اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض

ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي

المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما

انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

largest gravity wave ever recorded in Solar System crossed Venus' atmosphere leaving astronomers baffled

17 JANUARY, 2017

A Japanese spacecraft has spotted a massive gravity wave in Venus' atmosphere. This is not the first time such a wave was observed on the Solar System's second planet, but it is the largest ever recorded, stretching just over 6,000 miles from end to end. A METEORITE burning across the Mallee sky last Friday night has spotters talking.

Wollongong-based amateur astronomer David Finlay said the "massive" fireball was seen about 11.05pm on January 13.

"From Melbourne and Shepparton, this meteor appeared low to the ground to the north-west, but I suspect it may have been very close to the Mildura area," Mr Finlay said.

"It split into several pieces in the end and a team from Monash University and I are trying to track it down."

An impressive bright flash appeared above central Norway on January 15, 2017, and was observed from both western and eastern Norway. Eyewitnesses are asked to submit their reports.

According to the Norwegian Meteor Network, the event occurred around 13:48 UTC and was accompanied by a sonic boom a few minutes later, suggesting that the event was a fireball coming a long way down in the atmosphere before it exploded.

The meteor network operates numerous cameras, but the event was apparently not recorded by any of them. If you saw the event, please submit your [report](#).

Received reports so far mention very intense light that dissolved into small fragments before it disappeared. Two of them said the light was blue and well visible.

The reports came from the regional districts Sogn og Fjordane, Møre og Romsdal, Oppland, and Rogaland. The most distant observations are from the city Haugesund in western Norway and Lunner

Central Italy was struck with a series of earthquakes, measuring up to magnitude 5.7, with tremors reportedly felt across the regions of Abruzzo, Marche and Lazio – including the city of Rome.

The initial quake, measuring 5.4, hit at around 10:25am local time on Wednesday and was recorded 104km (69 miles) northeast of Rome, according to the US Geological Survey. The European-Mediterranean Seismological Centre (EMSC) reports the depth of the quake at 10km. Up to seven quakes followed, the largest measuring 5.7, hitting 110km northeast of Rome, according to the EMSC.

Bulgaria reports virulent bird flu at over 50 farms, culling 430,000 poultry

A virulent bird flu virus has spread to 55 poultry farms in Bulgaria prompting the veterinary authorities to announce a cull of some 430,000 birds since it was first detected in the middle of December, agriculture minister Dessislava Taneva said on Saturday.

The Balkan country has also registered four cases of bird flu in wild ducks since mid-December.

Bulgaria has imposed a nationwide ban on poultry markets and on the hunting of game birds, and has already spent over a million leva (\$543,714) to cull birds in a bid to contain the outbreak.

"In Bulgaria, we have usually registered bird flu in wild birds in the past few years. It is the first time we have had so many outbreaks in farms," Taneva told Bulgarian Darik.

Highly drug-resistant TB spreading person to person: study

A new study in the *New England Journal of Medicine* indicates that a form of tuberculosis that is resistant to at least four of the front-line antibiotics used to treat the bacterial disease is primarily spreading from person to person in South Africa.

Dr. Microbe / iStock

The finding is significant, the authors of the study say, because it suggests that the long-held notion that extensively drug-resistant tuberculosis (XDR-TB) is acquired mainly as the result of inadequate treatment is only part of the story. It could help explain the dramatic rise of XDR-TB in South Africa, which has seen a 10-fold increase in cases since 2002.

And it's the type of evidence that's been needed, they say, to transform the approach to fighting spread of the disease.

Almost 70% person-to-person spread

Parents Sending Young Kids To Hypnotists On the Rise

19 JANUARY, 2017

Hypnosis has taken on a new focus. More and more parents are now putting their kids under a hypnotic trance, but some say the practice may be going too far. Eric Ferrer-Alfaro, 10, has HDHD. His mother doesn't want to medicate him, and nothing else has worked. She's turned to hypnotism. "We've tried meditation, relaxation, things like that," Silvana Ferrer said.

She said he has trouble focusing in school, and she's optimistic this will help. "I'm hoping for the teachers not to call me anymore, or at least call me less," Ferrer said. Hypnotherapist Lisa

The Intercontinental ballistic missile, Topol-M, has blasted off from the Plesetsk's rocket site soaring through almost all of the country and successfully hitting its target over the Kamchatka peninsula, Russia's Defense Ministry has said.

This video shows how a missile is normally launched. The door to the pit where the missile is kept opens and the rocket rises up into the sky, accompanied by powerful blasts and spurts of flames.

Taipei (AFP) - Taiwan began two days of military drills Tuesday simulating an attack by China as the government sought to reassure the public in the face of deteriorating relations with Beijing.

The island's armed forces gathered in central Taiwan for annual drills that saw troops practise combat skills with tanks, attack helicopters and artillery.

China's sea militarisation 'very troubling': Philippine defence chief

by Staff Writers
Manila (AFP) Jan 17, 2017

China's militarisation of the South China Sea is "very troubling" and neither peaceful nor friendly, the Philippines' defence secretary said on Tuesday.

President Rodrigo Duterte has sought to improve his nation's relations with China by adopting a non-confrontational approach over their competing claims in the strategically vital waters.

But, even as other senior government officials sought to downplay China's building of defence installations on artificial islands it has built in the sea, Defence Secretary Delfin Lorenzana issued a strongly worded statement.

"Notwithstanding the warming of relations between our countries, the Philippine government would be remiss in its duty to protect its national interest if it does not protest, question and seek clarification from China on the presence of weapons in the Spratlys," Lorenzana said in a statement.

"The actions of China in militarising those disputed features are very troubling. They do not square with the Chinese government's rhetoric that its purpose is peaceful and friendly."

Lorenzana released the statement hours before President Duterte was scheduled to

Cambodia says China not behind scrapped US military drill

Phnom Penh (AFP) Jan 17, 2017 - Cambodia has cancelled upcoming military exercises with the United States, the defence ministry said Tuesday, denying the decision was made to appease regional ally China, with which it conducted joint drills last month.

American and Cambodian troops had been due to take part in the annual "Angkor Sentinel" joint exercise this summer, which has been held for the past seven years.

But defence officials in Phnom Penh said the exercise had been halted because Cambodian troops were needed to carry out an ongoing drug crimes purge and prepare for upcoming local elections due to be held in June.

"We need forces to maintain security during the local elections in 2017. That's why we are suspending the exercise," Defense Ministry spokesman Chhum Socheat told AFP.

Tanks have been sent through the Channel Tunnel in a secret midnight training operation to prepare for war in Europe.

Five vehicles in total were loaded onto trains, sent through, and then returned to the UK overnight on Wednesday.

Five different types of vehicle were sent in order to ensure that a range of armor could be transported.

A Warrior armored fighting vehicle, a recovery variant of the Warrior, a Challenger 2 main battle tank (MBT), a recovery Challenger, and a reconnaissance vehicle were loaded onto a train at the military's railhead in Wiltshire for the test journey.

Islamic terrorists and drug cartels in Mexico are planning attacks against U.S.-Mexico border ports around Inauguration Day, according to a report by the Washington watchdog group Judicial Watch.

Jihadist and cartel groups reportedly attacked near the site of a new U.S. Consulate last week in Nuevo Laredo, Mexico, which is located directly across the border from Laredo, Texas. The attacks are part of an effort to send incoming President Donald Trump a message about who is in control, the report states.

A deadly shootout took place last week at the construction site of a new \$155 million U.S. Consulate building, which is scheduled to be completed in September.

WASHINGTON (Reuters) – President Barack Obama suggested on Wednesday that moving the U.S. embassy to Jerusalem could have “explosive” results and said he was worried that the prospects for a two-state solution to the Israeli-Palestinian conflict were waning.

U.S. President-elect Donald Trump has promised to re-locate the embassy to Jerusalem, breaking with longstanding U.S. policy. Israel and Palestinians both claim Jerusalem as their capital, and such a change would draw international condemnation.

“When sudden unilateral moves are made that speak to some of the core issues and sensitivities of either side, that can be explosive,” Obama said at his last news conference as

China to develop prototype super, super computer in 2017

AFP

China plans to develop a prototype exascale computer by the end of the year, state media said Tuesday, as it seeks to win a global race to be the first to build a machine capable of a billion, billion calculations per second.

If successful, the achievement would cement its place as a leading power in the world of supercomputing.

The Asian giant built the world's fastest supercomputer, the Sunway TaihuLight machine, in June last year, which was twice as fast as the previous number one.

It used only locally made microchips, making it the first time a country has taken the top spot without using US technology.

Exascale computers are even more powerful, and can execute at least one quintillion (a billion billion) calculations per second.

A Somali-American woman who identifies as a Muslim recently took her oath of office on the Koran instead of the Bible. Ilhan Omar, a Democrat, was elected to the Minnesota House of Representatives in November, beating her Republican opponent, Abdimalik Askar, by 61 percent. Her election marked the first female Somali-American selected to serve as a legislator.

Wikileaks soldier Chelsea Manning will lose hormone treatment and transgender benefits if she is dishonourably discharged under terms of her commutation

- Barack Obama allowed Manning to go free nearly 30 years early ahead of her scheduled release in 2045
- The Army had been providing Manning with treatment for gender dysphoria
- That was included in the terms of the sentence imposed on her in 2013
- But she will lose her transgender benefits if she is dishonourably discharged

US Army private Chelsea Manning who leaked classified documents to WikiLeaks will reportedly lose her transgender benefits under the terms of her commutation.

In one of his final acts as President, Barack Obama allowed Manning to go free nearly 30 years early ahead of her scheduled release in 2045.

Manning leaked classified government and military documents to the anti-secrecy website WikiLeaks. She will now be let out in May.

Private Manning, 29 - who was formerly named Bradley - was stationed at the time in Iraq, and later said she leaked the documents after becoming increasingly disturbed by evidence of the US military's sometimes brutal behaviour towards civilians in the country.

In an epic final speech, Joe Biden warns that the progressive democratic world order is at risk of collapse

Vice President [Joe Biden](#) delivered an epic final speech Wednesday to the elites at the [World Economic Forum](#) in Davos, Switzerland.

The gist of his speech was simple: At a time of "uncertainty" we must double down on the values that made Western democracies great, and not allow the "liberal world order" to be torn apart by destructive forces.

Biden went after Russian President [Vladimir Putin](#) by name, saying he is using "every tool" in his power to whittle away the European project, and undermine Western democracies. Biden accused Putin of wanting to "roll back decades of progress."

Donald Trump signs three executive memos

Comment /  Share /  Tweet /  Stumble /  Email

Last Updated Jan 23, 2017 12:45 PM EST

President Trump signed three executive memos on trade Monday morning -- one withdraws the U.S. from the Trans Pacific Partnership (TPP), another reinstates the **Mexico City Policy** dealing with non-governmental organizations (NGOs) and abortion access, and a third freezes federal workforce hiring.

Asked about the ethics lawsuit filed against him, Mr. Trump said only, "Without merit. Totally without merit."

* What is the TPP?

TPP was an enormous trade deal that would have aligned the U.S. and 11 nations in the Asia-Pacific region including Japan, Australia, Vietnam, Canada and Mexico under an agreement that would have eliminated thousands of tariffs and streamlined regulations. The countries involved in the deal collectively conduct 40 percent of global trade.

"Everyone knows what that means, right? We've been talking about this for a long time," Mr. Trump said as he signed the order withdrawing the U.S. from the TPP. "Great thing for the American worker, what we just did."

As he signed the federal workforce hiring freeze, Mr. Trump noted that the military was exempted from the hiring freeze.

TPP also would have required ratification by Congress, and President Obama had hoped to see it ratified before he left office.

The **Mexico City Policy** was originally announced by President Reagan in 1984 and required nongovernmental organizations to agree as a condition of receiving any federal funding that they "would neither perform nor actively promote abortion as a method of family planning in other nations."

SANTA CLARA, Calif. — Officials in Santa Clara, California have removed a 14-foot cross from a public

park in response to a lawsuit filed by a prominent professing atheist organization.

The granite cross had been displayed in what is known as Memorial Cross Park for the past 64 years after being donated by the local chapter of the Lions Club.

But in 2012, the Wisconsin-based Freedom From Religion Foundation (FFRF) wrote to then-Mayor Jamie Matthews to assert that the cross violated both the federal and state Constitutions in that it was a government endorsement of religion.

Interest in Satan and Satanism has experienced a tremendous resurgence in recent years.

At one time, satanists were generally feared and shunned by society, but now Satanism is steadily being accepted into mainstream culture. Until recently, the Church of Satan founded by Anton LaVey in 1966 was the most prominent satanic organization in the world, but now it is rapidly being overtaken by a relatively new group known as the Satanic Temple.

It is headquartered in Salem, Massachusetts, and was founded in 2013 to combat the influence of evangelical Christianity in politics. It has grown explosively over the past several years, and at this point, the organization's leadership claims it has a global membership of somewhere around 100,000.

Can undressing a stranger lead to love? Brave Australians are set to strip off and jump into bed on their first date to find out.

In the new reality dating show called Undressed, the matched-up couples must undress each other down to their underwear on their first meeting.

The hopeless romantics in search of their soulmate then spend 30 minutes in bed asking a series of personal questions that appear on a large screen in front of them.

The social experiment pairs two strangers together, put them in a room furnished only with a bed and a TV, and gets them to undress each other.
