والعلامات حتى 31 مايو 2016

Holy_bible_1

اكرر اننا لا نحدد مواعيد بل فقط نشجع بعضنا بعضا بقرب مجيء المسيح

وأیضا لا اقصد ان اخيف أحد بل من يخاف هو لا يثق في مواعيد الرب

هدفي فقط أن نذكر بعضنا باننا نحتاج ان نستعد. والاستعداد ليس فقط قبل مجيء المسيح بل

ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة

وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من

الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا

لان الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة

لان وقتها جميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك

زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقرب فنكون مستعدين سواء جاء او نحن ان
سلمنا وديعتنا عن أنى لا اقول انه اقرب لكيلا يقال عني كاذب وانشر اشاعات ولكنه يأتي بسرعة
بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي المسيح في زمنه
ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَأَن تُوْمِنُونَ.

ثالثا لننتبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَاَنْتَصِبُوا وَاَرْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ».

BREAKING NEWS VENEZUELA ENTERS HUNGER,

NASA Discovers Massive Hole In The Sun

28 MAY, 2016

NASA's Solar Dynamics Observatory (SDO) claims to have discovered this gigantic coronal hole pictured above just over a week ago. It is massive, taking up roughly more than 10% of the sun's surface. Further, this one is much bigger than an earlier hole found last October that measured approximately the size of 50 Earths. Via **SDO**:

Coronal holes are the source of a high-speed wind of solar particles that streams off the sun some three times faster than the slower wind elsewhere. While it's unclear what causes coronal holes, they correlate to areas on the sun where magnetic fields soar up and away, without looping back down to the surface, as they do elsewhere... The concern, we are told, is not the immediate threat of increased solar winds headed our way as an expected consequence of this new find. The

NASA launches spacecraft to STOP Earth-bound KILLER asteroid

NASA will launch a rocket to land on a giant space rock currently on collision course with EARTH.

By SEAN MARTIN

15:49, Fri, May 27, 2018 | UPDATED: 15:59, Fri, May 27, 2018

An asteroid is potentially on a collision course with Earth

Experts at the space agency have touted the asteroid to be potentially hazardous and even a threat to life as we know it.

The OSIRIS-Rex mission will blast off from Florida in September and is set to reach the asteroid dubbed Bennu in 2018.

The spacecraft will collect samples from the space rock which could pave the way for an asteroid mining industry, with some of them worth trillions of dollars because of their minerals which are scarce on Earth such as platinum.

Tornado damages at least 20 homes in rural Kansas

Published May 26, 2016 - Associated Press

May 25, 2016: Lightning from a severe storm fills the sky behind a grain elevator in Belvue, Kan. The storm produced tornadoes near Chapman, Kan. (AP Photo/Orlin Wagner)

CHAPMAN, Kan. — About 20 homes were damaged Wednesday night in a rural area of northern Kansas after a large tornado passed through but there were no immediate reports of injuries, the state Highway Patrol said.

Trooper Ben Gardner, a spokesman for the patrol, said troopers were checking a rural area in Dickinson County where it was believed 20 homes were damaged, some significantly.

Troopers were going from home to home to make sure everyone was OK and so far hadn't found or

A second Texas city will force residents to evacuate their homes on Sunday, as rising flood waters from the Brazos River turned deadly over the weekend.

Surging water levels prompted officials in Rosenberg, a town in Fort Bend county, approximately 35 miles south of Houston, to issue a mandatory evacuation starting today at 2 p.m. local time. According to the 2010 census, 31,676 people live in the area.

Mayor Cynthia McConathy signed orders declaring a state of disaster for the city of Rosenberg on Saturday, according to the evacuation notice on the city's [website](#).

5.3 magnitude earthquake injures 28 people in Algeria's Medea

Posted on May 31, 2016

May 2016 – AFRICA – At least 28 people were injured; including three who were left in a serious condition following a 5.3 magnitude earthquake that hit Algeria's province of Medea on Sunday. Algeria's press agency said the three suffered from fractures of the lower limbs and were evacuated to Mohamed Boudiaf hospital in Medea.

The quake, which occurred some minutes before 1 am, was located 10 km northeast of Mihoub, said the same source. The US Geological Survey's National Earthquake Information Center said the epicenter was located 19 kilometers southwest of the city of Lakhdaria, and 56 kilometers southeast of the Algerian capital, Algiers. The center lies at a depth of 7.5 miles.

The Mediterranean region, to which Algeria belongs, has been seismically active for decades, with a number of earthquakes having resulted in tsunamis. The North African nation experienced one of its deadliest earthquake in 2003 that struck the capital and nearby towns, killing more than 530 people and injuring nearly 5,000 others. A 5.1 magnitude earthquake also struck the region in May of 2013, injuring eight people.

Reportan alta actividad de volcán Reventador en Ecuador

Spanish.xinhuanet.com 2016-05-27 04:02:56

QUITO, 26 may (Xinhua) -- El volcán ecuatoriano Reventador, situado unos 90 kilómetros al noreste de Quito (capital), entre las provincias orientales de Napo y Sucumbíos, mantiene una alta actividad, informó hoy el Instituto Geofísico.

El volcán, de 3.562 metros de altura, registra desde inicios de año un incremento de su actividad, luego de un período de relativa calma en diciembre pasado, cuando mostró una tendencia a disminuir.

Según el último reporte del Instituto Geofísico, la víspera se pudieron observar emisiones de vapor y ceniza de hasta dos kilómetros sobre la cumbre.

Se presentó también un flujo piroclástico (gas volcánico caliente) que descendió 2.000 metros por el flanco suroccidental.

El Instituto agregó que la presencia de incandescencia en la noche fue visible a simple vista, pues se vieron bloques que rodaron 1.500 metros bajo la cumbre del volcán.

La dependencia indicó que desde las 11:00 hora local del miércoles hasta las 11:00 hora local de hoy, se registraron 68 explosiones, nueve eventos volcano-tectónicos, 56 eventos de largo periodo, 29 episodios de tremor emisión, un episodio de tremor espasmódico y 21 de tremor armónico.

Another fish kill hits Lake Sebu

by Philippines News Agency
May 20, 2016 (updated)

Facebook Share 20 Tweet 0 LinkedIn Share 0 Email 0 Print Share 25

General Santos City –Around 2,800 kilos of tilapia were destroyed as another fish kill hit anew portions of the critical lakes Sebu and Seloton in Lake Sebu town in South Cotabato.

Rudy Muyco, Lake Sebu town's lake warden, said Friday the fish kill was first monitored in several fish cages at the two lakes following the onset of rains last May 14 and continued for several days.

He said it mainly affected at least 12 fish cage owners or operators, mostly based in Lake Seloton.

Citing their monitoring, he said the latest fish kill destroyed some 2,300 kilos in Lake Seloton and 500 kilos in Lake Sebu.

"There were no new fish kills reported so far but we're closely monitoring the situation there," he said in a radio interview.

Muyco said the fish kill, which is the third this year, was caused anew by "kamahong," a phenomenon that is mainly caused by the sudden rise in the water's temperature.

He said it happened after the successive heavy rains for several days last week in their area.

"Kamahong," which usually occurs during the rainy season, triggers the rise of sulfuric acid in the lake's waters that

White Lake Fish die Tradition, foul smell around the area

24/05/2016, 13:38 (GMT + 7)

Recent days, at Lake Tradition (Loc Vuong Ward, Nam Dinh City, Nam Dinh Province) wild fish die, foul smell concentration anonymously, causing environmental pollution, threatening the health of the people are live around here.

On the morning of 24/5, people here discover a corner of Lake Tradition, the phenomenon of dead fish floating mass, a corner of the pool floating white.

According to residents, normally no fish kills such series. About 5 days back here, dead fish in natural lakes, scattered floating on the water, foul smell unpleasant, serious impact on the environment.

According to our observations, the carp, carp, silver carp can weigh from 2-3 pounds, belly bulge dead floating to the surface, many children are showing signs of rotting meat, stinky bait concentration rises Anonymity, flies, mosquitoes elected sealed both that region.

Around the area of dead fish, black water resources, there are many floating debris. The pedestrians must wear a mask, nose clogs passing here.

Share with us, Mr. H. (nearby residents) said: These days, dead fish in natural lakes scattered throughout the country, causing the stench. After heavy rain rice at 23/5 to 24/5 light, sudden die-off of fish, drifting on a corner of the lake.

Mr H. added that the lake water is polluted, due to the consciousness of the people living around here are very poor, many people throw garbage into the lake gross, household items broken, it also means throwing hand down, causing water pollution.

Reportedly, the lake is a Family Tradition hired to fish, after the news of dead

Bird flu reappears in Cameroon, killing thousands of birds

May 27, 2016 (0)

YAOUNDE, Cameroon (AP) — Cameroon's government says that the H5N1 strain of the bird flu virus has reappeared in Cameroon after an 8-year absence.

Livestock minister Dr. Taiga said one person is hospitalized and Cameroon has reported the death of at least 15,000 birds since May 22. He said the country is taking measures to protect both people and birds from further contamination.

Align® Digestive Care

Help Maintain Natural Digestive Balance w/Align® - Learn How

Taiga said that 20,000 birds at the affected Mvog Betsi poultry farm in the capital, Yaounde, will be killed.

He said Cameroon has dispatched veterinary staff to all regions of the country to check if there may be other cases and is urging its citizens to report suspected cases.

Two humpback whales were found stranded dead that extra Monday in southern Santa Catarina. [One on the beach of Balneario Rincón](#) and another on the beach Ibiraquera (Imbituba). The strandings Protocol of Environmental Protection Area (APA) of the Baleia Franca / ICMBio and Beaches Monitoring Program of the Santos Basin (PMP-BS) were driven to meet occurrences.

On 27 teams moved up to Balneario Rincão to evaluate the male juvenile animal 7.80 meters long. On Saturday morning the teams joined forces to collect samples and seek to determine the cause of death of another young male 8.48 meters long. In both cases, interactions were not detected with fishing gear and / or collision with vessels, however, they had a body weakness and lack of stomach contents. Laboratory tests may improve the diagnosis of death more accurately.

The humpback whale (*Megaptera novaeangliae*) is a species that migrate from Antarctica to the Brazilian northeast coast during winter and spring to breed. The occurrence of strandings of this species is not common in the APA region Whale, as the migration occurs from the coast, but in 2015 was registered an atypical occurrence of species strandings in southern Brazil.

Participated in this action the Baleia Franca Project, the University of the State of Santa Catarina / UDESC - Laguna and APA Baleia Franca / ICMBio. The teams had the support of the governments of Imbituba and Balneario Rincão through the Works Departments, Tourism

Batsh*t crazy! Swarm of 100,000 bats invades Australian town (VIDEO)

Published time: 25 May, 2016 18:00

[Get short URL](#)

© Tim Wimborne / Reuters

An Australian coastal town is nearing a state of emergency, but the cause isn't an earthquake or flooding. Instead, it's a natural disaster of another kind – 100,000 bats have embarked on the community, drastically outnumbering its human residents.

The bats arrived in Batemans Bay, located to the south of Sydney, with a bang – or, rather, with an odor and a terrible screeching noise that's driving the town's 11,000 residents insane.

"I can't open the windows, I can't use the clotheslines... I can't study because the noise just goes constantly, I can't concentrate. It's not fun. The bats came and they are just out of control. We just can't do anything because of them," local resident Danielle

A disfiguring tropical disease that had been contained to Syria has now spread across the Middle East as millions are displaced from the war-torn region.

Cutaneous leishmaniasis is a parasitic disease spread by bites from infected sand flies.

It can lead to severe scarring, often on the face, and regularly goes undiagnosed and untreated.

A leading British expert has warned pregnant women and couples looking to conceive to 'think twice' about travelling to parts of the US – including Florida, home to Walt Disney World – because of the growing threat of the [Zika virus](#).

Those considering holidays to southern states including Texas, Louisiana and Florida – which contains Miami, Cape Canaveral and the Florida Keys – should look at alternatives, said Professor Jimmy Whitworth of the London School of Hygiene and Tropical Medicine.

There is currently no evidence that mosquitoes on the US mainland are infected with the virus, which can leave babies with under-developed brains if their mothers are infected during pregnancy.

 1.6K     

Conflicting with a prior industry study, a new analysis claims 96 nuclear facilities in the US are less safe than reported, citing risks such as terrorism and sabotage. The study says there remain lessons to be learned from the Fukushima disaster.

Neglect of the risks posed by used reactor fuel, or spent nuclear fuel, contained in 96 aboveground, aquamarine pools could cost the US economy \$700 billion, cause cancer in tens of thousands of people as well as compel the relocation of some 3.5 million people from an area larger than New Jersey, a study released May 20 finds.

States Making It Harder To Skip Vaccines

30 MAY, 2016

When Jennifer Stella's two children were babies, she made sure they got all the usual vaccines. But when one started having seizures and the other developed eczema after they'd gotten immunizations, the Vermont woman decided her kids would no longer get shots required to attend school. Stella, a co-founder of the Vermont Coalition for Vaccine Choice, is among a growing number of parents who are opting out of childhood vaccinations because they're worried about their safety.

Russia Flight Tests Anti-Satellite Missile

Launch took place as Air Force held space war game

 SHARE  TWEET  EMAIL

BY: [Bill Gertz](#) Follow [@BillGertz](#)
May 27, 2016 5:03 am

Russia conducted a successful flight test of a developmental anti-satellite missile on Wednesday that is capable of destroying satellites in orbit, American defense officials said.

The Nudol direct ascent anti-satellite missile was launched from the Plesetsk test launch facility, located 500 miles north of Moscow, said officials familiar with the situation.

The missile was monitored by U.S. intelligence satellites and the test appeared to be successful.

The launch marks another major milestone for Moscow's efforts to develop weapons capable of destroying U.S. navigation, communications, and intelligence satellites, a

key strategic advantage.

No additional details were available, and it could not be learned if the Nudol missile was fired against a satellite or was test launched in a suborbital trajectory without hitting a target.

It was the second successful test of the Nudol, following a Nov. 18 launch, and shows Russia is advancing its anti-satellite weaponry.

Pentagon spokeswoman Lt. Col. Michelle Baldanza declined to comment.

The Relationship Between The United States And China Is Officially Going Down The Tubes

By Michael Snyder, on May 26th, 2016

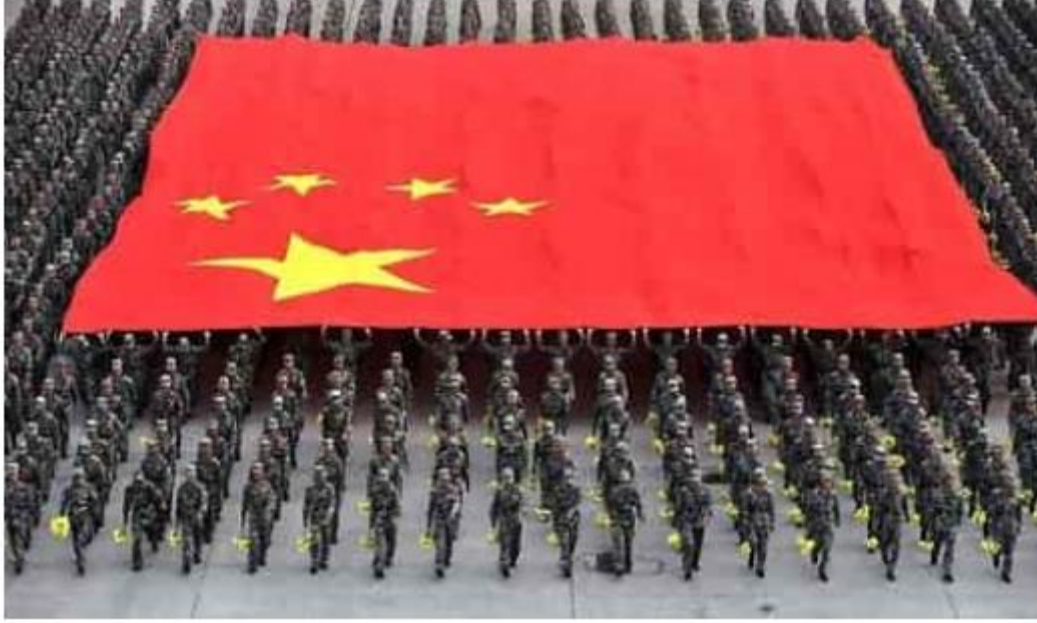

What happens when the two largest economies on the planet start fighting a trade war with one another? Well, we are about to find out. As you will see below, the U.S. has gone "nuclear" on China in a trade dispute over steel, and the Chinese response is likely to be at least as strong. Meanwhile, events in the South China Sea have brought tensions between the Chinese government and the Obama administration to a boiling point. The Obama administration strongly insists that China does not have a legal right to those islands, and in China there is now talk that it may ultimately be necessary to confront the United States militarily in order to keep control of them. Most Americans may not realize this, but the relationship between the United States and China is officially going down the tubes, and this is likely to have very significant consequences during the years to come.

Let's start with the trade war that has erupted. **About a week ago**, we learned that the Obama administration had decided to "go nuclear" on China by imposing a **522 percent duty** on cold-rolled steel from China that is used in certain kinds of

Facebook Will Now Track You and Force Feed You Ads Even If You Don't Use It

 Jamie Condliffe
Yesterday 7:05am · Filed to: FACEBOOK

82.0K 164 7

There is no escaping Facebook's advertising reach. The social network has announced that it will now be foisting ads on to every single person who uses third-party sites that are signed up to its advertising scheme, regardless of whether the user has a Facebook account or not.

Until now, Facebook showed ads only to its members when people landed on third-party sites that were signed up to its Audience Network ad system. That meant that it only ever bothered tracking what Facebook users did, in order to learn about them and better target advertising.

A mind-reaching machine that can translate thoughts into speech is coming closer to reality.

The research has been ongoing for several years, and recently, scientists successfully managed to playback a word that someone is thinking by monitoring their brain activity.

While there remains a long way to go, they say this could help victims of stroke and others with speech paralysis to communicate with their loved ones.

NEW YORK (Reuters) - As the summer beach season opens in the United States, at least one expert is predicting an increase in shark attacks around the world this year that will surpass last year's record number.

"We should have more bites this year than last," George Burgess, director of the International Shark Attack File at the University of Florida, said in an interview shortly before the Memorial Day holiday weekend that signals the unofficial start of America's summer vacation - and beach - season.

In 2015, there were 98 shark attacks, including six fatalities, according to Burgess.

UK Will Introduce Shari'a-Compliant Student Loans

By Kevin McCandless | May 26, 2016 | 12:39 AM EDT

London (CNSNews.com) – As the British government considers further plans to tackle extremism, it has also announced that it will soon introduce student loans that comply with Islamic law (*shari'a*).

At the official opening of the British House of Commons last week, Prime Minister David Cameron's government promised it would propose several "counter-extremism and safeguarding" laws this parliamentary term.

These would include a new range of court orders to "restrict extremist activity," action against unregulated schools "which teach hate," and closing "loopholes" on Internet activity from outside the country.

According to the government, these measures were necessary to protect "vulnerable people" from those who seek to "brainwash them with extremism propaganda."

The proposals have already aroused fierce opposition among civil liberty and religious groups, who warn that sweeping powers could target a broad swathe of the public.

Meanwhile the Department for Education last week released a report in which it said that college loans compatible with *shari'a* would be made available to Muslim students once the appropriate legislation had been passed.

The Islamic Bank of Britain, subsequently renamed Al Rayan Bank, was set up in 2004 to offer shari'a-compliant financial products.

Police: Man drives through Kentucky memorial cross display

Photo: Henderson Police Department

Posted: Sat 9:14 PM, May 28, 2016

HENDERSON, Ky. (AP) - - Police say a Memorial Day cross display in Kentucky that honors the names of 5,000 veterans of conflicts dating back to the Revolutionary War has been vandalized by a driver who plowed through the crosses.

Jennifer Richmond, a spokesman for the Henderson Police Department, said the community is devastated and working frantically to repair and replace the crosses that were put on display for a Memorial Day ceremony in Central Park.

She said a 27-year-old local man drove straight through the cross display in the Henderson park, about 130 miles west of Louisville, just before 6 a.m. Saturday, but investigators don't know if it was deliberate.

© Ina Fassbender / Reuters

Islam must be taught in all German schools to help "immunize" pupils from radical leanings, Bavarian bishop of the Lutheran Church argues, calling on Muslim organizations to take responsibility for religious education.

Introduction of "extensive *Islam classes*" in all German schools would best safeguard young Muslims from "*fundamentalists' temptation*" towards them, Head of the Evangelical Lutheran Church in Germany (EFD), Bavarian Bishop Heinrich Bedford-Strohm said, Heilbronne Stimme newspaper [reported](#) on Friday.

Obama Mansion Located 1,000 Feet From The Islamic Center Of Washington DC

27 MAY, 2016

The mammoth, multi-million-dollar mansion where President Barack Obama and his family will reportedly live after the first family exits the White House is located 1,096 feet from the Islamic Center of Washington — one of the largest mosques in the Western Hemisphere. Both Obama's new digs and the Islamic Center are located in the fancypants northwest Washington, D.C. neighborhood of Kalorama.

Why Are So Many Muslim Refugees in Europe Suddenly Finding Jesus?

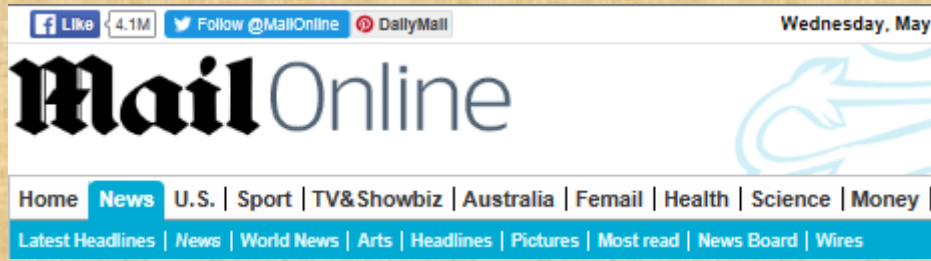

Whether out of conviction or convenience, thousands of migrants in Europe are converting to Christianity.

AMSTERDAM — Hundreds of Pakistanis and Afghans have been lining up at a local swimming pool in Hamburg, Germany, to be baptized as Christians. In the Netherlands and Denmark, as well, many are converting from Islam to Christianity, and the trend appears to be growing. Indeed, converts are filling up some European churches largely forsaken by their old Christian flocks.

All of which raises a question, not least, for the United States: If American presidential

Canadian Prime Minister Justin Trudeau has announced a bill that would criminalize anti-transgender speech, with violators receiving up to two years in prison.

The new bill, introduced May 17 on the International Day Against Homophobia, Transphobia and Biphobia, aims to amend the Canadian Criminal Code to expand the country's "hate speech" prohibitions to include any public speech or communication that "promotes hatred" on the basis of "gender identity" or "gender expression." It would also change the Canadian Human Rights Act to cover transgender people.

Canadian Conservative Party Votes to Accept Same-Sex 'Marriage'

VANCOUVER
(National Post) –
Conservative
delegates voted
overwhelmingly
Saturday at their

national convention to effectively accept same-sex marriage, a move Tory MPs and leadership candidates said modernizes their party and sends an important message to Canadians.

In a vote of 1,036-462, Conservative members – following a passionate debate – voted to take a neutral position on marriage and no longer define it as “the union of one man and one woman.”

The change also removes a longstanding policy statement that said Parliament, through a free vote, and not the courts should determine the definition of marriage.

Rural Manitoba Conservative MP Ted Falk said the proposed policy change was “not about inclusiveness,” but was instead an “attack on our values and principles.”

Canadian Prime Minister Justin Trudeau said he hopes the long-awaited bill allowing physician-assisted suicide passes in parliament before the June 6 deadline. Otherwise, Canadians would have "uneven access" to euthanasia, he said.

"There will be people who by many objective criteria should have access to medical assistance in dying will not be able to because practitioners will be concerned there isn't any legal framework or protection for them," Trudeau told reporters.

■ NICK REILLY, 28TH MAY 2016

A new trailer for *Finding Dory* has prompted speculation that the film could be the first in Disney Pixar's history to include a lesbian couple.

The latest trailer for the film, a sequel to 2003's *Finding Nemo*, debuted on The Ellen Show last week - and follows the eponymous amnesiac fish, voiced by Ellen DeGeneres, as she sets off on a journey to discover her family.

Bill O'Sullivan, the senior editor of the Washingtonian magazine, wrote in an editorial Thursday that the "loathsome" phrase "start a family" should be scrubbed from the vocabulary because it's offensive to single people and couples without children.

"What this euphemism means is get pregnant—or try to get pregnant, or have a baby, or adopt," O'Sullivan wrote in the [column](#). "Start a family devalues any couple who doesn't happen to have kids, for whatever reason."

Michigan is the latest state bracing for a debate over transgender accommodation in public schools, as a Republican lawmaker is confronting a sweeping State Board of Education policy about to take effect and crafting legislation designed to empower parents and protect the privacy of all students.

In February, the Michigan State Board of Education quietly passed a new transgender policy for K-12 public schools.

"When we found out about it, it was almost down to the end as far as time for public comment," said State Sen. Tom Casperson, who is drafting legislation to address the policy. "They had set this policy

A fifth grade teacher at Gresham-Barlow school in Oregon who was born a female, but transgendered into a male, won a \$60,000 pay-off from the district after complaining of being called a "lady" and referred to as "she" in a harassing manner by fellow educators.

The school, for its part, paid the \$60,000 while insisting no evidence of wrongdoing was found on the part of other educators, Breitbart reported.

The 'Stop Hillary' campaign is on fire! Join the surging response to this theme: 'Clinton for prosecution, not president'

Leo Soell, the fifth grade teacher who was born a female, complained co-workers used "she," "lady," and "Miss Soell" repeatedly, instead of the preferred masculine terms, which were made known after a coming-out as a transgender last September, Breitbart reported. Soell also complained of being "harassed" and "misgendered," and conspired against by fellow teachers to stop using a gender-neutral bathroom at the school.

School officials then launched an investigation, but said they found no evidence of wrong-doing. They did not release their findings, the news outlet reported.

Man-dogs "Spot," "Hexyc" and "Tibo" (Photo: Richard Ansett/Channel 4)

If a man simply identifies as a woman, he is now allowed to use ladies' rooms in many public schools and retail stores across America – but what if he identifies as a **dog**?

That's right: There's now a major movement in which humans "identify" as the furry little critters.

The trend exploded in the last 15 years, particularly among homosexual men who enjoy wearing leather and dog-like hoods, according to London's *Guardian*. The wannabe pooches also love to have their stomachs rubbed and their ears tickled. They fetch squeaky toys and eat chow out of dog bowls.

And they have romantic relationships with their human "handlers."

In fact, the craze has at least 10,000 followers in the U.K., and there's even a documentary about the
