والعلامات حتى 25 ابريل 2017

Holy_bible_1

اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيقه اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقه لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض

ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي

المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما

انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

ACTIVE SUNSPOT RETURNS: During the late hours of April 17th, something hurled a plume of hot gas over the eastern limb of the sun. NASA's Solar Dynamics Observatory photographed the splash:

The source of this activity is probably returning sunspot AR2644. In early April [the active region](#) produced a series of M-class solar flares and shortwave radio blackouts. Now, following a two week trip around the farside of the sun, AR2644 is due to return. Amateur astronomers with [solar telescopes](#) are encouraged to monitor the sun's eastern limb for signs of the old sunspot. If it returns with any of its old potency, solar flare activity could increase sharply in the days ahead.

6.0 earthquake strikes northern Peru, felt throughout region

By Associated Press April 18 at 2:50 PM

LIMA, Peru — A 6.0 magnitude earthquake has struck an Amazonian region of northern Peru. There were no immediate reports of damage or injuries, though the quake could be felt strongly as far away as Colombia and Ecuador.

The U.S. Geological Survey reports the tremor occurred early Tuesday afternoon in a sparsely populated area 263 kilometers (163 miles) northeast of the Peruvian city of Iquitos.

In Ecuador's capital city of Quito people fled buildings and congregated in plazas after feeling the quake.

The earthquake comes days after Ecuador commemorated the first anniversary of a 7.8 magnitude earthquake that left nearly 700 dead.

By 2020 Two-Thirds Of Wild Animals Will Have Been Wiped Out Over A 50 Year Period As Mass Die-Offs Accelerate All Over The Planet

By Michael Snyder, on April 18th, 2017

It has been called "the long extinction". Our planet is in the process of dying, and as you will see below, this process of death and destruction appears to be accelerating. According to a report that was put out by the World Wildlife Fund and the Zoological Society of London, the number of wild animals around the globe appears to be decreasing at a rate of about 2 percent a year. 2 percent may not sound like a lot to you, but over 10 years that would mean that 20 percent of all wild animals in the world would be gone. And according to that same report, it is being projected that the total loss of wildlife during the 50 year period from 1970 to 2020 will be a staggering 67 percent...

CHICAGO (CBS) — Anglers stumbled across a huge number of dead [perch](#) this week at a popular fishing spot on the Far South Side.

Pictures taken Tuesday at the 2,000-foot ship slip in what was once the U.S. Steel South Works at 85th Street on the lakefront showed thousands of dead perch piled up on the west end of the slip, often used by fishermen.

By Thursday, the fish were mostly gone, as seagulls were swooping down to eat what was left. Hundreds of mergansers – fish-eating ducks – also were drawn to the slip, presumably for an easy meal.

One fisherman wondered if the birds were in any danger from whatever killed the [fish](#).

Photos of the dead fish were shared with the Illinois Department of Natural Resources, and a conservation officer said the fish kill was under investigation.

Dead fish spotted in Kali Bein again

29
SHARES

Dead fish found floating in Kali Bein at Sultanpur Lodhi in Kapurthala district. Tribune Photo

Tribune News Service Jalandhar, April 7

In a grim repeat of 2015, thousands of fish turned up dead at the holy Kali Bein days ahead of Baisakhi. After the fish were found floating, teams of the PPCB, Fisheries Department, MC chief and Sultanpur Lodhi MLA Navtej Cheema rushed to the spot.

While the restoration of the Kali Bein's flow was solely due to the efforts of Sant B S Seechewal, the dead fish once again exposes the administration's apathy towards the cause of water conservation.

Seechewal blamed the unfortunate incident on criminal official negligence. While officials

At least 11 hippos found dead in Zimbabwe – report

2017-04-09 20:30

Binga – At least 11 hippos have reportedly been found dead in Zimbabwe's Mlibizi district in Binga.

According to **New Zimbabwe.com**, the carcasses were "recovered at different points in the Kavira forest and along Mlibizi River, near the Mighty Zambezi River".

The cause of the animals' death was not yet established and investigations continued.

Meanwhile, villagers were said to be feasting on the carcasses, obviously unaware of possible health hazards.

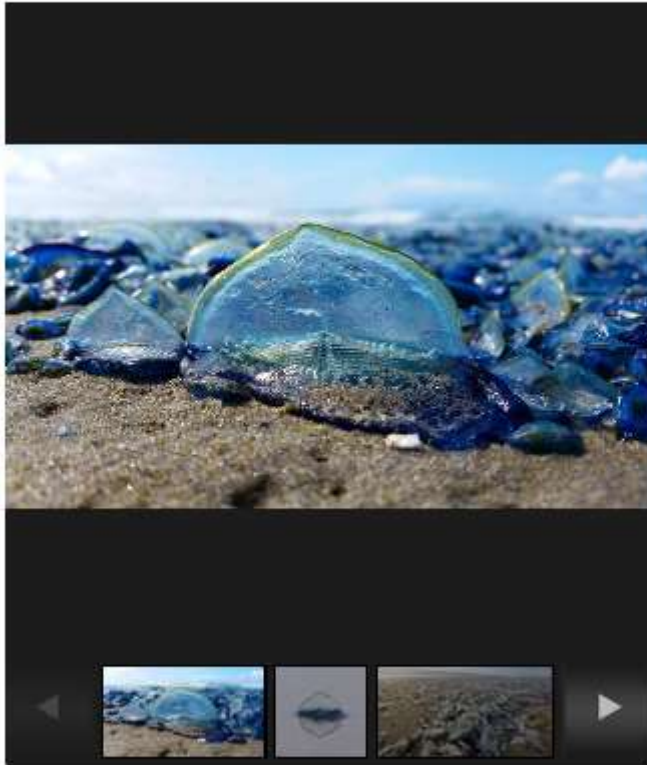

Last year the Kariba Animal Welfare Trust, helped local residents and rangers from Zimbabwe's Parks and Wildlife Management Authority **extract two hippo calves from holes they'd tumbled into in February and March.**

Japan PM urges North Korea to refrain from more provocative actions

Reuters April 17, 2017

TOKYO (Reuters) - Japanese Prime Minister Shinzo Abe urged North Korea on Monday to refrain from taking further provocative actions, comply with U.N. resolutions and abandon its nuclear missile development.

Tensions on the Korean peninsula have escalated as U.S. President Donald Trump takes a hard rhetorical line with North Korean leader Kim Jong Un, who has rebuffed admonitions from China and proceeded with missile tests.

North Korea launched a ballistic missile on Sunday but it blew up almost immediately, the U.S. Pacific Command said.

Abe told parliament he would exchange views on North Korea with Russian President Vladimir Putin when they hold a summit meeting later this month.

He also said the government was considering measures to respond to contingencies stemming from a potential crisis on the Korean peninsula, including floods of refugees and how to evacuate Japanese citizens from South Korea.

"We assume a series of responses in case of evacuees into Japan, such as protecting them, a process of landing, housing facilities and their management, and a screening whether

Two Japanese Navy destroyers have joined the carrier strike group 'USS Carl Vinson' heading towards the Korean Peninsula for a massive show of force as North Korea prepares to mark the 85th anniversary of the foundation of its military.

The Japanese warships, destroyers 'Ashigara' and 'Samidare', left the navy's Sasebo base early on Friday for a rendezvous with the 'USS Carl Vinson' group off North Korean shores, NHK reports.

Defense Ministry officials said the details of the joint US-Japan naval exercise are yet to be determined. The drill comes as an apparent show of force aimed at deterring North Korea, which will mark the 85th anniversary of the foundation of its military next week.

NORTH Korea has warned "nuclear war could break out at any moment" as the country vowed to test missiles WEEKLY.

The country's foreign minister threatened the US with an "all out war" if Trump is "reckless enough to use military means" in a terrifying show of force from the hermit state.

North Korea may now possess between 10 and 25 nuclear weapons

APRIL 19, 2017

Three weeks before becoming president, Donald Trump weighed in on the threat of North Korea developing a nuclear warhead capable of reaching the U.S.: "It won't happen," **he vowed** on Twitter. Now planners are contemplating what a U.S. strike to prevent that development might look like, and the options are grim. Analysts estimate North Korea may now possess between 10 and 25 nuclear weapons,

North Korea is making rapid progress on developing submarine-launched ballistic missiles and missile-firing submarines, according to a report by a United Nations panel of experts.

"Rapid technological developments have taken place over a short period, resulting in significant progress towards an operational submarine-launched ballistic missile system," the eight-member U.N. panel of experts stated.

The report provides new details on Pyongyang's development of a submarine-launched missile called the KN-11.

"The shift from liquid- to a solid-fuel engine for the KN-11 is a major technological development, affording greater stability, quicker preparation and longer fuel storage," the report states.

The report provided photographs of the Gorae-class submarine used to launch the missile.

DEVELOPING: Russia reportedly moving weapons towards North Korean border

APRIL 17, 2017

Russia has reportedly moved weapons towards Vladivostok, just eight miles from the border with North Korea. The city is within striking distance of Kim Jong-un's secretive state. Although unconfirmed by the Russian government, the movement of tanks and missiles was spotted by terrified people living in the border city and posted on social media. According to reports, the military convoy caught on camera included eight surface-to-air missiles, all part of Russian Air Defence.

North Korea has warned Australia of a possible nuclear strike if it continues to "blindly and zealously toe the US line." It comes after Australian Foreign Minister Julie Bishop said Pyongyang poses a "serious threat" to peace and stability in the region.

"If Australia persists in following the US moves to isolate and stifle the DPRK and remains a shock brigade of the US master, this will be a suicidal act of coming within the range of the nuclear strike of the strategic force of the DPRK," a spokesman for the North Korean Foreign Ministry said, as quoted by the official KCNA news agency.

The threat comes after Bishop said earlier this week that North Korea is on a "path to

US Marines have begun to touch down in Darwin, in Australia's tropical north, as the first of some 1,250 "stand ready to fight" against North Korea amid warnings that Pyongyang's nuclear weapons program is a "serious threat" to Canberra.

The deployment will see the largest US aircraft contingent to Australia in peacetime history, Reuters reports, adding that the 25-year annual deployment program was launched by former US President Barack Obama back in 2011 as part of America's 'pivot' to Asia. During the six-month deployment, US Marines will conduct exercises with Australian troops and will also visit Chinese forces.

North Korean mock-up birthday video shows missiles blowing up U.S.

By Ju-min Park
Reuters April 19, 2017

By Ju-min Park

SEOUL (Reuters) - North Korea put on a musical show to mark the birthday of founding father Kim Il Sung, which ended with a mock-up video of missiles engulfing the United States in flames, prompting cheers from the audience and smiles from current leader Kim Jong Un.

North Korea's state television aired footage of a choral performance attended by Kim Jong Un, the elder Kim's grandson, on Sunday, a day after a huge military parade in Pyongyang, which also marked the 105th birth anniversary of Kim Il Sung.

The singing was followed by footage of its test-firing of a missile in February which, in the video, was joined by other missiles shooting into sky, passing over the Pacific and exploding in giant balls of flames in the United States.

The video ended with a picture of the American flag in flames, overlapping row after row of white crosses in a cemetery. (<http://reut.tv/2orqo6d>)

"When the performance was over, all the performers and participants in the military parade broke into enthusiastic cheers of 'hurrah!'," state run KCNA news agency said.

N. Korea apparently slams China for stepped-up sanctions

2017/04/22 11:47

SEOUL, April 22 (Yonhap) – North Korea has apparently asked China not to step up anti-North sanctions, warning of "catastrophic consequences" in their bilateral relations.

Pyongyang issued the warning through commentary written by a person named Jong Phil on its official Korean Central News Agency (KCNA), which was released Saturday.

It's rare for Pyongyang's media to level criticism at Beijing, though the KCNA didn't directly mention China in the commentary titled "Are you good at dancing to the tune of others" and dated Friday.

The commentary instead called the nation at issue "a country around the DPRK," using North Korea's official name, the Democratic People's Republic of Korea.

"Not a single word about the U.S. act of pushing the situation on the Korean peninsula to the brink of a war after introducing hugest-ever strategic assets into the waters off the Korean peninsula is made but such rhetoric as 'necessary step' and 'reaction at decisive level' is openly heard from a country around the DPRK to intimidate it over its measures for self-defense," the commentary's introduction in English read.

NUCLEAR

UNITED NATIONS

The warning comes as the Pentagon begins an extensive review of its nuclear arsenal.

On Sept. 26, 1983, shortly after midnight, the Soviet Okean nuclear early warning system detected five missiles launched from the United States and headed toward Moscow. Stanislav Petrov, a young lieutenant colonel in the Soviet Air Defense Force, was the duty in the **Serpukhov-15** bunker that housed the Okean command center. Petrov was the man in charge of alerting the Soviets about a nuclear attack, which would trigger a retaliatory strike. He determined that the Okean had likely malfunctioned and the alarm was false. The Americans would not start World War III with a quintet of missiles (risking total annihilation.) It was a daring judgment call. He was, of course, right. As the U.S. prepares to undertake a new nuclear posture review to determine the future direction of the nation's nuclear weapons, a report from a United Nations research institute warns that the risks of a catastrophic error — like the one that took place that early morning in 1983 — are growing, not shrinking. Next time, there may be no Lt. Col. Petrov in place to avoid a catastrophe.

On Monday, the U.S. Defense Department commenced a new, massive study into its nuclear weapons arsenal, looking at how weapons are kept, how the U.S. would use them in war and whether they present an intimidating enough threat to other countries not to attack us. The review was mandated by President Trump in a **Jan 27, memo**.

The Pentagon is scheduled to complete the review by the end of the year, an

The Trump administration is reviewing US policy towards Iran, Secretary of State Rex Tillerson announced, accusing Tehran of sponsoring terrorism and violence and destabilizing numerous countries in the Middle East.

"Whether it be assassination attempts, support of weapons of mass destruction, deploying destabilizing militias, Iran spends its treasure and time disrupting peace," Tillerson said, adding, *"An unchecked Iran has the potential to travel the same path as North Korea – and take the world along with it."*

"Iran is the world's leading state sponsor of terrorism, and is responsible for intensifying multiple conflicts and undermining US interests in countries such as Syria, Yemen, Iraq and Lebanon, and continuing to support attacks against Israel," Tillerson told reporters at the State Department on Wednesday.

3 killed in shooting at Russian intelligence agency's office

Published April 21, 2017 • Associated Press

MOSCOW – An armed man killed two people and injured another before he was shot dead at the office of Russia's FSB intelligence agency in the Far East on Friday.

The FSB, the main successor to the KGB, said in a statement that the man passed by metal detectors, entered the reception area of its office in the regional capital of Khabarovsk and opened fire.

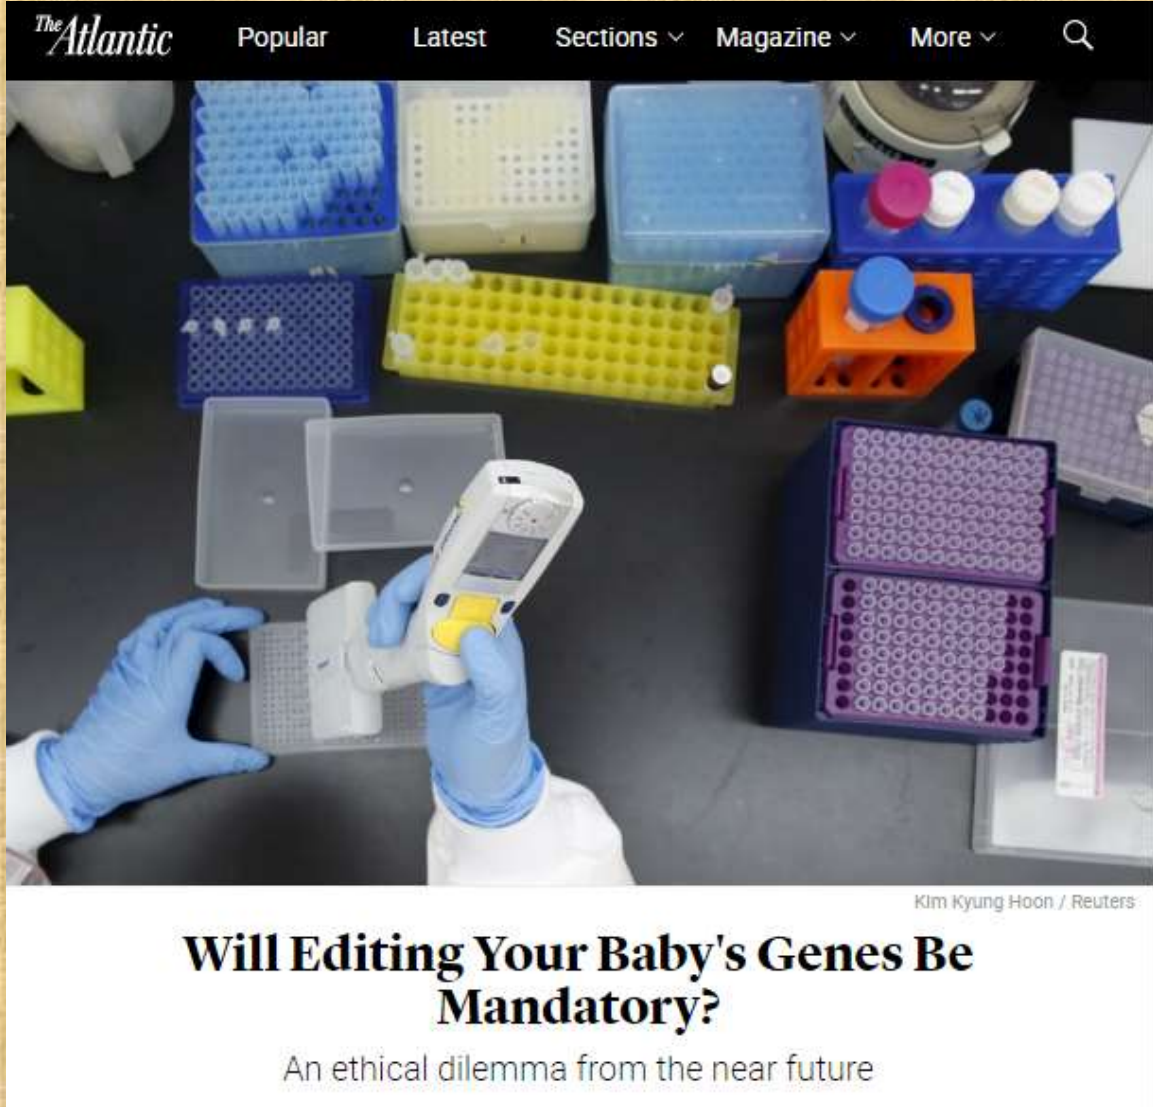

One FSB officer and one visitor were killed on spot and one was wounded. Security fired back, killing the attacker.

The FSB later identified the man as a local resident aged between 17 and 18 and said it had information that he was a member of neo-Nazi gang.

Social media users posted pictures of police cordons around the FSB building in Khabarovsk with special forces standing by.

From corn to cattle, gene editing is about to supercharge agriculture

Dyllan Furness

Digital Trends April 17, 2017

Agriculture has come a long way in the past century. We produce more food than ever before — but our current model is unsustainable, and as the world's population rapidly approaches the 8 billion mark, modern food production methods will need a radical transformation if they're going to keep up. But luckily, there's a range of new technologies that might make it possible. In [this series](#), we'll explore some of the innovative new solutions that farmers, scientists, and entrepreneurs are working on to make sure that nobody goes hungry in our increasingly crowded world.

Corn isn't the sexiest crop but it's one of the most important. It's the most abundant grain on Earth, used as food and biofuel around the globe. In ancient times, Mesoamericans thrived on it, waged wars over it. Their myths claimed corn was the matter from which gods created mankind itself.

But, just as corn helped create these civilizations, these civilizations helped create corn through meticulous selective breeding. Today's grain hardly resembles its ancestors. Compared to the wild plant first cultivated by ancient Mexicans some ten thousand years ago, modern corn is a super mutant.

And yet, after all those thousands of years of cultivation, just two main genes are [thought to be responsible](#) for the evolution of the corn we eat today. Selective breeding is painstakingly slow and imprecise.

But that's all about to change.

New gene editing tools like CRISPR/Cas9 now let scientists hack into genomes, make precise incisions, and insert desired traits into plants and animals. We'll soon have corn with

The Independent Online

The new technology may enable handicapped people, who have lost the ability to speak, to communicate again

A device that can read people's minds by detecting their brainwaves has been developed in a breakthrough that could eventually enable people with "locked-in syndrome" to communicate.

The system was only partially effective with a 90 per cent success rate when trying to recognise numbers from zero to nine and a 61 per cent rate for single syllables in Japanese,

Meet the SUPERHUMANS: Researchers reveal how technology will turn future factory workers into cyborgs sooner than you think

- Robots have taken over dangerous and repetitive tasks, improving factory safety
- The next phase of labor innovation will do the same thing for cognitive work
- It will remove mentally stressful and repetitive tasks from people's daily routines
- Researchers claim robots and people will work more closely together than ever
- This will involve tech-augmented human workers, both in factories and in offices
- One type of enhancement would let workers wear robotic exoskeletons, letting them handle heavy objects without losing the flexibility of human movement

The Fourth Industrial Revolution has arrived.

The first was the steam engine-driven Industrial Revolution; the second involved the innovations from Henry Ford's assembly line.

Third, microelectronics and computer power appeared on factory floors.

UPDATE: Multiple Cities Hit With Simultaneous Power Grid Failures...

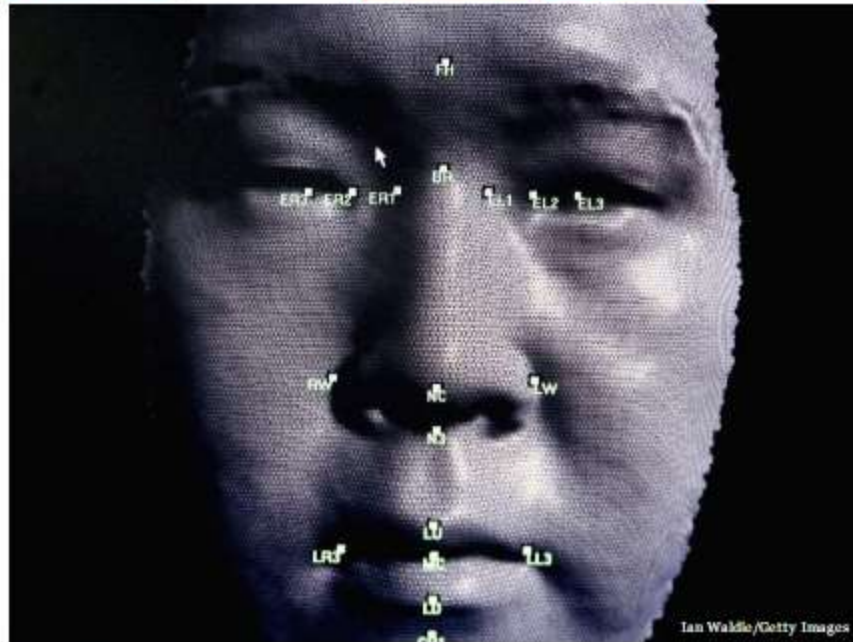

APRIL 22, 2017

The U.S. power grid appears to have been hit with multiple power outages affecting San Francisco, New York and Los Angeles. Officials report that business, traffic and day-to-day life has come to a standstill in San Francisco, reportedly the worst hit of the three major cities currently experiencing outages. Power companies in all three regions have yet to elaborate on the cause, though a fire at a substation was the original reason given by San Francisco officials.

Caracas (AFP) - Venezuelan President Nicolas Maduro has ordered the army into the streets as the volatile country braces for what his opponents vow will be the "mother of all protests" on Wednesday.

Maduro, who has faced violent protests over recent moves to tighten his grip on power, ordered the military to defend the leftist "Bolivarian revolution" launched by his late mentor Hugo Chavez in 1999.

By Ingrid Melander and Philippe Wojazer

PARIS (Reuters) – French far-right leader Marine Le Pen urged supporters six days ahead of the presidential election to rally behind her, saying the country's most unpredictable vote in decades was a choice between her rivals' "savage globalization" and her patriotism.

Opinion polls have for months shown Le Pen and centrist Emmanuel Macron qualifying this Sunday for the May 7 run-off, but the gap with conservative Francois Fillon and far-leftist Jean-Luc Melenchon has been tightening.

LONDON – Are you handy enough that if a lightbulb went out in your home you'd be able to change it? Believe it or not, one in five people aren't so skilled. In fact, a new survey of people in the United Kingdom finds not only do about 20 percent of people not know how to change a bulb – the same number aren't sure how to boil an egg, either.

The British insurance company Aviva recently released their annual Home Report which detailed, among numerous findings about how people do work around the house, relatively common tasks that people encounter. The company surveyed 2004 people across the UK in February and March about their habits and roles at home.

In addition to just one in five not being able to change a lightbulb or boil an egg, the survey found that nearly a third of the

Teen fashion retailer Rue21 is making it hard to figure out which of its stores are closing. So we've put together a list based on our own reporting and from other sources on the Web.

The chain plans to close up to 400 stores, the Associated Press reports, out of 1,218 in 48 states.

"It's true – we are closing some stores," Rue21 tweeted to followers over the weekend. "It was a difficult but necessary decision."

"The Changing Global Religious Landscape"

PEW RESEARCH CENTER

Christians remained the largest religious group in the world in 2015, making up nearly a third (31%) of Earth's 7.3 billion people, according to a **new Pew Research Center demographic analysis**. But the report also shows that the number of Christians in what many consider the religion's heartland, the continent of Europe, is in decline.

Christians had the most births and deaths of any religious group in recent years, according to our demographic models. Between 2010 and 2015, an estimated 223 million babies were born to Christian mothers and roughly 107 million Christians died – a natural increase of 116 million.

A Muslim man entered a private gathering of Christians in a hotel ballroom in South Dakota, started cursing and livestreaming video on Facebook of the event and then, after he was ushered out, displayed multiple firearms and issued statements the speakers say were a direct threat to their safety.

The man, wearing a t-shirt that said, "I'm American, I'm a Muslim, I open carry, I conceal carry, and I'm dangerous only if you're stupid," was approached by a security guard and told to leave.

Erdogan's Enhanced Powers:
'Terrible News' for Turkish
Christians

By weakening Turkey's democracy, Turkish President Recep Tayyip Erdogan has ensured the continued erosion of conditions for Christians, Jews and other religious minorities in the Muslim majority nation.

If the referendum, narrowly approved by voters stands, Erdogan will gain executive, legislative and judicial powers. Serious allegations of voter fraud have been launched by international monitors and his political opponents have already vowed to appeal the vote.

"There are hundreds of cases of ballot box stuffing. What's even more scandalous is the Supreme Council of Election changed the rules of counting over an hour into the counting which is always an embarrassing smoking gun for the government," Dr. Aykan Erdemir tells Beltway Buzz.

أبناء الله وتنقية القلب والاستعداد بلبس العرس.

رسالة بولس الرسول الي أهل رومية 13

13: 11 هذا وأنكم عارفون الوقت انها الان ساعة لنستيقظ من النوم فان خلاصنا الان أقرب مما كان حين امنا

13: 12 قد تنهى الليل وتقارب النهار فلنخلع اعمال الظلمة ونلبس اسلحة النور

13: 13 لنسلك بلياقة كما في النهار لا بالبطر والسكر لا بالمضاجع والعهر لا بالخصام والحسد

13: 14 بل البسوا الرب يسوع المسيح ولا تصنعوا تدبيرا للجسد لأجل الشهوات

احترس ان لم تتمسك بالمسيح من الان قد لا تستطيع في المستقبل القريب بسبب الظلام.

وكما قلت هو اخبرنا لكي لا نخاف

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

بطرس الأولى 3: 14

وَلَكِنْ وَإِنْ تَأَلَّمْتُمْ مِنْ أَجْلِ الْبِرِّ، فَطُوبَاكُمْ. وَأَمَّا خَوْفُهُمْ فَلَا تَخَافُوهُ وَلَا تَضْطَرُّوْا،

بل نؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.».

افرحوا لان عريسنا قد اقترب مجيؤه. وانتبهوا الشيطان يريد أن نفقد سلامنا ولا ننال أكاليل.

وأيضاً استعدوا فقد تسلموا وديعتكم في أي وقت فهناك 150 ألف شخص يموتوا في اليوم الواحد

انت لا تعرف متى ستكون منهم

المسيح اقترب فاصنعوا ثمار تليق بالتوبة واستعدوا لاستقبال العريس.

والمجد لله دائماً
