اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجتمع زيت في مصابيحنا لان الظلمة والضيق اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقرب فنكون مستعدين سواء جاء او نحن ان  
سلمنا وديعتنا عن أنى لا اقول انه اقرب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض  
ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي  
المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما  
انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

## سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَأَن تُوْمِنُونَ.

ثالثا لنتنبه ونستعد

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَأَنْصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.».

A very large, slow-moving fireball meteor was observed over the United Kingdom at 17:33 UTC on December 31, 2017. The International Meteor Organization (IMO) received over 400 reports within 2 hours and the count now stands at 801. The event was as seen from northern Scotland to southern England, UK.

The object was green and red in color and was traveling east to west from the North Sea toward Sunderland and Carlisle for more than 10 seconds. 11 people reported delayed sound associated with the event, 11 a concurrent sound and 255 reported fragmentation.

**ELECTRIC-BLUE CLOUDS CIRCLING ANTARCTICA:** NASA's [AIM spacecraft](#) is monitoring a vast ring of electric-blue clouds circling high above Antarctica. These are noctilucent clouds (NLCs), made of ice crystals frosting specks of "[meteor smoke](#)" in the mesosphere 83 km above the frozen continent. Here is an animation from the past week:

This is the season for southern noctilucent clouds. Every year around this time, summertime water vapor billows up into the high atmosphere over Antarctica, providing moisture needed to form icy clouds at the edge of space. Sunlight shining through the high clouds produces an electric-blue glow, which AIM can observe from Earth orbit.

"The current season began on Nov. 19th," says Cora Randall, a member of the AIM science team at the University of Colorado's Laboratory for Atmospheric and Space Physics. "Compared to [previous years](#) of AIM data, this season seems to be fairly average, but of course one never knows what surprises lie ahead, particularly since the southern hemisphere seasons are so variable."

**STRANGE BLUE COMET:** Beyond the orbit of Mars, blue Comet PanSTARRS (C/2016 R2) is behaving strangely. Active jets of gaseous material are spewing from the comet's core, feeding a chaotic tail marked by rough swirls and an unusual rectangular "knee." Michael Jäger photographed it from St. Oswald, Austria, on Jan. 6th:

"I took 30 shots in 90 minutes, which allowed me to make [a nice animation](#)," says Jäger.

What's happening to this comet? Blue is the telltale clue. That's the color of ionized carbon monoxide (CO+) fluorescing in the the near-vacuum of interplanetary space.

Comet PanSTARRS has abundant stores of CO. Last month, astronomers K. Wierzbos and M. Womack of the University of South Florida used the Arizona Radio Observatory's 10-m Submillimeter Telescope at Mount Graham to detect as many as  $4.7 \times 10^{28}$  CO molecules emerging from the comet's core every second. "This comet appears to be very CO-rich," they wrote in International Astronomical Union telegram [CBET 4464](#).

By 2030 comes about, the temperatures on Earth could be so low that the River Thames freezes over during winter, much like in the last little ice age which spanned from the 13th to 17th century.

Some power plants in New England that have been burning oil are running short on fuel, according to Marcia Blomberg, a spokeswoman for ISO New England Inc., the region's grid operator. Restrictions governing air emissions are also a factor limiting their use.

BOSTON/NEW YORK (Reuters) – A powerful blizzard battered the Northeast on Thursday, knocking out power for tens of thousands of people and snarling travel amid a long cold snap that has gripped much of the United States for more than a week and killed more than a dozen people.

Thousands of flights were canceled, firefighters scrambled to rescue motorists from flooded streets in Boston, snow plows and salt trucks rumbled along roads and highways, and New York City's two main airports halted flights due to whiteout conditions.

Commuters who braved the storm worried that they could be stranded later in the day.

## Saudi Arabia confirms H5N8 bird flu outbreak: OIE

Reuters Staff

1 MIN READ

PARIS (Reuters) - Saudi Arabia has confirmed an outbreak of highly contagious bird flu in Riyadh that led to the culling of nearly 16,000 ducks, the World Organisation for Animal Health (OIE) said on Friday.

The highly pathogenic H5N8 strain infected and killed 14 birds at a non-specified location in the Saudi capital, the Paris-based OIE said in a report on its website, citing information from the Saudi authorities.

The other birds in a flock of around 60,000 exposed to the virus were culled, the report said.

Bird flu strains have hit poultry flocks in a number of countries across the world in recent years, with some types of the disease also causing human infections and deaths.

Saudi Arabia had this year imposed restrictions on poultry imports from countries such as Bulgaria in an effort to prevent the disease spreading.

## Russia reports virulent H5N2 bird flu at 660,000-bird farm: OIE

Reuters Staff

2 MIN READ

PARIS (Reuters) - Russia has reported an outbreak of highly pathogenic H5N2 bird flu on a farm in the central region of Kostromskaya Oblast that led to the death of more than 660,000 birds, the Paris-based World Organisation for Animal Health (OIE) said on Friday.

The virus killed more than 44,000 birds in an outbreak first detected on Dec. 17, the OIE said, citing a report from the Russian Ministry of Agriculture.

The rest of the 663,500 birds on the farm were slaughtered, it said in the report. It did not specify the type of birds that were infected.

It is the first outbreak of the H5N2 strain in Russia this year but the country has been facing regular outbreaks of H5N8 since early December last year, with the last one reported to the OIE detected late November.

Quebec emergency rooms filled beyond capacity with flu cases

It's flu season, and many of Quebec's emergency rooms are over capacity as a result.

Hospitals normally experience some overcrowding this time of year, but ERs in the Montréal and Laurentian regions are operating at double capacity.

In Quebec City, too, several ERs were filled beyond their limit, including the Sainte-Anne-de-Beaupré, Saint-Sacrement and Saint-François d'Assise hospitals.

"We are really in the midst of the flu season right now," said Dr. Karl Weiss, head of infectious diseases at the Jewish General Hospital in Montreal.

THE deadly "Aussie flu" virus is feared to have spread to almost all UK areas following a surge in cases over the weekend.

Dorchester in Dorset and the City of London were last night the only places where no one has yet reported an "influenza-like illness" - with churches even banning handshakes in an attempt to curb the spread of infection.

Moscow has warned Washington against meddling in Iran's internal affairs, blaming the US for using the situation in the Islamic Republic to hamper the nuclear agreement with Tehran, which took years of hard work to reach.

Russia's Foreign ministry slammed Washington's "destructive" approach to the deal, with Deputy Foreign Minister Sergey Ryabkov accusing the US of using the situation in Iran, which has been gripped by violent protests during the past week, as an excuse to undermine the nuclear agreement.

*Hamas election campaign in Ramallah (Holheit/de.wikipedia/CC 2.0)*

Israel's combined security services nabbed a 17-man Palestinian terror cell in November that was working to execute terror attacks in Judea and Samaria, with guidance from Hamas in Gaza.

The Shin Bet (Israel's Security Agency) revealed Monday that the main figure behind the elaborate terror plot is Abdallah Arar, a terrorist who was involved in the kidnapping and murder of Sasson Nureil in 2005.

Arar was captured by Israel and was subsequently released in the 2011 prisoner exchange with Hamas, during which Israel released some 1,000 Palestinian terrorists in exchange for IDF soldier Gilad Shalit. Arar has since returned to terrorism.

Arar is suspected of ordering Ala Salim, a resident of Jabba in the Binyamin region, to establish a terror cell and acquire an M16 assault rifle for the purpose of carrying out terror attacks. Arar gave Salim funds for this purpose.

DUBAI (Reuters) – Ten people were killed during protests in Iran on Sunday and armed demonstrators tried to seize police stations and military bases but were repulsed by security forces, state television said on Monday.

The nationwide protests have drawn in tens of thousands of people and represent the boldest challenge to Iran's leadership since pro-reform unrest in 2009. Calls for more demonstrations on Monday raise the possibility of prolonged instability.

"Some armed protesters tried to take control of some police stations and military bases but they met strong resistance from security forces," state TV said. It gave no details of what happened and there was no independent confirmation.

Facebook temporarily shut down the page "Warriors for Christ." Why?

The official corporate line is that the page violated the social media giant's community standards. But the Christ fighters have a few other thoughts — namely, that Facebook is simply showing its pro-LGBT, anti-Christian bias.

The Burning Man Festival, held in the Black Rock Desert of Nevada in August, has chosen its centerpiece structure, a massive wood temple dedicated to the Greek goddess Gaia, that is just one of the many pagan symbols featured at the popular desert gathering.

The festival has certainly evolved from its humble beginnings over 30- years ago when 20 artists gathered on a Beach in San Francisco. The annual event is now a high-profile gathering that attracts over 70,000 to its isolated desert location.
