اكرر اننا لا نحدد مواعيد بل فقط نشجع بعضنا بعضا بقرب مجيء المسيح

وأیضا لا اقصد ان اخيف أحد بل من يخاف هو لا يثق في مواعيد الرب

هذفي فقط أن نذكر بعضنا باننا نحتاج ان نستعد. والاستعداد ليس فقط قبل مجيء المسيح بل

ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة

وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من

الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا

لان الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة

لان وقتها جميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذارى انه لن يكون هناك

زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسى ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان
سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات ولكنه يأتي بسرعة
بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي المسيح في زمنه
ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَأَن تُوْمِنُونَ.

ثالثا لننتبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَاَنْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

Starman, is that you? Mysterious 'music' is heard from inside a star

Rob Waugh for Metro.co.uk Wednesday 8 Jun 2016 1:35 pm

1.3k

Credit: University of Birmingham

Don't freak out or anything, but someone just recorded a weird noise coming from INSIDE a star.

Weirdly, the noises sound like the moans and groans computers make when they're a bit confused.

Researchers from the University of Birmingham detected 'resonant acoustic oscillations' inside stars in 'M4', one of the oldest known clusters of stars in the Galaxy, some 13 billion years old.

The 'sounds' lead to tiny changes or pulses in brightness – and could allow us to understand some of the most ancient stars in our galaxy.

It seems the moon is not Earth's only cosmic companion.

The newly discovered asteroid 2016 HO3 orbits the sun in such a way that the space rock never strays too far from Earth, making it a "quasi-satellite" of our planet, scientists say.

"One other asteroid — 2003 YN107 — followed a similar orbital pattern for a while over 10 years ago, but it has since departed our vicinity," Paul Chodas, manager of NASA's Center for Near-Earth Object Studies at the Jet Propulsion Laboratory in Pasadena, California, [said in a statement](#) Wednesday (June 15).

Record snowfall in Barrow Thursday

"My day at the beach in Barrow included snow flurries, ice caps, and Palm trees made of baleen. No need for sunscreen." — Ash

By Tracy Sinclair / KTUU | Posted: Fri 1:19 PM, Jun 10, 2016 | Updated: Fri 2:41 PM, Jun 10, 2016

ANCHORAGE (KTUU) A record 1.7 inches of snow fell Thursday in Barrow, shattering the old daily snowfall record for June 9. The previous record was .5 inches, set in 1992.

Though it is a little unusual for it to snow in Barrow during June, it's not unheard of. Barrow has a record of snow falling during every month of the year. The record for a daily snowfall amount during June is 3.2 inches, which fell on June 7, 1981.

Cloudy skies are expected in Barrow Friday with a high temperature of 37F degrees and 47F degrees Saturday. Based on weather camera pictures, much of the snow has already melted.

Wait, what? June snow in Hawaii?!

Doyle Rice, USA TODAY

12:34 p.m. EDT June 14, 2016

(Photo: National Weather Service)

A dusting of snow was reported early Tuesday morning at Mauna Kea in Hawaii, the National Weather Service said.

Mauna Kea, a volcano on the Big Island with sub-Arctic climate, sometimes sees blizzards, ice, and snow, mainly in the winter. Its fellow peak Mauna Loa also sees similar cold conditions.

The coldest temperature ever recorded in Hawaii was 12 degrees on Mauna Kea on May 17, 1979, the weather service said.

The peak of the volcano has an elevation of 13,770 feet, a few hundred feet lower than Mt. Rainier in Washington.

US National Weather Service Honolulu & Central Pacific Hurricane Center
on Tuesday

Snow on Mauna Kea in June? How common is that? Although not common during the summer months, snow can fall and has fallen during the summer. Just last year, the summit saw snow on July 17th. The combination of cooler than normal upper air temperatures and thunderstorms bringing in moisture was what made snow possible yesterday.

Wildfires in California, New Mexico trigger evacuations

Posted on [June 17, 2016](#)

June 2016 – CALIFORNIA – Firefighters worked into early Friday morning to try to contain a growing wildfire in coastal Southern California and a larger blaze in rural New Mexico as hot weather fed flames that triggered hundreds of evacuations. The Sherpa Fire in California grew to about 1,400 acres (560 hectares) overnight after forcing authorities to evacuate 400 homes and businesses and to close part of the 101 Freeway, according to the Santa Barbara County Sheriff's Office and fire information center InciWeb.

About 1,200 firefighters were trying to keep the fire from exploding out of control as airplane tankers and helicopters dropped water, according to officials and online videos. The blaze, which ignited on Wednesday in a wilderness area northwest of Santa Barbara, has consumed chaparral and tall grass in the Los Padres National Forest, according to InciWeb. Because of the fire, officials said they had closed two state beaches and some ranch land, forcing out campers and horses. Southeast of Albuquerque, New Mexico, the Dog Head Fire, which broke out on Tuesday about 6 miles (10 km) northwest of the town of Tajique, has also forced evacuations and grown to about 16,000 acres (6,500 hectares) overnight.

Evacuations Ordered in 3 West States

Meteorologist Ari Sarsalari has the latest on multiple wildfires raging in the Southwest. Combined the fires in New Mexico have burned more than 50,000 acres.

Major wildfires burning across the West have consumed tens of thousands of acres and forced evacuations in at least three states. In New Mexico, one particular wildfire exploded in size on Thursday.

Dry conditions are hampering firefighting efforts in a region that's expected to see dangerous and potentially deadly heat over the weekend and into early next week.

Oppressive heat to challenge all-time records across the southwestern US this weekend

By Brett Rathbun, AccuWeather.com Meteorologist
June 18, 2016; 11:23 AM ET | [Share](#)

An extreme heat wave will grip the southwestern United States this weekend and early next week.

A strong ridge of high pressure will take control and strengthen into next week, sending temperatures to dangerous levels.

"When a ridge of high pressure like this one forms in the middle to late June, it can deliver some of the hottest weather possible to the Desert Southwest," AccuWeather Western U.S. Expert Ken Clark said.

Temperatures will run between 10 and 20 degrees Fahrenheit above average through the early part of next week.

"The peak of the heat in many areas will be on Monday, but Sunday and Tuesday will be no slouches either in the high heat department," Clark said.

Mexico, June 7: Massive earthquake was reported from Mexico on Tuesday. The magnitude of quake was states to be 6.2 magnitude by the United States Geological Survey (USGS). The tremors were felt at the eastern coast of the Latin nation, near Cihuatlan. The impact of the earthquake was felt in the entire region of Jalisco.

The epicentre of earthquake is reported to be 65 miles (105 km) Southwest of Manzanillo, Colima. Geographical experts have predicted massive casualties due to the earthquake citing the high magnitude of the tremors.

New volcano potentially forming under New Zealand town

Posted on June 7, 2016

June 2016 – NEW ZEALAND – Scientists say they have discovered a magma buildup near a New Zealand town that could signal the beginnings of a new volcano – although they're not expecting an eruption any time soon. Geophysicist Ian Hamling said that since 1950, enough magma to fill 80,000 Olympic-size swimming pools has squeezed up beneath the surface near the coastal town of Matata, about 200km (120 miles) south-east of Auckland. The discovery explains a spate of earthquakes between 2004 and 2011.

A paper published on Saturday in the online journal *Science Advances* outlines the findings. Hamling, the paper's lead author, said that while other parts of New Zealand have active volcanoes, there have been none near Matata for at least 400,000 years. "It was quite a big surprise," he said. Using GPS data and satellite images, the scientists said they discovered an area of land about 400 sq km (154 sq m) had risen by 40cm (16in) since 1950. Hamling said a period of quick uplift between 2004 and 2011 was likely to have triggered thousands of small earthquakes. Scientists had previously thought tectonic shifts caused the quakes.

Hamling said the magma remained about 10km (six miles) below the surface, deep enough that he didn't expect a volcano to develop within his lifetime. He said a volcano could develop over hundreds or thousands of years, or the magma could eventually cool and harden. Matata is home to about 650 people. Hamling said he hoped further study would allow scientists to develop a warning system for earthquakes in the area. He

Phivolcs warns of more eruptions from Philippines Mount Bulusan volcano

Posted on [June 13, 2016](#)

June 2016 – PHILIPPINES – The Philippine Institute of Volcanology and Seismology yesterday warned residents living near Mount Bulusan in Sorsogon of the possibility of more steam-driven eruptions, following an explosion last Friday. Thin ash caused by the steam-driven eruption in Mount Bulusan last Friday was observed in Casiguran and Juban in Sorsogon. Ash fell over Barangays Añog, Juban, and Mabini in Casiguran. Traces of volcanic ash were observed in Barangays Casay, Casiguran proper, Escuela, Inlagadian, San Antonio, and San Juan in Casiguran, and Barangays Aroroy, Juban proper, Puting Sapa, and Rangas in Juban.

Steam-driven explosion, also called phreatic explosion, happens when groundwater is heated by magma. The eruption that occurred at 11:35 a.m. Friday was observed on the west-northwest vent of the volcano. A two-kilometer-high grayish ash plume, which drifted to the northwest, was visible after the explosion. Phivolcs recorded an explosion-type earthquake that lasted approximately five minutes, which was accompanied by rumbling sound reportedly heard at Barangays Puting Sapa, Ranga, and Añog in Juban, and Barangays Mabini and Inlagadian in Casiguran.

From 8 a.m. Friday to 8 a.m. Saturday, Bulusan's seismic monitoring network recorded a total of five volcanic earthquakes, including the explosion-type earthquake Friday. Phivolcs said weak to moderate emission of white steam plumes that rose up to 150 meters and drifted towards north-northwest remain visible. Alert

Kanlaon volcano spews ash into the air as seen from an observation post in La Carlota town, Negros Occidental province, central Philippines, on June 18, 2018 (AFP Photo/Philippines Institute of Volcanology and Seismology)

A rumbling volcano in the central Philippines shot a huge column of ash into the sky on Saturday, prompting the official aviation agency to warn aircraft to stay away, authorities said.

Mount Kanlaon, located on the central island of Negros, launched a plume of whitish-grey ash about 1.5 kilometres (almost a mile) into the air, said Kenn John Veracruz of the official Philippine Institute of Volcanology and Seismology.

The civil aviation office issued an advisory, saying "flights operating in the vicinity of the volcano are advised to avoid flying close to the summit as airborne ash from

Texas: Giant unstable sinkholes are growing, could be on verge of catastrophic collapse

By Hannah Osborne , Video by Jonathan Lowe

June 15, 2016 12:25 BST

Two giant sinkholes in Texas are getting bigger and are at risk of collapsing – the effects of which could be "catastrophic", scientists have warned. The sinkholes, found in the towns of Wink and Kermit, have been observed via satellite, and images indicate major changes could be underway.

The two sinkholes are currently a mile apart. The first one – Wink 1 - appeared in 1980, while the second – Wink 2 – opened up in 2002. They were caused by intense gas and oil extraction in the region from the 1920s to the 1960s. Wink 1 is currently 110m across, while Wink 2 can reach up to 270m.

Hong Kong culled 4,500 birds on Tuesday after the deadly H7N9 bird flu virus was discovered in a chicken at a local market.

Health officials in white hazmat suits and masks dumped the chickens into green plastic bins at a wholesale poultry market in central Hong Kong Tuesday morning.

The bins were then pumped with carbon dioxide to kill the birds.

Bird flu scares in the past two years have seen mass culls of up 20,000 birds in Hong Kong @Isaac Lawrence (AFP/File)

Hong Kong is particularly alert to the spread of viruses after an outbreak of Severe Acute Respiratory Syndrome (SARS) swept through the city in 2003, killing 299 people and infecting around 1,800.

Bird flu scares in the past two years have seen mass culls of up 20,000 birds in Hong Kong.

A spokeswoman for the Agriculture, Fisheries and Conservation Department said the latest cull

Hundreds of dead fish are rotting on the shore of a lake in Kananaskis Country, after low water levels combined with above average temperatures dealt a fatal blow to the lake's trout population over the weekend.

Sibbald Lake, which was freshly stocked with an additional 1,000 rainbow trout on Friday, was lined with fish corpses and swarming flies by Monday.

Mild bird flu in Hiaure (Netherlands)

Friday, June 10th, 2016 - Agricultural Editors Life

In Hiaure, part of the municipality Dongeradeel (Friesland-Netherlands) was adopted at a poultry farm with about 48,000 chickens bird flu (avian influenza). This company has 2 houses with outdoor access. It is probably a mild H7 variant.

Because a low pathogenic (mild) H7 variant can mutate to a highly pathogenic (highly contagious and deadly for chickens) variant, the company must either be removed at a low and a highly pathogenic variant. This is based on European rules. The culling is carried out by the Dutch Food and Goods Authority (NVWA).

From June 9, 2016 at 18:00 there is a zone of over one kilometer around the holding in Hiaure a ban on transporting poultry, eggs, poultry manure and used bedding. Within the area is no other poultry.

CDC: 3 babies with Zika-linked birth defects born in US

AP June 16, 2016

FILE - In this Thursday, Feb. 11, 2016 file photo, a trap holds mosquitos at the Dallas County Mosquito Lab in Hutchins, Texas. The trap had been set up near the location of a confirmed Zika virus infection. On Thursday, June 16, 2016, the Centers for Disease Control and Prevention [More](#)

NEW YORK (AP) — Three babies with Zika-linked birth defects have been born in the U.S., the government reported Thursday in its first accounting of outcomes for pregnant women infected with the virus.

The defects were also seen in three other pregnancies that ended.

The Centers for Disease Control and Prevention has been tracking the pregnancies of women with Zika infections since the beginning of the year. So far, 234 pregnant women — residents and visitors — have been diagnosed with Zika.

Some babies have been born with no immediate signs of problems, according to the CDC's Dr. Denise Jamison, but she would not say how many. Most of the

BALTIC DEFENCES

NATO is laying the groundwork in Eastern Europe for a “global strike” against Russia, the deputy head of the Defense Council in Russia’s upper house of parliament has declared.

“They have very serious plans on the framework of devising a so-called global strike,” lawmaker Franz Klintsevich said. “NATO takes our old Soviet bases in the Baltic, Romania, Poland and deploys people there.”

“In fact, it seems they are preparing a *place d’armes*, for setting up equipment and a platform for the preparation of big plans,” Klintsevich told independent news agency [Interfax](#), referring to the military term that denotes a well-armed, strategic fighting position.

North Korea Restarts Plutonium Production for Nuclear Bombs

f SHARE t TWEET e EMAIL

BY: Reuters

June 7, 2016 4:18 pm

By Jonathan Landay, David Brunnstrom and Matt Spetalnick

WASHINGTON (Reuters) – North Korea has restarted production of plutonium fuel, a senior State Department official said on Tuesday, showing that it plans to pursue its nuclear weapons program in defiance of international sanctions.

The U.S. assessment came a day after the U.N. nuclear watchdog said it had "indications" that Pyongyang has reactivated a plant to recover plutonium from spent reactor fuel at Yongbyon, its main nuclear complex.

The latest developments suggest North Korea's reclusive communist government is working to ensure a steady supply of materials for its drive to build warheads, despite tightened international sanctions after its fourth nuclear test in January.

The U.S. official, who spoke on condition of anonymity, said that Washington is worried by the new plutonium reprocessing effort, but he offered no explicit word on any U.S. response.

"Everything in North Korea is a cause for concern," the official told Reuters.

"They take the spent fuel from the 5 megawatt reactor at Yongbyon and let it cool and then take it to the reprocessing facility, and that's where they've obtained the plutonium for their previous nuclear tests. So they are repeating that process," the official said. "That's what they're doing."

Pyongyang vowed in 2013 to restart all nuclear facilities, including the main reactor and the smaller plant at Yongbyon, which was shut down in 2007 as part of an international disarmament-for-aid deal that later collapsed.

The International Atomic Energy Agency (IAEA), which has no access to North Korea and mainly monitors its activities by satellite, said last year it had seen signs of a resumption of activity at Yongbyon.

U.S. Taxpayers Are Funding Iran's Military Expansion

1207 JUNE 9, 2016 6:00 AM EDT

By [Eli Lake](#)

a | A

One of the unexpected results of President Barack Obama's new opening to Iran is that U.S. taxpayers are now funding both sides of the Middle East's arms race. The U.S. is deliberately subsidizing defense spending for allies like Egypt and Israel. Now the U.S. is inadvertently paying for some of Iran's military expenditures as well.

It all starts with \$1.7 billion the U.S. Treasury transferred to Iran's Central Bank in January, during a delicate prisoner swap and the implementation of last summer's nuclear deal to resolve a long-standing dispute about Iran's arms purchases before the revolution of 1979.

حماس مستعدة للحرب مع إسرائيل

Hamas Is Ready for War with Israel

June 07, 2016

The Gaza Strip may still lie in rubble, but Hamas operatives are convinced that they are ready for another battle.

Gaza City, GAZA — The first thing you notice about Gaza: the donkeys. Attached to carts invariably driven by middle-aged men, they weave in and out of traffic, hauling fruits and vegetables through the city center.

Gaza still bears the scars of the 2014 war between Hamas and Israel. The 51-day conflict resulted in the deaths of 2,300 Gazans, with 10,000 others wounded; 66 Israeli soldiers and six Israeli civilians also lost their lives. Gaza's infrastructure was decimated: A recent U.N. report [stated](#) that only 17 percent of the 18,000 homes destroyed during the conflict have been repaired, and an estimated 75,000 Gazans remain displaced.

Tensions are once again high in the strip. On April 18, a bomb [exploded](#) on a Jerusalem bus, injuring 21 people — the first attack of this type since the Second

Russian President Vladimir Putin and Israeli Prime Minister Benjamin Netanyahu held a joint press conference in Moscow.

Russian President Vladimir Putin said that Russia and Israel are "true allies" in the fight against terrorism.

"We talked about the need to jointly fight against international terrorism. Israel knows by first-hand experience what it is and fights against terrorism. In this sense, we are true allies, our countries have enough experience in the fight against extremism. We will boost contacts with Israeli partners in this sphere," Putin said.

Russian President Vladimir Putin and Israeli Prime Minister Benjamin Netanyahu decided at their June 7 meeting in Moscow to deepen the military ties between the Russian and Israeli armed forces, **DEBKAfile** reports exclusively from its military and intelligence sources. It was a historic decision that spells the end of the IDF's unique relationship with the US military.

The head of the IDF's military intelligence branch, Maj. Gen. Hertz Halevi, and Mossad chief Yossi Cohen also participated in the meeting. Our sources report that Putin and Netanyahu decided that a joint exercise by the Israeli and Russian naval and air forces will be held this summer as part of the first stage of expanded ties.

It will mark the first time in modern Middle East military history that Russian

COMMENTS

The US Navy has held meetings to discuss highly controversial technology which could one day allow the government to track the movements of every single citizen in the country, The Sun has learned.

A number of naval officers visited the home of an American presidential candidate and "transhumanist" called Zoltan Istvan, who believes human beings should be fitted with technology to boost their brain power or enhance physical attributes.

Istvan said they discussed the possibility of implanting humans with chips fitted with global positioning (GPS) technology.

Authorities say a NASA research scientist who worked at the Wallops Flight Facility has been found dead a day after her family reported her missing.

Police said the body of 48-year-old Tiffany Moisan of Princess Anne was found Sunday in a wooded area behind a Food Lion store. Moisan's family reported her missing Saturday to Maryland State Police.

Princess Anne Police Chief Tim Bozman says Moisan's vehicle was found in the store's parking lot. Her body was sent to the Office of the Chief Medical Examiner in Baltimore. Police say there were no apparent signs of foul play, but the investigation will stay open until autopsy

Is Hillary Clinton The Athaliah Of Our Generation? Just Check Out What One Eyewitness Is Saying...

By Michael Snyder, on June 6th, 2016

It is amazing to me that the American people would willingly choose an exceedingly wicked woman such as Hillary Clinton to lead them. Perhaps this is just more evidence of how incredibly far we have fallen as a nation. There are many out there that are comparing Hillary Clinton to Queen Jezebel from ancient Israel, but to me there is another figure in the Bible that is much more appropriate. Somewhere around 2800 years ago, King Jehoram of Judah was married to a very wicked woman named Athaliah. When Jehoram unexpectedly died, his son Ahaziah became king of Judah for about a year, but then he died too. At that point Athaliah seized power and tried to kill off all male descendants that might pose a threat to her reign. Fortunately, one very young male descendant did survive, and Athaliah was finally deposed after six horrible years. If you take a close look at the careers of Hillary Clinton and Athaliah, there are definitely some striking parallels between the

Hotline Set Up For Victims Of 'Islamophobia'

10 JUNE, 2016

(Reported By Christine Williams) So now there is an Islamophobia hotline, maybe coming to your neighborhood, too. This one is set up in Alberta, Canada. But let's look at the truth about hate crimes: anti-semitic hate crimes, according to FBI stats, still by far surpass Islamophobia hate crimes, by a ratio of more than 3.5 to 1. One also has to remember that if Jews are more visible, for example, by increasing the wearing of Jewish symbols such as the kippah or the Star of David, then that ratio would likely be even higher. This inflation of Muslim victimology is

China Bans Interracial Marriages For Females

10 JUNE, 2016

Legislation has been adopted in China that soon will ban women from marrying non-Chinese men, after promoters pointed out that for every girl under age 18 in the nation, there now are three boys. WND many times has reported that the nation's longstanding one-child abortion policy, recently changed to two-child but still requiring forced abortions and mandatory sterilization procedures, is resulting in an overwhelming number of Chinese men who never will marry simply because the women they would have partnered with have been killed by abortion.

In 2015, WND reported the abortion of girls in favor of sons under the Chinese government's policy is known to have cost millions of lives, and the full impact of the policy is yet to be seen. That was when the United Nations recognized that some 200 million women and girls are

Patients greeted by robot at Belgian hospital

 June 18, 2016

By Judith Mischke

OSTEND, Belgium (Reuters) - A Belgian hospital has just welcomed its newest staff member: Pepper, a humanoid robot that speaks 19 languages.

Developed to improve social and health care by the Belgian company Zora Bots, Pepper joined the medical team as a receptionist at Ostend hospital AZ Damiaan.

Pepper will introduce visitors to the hospital, provide information and guide visitors and patients to the correct floor and room.

With a speed of just 3 km/h (1.8 mph), Pepper is also able to guide slower patients. Fully charged, it can work for up to 20 hours on its own.

"The robot itself is a meter 20 high, so it is not like Arnold Schwarzenegger with a leather jacket and an 'I will be back' robot," said Zora Bots' co-chief executive, Fabrice Goffin. "It is a quite nice robot and the reactions are positive for the moment."

During the first week, Pepper was mainly used on the hospital's maternity department.

Bieke Vandeputte, the mother of a newborn baby, was amazed.

"it is another way of making contact and maybe it is reassuring that it is a robot for some people," she said. "The baby was really sure. He did not mind putting his hands on it. It did not frighten him so I think it will be important. Especially for children."

Pepper is not the first robot used at the AZ Damiaan hospital, but it is the first to communicate with patients and to have the ability to guide them.

Before the arrival of Pepper, the staff had already worked with a predecessor, Zora, for about a year. Zora is smaller and slower than Pepper and used mainly in

(Editor's note: Although Luna County Sheriff John Mooradian claims the following report is false and says, "I assure the public there have been no terrorism related arrests in the county," Judicial Watch Director of Research and Investigation Chris Farrell tells WND, "We stand by our reporting.")

In an eerie development on concerns about Islamic terrorism, New Mexico police have apprehended an illegal Middle Eastern woman in possession of the region's gas pipeline plans.

According to Judicial Watch, authorities in Luna County – which borders Mexico – pulled the woman over during a traffic stop. The woman was described as an "Islamic refugee." After the plans were found, county authorities alerted the U.S. Border Patrol and the Federal Bureau of Investigation's Joint Terrorism Task Forces, or JTTF, which has been deployed to the area to investigate.

The Leading Indicator Of Recession Has Just Happened

7 JUNE, 2016

(Reported By Michael Snyder) What you are about to see is major confirmation that a new economic downturn has already begun. Last Friday, the government released the worst jobs report in six years, and that has a lot of people really freaked out. But when you really start digging into those numbers, you quickly find that things are even worse than most analysts are suggesting. In particular, the number of temporary jobs in the United States has started to decline significantly after peaking last December.

A message written on a Venezuelan national flag that reads, "Venezuela don't give up," is seen during a gathering in Venezuela. (Reuters)

What do you do when your country is in free fall? When lineups for basic foodstuffs wind around the block, and hours later when you get your turn, the shelves are bare? When the police stop you anywhere and everywhere, peering into your vehicle, checking your status? When homicides in the capital alone can average up to a couple hundred weekly? Where corruption earns your country the dubious award of being the highest in the world? Where the Marxist president has neutered the majority Congress and dissolved the independence of the Supreme Court?

When all this and more happens, protests are predictable. We wound our way through shouted insults as we walked to the Congress to meet with members. Streets were clogged. Businesses and even the Supreme Court were shut down. Police were dressed in battle gear, and not just for show. It felt very much like my experience in Cairo in the 2011 "Arab Spring" revolution.

All of this corresponded to what I had heard about Venezuela, but here is what I didn't expect: At 6 in the evening, we drove to a community called "The Cemetery," in downtown Caracas. In the midst of economic collapse with inflation this year at 1,000 percent, with social disintegration the norm, killings and countless kidnappings a daily

Colgate Joins 'Gay Pride' Push With New Ad

8 JUNE, 2016

The toothpaste manufacturer Colgate-Palmolive has joined the push to promote "gay pride" in the month of June by releasing an advertisement featuring two homosexual men. The commercial, which generated over 21,000 likes on social media, features two men who are moving into an apartment together. As they stand next to the moving truck looking at the outside of their apartment, one of the men lays his head on the other man's chest, who strokes

Dreyers Ice Cream Goes 'Gay' In New Ad Campaign

18 JUNE, 2016

Real-life families feature in a new spot for Dreyer's ice cream, set to a haunting cover of Cyndi Lauper's "True Colors" by Swedish artist Ane Brun. Captured by Reset's Johnny Green, the ad, by Goodby Silverstein & Partners, is an emotive montage of authentic family moments, from a septuagenarian's birthday party to Dads swimming with their kids to a young couple gazing into each other's eyes on a fairground ride.

NYC Launches Citywide Ad Campaign To Promote Transgender Bathroom Rights

8 JUNE, 2016

The Democratic mayor of New York City has launched a citywide ad campaign in recognition of "LGBT Pride Month" that touts the city's policy requiring that citizens be permitted to use the restroom that correlates with their "gender identity." Mayor Bill De Blasio and the New York City Commission on Human Rights announced the campaign on Monday,

This woman has grown out her beard, and has never been happier

By Sophia Rosenbaum

June 9, 2016 | 2:00pm

An Oregon woman discovered the hairiest secret yet to self-confidence: growing her beard out.

Rose Geil, 39, spent her teen years trying to bust her beard, shaving her stubbly mug every day.

"It was exhausting trying to keep it hidden," she said.

Canada's Supreme Court Just Ruled Some Bestiality Is Legal

Sexual acts with an animal are only a crime if penetration is involved, Canada's top court has ruled.

posted on Jun. 9, 2015, at 8:22 a.m.

Paul McLeod
BuzzFeed Political Editor, Canada

Bestiality is legal in Canada as long as no penetration is involved, according to a shocking Supreme Court of Canada [ruling](#) Thursday.

Sean Kilpatrick / THE CANADIAN PRESS

While bestiality is a criminal offence in Canada, the top court ruled the legal definition is much more limited than how it has been interpreted for decades. It all goes back to the 1800s Church of England trying to ban any sex acts that were seen as unnatural.

فلهذا اطلب أن نصلي ونستعد ونعد زيت لمصابيحنا لاستقبال العريس بالصلاة والصوم وخدمة
أبناء الله وتنقية القلب والاستعداد بلبس العرس.

رسالة بولس الرسول الي أهل رومية 13

13: 11 هذا وأنكم عارفون الوقت انها الان ساعة لنستيقظ من النوم فان خلاصنا الان أقرب مما

كان حين امنا

13: 12 قد تناهى الليل وتقارب النهار فلنخلع اعمال الظلمة ونلبس اسلحة النور

13: 13 لنسلك بلياقة كما في النهار لا بالبطر والسكر لا بالمضاجع والعهر لا بالخصام والحسد

13: 14 بل البسوا الرب يسوع المسيح ولا تصنعوا تدبيرا للجسد لأجل الشهوات

احترس ان لم تتمسك بالمسيح من الان قد لا تستطيع في المستقبل القريب بسبب الظلام.

وكما قلت هو اخبرنا لكي لا نخاف

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

بطرس الأولى 3: 14

وَلَكِنْ وَإِنْ تَأَلَّمْتُمْ مِنْ أَجْلِ الْبِرِّ، فَطُوبَاكُمْ. وَأَمَّا خَوْفُهُمْ فَلَا تَخَافُوهُ وَلَا تَضْطَرُّوْا،

بل نؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَأَنْتَضِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.».

افرحوا لان عريسنا قد اقترب مجيؤه. وانتبهوا الشيطان يريد أن نفقد سلامنا ولا ننال أكاليل.

وأیضا استعدوا فقد تسلموا وديعتكم في أي وقت فهناك 150 ألف شخص يموتوا في اليوم الواحد

انت لا تعرف متى ستكون منهم

المسيح اقترب فاصنعوا ثمار تليق بالتوبة واستعدوا لاستقبال العريس.

والمجد لله دائما
