## والعلامات حتى 25 أكتوبر 2016

Holy\_bible\_1

اكرر اننا لا نحدد مواعيد بل فقط نشجع بعضنا بعضا بقرب مجيء المسيح

وأیضا لا اقصد ان اخيف أحد بل من يخاف هو لا يثق في مواعيد الرب

هدفي فقط أن نذكر بعضنا باننا نحتاج ان نستعد. والاستعداد ليس فقط قبل مجيء المسيح بل

ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة

وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من

الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا

لان الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة

لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذارى انه لن يكون هناك

زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان  
سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات ولكنه يأتي بسرعة  
بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي المسيح في زمنه  
ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

## سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لننتبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَاَنْتَصِبُوا وَاَرْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

## Earth facing growing risks of powerful solar storms that could 'reset' civilization

Posted on [October 19, 2016](#)

**October 2016 – SPACE** – Solar storms threaten Earth about every 100 years and experts warn we are overdue. Now, researchers have released the first ever map that shows which areas of the US are at high risk of being hit by the next intense storm. The map was built using geomagnetic storm measurements and data from magnetic materials beneath the Earth – revealing Minnesota is particularly at risk of being blasted by solar material.

Solar storms have the ability to disrupt Earth's magnetic field and wreak havoc on our electric power grids. Officials warn that the massive electromagnetic pulse (EMP) from solar flares could cause \$2.6 trillion in damages across the globe and bring an end to modern civilization as we know it. Solar Storms are eruptions of magnetic energy from the sun's surface. Hot gases are accelerated when this magnetic energy is suddenly

## Super Typhoon Haima Takes Aim on Philippines

By: Bob Henson and Jeff Masters , 4:00 PM GMT on October 18, 2016

Now an extremely dangerous Category 5 storm, Super Typhoon Haima is en route to hammer parts of the far northern Philippines that were slammed by another typhoon less than a week ago. Packing top sustained winds of 160 mph [1-minute average] on Tuesday morning, Haima was located about 450 miles east of the Philippines, moving just north of due west at about 17 mph. Haima's power was obvious on satellite imagery Tuesday morning, with a large ring of intense thunderstorms with very cold cloud tops completely encircling Haima's distinct eye. Haima is not only intense but mammoth: hurricane-force winds extend more than 60 miles northeast of its center and tropical-storm-force winds extend more than 200 miles northeast.

Haima's track should angle slightly rightward over the next 24 hours, which would bring the typhoon onto the far northeast coast of the Philippines' Luzon Island on Wednesday night local time [Wednesday afternoon EDT]. Now that Haima has completed an eyewall replacement cycle, its overall structure should remain intact up through landfall. Haima's new eye is nearly 30 miles across, large enough to allow considerable contraction. Together with the trends evident on satellite, this suggests that Haima could intensify even more prior to landfall. The Joint Typhoon Warning Center (JTWC) has Haima approaching Luzon as a Category 5 storm on Wednesday. More than 48 million people live on the island, although the population density is larger toward the island's southern end, where Manila is located. The sparsely populated northeast coast of Luzon appears on track for an extremely powerful hit from Haima. Fortunately, there are no cities along this coast the size of Tacloban City, where the storm surge associated with Super Typhoon Haiyan killed more than 5000 people in 2013. The largest population center of far northeast Luzon is the city of Tuguegarao, located about 25 miles inland and shielded by a coastal range of mountains.

## Typhoon Haima leaves at least 8 dead in northern Philippines

Posted on [October 21, 2016](#)

**October 2016 – NARVACAN, Philippines** – “At least eight people were killed after Super Typhoon Haima smashed into the northern Philippines with ferocious wind and rains, flooding towns and forcing thousands to flee although it slightly weakened Thursday after slamming into a mountain range on its way to the South China Sea, officials said. Haima’s blinding winds and rain had rekindled fears and memories from the catastrophe wrought by Typhoon Haiyan in 2013, but there were no immediate reports of any major damage amid spotty communications and power outages in several provinces. Thousands of villagers were moved to emergency shelters as the typhoon approached.

Two construction workers died when a landslide buried their shanty in La Trinidad town in the mountain province of Benguet, officials said, while two villagers drowned in floodwaters in Ifugao province, near Benguet. The typhoon slammed into shore in Cagayan province late Wednesday, and lashed the mountainous province of Apayao at dawn with slightly weaker sustained winds of 205 kilometers (127 miles) per hour and gusts of 285 kph (176 mph). It was blowing northwestward at 25 kph (15 mph) toward the tobacco-growing Ilocos Norte, the last province before it exits toward the South China Sea, according to forecasters.

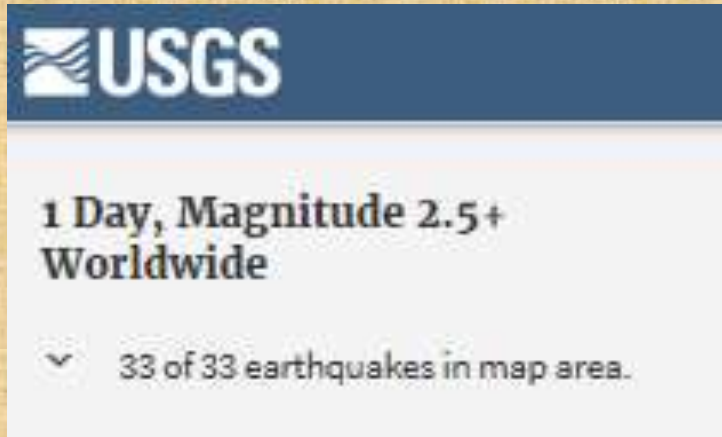

In Narvacan town in northern Ilocos Sur province, rice fields resembled a brown lake under waist-high floodwaters. Despite the still-strong wind and rain, government workers have started clearing roads blocked with toppled trees and all kinds of debris. “We can’t go out because the wind is so intense, trees are being forced down,” Councilor Elisa Arugay told DZMM radio late Wednesday from Camasi village in Cagayan

### Strong quake in western Japan knocks out power, injures 7

AP October 21, 2016

This aerial photo shows fallen tomb stones scattered at a cemetery following an earthquake in Kurayoshi, Tottori prefecture, western Japan, Friday, Oct. 21, 2016. A powerful earthquake with a preliminary magnitude of 6.6 struck western Japan on Friday, toppling shelves and knocking out [More](#)

TOKYO (AP) — A powerful earthquake in western Japan knocked loose roof tiles, toppled store shelves and caused power outages Friday afternoon, but apparently caused no widespread damage. At least seven people were injured, one seriously.

The Japan Meteorological Agency said the 6.6-magnitude quake occurred in Tottori, a prefecture on the Sea of Japan about 700 kilometers (430 miles) west of Tokyo.

## Massive Sinkhole In Florida Grows To 152 Feet Wide, Depth Still Unknown

19 OCTOBER, 2016

Mosaic officials say they still don't know the depth of a sinkhole that opened up at the Mosaic plant near Mulberry last month. The hole opened up in August, but the public did not know about it until WFLA News Channel 8 broke the story. On Monday, Mosaic officials released details about the size of the sinkhole, which ranges between 40 feet, and 150 feet in diameter at its widest point, and approximately 220 feet deep from the top of the gypstack.

## Whale deaths could be related to decompression sickness: specialist

2016/10/15 23:09:47

Taipei, Oct. 15 (CNA) A total of 12 whales have died over the past 16 days in Taiwan and the outlying island of Kinmen, the Taiwan Cetacean Society said Saturday.

Kuo Hsiang-sha (郭祥夏) said the society has tentatively ruled that the latest death -- a 800-kilogram whale in Kinmen -- was due to decompression sickness, caused by a sudden change in water pressure.

Britain has deployed a flotilla of Royal Navy destroyers to 'man-mark' a fleet of **Russian** warships lurking off the Scottish coast in a move mocked as an 'overreaction' by Putin's supporters.

Russian military experts have branded the Royal Navy as 'weak' and claimed the UK is 'scared' of Putin's ships - which are expected to pass within just one mile of England.

The Russian aircraft carrier fleet, led by the 1,000ft-long Admiral Kuznetsov, is on its way towards the English Channel as it prepares to join Bashar al-Assad's bombing campaign in Syria, the Ministry of Defence confirmed.

HMS Duncan - the world's most advanced air-defence destroyer - sailed from Portsmouth last night to join frigate HMS Richmond, which has intercepted the Kuznetsov task group of eight ships.

As well as the Royal Navy, the Royal Norwegian Navy, Finnish Navy and Royal Netherlands Navy have vessels

By Idrees Ali and Matt Spetalnick

WASHINGTON (Reuters) - A U.S. navy destroyer sailed near islands claimed by China in the South China Sea on Friday, drawing a warning from Chinese warships to leave the area.

The U.S. action was the latest attempt to counter what Washington sees as Beijing's efforts to limit freedom of navigation in the strategic waters, U.S. officials said.

The Chinese Defense Ministry called the move "illegal" and "provocative," saying

The United States warned Wednesday that any attack on American allies or use of nuclear weapons by [North Korea](#) would be met with an "overwhelming" U.S. response as it sought to reassure close ally [South Korea](#) that the U.S. has its back.

The statement by Defense Secretary Ash Carter came as top U.S. and South Korean diplomats and military officials met, weeks after North Korea's most powerful nuclear test explosion to date, and days after its failed test launch of a ballistic missile — one of more than 20 such tests this year alone.

The flurry of activity has deepened concern over the North's progress toward having a

## Philippines' Duterte, in China, announces 'separation' from US

APP October 20, 2016

Beijing (AFP) - Philippines' President Rodrigo Duterte declared his "separation" from longstanding ally the United States in Beijing on Thursday, as he rebalances his country's diplomacy towards China.

Duterte is in China for a four-day trip seen as confirming his tilt away from Washington and towards Beijing's sphere of influence -- and its deep pockets.

"I announce my separation from the United States," he said to applause at a meeting in the Chinese capital.

"America does not control our lives. Enough bullshit," he added in a rambling speech that flipped between languages.

# Iran Launches War Drills Amid Accusations U.S. Breaking Nuke Deal

Uses American-made jets, planes in air force drills

BY: Adam Kredo [Follow @Kredo0](#)

October 18, 2016 1:09 pm

Iran on Monday launched a series of war drills that included the use of American-made planes amid accusations by top officials that the United States is violating last summer's comprehensive nuclear agreement, according to regional experts and Persian-language media reports.

Iran's Artesh Air Force kicked off a three-day series of drills aimed at displaying the Islamic Republic's air might, according to Iranian military officials who told the country's state-run press that the drills are in preparations for upcoming war.

"The goal of holding this drill is the creation of readiness so as to be able to combat any threat, and should a war

occur, the Air Force will be the first force to enter the battlefield," Iranian Air Force Gen. Masoud Rouzkhosh was quoted as saying, according to independent translations of the original Farsi provided to the *Washington Free Beacon*. "The newest armaments of the Air Force like precision-guided bombs and laser-guided missiles will be used in this year's drill."

Iran is **using** many American-made jets in the drills, including F-4 and F-5 warplanes, as well as large Boeing airliners, which are aiding in mid-air refueling tactics, experts told the *Free Beacon*. Iran also is using Russian-made warplanes.

The three-day **air drills**, now entering their second day, come as senior Iranian officials repeatedly accuse the United States of violating its side of the nuclear agreement.

Iranian officials maintain that they will continue to fund global terrorist organizations such as Hezbollah and Hamas, which are committed to Israel's destruction, despite objections from the United States.

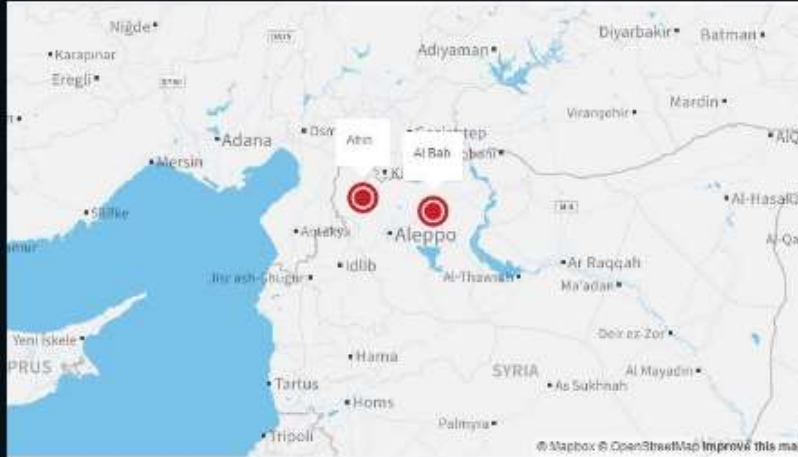

"When they ask the foreign minister of America why do you violate your commitments under the JCPOA, they say we have acted on our commitments and even gone further than they require. However, Iranians must do certain things, such as ceasing their support for terrorists and halting their missile activities," Ayatollah Sadeq Larijani, the head of Iran's Judiciary, was quoted as saying in Farsi-language reports on Monday.

## Turkey's New Maps Are Reclaiming the Ottoman Empire

October 23, 2016

In the past few weeks, a conflict between Ankara and Baghdad over Turkey's role in the liberation of Mosul has precipitated an alarming burst of Turkish irredentism. On two separate occasions, President Recep Tayyip Erdogan [criticized](#) the Treaty of Lausanne, which created the borders of modern Turkey, for [leaving](#) the country too small. He spoke of the country's interest in the fate of Turkish minorities living beyond these borders, as well as its historic claims to the Iraqi city of Mosul, near which Turkey has a small military base. And, alongside news of Turkish jets bombing Kurdish forces in Syria and engaging in mock dogfights with Greek planes over the Aegean Sea, Turkey's pro-government media have shown a newfound interest in a series of imprecise, even crudely drawn, maps of Turkey with new and improved borders.

Turkey won't be annexing part of Iraq anytime soon, but this combination of irredentist cartography and rhetoric nonetheless offers some insight into Turkey's current foreign and domestic policies and Ankara's self-image. The maps, in particular, reveal the continued relevance of Turkish nationalism, a long-standing element of the country's statecraft, now reinvigorated with some revised history and an added dose of religion. But if the past is any indication, the military interventions and confrontational rhetoric this nationalism inspires may worsen Turkey's security and regional standing.

At first glance, the maps of Turkey appearing on Turkish TV recently resemble similar irredentist maps put out by proponents of [greater Greece](#), [greater Macedonia](#), [greater Bulgaria](#), [greater Armenia](#), [greater Azerbaijan](#), and [greater Syria](#). That is to say, they aren't maps of the Ottoman Empire, which was

## ROBOT PILOTS MAY SOMEDAY FLY PASSENGER AND CARGO PLANES

BY JOAN LOWY  
ASSOCIATED PRESS

MANASSAS, Va. (AP) -- Think of it as the airborne cousin to the self-driving car: a robot in the cockpit to help human pilots fly passengers and cargo - and eventually even replace them.

The government and industry are collaborating on a program that seeks to replace the second human pilot in two-person flight crews with a robot co-pilot that never tires, gets bored, feels stressed out or gets distracted.

The program is funded by the Defense Advanced Research Projects Agency, the Pentagon's arm for development of emerging technologies, and run by Aurora Flight Sciences, a private contractor. With both the military and airlines struggling with shortages of trained pilots, officials say they see an

Anyone remember when Jeh Johnson vowed that our borders weren't open to illegal immigration, or when President Obama promised that anyone who recently crossed into the U.S. from Mexico wouldn't be allowed to stay?

The lie detector test determined: those were lies.

According to **recently released data** reviewed by MRCTV, the Dept. of Health and Human Services' Office of Refugee Resettlement released another 52,147 illegal alien kids into the United States in fiscal year 2016, averaging about 149 per day. Processed as "refugees," these children are in many cases sent to a family member who's also here illegally.

A total of 5,203 kids were released in September alone, based on the numbers ORR released in August.

Not only is the year-end number shocking in its size alone, it's also nearly double the number of kids the administration released in FY2015, when 27,840 unaccompanied minors were sent to sponsors in the United States.

FY2016's total was also just shy of the 53,515 kids released in FY2014, after a massive surge of unaccompanied minors flooded the Southwest U.S. border and

*Another election official says that may be a hasty conclusion*

Buy Photo

(Photo: Kelly Wilkinson/IndyStar 2014 file photo)

As Republican presidential nominee Donald Trump repeats his message that the general election process is "rigged," the top election official in the home state of his running mate, Indiana Gov. Mike Pence, said she has found thousands more incidents of what she characterized as potential "voter fraud."

Republican Secretary of State Connie Lawson said her office has found voter registration

forms containing first names and birth dates different from what voters provided. She said she has handed those altered records over to the Indiana State Police for review.

However, a leading election official in Hamilton County, also a Republican, said labeling the discrepancies as fraud was a hasty conclusion.

Lawson's allegations also come just one week after a Tippecanoe County election official acknowledged that the secretary of state's voter data system could be manipulated by those wishing to cause harm.

Lawson said the discrepancies were discovered when voters checked online with the Statewide Voter Registration System to see whether they were registered and could not gain access because their names or birth dates had been changed.

BOMBHELL: ASSANGE REVEALS "RIGGED

## BOMBHELL: Assange Reveals "Rigged Primary, Rigged Media, And Rigged Candidate"

21 OCTOBER, 2016

After months of exposing damaging internal information from both the Democratic National Committee and the Hillary Clinton campaign, much of which actually points to criminal behavior but seemingly has no impact on the polls, Julian Assange has concluded that "There is no US election. There is power consolidation. Rigged primary, rigged media and rigged 'pied piper' candidate drive consolidation."

# WATCH: Hillary Clinton Reveals U.S. Nuclear Response Time To The World

by Hannity.com Staff

Share 31K Tweet

At Wednesday's presidential debate, Hillary Clinton once again proved that she has little regard for closely guarded national security information. During a heated exchange about nuclear weapons, the former Secretary of State actually gave out America's precise nuclear response time.

"Here's the deal," Hillary said to Chris Wallace, "The bottom line on nuclear weapons is that when the president gives the order it must be followed. There's about four minutes between the order being given and the people responsible for launching nuclear weapons to do so."

Thanks Hillary! We're sure foreign intelligence services will find that information useful!

Even dependably pro-Hillary Politico took note of the fumble:

*This four minute figure may be "out there," but it's certainly alarming how casually Hillary Clinton talks about sensitive matters of national security.*

*Almost as sloppy as hosting a private server without government security and transmitting classified and sensitive material via email.*

Take a look at what some are calling the "WTF" moment of Wednesday's debate:

## If Donald Trump Wins The Election, It Will Be The Biggest Miracle In U.S. Political History

By Michael Snyder, on October 21st, 2016

Are we about to see the largest election day miracle of all time? Because as I will show in this article, that is precisely what it is going to take in order for Donald Trump to win. Before I go any further, I want to make it exceedingly clear that I am not saying what the outcome will be on November 8th. As I recently told a national television audience, I do not know who is going to win. In this article I am simply going to examine the poll numbers and the electoral map as they currently stand. But in this bizarre election things can literally change overnight, and it is entirely possible that we could still have another "October surprise" or two before it is all said and done. And without a doubt Donald Trump desperately needs something "to move the needle". because if the election was held today Hillary Clinton would almost certainly

## Facebook Employees Pushed to Remove Trump's Posts as Hate Speech

Ruling by CEO Mark Zuckerberg to keep presidential candidate's posts spurred heated internal debates

By **DEEPA SEETHARAMAN**  
Updated Oct. 21, 2016 7:43 p.m. ET

Some of Republican presidential candidate Donald Trump's posts on Facebook have set off an intense debate inside the social media company over the past year, with some employees arguing certain posts about banning Muslims from entering the U.S. should be removed for violating the site's rules on hate speech, according to people familiar with the matter.

The decision to allow Mr. Trump's posts went all the way to Facebook Inc. Chief Executive Mark Zuckerberg, who ruled in December that it would be

## Hot dogs will be banned in Malaysia unless restaurants agree to change their name because they sound too 'dirty' to be halal

- Malaysia, which is a largely Muslim country, wants hotdogs renamed
- The government said some Muslim tourists had taken the name literally
- A government spokesman said: 'In Islam, dogs are considered unclean'
- But the directive to rename hotdogs has been ridiculed on social media

By AFP and CHRIS SUMMERS FOR MAILONLINE

PUBLISHED: 15:30 GMT, 18 October 2016 | UPDATED: 15:35 GMT, 18 October 2016

Restaurants and food stalls in Malaysia must rename their 'hotdogs' or risk having them banned, the government there said today.

Malaysia is a predominantly Muslim country and the government's religious authority has threatened to withdraw the snack's halal certificate.

Although hotdogs in the West are traditionally made of pork, in Malaysia they have to be made of chicken in order to pass strict halal rules.

But now it seems the name itself has fallen foul of the authorities.

## The Temple and End Times - Amazing New Developments

BY ENOCH LAVENDER    OCTOBER 20, 2016

Share this article:

For us who are watching prophetic developments in the earth, there is something very exciting about monitoring the historic preparations taking place for the rebuilding of Israel's Temple.

In the last few weeks, two big stories have hit the headlines that are worth noting.

The first news item concerns the resurfacing of a report of a mysterious gemstone that could belong to the original breastplate of the High Priest.

# Archeologists confirm evidence found of "Third Wall" from Second Temple era in Jerusalem

Israel Antiquities Authority confirm findings from excavation from 2015; Findings correlate to historian Josephus' account of the siege of Jerusalem by the Romans

Photo: IAA Yoli Schwartz

Israel's Antiquities Authority (IAA) confirmed they have found the site in which the Romans breached the Second Temple in Jerusalem. They also announced they have found significant evidence proving the existence of the protective "Third Wall" of the Second Temple.

The Authority announced on Thursday that the site, which was a battleground of the Roman assault on Jerusalem led by Titus, was found in the Russian Compound area of Jerusalem during an excavation in winter of 2015. Archeologists have been studying their findings since then and now can confirm the historical discovery. Their findings prove there was a third wall that was built to protect the Second Temple.

# China Holdings of U.S. Treasuries Drop to Almost Four-Year Low

by Scott Lanman  
@scottlanman

October 18, 2016 – 2:00 PM MDT

f t ↻

China's holdings of U.S. Treasuries fell to the lowest level since November 2012, as the world's second-largest economy draws down its foreign reserves to prop up the yuan.

The biggest foreign holder of U.S. government debt had \$1.19 trillion in bonds, notes and bills in August, down \$33.7 billion from the prior month, the biggest drop since 2013, according to U.S. Treasury Department data released Tuesday in Washington and previous figures compiled by Bloomberg.

The portfolio of Japan, the largest holder after China, fell for the first time in three months, down \$10.6 billion to \$1.14 trillion. Saudi Arabia's holdings of Treasuries declined for a seventh straight month, to \$93 billion.

China sold an estimated \$570 billion in foreign-exchange assets from August 2015 to August 2016 in an effort to keep the currency from plunging, according to an estimate by the U.S. Treasury released last week. It reiterated that China's efforts to support the yuan were preventing a rapid depreciation that would hurt the global economy.

China's foreign-exchange reserves fell \$16 billion to \$3.19 trillion in August, and

Fears of a [bond-market crash](#), a breakdown in [globalization](#), a new [crisis in the euro area](#)?

There were a bevy of reasons for fund managers to push their cash balances to 5.8 percent of their portfolios in October, up from 5.5 percent last month, matching levels not seen since the aftermath of the Brexit vote. The share of cash hasn't been higher than that since November 2001, shortly after the terrorist attacks in the U.S.

The amount of dry powder in portfolios is above that seen during both Europe's sovereign-debt crisis and the U.S. debt-ceiling debacle, according to Bank of America Merrill Lynch's monthly survey of money managers.

- In the last four years, more than 100 Christian pastors and other religious officials have been deported from Turkey, and banned from reentering.
- "When Jesus reached 30 years of age, Allah gave him the duty of being a prophet. He then began inviting people to believe in Allah." — Turkish textbook on Christianity.
- "[R]eligious minority students are faced with the option of taking the class or sitting alone somewhere else on the school premises during the classes, thus separating them from their peers and singling out their religious differences." — U.S. Commission on International Religious Freedom, Turkey Textbook Report.
- It is high time that the activists of the global "human rights community" condemned or at least publicly discussed this "culture of hate" in the Muslim communities -- and particularly the Christianophobia.

American pastors in Turkey are being arrested hand over fist.

American Pastor Andrew Brunson, of the Resurrection Protestant Church, was **arrested** in Izmir (Smyrna) on October 7 alongside his wife, Norine Lyn Brunson, for "threatening the national security of Turkey." Brunson is expected to be deported in 15 days. The couple is still being held in detention.

Turkish authorities also **seized the residence permit** of Ryan D. Keating, an American student pursuing a PhD in the philosophy of religion at Ankara University. Keating is a Christian who heads the Ankara Refugee Ministry for the Kurtulus Church. While he was leaving Turkey for work purposes, he was told at the airport that his residence permit in Turkey had been cancelled in September for "national security", meaning that he will not be able to reenter the country.
