اكرر اننا لا نحدد مواعيد بل فقط نشجع بعضنا بعضا بقرب مجيء المسيح

وأیضا لا اقصد ان اخيف أحد بل من يخاف هو لا يثق في مواعيد الرب

هذفي فقط أن نذكر بعضنا باننا نحتاج ان نستعد. والاستعداد ليس فقط قبل مجيء المسيح بل

ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة

وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من

الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا

لان الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة

لان وقتها جميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك

زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان
سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات ولكنه يأتي بسرعة
بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي المسيح في زمنه
ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَأَن تُوْمِنُونَ.

ثالثا لننتبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَاَنْتَصِبُوا وَاَرْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ».

Nasa says asteroid could pass as close to 11,000 miles from Earth on 5 March (IBTimes UK)

A huge fireball caused by a 'meteor' allegedly seen over earth panicked local residents in the Gladstone area of Queensland, Australia, according to reports on Monday (26 September).

Police reported receiving phone calls from people, who reported feeling tremors of an earthquake. However, the claim was dismissed by Geoscience Australia, while the Higgins Storm Chasing crew said that the "meteorite

METEOR SMASHES INTO AUSTRALIA: People left terrified as space rock causes houses to SHAKE

RESIDENTS of Australia were left terrified after what is believed to be a meteor crashed into Queensland.

By SEAN MARTIN

06:45, Tue, Sep 27, 2016 | UPDATED: 07:43, Tue, Sep 27, 2016

Australia has been struck by a meteor

Locals spotted the meteor which resulted in a huge flash of light that filled the night sky.

The space rock is believed to have crashed off-shore at Turkey Beach and Emerald in Queensland, Australia.

People in the area said the impact caused houses to tremble, with police confirming that they had received several calls in what many had thought was initially an earthquake.

However, Geoscience Australia has stated that there was no quake, with weather forecasters Higgins Storm Chasing saying that "it looks like a meteorite has impacted somewhere

The final day of September will bring a rare lunar event that hasn't occurred since March of 2014, a Black Moon.

The term Black Moon has several definitions, but one of the most common definitions is the second new moon in a calendar month. This is similar to the well-known Blue Moon, which is the name given to the second full moon in a calendar month.

Solar storm heading towards Earth threatening to break your Sky TV and mobile phones

A HUGE solar storm is heading towards Earth which could leave us without mobile phones, satellite TV and even electricity.

By **SEAN MARTIN**

02:53, Thu, Sep 29, 2016 | UPDATED: 09:50, Thu, Sep 29, 2016

A solar storm is heading towards Earth

Modern-day Britain could go into meltdown after scientists forecast the solar storm to hit between now and Friday which could wreak havoc with technology.

Solar storms affect Earth's technology as radiation is thrown at the planet from the [Sun](#).

While humans are protected from the radiation by the atmosphere, the rays can heat the outer atmosphere, causing it to expand which can affect satellites in orbit. That could lead to a lack of GPS navigation, mobile phone signal and satellite TV such as Sky.

وبالفعل تصل للأرض وتسبب اربورا قوية في بعض المناطق

Parts of the world are expected to light up with a green glow tonight, as a strong solar storm continues to batter our atmosphere.

The storm was caused by a hole in the outermost layer of the sun, opening the magnetic field up to stretch further than usual, which resulted in a gradual increase in the solar wind.

An increase in solar activity means the chances of seeing the Northern Lights, or Aurora Borealis, tonight in places like Canada, Scandinavia, Scotland and even northern England are greater than usual.

NSW town of Forbes evacuated ahead of once in a generation flood

AAP | 8:39PM September 25, 2016

36

Rising floodwaters expected to inundate two rural NSW towns may cause problems with power and sewage for several days, despite lower and later-than-predicted peaks.

Residents at Forbes are being advised to evacuate as the Lachlan River swells to an estimated peak of 10.7m by midnight Sunday following 17mm of rain overnight Saturday.

The ADF, NSWFRS, RFS and SES are at nearby Condobolin, building barricades with sandbags as they wait for the water to arrive, and it's likely authorities will be busy in the area for another few weeks, SES spokeswoman Sue Pritchard said.

"It's slow to rise and slow to fall," she said on Sunday evening.

Since the rain began on August 30, the SES has received 2343 calls for assistance and has performed 96 flood rescues.

No people needed rescuing on Sunday but volunteers were kept busy saving horses, cattle and sheep at properties expected to be impacted.

More rain is due on Wednesday and Thursday and it's likely residents won't be able to return home for between three to five days, depending on river peaks and rainfall, Ms Pritchard said.

While flooding in Forbes has surpassed the 1990 floods, in which the Lachlan River reached 10.65m, the worst is now being predicted to hit next week. The Bureau of Meteorology predicts a second, higher peak next week near Condobolin and Euabalong.

About 1000 people in Forbes were ordered to evacuate on Saturday while residents at Condobolin remain on stand-by pending possible further flooding.

Typhoon Megi triggers landslides in China 00:45

Hong Kong (CNN) — At least 33 people are missing after rains from Typhoon Megi triggered landslides in two villages in China's eastern Zhejiang province on Wednesday, according to China's state-run news agency.

One landslide happened about 5 p.m. local time (5 a.m. ET) in Sucun village in Suichang County. Twenty-six residents are missing, Xinhua reported.

Another landslide took place in Baofeng village in Wencheng County. Six people went missing when a landslide buried their homes, Xinhua said.

Megi made landfall earlier Wednesday in mainland China's Fujian province, less than 24 hours after it

A massive typhoon left one person dead in eastern China on Wednesday, a day after killing four and injuring more than 600 in Taiwan, where authorities remained on alert for the possibility of a landslide.

Typhoon Megi caused more than \$10 million in damage as it swept across Taiwan before weakening into a tropical storm after hitting the coastal city of Quanzhou in China's Fujian province before dawn, Taiwan's weather service said. At its height, it was packing winds of up to 118 kilometers (74 miles) per hour, China's National Meteorological Center said.

A series of minor earthquakes has rattled a rural area of Southern California near the U.S.-Mexico border.

No injuries or damage were reported Monday after more than 35 temblors struck in the morning in what seismologists call a "swarm" of quakes.

The largest earthquake recorded by the U.S. Geological Survey was magnitude 4.3 at 7:31 a.m. and was centered 35 miles (58 kilometers) northwest of El Centro.

According to the Southern California Seismic Network, more than 35 small earthquakes were recorded Monday in the area over a short period.

The region of large farms in the desert near the Salton Sea is known for extensive seismicity.

SEPTEMBER 27, 2016, 10:15 AM

Nearly 200 small earthquakes — including three of a magnitude greater than 4 — struck the Salton Sea area over the last day or so.

According to the U.S. Geological Survey, the swarm of quakes started early Monday morning and continued into the evening. Quakes measuring 4.3 and 4.2 magnitude occurred Monday night. Nine of the quakes measure greater than 3.0.

Heightened Earthquake Alert Issued for Southern California

by THE ASSOCIATED PRESS

October 1, 2016 — 7:36 PM MDT

Santa Ana, Calif. (AP) -- Southern California residents should remain on heightened alert until Tuesday for the increased possibility of a major earthquake, officials said.

The warning by the Governor's Office of Emergency Services follows a series of small temblors deep under the Salton Sea, which is located on the 800-mile-long San Andreas fault, the Orange County Register reported Saturday (<http://bit.ly/2deTAxO>).

Such warnings are typically issued once or twice a year, said Kelly Huston, the deputy director of crisis communications for the Governor's Office of Emergency Services.

The latest alert was issued after 142 temblors hit starting Monday near Bombay Beach at the southern end of the fault. Those quakes ranged from a magnitude of 1.4 to 4.3, the U.S. Geological Survey said.

Scientists estimate the probability of a quake with a magnitude of 7.0 or higher on the southern San Andreas fault being triggered is as high as 1 in 100 and as low as 1 in 3,000. The average chance for such an earthquake striking on any given week is 1 in 6,000. That heightened probability will last through Tuesday.

Neighbors anxious after Florida sinkhole contaminates water

This aerial Friday, Sept. 16, 2016, file photo shows a sinkhole in Mulberry, Fla., that opened up underneath a gypsum stack at a Mosaic phosphate fertilizer plant. Florida Gov. Rick Scott has issued an emergency rule requiring public notification of pollution events within 24 hours, a move that comes after it took weeks to notify local residents about the fertilizer plant that leaked millions of gallons of contaminated water into a major aquifer, according to a news release Monday, Sept. 26. MULBERRY, Fla. — Neighbors of a huge sinkhole sending cascades of contaminated water and fertilizer plant waste into Florida's main drinking-water aquifer are fearful and fuming that it took weeks for them to be notified about the disaster.

Sinkhole closes Onslow County road

By Elizabeth Tew

Published: October 3, 2016, 4:53 pm | Updated: October 3, 2016, 5:10 pm

JACKSONVILLE, N.C. (WNCT) – A sinkhole has closed down an Onslow County road for the next two weeks.

Crews worked Monday to fix the sinkhole off Blue Creek Road around the Southwest Creek Bridge.

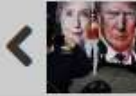

The sinkhole is about eight feet deep and three feet wide.

The sinkhole was caused by a washout from a recent rain event.

The road will be closed at least until October 16, and drivers should attempt to find an alternate route.

Red tide kills scores of fish in Sarasota County

View Comments

Search

GO

By - Associated Press - Saturday, September 24, 2016

Print

SARASOTA, Fla. (AP) - Wildlife officials say a red tide in the Gulf of Mexico is to blame for dead fish littering beaches and causing a foul stench at a popular beach along Florida's Gulf Coast.

The Sarasota Herald-Tribune reports (<http://bit.ly/2cQco2T>) that beaches in Sarasota County are the only ones currently being affected by the harmful algae.

At Siesta Key, state scientists found high numbers of dead fish in the water and on the beach, as well as offshore of Lido Key.

Scientists found medium concentrations of the algae, called "Karenia brevis," also in Sarasota Bay. Tests of water in Pinellas, Lee, Charlotte and Collier counties found very low concentrations.

Such blooms are common off Florida's Gulf coast this time of year, and can linger for months, killing fish and discoloring the water.

MIAMI (CBSMiami) — Florida health officials have confirmed the first case of locally acquired Dengue fever in Miami-Dade County.

The infection is primarily spread through bites of infected mosquitoes.

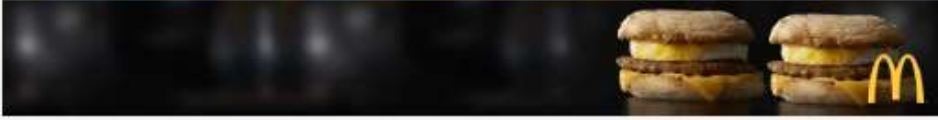

The person infected with the virus has already received medical treatment and is expected to make a full recovery.

Health officials are investigating close contacts around the person to

A salt lake which is separated by a road, shows parts of it in different colours due to algae, in Yuncheng, Shanxi Province, China, September 25, 2016. © Wei Liang / Reuters

The red-hued Yuncheng Salt Lake, also known as "China's Dead Sea", has recently become a popular destination for thousands of fascinated tourists.

The ancient salt lake, which is 500 million years old and covers 120 square kilometers, isn't, in fact, a crime scene, but rather the natural result of algae in the water.

NATIONAL SECURITY

How North Korea Could Make Good On Its Promise To Erase The United States

It wouldn't require a nuclear weapon. And it may be more imminent and real a threat than most Americans are willing to realize.

By James H. Hyde

SEPTEMBER 28, 2016

Many people complacently ignore the threats posed by the Democratic Peoples Republic of Korea (DPRK)—as if it's a fourth-world country run by a chubby, raging lunatic who needn't be taken seriously. But those of us who keep our binoculars on North Korea (albeit from Google Earth or declassified maps) know that ignoring Kim Jong Un is an error we may not live to regret.

What kind of an attack could Kim hurl at us? One that could kill between 75 percent and 90 percent of our population, relegating Americans to endangered society status and transporting those surviving back in time to the mid-1800s—if we're lucky.

Most people, especially those who don't know who Kim Jong Un is, are unaware that he has a nuclear arsenal, albeit a minuscule

East China Sea: Japan scrambles jets as China flies fleet near disputed islands

By **Katie Hunt** and Yoko Wakatsuki, CNN

Updated 3:44 AM ET, Mon September 26, 2016

China's Air Force sent more than 40 aircraft to the West Pacific near the Japanese island of Okinawa on Sunday, for what state-media called routine drills.

Story highlights

China says fleet of military aircraft were carrying out routine drill

Japan says Chinese military activities have been expanding

Tokyo (CNN) — Japan scrambled fighter jets Sunday after China flew a fleet of aircraft near contested islands in the East China Sea.

Japanese Chief Cabinet Secretary Yoshihide Suga said that the jets were sent up after eight Chinese military planes crossed between Okinawa and the Miyako islands near Taiwan. He said that two of the aircraft were thought to be fighter jets.

He added that the planes didn't "trespass" into Japan's territorial airspace, although he said it was the first

China on Thursday warned Japan against "playing with fire" in the contested waters of the South China Sea, after Tokyo announced it may patrol alongside the US in the region.

China also sent fighter planes for the first time over a strait near Japan on Monday as part of a group of more than 40 jets headed to train in the West Pacific.

The move followed remarks by Japanese Defence Minister Tomomi Inada this month that Tokyo would increase its engagement in the South China Sea through joint training with the US Navy, exercises with regional navies and capacity-building assistance to coastal nations.

KERRY THREATENS RUSSIA WITH END TO JOINT SYRIA DIPLOMACY

BY BRADLEY KLAPPER
ASSOCIATED PRESS

WASHINGTON (AP) -- Secretary of State John Kerry threatened on Wednesday to end all cooperation between the United States and Russia to stop Syria's civil war, unless Russian and Syrian government attacks on Aleppo end. More than 250 people are believed to have been killed in the besieged city in the last week.

AP Photo/Jason DeCrow

Kerry's warning came in a telephone call Wednesday to Russian Foreign Minister Sergey Lavrov, the State Department said, describing the latest U.S. ultimatum in Syria's 5½-year conflict. Many have gone unfulfilled, including President Barack Obama's declaration that the U.S. would take military action if Syrian President Bashar Assad crossed the "red line" of using chemical weapons.

It was unclear what effect Kerry's words would have.

"The burden remains on Russia to stop this assault and allow humanitarian access to Aleppo and other areas in need," Kerry told Lavrov, according to State Department spokesman John Kirby.

US SUSPENDS CONTACTS WITH RUSSIA ON SYRIA

WASHINGTON (AP) -- The State Department says the U.S. is suspending bilateral contacts with Russia over Syria. That comes after last week's threat by Secretary of State John Kerry to suspend contacts amid new attacks on the city of Aleppo.

The department said in a statement Monday that Russia had not lived up to the terms of an agreement last month to restore the cease-fire and ensure sustained deliveries of humanitarian aid to besieged cities.

As part of the suspension, the U.S. is withdrawing personnel that it had dispatched to take part in the creation of a joint U.S.-Russia center. That center was to have coordinated military cooperation and intelligence if the cease-fire had taken hold. The suspension will not affect communications between the two countries aimed at de-conflicting counter-terrorism operations in

Southern California police agencies missing more than 300 weapons

Published September 26, 2016 · FoxNews.com

Authorities in Southern California have had more than 300 weapons lost or stolen over the last five years.

The [Orange County Register](#) reported Sunday that an investigation of 134 state and local police agencies from Kern County to the Mexican border showed 329 firearms were lost or stolen and some were involved in crimes.

Some of the lost weapons include Glocks, Sig Sauers, Remington shotguns, rifles and even grenade launchers. The paper reported that officers have treated their weapons in a reckless manner. High-caliber firearms were stowed in backpacks and gym bags, while handguns were hidden in center consoles.

According to the Register, the Los Angeles County Sheriff's Department reported that at least 103 of the agency's 20,000 guns were lost or stolen over the last five years. In Hermosa Beach, the police department conducts an annual internal audit of its weapons, and hasn't lost any.

But many agencies don't track their guns.

California law doesn't require officers to report lost or stolen weapons, but departments voluntarily report missing guns to a state database.

FDA approves first "artificial pancreas" for type 1 diabetes

Comment / [Share](#) / [Tweet](#) / [Stumble](#) / [Email](#)

Last Updated Sep 28, 2016 5:12 PM EDT

The U.S. Food and Drug Administration on Wednesday approved the first automated insulin delivery system -- a so-called "artificial pancreas" -- for people with type 1 diabetes.

Medtronic's MiniMed 670G hybrid closed looped system, the first FDA-approved "artificial pancreas" device for people with type 1 diabetes. MEDTRONIC

"This first-of-its-kind technology can provide people with type 1 diabetes greater freedom to live their lives without having to consistently and manually monitor baseline glucose levels and administer insulin," Dr. Jeffrey Shuren, director of the FDA's Center for Devices and Radiological Health, said in an agency news release.

The device -- Medtronic's MiniMed 670G -- is what's known as a hybrid closed-loop system. That means it monitors blood sugar and then delivers necessary background (also known as basal) insulin doses. The device will also shut off when blood sugar levels drop too low.

However, this device isn't yet a fully automated artificial pancreas. People with type 1 diabetes will still need to figure out how many carbohydrates are in their food, and enter that information into the system,

READING, Ohio — Reading schools are closed Friday after a woman reported being attacked by a male dressed as a clown. The woman told police the attacker made a threat against students.

No arrests have been made in the attack and schools were closed out of concern for students that walk to school early, according to the Reading Community City School District.

Colerain Township arrested a juvenile in connection with a clown threat in the area late Thursday.

Police said the suspect threatened to harm students at Colerain High School on Friday.

"This suspect used the current 'clown' trend to further terrorize parents and students and has been charged with Making Terrorist Threats and Inducing Panic," police said in a Facebook post.

Both of these charges are felonies. Police did not reveal the name or age of the suspect.

Earlier in the day, police said posts on Twitter from an account called the Clown-Clan was causing "annoyance and alarm to communities."

It is not clear if the arrest was connected to those tweets.

[Tweets from that account](#) have mentioned several Greater Cincinnati communities and schools.

A Swiss MP has called for hijabs to be banned from passport pictures saying it is unfair that caps and hair bands are not allowed in the images.

Current guidelines in Switzerland allow women to wear a hijab in a passport photograph for reasons of faith - so long as their face is identifiable.

However, the laws also state that hair bands and caps are forbidden from the pictures.

China debt could wreck the global economy: Leading economist warns country could suffer a calamitous slowdown

- Economist Ken Rogoff said that China could suffer a calamitous slowdown
- He was the former chief economist at the International Monetary Fund
- China is the UK's sixth biggest export market after sales have shot up

China poses the biggest threat to the global economy as its debts soar, according to a leading economist.

Ken Rogoff, the former chief economist at the International Monetary Fund, said the country could suffer a calamitous slowdown – dragging the rest of the world down with it.

A so-called 'hard landing' in the world's second biggest economy, where growth drops to dangerously low levels, would be a disaster for other countries including Britain.

China is the UK's sixth biggest export market with sales of goods made in British factories to the People's Republic jumping from £877million in 1998 to £15.5billion in 2014.

Europe's biggest lender Deutsche Bank has lost more than half of its value since January, posing a threat to the stability of other banks across the continent. Some analysts are worried it could invoke a large-scale crisis, bigger than in 2008.

A shocking video lays bare the severe food crisis confronting Venezuela.

Food shortages in the South American country has meant people have resorted to desperate attempts to source their next meal.

In disturbing footage, a huge crowd of people can be seen stopping a lorry on the motorway to snatch live chickens from their crates inside.

YouTube blocked trailer for Christian movie 'I'm Not Ashamed' for months, film execs say

By Sasha Savitsky · Published October 01, 2016 · FoxNews.com

Producers of the Christian film "I'm Not Ashamed" have been embroiled in a battle with YouTube after the video sharing site took down their film's trailer with no explanation.

The video site has since reinstated the trailer, but those closest to the film say the months of being kept off the video sharing site have damaged the publicity for the movie.

American pastor faces fines, end of ministry under new Russian law

By Perry Chiaramonte - Published October 02, 2016 - FoxNews.com

Christian pastor Donald Ossewaarde, seen here with his wife Ruth, was one of the first American citizens to be charged under anti-religious provisions of Russia's new anti-terror laws. (donossewaarde.com)

An American missionary's bid to spread the Gospel in Russia is facing end times after authorities accused him of violating an anti-religion law that was sneaked into recently passed anti-terror legislation.

Christian pastor Donald Ossewaarde, 55, is the first American citizen to be charged under Russia's new "Yarovaya" anti-terror laws that contain a provision that increases penalties for religious activities. Included is a full ban on any missionary activities in non-religious settings.

Hundreds of missionaries flooded Kenya to pray for a revival. They were not prepared to see the thousands of lives that were changed just 10 days later.

More than 640 missionaries from around the globe gathered to bring revival to a Kenyan village called Kakamega. Their mission was simple: show the love of God in practical ways.

They visited prisons, provided treatment to those affected by parasitic fleas and preached to anyone with open ears. These missionaries reached tens of thousands of people.

"In all, 72,115 people in Kakamega were reached and 6,944 received Christ as their savior," one missionary told Africa Enterprise.

An unreached people group in Southeast Asia gave their lives to Christ when their leader apparently dropped dead and came back to life after a group of believers prayed. (Courtesy)

Join us on our podcast each weekday for an interesting story, well told, from Charisma News. Listen at charismapodcastnetwork.com.

An unreached people group in Southeast Asia gave their lives to Christ when their leader apparently dropped dead and came back to life after a group of believers prayed.

David Platt, president of the Southern Baptist International Mission Board, recounted the "modern-day resurrection" story during the Southern Baptist Convention's Executive Committee meeting on Sept. 19.

A local Southeast Asian Christian who was brought to faith by some Southern Baptist missionaries took a group of friends and began evangelizing in the remote village, *Baptist Press* reports.

Villagers responded by bringing idols, necklaces and amulets associated with their occult worship to be burned, Platt said, relaying the account of an IMB worker.

It is reported that shortly after the burning ceremony, the village leader was found dead.

Some friends like to meet in the pub for a drink, but two friends from Nuneaton have found a unique way to spend their downtime - dressing up as a 'human pup' and his master.

Lucky, 35, lives with Oz, 60, and acts just as a dog would - playing fetch, enjoying a belly rub, going for walks in his £1,000 latex outfit, and sometimes sleeping in a cage.

The pair met around three years ago on an internet dating site after Oz, who had previously been a pup himself, decided to become a master after retiring.

Teaching Your Children to Be Queer

Do you need to lock your doors and windows at night because a homosexual predator is coming after your kids? That is absolutely not what I mean when I say that LGBT activists are coming for your children.

I'm talking about educators and government leaders. I'm talking about celebrities and judges. I'm talking about people of influence who want to indoctrinate your children even before they get to school.

I'm talking about an all-out war for the minds and hearts of your kids.

Are you equipped and ready to do what is best for these little ones?

By all means, as parents, we should teach our kids to be kind to all, especially to those who seem different and are ostracized by their peers.

And we should teach by word and example that bullying is always wrong. In other words, we don't need to teach gay is good in order to teach that bullying is bad. In the same way, we don't need to push every boy to be a football player and every girl to be a ballerina to combat transgender activism.

But you better believe that we need to take a stand for our kids—in the schools; in the world of entertainment and social media; in the courts; and in the churches—if we want to keep them safe from this destructive and deceptive indoctrination.

Consider that there are [YouTube channels](#) dedicated to teaching pre-school children that you can be a boy or a girl or neither or both, and also trying to teach them the meaning of words like queer.

Children as young as 6 can now change their gender in Norway. (roberto volterra)

Join us on our podcast each weekday for an interesting story, well told, from Charisma News. Listen at charismapodcastnetwork.com.

A new law in Norway means children as young as 6 years old can choose their gender.

Until July, Norway was one of 32 European countries that required people to undergo irreversible sterilization before their gender change would be legally recognized.

Ten-year-old Anna Thulin-Myge is one of nine children who have taken advantage of the new measure. It allows Norwegian children to self-identify as male or female with their parents' consent.

"In some weeks, I'm going to have a new passport and then it's going to say 'F.' My name will be Anna, and that's going to be great," the transgender child said.

"I think it's a beautiful thing that Norway can finally recognize her as the girl she actually feels she is," Siri Oline Myge, Anna's mother, said.

كان حين امنا

13: 12 قد تناهى الليل وتقارب النهار فلنخلع اعمال الظلمة ونلبس اسلحة النور

13: 13 لنسلك بلياقة كما في النهار لا بالبطر والسكر لا بالمضاجع والعهر لا بالخصام والحسد

13: 14 بل البسوا الرب يسوع المسيح ولا تصنعوا تدبيرا للجسد لأجل الشهوات

احترس ان لم تتمسك بالمسيح من الان قد لا تستطيع في المستقبل القريب بسبب الظلام.

وكما قلت هو اخبرنا لكي لا نخاف

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

بطرس الأولى 3: 14

وَلَكِنْ وَإِنْ تَأَلَّمْتُمْ مِنْ أَجْلِ الْبِرِّ، فَطُوبَاكُمْ. وَأَمَّا خَوْفُهُمْ فَلَا تَخَافُوهُ وَلَا تَضْطَرُّوْا،

بل نؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثًا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَأَنْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.».

افرحوا لان عريسنا قد اقترب مجيؤه. وانتبهوا الشيطان يريد أن نفقد سلامنا ولا ننال أكاليل.

وأيضا استعدوا فقد تسلموا وديعتكم في أي وقت فهناك 150 ألف شخص يموتوا في اليوم الواحد

انت لا تعرف متى ستكون منهم

المسيح اقترب فاصنعوا ثمار تليق بالتوبة واستعدوا لاستقبال العريس.

والمجد لله دائما
