اكرر اننا لا نحدد مواعيد بل فقط نشجع بعضنا بعضا بقرب مجيء المسيح

وأیضا لا اقصد ان اخيف أحد بل من يخاف هو لا يثق في مواعيد الرب

هدفي فقط أن نذكر بعضنا باننا نحتاج ان نستعد. والاستعداد ليس فقط قبل مجيء المسيح بل

ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة

وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من

الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا

لان الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة

لان وقتها جميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك

زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقرب فنكون مستعدين سواء جاء او نحن ان  
سلمنا وديعتنا عن أنى لا اقول انه اقرب لكيلا يقال عني كاذب وانشر اشاعات ولكنه يأتي بسرعة  
بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي المسيح في زمنه  
ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

## سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَأَن تَوُفُّونَ.

ثالثا لننتبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَاَنْتَصِبُوا وَاَرْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

## Something Just Slammed Into Jupiter

Astronomers have captured video evidence of a collision between Jupiter and a small celestial object, likely a comet or asteroid. Though it looks like a small blip of light, the resulting explosion was unusually powerful.

As Phil Plait of *Bad Astronomy* [reports](#), the collision occurred on March 17, but confirmation of the event only emerged this week. An amateur Austrian astronomer used a 20-centimeter telescope to chronicle the unexpected event, but it could've been some kind of visual artifact.

An astronomer at Caltech says that new evidence has been discovered that indicates that there is a massive planet lurking somewhere on the outer edges of our solar system. It has been dubbed "Planet Nine," but that is only because Pluto is not considered to be a planet anymore.

If we included Pluto, this new astronomical body would be known as "Planet Ten" or "Planet X," but scientists try very hard to avoid using the phrase "Planet X" because it is associated with so many "conspiracy theories." Based on the new evidence that has emerged, it is believed that Planet Nine is approximately 20 times further away from the sun than Neptune is, and it is being projected that it would take somewhere between 10,000 and 20,000 years for this planet to make one trip around the sun.

Perhaps due in part to my legal training, I have always been skeptical when it comes to things like this. Whenever anyone has tried to tell me about Planet X in the past, I have always wanted to see proof. And of

## Newly Discovered Star "Dox" Is Like Nothing We've Ever Seen Before — Here's Why

**mic** Kelly Dickerson  
April 01, 2016

Astronomers just discovered a bizarre star unlike anything we've ever seen before, according to research published in the journal [Science](#).

The star, which astronomers have nicknamed "Dox," has an outer layer that is 99.9% oxygen, making it the most oxygen-rich atmosphere ever discovered. (Earth's atmosphere is only about [21% oxygen](#).)

Previously, astronomers didn't think it was possible for anything like this to exist, and it's challenging our understanding of stellar evolution.

The discovery "was incredibly unexpected," astronomer Kepler de Souza Oliveira told [Popular Mechanics](#). "And because we had no idea anything like it could even exist, that made it all the more difficult to find."

Dox is what astronomers call a [white dwarf](#). Many stars eventually evolve into white dwarfs, which are dense objects made of the remnants of a star's helium and hydrogen core.

## We are making certain parts of the US way more vulnerable to earthquakes

The US Geological Survey recently mapped all the places that are most likely to be damaged by human-induced earthquakes in 2016. This is the first time the USGS has accounted for the quakes we are causing.

## Control efforts underway following new bird flu case

Listen

By Kim Bo-eun

The Ministry of Agriculture, Food and Rural Affairs banned the transport of poultry and eggs from all poultry farms in Gyeonggi Province, Saturday, after a new avian influenza case was confirmed on a duck farm in Icheon.

The order will be effective through April 2.

This is the first confirmed bird flu case since last November, according to the ministry.

Following the confirmation, Icheon City culled some 11,000 ducks on the farm.

The farm reported deaths of dozens of ducklings, Wednesday, prompting a local livestock research center and the Animal and Plant Quarantine Agency to investigate.

The city has also set up two disease control posts in the area and is spraying disinfectant on vehicles entering and leaving the area. An emergency monitoring system will run 24 hours daily until it is determined that there is no likelihood of the virus spreading.

***More than a dozen dead dolphins have washed up on Georgia's Black Sea coastline, with authorities unsure why.***

A total of 19 dead dolphins were spotted this month washed up along the coastline from Ganmukhuri to Sarpi, agenda.ge reports.

Authorities said they didn't know the exact cause of death but suggested it could be a result of dolphin morbillivirus, a virus that infects marine mammals.

"Experts from the Fishery and the Black Sea Monitoring Department of the National Environmental Agency are carrying out research regarding this issue," authorities said.

Meanwhile they warned citizens to be careful and not to touch the dead dolphins.

Despite the hundreds of dead fish that appeared in the Pune Municipal Corporation's (PMC) Hazrat Siddiqi Shababa garden on Monday, the civic body remained clueless as to what the cause of their death might be.

The garden department has called in the state government fishery department to investigate the matter. The garden is located at Dr Ambedkar Road near B J Medical College and is spread out over half an acre of land.

Speaking to *Mirror*, Ashok Ghorpade, chief of the garden department, said, "We tested the water, but did not find anything odd. The quality, too, is okay. So, we have decided to call in experts from the state fishery department to examine the dead fish. Hopefully, after that, we will get to know the reason."

On Tuesday, city mayor Prashant Jagtap visited the spot and ordered a thorough cleaning of the pool. Speaking to *Mirror*, Jagtap said, "After visiting the spot, I have issued an order to clean the pool out. I was told that it hasn't been cleaned for the past six years. I also told officials to get to the bottom of the dead fish issue."

## Eighth baby dolphin found dead on Mississippi beach

**PASS CHRISTIAN, Miss. (AP)** - Officials found an infant dolphin dead along the shoreline in Pass Christian, marking the eighth baby mammal to wash ashore in the past week.

The director of the Institute for Marine Mammal Studies, Dr. Moby Solangi said 35 dead dolphins were found in 2015 along the Mississippi Coast. In 2016, that number now stands at 46.

He said dolphin deaths are on pace to eclipse 2010, the year of the Gulf of Mexico oil spill when 65 dolphin died in Mississippi waters.

Solangi points to the red tide algal bloom in the Gulf last fall as a likely factor in the deaths of the infant dolphin.

He says one of the effects of red tide is it causes a mother to abort or deliver early.

PASS CHRISTIAN, MS (WLOX) - The body of an infant dolphin was discovered along the shoreline in Pass Christian Wednesday, marking the eighth baby mammal to wash ashore in the past week.

According to the director of the Institute for Marine Mammal Studies, Dr. Moby Solangi, the number of infant dolphin strandings in 2016 is "more than all of the last two years." Solangi says that in 2015, 35 dead dolphin were found along the Mississippi Coast. Just two days before April in 2016, that number stands at 46.

A huge swarm of bees surrounded people at the Muslim Community Mosque in Phoenix, Arizona, in a terrifying moment caught on video.

At least 20 people were stung Friday, Phoenix Fire Department spokeswoman Ardell Deliz told ABC News.

One person -- a 24-year-old man -- was transported to the hospital in stable condition, Deliz said.

Firefighters rushed to the scene and sprayed the area with a foam that calms the insects, but Deliz said it took at least a few hours until a bee keeper could come remove them.

CONAKRY/MONROVIA (Reuters) - Guinea will soon vaccinate people who have come into contact with more than 500 men who have recovered from Ebola, a senior health official said, the first time it has vaccinated the contacts of survivors.

The decision reflects research that indicates Ebola can remain in the bodily fluids of survivors for months. The contacts will include but will not be limited to sexual partners, said Fode Tass Sylla, the spokesman for the West African nation's centre for the fight against Ebola.

Embattled Syrian dictator Bashar Assad's key ally, Russian President Vladimir Putin, may be preparing to turn his back on the Syrian president.

According to the Al-Hayat pan-Arab newspaper in London, Russia has agreed to a long-standing demand of Syrian opposition forces that Assad be removed from power.

The report comes as negotiators representing Syrian rebels [refused to consider](#) even a transitional role for Assad in a proposed unity government.

Asaad al-Zoabi, one of the negotiators, insisted that "Assad should not remain for even one hour after the formation" of a transitional government.

The Al-Hayat report cites a diplomat in the UN Security Council who leaked the basic outline of the agreement.

While the US and Russia have agreed on the principle that Assad should be removed from power and sent into exile outside of Syria, no specifics regarding the implementation of the plan have been determined.

President Obama visits mosque in Maryland in January.

- In Germany, following a wave of Islamic immigration, one political party is considering a call for shutting down all of the country's mosques in a desperate bid to prevent terrorist attacks, rape sprees and other acts of violence and Muslim domination.
- In the U.S., President Obama marked the new year by visiting a mosque and has invested a great deal of effort to downplay the connection between Islam and terrorism, while leading Republican presidential candidate Donald Trump has proposed temporarily halting all Muslim immigration.

## US ORDERS DIPLOMATIC, MILITARY FAMILIES OUT OF SOUTH TURKEY

BY MATTHEW LEE AND LOLITA C. BALDOR  
ASSOCIATED PRESS

WASHINGTON (AP) -- The State Department and Pentagon ordered the families of U.S. diplomats and military personnel Tuesday to leave posts in southern Turkey due to "increased threats from terrorist groups" in the country.

AP Photo/Emrah Gurel

The two agencies said dependents of American staffers at the U.S. consulate in Adana, the Incirlik air base and two other locations must leave. The so-called "ordered departure" notice means the relocation costs will be covered by the government.

Pentagon press secretary Peter Cook said no specific threat triggered the order, but said it was done "out of an abundance of caution" for the safety of the families in that region. He said he was not aware of a deadline for the families to leave, but said "this will move very quickly."

## Depressing Survey Results Show How Extremely Stupid America Has Become

30 MARCH, 2016

(Michael Snyder) Ten years ago, a major Hollywood film entitled "Idiocracy" was released, and it was an excellent metaphor for what would happen to America over the course of the next decade. In the movie, an "average American" wakes up 500 years in the future only to discover that he is the most intelligent person by far in the "dumbed down" society that he suddenly finds himself in. Sadly, I truly believe that if people of average intellect from the 1950s and 1960s were transported to 2016, they would likely be considered mental giants compared to the rest of us.

## 'First Time in Human History': People 65 and Older Will Outnumber Children Under 5

By Terence P. Jeffrey | March 31, 2016 | 3:20 PM EDT

(CNSNews.com) - Sometime in the next four years the global population of human beings who are 65 and older will surpass those under 5 for the first time, according to a new report from the U.S. Census Bureau.

"For the first time in human history, people aged 65 and older will outnumber children under age 5," says the report, entitled "An Aging World: 2015."

"This crossing is just around the corner, before 2020," says the report.

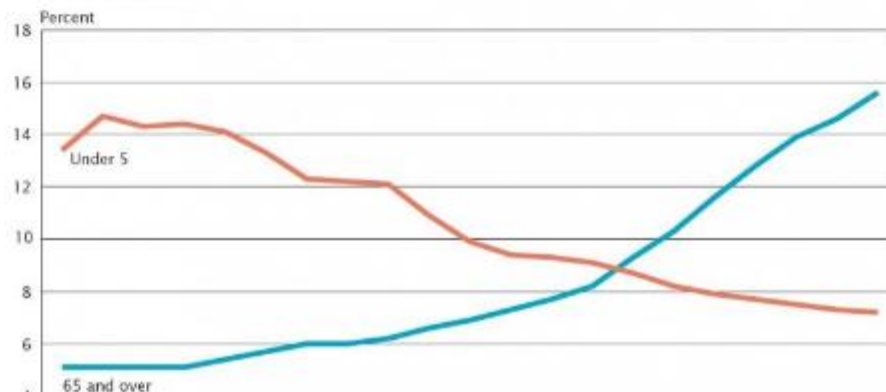

"These two age groups will then continue to grow in opposite directions," it says. "By 2050, the proportion of the population 65 and older (15.6 percent) will be more than double that of children under age 5 (7.2 percent).

"This unique demographic phenomenon of the 'crossing' is unprecedented," says the Census Bureau.

## Muslim School In England Teaches Hate For Jews And Europe

4 APRIL, 2016

A private Muslim school in England is again drawing attention, this time for teaching anti-Semitism and a strong anti-European ideology. The Islamic Tarbiyah Academy, located in the northern town of Dewsbury, offers classes for 140 children, as well as hosting an after-school religious program and adult education classes. It is still run by its founder, Mufti Zubair Dudha.

## Corporate Debt Defaults Explode To Catastrophic Levels Not Seen Since The Last Financial Crisis

By Michael Snyder, on March 28th, 2016

If a new financial crisis had already begun, we would expect to see corporate debt defaults skyrocket, and that is precisely what is happening. As you will see below, corporate defaults are currently at the highest level that we have seen since 2009. A wave of bankruptcies is sweeping the energy industry, but it isn't just the energy industry that is in trouble. In fact, the average credit rating for U.S. corporations is now **lower** than it was at any point during the last recession. This is yet another sign that we are in the early chapters of a major league economic crisis. Yesterday I talked about how 23.2 percent of all Americans in their prime working years **do not have a job right now**, but today I am going to focus on the employers. Big corporate giants all over America are in deep, deep financial trouble, and this is going to result in a tremendous wave of layoffs in the coming months.

## A cashless society can't fix our monetary woes

PATRICK CARVALHO | 11 MAR, 5:00 PM | 5  
ECONOMY

Recent technological advancements point to a looming cashless society, with a recent survey indicating that most Australians expect to break free from paper-notes and coins by 2022. Soon, paying for your daily coffee with a digital wallet in your phone — or for that matter in a myriad of electronic gadgets — will be the norm, and not just a geeky fad to impress your new date.

Leading this global trend towards a cash-free society are the Scandinavian countries — where less than 6 per cent of all payments are made by cash. Denmark has recently proposed allowing most stores not to accept notes and coins, which basically means that cash will lose its widespread legal tender use. In Norway, banks are dropping access to cash in their branch offices. In Sweden — which became the first European nation to issue banknotes in 1661 — even homeless street vendors take electronic donations now.

There is much to welcome in this brave new world: ubiquitous electronic payments have the potential to be less cumbersome than handling (or losing) physical cash, reduce opportunity costs of having to find the nearest ATM and even reducing the propensity to suffer from violent purloins.

However, there are still some valid privacy and cybersecurity concerns.

## One-Third Of All Americans Don't Make Enough Money To Even Cover The Basic Necessities

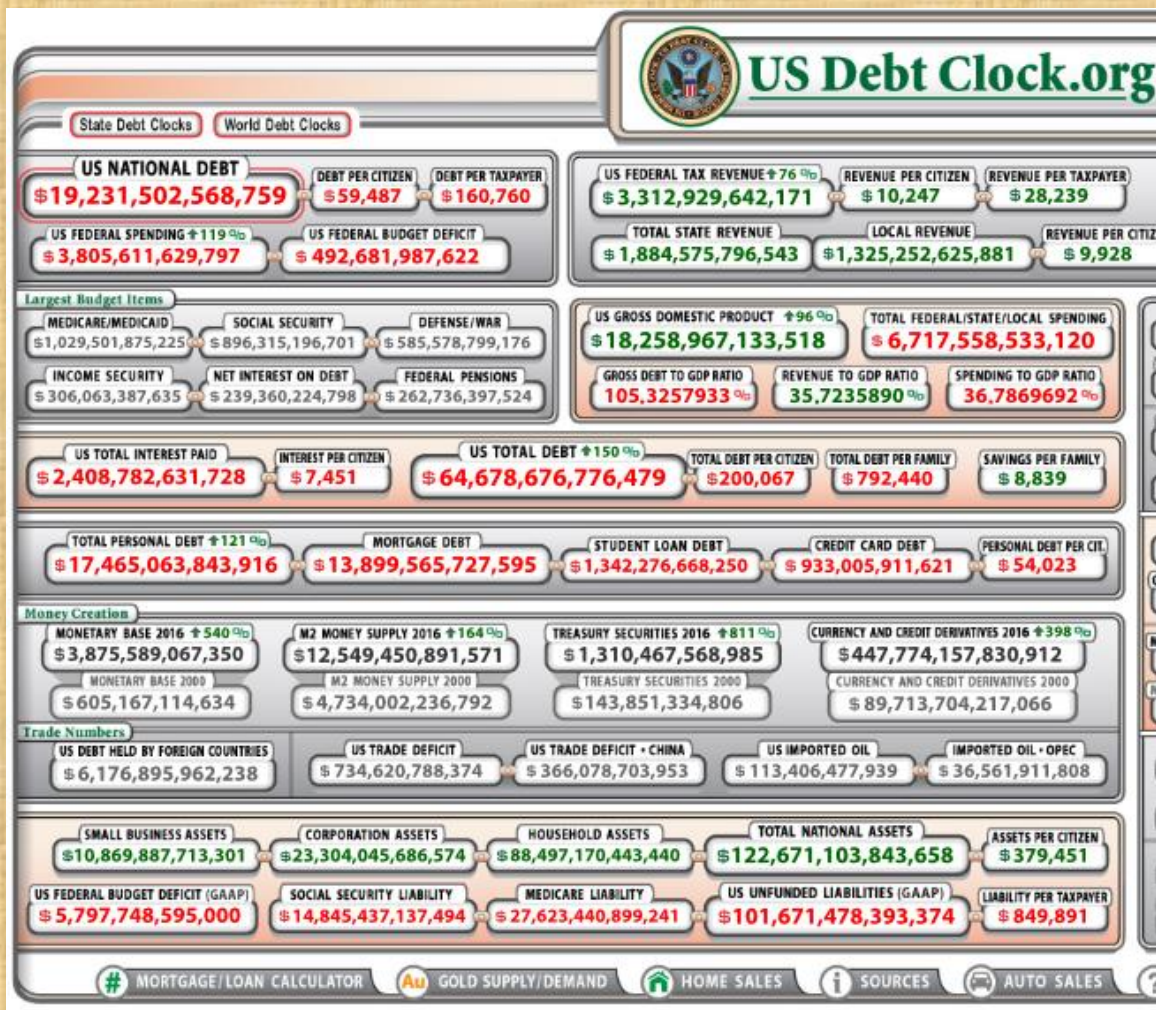

By Michael Snyder, on March 30th, 2016

Do you remember the days when it seemed like almost everyone in America was middle class? Unfortunately, those days are long gone and the grinding down of the middle class in the United States appears to be accelerating. According to a brand new study that was just released by Pew Charitable Trusts, household spending increased by 14 percent between 2004 and 2014, but median household income decreased by 13 percent during that same time period. Both of those figures were adjusted for inflation. What this means is that the cost of living has steadily gone up, but our incomes have gone down. In fact, as you will see below approximately one-third of all Americans don't even make enough money to pay for the basic necessities at this point. The middle class **is being squeezed like never before**, and very few of our leaders seem to care.

It isn't because we are buying a lot of luxuries that our expenses are going up. According to Pew, U.S. families are now spending a larger percentage of their budgets on the basics such as housing, food, health care and transportation than they were a decade ago. In fact, it has gotten to the point where approximately one-third of all Americans don't bring home enough money to cover the core necessities. The following **comes from Zero Hedge...**

## Robert Kiyosaki And Harry Dent Warn That Financial Armageddon Is Imminent

By Michael Snyder, on March 30th, 2016

Financial experts Robert Kiyosaki and Harry Dent are both warning that the next major economic crash is in our very near future. Dent is projecting that the Dow will fall to "5,500 to 6,000 by late 2017", and Kiyosaki actually originally projected that a great crash was coming in 2016 all the way back in 2002. Of course we don't exactly have to wait for things to get bad. The truth is that things are not really very good at the moment by any stretch of the imagination. Approximately one-third of all Americans don't make enough money to even cover the basic necessities, 23 percent of adults in their prime working years are not employed, and corporate debt defaults have exploded to the highest level that we have seen since the last financial crisis. But if Kiyosaki and Dent are correct, economic conditions in this country will soon get much, much worse than this.

During a recent interview, Harry Dent really went out on a limb by staking his entire reputation on a prediction that we would experience "the biggest global bubble burst in history" within the next four years...

## Senate to Vote on Making Bible Official Book of Tennessee

A contentious bill seeking to declare the Holy Bible the official book of [Tennessee](#) is headed back for a vote in the full state Senate.

The measure narrowly passed the House last year, but the Senate sent it back to committee amid constitutional concerns raised by the state attorney general.

Republican Sen. Steve Southerland of Morristown revived the measure Tuesday, and it cleared the Senate Judiciary Committee on a 7-1 vote. Southerland said it is aimed at highlighting the historical significance of the Bible in Tennessee, not as an official endorsement of a religion.

Opponents like Republican Senate Speaker Ron Ramsey of Blountville last year argued that the Bible is far too sacred to be trivialized by being placed alongside other official symbols like the state fruit, amphibian or rock.

## Why Atheists Are Raging Mad Over This Harmless Water Tower

31 MARCH, 2016

The city council in Broken Arrow, Oklahoma, was in a bit of a pickle. The city was in the middle of a growth spurt and needed high ground to build a one-million-gallon water tower. But the property they needed was owned by the First Baptist Church. So they made a deal with Pastor Nick Garland and the congregation.

"We donated the land and the easements for the tower," Pastor Garland told me. "In kind, they said they would paint our name on the water tower." It was a fair trade—all on the up and up. "Our people are very generous," he said, referring to his congregation. "We want to be good citizens as well as good Christian folks representing the kingdom of God." And Baptists are

Texas-based church security expert Jimmy Meeks told BP the incident serves as an example of "heads-up" response to a potential threat. The man -- 31-year-old Marcus Donald -- who was taken into custody remains under mental evaluation, according to media reports.

## April 19: Temple Of Baal In New York Is Going Up Same Day The Blood Sacrifice To The Beast Begins

By Michael Snyder, on March 29th, 2016

I am about to share with you some absolutely astounding information. It turns out that the exact day when reproductions of the arch that stood in front of the Temple of Baal are going to be erected **in Times Square in New York City and in Trafalgar Square in London** is also the exact day when a very important occult festival related to the worship of Baal begins. April 19th is the first day of a 13 day period of time known as "the Blood Sacrifice to the Beast" that culminates on the high occult holy day of Beltane on May 1st. In some parts of the world, Beltane is much better known as "May Day", and it has been described as the "Illuminati's second most sacred holiday". As you will see below, we have indeed witnessed a disturbing series of "blood sacrifices" during the second half of April in recent years, and many people wonder if there is a connection.

A preschool in the Denver area has booted a 4-year-old from its classes, telling her parents her attendance was "not a good fit" after the parents questioned the cooperative's curriculum promoting homosexuality and transgenderism.

R.B. Sinclair of Aurora told the Denver Post her daughter was thrown out of Montview preschool and kindergarten.

"I think at this age they don't know what bias is," she told the newspaper. "They could have kids from Mars and they would still play with each other. It's not that she isn't exposed to diversity, because it is

فلهذا اطلب أن نصلي ونستعد ونعد زيت لمصاييحنا لاستقبال العريس بالصلاة والصوم وخدمة

## رسالة بولس الرسول الي أهل رومية 13

13: 11 هذا وأنكم عارفون الوقت انها الان ساعة لنستيقظ من النوم فان خلاصنا الان أقرب مما

كان حين امنا

13: 12 قد تناهى الليل وتقارب النهار فلنخلع اعمال الظلمة ونلبس اسلحة النور

13: 13 لنسلك بلياقة كما في النهار لا بالبطر والسكر لا بالمضاجع والعهر لا بالخصام والحسد

13: 14 بل البسوا الرب يسوع المسيح ولا تصنعوا تدبيرا للجسد لأجل الشهوات

احترس ان لم تتمسك بالمسيح من الان قد لا تستطيع في المستقبل القريب بسبب الظلام.

وكما قلت هو اخبرنا لكي لا نخاف

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

بطرس الأولى 3: 14

وَلَكِنْ وَإِنْ تَأَلَّمْتُمْ مِنْ أَجْلِ الْبِرِّ، فَطُوبَاكُمْ. وَأَمَّا خَوْفُهُمْ فَلَا تَخَافُوهُ وَلَا تَضْطَرُّوْا،

بل نؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَأَنْتَضِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.».

افرحوا لان عريسنا قد اقترب مجيؤه. وانتبهوا الشيطان يريد أن نفقد سلامنا ولا ننال أكاليل.

وأیضا استعدوا فقد تسلموا وديعتكم في أي وقت فهناك 150 ألف شخص يموتوا في اليوم الواحد

انت لا تعرف متى ستكون منهم

المسيح اقترب فاصنعوا ثمار تليق بالتوبة واستعدوا لاستقبال العريس.

والمجد لله دائما
