## والعلامات حتى 2 أغسطس 2016

Holy\_bible\_1

اكرر اننا لا نحدد مواعيد بل فقط نشجع بعضنا بعضا بقرب مجيء المسيح

وأیضا لا اقصد ان اخيف أحد بل من يخاف هو لا يثق في مواعيد الرب

هدفي فقط أن نذكر بعضنا باننا نحتاج ان نستعد. والاستعداد ليس فقط قبل مجيء المسيح بل

ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة

وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من

الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا

لان الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة

لان وقتها جميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك

زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان  
سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات ولكنه يأتي بسرعة  
بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي المسيح في زمنه  
ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

## سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَأَن تُوْمِنُونَ.

ثالثا لننتبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَأَنْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

Mysterious Lights Streaking Across Sky

2 minute left

BREAKING NEWS Mysterious Light in the Sky CBS 2

**LOS ANGELES (CBSLA.com)** — Residents from Sacramento to Los Angeles and Las Vegas reported seeing mysterious lights streaking across the night sky.

The flashes of light spurred numerous calls into the CBS2/KCAL9 newsroom from residents in Lennox, Lancaster, Adelanto and Riverside.

The lights were also visible in other states, including Utah, and spurred a flood of reports and [video](#) on social media.

Witnesses said the ball of fire in the sky lasted about 30 seconds.

The National Weather Service told Weathercaster Jackie Johnson, who also witnessed the lights, that the incident was not weather-related.

Meanwhile, Vandenberg Air Force Base also told CBS Los Angeles they

# Nasa to launch probe to investigate 'Armageddon' asteroid

The asteroid will pass between Earth and the moon in 2135

Samuel Osborne | @SamuelOsborne93 | 7 hours ago |  148 comments

1K  
shares

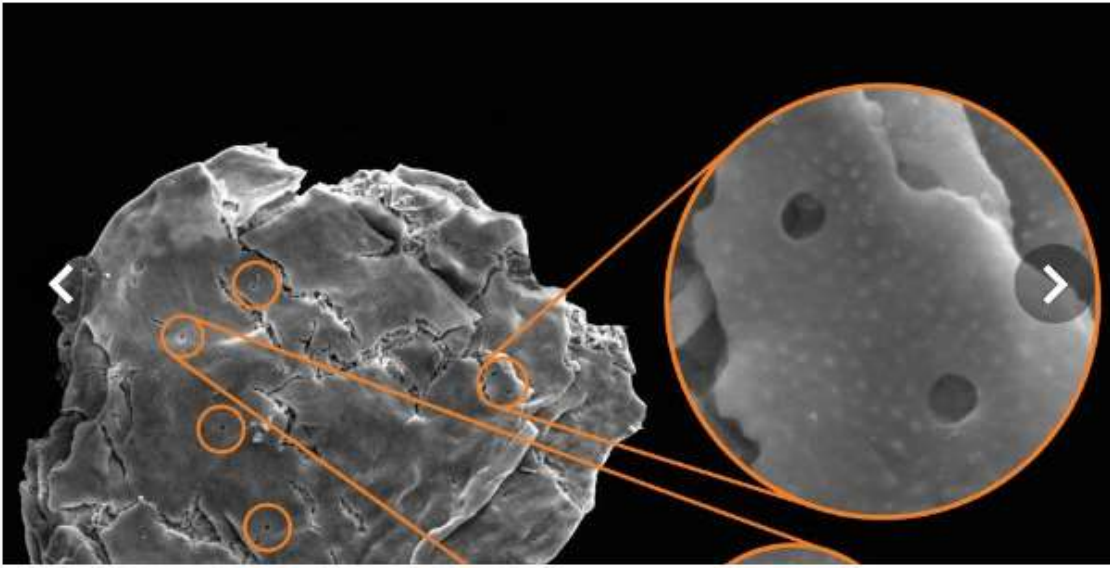

Nasa is planning to launch a probe to collect rock samples from an asteroid it fears could one day hit the Earth.

The asteroid, named Bennu, can be seen from Earth as it crosses our orbit every six years.

Bennu, which is around 500 metres in diameter at its equator and travels around the sun at 63,000mph, will pass between Earth and the moon in 2135.

“That 2135 fly-by is going to tweak Bennu’s orbit, potentially putting it on course for the Earth later that century,” Dante Laurotta, professor of planetary science at Arizona University, told *The Sunday Times*.

## Darby Makes the Closest Pass to Honolulu by a Tropical Storm in Recorded History

By: Jeff Masters , 3:34 PM GMT on July 25, 2016

The closest approach on record by a tropical storm to the island of Oahu resulted in torrential rains in excess of ten inches there as [Tropical Storm Darby](#) passed just 40 miles to the south and west of Honolulu, Oahu on Sunday with sustained winds of 40 mph. No other named storm on record has passed that close to Honolulu or Oahu since accurate records began in 1949. Rainfall amounts of over ten inches in the 24 hours ending at 3:45 am HST Monday [were reported](#) at five locations on the eastern half of Oahu from Darby:

11.09" Moanalua RG  
10.94" Nuuanu Upper  
10.81" Luluku  
10.70" Waihee Pump  
10.04" Palisades

Monday morning [Hawaiian radar](#) showed that Darby continued to stream bands of heavy rain over the island, and [satellite loops](#) showed that Darby still had plenty of heavy thunderstorms on the northeast side of its circulation. Over the weekend, Darby also brought rains in excess of ten inches to West Wailuaiki, Maui (12.63") and Paauilo, on the Big Island (10.19"). There have been several road closures on Oahu due to flooding, and as of 10 pm HST Sunday, the Honolulu fire department reported 59 calls from residents who needed to be evacuated from their homes due to flooding. About 1,000 customers have lost power from the storm thus far. Darby, downgraded to a tropical depression at 11 am EDT Monday, should cease deluging Oahu by Monday afternoon as the storm pulls away to the west.

By Michael Fiala

CARMEL-BY-THE-SEA, Calif. (Reuters) - A deadly blaze near California's Big Sur coast could widen to more than five times its current size and has destroyed some 60 homes, threatened hundreds of others and spurred mass evacuations, authorities said on Saturday.

The so-called Soberanes Fire, which started on July 22 and is burning just south of the oceanside town of Carmel-by-the-Sea, has roared through nearly 32,000 acres (13,000 hectares) of drought-parched chaparral, grass and timber in the Los Padres National Forest.

The blaze is estimated to have a final size of 170,000 acres (265 square miles),

# PLAYING GOD? Tens of millions spent on huge project to change the WEATHER

A CONTROVERSIAL project costing tens of millions of pounds will attempt to change the weather.

By SEAN MARTIN

05:01, Sat, Jul 30, 2016 | UPDATED: 10:56, Sat, Jul 30, 2016

China is trying to make it rain

China are ploughing more than £22million into shooting salt-and-mineral-filled bullets into the sky in a bid to make it rain.

But Beijing is not alone in its pursuit to play God with the weather, with at least 52 countries, including the US, using weather modification techniques which allows authorities to clear the skies or make it rain.

Droughts in places such as the the US and China are one of the biggest constraints on their farming industries, which is why scientists are working to eradicate the the prolonged dry seasons.

## When will she blow? Iceland's vicious Katla volcano rumbles

Mt. Katla Photo: Iceland Monitor/Sigurður Bogi Sævarsson

Two earthquakes of magnitude 3.2 occurred in the Katla caldera in Mýrdalsjökull glacier around 4:00 AM this morning. Ten smaller earthquakes followed.

Katla is one of Iceland's largest volcanoes, and with twenty eruptions being documented since the year 930, Katla remains one of the country's most active volcanoes.

### Scientists keep a close eye on Katla

Scientists at the University of Iceland Institute of Earth Sciences (IES) and the Icelandic Met Office have been monitoring activity at Katla lately, but small glacial river floods have been observed in recent weeks in the Múlakvísl river that flows from underneath the glacial cap. The floods are caused by Katla's geothermal hot spots under the Mýrdalsjökull glacier in South Iceland.

# Hekla Volcano Dangerous to Airplanes?

BY BENEDIKT JÓHANNESSON | **ERUPTION** | July 28, 2016 15:14

*A small Hekla eruption. Photo: Páll Stefánsson.*

Up to 30 passenger jets fly directly over the Hekla per day. Hekla is Iceland's most active volcano, erupting four times since 1970.

Hekla has through the centuries been Iceland's most dreaded volcano; thought to be the entrance to Hell.

In an interview on RÚV earlier this month, University of Iceland professor of geology Páll Einarsson claimed, that these planes should take slightly a different route when flying over Iceland.

Páll insists that his advice should be taken seriously, saying that these planes could fly straight into an ash plume. He explained that an eruption at Hekla did not need to melt through a thick glacier, meaning the plume would rise with

## Alaska Peninsula volcano spews steam, ash, but no lava

Posted on July 31, 2016

**July 2016 – ALASKA** – Scientists have increased the alert level for Pavlof Volcano for the second time this month. On Thursday, the Alaska Peninsula volcano showed signs of low-level eruptive activity, prompting officials to raise its alert level from “advisory” to “watch.” Dave Schneider is a geophysicist with the U.S. Geological Survey at the Alaska Volcano Observatory. “We saw pretty vigorous degassing of steam in our web camera images, and we got some detection of volcanic ash in satellite views,” Schneider said.

But that doesn’t necessarily mean there will be an eruption. Schneider said Pavlof’s current activity is “quite a bit lower” than in March when the volcano erupted, spewing ash 37,000 feet into the atmosphere and causing dozens of flights to be canceled. He also said thermal signals have not indicated that new lava is rising to the surface. But thanks to its ongoing seismic activity, Schneider said scientists are monitoring Pavlof closely.

“This is a very slippery volcano,” Schneider said. “It can go from low-level activity and ramp up without a lot of precursory activity.” For now, scientists will keep an eye on Pavlof’s temperature and ash emissions by satellite and webcam. –**KToo**

## MGB-12 probes suspected sinkhole in S. Cotabato village

by Philippines News Agency  
August 1, 2016

[Share](#) 1 [Tweet](#) 0 [in](#) Share 1 [Email](#) 0 [p](#) Share 12

GENERAL SANTOS CITY — The Department of Environment and Natural Resources' Mines and Geosciences Bureau (MGB) has launched a probe into the emergence of a suspected sinkhole in a village in Polomolok town in South Cotabato.

A team from the MGB in Region 12 conducted an inspection at the site in Purok Maunlad of Barangay Silway 8 in the said town on Monday to determine the status and the possible cause of the land subsidence, which initially emerged on Thursday last week.

Polomolok Vice Mayor Eliazar Jovero said they requested the MGB-12 to evaluate the suspected sinkhole, which forced some 134 families settled near the site to evacuate over the weekend.

He said the municipal government ordered the evacuation on Friday night due to safety concerns.

"Our main priority right now is to determine whether the area is still safe for our residents," he said in a radio interview.

A report from the Polomolok Municipal Environment and Natural Resources Office said the suspected sinkhole is around 100 meters in diameter and about 100 meters deep.

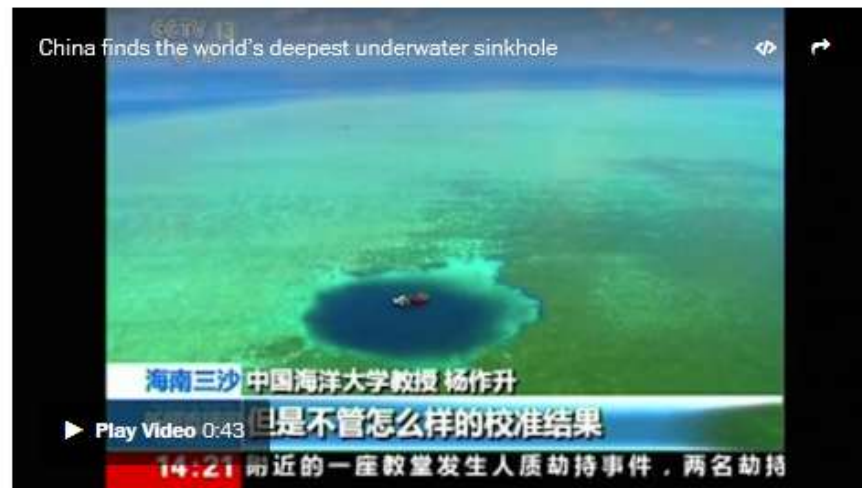

**SINK HOLE NEAR BAGUIO** — Shown in this handout photo from the Office of Civil Defense-Cordillera Administrative Region (OCD-CAR) is the sinkhole area in Sitio Batuang, Barangay Virac, Itogon, Benguet, just 18 kilometers outside of Baguio City.

### ENVIRONMENT

BOGOTÁ  
GOMEZ PEREIRA

A+ A-

Hundreds of fish were found dead on the banks of the Guadalupe River, at the height of the Prince Carolina. The fact was presented yesterday in the morning.

The tributary born in Santa Rosa de Osos and passes through the municipalities of Gomez Plata, Prince and Guadalupe Carolina and finally empties into the Porce River.

The community attributed the deaths to a possible poisoning, a fact that is not confirmed. Prince Carolina residents say that if true poisoning the situation would not be new, because a couple of years ago something similar happened.

"A call was made and they were in Corantioquia send a person to review the area," said a spokesman for the community.

Staff of the Ministry of Environment Carolina was visiting the place, but do not know what caused environmental difficulty. Similarly, a veterinarian Gomez Plata attended the situation.

Since the Mayor of Guadalupe know the reasons for the deaths, however, they are investigating what had happened.

Russia is keeping one eye on its venison as vets warn the virus area could increase

Related tags: Rospotrebnadzor, Russia, Anthrax, Virus, Venison, Deer

**An outbreak of anthrax has killed 1,500 northern deer in Russia and, with the figure set to rise, fears over exports of venison have begun to surface.**

The anthrax outbreak in the Yamal Peninsula, the Arctic part of Russia, is believed to be the largest for 75 years. To fight against the disease, Russia has applied unprecedented measures, including the evacuation of farmers and their families.

Local veterinary services believe the disease probably emanated from animal burial sites – and

## More than 90 dead dolphins on Bulgaria's Black Sea coast this summer

Written by The Sofia Globe staff on July 20, 2016 in Bulgaria - Comments Off on More than 90 dead dolphins on Bulgaria's Black Sea coast this summer.

Share this:

A total of 91 dead dolphins have been found on beaches on Bulgaria's Black Sea coast so far in summer 2016, according to regional inspectorates of the environment.

This figure, as of July 19, is higher than the total 90 dead dolphins found on the country's coast in all of 2015.

There have been repeated cases, and ensuing media reports, in recent years about dolphins being found dead on Bulgarian beaches. In spite of repeated allegations, often with finger-pointing at fishermen, no cause for the deaths has been established conclusively.

A joint Bulgarian-Romanian investigation is underway, after the finding of dead dolphins horrified tourists at Black

### Miami blood donations halted over Zika fears

AFP • July 28, 2016

Miami-Dade mosquito control workers prepare to search homes for the *Aedes aegypti* mosquito in Miami, Florida, on June 8, 2016 (AFP Photo/Rhona Wise)

Miami (AFP) - US regulators Thursday called for a halt to blood donations in the Miami area as investigators probe four potential non-travel associated cases of the mosquito-borne Zika virus, which can cause birth defects.

If confirmed, the cases would mark the first time that mosquitoes carrying the virus are known to be present in the mainland United States.

The US territory of Puerto Rico has already seen a surge in local transmission of Zika, which can spread by mosquitoes or sexual contact.

"In consideration of the possibility of an emerging local outbreak of Zika virus, and as a prudent measure to help assure the safety of blood and blood products, FDA is requesting that all blood establishments in Miami-Dade County and Broward County...

An outbreak of the [Zika virus](#) has been confirmed in Florida, marking the first time the virus has been found to be transmitted via infected mosquitoes within the continental U.S.

The outbreak has infected at least four people, three men and one woman, through local transmission, Florida officials said today.

"This means Florida has become the first state in our nation to have local transmission of the Zika virus," Florida Gov. Rick Scott said today.

Scott said a small area in northern Miami that is about a square mile in size is the only area where the Zika virus is being transmitted from mosquitoes to people.

## CDC: Zika could affect 10,000 pregnancies in Puerto Rico by year's end

 **Liz Szabo, USA TODAY** 2:16 p.m. EDT July 29, 2016

(Photo: ORLANDO SIERRA, AFP/Getty Images)

The Zika virus could affect up to 10,000 pregnant women in Puerto Rico this year, putting hundreds of babies at risk of catastrophic birth defects, according to the Centers for Disease Control and Prevention.

Zika is spreading so quickly on the island that it's likely to infect one in four people by the end of the year, CDC director Thomas Frieden said. The greatest danger from Zika is microcephaly, in which infants are born with abnormally small heads and incomplete brain development, he said.

"That's horrifying," Frieden said. "This is a silent epidemic that is rapidly spreading through Puerto Rico."

Waleed Idrus al-Maneessy is a radical imam who heads up the Al-Farooq mosque in Bloomington, Minnesota, attended by at least six known terrorists and terrorist supporters.

A radical mosque known for breeding terrorists has been granted special privileges by the city of Bloomington, Minnesota, which allows its members to take over a public park and treat it as their own, to the exclusion of other residents, according to complaints filed by a citizens group.

The Friends of Smith Park started a petition drive and took its case to the Bloomington City Council with a formal complaint Monday night.

At issue is the Dar al-Farooq mosque, which WND has previously reported has a record of turning Somali

Armed police officers have launched a raid on a mosque and several homes belonging to a group believed to be radicalising Muslims in Germany.

Apartments belonging to eight board members of the radical German-speaking Islamic group searched by officers in Hildesheim, Lower Saxony.

It comes as part of a crackdown on the group, which is thought to have been encouraging people to travel to Syria and Iraq to join ISIS.

The group ran sermons, seminars and lectures entitled 'the hatred of infidels', according to German media.

# Ancient Illustrated Bible Found in Ethiopian Monastery

07-27-2016 - CBN News

Researchers have discovered an ancient illustrated Bible in an Ethiopian monastery, revealing a rich tradition of Christianity in the West African

## Ancient Illustrated Bible Found In Ethiopian Monastery

27 JULY, 2016

More Biblical relics have been discovered and this time, Researchers have discovered an ancient illustrated Bible in an Ethiopian monastery, revealing a root of Christianity in the West African country. Reports indicate that This find is called the “Garima Gospels”, which is named after a monk who came to Ethiopia in 494 A.D. from Constantinople. Beautifully illustrated, the pages are vivid and well intact.

*Play Bible Trivia!*

KNOW  
the BIBLE?

Click Here

### Excerpt From **CBN News**:

“Many of these old Christian relics can only be reached by hiking and climbing to remote monasteries as roads are limited in these mountainous region,” the researchers told Naij.com. “The Garima Gospels have been kept high and dry, which has helped preserve them all these years and they are kept in the dark, so the colors look fresh.” Scientists say the ancient text dates back some 800 years before the King James Version, making it one of the oldest copies of the Bible. The book was most likely written by a monk named Garima sometime around 350-650 A.D.

## Barack Obama Is On Track To Be The Only President In History To Never Have A Year Of 3% GDP Growth

By Michael Snyder, on July 29th, 2016

f t p g in su

We just got another extremely disappointing GDP number. It was being projected that U.S. GDP would grow by 2.5 percent during the second quarter of 2016, but instead it only grew by just 1.2 percent. In addition, the Census Bureau announced that GDP growth for the first quarter of 2016 had been revised down from 1.1 percent to 0.8 percent. What this means is that the U.S. economy is just barely hanging on by its fingernails from falling into a recession. As [Zero Hedge](#) has pointed out, the "average annual growth rate during the current business cycle remains the weakest of any expansion since at least 1949". This is not what a recovery looks like.

In addition, Barack Obama remains solidly on track to be the only president in all of U.S. history to never have a single year when the economy grew by at least 3 percent. Every other president in American history, even the really bad ones, had at least one year when U.S. GDP grew by at least 3 percent. But this has not happened under Obama even though he has had two terms in the White House.

The following are the yearly GDP growth numbers under Obama. They come directly from the [official website of the World Bank](#)...

# Apple Gets Desperate. Liquidates Overstocked iPhone 6S for \$1.

By Tom Rodgers, TNReport Tech

Updated 31 July, 2016

**Breaking News**

(TNReport) — People in Canada will be shocked to hear that Apple is running a special customer appreciation event and offering a huge discount to new and existing customers – by selling the iPhone 6S for \$1 (that's 99% off the original price!)

For only the month of July, Skilly (NASDAQ: JBFY) has partnered up with trusted Apple iPhone 6S distributors to provide this limited time deal to customers. This is not a mistake: \$1.

All of this is a part of an aggressive marketing strategy. Why are they offering such an incredible deal to Canada residents? The Apple marketing team explains: "Last year, the Canada market share may have

## Deutsche Bank Profit Plunges 98 Percent As The Outlook For 'The World's Riskiest Bank' Darkens

By Michael Snyder, on July 27th, 2016

The biggest and most important bank in the biggest and most important country in Europe continues to implode right in front of our eyes. If you follow my work regularly, you probably already know that I issued a major alarm about Deutsche Bank [last September](#). Subsequently, Deutsche Bank stock hit an all-time low. Then I sounded the alarm about Deutsche Bank again [back in May](#), and once again that was followed by another all-time low for Deutsche Bank. And then I warned about Deutsche Bank again [in early June](#), and you can probably imagine what happened after that. Over the past year, this German banking giant has literally been coming apart at the seams, and in so many ways it is paralleling exactly what happened to Lehman Brothers back in 2008.

Today, we got some more bad news from Deutsche Bank. Compared to the exact same period last year, profits were down **98 percent**. A nearly 100 percent drop in net income spooked a lot of investors, and Deutsche Bank shares got hit hard on Wednesday. Of course Deutsche Bank shares are already down by more than half over the past 12 months, and the financial sharks can smell blood in the water.

GOP Senator Lindsey Graham reveals White House shot down aid package requested by Israel

David Rosenberg · 28/07/16 14:42

UAE Crown Prince Mohammed bin Zayed al-Nahayan, Barack Obama (Reuters)

South Carolina Republican Senator Lindsey Graham blasted President Obama this week, condemning his refusal to increase American aid to Israel, as well as his efforts to bar Israel from spending the aid money within the Jewish state.

Speaking to *Haaretz*, Graham revealed that Israel had previously requested an increased aid package from the White House, with \$4 billion a year for regular military funding, plus \$600 million towards Israel's missile defense network.

But, Graham said, the administration rejected the request, despite similar increases to Arab states, such as Jordan.

## Bye Bye Middle Class: The Rate Of Homeownership In The United States Has Hit The Lowest Level Ever

By Michael Snyder, on July 28th, 2016

The percentage of Americans that own a home has fallen to the lowest level ever recorded. During the second quarter of 2016, the non-seasonally adjusted homeownership rate fell to just 62.9 percent, which was exactly where it was at when the U.S. Census began publishing this measurement back in 1965. This is not what a "recovery" looks like. All throughout the Obama years, the percentage of Americans that own a home has gotten smaller and smaller and smaller. The reason for this, of course, is that the middle class in America is dying. Last year, we learned that middle class Americans now **make up a minority of the population** for the first time ever. In order to have a high rate of homeownership, you need a thriving middle class, and you can't have a thriving middle class without good paying middle class jobs. This is why I write about the evisceration of the middle class so extensively, because the U.S. economy is systematically being hollowed out and most Americans don't understand

# Chinese seminary students ordered to deny God, obey gov't

Sunday, July 31, 2016 | Michael F. Haverluck (OneNewsNow.com)

The government's continued crackdown on Christianity in China is now forcing seminary students to deny God and put the Communist Party first by living under "absolute obedience" to the state.

Evidence of the state-run church being controlled by the government has been witnessed through a video mentioned by a Christian persecution watchdog organization, which tells of students being recorded while singing the Chinese anthem at Zhejiang Theological Seminary's graduation ceremony.

"It is obvious the seminary has degenerated into absolute obedience to the Communist Party's so-called Christian pastors' education base, becoming a Communist Party school dressed in the cloak of Christianity," [China Aid](#) Correspondent

More disturbing revelations about the DNC continue to come to light as hacked emails continue to be published online, exposing the radical left for who they really are for the whole world to see.

One of the latest developments to surface are emails that show the Democratic Party was working with anti-religious freedom groups to get around religious liberty laws that protect our First Amendment right to believe what we want, worship where we want, and live out our beliefs both publicly and privately.

This is truly atrocious.
