## والعلامات حتى 9 أغسطس 2016

Holy\_bible\_1

اكرر اننا لا نحدد مواعيد بل فقط نشجع بعضنا بعضا بقرب مجيء المسيح

وأیضا لا اقصد ان اخيف أحد بل من يخاف هو لا يثق في مواعيد الرب

هدفي فقط أن نذكر بعضنا باننا نحتاج ان نستعد. والاستعداد ليس فقط قبل مجيء المسيح بل

ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة

وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من

الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا

لان الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة

لان وقتها جميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك

زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان  
سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات ولكنه يأتي بسرعة  
بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي المسيح في زمنه  
ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

## سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَأَن تُوْمِنُونَ.

ثالثا لننتبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَاَنْتَصِبُوا وَاَرْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ».

علامات في السماء

مخاوف في ناسا من احتمالية اصطدام مذنب عملاق في حجم ناطحة سحاب بالأرض وتبدأ تستعد

لهذا الاحتمال

## NASA Fears 'Armageddon' Asteroid Could Strike Earth

5 AUGUST, 2016

NASA is preparing in advance for the possibility of a **giant asteroid that is larger than Empire State Building** and will be traveling at an estimated 63,000 MPH. If this asteroid was to strike the Earth it would result in nothing less than an ELE. or and Extinction Level Event. and The National Aeronautics and Space Administration (NASA) is taking the threat very seriously that it will soon launch a probe to prevent the future catastrophe from taking place.

Reports are indicating that this asteroid called “**Bennu**” which was a name given by ancient Egyptian mythology to an ancient Egyptian deity that was linked with the sun, creation, and rebirth. It may have been the inspiration for the phoenix in Greek mythology. Bennu will be traveling 63,000 miles per hour, and weigh over 60 million tons and has the diameter of around 500 meters. “Bennu” is larger than the Empire State building and has been compared to the destructive asteroid in the Hollywood movie “Armageddon.”

## Scotland hit by 25,000 lightning bolts in one night during freak summer thunderstorm

14:11, 20 JUL 2016 | BY ALISTAIR GRANT

HUMID conditions saw Scotland and the surrounding seas hit by 25,000 lightning strikes through the night as Scots sweltered in 19C heat.

5 AUGUST, 2016

Reports out of Scotland are indicating that it was struck by a **“Freak Storm”** that produced a **frightening 25,000 lightning bolts** in a single night! Several regions of the country baked in 29C heat during the day, the hot weather continued through the night with lows of 19C.

## Hurricane Earl death toll in Mexico rises to 39

Greg Toppo, USATODAY
1:05 a.m. EDT August 8, 2016

(Photo: NASA/NOAA, EPA)

As Tropical Storm Javier formed off Mexico's Pacific Coast on Sunday, the death toll from the remnants of Hurricane Earl grew to 39.

Earl, which was briefly a hurricane before hitting Belize and the Yucatan Peninsula, dumped rain and triggered deadly landslides across parts of eastern Mexico, The Associated Press reported.

The governor of the Gulf Coast state of Veracruz, Javier Duarte, said Sunday that 11 people had died in landslides in the towns of Cocomatepec, Tequila and Huayacocotla. Officials in the central state of Puebla also reported at least one death in a landslide in the mountain town of Xaltepec.

Authorities were still searching the area for residents who were reported missing, according to a statement from the state government.

At least 28 people died in multiple mudslides in the mountainous north of Puebla state, National Civil Protection Coordinator Luis Felipe Puente said in an interview with ForoTV. He said 25 of the dead were in various parts of the township of Huaucinango and three were in Tlaola.

After forming in the western Caribbean on Aug. 2, Earl made landfall as a Category 1 hurricane near Belize City on Aug. 4. It was the first hurricane to make landfall in Belize — or anywhere in the western Caribbean Sea west of Jamaica — since 2012.

Earl passed over Guatemala and southern Mexico before regaining strength over the Gulf of Mexico and making a second landfall southeast of Veracruz late Friday, Weather.com [reported](#). Heavy rain in the area led officials to close a section of the

## Typhoon Nida hits Hong Kong and southern China

Yahoo News Photo Staff

August 2, 2016

Typhoon Nida swept through Hong Kong on Tuesday, shutting down most of the financial hub and disrupting hundreds of flights with gale-force winds, while low-lying areas were put on flood alert. Hong Kong's first major typhoon this year brought gusts of more than 100 km per hour (62 mph) and prompted authorities to issue an amber warning, signifying heavy rain, at 5.20 a.m. Hong Kong time.

More than 150 flights were canceled, the Airport Authority said, with Cathay Pacific and Dragonair warning none of their flights would be operating until 2 p.m. at the earliest.

Thousands of passengers were stranded at the airport and about 325 flights are expected to be rescheduled.

The city's ferry, tram and bus services gradually resumed in the afternoon after the Hong Kong Observatory lowered the tropical cyclone warning to 3 from 8, shortly after midday.

## Wildfires burn in 7 Western states, prompt evacuations

By The Associated Press

AIM Share

Wildfires were burning Monday in seven Western U.S. states, from California's famed Big Sur region to tribal towns and hamlets near Reno, Nevada. Evacuations were ordered in Montana, Nevada, Oregon and Wyoming and firefighters were trying to stop a Washington blaze from reaching a thickly forested security zone at the Hanford Nuclear Reservation.

Here's a look at some of the fires:

### CALIFORNIA

Higher humidity and lower temperatures on Monday helped firefighters battle a destructive fire that has scorched more than 63 square miles near the scenic Big Sur coast, while firefighters in Central California faced blistering heat as they worked to contain a blaze that burned rural homes and forced hundreds of evacuations near the small Fresno County town of Prather.

A layer of ocean air that arrived in the mountainous Big Sur region was credited for the better firefighting conditions in an area where a fire that started July 22 has destroyed 57 homes and 11 outbuildings and is threatening 2,000 more structures. A bulldozer operator working for the firefighting operation died in an accident last week.

The blaze near Prather damaged an undetermined number of 400 evacuated homes just outside the Sierra National Forest, the California Department of Forestry and Fire Protection said.

That fire started Saturday and by Monday had grown to nearly 3 square miles with just 15 percent of it cut off by firefighters from burning further.

Just north of Los Angeles, a 65-square-mile wildfire in wilderness just north of Los Angeles was almost fully contained and only active with isolated pockets of vegetation burning within a perimeter firefighters established to prevent it from burning outside the zone. A man who refused to evacuate from a home was killed

Traffic rolls east along Hwy 82 with a backdrop of brown smoke from a fire just outside Prosser, Wash., that grew to an estimated 1,000 acres and was threatening homes according to the Washington State Patrol Sunday evening, July 31, 2016. Level 3 evacuations were in effect for 50 threatened homes. Level 3 means that residents are notified that a fire is nearby and they should be ready to leave if necessary. ## Alaska earthquake "swarm" probably not earthquakes at all

Hundreds of small seismic events have occurred in an area near Pothole Glacier. From the Alaska Earthquake Center

By Tracy Sinclair | Posted: Sun 11:13 AM, Aug 07, 2016

**ANCHORAGE (KTUU)** Earlier this summer, the scientists at the Alaska Earthquake Center began monitoring a swarm of small earthquakes in an area about eight miles west of Mt. Spurr. According to State Seismologist Dr. Michael West, they probably aren't earthquakes at all.

Hundreds of small seismic events have been registered in the area since June 11, with almost 100 of the recordings exceeding magnitude 2.

"That catches our attention," says West, "because magnitude 2 is big enough that you're being recorded, you can see that signal a few hundred kilometers away."

The three possible sources of these seismic events, according to West, are standard earthquake activity, volcanic activity or glacial activity. "The patterns of all these little events didn't fit the pattern of a classic earthquake swarm driven by

## Major Volcanoes Along The Ring Of Fire Are Going Off Like Firecrackers

4 AUGUST, 2016

(By **Michael Snyder**) So far this week, we have seen the most dangerous volcano in Mexico erupt, and three major volcanoes in Indonesia all erupted within the space of just 72 hours. Mexico and Indonesia are both considered to be part of "the Ring of Fire", and all along the perimeter of the Pacific Ocean volcanoes are starting to go off like firecrackers right now. According to Volcano Discovery, 25 volcanoes in areas that are considered to be within the Ring of Fire have erupted recently.

A large flock of mallard ducks at Brenderup farm in western Funen has been infected with low pathogenic avian influenza.

Although this type of bird flu is not dangerous to humans, the Danish Veterinary and Food Administration (DFVA) has decided to put down 3,000 chicks to stop the virus from spreading and from developing into a highly pathogenic form that can be deadly also to humans.

The infection was discovered during a routine inspection carried out as part of Denmark's prevention efforts

GREENSBURG, Ind. – Residents at Lake Point Apartments in Greensburg were concerned when they found a large number of fish dead in their apartment pond.

Officials with the Department of Natural Resources Division of Fish and Wildlife said this is a case of a shallow retention pond that quickly heated up due to intense temperatures lately, and caused the fish to die off due to lack of oxygen.

The Indiana Department of Environmental Management also looked into the situation and said nothing suspicious was suspected, but they will continue to investigate.

## Hundreds of fish die in Ravine Lake

By Kelley Smith | Posted: Sat 5:51 PM, Jul 30, 2016 | Updated: Sat 10:49 PM, Jul 30, 2016

**HURON, S.D.** - Some might say fish in Huron aren't doing swimmingly. Hundreds of fish have died, all due to low oxygen levels at Ravine Lake. Earlier this week, three truckloads of dead fish were pulled out of the water. The lake was also closed to swimmers just days before the Ravine Lake Triathlon. Organizers of the Ravine Lake Triathlon had to put the pedal to the metal this week after they found out the swimming portion of their event was going to have to be cancelled.

The event planners found out two days before the race that triathlon participants wouldn't be able to swim in Saturday's event. Kim Rieger planned and participated in the race. She says the water has been tested and it's safe for swimming, but after she went to the lake Thursday night to get the course ready, organizers decided to not include the swim.

"There were lots of fish floating belly up and a very strong smell and you could see

Melanie Pressley of Lakeport, Calif., found hundreds of dead fish floating in Clear Lake near her home on Sunday, July 31, 2016. Courtesy photo.

LAKEPORT, Calif. — Warm water, lack of oxygen and a heavy biomass load in Clear Lake are among the factors that local and state officials believe are behind a fish die-off in the Lakeport area that occurred over the weekend.

Melanie Pressley, who lives on the lake in the north Lakeport area, said the lake looked good on Saturday night, but when she got up Sunday, she saw hundreds of dead fish on the water.

She said there was a wide variety of fish involved in the die-off — “big, small, medium, anything in between.”

Pressley said that in the 10 years she has lived at her current residence in Lakeport, she's never seen such a die-off, although they're not uncommon on the lake.

Tons of fish have been found dead in a pond at a park located in the central Vietnamese city of Da Nang.

Fish from a lake in the 29/3 Park in the central hub were discovered having died en masse on Monday, releasing a foul smell upsetting many local visitors.

Most of the dead fish were adult tilapias, some of which weighed up to two kilograms each. A smaller number of common carp and shrimp also suffered the same fate.

The incident was noticed by hikers along the lake during the morning and quickly reported to managers of the venue.

## Markets Hit by More Bird Flu in Cote D'Ivoire

03 August 2016

**COTE D'IVOIRE** - Ten new outbreaks of H5N1 strain highly pathogenic avian influenza have been found in Cote D'Ivoire.

The outbreaks were found in markets, farms and backyard premises in Abidjan, Bouake and Agnebikrou.

The market outbreaks were discovered through targeted surveillance, following previous outbreaks.

The sources of the outbreaks are unknown, but is thought to be related to the introduction of new live animals.

Over 25,000 birds were destroyed to prevent the disease spreading, on top of over 4000 bird deaths caused directly by the disease.

## Lack of oxygen in Southwest River causes fish kill

1 of at least 15 confirmed reports of anoxic waterways on P.E.I. in 2016

By Laura Chaplin, CBC News Posted: Aug 03, 2016 1:09 PM AT | Last Updated: Aug 03, 2016 3:52 PM AT

Most of the fish have been scavenged or flushed away by the tide, but some dead fish remained on Wednesday. (Laura Chaplin/CBC)

165 shares

A lack of oxygen in the tidal area of the Southwest River has left thousands of small bait fish dead, according to the province.

A kayaker reported the dead fish on Tuesday, and officers from the provincial Communities, Land and Environment, and Public Safety and Justice departments investigated.

"The Southwest River was anoxic at the time," said Wade MacKinnon, manager of investigation and enforcement with Public Safety and Justice.

"The lack of oxygen in the water resulted in a fish kill in the tidal portion of the river. There were live trout found at the head of the river at the time, confirming this was not a pesticide related event."

Nutrients from run off, septic systems and nitrates from farmers fields all kick off the growth of sea lettuce, turning the water a limish green or milky white — along with a horrible smell.

Authorities are investigating reports up to 1000 dead starfish have washed up on beaches near Fremantle since Monday.

Department of Fisheries officers have collected samples of the dead star fish from South Beach and nearby beaches in North Coogee to try and determine what has caused the kill.

### Microorganism turns parts of Souris River red near Burlington

Souris River Turns Red

By Joe Skurzewski | Posted: Fri 6:07 PM, Aug 05, 2016 | Updated: Fri 8:36 PM, Aug 05, 2016

[f](#) [t](#) [in](#) [g+](#) [e](#) [p](#)

**BURLINGTON, N.D.** - Some Burlington-area residents say the Souris River is turning red.

It sounds like something you'd find in the Bible—a river turning red—but, as it turns out, there is an explanation for what's happening.

State health officials say they believe they know what's making the river look this way, and they say there's no serious threat to the public.

Burlington-area resident Jon Dawson got quite a surprise this past week.

"As I've been working on fence up there, I've seen it up around the bend over there as well," said Dawson, pointing to where he saw the red.

# At least 30 children dead in Myanmar from unknown disease

August 4, 2016

At least 30 children have died in northwestern Myanmar since mid-June from an unknown disease that causes breathing difficulty, officials said Thursday.

## 7 Dementia Warning Signs

Your Body Will Send 7 Signals That Dementia Is Coming.

"We have this problem since two months ago and we haven't received any help from the government yet," said Kay Sai, a local administrator.

He said the deaths have been recorded in Nanyun and Lahe towns in the Naga region, one of the poorest in the country, about 1,300 kilometers (800 miles) from Yangon, adjoining India's Nagaland state. He said most of the victims have been younger than 5.

Kay Sai said officials have not been able to identify the disease, which appears to be contagious. Blood samples have been sent to a hospital in the neighboring Sagaing division and results are awaited. There has been no response from the Ministry of Health, or the Department of Prevention of Transmitted Diseases on the outbreak.

He said local authorities have temporarily banned people from traveling around to prevent contagion.

The Naga area is the least developed part of Myanmar and is in utter neglect with the absence of even the most basic health care, education and infrastructure.

Law Yone, a local lawmaker of Lahe township, said that the region suffers from inadequate transportation, insufficient number of health care workers and medicine. Because of the backwardness, even curable diseases have proved to be deadly in the past he said.

# Zika Vaccines Work in Monkeys

Three experimental Zika vaccines protected monkeys against infection, an encouraging sign as research moves into studies in people.

Aug. 4, 2016, at 2:17 p.m.

 MORE

By MALCOLM RITTER, AP Science Writer

NEW YORK (AP) — Three experimental Zika vaccines protected monkeys against infection from the virus, an encouraging sign as research moves into studies in people.

The success in monkeys, which involved a traditional vaccine and two more cutting-edge ones, "brings us one step closer to a safe and effective Zika vaccine," said Dr. Dan Barouch of Beth Israel Deaconess Medical Center in Boston. "But of course, there's a lot more work to do."

[NEWS OF THE DAY: [Meet the New Hillary Clinton](#)]

Barouch and others reported the results in a paper released Thursday by the journal Science. One of the vaccines is expected to enter preliminary human studies this year.

At least two other vaccines have reached that point already. Inovio Pharmaceuticals announced last week that it had injected its first participant. The National Institute of Allergy and Infectious Diseases gave its first vaccine Tuesday. Both studies focus on assessing vaccine safety.

# Heat Wave Sparks Anthrax Outbreak in Russia's Yamalo-Nenets Area

by ALEXEY EREMENKO

SHARE

MOSCOW — Thirteen members of a nomadic Siberian community have been hospitalized after a heat wave thawed the carcass of an anthrax-infected reindeer and sparked an outbreak of the disease.

Around 1,500 of the animals have died from the highly infectious disease since Sunday, the government of Russia's Yamalo-Nenets autonomous district announced on its website Tuesday.

## Mutant 'Super Lice' Outbreak Has Now Spread to Nearly Every State

Country Living August 4, 2016

From Country Living

Back to school season is upon us, which means it's time for new school supplies, first day of school pictures, and that dreaded four-letter word: lice. But this year, it's not just exposure to regular lice that parents have to worry about: There's now a treatment resistant "super lice" that's spreading across the United States.

A whopping 42 out of 48 states tested are overrun by this so-called super lice, according to a [study published in the Journal of Medical Entomology](#). In these 42 states, according to [NBC's Today show](#), 100 percent of the lice tested were resistant to over-the-counter treatments.

In six other states - New York, New Jersey, Michigan, Oregon, New Mexico, and North Dakota - some, but not all, the lice tested were resistant to over-the-counter treatments.

## China to launch unbreakable quantum spy satellite - and it could one day lead to a megascope the size of Earth that could 'spot a license plate on Jupiter's moons'

- Satellite produces entangled photon pairs which form an encryption key
- These photons will theoretically remain linked over great distances
- This means that any attempts to listen in will be detected on the other side
- Scientists say this could one day make for a secure global network

Scientists in China are set to launch the world's first 'quantum satellite,' which could one day make for an ultra-secure global communications network.

The 1,300 pound craft contains a crystal that produces pairs of entangled photons, which will be fired to ground stations in China and Austria to form a 'secret key.'

Entangled photons theoretically maintain their link across any distance, and according to the scientists, any attempts to breach this type of communication would be easily detectable.

## Japan orders military to be ready for North Korea missile launch at any time

Japan ordered its military on Monday to be ready at any time to shoot down any North Korean missiles that threaten to strike Japan, putting its forces on a state of alert for at least three months, a defense ministry official and media said.

Up to now, Japan has issued temporary orders when it had indications of an imminent North Korean missile launch that it has canceled after a projectile had been launched.

However, because some test firings are hard to detect, it has decided to put its military on standby for a longer period. The order will be reviewed after three months, state broadcaster NHK said.

## N. Korea accuses US of seeking 'pre-emptive nuclear strike'

AFP • August 06, 2016

Pyongyang accused Washington of "becoming more pronounced in their moves to topple the DPRK" after the US Air Force announced on July 29 that it would upgrade its hardware on Guam by sending a B-1 bomber for the first time since April 2006 (AFP Photo/Brendan Smialowski)

--

Seoul (AFP) - North Korea has accused Washington of planning a pre-emptive nuclear strike, after the US announced it would deploy its B-1 bomber in the Pacific for the first time in a decade.

The strategic aircraft were to be deployed on Saturday on the US island of Guam, the US military said last month, describing the operation as a routine rotation with the B-52 bomber.

Tensions have been running high since North Korea carried out its fourth nuclear

A former Islamic State jihadist, German-born Harry Sarfo, has revealed that the terrorist group is actively seeking volunteers in Germany and the UK to carry out "loads of attacks at the same time in England, Germany and France."

Members of the far-reaching Islamic State's (IS, formerly ISIS) intelligence service, called Emni in Arabic, allegedly told Sarfo they were first and foremost interested in waging terrorism across the globe.

Trends

The Islamic State group is targeting the U.S. Army, putting out a hit list of 700 soldiers — by name — and ordering its terrorist militia to “kill the dogs.”

United Cyber Caliphate, the Islamic State’s 3-month-old computer network hacking consortium, has posted a number of such lists.

## Toxic Gas Allegedly Dropped On Syrian Town Where Russian Helicopter Shot Down

Posted on August 2, 2016 by Staff in Middle East, News, War & Conflict // 0 Comments

A Syrian humanitarian rescue service **claimed** on Tuesday a helicopter had dropped containers of toxic gas over a town that is close to where a Russian military helicopter was shot down by Islamic rebels.

The opposition Syrian National Coalition is **putting** the blame on President Bashar al Assad and Syrian military troops loyal to his regime, despite Assad denying previous accusations of using chemical weapons.

A spokesman for Syria Civil Defence **claims** that 33 people have been affected by the toxic gas, most of the victims were women and children.

The toxic gas that was used is suspected as being chlorine, and was allegedly dropped on the Syrian town

**On Sunday, Russian and Syrian Army aircraft dropped a wave of heavy munitions over the city of Idlib, the base of operations for the terrorist organization al-Nusra Front (al-Qaeda affiliate) one day after rebels led by the Islamist extremist organization broke through the siege of Aleppo.**

On Sunday, [it was reported](#) that Russian and Syrian forces undertook a heavy bombing campaign in the city of Idlib only miles away from the besieged city of Aleppo which has become a critical combat zone between pro-Assad forces and opposition rebels. The strike comes in the wake of the rebels breaking through a Syrian Army siege in Aleppo and successfully seizing several key strategic points including multiple military colleges and artillery bases.

The rebel forces victory appears to be short lived with Russia intensifying its bombing

## Recent Israeli Settlement Announcements

Press Statement

**John Kirby**  
Assistant Secretary and Department Spokesperson, Bureau of Public Affairs  
Washington, DC  
July 27, 2016

[f](#)[t](#)[G+](#)[+](#) Share

We are deeply concerned by reports today that the Government of Israel has published tenders for 323 units in East Jerusalem settlements. This follows Monday's announcement of plans for 770 units in the settlement of Gilo.

We strongly oppose settlement activity, which is corrosive to the cause of peace. These steps by Israeli authorities are the latest examples of what appears to be a steady acceleration of settlement activity that is systematically undermining the prospects for a two-state solution.

In just the past few weeks, we have seen reports of the advancement of plans for 531 units in Ma'ale Adumim, 19 in Har Homa, 120 in Ramot, and 30 in Pisgat Ze'ev; the advancement of a plan to retroactively legalize an outpost near Ramallah; and the issuance of tenders for 42 units in Kiryat Arba.

We are also concerned about recent increased demolitions of Palestinian structures in the West Bank and East Jerusalem, which reportedly have left dozens of Palestinians homeless, including children. More than 650 Palestinian structures have been demolished this year, with more Palestinian structures demolished in the West Bank and East Jerusalem thus far than in all of 2015.

As the recent Quartet Report highlighted, this is part of an ongoing process of land seizures, settlement expansion, legalizations of outposts, and denial of Palestinian development that risk entrenching a one-state reality of perpetual occupation and conflict. We remain troubled that Israel continues this pattern of provocative and counterproductive action, which raises serious questions about Israel's ultimate commitment to a peaceful, negotiated settlement with the Palestinians.

# Government to lift moratorium on cross-species, 'chimera' research

A single cell is removed from a human embryo to be used in generating embryonic stem cells for scientific research. (Associated Press) \*\* FILE \*\* more >

By Bradford Richardson - The Washington Times - Thursday, August 4, 2016

The federal government is planning to lift a moratorium on funding for research studying the effects of injecting animal embryos with human stem cells, creating half-human half-animal hybrids.

The National Institutes of Health policy would allow federal funding to go toward research creating human-animal embryos known as "chimeras."

## Implanting Microchips Under Their Skin Becoming New Normal

6 AUGUST, 2016

(By **Ricky Scaparo**) Microchip implants have been woven into the very fabric of society through keeping track of pets for some time now, but now people are **getting them inserted in hopes of improving their lives**. Society is quickly embracing microchip implants to unlock doors, log into cell phones and even make payments without the hassle of cash or credit cards. One example is Tim Shank who uses it to open his front door and manipulate his smartphone. "It turned off my ringer," Shank said. Krissy Heishman uses hers instead of a key card at work. "It's just like a little glass bead about the size of a tiny grain of rice," Heishman said. They are among the growing number of people implanting technology under their skin to make their lives easier.

## 'Faceless Recognition System' Can Identify You Even When You Hide Your Face

Written by JOSHUA KOPSTEIN

August 7, 2016 // 01:00 PM EST

With widespread adoption among law enforcement, advertisers, and [even churches](#), face recognition has undoubtedly become one of the biggest threats to privacy out there.

By itself, the ability to instantly identify anyone just by seeing their face already creates massive power imbalances, with serious implications for [free speech and political protest](#). But more recently, researchers have demonstrated that even when faces are blurred or otherwise obscured, algorithms can be trained to identify people by matching previously-observed patterns around their head and body.

In a [new paper](#) uploaded to the ArXiv pre-print server, researchers at the Max Planck Institute in

## Facebook deletes Israel from list of Olympics participants

Facebook leaves name 'Israel' and flag off of list of countries taking part in Rio Olympics, showing only flag of Israel Olympic Committee.

Shai Landesman, 04/08/16 12:41

Facebook (illustration) (Thinkstock)

The Olympic Committee of Israel (OCI), sent an urgent letter to Facebook last night (Wednesday), urging the mammoth social media company to add Israel and its flag to a list on the site of countries competing in the upcoming Rio Olympics, *Ynet* reported today.

Pending a response from Facebook, it is yet unclear whether there is a coincidental oversight or an intentional slight or statement.

The omission was reportedly first noticed in the evening hours last night, with the OCI Facebook page receiving messages from users complaining that Israel is conspicuously absent from the list of participating countries. The list showed only the flag of the OCI.

The Olympic Committee confirmed they had been alerted to the problem, and told *Ynet*: "Already yesterday the Olympic Committee sent an urgent request to Facebook to add Israel

## US POISED TO HIT OBAMA'S TARGET OF 10,000 SYRIAN REFUGEES

BY KEVIN FREKING AND ALICIA A. CALDWELL  
ASSOCIATED PRESS

WASHINGTON (AP) -- After a slow start, it appears increasingly likely that the Obama administration will hit its goal of admitting 10,000 Syrian refugees into the United States before the end of September.

State Department figures show that 2,340 Syrian refugees arrived last month in the United States.

AP Photo/Letteris Pitarakis

That's more than what occurred during the entire seven months after President Barack Obama directed his team to prepare for 10,000 admissions from the war-torn country. Total admissions for the current budget year, which ends Sept. 30, now come to about 7,900, and the vast majority of them are Sunni Muslims, records show.

If the pace from June and July continues this month, the target should be reached with a couple weeks to spare before Obama heads to the United Nations to urge world

Hamas terrorists

Mohammed El Halabi, an employee of World Vision, the world's largest evangelical Christian charity, has been charged in Israel with funneling tens of millions of dollars to the military wing of Hamas, a designated international terrorist organization affiliated with the Muslim Brotherhood.

The arrest was made June 16, according to the Israeli daily Haaretz, but a gag order on the case files was lifted Wednesday and Halabi was indicted Thursday. The indictment reveals details of how Hamas infiltrated Federal Way, Washington-based World Vision, a global Christian outreach active in nearly 100 countries.

Halabi, director of World Vision's Gaza branch, was detained at the Erez crossing in Israel as he was headed back to Gaza on his way home from "routine meetings," several Israeli news outlets were

The terminally ill man who is set to become the world's first head transplant recipient says more details about his extraordinary surgery will be revealed next month.

Valery Spiridonov, a computer scientist from Russia, is set to undergo the risky procedure next year.

Today, the 31-year-old is wheelchair reliant due to a muscle-wasting disease, announced his neurosurgeon would explain how the plan was progressing in September.

Mr Spiridonov says he is ready to put his trust in controversial surgeon Dr Sergio Canavero who claims he can cut off his head and attach it to a healthy body.

Neither the exact date or location have been chosen yet, but the world first procedure is aimed to take place in December 2017.

The FBI wants the ability to surreptitiously turn your smartphone into a video- and audio-recording device without your knowledge, and it is calling on the high-tech industry to supply it with an app to perform those surveillance functions.

According to a planning document that WND obtained via routine database research, the app would enable the FBI to capture sounds and images near a targeted phone, and not simply intercept communications taking place through the phone.

The contents of the draft Request for Information, or RFI, document, "Smartphone-based Audio Recorder Technical Requirements," reveal more than the title suggests about this desired capability.

## Donald Trump Warns Americans To Get Out Of The Stock Market As The Dow Falls For A 7th Day In A Row

By Michael Snyder, on August 2nd, 2016

[f](#) [t](#) [p](#) [g](#) [in](#) [su](#) [e](#)

One thing that you have to appreciate about Donald Trump is that unlike most politicians, he actually says what is on his mind. On Tuesday, Trump told Fox Business that he had already gotten out of the stock market, and that he foresees "very scary scenarios" ahead for investors. And of course things have already started to get a bit ominous for those holding stocks over the last week and a half. The Dow Jones Industrial Average has now closed down for seven days in a row, and that is the longest losing streak that we have seen since the panic of last August. Over the past 12 months we have seen virtually every other major global stock market experience at least one major crash. Could the U.S. markets be next?

What Trump told Fox Business earlier today was actually right on the money. Our financial markets have been artificially inflated by the Federal Reserve, and all artificial bubbles of this nature eventually burst. The following comes from a Bloomberg article that was posted on Tuesday entitled "Trump Urges Exit From Market Boosted by

The federal government has sunk deeper into the red than analysts projected just five months ago, and is now poised to post a \$590 billion shortfall this fiscal year, the Congressional Budget Office said Friday.

That's some \$56 billion worse than the CBO had projected in March, and it comes as new spending far outpaces revenues.

## August Has Officially Become “Muslim Appreciation” And Awareness Month

5 AUGUST, 2016

The California State Assembly recently voted to officially recognize only one religious group in an effort of awareness and appreciation for the entire month of August and take a guess which one it was.

On Monday the state passed a resolution naming August 2016 as “Muslim Appreciation and Awareness Month.” The local NBC affiliate reports: Consequently, this resolution conveniently comes at a time of increased anti-Muslim rhetoric, according to a recent civil rights report

PRINCE GEORGE, B.C. — A Bible camp in Canada is under fire for its stance on homosexuality, and one group is

looking for another location to host its leadership event after the camp cancelled a “gay pride” speaker on its grounds.

Lake Ness Bible Camp, located in Prince George, is operated by the evangelical organization One Hope Canada, whose motto is “A passion for the gospel. A burden for Canada.” Hundreds of children and teens attend the camp each year to learn more about the Bible and to engage in recreational activities such as canoeing, paintball and ziplining.

The camp has policies for its rentals and require usage to be in line with the Christian values of the organization.

“I understand the purpose of Ness Lake Bible Camp as set forth in the Statement of Faith and the Mission Statement, and I confirm that the purpose of our organization is not in conflict with the camp’s purpose nor will it compromise the Statement of Faith by its actions or

**OVIEDO, Fla.** — A prominent professing atheist group has taken issue with an awards ceremony for a Florida police department that was held at a theological seminary and included an invocation.

The Wisconsin-based Freedom From Religion Foundation (FFRF) recently sent a letter to Jeffrey Chudnow, the chief of police with the Oviedo Police Department, to outline its objections to the event that took place this past March.

According to reports, the Oviedo Police Department Awards Ceremony and Career Track Recognition was held at Reformed Theological Seminary on March 31 and

## 'Satan Club' Requests Hit Schools

After-school religious clubs are the next venture of a national group that sought to install a statue of Satan outside two state capitols to protest Christian monuments on public grounds.

MORE

By HEATHER HOLLINGSWORTH, The Associated Press

KANSAS CITY, Mo. (AP) — After-school religious clubs appear to be the next venture of a national group that sought to install a statue of Satan outside two state capitols to protest Christian monuments on public grounds.

The Satanic Temple contacted nine public school districts across the country this week seeking to start after-school Satan programs. In all but one district, religious clubs are operated by the Child Evangelism Fellowship's Good News Clubs, in which students can study the Bible and pray, according to temple co-founder Lucien Greaves.

[RELATED: [An After-School Satan Club May Be Coming to Your Local Elementary School](#)]

Several districts contacted by The Associated Press said they were reviewing the group's request and noted their facilities were available to community groups.

Mat Staver, founder of a Christian legal aid group that has represented the Child Evangelism Fellowship, said Greaves' organization was illegitimate and an "atheist group masquerading" as religious. Greaves described Satanism as an atheist philosophy whose believers "feel it provides everything a religion provides to be legitimized as such."

## DAYS OF LOT: Naked Vacations On The Rise

4 AUGUST, 2016

Not only is our television programs saturated in nudity but it now appears that vacations need to be in the buff! According to a new report, More than a third of British men say they would consider sunbathing naked this year on the beach. But it's not just a male ambition: 17 per cent of women would strip down to nothing too.

### Excerpt From **Express**:

Reportedly, getting an all-over tan is the most popular reason to bare all on the beach, with 42 percent of the vote. While 21 percent do it to 'reconnect with nature' and one in five (20 per cent) want to 'step out of their comfort zone', according to a survey from lastminute.com. Andrew Welch, British Naturism, the UK's organization for Naturists said: "We know that people are far

Women having sex changes on the NHS are being given free fertility treatment so they can have babies after they become men.

At least three British men who were born female are 'on the brink' of becoming parents using IVF techniques, according to a top doctor.

And dozens more are now having their eggs frozen at NHS clinics before undergoing surgery or hormone therapy to switch sex.

## In a New Comic, a Transgender Superhero Hides 2 Identities

By GEORGE GENE GUSTINES JUNE 23, 2016

Brian Stelfreeze's sketch of Chalice, a new transgender superhero. *AfterShock Comics*

Chalice is a new superhero who can manipulate gravity so that she can fly. Chalice is also Charlie Young, a male college student, who, unbeknown to his family, is beginning to transition to female. Unlike most superheroes, who have to maintain one secret identity, Chalice has two.

And so begins *Alters*, a series from [AfterShock Comics](#), coming in September, that will introduce Chalice in a central role.

The series was created by the writer Paul Jenkins, a comics veteran whose credits include *Origin*, which detailed the early days of *Wolverine*. For Mr. Jenkins it is a passion project, one he has pursued since 2005. He gives a lot of credit to his mother, a gay single mom who raised him and his brother in

Dorset, England. "If we ever get to a point where issues such as race, sexuality and gender identity are a nonissue, we will have arrived," he said. "That's my Mum talking right there."

وأيضا المدارس الأمريكي قد تطبق خطة قريبا في إعادة تعريف الأولاد البنات ويسمى ببرنامج جنس وحيد القرن وهو ليعرف الطفل انه عندما يذهب الفراش هل هو ولد ام بنت وأيضا فيما بعد سيذهب للفراش مع من

The radical, anti-values sexual revolution is accelerating at break-neck speed.

Just last week, the Charlotte Mecklenburg School Board acted on Obama's high-pressured, open bathroom initiative by taking it to a whole "nutha" level.

CMS introduced "The Gender Unicorn." This little guy is the Charlotte school system's new teacher's assistant. He's going to help our children explore and discover who they "go to bed as," and who they like to "go to bed with."

Are you kidding?!

He (or she, not really sure) looks cute and harmless – kind of like Barney with a horn. Check him/her/it/ze/z/whatever out:

فلهذا اطلب أن نصلي ونستعد ونعد زيت لمصاييحنا لاستقبال العريس بالصلاة والصوم وخدمة

أبناء الله وتنقية القلب والاستعداد بلبس العرس.

رسالة بولس الرسول الي أهل رومية 13

13: 11 هذا وأنكم عارفون الوقت انها الان ساعة لنستيقظ من النوم فان خلاصنا الان أقرب مما كان حين امنا

13: 12 قد تناهى الليل وتقارب النهار فلنخلع اعمال الظلمة ونلبس اسلحة النور

13: 13 لنسلك بلياقة كما في النهار لا بالبطر والسكر لا بالمضاجع والعهر لا بالخصام والحسد

13: 14 بل البسوا الرب يسوع المسيح ولا تصنعوا تدبيرا للجسد لأجل الشهوات

احترس ان لم تتمسك بالمسيح من الان قد لا تستطيع في المستقبل القريب بسبب الظلام.

وكما قلت هو اخبرنا لكي لا نخاف

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

بطرس الأولى 3: 14

وَلَكِنْ وَإِنْ تَأَلَّمْتُمْ مِنْ أَجْلِ الْبِرِّ، فَطُوبَاكُمْ. وَأَمَّا خَوْفُهُمْ فَلَا تَخَافُوهُ وَلَا تَضْطَرُّوْا،

**بل نؤمن**

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثًا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَأَنْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

افرحوا لان عريسنا قد اقترب مجيؤه. وانتبهوا الشيطان يريد أن نفقد سلامنا ولا ننال أكاليل.

وأيضا استعدوا فقد تسلموا وديعتكم في أي وقت فهناك 150 ألف شخص يموتوا في اليوم الواحد

انت لا تعرف متى ستكون منهم

المسيح اقترب فاصنعوا ثمار تليق بالتوبة واستعدوا لاستقبال العريس.

والمجد لله دائما
