## والعلامات حتى 29 مارس 2016

Holy\_bible\_1

اكرر اننا لا نحدد مواعيد بل فقط نشجع بعضنا بعضا بقرب مجيء المسيح

وأیضا لا اقصد ان اخيف أحد بل من يخاف هو لا يثق في مواعيد الرب

هدفي فقط أن نذكر بعضنا باننا نحتاج ان نستعد. والاستعداد ليس فقط قبل مجيء المسيح بل

ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة

وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من

الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا

لان الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة

لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذارى انه لن يكون هناك

زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان  
سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات ولكنه يأتي بسرعة  
بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي المسيح في زمنه  
ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

## سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانُ تُوْمِنُونَ.

ثالثا لننتبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

علامات في السماء

المذنبين الذين عبروا بمقربة شديدة من الأرض كانوا أسخن وأكبر من المتوقع

## See 'twin' comets buzz Earth hotter and brighter than expected

Two comets, perhaps fragments of the same larger space rock, will make two of the closest in modern history, one right after the other.

Sci-Tech

March 21, 2016  
9:13 AM PDT

  
by *Eric Mack*  
@ericcmack

There's something truly unique happening in the space around our planet this week as a pair of comets, which may be "twin" space rocks that broke apart at some point, make two of the closest passes by Earth in modern history.

To add a little to the cosmic drama, the larger of the twins is coming in much brighter than expected. So bright, in fact, that it may be possible to see it with the naked eye.

Comet P/2016 BA14 was first spotted by the PanSTARRS telescope in Hawaii in January and was originally assumed to be an asteroid. But a second round of observations by a University of Maryland and Lowell Observatory team revealed a faint tail that led astronomers to conclude the object was actually a comet.

# Storm shuts Denver airport, could hit Midwest with more than a foot of snow

Published March 23, 2016 · FoxNews.com

A powerful spring storm forced Denver's airport to shut down Wednesday and could dump more than a foot of snow as it bears down on the Midwest.

Continued snow and blowing wind has reduced visibility at Denver International Airport so officials say it's not safe for aircraft to take off or land. It's also made the road to the airport impassable. The airport is asking passengers already at the airport to remain there until conditions improve and they can safely drive away.

### Polar vortex to plunge cold into midwestern, eastern US in early April

By **Alex Sosnowski**, AccuWeather.com Senior Meteorologist  
March 27, 2016; 6:40 AM ET

Share | f t in

Arctic air will plunge into much of the central and eastern United States, as the polar vortex shifts its position during early April.

Following a pattern favoring more warm days than cold days into next week, a change will likely bring record cold to parts of the Midwest and East.

"The polar vortex will drop into Ontario during the first weekend in April," according to AccuWeather Long-Range Meteorologist Joe Lundberg.

## Are 'Water Wars' imminent in Central Asia?

Once a zone with perfect conditions for farming, Ferghana Valley is today under threat of desertification.

Mansur Mirovalev | 23 Mar 2016 11:48 GMT | Environment, Asia, Water, Uzbekistan

Disappearing glaciers threaten cultivation in Uzbekistan's orchards [Timur Karpov/Al Jazeera]

**Kuva, Uzbekistan**- This town sits in the corner of the most fertile piece of land between Iran and China.

The overpopulated, Israel-sized Ferghana Valley has attracted the armies of Alexander the Great, Arabs, Mongols and Russian tsars. It has also spawned some of the bloodiest conflicts in the former Soviet Union, including ethnic clashes, incursions of armed Islamists and the [Uzbek government's merciless crackdown on a 2005 popular revolt](#).

The glaciers and snows of the Tian Shan mountains around the valley give birth to the Syr Darya, one of Central Asia's two major rivers, and turn the valley into a giant hothouse with nearly perfect conditions for farming. Border areas in nearby Xinjiang, China's troubled Muslim region, also depend on Tian Shan's glaciers for water.

## Whole United States Moves In 48 Hours - West Coast Earthquake Causes East Coast Swarm.

**23 MARCH, 2016**

Over the past 48 hours (up to 500pm CT March 22, 2016), there has been a noticeable progression of earthquakes which occurred from the West coast to the East coast. The whole North American plate was displaced nearly 5 days ago by a larger M5.2 earthquake off the West coast. This displacement has now resulted in multiple M4.0+ earthquakes at the California border, and more rare East coast earthquake activity in New England + Southeast Quebec Canada.

If you live in Oklahoma, Kansas, Texas, Colorado, New Mexico and Arkansas beware: You are nearly as likely to experience an earthquake as high-hazard areas such as California, but the risk is man-made.

That's the conclusion in a first-ever report made public Monday from the [U.S. Geological Survey](#),

which cites the oil and gas drilling process as triggering the quakes. The assessment of human-induced seismic shaking found 7 million people in the central and eastern U.S. live in the man-made earthquake zone, said [Mark Petersen](#), head of the USGS National Seismic Hazard Mapping Project.

An estimated 17,500 fish have died in what is believed to be a naturally occurring fish kill in the Kimberly region, in Western Australia's far north.

The discovery of the dead fish may be linked to a culmination of environmental factors.

More than 37 different species of fish began washing up dead on beaches near Broome last Monday.

Updated: 2:56 PM, March 22, 2016

Brown tide started in the Mosquito Lagoon and moved west to the northern Indian River lagoon in the summer of 2012. It was the first sign of its kind documented in Florida.

A year earlier, 50 square miles of lagoon seagrass had already died after a different form of excess algae appeared from Titusville to Eau Gallie, and then another from Eau Gallie to south of Vero Beach.

## Breeder links fish death to El Nino phenomenon

Posted on 25 March 2016 - 07:00pm

Last updated on 25 March 2016 - 09:01pm

**LABUAN:** The rise in the temperature of sea water brought on by the El Nino phenomenon is believed to have killed more than 5,000 hybrid grouper at a fish farm here.

Breeder Chia Hock Chok said the cross-bred fish had been dying over the past one month, and he had incurred losses of more than RM5,000.

The 20-cage fish farm at Kg Lubok Temiang has stopped breeding of the fish since.

"I will have to wait until the weather returns to normal. There is no more fish in my cages now," he said.

Another breeder, Ahmad Zaini Zainal Abidin, said he had to take extra care of the hybrid grouper in his four cages at the popular tourist spot of Patau-Patau 1 Water Village which currently had about 300 fish, including fry.

"The fish are still unaffected by the current hot weather, but I need to take extra care as I cannot afford to incur losses," he said.

Ahmad Zaini was among the breeders here who had received government support through the Labuan Fisheries Department.

Department director Anuar Salam Sulaiman advised the affected breeder to lodge a report with his department for assistance.

"We hope we can assist the affected breeder. As soon as we receive the report, we will conduct an analysis to determine the cause of death of the fish, whether it was due to the weather or water management," he said. — *Bernama*

## Brazil confirms 907 Zika-linked microcephaly cases

March 23, 2016

Brazil has confirmed 907 cases of microcephaly and 198 babies with the birth defect who have died since the Zika virus outbreak started in October, authorities said Tuesday.

### Get Your Child Immunized

Immunization Is A Vital Component Of Your Child's Health. Learn More!

Health officials are still working on 4,293 suspicious cases, the Health Ministry said.

Scientists in Brazil say the increase in microcephaly—in which a baby is born with an abnormally small head and often incomplete brain development—is linked to an explosion of the mosquito-transmitted Zika virus, with an estimated 1.5 million people infected.

The World Health Organization is studying the possible connection and calls the Zika outbreak an international health emergency.

Brazil typically reports 150 cases of microcephaly per year.

The birth defect is also associated with mothers who contract syphilis, rubella or toxoplasmosis during pregnancy.

## Mercury Levels On The Rise In California Rivers Could Pose Threat To Wildlife And Agriculture

26 MARCH, 2016

Mercury levels are on the rise in California, largely due to gold mining in the 19th century. Now, the same mercury used to extract gold decades ago, has been detected along the lower Yuba/Feather River system in the state's Central Valley, which could pose a threat to nearby wildlife.

An advertisement for the ACURA ILX. It features a blue ACURA ILX car parked on a road. The text 'ACURA DRIVING PERFECTION' is visible. To the right, there is a promotional offer: 'or, lease the 2016 ILX from \$168\* | 0.9%' with '50 Down' and '\$1,900 Driving Perfection Event Credit included.' Below this, there are buttons for 'Lease Dealer' and 'Build & Price'. The ACURA logo is in the bottom right corner.

The bulk of mercury used for gold recovery in California was derived from mercury deposits in the Coast Range on the west side of California's Central Valley. Between 1850 and 1981, the state's total mercury production exceeded 220,000,000 lb (pounds), reaching its production climax in the late 1870s. Most of the mercury was exported to western states; however, around 12

Sediments like these along the Yuba River in northern California can be eroded by large floods, unleashing mercury pollution into the [water](#).

Credit: Michael Singer [View full size image](#)

Even though the California Gold Rush took place more than a century ago, it left a toxic legacy of mercury pollution that will continue to be a problem for some time, scientists say.

New research shows that [gold](#) mining in the Sierra Nevada mountains between 1848 and 1884 left tons and tons of mercury-contaminated sediments in river valleys downstream, such as the Yuba River valley. About once a decade, large floods lose

enough of this sediment to create a spike in mercury concentrations downriver and in the San Francisco Bay, said Michael Singer, a geologist and hydrologist with joint appointments at Scotland's University of St. Andrews and the University of California, Santa Barbara.

"This is a big [deal](#) because at the moment, there's quite a bit of [mercury](#) contamination that's in the ecosystems of the [San Francisco] Bay and Sacramento Delta," Singer told LiveScience.

A number of US intelligence analysts currently reason that North Korea "probably" has a [miniaturized nuclear warhead](#), according to several US officials who spoke to *CNN* on Thursday.

While that view has not been formally adopted by the US government, it reflects growing concern over North Korean despot Kim Jong-Un's escalating threats and [nuclear tests and missile tests](#) in breach of sanctions.

"He is determined to prove his doubters wrong," one US official told *CNN* regarding Kim, even as US analysts are scouring over recent photos showing the North Korean leader standing next to what is said to be a miniaturized nuclear device, which could be placed on a missile.

According to the sources, US officials who think Kim has a nuclear warhead note that they aren't sure if the device would actually work.

## North Korean Propaganda Video Depicts Nuclear Strike on Washington

By CHOE SANG HUN MARCH 26, 2016

SEOUL, South Korea — North Korea released a [propaganda video](#) on Saturday that depicts a nuclear strike on Washington, along with a warning to “American imperialists” not to provoke the North.

The four-minute video clip, titled “Last Chance,” uses computer animation to show what looks like an intercontinental ballistic missile flying through the earth’s atmosphere before slamming into Washington, near what appears to be the Lincoln Memorial. A nuclear explosion follows.

“If the American imperialists provoke us a bit, we will not hesitate to slap them with a pre-emptive nuclear strike,” read the Korean subtitles in the video, which was uploaded to the YouTube channel of D.P.R.K. Today, a North Korean website. “The United States must choose! It’s up to you whether the nation called the United States exists on this planet or not.”

Such remarks are in line with recent threats and assertions from [North Korea](#) about its nuclear and missile capabilities.

D.P.R.K. Today, via Stimme Koreas/YouTube

The North recently threatened a nuclear strike against Washington in retaliation for new United Nations sanctions, which were [imposed this month](#) to punish [North Korea](#) for its most recent tests of a [nuclear device](#) and a [long-range rocket](#).

BEIRUT (AP) — The leader of Lebanon's Hezbollah has warned Israel against attacking Lebanon, saying it will fight any new war with the Jewish state without any red lines.

In an interview with the Lebanon-based Al-Mayadeen station Monday, Sayyed Hassan Nasrallah says the group has a comprehensive list of targets in Israel that includes nuclear reactors and biological research centers it can hit.

**Editor's Note:** [Many Risk a Heart Attack and Don't Know It. Take Dr. Crandall's Online Test Today.](#)

"There will be no ceiling, limits or red lines," he said. "We can strike any target we want inside occupied Palestine."

The Iranian-backed Hezbollah fought Israel to a draw during a ferocious month-long war in 2006. The border between the two countries has been largely quiet since then.

## ISIS Knew Just Where to Hit These U.S. Marines

It was supposed to be a secret where these 200 Marines were headed. And yet the terrorists had them in their sights.

Three days before ISIS militants killed Marine Staff Sgt. Louis Cardin, the U.S. military notified his family—and the families of roughly 200 Marines—that their loved ones had moved off the USS Kearsarge, deployed to the Persian Gulf, to somewhere in northern Iraq. The letter didn't say exactly where he had been deployed two weeks earlier, or why.

But while his family and the American public were largely being kept in the dark, members of the self-proclaimed Islamic State were acquiring detailed intelligence on the

## BELGIAN BROADCASTER IDENTIFIES 2 SUSPECTS IN ATTACKS

BY RAF CASERT AND LORNE COOK  
ASSOCIATED PRESS

BRUSSELS (AP) -- Belgian authorities searched Wednesday for a man pictured at the Brussels airport with two apparent suicide bombers, amid growing suggestions that the bombings of the Brussels airport and subway were the work of the same Islamic State cell that attacked Paris last year.

AP Photo/Geert Vanden Wijngaert

The European Union's capital awoke under guard after 34 people were killed and more than 200 wounded in Tuesday's attacks. The Islamic State group, which was behind the Paris attacks, claimed responsibility for the Brussels bombings, which laid bare Europe's vulnerability to a group trying to spread violence well beyond its bases in the Middle East.

Reuters

In the wake of Islamic State's (ISIS) lethal [Brussels bombings](#) Tuesday in which 34 were murdered and around 200 others were wounded, a top US lawmaker has warned Belgian terrorists are still able to enter America without a visa or thorough security checks.

Representative Ron DeSantis (R-FL), a member of the House Foreign Affairs Committee, told the *Washington Free Beacon* late Tuesday that Congress has warned the administration of US President Barack Obama that Belgium is a terror hotspot, but despite repeated requests the current program has not been changed.

According to the US visa waiver program citizens of Belgium, which is a partner nation in the program, can enter America with minimal background checks - meaning radicalized Muslims can legally travel to the US at will.

"The visa waiver reform, this is something we have been perusing and the (Obama) administration has brushed us off at every turn," DeSantis told *Washington Free Beacon*.

The same week President Obama makes the first trip to Cuba by an American president in almost 90 years, The Rolling Stones will play a free concert in Havana — the first open-air show there by a British rock band.

But changing times in the Communist country haven't stopped tens of thousands from fleeing the island and saying gimme shelter to American immigration officials at

Texas land ports.

From October 2015 to February 2016, more than 18,500 Cubans arrived at Texas' Laredo field office of U.S. Customs and Border Protection, which includes ports from Del Rio to Brownsville. If that trend continues, it will shatter last year's numbers for the same ports, when a record 28,371 crossed. During the 2015 fiscal year, more than 43,150 arrived at the 20 CBP field offices in the United States that process immigrants. More than half — 25,800 — arrived in only the first five months of the current fiscal year.

The president's visit to Cuba Monday was the latest step in his mission announced in late 2014 to normalize relations with the Castro regime.

"I've come to Havana to extend the hand of friendship to the Cuban people," Obama said in a statement Monday. "I'm here to bury the last vestige of the Cold War in the Americas and to forge a new era of understanding to help improve the daily lives of the Cuban people."

## New HIV antibody therapy 'eradicated the virus within TWO weeks'

- New therapy harnesses the power of human antibodies to fight HIV
- Two newborn monkeys injected within 24 hours of exposure to SHIV
- SHIV is an equivalent of HIV that infects monkeys - they are not susceptible to HIV so researchers created a hybrid virus to mimic HIV
- 14 days after treatment the virus was completely cleared from the monkeys
- Experts say if therapy works in humans it could save 'thousands of lives'

By LIZZIE PARRY FOR DAILYMAIL.COM

A new therapy, harnessing the power of human antibodies, has eliminated an HIV-like virus from the bodies of two monkeys, in just two weeks, scientists have revealed.

Monkeys are not susceptible to HIV, so researchers had to create a virus that was part HIV, part simian immunodeficiency virus - the HIV equivalent that infects monkeys.

The infant rhesus macaques were given the treatment within 24 hours of being exposed to SHIV - the hybrid virus, that bears the HIV envelope protein.

Tests performed two weeks later revealed they were completely cleared of the virus, scientists at the Oregon National Primate Research Center said.

They hailed their findings a 'significant development' in the HIV scientific community, raising hopes of a new treatment which could save thousands of lives.

## Crispr will lead to designer babies, says geneticist

by Michael Cook | 18 Mar 2016 | 5 comments

It's worthwhile knowing what the scientist behind the development of CRISPR, the revolutionary gene-editing technology, thinks about the ethics of using it.

In an interview with the Wall Street Journal, geneticist Jennifer Doudna, of the University of California Berkeley, believes that designer babies are only a decade away.

But for the moment, she believes that there should be a moratorium on editing the human genome, especially for traits like eye colour and IQ. "It should not proceed until we have a chance to understand better how the technology operates in those kinds of cells, as well as to provide time for societal consideration," she says. But she does believe that CRISPR should be used to **cure genetic diseases** such as cystic fibrosis and muscular dystrophy. When the wrinkles are ironed out, CRISPR will become as common as IVF is nowadays.

"I wonder if over time people will get comfortable with the idea of human genome editing in embryos, at least if it were going to correct a mutation that would otherwise give rise to a debilitating lifetime disorder and maybe to even remove some kinds of debilitating bad diseases from the human genome completely."

Tinkering with the genome is a momentous step, she acknowledges:

"It's kind of a profound thing because if you really think about it; it really means altering human

#### Vaccines Did Not Save Us – 2 Centuries Of Official Statistics

[Download or view this article as a .pdf file](#)

This is the data the drug industry do not want you to see. Here 2 centuries of UK, USA and Australian official death statistics show conclusively and scientifically modern medicine is not responsible for and played little part in substantially improved life expectancy and survival from disease in western economies.

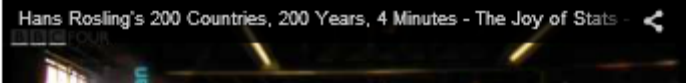

A detailed Contents listing of this article with each category of disease and related graphs appears after the Introduction.

#### Introduction

The main advances in combating disease over 200 years have been better food and clean drinking water. Improved sanitation, less overcrowded and better living conditions also contribute. This is also borne out in published peer reviewed research:

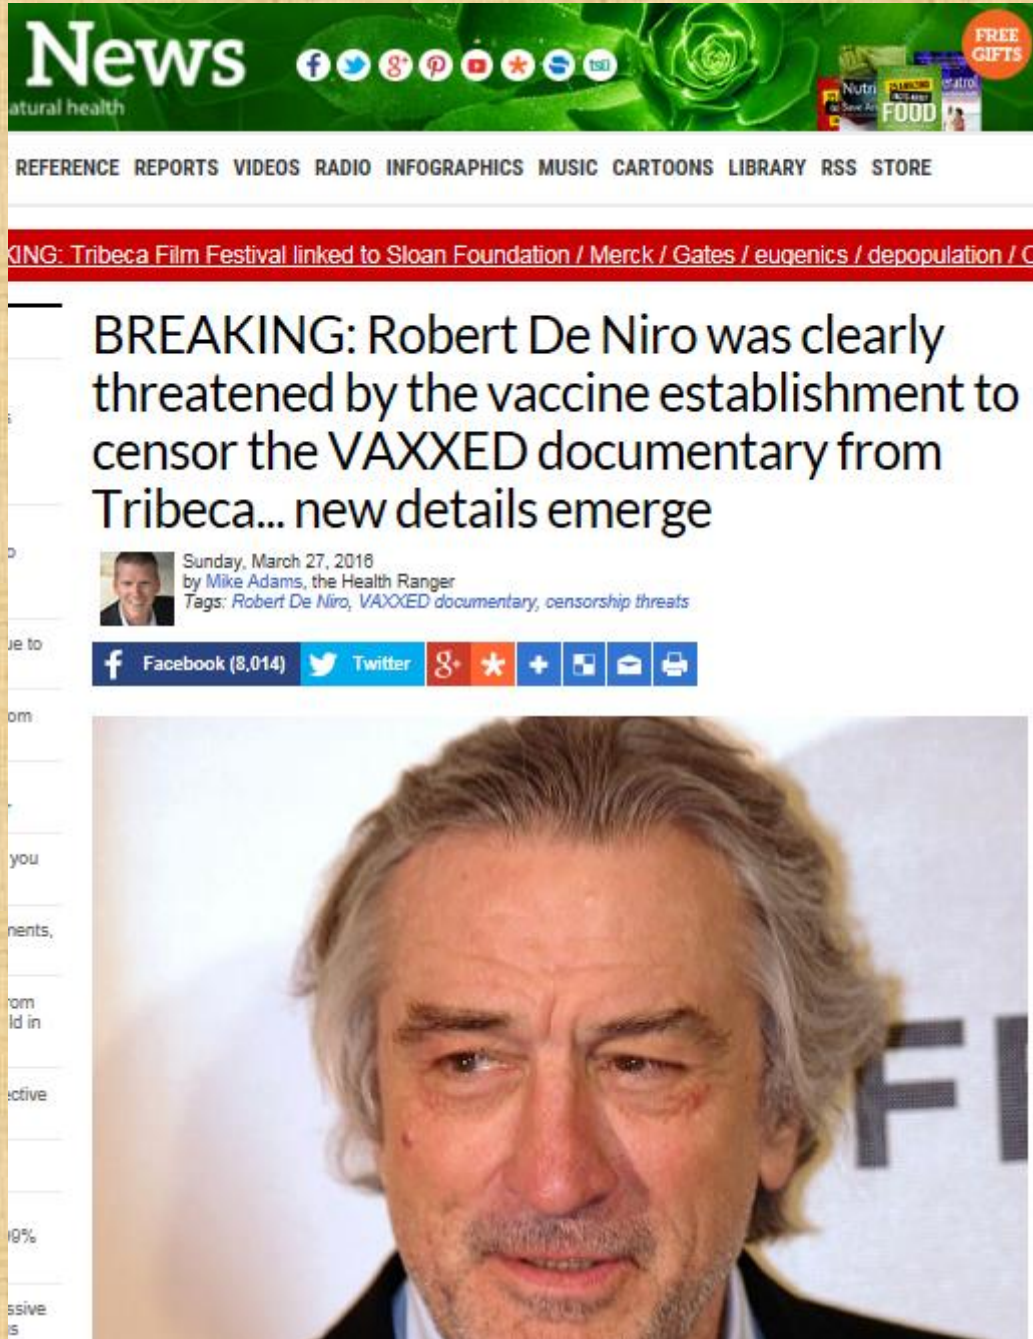

- ["The questionable contribution of medical measures to the decline of mortality in the United States in the twentieth century". McKinlay JB, McKinlay SM, Milbank Mem Fund Q Health Soc. 1977 Summer; 55\(3\): 405-28.](#)
- ["Symposium: Accomplishments in Child Nutrition during the 20th Century. Infant Mortality in the 20th Century, Dramatic but Uneven Progress" Myron E. Wegman School of Public Health, University of Michigan: J. Nutr. 131: 401S-408S, 2001.](#)

In addition to the extensive static graphs below, the following superb BBC FOUR broadcast by Professor Hans Rosling shows how health improved in step with wealth over the last 200 years ["200 countries over 200 years using 120,000 numbers – in just four minutes"](#):

The image shows a screenshot of a TIME magazine article. The article is titled "Whistleblower Claims CDC Covered Up Data Showing Vaccine-Autism Link" and is written by Alice Park. The article is dated August 28, 2014. The article text reads: "The claim, however, may just be more unsubstantiated fuel from the anti-vaccination movement. If you haven't noticed, there's a war going on between those who believe in the health benefits of vaccines – that they can prevent deadly infectious diseases such as measles and polio – and those that believe that the immunizations do more harm than good. Now one of the authors of a 2004 government study that found similar vaccination rates among children with and without autism says the study omitted some". The article is accompanied by a collage of images including a rocket launch, a train, a person, and a fan. The word "SOMETHING'S" is written in large letters at the bottom of the collage.

## The Links between Vaccines and Autism: Congressman Bill Posey Calls For Investigation Of CDC Whistleblower William Thompson

By [Derrick Broze](#)

Global Research, August 14, 2015  
[Truth in Media](#) 12 August 2015

Theme: Media Disinformation, Science and Medicine

Truth In Media has followed the story of scientist Dr. William Thompson since August 2014 when Thompson alleged that a study he worked on "fudged numbers" to lower the number of black children who were adversely affected by a certain type of vaccine. Thompson is a senior scientist at the Centers for Disease Control and Prevention and has been with the agency since 1998.

The statement was released on August 27, 2014 by Dr. Thompson in response to reports that he and co-authors from a 2004 article published in the journal *Pediatrics* did in fact omit important information from a study on the link between vaccines and autism. Below is an excerpt from Thompson's statement.

I regret that my coauthors and I omitted statistically significant information in our 2004 article published in the journal *Pediatrics*. The omitted data suggested that African American males who received the MMR vaccine before age 36 months were at increased risk for autism. Decisions were made regarding which findings to report after the data were collected, and I believe that the final study protocol was not followed.

Dr. Thompson was originally not intending to be so forthcoming about his involvement until it was revealed that conversations he had with Dr. Brian Hooker had been recorded. Dr. Thompson's statement claimed that documents had been handed over to Congressman Bill Posey's office for review. Posey serves on the Committee on Science, Space and Technology.

Join us on our podcast each weekday for an interesting story, well told, from Charisma News. Listen at [charismapodcastnetwork.com](http://charismapodcastnetwork.com).

British people are more likely to believe in ghosts than a creator, and self-identified Christians are more likely to believe in aliens than the devil, according to a new survey.

"There is a tendency to believe in the friendlier parts of faith than those which are difficult to contemplate. People who say they are Christian are more likely to definitely believe in heaven (44%) than hell (27%), and more likely to definitely believe in angels (35%) than the devil (24%)," according to the YouGov study. "British people as a whole are most likely to believe in fate (36%) and alien life (30%), while in net terms belief in ghosts (-9) and karma (-11) is more prevalent than belief in a Creator (-21) or heaven (-21)."

China is looking to buy American - at a never-before-seen clip. **Starwood Hotels & Resorts (HOT)** is just the biggest and latest target.

Chinese investors and buyers have announced plans to spend \$39 billion so far this year buying U.S. companies, says Richard Peterson, senior director at

S&P Global Market Intelligence. This whopping total includes Anbang Insurance Group's offer for hotel chain Starwood Hotels & Resorts, which S&P Global says values at \$15.2 billion.

The pace of Chinese buying of U.S. companies is unprecedented, Peterson says. The value of Chinese bids for U.S. companies just this year is roughly four times the \$9.4 billion of Sino-U.S. deals announced last year and already well above the previous record of \$11.8 billion Chinese companies announced spending in 2013. 2013 was the year China's Henan Shineway Industry Group agreed to buy food processor Smithfield Foods for \$7.3 billion.

## Helicopter Money: Global Central Banks Consider Distributing Money Directly To The People

By Michael Snyder, on March 21st, 2016

Should central banks create money out of thin air and give it directly to governments and average citizens? If you can believe it, this is now under serious consideration. Since 2008, global central banks have cut interest rates 637 times, they have injected 12.3 trillion dollars into the global financial system through various quantitative easing programs, and we have seen an explosion of government debt unlike anything we have ever witnessed before. But despite these unprecedented measures, the global economy is still deeply struggling. This is particularly true in Japan, in South America, and in Europe. In fact, there are 16 countries in Europe that are experiencing deflation right now. In a desperate attempt to spur economic activity, central banks in Europe and in Japan are playing around with negative interest rates, and so far they seem to only have had a limited effect.

So as they rapidly run out of ammunition, global central bankers are now openly discussing something that might sound kind of crazy. According to the Telegraph, central banks are becoming increasingly open to employing a tactic known as "helicopter money"...

## 23 Percent Of Americans In Their Prime Working Years Are Unemployed

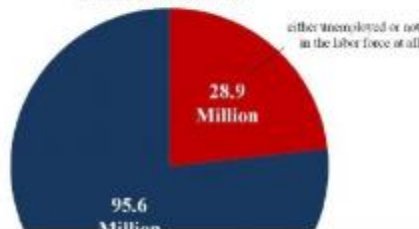

By Michael Snyder, on March 27th, 2016

Did you know that when you take the number of working age Americans that are officially unemployed (8.2 million) and add that number to the number of working age Americans that are considered to be "not in the labor force" (94.3 million), that gives us a grand total of **102.5 million** working age Americans that do not have a job right now? I have written about this [before](#), but today I want to focus just on Americans that are in their prime working years. When you look at only Americans that are from age 25 to age 54, **23.2 percent** of them are unemployed right now. The following analysis and chart come from the [Weekly Standard](#)...

Here's a chart showing those in that age group currently employed (95.6 million) and those who aren't (28.9 million):

Nearly 1 In 4 Americans In Prime Working Years Are Not Employed

Flash 90

A popular Muslim shopkeeper was murdered in Glasgow, Scotland by another Muslim last Thursday, mere hours after posting a warm Easter message on Facebook to "my beloved Christian nation."

The shopkeeper, 40-year-old Asad Shah, was a devout Muslim who originally hailed from Rabwah in Pakistan, reports *The Telegraph* on Saturday. According to an eyewitness, in addition to stabbing him his assailants stomped on his head.

Roughly four hours before his brutal murder, Shah wrote on Facebook: "Good Friday and a very Happy Easter, especially to my beloved Christian nation. Let's follow the real footstep of beloved holy Jesus Christ and get the real success in both worlds."

He was then found seriously wounded on Minard Road, Glasgow, and taken to Queen Elizabeth University Hospital where medical staff were forced to pronounce his death.

Lee Strobel, bestselling author of "The Case for Christ", is now celebrating his 34<sup>th</sup> Easter as a Christian. This, after spending his life prior to the book and his investigation into the reliability of Gospels as an atheist. After finding faith many years ago, he remains as convinced as ever in the truth of Jesus's death and resurrection.

While still an atheist, it was his background as a journalist that prompted Strobel to investigate and conduct extensive research into Christ with the help of religious and historical expert. He originally embarked on the project to discredit the veracity of Christ's resurrection and dissuade his recently converted wife from life as a Christian, but in the end he was

## April 2016: The Temple Of Baal Will Be Erected In Times Square In New York City

By Michael Snyder, on March 22nd, 2016

I realize that the headline of this article sounds like it must be false, but it is actually completely true. The Temple of Baal (**also known as the Temple of Bel**) was a world famous landmark that was located in Palmyra, Syria. In August 2015, this temple was destroyed by ISIS, and most of the world recoiled in terror at the loss of a "cultural heritage site". In an attempt to "preserve history", two exact replicas of the 50 foot arch that stood at the entrance to the temple will be erected in April 2016 in Times Square in New York City and in Trafalgar Square in London. Needless to say, a lot of people are quite disturbed by this. In ancient times, child sacrifice and bisexual orgies were common practices at the altars of Baal, and now we are putting up a monument of worship to this false god in the heart of our most important city.

## EDUCATION

# Michigan Schools To Let Students Choose Gender, Name And Bathroom

PETER HASSON

6:58 AM 03/21/2016

Michigan's State Board of Education has drafted a guidance that would push the state's schools to allow all students, regardless of parental or doctoral input, to choose their gender, name, pronouns, and bathrooms.

Spearheaded by board president [John C. Austin](#) and signed by state superintendent [Brian Whiston](#), the guidance informs Michigan public schools that only the students themselves--i.e. not their parents or doctors--can determine what their individual gender identities are.

"The responsibility for determining a student's gender identity rests with the student. Outside confirmation from medical or mental health professionals, or documentation of legal changes, is not needed," the guidance states.

Gender identity is defined in the guidance as "a person's deeply held internal sense or psychological knowledge of their own gender, regardless of the biological sex they

The transgender agenda can harm children, a pediatricians' group found.

The American College of Pediatricians has issued a statement entitled "Gender ideology harms children," pressing educators and lawmakers alike to resist embracing the agenda that's been advanced by the LGBT movement – that encouraging gender transitions among children is

فلهذا اطلب أن نصلي ونستعد ونعد زيت لمصايبحنا لاستقبال العريس بالصلاة والصوم وخدمة

أبناء الله وتنقية القلب والاستعداد بلبس العرس.

## رسالة بولس الرسول الي أهل رومية 13

13: 11 هذا وأنكم عارفون الوقت انها الان ساعة لنستيقظ من النوم فان خلاصنا الان أقرب مما

كان حين امنا

13: 12 قد تناهى الليل وتقارب النهار فلنخلع اعمال الظلمة ونلبس اسلحة النور

13: 13 لنسلك بلياقة كما في النهار لا بالبطر والسكر لا بالمضاجع والعهر لا بالخصام والحسد

13: 14 بل البسوا الرب يسوع المسيح ولا تصنعوا تدبيراً للجسد لأجل الشهوات

احترس ان لم تتمسك بالمسيح من الان قد لا تستطيع في المستقبل القريب بسبب الظلام.

وكما قلت هو اخبرنا لكي لا نخاف

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

بطرس الأولى 3: 14

وَلَكِنْ وَإِنْ تَأَلَّمْتُمْ مِنْ أَجْلِ الْبِرِّ، فَطُوبَاكُمْ. وَأَمَّا خَوْفُهُمْ فَلَا تَخَافُوهُ وَلَا تَضْطَرُّوْا،

بل نؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَأَنْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

افرحوا لان عريسنا قد اقترب مجيؤه. وانتبهوا الشيطان يريد أن نفقد سلامنا ولا ننال أكاليل.

وأيضاً استعدوا فقد تسلموا وديعتكم في أي وقت فهناك 150 ألف شخص يموتوا في اليوم الواحد

انت لا تعرف متى ستكون منهم

المسيح اقترب فاصنعوا ثمار تليق بالتوبة واستعدوا لاستقبال العريس.

**والمجد لله دائما**
