اكرر اننا لا نحدد مواعيد بل فقط نشجع بعضنا بعضا بقرب مجيء المسيح

وأیضا لا اقصد ان اخيف أحد بل من يخاف هو لا يثق في مواعيد الرب

هدفي فقط أن نذكر بعضنا باننا نحتاج ان نستعد. والاستعداد ليس فقط قبل مجيء المسيح بل

ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة

وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من

الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا

لان الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة

لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك

زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان
سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات ولكنه يأتي بسرعة
بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي المسيح في زمنه
ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَأَن تُوْمِنُونَ.

ثالثا لننتبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ».

Meteorite Burns Through Japanese Sky As Earthquake Strikes...

22 NOVEMBER, 2016

A teenager has filmed a 'meteorite' burning across the sky shortly after the Japanese earthquake struck. The teen, known as Asuka, 16, from Japan, filmed the extraordinary sight trailing across the evening sky this evening. A rough translation of her Tweet accompanying the video says: "A movie I took while preparing to die."

Global average temperatures over land have plummeted by more than 1C since the middle of this year – their biggest and steepest fall on record.

The news comes amid mounting evidence that the recent run of world record high temperatures is about to end.

The fall, revealed by Nasa satellite measurements of the lower atmosphere, has been caused by the end of El Nino – the warming of surface waters in a vast area of the Pacific west of Central America.

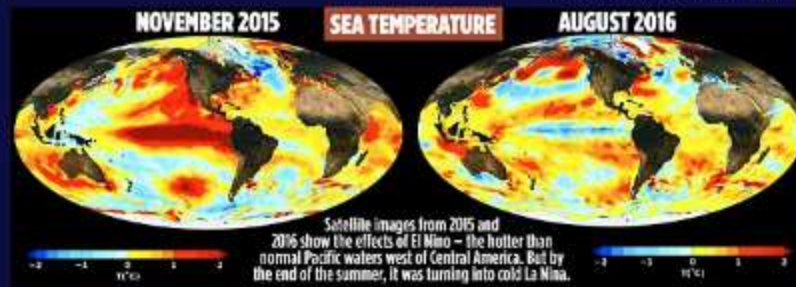

The fall, revealed by Nasa satellite measurements of the lower atmosphere, has been caused by the end of El Nino – the warming of surface waters in a vast area of the Pacific west of Central America.

Stunning new data indicates El Nino drove record highs... reversed by huge 1°C DROP

TEMPERATURE OVER LAND

A wildfire roared through parts of Israel's third-largest city on Thursday, forcing tens of thousands of people to evacuate their homes and prompting a rare call-up of hundreds of military reservists to join overstretched police and firefighters.

Authorities speculated the blaze may have been set by politically-motivated arsonists.

Spreading quickly due to dry, windy weather, the fire raced through Haifa's northern neighborhoods. While there were no serious injuries, several dozen people were hospitalized for smoke inhalation.

Police and firefighters were deployed throughout the city, as people loaded up

The big story from Israel at the moment is the [large brush fires](#) in the central and northern regions of Israel, which are so serious (and made worse by the heavy wind we are currently experiencing), that Israel has requested overseas help to fight them. Arson has been suspected with at least some of the fires. [They have forced](#) thousands of Israelis to be evacuated from their homes, extensive property damage, and tens of people suffering smoke inhalation (including toddlers and children).

But don't expect sympathy from many Arabs around the world, as evidenced by the fact the fires are one of the top trending topics currently on Twitter ([#اسرائيل_تحترق](#)) – and not because they are expressing their condolences (Hat tip: [Decatur](#))

Floods Hit 96 Villages in Bojonegoro

+ Zoom Out — Zoom In A Normal

TEMPO.CO, Bojonegoro - Bojonegoro subdistrict's Disaster Mitigation Agency (BPPD) reported that 96 villages in 15 districts in the area were struck by flood due to overflow of Bengawan Solo river with 14.82 meters of water level (flood warning) on Saturday at round 2 o'clock in the afternoon (26/11).

"The flood from the river does not only inundate rice field areas, but also residential areas with 0.50-1 meter high of water," Bojonegoro's BPPD head Andik Sudjarwo said in Bojonegoro, East Java on Saturday (26/11). Based on BPPD data, the 96 villages are located in districts of Padangan, Trucuk, Malo, Dander, Kota, Balen, Kapas, Kanor, and Baureno.

He further estimates that the water level in Bengawan Solo will continue to rise up to 15.30 m high due to floods in the upstream areas. Such estimation means that floods will hit 146 villages in 16 districts.

"We are currently still collecting data on the impact of Bengawan Solo overflow," he added.

Strong earthquake in remote far-western China kills 1

AP Associated Press November 25, 2016

BEIJING (AP) — A strong earthquake in a remote area of China's extreme west has killed at least one villager after a home collapsed, authorities said Saturday.

The seismological bureau of China's Xinjiang region said that 55 homes were damaged and 32 collapsed in an area bordering Tajikistan and Kyrgyzstan in the quake that struck late Friday.

The government has dispatched emergency response workers and closed some railways in southern Xinjiang.

The U.S. Geological Survey said the quake had a preliminary magnitude of 6.5 and struck western Xinjiang Uyghur Autonomous Region. The USGS reported the quake as quite shallow, at a depth of 12 kilometers (7.5 miles).

Shallow earthquakes are more likely to cause damage in populated urban areas, but that area of the Xinjiang highland is largely rural.

China's earthquake monitoring agency said the quake epicenter was located in Akto county in Kizilsu Khirgiz Autonomous Prefecture in Xinjiang, which is near the

Fishermen and residents of the San Jose Cove in Chiclayo found a large number of dead fish on the beach. Lorna, mackerel, pompano, cachemas and other stranded fish were found.

The fishermen showed their concern and do not know the causes of the death of the fish that remained along a kilometer of the cove San Jose. They fear pollution in the cove.

The fishermen indicated that they will await the pronouncement of the Institute of the Sea of Peru (IMARPE) and that studies will be carried out to determine the causes of fish deaths.

Geese to be culled in Germany due to bird flu

2016-11-20 17:57

Berlin - The news agency dpa reports that around 8 800 geese on two poultry farms will be culled in the northern German state of Schleswig-Holstein because some of the animals are infected with the bird flu.

Dpa said on Sunday it was not clear yet whether the birds were infected with the H5N8 strain that has been detected in wilds bird across 10 German states since November 8.

Last week, 30 000 chickens were destroyed in Schleswig-Holstein after H5N8 was detected in their enclosure.

Several German states have already ordered farmers to keep their fowl indoors to prevent them picking up the virus, which can easily spread among birds but is not known to infect humans.

The virus has been detected in several European countries.

REPORT ERROR

MERIGOMISH, N.S. - Marine rescue workers were scanning a small Nova Scotia harbour on Monday for a pod of wayward dolphins after three of the animals washed up dead on shore.

Andrew Reid of the Marine Animal Response Society was trying to determine if any of the roughly 15 dolphins that were seen last week in the Merigomish Harbour area were still there.

"We just want to find out if there are more animals in the harbour and if there are, get them out," he said from the site.

The remains of two of the common male dolphins were discovered by a passerby last week, while a third was found on the shore of Big Island on Sunday.

The area is tricky for the animals to navigate because it has a narrow opening near Big Island, and is closed by a long sandbar at the other end.

"They're just unable to find their way out and oftentimes, once they can't get out they often strand (themselves)," he said. "This is a species that is typically found further offshore, but it's possible they were following fish in."

How a mosquito bite led to paralysis — and turned this teacher's life upside down

In September 2015, Missy Morris was diagnosed with West Nile Virus. She contracted the disease after being bitten by a mosquito in her Los Feliz neighborhood.

 By **Thomas Curwen**, Contact Reporter

NOVEMBER 23, 2016, 3:15 AM

The virus rode inside the salivary glands of the mosquito as the insect flew crosswind over northeast Los Angeles in search of a blood meal. It was looking for a bird — a finch, sparrow or robin, the preferred targets — and it found Missy Morris.

Receptors on its antennae quivered at the hint of carbon dioxide, alcohols and fatty acids wafting off her skin, and the

US, China agree on tougher UN sanctions against North Korea

By Carole LANDRY

United Nations, United States (AFP) Nov 23, 2016

The United States and China have agreed on a new raft of tougher UN sanctions against North Korea in response to Pyongyang's fifth and biggest nuclear test, a Security Council diplomat said Wednesday.

Although Russia has expressed reservations about the draft resolution, they should not stand in the way of a Security Council vote on the new package of punitive measures as early as next week, the diplomat said.

The key provision of the proposed new sanctions would be a cap on North Korea's coal exports to China, Pyongyang's main trading partner and ally, that could deprive the communist hermit state of tens of millions of dollars in revenue.

"The key thing is that China and the US have gotten to a position where they can agree on," the diplomat said on condition of anonymity.

"The Russians are trying to hold it up, the Chinese are comfortable with it in terms of the content," he added.

The diplomat described the proposed resolution as a "very meaty" document that would close loopholes from the measure the council adopted in March, the toughest sanctions yet imposed on North Korea.

They would target coal exports, allowed under the previous measure for "livelihood

Iran will retaliate if US renews sanctions: Khamenei

Tehran (AFP) Nov 23, 2016 - Iran will retaliate if the United States renews sanctions next month, supreme leader Ayatollah Ali Khamenei warned Wednesday.

"In the issue of the nuclear deal, the current administration has committed several violations, the latest of which is the renewal of the 10-year sanctions," Khamenei said in a televised speech to thousands of members of the Basij Islamist volunteer militia.

"If these sanctions happen, it is absolutely a breach of the JCPOA," he added, referring to last year's deal with world powers under which sanctions were eased in exchange for curbs to Iran's nuclear programme.

"They must know that the Islamic republic will react against it."

The US Congress last week voted to renew long-standing sanctions linked to Iran's ballistic missile tests and human rights record that pre-date the controversy around Iran's nuclear ambitions.

The Chinese military has conducted air force drills in the western Pacific close to Beijing's regional rivals Japan and Taiwan on Friday and Saturday. The Japanese Air Force scrambled fighter jets to shadow the Chinese planes.

On Friday, Chinese military planes flew through the Bashi Channel that separates Taiwan and the Philippines. Later on Saturday, the planes passed through the Miyako Strait near Japan's Okinawa island, which hosts a large portion of the US military troops stationed in the country.

The Chinese Air Force said the annual drills went as scheduled and "are not aimed at any specific country, region or target."

Police are searching for a masked gunman after a female care worker was murdered and 70 monks were taken hostage at a retirement home in the south of France.

The bloodbath unfolded at the Green Oaks care home in the village of Montferrier-sur-Lez, north of Montpellier, soon after 9.30pm last night.

Shots were heard as the unidentified intruder, thought to have a link to the care home and be a former paratroop soldier, attacked members of staff and members of an elderly religious community belonging to the Society of African Missions.

Water covers around 70 per cent of the Earth's surface, but a huge amount also lies inside our planet.

Two new studies suggest that there may be vast quantities of water as far as 620 miles (1,000 kilometres) below the surface.

Without this huge store of water, the geodynamic activity that causes volcanoes - which are important for generating soil and sustaining life on the planet - would cease.

Trump Tower is a 58-story mixed-use skyscraper located on Fifth Avenue between 56th and 57th Street in Midtown Manhattan, New York City....

26 NOVEMBER, 2016

An unknown person has taken Donald Trump's name out of the midtown building's label on Google Maps. If you search for Trump Tower on Google Maps, you won't find that exact name there. Instead, you'll find "Dump Tower." Users began noticing the Fifth Avenue building's name change on the mapping service Saturday.

The 2016 election results for three states are in doubt, and an effort led by Green Party presidential candidate Dr. Jill Stein is raising millions of dollars for a vote recount.

The Green Party has a fundraising goal of more than \$2 million to challenge the vote counts in Michigan.

Thousands Of Immigration Green Cards Vanish, Jeopardizing National Security

21 NOVEMBER, 2016

Thousands of green cards are missing because U.S. Citizenship and Immigration Services (USCIS) officials apparently sent them to the wrong addresses, jeopardizing national security, according to a Department of Homeland Security (DHS) Office of Inspector General (IG) report made public Monday. "It appears that thousands of green cards have simply gone missing," DHS Inspector General John Roth said in a news release. "In the wrong hands, green cards may enable terrorists, criminals, and undocumented aliens to

A Muslim imam in Denmark has been charged under the nation's racism ban after he posted online a sermon calling Jews the "offspring of apes and pigs," an interpretation of the Quran held by many Muslim scholars.

Sheikh Muhammad Al-Khaled Samha was speaking at a mosque run by the Islamic Society of Denmark in Vollsmose, a suburb of Odense, the Middle East Media Research Institute reported.

A short, sharp liquidity shock

A NEW strain of trickle-down economics has been spawned by the decision, on November 8th, to withdraw the bulk of India's banknotes by the end of this year. As holders of now-useless 500-and 1,000-rupee (\$15) notes rushed to deposit them or part-exchange them for new notes, an e-commerce site offered helpers, at 90 rupees an hour, to queue outside banks in order to save the well-off the bother.

Elsewhere, a chronic shortage of banknotes in a cash-dominated economy has left most trades depressed. Seven out of ten *kiranas* (family-owned grocers) have suffered a decline in business, according to a survey by Nielsen, a consultancy. Supply chains, in which wholesalers and truckers deal mostly in cash, have fractured. Some 20-40% less farm produce reached markets in the days after the reform. City folk admit to hoarding the 100-rupee note, the largest of the old notes to remain legal tender. Taxi drivers refuse to break the new 2,000-rupee note. Road-tolls have been suspended until at least November 24th, to

Iranian Christian convert Shapoor (far right) leads a prayer gathering.
| (God Reports)

When he was still a Muslim living in Iran, Shapoor did not believe God could talk to ordinary people, much less have a relationship with them or use them.

That's why he was utterly surprised when he found out later on, when he immigrated to the U.K., that God not only talks to ordinary people but also "has a heart for sinners and everybody," according to [God Reports](#).

In his first few months in Britain, Shapoor said he was depressed. But then after attending a Christmas party to meet other Iranians, he heard a song called Jesus the "Prince of Peace," which stirred his heart.

(Zales/Facebook)

Zales Jewelers should be ashamed of attempting to normalize sin by featuring two women getting married in its latest commercial, which shows two women in wedding gowns exchanging vows and wedding bands. Zales is promoting same-sex marriage and their new "Love and Pride" Collection. The "Love and Pride" wedding band collection, designed for the LGBTQ community with rainbow and matching bands, is "promoting Equality, Diversity and Unity" and encourages same-sex couples to "celebrate their Love with Pride" as stated on its website.

Zales is using public airwaves to subject families to the decay of morals and values, and belittle the sanctity of marriage in an attempt to redefine marriage. Even though homosexuality is unnatural, this advertisement is pushing the LGBTQ agenda. An even greater concern is that the commercial is airing when children are likely watching television. To make matters worse, this ad has aired during
