-Keynesian economics,” Ameduri begins.

BREAKING NEWS - China Stocks Halted Again!

6 JANUARY, 2016

(BREAKING NEWS) Chinese stock exchanges closed early for the second time this week after the CSI 300 Index plunged more than 7 percent. Trading of shares and index futures was halted by automatic circuit breakers from about 9:59 a.m. local time. Stocks fell after China's central bank weakened the currency's daily reference rate by the most since August.

"The yuan's depreciation has exceeded investors' expectations," said Wang Zheng, Shanghai-based chief investment officer at Jingxi Investment Management Co. "Investors are getting spooked by the declines, which will spur capital outflows."

Chinese markets plunge again causing more global shudders

The volatility in Chinese markets has continued. They were down sharply at the close on Monday, dragging Asian markets down with them.

The Shanghai Composite was 5.33 percent down, on top of the 10 percent plunge last week that sparked a global sell-off of risky assets.

The Shenzhen Composite was down even more – 6.6 percent, while the Hang Seng index was down 2.76 percent.

The fluctuations on Asian markets and falling oil prices combined to cause the Moscow stock exchange to drop more than four percent.

Russia's troubled rouble fell to levels against the dollar and euro not seen since the currency slump of December 2014.

European shares inched down towards their lowest level in more than three months as doubts grew about Beijing's ability to manage the world's second biggest economy.

The weekend saw more weak data and China has let the yuan strengthen for a second consecutive session.

World attention has focused in recent months on an acute refugee crisis occasioned by the mass migration to Europe of hundreds of thousands now fleeing the Syrian civil war. Less noticed has been another refugee crisis at least as ominous as that underway in the Middle East and Europe -- the fleeing of money from China.

What's going on, and why is it ominous?

To understand what is happening, we must first remind ourselves what happened in the U.S. and global economies in 2008 -- and how China responded to it.

In 2008, the U.S. experienced the precipitous crash of what had been a highly overvalued real estate and associated bond market. Those markets' prices had been driven by cheap credit used by investors to speculate in residential real estate and mortgage-related financial instruments. Because these investments had been financed by private debt, post-crash investors found themselves suddenly owing much more than they owned -- their assets had plummeted, but the debts that they had incurred to buy them had not.

A school's Pledge of Allegiance tradition that started after the Sept. 11, 2001, terror attacks has ended due to legal threats by the American Civil Liberties Union.

Students at Glenview Elementary School in Haddon Heights, New Jersey, began saying "God bless America" in 2001 each morning after reciting the Pledge of Allegiance. A recent letter by the ACLU's New Jersey chapter brought the tradition to a halt.

ATLANTA —

A female teacher who identifies as a male is set to open a private school for homosexual and transgender youth in Georgia later this year.

The "Pride School of Atlanta" will

teach children K-12 beginning in September, and will operate out of a Unitarian Universalist facility in the city. The first of its kind educational institution will cost \$13,000 a year in tuition fees.

Founder Christian Zsilavetz, 45, says that she never felt support while teaching as a male in public schools, and decided to found her own school where children could be open about their homosexuality or transgender desires.

In the latest move that suggests that a bare five-lawyer, same-sex "marriage" endorsing majority on the U.S. Supreme Court is far out of step with many Americans, lawmakers in South Carolina have proposed the South Carolina Natural Marriage Defense Act, which would withdraw recognition of homosexual duos.

"I represent the people, and the people have shown several times that they are opposed to this, and are in favor of traditional marriage," state Rep. Bill Chumley, R-Woodruff, said in a report in GoUpstate.com on Tuesday.

He was joined by Rep. Mike Burns, R-Taylors, in prefiling a bill in the House to "define marriage as between one man and one woman."

Alabama top justice tells judges not to issue gay marriage licenses

Published January 06, 2016 · FoxNews.com

Feb. 9, 2015: Supporters of same-sex marriage hold signs outside the Jefferson County Courthouse in Birmingham, Alabama. (Reuters)

Alabama's top justice said Wednesday that state probate judges should not issue same-sex marriage licenses, despite the Supreme Court's landmark ruling legalizing gay marriage last year.

Alabama Supreme Court Chief Justice Roy Moore cited conflicting rulings and said until they are resolved, a prior directive from March telling judges to comply with the state's gay marriage ban would remain in effect.

فالاضطهاد يزيد والاضطراب يزيد والزلازل والابوئة والفساد الأخلاقي يزيد والالحاد يزيد

فلهذا أقول المسيح اقترب ميعاد مجيؤه لا احدد مواعيد بل ارفض من يحدد مواعيد ولكن اطلب

أن نصلي ونستعد ونعد زيت لمصابيحنا لاستقبال العريس بالصلاة والصوم وخدمة أبناء الله وتنقية القلب والاستعداد بلبس العرس.

رسالة بولس الرسول الي أهل رومية 13

13: 11 هذا وأنكم عارفون الوقت انها الان ساعة لنستيقظ من النوم فان خلاصنا الان أقرب مما كان حين امنا

13: 12 قد تناهى الليل وتقارب النهار فلنخلع اعمال الظلمة ونلبس اسلحة النور

13: 13 لنسلك بلياقة كما في النهار لا بالبطر والسكر لا بالمضاجع والعهر لا بالخصام والحسد

13: 14 بل البسوا الرب يسوع المسيح ولا تصنعوا تدبيرا للجسد لأجل الشهوات

احترس ان لم تتمسك بالمسيح من الان قد لا تستطيع في المستقبل القريب بسبب الظلام.

وكما قلت هو اخبرنا لكي لا نخاف

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

بطرس الأولى 3: 14

وَلَكِنْ وَإِنْ تَأَلَّمْتُمْ مِنْ أَجْلِ الْبِرِّ، فَطُوبَاكُمْ. وَأَمَّا خَوْفُهُمْ فَلَا تَخَافُوهُ وَلَا تَضْطَرُّوْا،

بل نؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَأَنْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

افرحوا لان عريسنا قد اقترب مجيؤه. وانتبهوا الشيطان يريد أن نفقد سلامنا ولا ننال أكاليل.

وأیضا استعدوا فقد تسلموا وديعتكم في أي وقت فهناك 150 ألف شخص يموتوا في اليوم الواحد

انت لا تعرف متى ستكون منهم

المسيح اقترب فاصنعوا ثمار تليق بالتوبة واستعدوا لاستقبال العريس.

والمجد لله دائما
