اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيق اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض

ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي

المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما

انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

A brilliant fireball streaked through the night sky over southern Arizona, US around 03:32 UTC on September 24, 2017 (20:32 MDT, September 23). The event lasted about 12 seconds and produced a sonic boom picked up by a seismometer near Tucson.

The American Meteor Society (AMS) received 35 reports of a fireball seen over Arizona and New Mexico. 6 eyewitnesses reported hearing a sound associated with the event, 3 delayed and 3 concurrent, while 12 of them reported seeing fragmentation.

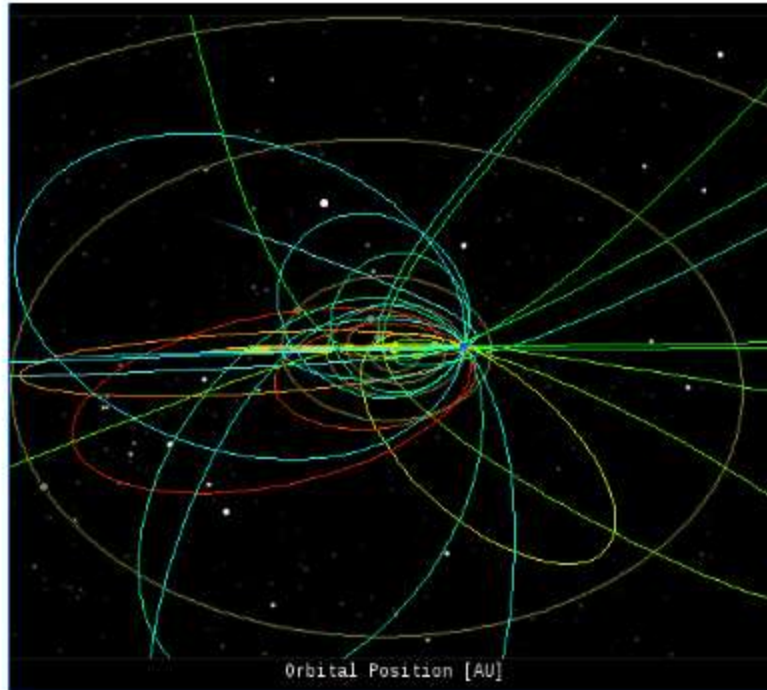

The object was captured by all-sky cameras at Kitt Peak National Observatory, Mount Lemmon Observatory, and the MMT Observatory.

Nearly 50 000 people living near Agung volcano in Bali, Indonesia have been evacuated following an increasing unrest detected since August 10, 2017.

Evacuations have taken place in an area of up to 12 km (7.4 miles) around the volcano. According to the ARISTOTLE emergency report, the increasing unrest does not necessarily mean that an eruption will take place, nor it can give precise indications on when/if this would happen. However, historical data shows that the eruptions of this volcano were of a big magnitude.

As of September 24, nearly 35 000 people have been evacuated from their homes and dispersed across 238 locations in seven districts in Bali.

Indonesia's disaster management agency (BNPB) said Monday morning, September 25 that the

Yemen cholera outbreak now the world's largest on record, approaching 1 million

Posted by TW on September 28, 2017 in categories [Epidemics](#), [Featured articles](#) Follow [@TheWatchers_](#)

Yemen's 5-month old cholera crisis is now the world's largest outbreak since records began, Oxfam International said today as the number of suspected cases rose to over 755 000. From August 25 until September 27, there has been an average of 5 750 daily cases, so at this rate, the number of suspected cholera cases will reach one million in less than eight weeks.

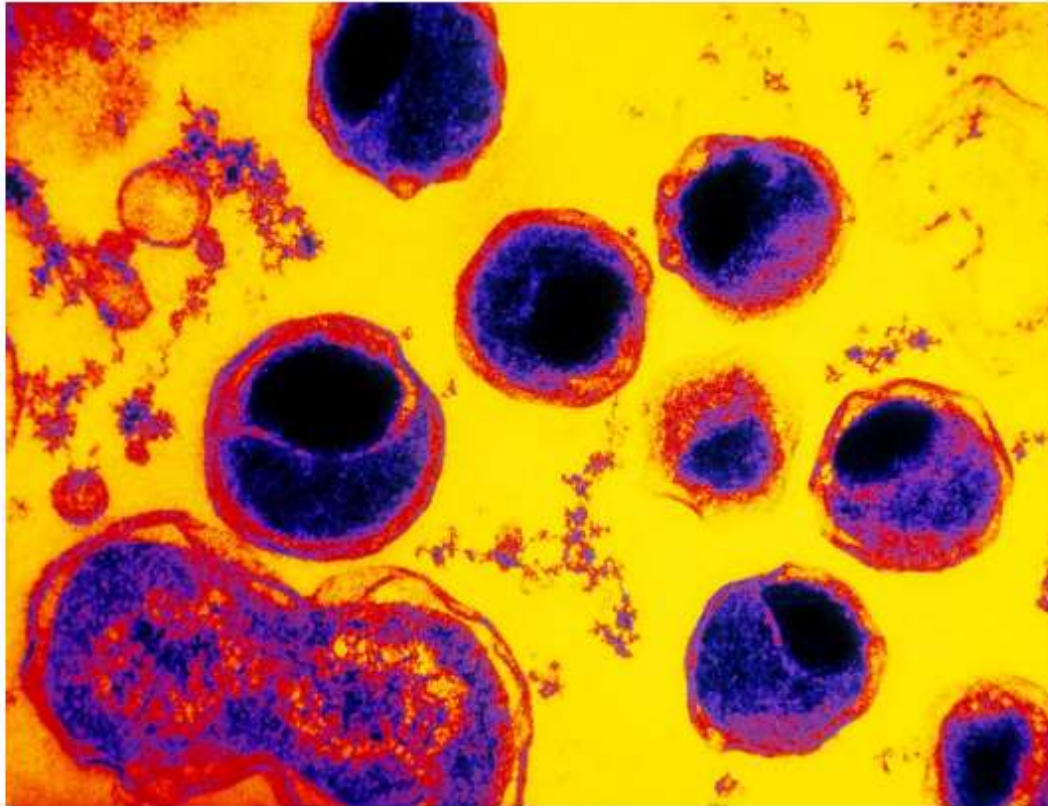

The Yemen outbreak has overtaken the 754 373 suspected cases recorded in Haiti in the six years between 2010 and 2015. Over 2 100 people have already died from cholera, and while the spread of cholera has slowed slightly, it is still spreading fast and at current rates of increase, the number of suspected cases would reach a million by November.

While cholera isn't new to Yemen, the scale of this outbreak is unprecedented and is being driven by a two-and-a-half year conflict, a borderline famine, and entrenched poverty. Over half of all health

Pneumonic plague has been detected in several cities in Madagascar, WHO reports. This form of plague is highly transmissible (person-to-person) and quickly causes death without treatment. At least 19 people have died since August 27.

WHO is concerned that the outbreak may spread because it is already present in several cities and this is just the start of the plague epidemic season, which usually runs from September to April.

Plague is endemic to Madagascar but contrary to past outbreaks, this one affects large urban areas, including the capital and port cities.

With U.S. President Donald Trump and North Korean leader Kim Jong Un trading insults and threatening war, California officials are taking the threat of nuclear exchange seriously.

Noting the heightened North Korean threat, the Los Angeles-area Joint Regional Intelligence Center issued a bulletin last month warning that a nuclear attack on Southern California would be “catastrophic” and urged officials in the region to shore up their nuclear attack response plans.

In the latest sign that China is moving to dramatically limit its exposure to its restive neighbor and long-time economic dependent, **Chinese authorities on Thursday ordered all North Korean firms to stop doing business in the world's second-largest economy**, fulfilling Beijing's obligations according to the latest round of UN Security Council sanctions, which were passed two weeks ago.

The order comes just days after President Donald Trump revealed that the People's Bank of China had asked the country's banks to sever their business ties with North Korea.

Specifically, they were ordered to stop providing financial services to North Korean customers and to wind down existing loans, severing one of North Korea's most reliable connections to the global financial system. It was reported that the banks were warned that continuing to transact with North Korean business could result in embarrassment and economic losses, according to Russia Today.

US Defense Secretary Jim Mattis was the intended target of a rocket attack near an Afghanistan airport on Wednesday, according to the Taliban.

A video has been released showing a militant firing one of the 40 rockets, which killed at least one Afghan woman and injured 11 others.

Another 29 rocket-propelled grenades were fired toward Kabul International airport after Mattis touched down.

Mattis condemned the attack as a 'criminal act by terrorists', adding that it was a 'classic definition of what the Taliban are up to here now'.

The Taliban claimed responsibility and its spokesman, Zabihullah Mujahid, tweeted that Mattis' plane had been the target of the attack.

ISIS have claimed responsibility for a terror attack which saw a man shouting 'Allahu Akbar' stab two women to death with a butcher's knife in Marseille.

The victims, aged 17 and 20, suffered horrific injuries during the 'frenzied' attack, with one slashed in the throat and the other stabbed in the chest and stomach.

Eyewitnesses told how a man 'dressed in black' launched himself at the two women, who screamed for their lives as others ran for safety.

The assailant was gunned down by soldiers who were on patrol inside Saint Charles train station at the time as part of France's ongoing state of emergency.

The suspect, thought to be aged 25 to 30, was known to authorities for common law crimes while analysis of his fingerprints came up with several aliases.

Anti-terror officials said they were investigating 'links to a terrorist organisation' and the 'attempted killing of a public official', the identity of which is currently unknown.

Photographs from the scene showed a woman lying on the ground and armed police standing over the attacker. A white sheet was later placed over his body.

CAIRO, Oct 2 (Reuters) - Islamic State has claimed responsibility for a shooting that killed at least 50 people and wounded over 400 in Las Vegas early on Monday, and said the attacker had converted to Islam a few months ago.

"The Las Vegas attack was carried out by a soldier of the Islamic State and he carried it out in response to calls to target states of the coalition," the group's news agency Amaq said in reference to the U.S.-led coalition fighting the group in the Middle East.

An expert who recently warned that jihad is defeating democracy in the West now says free nations need to prepare for a "comeback" from al-Qaida, the terror group that claimed responsibility for the 9/11 attacks that killed nearly 3,000 people, says a report in Joseph Farah's G2 Bulletin.

Abigail R. Esman, who recently authored "Radical State: How Jihad Is Winning Over Democracy in the West," reported at the Investigative Project of Terrorism that a "bin Laden heir" is instilling new "destructive" energy in the terror group.

The heir is Osama bin Laden's son, Hamza bin Laden, who has been nicknamed the "Crown Prince of Terror."

A Christian bioethics lecturer has spoken out against new DNA surgery carried out by Chinese scientists who are reportedly creating lab-grown human embryos in order to test disease-removing techniques.

"What concerns me and actually quite a number of bio-ethicists and those who are looking and researching in this field is that what we here have is scientists who are deliberately creating human life, deliberately creating embryos. These are not embryos that have been left over as spares from fertility treatments from IVF," Dr. Trevor Stammers, Bioethics lecturer at St. Mary's University in Twickenham, told [Premier](#).

"They've been specifically created to be experimented upon and then destroyed, which is why there are no children who were cured that the Chinese are bringing out. It's just a proof of principle and it's been gained in a way that many people would regard as being unethical."

Most disturbing, but something of which most non-Muslims seem oblivious, is that Islam is the primary source of terrorism and war worldwide and the reason we're sacrificing the lives of precious freedom-loving American men and women every day.

It's A National Bonfire: Fans All Over America Are Burning Jerseys To Show Their Anger With The NFL

By Michael Snyder, on September 26th, 2017

Does the NFL actually think that it can go to war with the national anthem and the American flag and win? Many are trying to frame this controversy as a "protest against Trump", but the truth is that owners, coaches and players can speak out against President Trump any time that they want. They have huge platforms and the mainstream media would soak up every word. So there is absolutely no need to "take a knee" when our national anthem is being played and the American flag is being honored. As I explained [a couple days ago](#), the national anthem and the American flag are symbols that represent the entire country. When someone disrespects those symbols, they are disrespecting our great land, everyone that lives here, and everyone that ever fought, bled and died for America.

Everyone involved with the NFL that participated in that absolutely shameful display on Sunday needs to apologize to all of the rest of us immediately. In 2017, many Americans no longer understand the importance of the national anthem and the flag, but there are still millions of us that do. And the outrage that has been unleashed as a

SALEM, Mass. — The Massachusetts-based Satanic Temple, out of its dissatisfaction with Christian-owned bakeries that decline to make cakes celebrating same-sex “weddings,” is now

asking its followers to force bakers to make a cake for Satan.

The group says that it came up with the idea in light of the [Masterpiece Cakeshop case](#) soon to be considered by the U.S. Supreme Court.

“[B]ecause sexual orientation is not a protected class under the Civil Rights Act of 1964, (whereas race and religion are), there is a good chance that the right to discriminate against gay couples will be affirmed as a constitutional liberty,” it wrote.

Out of the Satanic Temple's fears that the court will likely rule in favor of the cakeshop, it has asked that those “who

Schools across the country have stopped using the terms BC and AD in religious education lessons for fear of offending non-Christians.

The traditional terms BC, Before Christ, and AD, Anno Domini, are being ditched for BCE – Before Common Era, and CE – Common Era.

The new terms still denote the periods before and after the birth of Christ.

Local authority committees drawing up religious education syllabuses say the old terms may upset minorities or non-believers. But critics blasted the move as a 'capitulation to political correctness'.

Aussie worker fired over opposition to same-sex marriage

25 Sep 2017 | [Marriage and the Family](#) | [World](#)

An 18-year-old Christian has lost her job after publicly sharing her opposition to same-sex marriage in Australia on Facebook.

Madeline, who was working as a contractor for Capital Kids' Parties in Canberra, changed her Facebook profile picture to say "It's OK to vote no", in reference to the ongoing postal vote on legalising same-sex marriage.

Madeline speaking to Sky News.

Her employer, Madlin Sims, said this was "homophobic" and could not be tolerated.

'Homophobic'

She said: "Today I fired a staff member who made it public knowledge that they feel 'it's okay to vote no'."

"Advertising your desire to vote no for SSM is, in my eyes, hate speech. Voting no is homophobic. Advertising your homophobia is hate speech."

She added: "It's not okay to vote no."

Sims also claimed that Madeline's views made her a danger to children, adding that she "could not risk her voicing those opinions to any children of ours".
