## والعلامات حتى 31 يوليه 2018

Holy\_bible\_1

اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيقه اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقه لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

10: 21 ثم قال لهم تقوم امة على امة ومملكة على مملكة

11: 21 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من السماء

25: 21 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج تضج

26: 21 والناس يغشى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقَلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَأَنْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ».

## Friday's total lunar eclipse will be longest blood moon visible this century, until 2123

on a slow motion

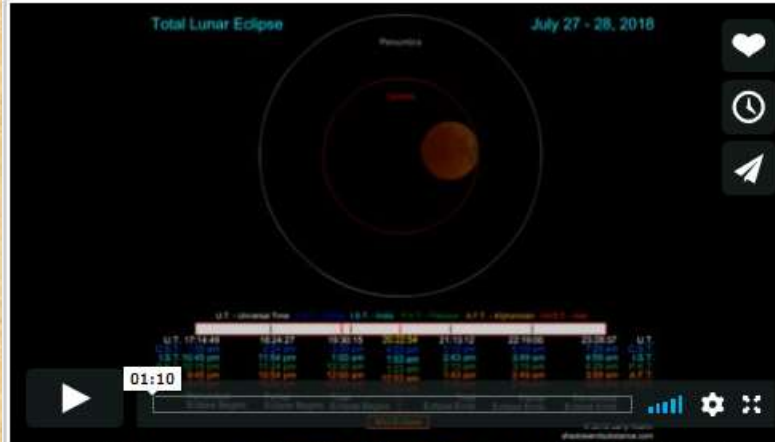

The full moon will turn blood red on July 27 as the longest total lunar eclipse of the century takes place in the skies from Australia through Africa.

A total lunar eclipse occurs when the moon passes through the Earth's innermost shadow. When this happens, the moon turns rusty orange or deep red

**LUNAR ECLIPSE AND MARTIAN CONJUNCTION:** Friday, July 27th, is a big night for astronomy. Three reasons: **First**, Mars will be [at opposition](#)—directly opposite the sun and making a 15-year close approach to Earth. **Second**, Mars and the full Moon will be [in conjunction](#)—less than 10 degrees apart. **Third**, the Moon will pass through the shadow of Earth, producing the longest lunar eclipse in a century:

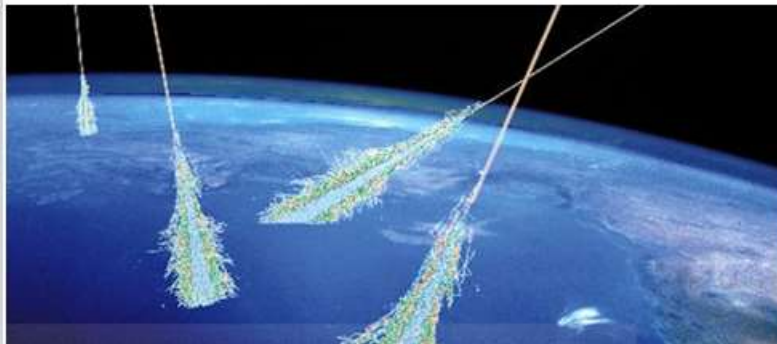

**ATMOSPHERIC RADIATION UPDATE:** As the sunspot cycle declines, we expect cosmic rays to increase. Is this actually happening? The answer is "yes." Spaceweather.com and the students of Earth to Sky Calculus have been monitoring cosmic radiation in the atmosphere with frequent [high-altitude balloon flights](#) over California. Here are the latest results, current as of July 2018:

**Above:** X-ray/gamma-ray dose rates in the stratosphere over California. Energy range: 10 keV - 20 MeV

The data show radiation levels intensifying with an approximately 18% increase in monthly averages since March 2015. This comes as sunspot counts have dipped to a ~10-year low in June and July 2018.

Cosmic rays are the subatomic debris of dying stars, accelerated to nearly light speed by supernova explosions. They travel across the galaxy and approach Earth from all directions, peppering our planet 24/7. When cosmic rays crash into Earth's atmosphere, they produce a spray of secondary particles and photons that is most intense at the entrance to the stratosphere. This secondary spray is what we measure.

The public are being advised to take every precaution to avoid the extreme heat

Japan's weather agency has declared a heatwave sweeping the country a natural disaster, with at least 65 deaths recorded in the past week.

An agency spokesman warned that "unprecedented levels of heat" were being seen in some areas.

Raging wildfires have killed at least 74 people and injured scores more as flames swept through a small resort town near Athens.

Emergency crews found one group of 26 victims, including families with children clasped in a last embrace as they tried to flee the flames. They were huddled together in a field just 30 metres from the sea near Mati in the region of Rafina, eastern Greece.

California Governor Jerry Brown issued emergency proclamations for Riverside, Mariposa, Shasta, Lake, Mendocino and Napa counties over the past couple of days after raging wildfires claimed lives of 8 people, forced more than 37 000 to evacuate and destroyed hundreds of homes. 12 people are still missing.

The Carr Fire in Shasta County, currently the largest in the state, began July 23 when a vehicle suffered mechanical failure and has so far scorched 38 594 hectares (95 368 acres) of land. By late July 29 (local time), the fire was 17% contained, up from just 5% earlier in the day.

## UK weather latest: Heatwave could last MONTHS because of STALLED jet stream, warn experts

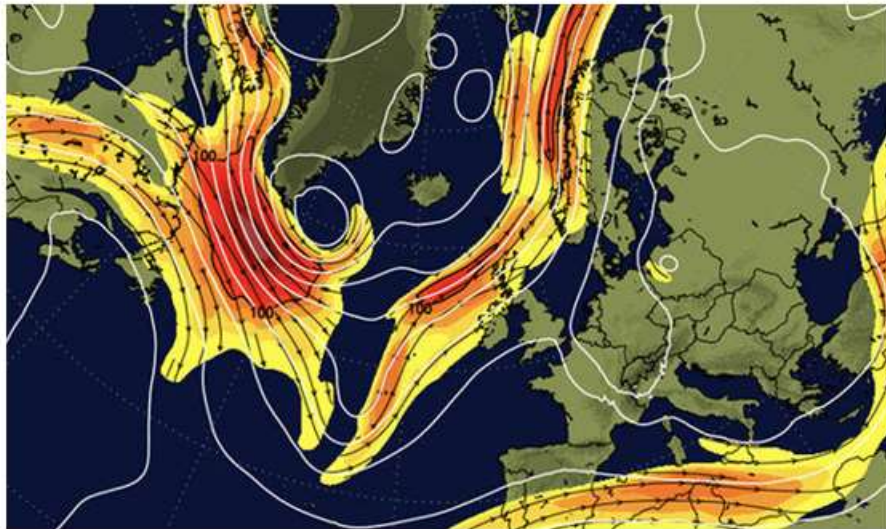

THE heatwave which has gripped the UK and large parts of the northern hemisphere could last MONTHS – because the jet stream which keeps air flowing has been stalled over Europe since May as a result of warming of the Arctic, scientists have warned.

Map shows the Cascadia Subduction Zone along the Pacific Northwest coast, with a shaded area encompassing the onshore and offshore areas where seismometers were located. Data from the seismometers helped University of Oregon researchers ... more ▾

With four years of data from 268 seismometers on the ocean floor and several hundred on land, researchers have found anomalies in the upper mantle below both ends of the Cascadia Subduction Zone. They may influence the location, frequency and strength of earthquake events along the U.S. Pacific Northwest.

The anomalies, which reflect regions with lower seismic wave velocities than elsewhere beneath the fault line, point to pieces of the Earth's upper mantle that are rising and buoyant because of melting rock and possibly elevated temperatures, said Miles Bodmer, a University of Oregon doctoral student who led a study now online as an accepted paper by the journal *Geophysical Research Letters*.

Researchers at John Hopkins University simulated the spread of a new illness – a new type of parainfluenza, known as Clade X.

The simulation was designed so the pathogen wasn't markedly more dangerous than real illnesses such as SARS – and illustrates the tightrope governments tread in responding to such illnesses.

# Moscow warns military confrontation in space as dangerous as nuclear arms race

by Staff Writers  
Moscow (Sputnik) Jul 30, 2018

According to a statement published by the Russian Foreign Ministry on Friday, Moscow prioritized peaceful exploration and use of outer space.

Commenting on the US draft defense budget, the Russian Foreign Ministry noted that a military confrontation in space may be as dangerous as the nuclear arms race.

"A military confrontation in space may be as dangerous as a nuclear arms race set off by Washington in the middle of the last century," the statement reads.

At the same time, the ministry expressed hope that the US would abandon steps that could threaten the global security.

"Russia hopes that Washington will eventually abandon steps, which have the most negative impact on the international security...", the ministry said in a statement.

"We urge the United States to be prudent and not to repeat the mistakes of the past. Military confrontation in space can be as dangerous as the nuclear arms race launched by Washington in the middle of the last century," the statement said.

BEIRUT, July 26 (Reuters) - Iran's Quds force chief Qassem Soleimani warned U.S. President Donald Trump against war on Thursday, saying it would "destroy all that you possess", the website of Iran's Arabic language Al Alam TV reported.

"You know that this war will destroy all that you possess. You will start this war but we will be the ones to impose its end. Therefore you have to be careful about insulting the Iranian people and the president of our Republic," Soleimani said in a speech, as reported by Al Alam in Arabic.

"You know our power in the region and our capabilities in asymmetric war. We will act and we will work," he said. (Writing by Tom Perry; Editing by Kevin Liffey)

Last week, Israel's Knesset passed another controversial "Basic Law," enshrining Israel as the nation-state of the Jewish people and Jerusalem as its "eternal capital." This is in concurrence with historical foundations and legal declarations by the British and then the United Nations—more than 70 years ago.

The Palestinian Arabs' DNA and heritage can be traced back just a few generations to clans and tribes in the desert lands of Arabia. Yet, these Arabians deny the demonstrable Jewish presence in the Holy Land for over 3,000 years and Islamic extremists among them exert armed resistance to modern Israel's right to peacefully exist there today.

It is not just a difference in religious ideology (Islam versus Judaism) or an ethnic resistance (Arabs versus Jews). It is Islam's deep, religious convictions (according to clear teachings in their holy book, the Qur'an) which have eternal, personal consequences for its followers.

The Palestinian Authority spends hundreds of millions of dollars annually, much of it contributed by other nations, including the United States, to pay salaries to terrorists or the families of successful suicide bombers.

Several nations have demanded that the practice stop, and Israel has adopted a law that penalizes the PA for making the payments to killers.

Now filmmaker Pierre Rehov has put on camera Palestinians who want to become suicide bombers, as well as some who have tried and failed, in "Why They Do It."

The video already has been censored by YouTube.

## Danish imam charged over call to kill Jews

[Tweet](#)[G+ Share](#)[1 point](#)[in Share](#)

STOCKHOLM (AFP) - Danish prosecutors on Tuesday charged an imam with calling for the killing of Jews in the first case of its kind in the Nordic nation and which sparked political outrage.

Imam Mundhir Abdallah, who preaches in the Copenhagen neighbourhood of Norrebro at the Masjid Al-Faruq mosque, which media have linked to radical Islam, is accused of citing a hadith or koranic narrative calling for Muslims to rise up against Jews.

"Judgement Day will not come until the Muslims fight the Jews and kill them," Abdallah said in a Facebook and YouTube video post in March.

"These are serious statements and I think it's right for the court to now have an opportunity to assess the case," public prosecutor Eva Ronne said in a statement.

This is the first time the prosecution has raised such charges under a criminal code introduced January 1 2017 on religious preaching.

Ronne said it's legal to quote religious books like the Koran and the Bible, but that inciting or welcoming the killings of people could be punishable by up to three years in prison.

"It has always been illegal to accept killings of a certain group of people, but it's new for us to target hate preachers," she added.

GAZA CITY (PALESTINIAN TERRITORIES) (AFP) - The United Nations agency for Palestinian refugees announced Wednesday it was cutting more than 250 jobs in the Palestinian territories after the United States held back hundreds of millions in aid.

In total, 154 employees in the occupied West Bank and 113 in the Gaza Strip will be let go, UNRWA spokesman Chris Gunness said in a statement.

More than 500 other full-time staff will be offered part-time contracts, the statement added.

The job cuts were the first since the US announced it would only provide the agency with \$60 million this year, down from \$360 the previous year.

## Jiangxi Churches Asked to Replace Crosses With Flag, Image of Chinese President

By Editor on July 25, 2018 · 4 Comments

**XINYU, Jiangxi** (*China Aid*) — Churches across Jiangxi received a warning from local authorities in early July, demanding that they dismantle their crosses, replace them with either an image of Chinese President Xi Jinping or the national flag, and keep their children away from church.

In Xinyu—a city within Jiangxi—alone, more than 100 churches received this announcement, triggering fear in many. Some Christians are too frightened to speak up; however others openly refuse to follow the orders. In retaliation, government agents forcibly demolished one church's cross, and another

## Appeals Court Rules California School Board's Prayers at Public Meetings Violate Establishment Clause

By [Heather Clark](#) on July 26, 2018 - 3 Comments

**CHINO, Calif.** — The Ninth Circuit Court of Appeals has upheld a lower court ruling declaring that a California school board violated the Establishment Clause of the U.S. Constitution by presenting predominantly Christian prayers during public meetings.

"The policy and practice of prayer at Chino Valley Board meetings violates the Establishment Clause. The scope of injunctive relief is appropriate, because it merely prohibits governmental action that violates the Constitution and does not infringe upon constitutional rights," wrote a unanimous three-judge panel, consisting of Judges M. Margaret McKeown, Kim McLane Wardlaw and Wiley Y. Daniel.

All three judges were appointed to the bench by then-President Bill Clinton.

The ruling leaves in place an injunction prohibiting the Chino Valley Unified School District Board of Education "from conducting, permitting or otherwise endorsing school sponsored prayer in board meetings."

FILE - Doctors visit a patient at the intensive care unit of a children's hospital in Brussels, Nov. 25, 2013.

Belgian doctors have euthanized three minors in the past two years, according to a report from the nation's chief euthanasia regulatory body released earlier this month.

The report, produced by Belgium's Federal Commission for Euthanasia Control and Evaluation, said these three minors were the first to be euthanized since the country's parliament

# Judge Orders Wisconsin to Pay for Gender Reassignment Surgeries

07-27-2018 - Associated Press

MADISON, Wis. (AP) — A federal judge has ordered Wisconsin to pay for the gender reassignment surgery for two transgender Medicaid recipients.

Cody Flack, 30, and Sara Ann Makenzie, 41, filed a lawsuit in April, saying a state rule denying coverage for surgeries to treat gender dysphoria violates the Affordable Care Act and their right to equal protection, the Milwaukee Journal Sentinel reported. The state rule that excludes coverage for undefined "transsexual surgery" was adopted in 1996.

The transgender agenda in public schools, which insists a person's sex is a subjective matter based on feelings, took a huge step forward this week with a federal judge ruling boys must be allowed to use girls' rest rooms and showers, and vice versa.

U.S. District Court Judge Marco Hernandez in Oregon did offer an alternative, however: Parents who object to mixed-sex showers for their children can take them out of the schools for which they pay.

His ruling failed to address the fact that if they homeschool send them to a private school, as do many with such concerns, they must not only pay for their local public school but also for a second round of costs.

"It is within Parent Plaintiffs' right to remove their children from Dallas [Oregon] High School if they disapprove of transgender student access to facilities," the judge said.

## Judge Says School District Must Treat Girl Who Identifies as Boy 'Like Any Other Boy' in Regard to Restroom Use

By Heather Clark on July 29, 2018 · 3 Comments

**PONTE VEDRA, Fla.** — A federal judge appointed to the bench by then-President George W. Bush has placed an injunction on a school policy that prohibits a girl who identifies as a boy from using the mens' restroom, declaring that under the law, she must be "treated like any other boy."

Judge Timothy Corrigan ruled on Thursday that the St. Johns County School District has no reason to prohibit the student, who goes by the name Drew Adams, from using the boys' restroom at Nease High School in Ponte Vedra
