

تعليق على بعض الاحداث العالمية

والعلامات حتى 2 اكتوبر 2018

Holy_bible_1

اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيق اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعه سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض

ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي

المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما

انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

علامات في السماء

مذنب ايري الذي على شكل جمجمة لا يزال في مساره وسيقترب من الأرض في احتفال الهلاوين

Eerie 'death comet' with a SKULL face will zip past Earth just after Halloween (but don't worry, it will be 25 MILLION miles away)

- A 'death comet' will pass earth November 11 about 24million miles away
- It last showed itself on Halloween 2015 about 302,000 miles away from earth
- The comet has a human skull face and has been dubbed the Halloween asteroid
- The comet's next closest visit will occur on November 1, 2088

A 'death comet' will be zipping passed earth just after **Halloween** this year.

The asteroid with a skull-like face will make its second trip near earth in three years after flying a worrisome 302,000 miles from our planet on October 31, 2015.

مخاوف من انخفاض الأنشطة الشمسية

THE CHILL OF SOLAR MINIMUM: The sun is entering one of the deepest Solar Minima of the Space Age. Sunspots have been absent for most of 2018, and the sun's ultraviolet output has sharply dropped. [New research](#) shows that Earth's upper atmosphere is responding.

"We see a cooling trend," says Martin Mlynchak of NASA's Langley Research Center. "High above Earth's surface near the edge of space, our atmosphere is losing heat energy. If current trends continue, the upper atmosphere could soon set a Space Age record for cold."

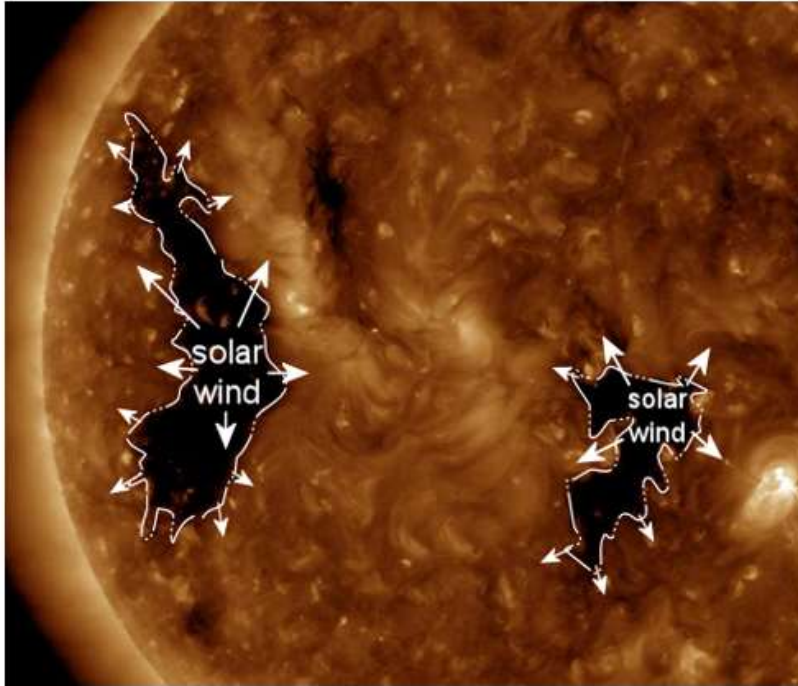

Above: The TIMED satellite monitoring the temperature of the upper atmosphere

These results come from the SABER instrument onboard NASA's TIMED satellite. SABER monitors infrared emissions from carbon dioxide (CO₂) and nitric oxide (NO), two substances that play a key role in the energy balance of air 100 to 300 kilometers above our planet's surface. By measuring the infrared glow of these molecules, SABER can assess the thermal state of gas at the very top of the atmosphere—a layer researchers call "the thermosphere."

"The thermosphere always cools off during Solar Minimum. It's one of the most important ways the 11-year solar cycle affects our planet," explains Mlynchak, the associate principal investigator for SABER.

منطقتين رياح شمسية ستواجه الأرض الأولى 4 أكتوبر والثانية 7 أكتوبر

A DOUBLE STREAM OF SOLAR WIND: Two holes in the sun's atmosphere are turning to face Earth, each spewing a stream of solar wind toward our planet. Estimated times of arrival: **Oct. 4th** and **Oct 7th**. NASA's Solar Dynamics Observatory took this false-color UV picture of the gaseous firehoses on Oct. 1st:

These are "coronal holes"—places in the sun's atmosphere where magnetic fields open up and allow solar wind to escape. They are dark because the glowing-hot plasma normally contained there is missing, now en route to Earth.

Solar wind spewing from the smaller hole (right) will arrive first, causing polar geomagnetic unrest but probably not a full-fledged geomagnetic storm. Solar wind escaping from the second, larger hole (left) will follow days later bringing a chance of [G1-class](#) storms. In both cases, [equinox cracks](#) in Earth's magnetic

فلاش قوي نهايته طيف اخضر يظهر من عطار

A GREEN FLASH ON VENUS: Green flashes on the sun are so rare, they were once thought to be mythological. Saturday evening in Rome, Paolo Palma witnessed a green flash with real ties to mythology: A green flash on *Venus*. "The planet was low on the horizon and its light looked like a long fiery bubble, with flames of red, orange, yellow and green," says Palma. "When Venus went below the horizon, the last ray was clearly green in color."

"I took this picture using my smartphone at the eyepiece of a 12-inch telescope at 76x magnification," he says.

[Green flashes](#) on the sun are formed when the [prismatic action](#) of the atmosphere splits the setting sun into basic R-G-B colors. Temperature inversions (usually above a sea surface) create [a mirage](#), magnifying the green into an eye-catching flash. The same physics created this green flash on Venus. "The sea is only 8 km away from me!" notes Palma.

Now is a good time to look for green flashes on Venus. The second planet is approaching the sun and thinning into a narrow crescent—like a [miniature crescent Moon](#). The long skinny profile of Venus is easily split into R-G-B colors as it beams over the horizon, setting the stage for [beautiful atmospheric optics](#).

Typhoon Trami strikes Japan cutting power in 30 towns as it nears Tokyo seeing hundreds flee

Sep 29, 2018 | 0 | ★★★★★

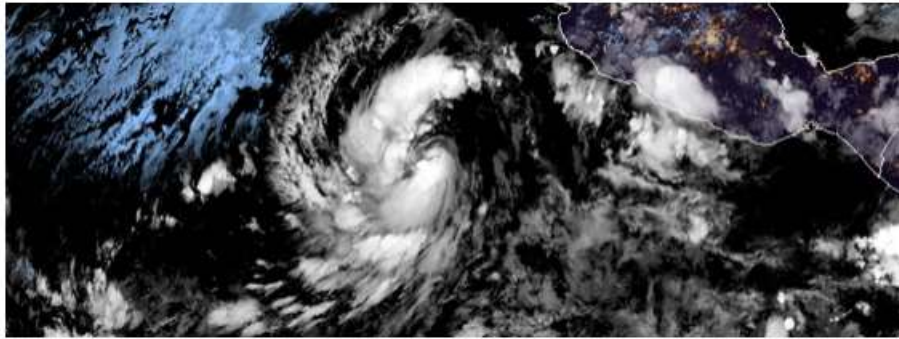

Power has been cut across 30 towns and cities, with the blackout causing a temporary closure of Kansai International Airport near Osaka. Typhoon Trami, rated category 2 by Tropical Storm Risk, with category 5 the highest, is the latest storm to threaten Japan in a year of weather-related woes, including punishing heat, heavy rains and landslides. Up to 20 inches of rain are forecast to hit Japan, with the storm currently packing winds of 100mph.

Liua is South Pacific's first cyclone in September for 70 years

3:26 pm on 27 September 2018

Share this      

Cyclone Liua is the first cyclone to form in the south-west Pacific in the month of September for nearly 70 years.

Liua is over the Solomons' Makira Island and is forecast to develop into a category two on the scale of one to five.

Its winds are weak, but forecasters are concerned about its slow pace and heavy rains.

The official cyclone season runs from 1 November to the end of April.

DEVELOPING: Rare hurricane-like storm is heading straight for Europe

Sep 29, 2018 | 0 | ★★★★★

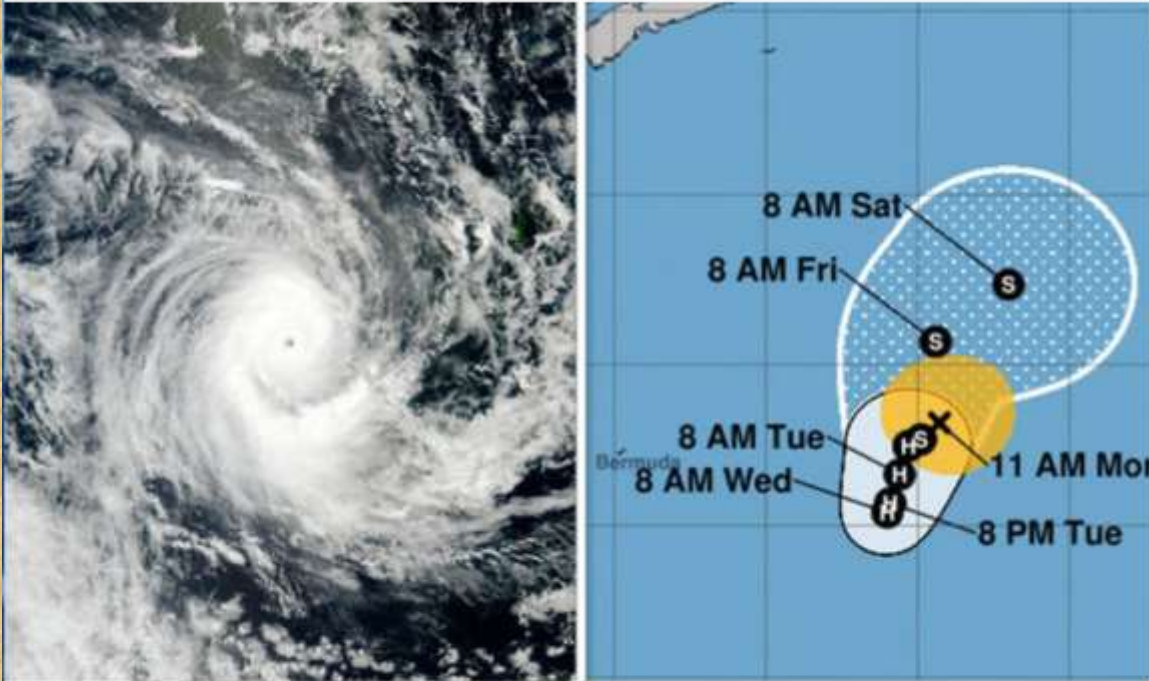

The Medicane – meaning Mediterranean hurricane – has similar qualities of hurricanes and typhoons and has already caused flash flooding across Tunisia and Libya over the past few days. It has now moved north to the Mediterranean and towards Europe. The storm will cause the sea to pick up more tropical-like features normally associated with hurricanes. These include gale-force winds and even an eye in its center. Areas of Greece and Turkey will be hit with heavy rains and very strong winds. The system is

The devastating impact of a huge tsunami in the Indonesian city of Palu has been revealed in chilling aerial photographs - in a natural disaster estimated to have killed 832 people.

The tsunami, which was triggered after a magnitude-7.5 earthquake, ripped through the Pacific Ring of Fire and crashed into the Palu at 500mph, causing widespread destruction.

Indonesian media, citing the national disaster agency, said Saturday that a further 540 people were injured in Palu City alone, on the the Indonesian island of Sulawesi.

Fears are mounting for the the fishing town of Donggala, which was closer to the epicentre of the quake, but which rescuers have not been able to reach. The town of Mamuju was also severely affected but currently impossible to access due to damaged roads and disrupted telecommunications.

Meanwhile criticisms have been levelled at the country's geophysics agency for lifting the tsunami warning 34 minutes after it was first issued, which may have led to confusion and exacerbated the death toll.

CORPUS CHRISTI, Texas - Hundreds of fish washed up on the beach in Packery Channel, between [Padre Island](#) and Mustang Island, on Wednesday.

Texas Parks and Wildlife tested the water along the beachfront following the fish kill, consisting mainly of gizzard shad, and identified a localized red tide bloom.

Mais de 70 pinguins aparecem mortos

Publicada em: 14/09/2018 às 00:00 Atualizada em: 14/09/2018 às 07:28

Só em Navega foram 19 aves mortas

Ainda se busca a explicação para a morte de aproximadamente 70 pinguins, encontrados ontem nas praias da região. As duas cidades com mais registros de mortes foram Navegantes, com 19, e Balneário Camboriú com 14 aves flagradas. A principal suspeita é a de que elas morreram por desnutrição. Mas as redes ilegais de pesca também podem ser as vilãs.

De acordo com Jeferson Luiz Dick, coordenador do projeto de Monitoramento das Praias, gerenciado pela Univali, além de Balneário e Navegantes foram encontrados animais mortos em Barra Velha, Penha, Bombinhas, Itapema e Porto Belo.

Em Navega, os pinguins estavam na areia da praia. Todos foram recolhidos pelos fiscais da fundação do Meio Ambiente de Navegantes (Fuman) e entregues aos técnicos do projeto de Monitoramento das Praias, gerenciado pela Univali.

Em Balneário, além da praia Central, as aves sem vida estavam na praia de Taquaras e do Pinho.

US reports mild bird flu virus at California farm: OIE

PARIS: The United States has reported an outbreak of the low pathogenic H7N3 bird flu virus at a turkey farm in California, the World Organisation for Animal Health (OIE) said on Friday.

The outbreak at a farm in Stanislaus County led to all 26,258 birds of the flock exposed to the virus being killed and disposed of, the Paris-based OIE said in a note on its website, citing a report from the U.S. Department of Agriculture.

Return Of U.S. Flu Season Brings Worries About A Virulent Replay

Blake Dodge

Published: Sep 27 2018, 9:51 AM

Last Updated: Sep 27 2018, 9:39 PM

(Bloomberg) — U.S. health officials are trying to increase the rate of flu vaccinations this year after a severe outbreak last season killed a record number of children and led to spot shortages of antiviral medications like Tamiflu.

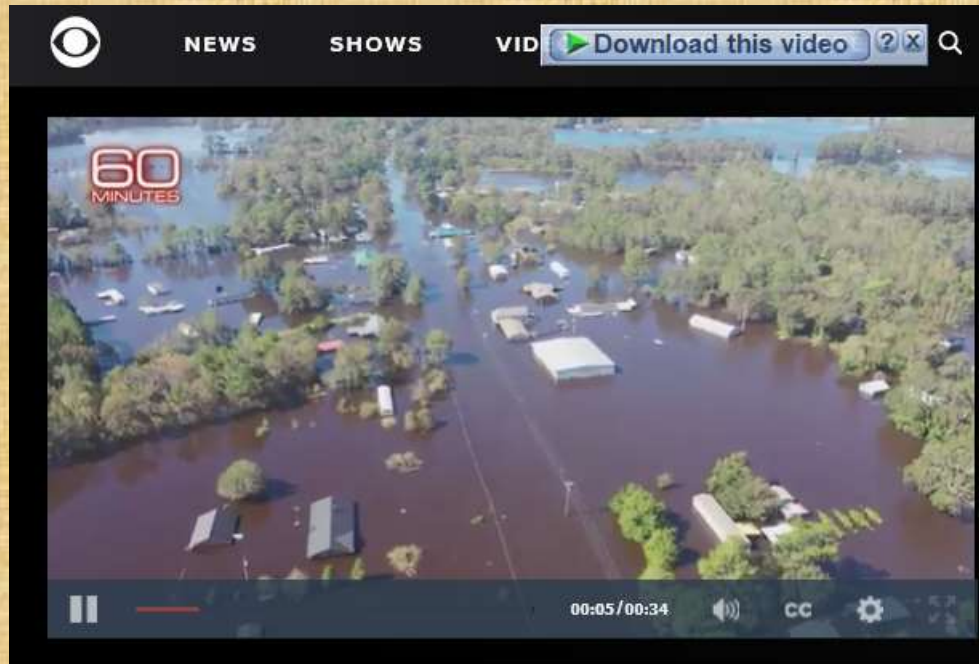

In a panel hosted by the National Foundation for Infectious Diseases and the Centers for Disease Control and Prevention in Washington on Thursday, U.S. Surgeon General Jerome Adams took a nasal vaccine — an effort, he said, to make flu prevention “go viral.” The lighthearted demonstration was accompanied by grim statistics from the 2017-18 flu season: 80,000 deaths overall, including 180 children.

“I’m tired of hearing people say, ‘Well, I didn’t get sick and I didn’t get the flu shot,’ Or, ‘I don’t like it, my arm hurts,’” said Adams. “Those 80,000 people who died last year from the flu, guess what? They got the flu from someone. So it’s critically important that we impress upon folks that it is not just for them. It’s their social responsibility to get vaccinated.”

The vaccine is expected to be more accurate this season, and influenza activity in the [Southern Hemisphere](#) has been unremarkable so far — a good sign for the U.S. and Canada. But health officials at the briefing said it was too

World's first human case of rat disease found in Hong Kong

September 28, 2018

Credit: CC0 Public Domain

A Hong Kong man has developed the world's first ever human case of the rat version of the hepatitis E virus, according to new research from one of the city's leading universities.

There had previously been no evidence the disease could jump from rats to humans, the University of Hong Kong said Friday, warning the discovery had "major public health significance".

"This study conclusively proves for the first time in the world that rat HEV can infect humans to cause clinical infection," the university added.

The United States is vulnerable to a devastating electromagnetic pulse event caused by a high-altitude nuclear blast or solar superstorm, according to a recently published book.

Peter Pry, a former CIA analyst and author of the book *EMP Manhattan Project*, is urging the government to rapidly harden the U.S. electric power system against EMP similar to the three-year crash program to build the first atomic bomb in 1942.

"Today the United States and the world faces another existential threat—from an electromagnetic pulse (EMP) catastrophe that can be caused by nature or man, and topple the technological pillars of modern electronic civilization," said Pry, who served on a congressional EMP commission in the early 2000s.

The book contains fresh assessments of the EMP threat produced by a more recent congressional commission last year that concluded the United States would suffer millions of deaths from a major EMP incident.

EMP was discovered in the 1960s during above-ground nuclear tests. The tests showed a nuclear blast created a pulse capable of disrupting or

China nixes US warship port visit, recalls admiral from US

by Staff Writers
Washington (AFP) Sept 25, 2018

China has pulled the plug on a US warship's scheduled visit to Hong Kong, and scrapped plans for a top admiral to meet with his US counterpart in Washington, officials said Tuesday.

The moves come as trade tensions soar between Beijing and Washington, which this week enacted new tariffs against China covering another \$200 billion of its imports.

The USS Wasp, an amphibious assault ship, was due to visit Hong Kong next month. Lieutenant Colonel David Eastburn, a Pentagon spokesman, said the Chinese had scrapped the visit.

"The Chinese government did not approve a request for a US port visit to Hong Kong by the USS Wasp," Eastburn said.

"We have a long track record of successful port visits to Hong Kong, and we expect that will continue."

China's decision comes after Beijing recalled a top admiral who was visiting the US.

A US defense official told AFP that Vice Admiral Shen Jinlong, who commands the People's Liberation Army Navy, attended a naval symposium in Rhode Island last week.

Following the event, he was planning a visit to Washington that would have included meetings at the Pentagon with his US counterpart, Chief of Naval Operations Admiral John Richardson.

"We were informed that Vice Admiral Shen Jinlong has been recalled to China and won't conduct a visit with Admiral Richardson," Eastburn said.

'You can't stop us sailing there' US warship heads into China Sea

Sep 30, 2018 | 0 | ★★★★★

The United States has taken tensions with China to a new high by "asserting their right" to sail warships past disputed islands in the South China Sea. A guided-missile destroyer, USS Decatur sailed within 12 nautical miles (13.8 miles on land) of reefs near the Spratly Islands in the South China Sea, two US officials claim. China has asserted ownership of the Spratly islands, something which was hotly contested

by the US officials as "excessive maritime claims". Speaking to CNN, one of the officials said: "US Forces operate in the Indo-Pacific region on a daily basis, including the South China Sea. All operations are designed in accordance with international law and demonstrate that the United States will fly, sail and operate wherever

China develops Super Spy satellite to spot US submarines in warfare upgrade

Oct 1, 2018 | 0 | *****

The Chinese military is developing spy satellites which will be able to detect submarines up to 1,600ft below the ocean surface, making the sea "more or less transparent", in a massive threat to US military dominance. The plan is being worked on by more than 20 universities across China. Satellites will fire powerful lasers towards the sea, which will send pulses back when they hit an object, such as a submarine, allowing its location to be determined.

Netanyahu Warns that Iran Has "Secret Nuclear Weapons Storage Site"

Sep 27, 2018 | 0 | ★★★★★

Israeli Prime Minister Benjamin Netanyahu is exposing what he says is a secret Iranian nuclear weapons storage site. Netanyahu presented maps and photos of what he says is a "secret atomic warehouse" in the Turqzabad district of Tehran, concealed as a rug-cleaning operation. Netanyahu said Israel has shared information about this site with the International Atomic Energy Agency and some intelligence agencies.

There was no immediate reaction from Iran, which denies building nuclear weapons. He made the announcement at the U.N. General Assembly, where he spoke out strongly against the 2015 Iranian nuclear accord. Netanyahu claimed it is used for "storing massive amounts of equipment and material from Iran's secret weapons program."

Iran video threatens missile strikes on UAE, Saudi Arabia

By NASSER KARIMI
Yesterday

   <https://apn>

TEHRAN, Iran (AP) — An Iranian media outlet close to the hard-line Revolutionary Guard published a video Tuesday threatening missile attacks on the capitals of Saudi Arabia and the United Arab Emirates, further raising tensions after a weekend militant attack on an Iranian military parade.

The video, in a tweet by the semi-official Fars news agency that was later deleted, comes as Iran's Supreme Leader Ayatollah Ali Khamenei blamed Riyadh and Abu Dhabi for the attack in the city of Ahvaz on Saturday, which killed at least 24 people and

UNITED NATIONS – President Donald Trump said Wednesday his administration will offer a Mideast peace plan in the next two to four months and he reaffirmed U.S. support for recognizing Palestine as a state as part of a peace process.

Speaking to reporters ahead of a meeting with Israeli Prime Minister Benjamin Netanyahu, Trump said his administration is making progress on the plan. For the first time he offered a more specific timeline for when he hopes to announce a proposal.

"It is a dream of mine to be able to get that done prior to the end of my first term," said Trump, who is attending his second United Nations General Assembly this week.

Germany: Plot to attack Israel with chemical weapons uncovered

Syrian arrested in Germany in alleged plot to attack Israeli targets with chemical weapons.

Contact Editor David Rosenberg, 28/09/18 11:31

REUTERS

German special police

A Syrian national recently arrested in Germany was part of an apparent plot to attack Israeli targets with chemical weapons, the German *Bild* newspaper reported.

Last Thursday, Germany's special police unit, the SEK, arrested a 21-year-old Syrian man in Berlin. At the time, police said the suspect was wanted in connection with an April 14th assault in the German capital.

The Latest: Trump hails his own achievements in UN speech

Today

 <https://apn>

UNITED NATIONS (AP) — The Latest on President Donald Trump's appearance at the U.N. General Assembly (all times local):

8:50 p.m.

President Donald Trump scorned the "ideology of globalism" and heaped praise on his own administration's achievements in a speech Tuesday to the U.N. General Assembly.

"The U.S. will not tell you how to live and work or worship," Trump said as he promoted his "America First" agenda. "We only ask that you honor our sovereignty in return."

Top astronomer warns Large Hadron Collider could create black hole and destroy earth

Oct 1, 2018 | 0 | ★★★★★

A black hole could form and shrink Earth to the size of a football field if particle accelerator experiments go wrong, a leading astronomer has claimed. Astronomer Royal Lord Martin Rees believes experiments at places like the Large Hadron Collider (LHC) could have deadly consequences for life on Earth. At the LHC, researchers smash particles into each other so researchers can discover new particles – such as the Higgs Boson, or God particle, which was found in 2012 at LHC.

Italy HITS BACK: Euro stocks PLUNGE as Italy defies austerity & puts EU STABILITY at RISK

Italy HITS BACK: Euro stocks PLUNGE as Italy defies austerity & puts EU STABILITY at RISK

ITALY has caused jitters in the eurozone after flouting austerity rules imposed by the European Union to pass a bumper budget. Rome is heading for a collision course with the EU after passing plans to target a budget deficit of 2.4 percent of GDP for the next three years late last night.

An Islamist mob stoned three Christians to death in western Kenya this week in apparent retaliation for the recent killing of three suspected al Shabaab militants.

An eyewitness said that the killing [happened](#) at a construction site where one of the Christian victims, Fredrick Mukanda Bahati, was building a house along with two assistants. The men were mixing mortar in Elwak, Mandera, a town close to the Kenya-Somalia border, when they saw the mob arriving.

Rev. Bob Fu, founder of [China Aid](#), speaks at a House Foreign Affairs' subcommittee hearing on the increasing persecution in China in Washington, D.C. on Sept. 27, 2018.

WASHINGTON — The Chinese government is supervising a five-year plan to make Christianity more compatible with socialism in which there will be a "rewrite" of the Bible, a prominent religious freedom activist has told Congress.

The Rev. Bob Fu, a former Chinese house church leader who immigrated to the United States in 1997 and founded the persecution watchdog organization [China Aid](#), provided great detail during a House hearing Thursday about a plan enacted by leading state-sanctioned denominations in China to "Sincize" Christianity.

Video promoting Girlguiding U.K., published on August 23, 2017.

The leading scouting organization for women and girls in the U.K. has expelled two Girl Guide leaders after they voiced their objections to the charity's recent policy on transgender inclusion.

Helen Watts, a leader of a Rainbow unit for girls ages 5 to 7 in West London, [says](#) her membership was terminated by Girlguiding U.K. on Friday because she questioned how the charity's transgender policy enacted last year conflicts with safeguarding policies that respect boundaries of young girls.

The policy allows for men who identify as women to be leaders of Guide units and allows for biological boys who identify as girls to be members of the units.

فلهذا اطلب أن نصلي ونستعد ونعد زيت لمصاييحنا لاستقبال العريس بالصلاة والصوم وخدمة
أبناء الله وتنقية القلب والاستعداد بلبس العرس.

رسالة بولس الرسول الي أهل رومية 13

13: 11 هذا وأنكم عارفون الوقت انها الان ساعة لنستيقظ من النوم فان خلاصنا الان أقرب مما

كان حين امنا

13: 12 قد تناهى الليل وتقارب النهار فلنخلع اعمال الظلمة ونلبس اسلحة النور

13: 13 لنسلك بلباقة كما في النهار لا بالبطر والسكر لا بالمضاجع والعهر لا بالخصام والحسد

13: 14 بل البسوا الرب يسوع المسيح ولا تصنعوا تدبيرا للجسد لأجل الشهوات

احترس ان لم تتمسك بالمسيح من الان قد لا تستطيع في المستقبل القريب بسبب الظلام.

وكما قلت هو اخبرنا لكي لا نخاف

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

بطرس الأولى 3: 14

وَلَكِنْ وَإِنْ تَأَلَّمْتُمْ مِنْ أَجْلِ الْبِرِّ، فَطُوبَاكُمْ. وَأَمَّا خَوْفُهُمْ فَلَا تَخَافُوهُ وَلَا تَضْطَرُّوْا،

بل نؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَأَنْتَضِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

افرحوا لان عريسنا قد اقترب مجيؤه. وانتبهوا الشيطان يريد أن نفقد سلامنا ولا ننال أكاليل.

وأیضا استعدوا فقد تسلموا وديعتكم في أي وقت فهناك 150 ألف شخص يموتوا في اليوم الواحد

انت لا تعرف متى ستكون منهم

المسيح اقترب فاصنعوا ثمار تليق بالتوبة واستعدوا لاستقبال العريس.

والمجد لله دائما
