اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيق اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض

ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي

المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما

انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

I am not saying we are the unluckiest people in the world. But yesterday, Nov. 15th, I – and some or even most of you too – missed **FOUR** giant fireballs disintegrating in the sky above Houston in Texas and a large part of Europe – Germany, Switzerland, Austria and France. AND THAT JUST WITHIN 10 HOURS! It all started on Nov. 14th around 4:50pm (UTC) with a fireball exploding over Germany and reported by over 1180 witnesses also from Switzerland, Lichtenstein, Luxembourg and Italy. Less than five hours later, at 9:30 pm (UTC), France also reported another significant fireball lighting up the sky. Two significant fireballs disintegrated over the United States at 01:40am (UTC) over Arizona and 03:30am (UTC) over Ohio on Nov. 15th. Here some videos now:

A very bright fireball exploded over Lapland, northern Finland at 16:40 UTC (18:40 EET) on November 16, 2017. The event lasted between 5 and 10 seconds and was seen across northern Finland, especially Nellim, Selojärvi and Ivalo, and from northern Norway. This is 5th major fireball event within 48 hours, possibly 7th.

According to local media reports, a sonic boom was associated with today's event. "There was a loud noise after the lights went out and the houses shook," fireman Mauri Saniola Inari said, adding that the

At least 25 people have been injured after severe storm accompanied by a tornado caused extensive damage to homes, vehicles and farms in southwestern Turkey late Monday into Tuesday (local time), November 14, 2017. The storm destroyed numerous roofs and uprooted trees, particularly in areas close to the coastline.

The worst affected were Antalya province's districts of Kaş, Finike, Demre and Kumluca. This area is among Turkey's largest fruit and vegetable production centers due to its mild weather and the damage caused by the storm is more or less expected to increase food prices in the upcoming months, according to the [Daily Sabah](#).

A severe overnight storm turned roads of towns on the outskirts of Greek capital Athens into raging rivers of mud and debris on November 15, 2017. At least 14 people have been killed and many injured.

"Everything is lost, the disaster is biblical," authorities said. Severe weather is expected to continue over most of the country and peak on Friday, November 17.

Torrential rains hit Greek capital Athens overnight Wednesday, November 15, leaving at least 15 people dead and several missing in the town of Mandra, west of Athens. Many of the dead were elderly people whose bodies were found inside their homes. At least two bodies were recovered from the sea

Sometimes mother nature is passive aggressive, throwing a horrifying curve ball out of the clear blue sky. Something that you could never see coming. Something that you probably didn't even know was possible. On Nov. 15th, more than 10 people were injured and rushed to Mpilo Central Hospital after their homes collapsed following an apocalyptic night hailstorm that left 50 families homeless in Emthunzini suburb on the outskirts of Bulawayo in Zimbabwe. The 1-hour-long hailstorm also destroyed properties in Pumula South and Nkulumane suburbs, with the roofs of some houses being blown away. A real disaster!

California Residents On Edge After A Swarm Of 10 Earthquakes Hits Near The San Andreas Fault

By Michael Snyder, on November 14th, 2017

Is the San Andreas Fault starting to wake up? On Monday, a "swarm" of 10 significant earthquakes struck Monterey County, California. The largest was a magnitude 4.6 earthquake that could be felt all the way over in San Francisco. Of course this comes at a time when other portions of "the Ring of Fire" are starting to awaken as well. For example, just yesterday I wrote about the [alarming eruption of Mt. Popocatepetl](#) that just took place down in Mexico. For decades the west coast of North America has been relatively stable compared to the rest of the Ring of Fire, but now that is changing.

So should those living along the west coast be on alert? Without a doubt, the [shaking that happened on Monday](#) definitely got a lot of attention...

Disaster claims soar in year of calamities

The Associated Press

TODAY'S SPONSOR:

SANTA ROSA, Calif. - The number of Americans registered for federal disaster aid jumped tenfold this year, costing billions of dollars in additional emergency funding as the nation nears the end of a historically calamitous year.

More than 4.7 million Americans - or about 1.4 percent of the population - have registered so far this year for disaster aid from the Federal Emergency Management Agency. In 2016, 480,000 sought aid, and fewer than 180,000 people registered for disaster assistance in each of the three previous years.

Three hurricanes - Harvey, Irma and Maria - collectively affected an area with about 8 percent of the U.S. population. The hurricanes were followed by wildfires that killed 43 people and destroyed more than 7,000 homes here in wine country.

The record-setting disasters - combined with other storms, floods, mudslides and blazes that struck communities across the United States this year - have taxed emergency resources and left residents struggling to rebuild their lives long after the floods have receded and the flames have stopped

Only a few weeks after a team of experts warned Congress that the nation faces an "existential threat" from North Korea from a possible electromagnetic pulse attack, a new report says the rogue nation is mapping a specific plan.

Paul Bedard at the Washington Examiner wrote in his "Washington Secrets" column that the White House "is being warned that North Korea is mapping plans for a 'devastating' attack on the United States with an atmospheric nuclear explosion that would disable the nation's electric grid, potentially leading to the deaths of virtually all impacted."

He said President Trump "is being urged to create a special commission to tackle the potential for an electromagnetic pulse attack, one similar to the iconic Manhattan Project."

Saudi Arabia's Foreign Minister Adel Jubeir came out against Iran

Fears of **World War 3** have increased in recent weeks amid a spiralling fallout between the Saudi monarchy and Tehran.

It came following the surprise resignation of Lebanese Prime Minister Saad al-Hariri, a close ally of Riyadh.

At an emergency meeting in Cairo today, Saudi Arabia's Foreign Minister Adel Jubeir stepped up his rhetoric against the Islamic regime.

Israel ready to cooperate with Saudi to face Iran: defence chief

By Joe Dyke
Jerusalem (AFP) Nov 16, 2017

Israel's military chief of staff said in an interview Thursday that his country was prepared to cooperate with Saudi Arabia to face Iran's plans "to control the Middle East."

His comments were the latest sign that behind-the-scenes links between Israel and Gulf countries may be occurring due to Iran, their shared enemy, even though they do not have formal diplomatic ties.

"We are ready to exchange experience with the moderate Arab countries and exchange intelligence information to face Iran," Lieutenant General Gadi Eisenkot was quoted as saying by Elaph, a news website run by a Saudi businessman.

Asked whether any information had been shared recently with Saudi Arabia, he said "we are ready to share information if necessary. There are many common interests between us and them."

Israel's army confirmed the contents of the rare interview with Arabic-language media.

According to Israel's army, it was the first interview of its kind since 2005.

Riyadh (AFP) Nov 16, 2017 - France is worried by Iran's "hegemonic" intentions in the Middle East, French Foreign Minister Jean-Yves Le Drian said Thursday.

At a press conference with his Saudi counterpart Adel al-Jubeir, Le Drian echoed Riyadh's concerns over Iranian "intervention in regional crises" and "hegemonic" intentions in the region.

Following the recent trend of congruence between science and Bible in different fields, fresh genetic research suggests that all females are descended from a single female and all males from a single male – corresponding with the Biblical account of Adam and Eve.

For many years the multiregional hypothesis, suggesting multiple origins for humanity, was predominant in genetic research. But new studies suggest that all of humanity has a common origin.

Residents on both sides of the USA are currently reporting mystery booms and officials only come up with BS explanations or have no ideas about the origin of these loud booms. Most probable sources are earthquakes, skyquakes, army trainings, frost quakes... On the west coast you can certainly talk about earthquakes being the culprit of these booms. In the Northeast, the current polar vortex – record cold temperature beaten in Boston – and thus frost quakes may be responsible for the loud noises. Other sources will be army trainings. But what about Idaho, Alabama, Texas, Louisiana, Texas, South Carolina and Florida? Read below to debunk the mystery:

OAKLAND, Calif. (AP) — Scientists for the first time have tried editing a gene inside the body in a bold attempt to permanently change a person's DNA to cure a disease.

The experiment was done Monday in California on 44-year-old Brian Madeux. Through an IV, he received billions of copies of a corrective gene and a genetic tool to cut his DNA in a precise spot.

"It's kind of humbling" to be the first to test this, said Madeux, who has a metabolic disease called Hunter syndrome. "I'm willing to take that risk. Hopefully it will help me and other people."

The French authorities will prevent Muslims in a northern Paris suburb from praying in the streets, the interior minister says. Local worshippers have been protesting the recent closure of a convenient prayer room.

Gerard Collomb reiterated his opposition to prayers staged by the Union of Muslim Worship and Cultural Associations of Clichy-la-Garenne (UAMC) every Friday in the city center since March after a hall they had rented from the town was remodeled into a multimedia library under the new mayor. A dedicated worship center has been built since then, but local Muslims are unhappy about its location and size.

Global stocks rose in value after the People's Bank of China poured \$47 billion into its financial system. That means "central banks have little to worry about in 2018 – if markets get fractious, just bung a load of money at them," said Blain.

The Yield Curve Has Not Been This Flat In 10 Years, And Many Believe This Is A Sign That A Recession Is Imminent

By Michael Snyder, on November 19th, 2017

Whenever we see an inverted yield curve, a recession almost always follows, and that is why many analysts are deeply concerned that the yield curve is currently the flattest that it has been in about a decade. In other words, according to one of the most reliable indicators that we have, we are closer to another recession than we have been at any point since the last financial crisis. And when you combine this with all of the other indicators that are screaming that a new crisis is on the horizon, a very troubling picture emerges. Hopefully this will turn out to be a false alarm, but it is looking more and more like big economic trouble is coming in 2018.

The professionals on Wall Street take the yield curve very, very seriously, and the fact that it has gotten so flat has many of them extremely concerned. The following comes from [Business Insider](#)...

A new nine-part documentary from Revealed Films, *Christ Revealed*, explores the scientific evidence for the resurrection of Christ. Featuring top Christian apologists and historians and filmed on location in Israel and across America, the docu-series is an epic journey of revelation about the truth of one of the Bible's most controversial claims.

The resurrection of Christ has long fascinated the world, and it has been the focus of many movies and television series, including *The DaVinci Code* and History Channel's *The Bible*. However, over one-third of Americans are unconvinced of the resurrection's veracity, according to Rasmussen Reports.

"The resurrection of Christ is one of the most-discussed events in history, and it is the cornerstone of the world's largest religion," said Jeff Hays, director and executive producer of *Christ Revealed*. "While Christians believe in the resurrection in faith, we wanted to see what scientific evidence was out there to support whether this event

JIANGMEN, Guangdong (China Aid) — 13 Christians in China's southern Guangdong province were interrogated at the

police station on Nov. 5 after police broke into their church service, ChinaAid learned recently.

During a Sunday morning worship service at Qingcaodi Church on Nov. 5, a team of police officers and religious affairs bureau personnel invaded a small house church and accused those gathered there of holding religious services at unapproved sites. They then confiscated Bibles and other Christian materials belonging to the church and brought 13 Christians to the Xincheng police station. There, they were questioned and forced to stay until their information was entered into the database and transcripts of their interrogation were filled out.

Children look at a Nativity scene at the Christmas market in the harbour of Emden, Germany, November 27, 2013.

A court in France has ruled that Christmas nativity scenes cannot be displayed in public buildings unless they are installed for cultural, artistic or festive purposes alone.

The ruling by the French Council of State, a body of the national government that acts both as legal adviser of the executive branch and as the supreme court for administrative justice, comes in relation to a Nativity scene installed in the Town Hall in Béziers in 2014 by its Mayor, Robert Ménard, against which a complaint had been filed for alleged violation of the country's secularization laws, according to [Premier](#).

However, Ménard has been displaying a nativity scene every year since the complaint, and says he will put up one this year, too, according to [Breitbart](#). The mayor has modified the installations to

Proponents of Intelligent Design are crying foul after the Wikipedia page for a respected scientist who believes that God created the universe with

a purpose was recently deleted.

Günter Bechly is a paleo-entomologist in Germany whose areas of expertise include fossil history and insect origins. A Roman Catholic, Bechly says he grew up in a secular home but concluded later that the evidence for Darwinian evolution is weak and the data pointing to Intelligent Design is strong.

U.S. Defense Secretary Jim Mattis awaits the arrival of Vietnamese Defense Minister Gen. Ngo Xuan Lich at the Pentagon in Arlington, Virginia, U.S., August 8, 2017.

The Department of Defense has announced that it will pay for an active-duty service member's gender reassignment surgery, marking the first time since the Obama administration opened the door for transgender individuals to openly serve in the United States military that the Pentagon will pay for such a procedure.

As first reported by BuzzFeed News, the Pentagon released a statement Tuesday announcing that the service member in question received a sex reassignment procedure at a private hospital.

The athletic association that governs most of New Jersey's high school sports has updated its policy to allow biological male students to play on girls sports teams and vice versa without having to provide proof or some sort of documentation of their gender dysphoria.

On Wednesday, the New Jersey State Interscholastic Athletic Association executive committee approved a policy that allows transgender students to simply notify their school administration if they desire to change genders without

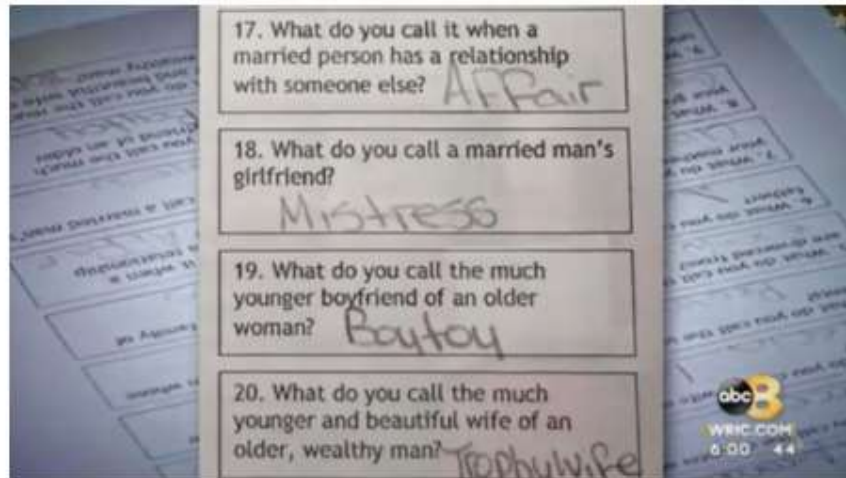

required medical consultation.

"A transgender student, defined as a student whose gender identity differs from the student's sex assigned at birth, shall be eligible to participate in accordance with either their birth sex or in accordance with their gender identity, but not both," the policy explains.

Additionally, the policy states that transgender student athletes may also be granted permission to use banned substances deemed required for hormone therapy if they submit for consideration from a NJSIAA medical review officer.

The policy allows for member schools to appeal the eligibility of a transgender student-athlete "on the grounds that the student's participation in interscholastic athletics would adversely affect competition or safety."

Sixth graders at a school in Virginia were given an assignment that a concerned parent says contains inappropriate questions about extramarital and adulterous relationships.

A parent of an 11-year-old child at Carter G. Woodson Middle School in Hopewell, Virginia turned to social media and to the news media this week to voice her displeasure after her sixth-grade daughter and her classmates were given a family quiz. The quiz seemed harmless at first but drew her ire in the final few questions.

ABC8 reports that sixth grader Faith Sample received a quiz in her Family and Consumer Sciences class that asked students to name different familial relationships.

After gender neutral conversion, Sturgeon students ask for more gender specific bathrooms

By Sarah Kraus

Reporter Global News

WATCH ABOVE: Some Alberta students are calling for more gender-specific washrooms after their high school converted the majority to gender-neutral stalls. Sarah Kraus explains the issue.

- A A +

Students at Sturgeon Composite say the bathroom situation at their high school needs to change, and better reflect the needs of the majority after many of their facilities were made gender neutral.

في هذه المقاطعة صدر قانون الحمامات المتعادلة في نهاية السنة الماضية واستغلوا فترة الصيف في تطبيقها وبدل من ان يجعلوا نسبة صغيرة من الحمامات متعادلة تناسب نسبة الشواذ، غيروا اغلب الحمامات متعادلة للشواذ أي الذين يدعوا ان هناك فئة ثالثة قليلة يحاولوا إعطائها حقوق هم لغوا حقوق الأغلبية تماما لاجل الشواذ بطريقة فيها اجبار على تعريض الأولاد والبنات الطبيعيين الغير شاذين لأشياء غاية في الاحراج وشاذة. فعاد الطلبة الى المدارس شهر سبتمبر

الماضي ليجدوا مدارسهم لغت حمامات الولاد والبنات وجعلوها متعادلة مما سبب مشاكل كثيرة وامور مخجلة جدا وجارحة لمشاعر الصغار المرهفة كله لأجل نسبة لا تذكر من الشواذ ولم يستطيعوا على الاطلاق ان يتأقلموا معها. فما كان من الطلبة الا انهم قرروا يجمعوا توقيعات الطلبة ويقدموها في طلبات لإلغاء الحمامات المتعادلة وارجاع الحمامات المخصصة للأولاد والبنات والامضاءات كانت ارقام خيالية وتوقفوا فقط لعدم وجود طلبات مطبوعة كافية ورغم هذا الحكومة ووزير التعليم لا يستجيب لأنه يؤيد الشواذ فقط. والحكومة أيضا بما فيها رئيس وزراء كندا يؤيد الشواذ فقط. هذا مثال يحدث تقريبا الان في أغلب العالم وفي أغلب المجالات فمثلا يلغوا حقوق الأغلبية المسيحية لأجل قلة شاذة او ملحدة او مسلمة.

ما رأيكم في القادة؟ هل تثقوا في هؤلاء؟ هؤلاء هم الذين يضعوا القوانين للشواذ وهؤلاء هم الذين يضعوا مناهج التعليم للشواذ وللإلحاد والتطور والإسلام وهؤلاء هم الذين يقرروا ما يتم نشره في الاعلام وهكذا. هذا ما أصبح فيه العالم ولهذا كما قال الكتاب

سفر المزامير 146: 3

لَا تَتَكَلَّمُوا عَلَى الرُّؤَسَاءِ ، وَلَا عَلَى ابْنِ آدَمَ حَيْثُ لَا خَلَاصَ عِنْدَهُ.

رسالة يوحنا الرسول الأولى 5:

19 نَعْلَمُ أَنَّنَا نَحْنُ مِنَ اللَّهِ، وَالْعَالَمَ كُلَّهُ قَدْ وُضِعَ فِي الشَّرِّيرِ.

ولهذا أقول كما قال معلمنا يوحنا

18 نَعْلَمُ أَنَّ كُلَّ مَنْ وُلِدَ مِنَ اللَّهِ لَا يُخْطِئُ، بَلِ الْمُؤَلُّودُ مِنَ اللَّهِ يَحْفَظُ نَفْسَهُ، وَالتَّارِيزُ لَا يَمْسُهُ.

20 وَنَعْلَمُ أَنَّ ابْنَ اللَّهِ قَدْ جَاءَ وَأَعْطَانَا بَصِيرَةً لِنَعْرِفَ الْحَقَّ. وَنَحْنُ فِي الْحَقِّ فِي ابْنِهِ يَسُوعَ

الْمَسِيحِ. هَذَا هُوَ الْإِلَهُ الْحَقُّ وَالْحَيَاةُ الْأَبَدِيَّةُ.

21 أَيُّهَا الْأَوْلَادُ احْفَظُوا أَنْفُسَكُمْ

فلهذا اطلب أن نصلي ونستعد ونعد زيت لمصاييحنا لاستقبال العريس بالصلاة والصوم وخدمة

أبناء الله وتنقية القلب والاستعداد بلبس العرس.

رسالة بولس الرسول الي أهل رومية 13
