اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض

ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي

المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما

انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

انجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَأَنْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

Discovery of 'monster planet' stuns scientists

Astronomers have discovered a planet the size of Jupiter orbiting a star that's only half the size of the sun, contradicting theories that a star so small could form a planet so large.

A METEOR MELTS AWAY: On the night of Oct. 26th, sky watchers in Japan witnessed a fireball tearing through the belt of Orion. "It was yellow and very bright," reports Yasushi Aoshima, who captured the dramatic disintegration in a series of rapid-fire photos. Click to watch the meteor melt away:

The swirling wisps in Aoshima's photos are the meteoroid's smokey remains, stretched and twisted by high altitude winds in the upper atmosphere. "I classify this as a 'melting-away type meteor,' says Aoshima.

Another group in Japan, the [SonotaCo Meteor Network](#), used images from multiple cameras to calculate the meteoroid's orbit. They found that it came from beyond the orbit of Mars, a random piece of rocky space debris in the Asteroid Belt. Possibly nudged out of its orbit by the gravity of Jupiter or a collision with a neighboring meteoroid, it fell toward Earth and made a beautiful yellow fireball over Japan.

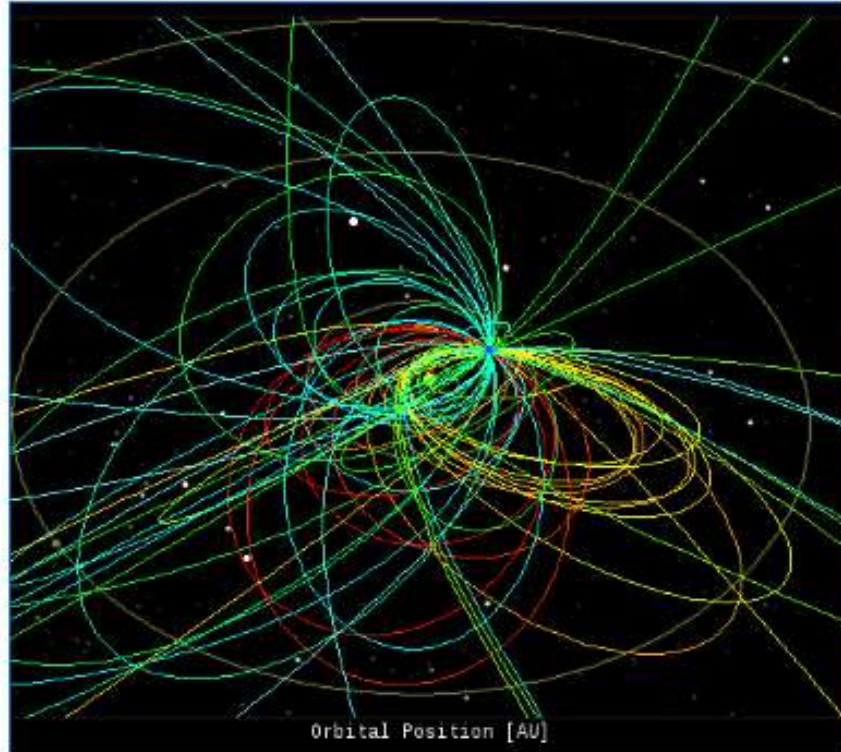

More fireballs are in the offing. Right now, Earth is passing through a broad, sparse stream of debris from Comet Encke, source of the annual [Taurid meteor shower](#). Taurid meteor rates are typically low, only a handful per hour, but the shower compensates for that by being rich in fireballs. Encke's gravelly debris tends to produce beautifully bright meteors like the one Aoshima recorded on Oct. 26th. The northern branch of the Taurid meteor shower peaks on **Nov. 10-11**.

Damrey to slam into southern Vietnam as strongest typhoon in 16 years

[Follow @TheWatchers_](#)

Typhoon "Damrey" is expected to slam into southern Vietnam around UTC midnight on November 4 (07:00 local time) with maximum sustained winds of 140 km/h (86 mph), likely the strongest typhoon to make landfall over southern Vietnam in 16 years. This tropical cyclone is expected to have a high humanitarian impact based on the storm strength and the affected population in the past and forecasted path. Up to 2.4 million people can be affected by wind speeds of cyclone strength or above.

Authorities in Binh Dinh, Phu Yen, Khanh Hoa, Ninh Thuan and Binh Thuan, provinces that are likely to be affected by the typhoon, have developed plans to evacuate a total of 389 143 people, according to the Central Steering Committee for Natural Disaster Prevention and Control.

Earlier on Thursday, the search and rescue committee in Phu Yen already evacuated 759 households

Typhoon "Damrey" hit southern Vietnam on Saturday, November 4, 2017 as the strongest storm to hit that part of the country in 16 years. At least 27 people died and 22 are still missing, as of Sunday morning, November 5.

Damrey made landfall near Nha Trang as a Category 2 hurricane equivalent on the Saffir-Simpson Hurricane Wind Scale. This region, normally spared typhoons that typically hit further north, hasn't experienced a typhoon this strong since Lingling of November 2001.

The wildfires that ravaged parts of California in October caused at least \$3 billion in insured losses, a total of 14 720 damaged or destroyed homes, and nearly 3 200 personal vehicle losses, officials said Tuesday. As of November 2, the death toll stands at 43.

Insurance Commissioner Dave Jones announced Tuesday, October 31 the new total of insured losses from the October wildfires in California now tops \$3 billion. This is a three-fold increase in just two weeks. However, the number is still expected to climb, according to California Department of Insurance officials.

"As shocking as \$3 billion in insured losses are, the number is sure to grow, as more claims are

Thousands of alligators and cattle are currently dying on Bananal Island, Brazil caught in lakes that completely dried up.

It hasn't rained since 140 days in the region. Water and fish populations have almost completely disappeared on the largest river island in the world. Eleven cities have been put in emergency and 27 are others on alert, because of lack of water.

The terrifying video shows apocalyptic images of dried up alligators and cattle caught in mud and waiting for their death near São Félix do Araguaia on Bananal Island. Look at the calf jammed together with a bunch of alligators in the mud:

Iran Threatens Ballistic Missile Strikes on American Forces, Can Hit 'All U.S. Bases'

Iran beefs up missile program as U.S. targets rocket research

A top Iranian military commander has threatened to launch ballistic missile attacks on U.S. forces in the region amid a public effort by the Islamic Republic to show off its advanced missile capabilities, according to U.S. officials and regional reports.

Iranian leaders disclosed that their advanced ballistic missile technology, which could be used as part of a nuclear weapons program, is sophisticated enough to strike U.S. forces up to nearly 1,300 miles, or 2,000 kilometers, away, which encompasses all U.S. bases in the region.

The head of Iran's Islamic Revolutionary Guard Corps,

or IRGC, announced on Tuesday that Iranian missiles can already "cover all U.S. bases in the region" and that Tehran has the capability to increase its missile power even further.

"Based on the policies specified by the Leader [Ayatollah Khamenei], the range of our missiles is limited to 2,000km, but we have the capability to increase the range," IRGC Maj. Gen. Mohammad Ali Jafari said following an announcement by the country's supreme leader that Iranian ballistic missile technology would be capped at this distance for the short term.

While pro-Iran activists cheered the announcement as a sign of moderation on Iran's part, U.S. officials and experts told the *Washington Free Beacon* that the distance cap on these missiles is effectively meaningless since the country's current military technology is capable of striking U.S. forces, a position emphasized by Iranian military leaders.

"At present it [this distance] is sufficient because the Americans are in a 2,000 km radius from our country and their attacks will be responded," Jafari was *quoted* as saying in Iran's state-controlled press outlets.

U.S. military and administration officials told the *Free Beacon* the United States is cementing multiple plans to counter Iran's ballistic missile threat and will continue to pursue these efforts despite Iranian threats of military violence.

"We have consistently maintained that we will work with our allies to change Iran's malign and destabilizing activities," one senior military official told the *Free Beacon*.

Is Saudi Arabia Heading For War With Iran?

By Michael Snyder, on November 6th, 2017

Is a major war in the Middle East looming on the horizon? Most of us living in the western world simply do not realize how much Saudi Arabia and Iran truly hate one another. Saudi Arabia is the global center for Sunni Islam, and Iran is the global center for Shia Islam, and the two major sects of Islam have a history of bad blood that literally goes back for over a thousand years. The Saudis and the Iranians are already engaged in "proxy wars" in Syria and in Yemen, and now a missile that was fired at Riyadh's international airport threatens to turn the conflict between the two regional powers into a hot war.

A bomb squad and a team of technical specialists have been called to the Babel nightclub in central Malmo, police spokesman Magnus Lefèvre said, as cited by SVT. So far it is unclear what type of explosive device was used, but efforts to determine it are under way.

Although the incident took place in the evening, no clubgoers are believed to have been injured in the blast, he said. The motive for the explosion remains as yet

A planned day of protests against President Donald Trump in cities across the nation has some fearing that the marches will be hijacked by violent anarchists - but organizers say they just want to peacefully demonstrate.

The organizers, a group called Refuse Fascism, have vowed to continue the protests 'day and night' in nearly two-dozen cities until their demand is met: the removal of Trump's 'regime'.

'RefuseFascism.org has called for non-violent protests to begin on Saturday, November 4 in cities and towns across the country to raise the single demand: This Nightmare Must End: The Trump/Pence Regime Must Go!' the group said in a statement on its website.

'The plan is for these protests to continue every day until this demand is met,' the statement continued.

Aging and cancer are two harsh but inescapable realities of life as a multicellular organism and while humanity can strive to treat one or the other, eventual death is mathematically guaranteed, according to a new study.

A pair of researchers from the University of Arizona have developed the first general model of the interaction between intercellular competition, aging and the onset and development of cancer in humans. The model asserts that aging is a fundamental and inescapable feature of multicellular life as we know it.

The best way to beat US sanctions against Iran and Russia is joint efforts to dump the American currency in bilateral trade, according to Iranian Supreme Leader Ali Khamenei.

"By ignoring the negative propaganda of the enemies, that seek to weaken relations between countries, we can nullify US sanctions, using methods such as eliminating the dollar and replacing it with national currencies in transactions between two or more parties; thus, isolate the Americans," he said on Wednesday at a meeting with Russian President Vladimir Putin in Tehran.

The gunman who turned a Texas church into a shooting gallery had a turbulent and violent past, including a court-martial from the Air Force for fracturing his baby stepson's skull, an animal cruelty arrest — and a habit of harassing ex-girlfriends.

"He was very sick in the head," Katy Landry, a former girlfriend of Devin Patrick Kelley, told NBC News.

Kelley, 26, arrived at the First Baptist Church in Sutherland Springs on Sunday ready for war, wearing black tactical gear and a ballistics vest and toting what authorities described as an "assault-type rifle." He opened fire, killing 26 people, at least a dozen of them children.

A house-church pastor in China who was jailed by the government for failing to turn over church income to bureaucrats is going to court to have the "wrongly imposed" penalty rescinded.

China Aid, which supports Christians in the communist nation, said Li Guozhi, who also is known as Yang Hua, was the pastor of Huoshi Church, the largest house church in Guiyang, Guizhou.

He was targeted by government officials using a standard charge, "divulging state secrets," and sentenced to 30 months in prison.

Additionally, the government fined him and another of the church's pastors, Su Tianfu, 7 million yuan, or \$1 million, an amount the officials claimed the church had received as "illegal income."

Paul Marshall, Lela Gilbert and Nina Shea have collaborated to create "Persecuted: The Global Assault on Christians," which confirms that groups like Pew Research, Newsweek and The Economist also identify Christians as "the world's most widely persecuted religious group."
