## والعلامات حتى 21 مارس 2017

Holy\_bible\_1

اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض

ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي

المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما

انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

انجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُوْمِنُونَ.

ثالثا لننتبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

## Solar Eclipse Will Cross the US for the First Time in 99 Years

MARCH 20, 2017

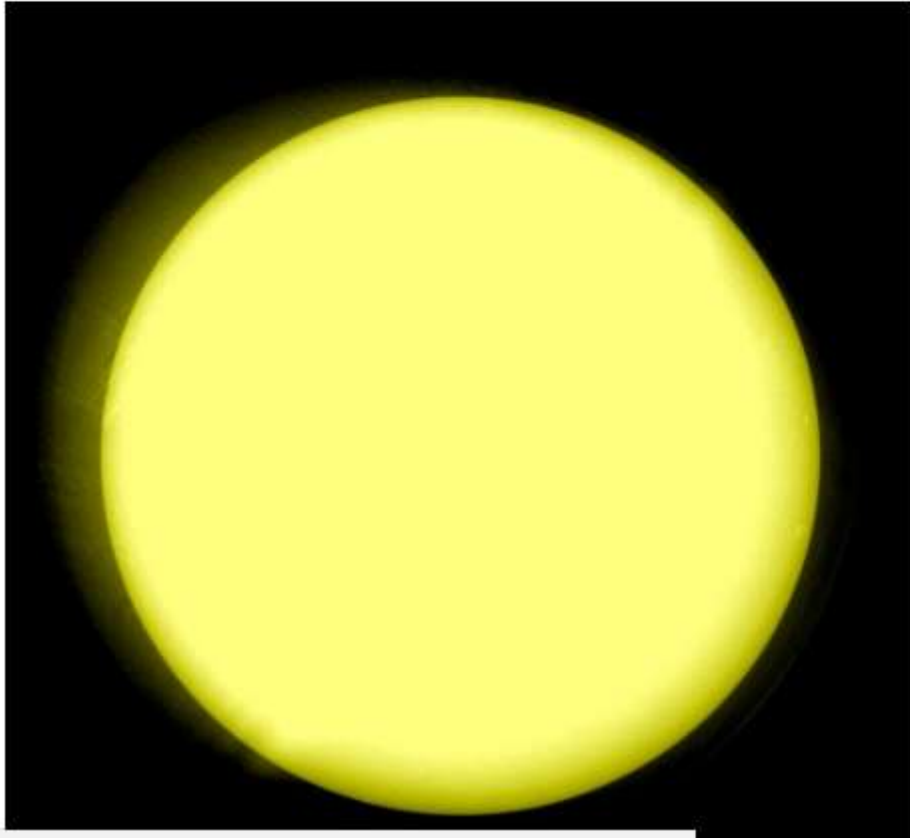

(By **Kelly McDonald, Jr**) An extremely rare solar event will appear in the sky **this summer**. On August 21<sup>st</sup>, a total solar eclipse will cross the entire country from Oregon to South Carolina. Other parts of the country will see a partial eclipse. The last time this occurred was 99 years ago on June 8, 1918.

## Cosmic Rays Continue to Intensify

Nov. 15, 2016: As the sunspot cycle declines, we expect cosmic rays to increase. Is this actually happening? The answer is "yes." Spaceweather.com and the students of Earth to Sky Calculus have been monitoring radiation levels in the stratosphere with frequent [high-altitude balloon flights](#) over California. Here are the latest results, current as of Nov. 11, 2016:

الا يذكركم هذا بسفر الرؤيا

سفر الرؤيا 8 :16

8 ثُمَّ سَكَبَ الْمَلَاكُ الرَّابِعُ جَامَهُ عَلَى الشَّمْسِ، فَأَعْطَيْتُ أَنْ تُحْرِقَ النَّاسَ بِنَارٍ،

9 فَاحْتَرَقَ النَّاسُ اخْتِرَاقًا عَظِيمًا، وَجَدُّوْا عَلَى اسْمِ اللَّهِ الَّذِي لَهُ سُلْطَانٌ عَلَى هَذِهِ الصَّرِيَّاتِ، وَلَمْ يَتُوبُوا لِيُعْطُوهُ مَجْدًا.

كوكب الزهرة (زهرة بنت الصبح) يأخذ شكل الهلال في السماء

**TWINKLE, TWINKLE, CRESCENT VENUS:** Like the Moon, Venus has phases, and right now it is a beautifully slender crescent. On March 17th, Italian astronomer Raffaello Lena used a small telescope to track Venus down to the horizon as it set in the evening sky of Rome. He recorded a beautiful example of atmospheric turbulence distorting the curved lines of the second planet:

This kind of scintillation is normally reserved for pinpoint objects like distant stars. Venus is so thin, it's doing it too. In a related development, some observers have recorded the chromatic splitting of Venus into red, green, and blue crescents, making Venus look like [a tiny rainbow in space](#).

All of this is happening because Venus is passing between Earth and the sun--an event astronomers call "inferior solar conjunction." As Venus turns its night side to Earth, only a luminous sliver remains. Observers can find Venus shining through the twilight in the western sky at sunset. The crescent is easy to see in small telescopes and binoculars.

The Venus-sun distance will be least on March 25th. This is the most beautiful time to observe Venus, but also the most perilous. The glare of the nearby sun magnified by a telescope can damage the eyes of anyone looking through the eyepiece.

# Death toll rises to 72 in Peru rains, flooding, mudslides

Published March 18, 2017 · Associated Press

A man pulled to safety on a zipline harness in Lima, Peru, Friday, March 17, 2017. The number of people killed in Peru following intense rains and mudslides wreaking havoc around the Andean nation climbed to 67 Friday, with thousands more displaced from destroyed homes and others waiting on rooftops for rescue. (AP Photo/Martin Mejia) (The Associated Press)

LIMA, Peru – The intense rains, overflowing rivers, mudslides and flooding being experienced in the country are the worst seen in in two decades, Peruvian authorities said Saturday, affecting more than half the nation as the death toll since the beginning of the year hits 72.

Prime Minister Fernando Zavala on Saturday updated the number of dead to 72 in comments to local radio station RPP.

## U.S. Plains wildfires leave thousands of cattle dead

By Jon Herskovitz  
Reuters March 9, 2017

By Jon Herskovitz

AUSTIN, Texas (Reuters) - Fast-moving wildfires that burned through nearly 2 million acres (809,380 hectares) of Texas, Oklahoma and Kansas this week have devastated ranches and left thousands of cattle and other livestock dead, officials said on Thursday.

Many of the grass fires grew rapidly on Monday due to dry weather and parched prairie land in the Texas Panhandle, north and western Oklahoma and southern Kansas. Several of the blazes were largely contained on Thursday as hundreds have battled the blazes on the ground and in the air.

Six people have been killed in the fires, including three ranch hands in Texas who died trying to protect cattle from oncoming flames. The fires in Kansas were the largest recorded, at about 631,000 total acres (255,350 hectares), state officials said.

Many ranchers have not yet been able to return to their land but those who did have seen the loss of herds and destruction of fencing, officials said.

"Unfortunately, (cattle loss) has been in the thousands, but there is not a specific number on the amount of cattle that have been killed," Katie Horner, an emergency management

## Volcanoes Are Erupting All Over The World

By **Steve Staggs** - March 6, 2017

2649 0

Share on Facebook

Tweet on Twitter

Already the climate change has raised concern among the people. Now the recent news of volcanoes erupting all over the world is baffling and may make things even more serious. Italy's Mount Etna as of late erupted with a large amount of magma amid what is presently its second emission in the most recent year. Mount Etna is been referred to as Europe's

greatest and most capable spring of gushing lava, and its emission represents a peril to air activity and conceivably the encompassing towns and homes on the lower inclines of the

An Alaskan volcano experienced its largest eruption to date and created a large ash cloud. For the past several months, Bogoslof Volcano has had minor eruptions, but the most recent was its strongest, sending ashes 35,000 feet above sea level.

Residents of the Aleutian Islands are under ash advisory after Bogoslof Island's volcano had its strongest recorded eruption Tuesday night. The National Weather Service warned that the fishing communities could see a trace amount of ash following the powerful eruption.

ROME — Scientists, tourists and a television news crew were among 10 people injured in a "violent explosion" Thursday when magma spewing from Sicily's Mount Etna hit snow, officials said.

The blast was caused by a "phreatic eruption" in which fast-moving lava moves over snow, creating high-pressure pockets of steam, Marco Neri, a volcanologist at Italy's National Institute of Geophysics and Volcanology told NBC News.

## Slow Moving Earth Crack Threatens Italy

By deliciousknitty / March 3, 2017 / Earth Changes, Earthquakes - One comment

Like the country didn't have enough natural disasters over the past several months, and years, yet another unstoppable disaster is affecting Italy's central region of Abruzzo, albeit rather slowly.

Civil authorities reported a slow-moving landslide is slicing a hill in the hamlet of Ponzano in Teramo in half, and a village, home to around 200 people, is at risk.

Several buildings have already collapsed or sustained severe damage as a result of the landslide, which is moving at a rate of about 1 meter per day (3.3 feet), but all of them are probably destined to collapse.

35 homes and a total of 120 people have been evacuated since February 12 when the slide was first detected. Residents said they had to evacuate within minutes...

Two countries in Europe—Hungary and Romania—reported more highly pathogenic H5N8 outbreaks in wild birds and poultry, as South Korean researchers revealed new findings about the H5N6 strain, which hint that Mandarin ducks could be a host species that can spread the virus beyond its borders.

markyharkj / Flickr  
CC BY

In an update today on H5N8, the United Nations Food and Agriculture Organization (FAO) said the virus with pandemic potential has now been confirmed in birds in four of the world's regions, including 40 countries.

### Latest H5N8 outbreaks in Europe

Hungary's agriculture ministry today reported 47 more H5N8 detections in wild birds found dead from Jan 5 to Feb 15, affecting 11 bird species, though the largest portion were mute swans, according to a report to the World Organization for Animal Health (OIE).

The birds were found dead across a wide area of Hungary, encompassing 16 different counties. Five of the events involved dead birds in Budapest, Hungary's capital.

Details of the numerous H5N8 outbreaks come less than a week of a report on

يوم 6 مارس موت عشرات الالاف من الطيور بسبب انفلونزا الطيور في تنسي أمريكا

NEW YORK (AP) —

Tens of thousands of chickens have been destroyed at a Tennessee chicken farm due to a bird flu outbreak, and 30 other farms within a six-mile radius are being quarantined.

The U.S. Department of Agriculture says 73,500 chickens were destroyed and will not enter the food system. The highly pathogenic H7 avian influenza, or HPAI, can be deadly to chickens and turkeys.

The breeder supplies Tyson Foods Inc. The company said that it doesn't expect its chicken business to be disrupted, but shares of the Springdale, Arkansas, food producer slid 3 percent in early trading Monday.

Tennessee's Department of Agriculture declined to name the breeder and would only say it is located in the state's Lincoln County, just west of

## Three more dolphins found dead on South Hams beaches this week

Tuesday, 7 March 2017 By [Chris Derrick](#) in [Environment](#)

Post a comment

**Three more common dolphins were reported washed up on South Hams beaches this week.**

The dead dolphins were found on the beaches at Challaborough, Thurlestone and Wonwell and reported to the Natural History Museum for post mortem.

More than 100 dolphins have been found dead on south west beaches in the first six weeks of this year alone, with most being found in Cornwall.

'The alarming fact is that all experts agree that only one per cent of the dolphins killed ended up washed-up on the shoreline,' Lindy Hingley from Brixham Seawatch explained.

The US has begun to deploy its advanced THAAD anti-missile defense system in South Korea, despite angry opposition from Russia and China. The step comes after North Korea fired four ballistic missiles toward Japan as part of an exercise targeting US bases there.

According to US Pacific Command, the first elements of the Terminal High Altitude Area Defense (THAAD) anti-missile system arrived at Osan airbase in Pyeongtaek, South Korea, on Tuesday.

## MISSILE DEFENSE

# UN hopes for easing of tensions after Chinese anger over THAAD

by Staff Writers

United Nations, United States (AFP) March 7, 2017

The United Nations on Tuesday said it hoped for fresh efforts to reduce tensions on the Korean peninsula after China angrily responded to the US deployment of the THAAD missile-defence system in South Korea.

"We hope that efforts will be stepped up to find a path to reduce tensions and to work for denuclearization of the Korean peninsula," UN spokesman Farhan Haq told reporters.

The US Pacific Command said Monday its military had begun deploying the Terminal High Altitude Area Defense (THAAD) system to South Korea, which is aimed at defending the US ally from a North Korean attack.

China responded that it was "firmly opposed" to the deployment and vowed to "resolutely take necessary measures" to defend its security interests.

The announcement from the US military came after North Korea launched four missiles that it said were part of a training exercise for a strike on US bases in Japan. Three of the missiles came down in waters close to Japan.

The UN Security Council will meet on Wednesday to discuss the latest North Korean missile launches and possible new measures to punish Pyongyang for violating UN resolutions.

China, a permanent council member and Pyongyang's main ally, has argued that deployment of the THAAD would further destabilize the situation on the Korean peninsula.

The council has imposed six sets of sanctions on North Korea -- two of which were adopted last year to significantly ramp up measures and deny Kim Jong-Un's regime

North Korea could soon have the capacity to launch an attack on Hawaii that would devastate America's Pacific military bases, accelerating the need for the United States to upgrade missile defenses in the area.

The United States today relies on ground-based ballistic missile interceptors deployed in California and Alaska to protect Hawaii, but these defenses would do little to guard U.S. territory in the Pacific against a North Korean intercontinental ballistic missile (ICBM), which officials believe is nearing completion.

The U.S. Missile Defense Agency in February test fired a new SM-3 Block IIA missile from Hawaii that

successfully intercepted an incoming ballistic missile, but the Pentagon does not maintain a permanent missile defense installation or detection capabilities on the Hawaiian Islands.

The Pacific Missile Range Facility in Hawaii hosts an experimental, land-based ballistic missile defense system called

## Iranian commander warns US of 'irreversible consequences' over 'unprofessional' moves in Gulf

Published time: 8 Mar, 2017 18:59

Edited time: 9 Mar, 2017 10:17

[Get short URL](#)

FILE PHOTO: USNS Invincible © Deven B. King / U.S. Navy / Handout via Reuters / Reuters

An Iranian Navy commander called US actions in the Persian Gulf "unprofessional," adding that there could be "irreversible consequences." He said the US vessel changed course towards Iranian warships in the Strait of Hormuz on March 4.

According to the Iranian commander, the USNS Invincible, a tracking ship accompanied by a group of British ships, was crossing the Hormuz Strait area, when it "changed direction from the international route toward the boats of the Iranian Revolutionary Guard Corps (IRGC) navy."

وإيران تختبر صواريخ أكثر بينما الطائرات الامريكية في طريقها لكوريا الجنوبية

WORLD NEWS | Thu Mar 9, 2017 | 11:17am EST

## Iran successfully test fires a naval missile, Tasnim reports

Iran's Revolutionary Guards Corps has successfully test-fired a naval missile, the semi-official news agency Tasnim said on Thursday, a move likely to heighten concern in Washington, whose warship operate in the waters near Iran.

Tasnim said the missile, called the Hormuz 2, could destroy moving targets at sea at ranges up to 300 km (180 miles). The missile was built in Iran, Tasnim said.

"The naval ballistic missile called Hormuz 2 this week has successfully destroyed a target which was 250 km away," said Amir Ali Hajizadeh, commander of the IRGC's Aerospace Force, according to Tasnim.

The missile test is the latest event in a long-running rivalry between Iran and the United States in and around the Strait of Hormuz, which guards the entrance to the Gulf. About 20 percent of the world's oil passes through the waterway, which is less than 40 km wide at its narrowest point.

Most recently, several Iranian fast-attack boats came within 600 yards (550 meters) of the USNS Invincible, a tracking ship, forcing it to change direction.

A Revolutionary Guards commander told Iranian state media on Wednesday that it was the fault of the U.S. ship, warning the United States of the "irreversible consequences of such unprofessional actions".

## Syrian force a 'few weeks' from Raqqa, U.S. Marines deployed

By Tom Perry | BEIRUT

U.S.-backed Syrian forces said on Thursday they were closing in on Islamic State-held Raqqa and expected to reach the city outskirts in a few weeks, as a U.S. Marines artillery unit deployed to help the campaign.

The Syrian Democratic Forces (SDF), a militia alliance including the Kurdish YPG, is the main U.S. partner in the war against Islamic State in Syria. Since November it has been working with the U.S.-led coalition to encircle Raqqa.

SDF spokesman Talal Silo said: "We expect that within a few weeks there will be a siege of the city."

## Iran Closing In On Israel – Deal With Syria Could See New Military Base

MARCH 17, 2017

(Reported By **PNW**) Iran is on the verge of reaching a deal with the regime of Syrian President Bashar Assad to build a military base at the port of Latakia on the Mediterranean coast, an Israeli diplomatic official told the Hebrew news site Walla on Friday. According to the report, this would be Assad's way of paying Iran back for the extensive military and financial support it has provided to the Assad regime since the outbreak of the ongoing war in Syria six years ago. The Jewish state, the report said, views the establishment of an Iranian military presence on the Mediterranean Sea as an "extreme step" that would "foster instability in the region and promote terrorism against Israel."

MARCH 7, 2017

New interests have emerged regarding the em famous Ark of the Covenant which is a wooden and gold box that is believed to hold the two stone tablets called the Ten Commandments. It was lost to history and has never been re-discovered, but archaeologists suspect that it could be at the ancient site of Kiriath-Jearim in West Jerusalem. Researchers from France and Israel are getting together to search for this historical artifact. They believe the Ark rests in a Biblical site that has not yet been extensively explored. Kiriath-

By Jeffrey Heller

JERUSALEM (Reuters) - A law to muffle mosques' amplified calls to prayer in Israel and occupied East Jerusalem won preliminary approval on Wednesday in a charged parliamentary session where Arab legislators denounced the measure as racist.

Supporters of the bill say it is aimed at improving the quality of life of people living near mosques who have been losing sleep. The calls usually begin sounding a little before 5 A.M. through loudspeakers mounted on minarets

Opponents say the legislation, sponsored by right-wing parties, impinges on the religious

WikiLeaks has published what it claims is the largest ever batch of confidential documents on the CIA, revealing the breadth of the agency's ability to hack smartphones and popular social media messaging apps such as WhatsApp.

A total of 8,761 documents have been published as part of 'Year Zero', the first part in a series of leaks on the agency that the whistleblower organization has dubbed 'Vault 7.'

In a statement WikiLeaks said 'Year Zero' revealed details of the CIA's "global covert hacking program," including "weaponized exploits" used against company products

## "The Reality Is, Half Of Americans Can't Afford To Write A \$500 Check"

by Tyler Durden  
Mar 6, 2017 9:17 PM

11.4K  
SHARES

---

The CEO of Assurant appeared on Bloomberg TV to explain why demand for his services is likely to increase: the chief executive of the mobile phone insurer said he expects a surge in demand as carriers charge customers more to replace their devices. "If you think back five years ago, you as a consumer didn't know how much that phone cost, you thought it was free or close to free," Assurant's Alan Colberg said Monday. "Now you're paying \$600, that's a lot. So we've actually seen the attachment rate, or the number of people buying the product, going up a little bit in the last couple of years."

He then proceeded to give Bloomberg his traditional sales pitch: Assurant is counting on growth at its business covering phones and appliances to help counter a decline in the segment that insures foreclosed homes for lenders. While improvement in the real estate market has limited the number of vacant homes, Colberg said there are still many cash-strapped consumers.

It is what he said next that caught our attention: "**The reality is, half of Americans can't afford to write a \$500 check,**" Colberg said. He spun that stunning statistic by saying that when US customers sign up for a cellular plan, they're willing to buy protection in case "*they lose that phone or something happens to it.*"

In other words, there are millions of Americans who don't have \$500 in the bank but are

## A Third Of All U.S. Shopping Malls Are Projected To Close As 'Space Available' Signs Go Up All Over America

By Michael Snyder, on March 6th, 2017

If you didn't know better, you might be tempted to think that "Space Available" was the hottest new retail chain in the entire country. As you will see below, it is being projected that about a third of all shopping malls in the United States will soon close, and we just recently learned that the number of "distressed retailers" is the highest that it has been since the last recession. Honestly, I don't know how anyone can possibly believe that the U.S. economy is in "good shape" after looking at the retail industry. In my recent article about the ongoing "retail apocalypse", I discussed the fact that Sears, J.C. Penney and Macy's have all announced that they are closing dozens of stores in 2017, and you can find a pretty comprehensive list of 19 U.S. retailers that are "on the brink of bankruptcy" [right here](#). Needless to say, quite a bloodbath is going on out there right

## This Region Of The World Is Being Hit By The Worst Economic Collapse It Has Ever Experienced

By Michael Snyder, on March 7th, 2017

The ninth largest economy in the entire world is currently experiencing "its longest and deepest recession in recorded history", and in a country right next door people are being encouraged to label their trash so that the thousands upon thousands of desperately hungry people that are digging through trash bins on the streets can find discarded food more easily. Of course the two nations that I am talking about are Brazil and Venezuela. The Brazilian economy was once the seventh largest on the globe, but after shrinking for eight consecutive quarters it has now fallen to ninth place. And in Venezuela the economic collapse has gotten so bad that more than 70 percent of the population lost weight last year because of a lack of food. Most of us living in the northern hemisphere don't think

- Although these motions against "Islamophobia" are not legally binding, extremists have already started demanding them as laws.
- People in hostile societies put their lives at risk by speaking against the majority; meanwhile, shutting out any criticism against hardliner behaviour in the West actually means giving extremists a license to keep on committing atrocities.
- Motions such as these are how most Muslim societies -- and other authoritarian states -- were founded: by depriving citizens of the basic right to express a difference of opinion, and worse, on the pretense of "doing good." The blasphemy laws of Pakistan were introduced on the premise of protecting the sanctity of the people's religious beliefs, but the laws only ended up meting out public death sentences to innocent and marginalized victims.

.....

A resolution, M-103, seeking to condemn so-called "Islamophobia," was introduced a few weeks ago in the peaceful country of Canada by Liberal Party MP **Iqra Khalid** in the House of Commons, sparking a controversy.

A similar motion, labelled M-37, was later tabled in the Ontario provincial legislature by MPP Nathalie Des Rosiers on February 23, 2017, and was passed by the provincial parliament.

## Texas High School Makes Room Available for Muslim Students to Hold Friday Prayers

By Heather Clark on March 10, 2017 · 80 Comments

**FRISCO, Texas** — A high school in Texas has made one of its classrooms available for Muslim students to hold Friday or Jummah prayers after some students were leaving campus each week to participate in the prayers.

"[I]t kind of started when a core group of students were leaving campus every Friday for Friday prayer," Liberty High School Principal Scott Warstler told the school publication Wingspan. "Their parents would come pick them up, so they may miss an hour and a half to two hours to two and a half hours of school every Friday."

By Paul Cameron & Kirk Cameron

Homosexuality is exploding among U.S. teens. Ditto for younger adults.

Meet Us!

General Dentist  
DOWNTOWN CALGARY DENTIST

We Are Accepting  
New Patients

Over the last decade, the relative proportion of U.S. teenagers claiming to be homosexual has increased 85 percent; the relative proportion who have not made up their minds about embracing homosexuality has increased 53 percent; and those claiming interest only in the opposite sex has dropped 6 percent. If you've ever wondered if homosexuality is learned, believe it: The effort of gays, Hollywood, educators and the federal government to homosexualize our youth is working.

Of the 16 million U.S. high-school students today, an extra million are either homosexual or heading in that direction! So say the findings of a gigantic 25-year study by the Centers for Disease Control.

The explosion in high school is swelling homosexuality among younger adults. Gallup reports that in 2012, 43 percent of all adult LGBs were aged 18 to 36. In 2016, 58 percent were. We've gone from 5.8 percent of all adults to 7.3 percent in a veritable twinkling – on pace for 10 percent of adults to be potentially dabbling in homosexuality by our next presidential election!

No society has ever pushed homosexuality to its youth. Indeed, all have tried to protect them from it, (In 1950 a U.S. congressional report called homosexuals dangerous deviants who should not be allowed near youth in government employ.) From gay pride parades, to Disney secreting "little gay messages" into its films, to the CDC recommending

## Wyoming Supreme Court Censures Judge for Telling Media She Couldn't Do 'Gay Weddings'

By Heather Clark on March 8, 2017 - 131 Comments

**CHEYENNE, Wy.**

— The Wyoming Supreme Court has rejected an effort to remove from the bench a local judge who is under fire for making comment to the media three

years ago that, as a Christian, she couldn't officiate same-sex unions. It has instead decided that public censure, or a statement of disapproval, is warranted.

While the court did find Judge Ruth Neely's words to be a violation of the Wyoming Code of Judicial Conduct, it did not believe that she had committed any acts worthy of removal.

"Judge Neely has not violated a clear procedural rule governing the performance of her legal duties. As a municipal court judge, she had no authority to perform marriages. As a part-time circuit court magistrate, she

*Indiana parents are furious after eighth-graders at Lincoln Junior High School were exposed to a classroom lesson on sexual orientation, gender expression and gender identity issues - without being notified in advance by the school district. (Public Domain)*

Indiana parents are furious after eighth-graders at Lincoln Junior High School were exposed to a classroom lesson on sexual orientation, gender expression and gender identity issues—without being notified in advance by the school district.

The 12-year-olds were required to watch a video titled, "LGBTQ: Understanding Sexual Orientation and Gender Identities." They were also required to answer a questionnaire with all sorts of probing questions.

فلهذا اطلب أن نصلي ونستعد ونعد زيت لمصاييحنا لاستقبال العريس بالصلاة والصوم وخدمة

أبناء الله وتنقية القلب والاستعداد بلبس العرس.

رسالة بولس الرسول الي أهل رومية 13

13: 11 هذا وأنكم عارفون الوقت انها الان ساعة لنستيقظ من النوم فان خلاصنا الان أقرب مما

كان حين امنا

13: 12 قد تناهى الليل وتقارب النهار فلنخلع اعمال الظلمة ونلبس اسلحة النور

13: 13 لنسلك بلياقة كما في النهار لا بالبطر والسكر لا بالمضاجع والعهر لا بالخصام والحسد

13: 14 بل البسوا الرب يسوع المسيح ولا تصنعوا تدبيرا للجسد لأجل الشهوات

احترس ان لم تتمسك بالمسيح من الان قد لا تستطيع في المستقبل القريب بسبب الظلام.

وكما قلت هو اخبرنا لكي لا نخاف

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب انظروا لا ترتاعوا لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

بطرس الأولى 3: 14

وَلَكِنْ وَإِنْ تَأَلَّمْتُمْ مِنْ أَجْلِ الْبِرِّ، فَطُوبَاكُمْ. وَأَمَّا خَوْفُهُمْ فَلَا تَخَافُوهُ وَلَا تَضْطَرُّوْا،

بل نؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

افرحوا لان عريسنا قد اقترب مجيؤه. وانتبهوا الشيطان يريد أن نفقد سلامنا ولا ننال أكاليل.

وأيضاً استعدوا فقد تسلموا وديعتكم في أي وقت فهناك 150 ألف شخص يموتوا في اليوم الواحد

انت لا تعرف متى ستكون منهم

المسيح اقترب فاصنعوا ثمار تليق بالتوبة واستعدوا لاستقبال العريس.

والمجد لله دائماً
