اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيق اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض

ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي

المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما

انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

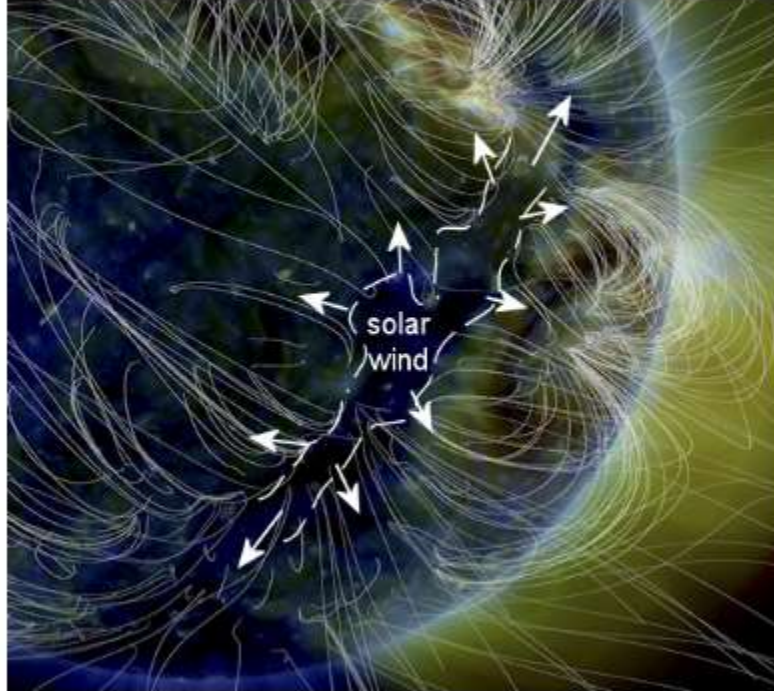

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

GEOMAGNETIC STORM PREDICTED (G1-CLASS): NOAA forecasters estimate a 55% chance of [G1-class](#) geomagnetic storms on Nov. 29th when a CME is expected to sideswipe Earth's magnetic field. There's more: A fissure in the sun's atmosphere (depicted below) is spewing solar wind into space, and the stream of gaseous material could reach Earth on Nov. 29th as well. Polar auroras are likely in response to the combined effect of the CME and the solar wind. Free: [Aurora Alerts](#).

What happens when a solar wind stream meets a CME? Scroll down for answers.

There are two possibilities: 1. The CME might act like a snowplow, scooping up material in the solar wind stream before it reaches Earth. This would allow the CME to jolt our planet's magnetosphere with a load of extra scooped-up mass. 2. On the other hand, the solar wind stream might lag behind the CME, providing the second blow of a one-two punch. Either way, Arctic sky watchers should be alert for auroras in the nights ahead.

A large flying object expected in December has caught NASA's attention, but it isn't Santa Claus' sleigh.

Instead, an **asteroid** called 3200 Phaethon is projected to come close enough to Earth that it's been classified as "potentially hazardous" by the International Astronomical Union's Minor Planet Center.

A bright fireball was seen streaking through the twilight sky over England, UK around 17:19 UTC on November 29, 2017. The event lasted about 3 seconds.

The International Meteor Organization (IMO) collected 24 reports within the first 3 hours. The fireball was seen from England and Wales, UK and Bretagne, France.

There are no reports of a sound associated with the event.

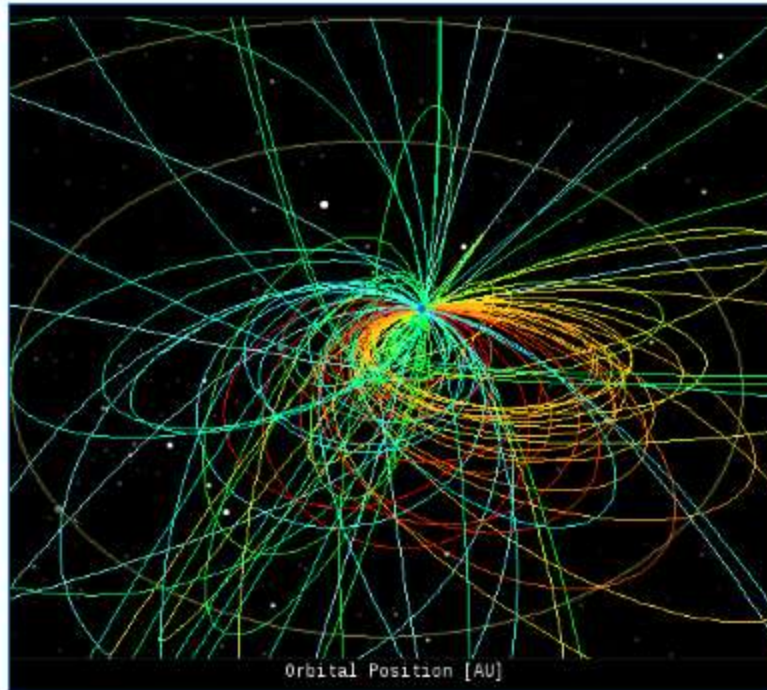

NEMETODE's all-sky camera at Ravensmoor detected the fireball at 17:06 UTC. Their initial analysis suggests a magnitude -6.9 December Alpha Draconid. "We are awaiting additional network data to confirm shower and absolute magnitude."

At least 7 people were killed and more than 270 others are missing as heavy rains hit coastal Tamil Nadu, India and Sri Lanka on Wednesday and Thursday, November 29 and 30, 2017, after a depression in the Bay of Bengal intensified into a Cyclonic Storm "Ockhi." Ockhi is the third named storm of the 2017 North Indian Ocean cyclone season. Heavy rain is expected across the region at least until Saturday, December 2. The system is expected to further intensify into a Severe Cyclonic Storm as it moves toward Lakshadweep archipelago.

At least 11 people have been killed after heavy rain produced by Tropical Cyclone "Cempaka" triggered severe floods and landslides in East Java, Indonesia on November 28, 2017. Cempaka is the first named storm of the 2017/18 Australian region cyclone season. In addition to heavy rain, strong winds caused by Cempaka brought volcanic ash from erupting Mount Agung to Bali's Gusti Ngurah Rai International Airport, canceling flights for the third day in a row.

On November 22, 2017, TCWC Perth and TCWC Jakarta started to monitor a weak tropical low that had developed about 332 km (206 miles) south of the city of Surabaya, the capital of Jawa Timur (East Java) province of Indonesia.

By 06:00 UTC of November 26, the system was classified as a tropical depression and TCWC Jakarta

Hundreds of dead blackfish found in waters near Bethel

✍ Author: [Teresa Cotsirilos, KYUK](#) ⌚ Updated: 4 days ago 📅 Published November 24

Last Monday, Jacques Peter Smart walked through the snow to a creek in downtown Bethel, a shallow tributary from Arthur Dull Lake that runs above ground between Sixth and Seventh avenues. Hundreds of dead fish were curled together at the bottom of the rust-colored creek bed, each small enough to fit in your hand.

"We're looking at a bunch of dead blackfish that washed out of Dull Lake," Smart said. "It happened over a period of three to seven days, but it kind of totally happened overnight, and we were shook by it."

There are 500 to 1,000 fish, Smart said, and he suspects some washed farther downstream as well.

Originally from Nunapitchuk, Smart studies information technology at the University of Alaska Fairbanks' Kuskokwim Campus. The program is a lot of work, so a few months ago, Smart and a half dozen other students started fishing the Kuskokwim together to unwind. They bait their hooks with blackfish, and they set several traps for them in Bethel's streams and lakes.

North Korea has fired a ballistic missile, which splashed down in the Sea of Japan, according to the South Korean, Japanese and US militaries. The Pentagon says an initial assessment indicates it was an intercontinental ballistic missile (ICBM).

South Korea's Joint Chiefs of Staff were the first to report on the launch. "North Korea launched an unidentified ballistic missile eastward from the vicinity of Pyongyang, South Pyongan Province, at dawn today," it said, as cited by Yonhap news agency. Seoul and Washington were analyzing the missile's trajectory, it added.

INTERVIEW-NATO sees growing Russia, China challenge; higher risk of war

by Reuters

Tuesday, 28 November 2017 22:28 GMT

By Andrea Shalal

BERLIN, Nov 28 (Reuters) - China's growing military strength and a resurgent Russia will pose growing challenges to the trans-Atlantic alliance in coming years, and NATO's moves to bolster its capabilities could trigger a new Cold War-style arms race, a NATO report said.

The report, completed once every four years, identifies 20 global trends that are likely to affect the alliance through 2035, ranging from artificial intelligence and accelerating technology development to climate change and growing inequality.

General Denis Mercier, NATO Supreme Allied Commander Transformation, told Reuters the report showed a higher risk of major interstate war than in the 2013 report.

Saudi Arabia intercepts Yemeni missile, second in a month

BY REUTERS ON NOVEMBER 30, 2017 • (LEAVE A COMMENT)

DUBAI (Reuters) – A ballistic missile fired by Yemen's armed Houthi group at Saudi Arabia was shot down on Thursday near the southwestern city of Khamis Mushait, the Saudi-owned al-Arabiya channel reported.

It was the second ballistic missile fired from Yemen this month, after an earlier rocket was brought down near King Khaled Airport on the northern outskirts of the capital Riyadh.

A Saudi-led coalition fighting the Houthis in Yemen has closed air, land and sea access in a move it says is meant to stop a flow of Iranian arms to the Houthis, who control much of northern Yemen. The blockade has cut food imports to seven million people on the brink of famine.

"Air defense intercepted a ballistic missile, fired by the Houthis toward Khamis Mushait," Arabiya said on its Twitter account, without giving details.

The Houthis and allied militias loyal to former Yemeni President Ali Abdullah Saleh, who have fired dozens of missiles into Saudi territory during a 2-1/2 year war, said on their official news agency they had launched a mid-range ballistic missile that "hit its military target with high precision".

SABA, quoting a military source, added the "successful test was a new start of locally made missile launches".

Saudi Arabia and its allies, who receive logistical and intelligence help from the United States, accuse the Houthis of being a proxy of Iran.

The Israeli Defense Forces launched several missiles at a strategic target close to the Syrian capital Damascus, Israeli and Arab media reported, saying it was an airstrike. Syrian state TV said "military positions" were targeted by surface-to-surface missiles.

Several missiles were reportedly fired toward a target in the countryside south of Damascus, with some intercepted by the Syrian Air Defense and others hitting their intended target.

Arab outlet Al-Masdar News, citing its sources, reported that the target was an ammunition depot of the Syrian Army, located between the towns of Kiswah (Kesweh)

A new study finds hundreds of sites employ scripts that record visitors' keystrokes, mouse movements and scrolling behavior in real time, even before the input is submitted or is later deleted. (Simon/Pixabay/Public Domain)

If someone secretly installed software on your computer that recorded every single keystroke that you made, would you be alarmed? Of course you would be, and that is essentially what is taking place on more than 400 of the most popular websites on the entire internet. For a long time we have known that nothing that we do on the internet is private, but this new revelation is deeply, deeply disturbing. In my novel entitled *The Beginning Of The End*, I attempted to portray the "Big Brother" surveillance grid that is constantly evolving all around us, but even I didn't know that things were quite this bad. According to an article that was just published by Ars Technica, when you visit the websites that have installed this secret surveillance code, it is like someday is literally "looking over your shoulder"...

Facebook using artificial intelligence as means of suicide prevention

NEW YORK -- Facebook is turning to artificial intelligence to detect if someone might be contemplating suicide.

The social media giant already has mechanisms for **flagging posts** from people thinking about harming themselves. The new feature is intended to detect such posts before anyone reports them.

CBS Philadelphia reports the AI tools use pattern recognition to identify signals, like comments asking if someone is OK. The Facebook team will then be alerted and will work to quickly get the person help.

The company is also using AI to prioritize the order that flagged posts are sent to its human moderators so they can quickly alert local authorities.

The Muslim population in the UK could triple in 20 years, according to projections from the Pew Research Centre. That means the number of Muslims in Britain would rise from 4.1 million in 2016 to 13 million in 2050.

In its report 'Europe's Growing Muslim Population,' the US-based research center says the UK has been the major destination for economic migrants coming to Europe, while Germany has been the top destination for refugees. The number of Muslim migrants arriving in Europe surged after 2014 to almost half a million annually, largely due to people fleeing conflicts in Syria, Iraq and Afghanistan, it said.

Did you know that the number of retail store closings in 2017 has already **tripled** the number from all of 2016? Last year, a total of **2,056 store locations** were closed down, but this year **more than 6,700 stores** have been shut down so far. That **absolutely shatters** the all-time record for store closings in a single year, and yet nobody seems that concerned about it. In 2008, an all-time record 6,163 retail stores were shuttered, and we have already surpassed that mark by a very wide margin. We are facing an unprecedented retail apocalypse, and as you will see below, the number of retail store closings is actually supposed to be much higher next year.

Whenever the mainstream media reports on the retail apocalypse, they always try to put a positive spin on the story by blaming the growth of **Amazon** and other online retailers. And without a doubt that has had an impact, but at this point online

It has emerged young Guides members are not being invited to thank God during grace, under guidance being issued to leaders in a bid boost inclusivity.

While acknowledging that it "may be traditional to say or sing grace before a meal" during a residential event, the advice urges leaders to consider "how this might make members who are from a different faith, or have no faith, feel."

It recommends: "If you'd like to say something before a meal, try to think of a statement that doesn't make reference to any particular god or faith."

"For example, 'let's all take a moment to show gratitude for this food and to

Children, Entire Evangelical Families Being Arrested in Eritrea Simply for Praying

Dec 4, 2017 | 0 | =====

Entire evangelical Christian families, including children, are reportedly being arrested in new persecution tactics being used by Eritrean officials, human rights activists have said. "Since May of this year, nearly 200 Christians have been arrested. The interesting thing about this — they have shifted tactics ... Instead of just raiding church services or Bible studies, now the government is going to the homes of Christians, and they're arresting the whole family," Todd Nettleton of Voice of the Martyrs USA told Mission Network News.

U.K.'s leading organization for girls and young women has announced that transgender members who are born male but identify as females will be allowed to use the same shower facilities and stay in the same tents as girls, in a bid to be more inclusive.

[Girlguiding U.K.](#), which leads thousands of girls on adventures, camping trips and other activities, announced in new guidelines posted on its website last week that "young trans members should be able to share accommodation with other young members if they wish."

"Some people may not feel comfortable sharing accommodation so in this case an alternative option should be provided. This should be done discreetly, in conversation with the young person and, if appropriate, their parent or carer," it clarifies.

When it comes to using facilities, such as toilets, the rules say that members are "entitled to use the

I'm sorry, but what the heck has happened to cartoons? Not only are they hideously ugly to look at and filled with vulgar humor, but they all seem to be spewing some sort of leftist ideology. I mean, seriously, what's wrong with slipping on banana peels and having anvils fall on your head? Is that not funny anymore? Why does everything have to have a sanctimonious message?

Take *Star vs. The Forces of Evil*, which airs on Disney XD, for example. The latest episode of this show is being [lauded](#) all over the [internet](#) for depicting Disney's "first boy princess."

فلهذا اطلب أن نصلي ونستعد ونعد زيت لمصاييحنا لاستقبال العريس بالصلاة والصوم وخدمة
