اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيق اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض

ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي

المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما

انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

COSMIC RAYS ARE NEARING A SPACE AGE HIGH: Ten years ago, NASA reported a "[perfect storm of cosmic rays](#)." During the year 2009, radiation peppering Earth from deep space reached a 50-year high, registering levels never before seen during the Space Age.

It's about to happen again.

Ground-based neutron monitors and high-altitude cosmic ray balloons are registering a new increase in cosmic rays. The Oulu [neutron monitor](#) in Finland, which has been making measurements since 1964, reports levels in April 2019 only percentage points below the Space Age maximum of 2009:

Cosmic Rays on Earth since 1964

What's going on? The answer is "Solar Minimum." During the low phase of the 11-year solar cycle, the sun's magnetic field and solar wind weaken. Cosmic rays find it easier to penetrate the inner solar system. In 2009, the sun experienced the deepest solar minimum in a century. Cosmic rays reaching Earth naturally surged.

Ten years later, solar minimum is back with renewed weakening of the sun's magnetic field and the solar wind. Again, it's a "perfect storm." A panel of experts led by NOAA and NASA [recently predicted](#) that the current minimum would reach

وأخرى توضح نفس الامر في اخر أربع سنوات

COSMIC RAYS, CONTINUED... Cosmic rays cause "air showers" of secondary particles when they hit Earth's atmosphere. Indeed, this is what neutron monitors and cosmic ray balloons are measuring—the secondary spray of cosmic rays that rains down on Earth.

This spray is of special interest to air travelers. Secondary cosmic rays penetrate the hulls of commercial aircraft, dosing passengers with the whole body equivalent of a dental X-ray even on ordinary mid-latitude flights across the USA. International travelers receive [even greater doses](#).

Above: Four years of overlapping data from neutron monitors and cosmic ray balloons.

The International Commission on Radiological Protection has classified pilots as occupational radiation workers because of accumulated cosmic ray doses they receive while flying. Moreover, [a recent study](#) by researchers at the Harvard School of Public Health shows that flight attendants face an elevated risk of cancer compared to members of the general population. They listed cosmic rays as one of several risk factors.

Stay tuned for updates as solar minimum deepens.

Debris of Satellite Destroyed by India May Threaten ISS - Russian MoD

by Staff Writers
Moscow (Sputnik) Apr 23, 2019

When India tested its anti-satellite weapons, more than 100 fragments of destroyed spacecraft were created; in the future, these fragments could pose a threat to the ISS, the Russian Defence Ministry said.

"On 27 March, India successfully tested anti-satellite weapons, as a result of the destruction of the spacecraft, more than 100 fragments were formed in the altitude range from 100 to 1,000 kilometres, orbiting very close to the ISS, which may create threats in the near future," senior assistant to the head of the department of the Main Space Intelligence Centre of the Russian Defence Ministry Roman Fatakhov said in a speech at a conference on space debris.

The United States had criticised India over the anti-satellite missile test, calling it unacceptable and incompatible with the future of human space flight.

In turn, the Russian Foreign Ministry called anti-satellite (ASAT) tests conducted by India a result of the deterioration of the situation in the arms control sphere, caused by US actions.

Earlier, Indian Prime Minister Narendra Modi announced that New Delhi had successfully tested its first anti-satellite missile by hitting a defunct Indian satellite at an altitude of 300 kilometres (186 miles).

Modi added that India had become the fourth country in the world to possess such a weapon after China, Russia and the United States.

Extrasolar asteroid STRIKE: Oumuamua astronomer claims exoplanet object hit Earth in 2014

AN EXTRASOLAR asteroid hit Earth in 2014 in a shocking world first, a leading Harvard astronomer has claimed.

NASA scientists discuss importance of asteroid Oumuamua

When interstellar object Oumuamua was discovered in 2017, it sent shock waves throughout astronomy. Oumuamua's odd cigar-shape and its origins from another solar system were unlike anything ever seen before, leading Harvard University Professor Abraham Loeb to theorise the interstellar object could be an alien probe. And Professor Loeb has again hit the headlines following an incredible discovery – an extrasolar asteroid actually struck Earth back in 2014.

METEORS FROM HALLEY'S COMET: Earth is approaching a stream of debris from Halley's Comet, source of the annual eta Aquariid meteor shower. If forecasters are correct, the shower will peak on the nights of May 4th through 6th with as many as 40 meteors per hour.

Eta Aquariids meteor shower

This shower peaks in early May, when Earth intersects the dust cloud left by comet Halley.

[View more showers.](#) [f](#) [t](#) [g](#) [e](#)

"This is a good year for eta Aquariid meteors," says Bill Cooke of NASA's Meteoroid Environment Office. "The shower's peak coincides with a New Moon, so skies will be dark for the display."

The best time to look is during the hours before sunrise when the constellation Aquarius is high in the southern sky. Nominally, May 5th will be the most active morning, but May 4th and May 6th should be good, too. Halley's stream of debris is wide and spreads the display over three full days.

What? You can't find the constellation Aquarius? You don't need to. Although Halley's meteors shoot out of Aquarius, they fly far across the sky. All you have to do is lie down under a dark clear sky and look up. The shower be obvious even without the guidance of a star chart.

Passover Snow Falls on Mt. Hermon for First Time in 21st Century

Apr 29, 2019 | 0 📷 | ★★★★★

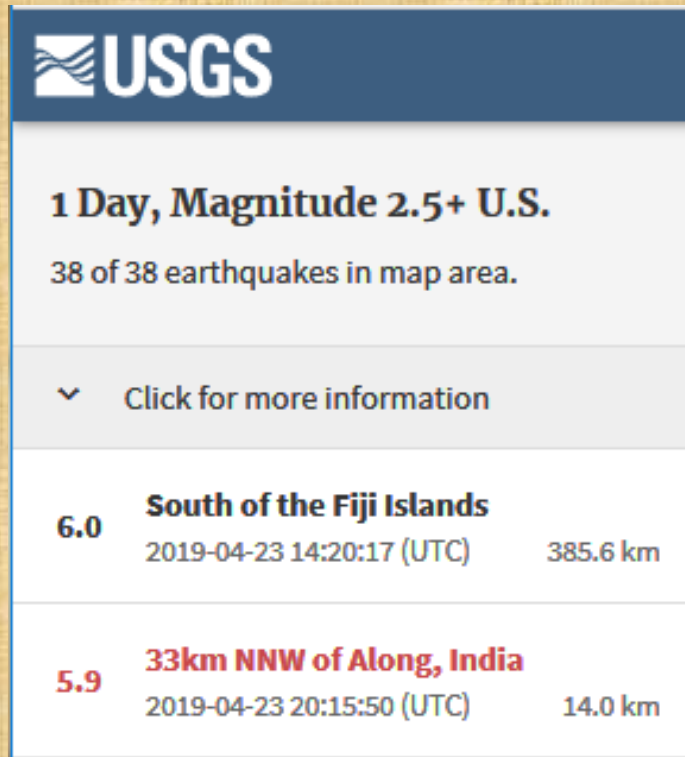

(BIN) – Snow fell on Mount Hermon on Sunday during Passover for the first time in 22 years. With approximately eight inches of snow already on the ground and accumulation set to continue throughout the day, the Hermon ski-resort management closed the site to visitors. Snowfall was also reported in towns in the Golan Heights. Unseasonable rainstorms drenched the country from north to south, as vacationers tried to find ways to enjoy the Passover holiday indoors. Many parks that were opened for

free to hikers and visitors for the holiday were closed, including the Ein Gedi nature reserve. Outdoor events around the country were canceled or rescheduled for later in the week. While some local scattered showers were forecast for Monday morning, the day scheduled for the traditional Priestly Blessing ceremony at the Western Wall plaza, temperatures are expected to rise and rains to dry up throughout the week, according to the Israel

A strong earthquake measuring 6.3 has struck northeast India's Arunachal Pradesh state, near the border with Tibet in China, seismologists and residents say. There were no immediate reports of serious damage.

The earthquake, which struck at 1:45 a.m. IST (2:15 a.m. CST) on Wednesday, was centered just west of Mouling National Park, about 43 kilometers (27 miles) northwest of Aalo, the headquarters of West Siang district.

China's Earthquake Network Center put the preliminary magnitude at 6.3, while the U.S. Geological Survey put it slightly lower, at 5.9. Both said the quake was very shallow with a depth of less than 10 kilometers (6.2 miles).

The epicenter of Wednesday's earthquake was close to the border with China, about 130 kilometers (61 miles) south of Nyingchi in Tibet. It may also have

An anonymous tipster shared photos of countless dead fish, which indeed looks alarming, if not apocalyptic. On Thursday, WJBK Fox 2 **ran a story**, "Residents concerned over surge of dead fish in Rouge River," citing fears about the nearby Marathon factory.

Our tipster says he has been working in the area for a long time and has never seen this many dead fish.

The record-large measles outbreaks occurring across 22 states continue to grow, with a total of 704 cases through Friday, according to new data released Monday by the Centers for Disease Control and Prevention.

Why it matters: U.S. measles outbreaks so far this year have eclipsed all other outbreaks in any year since the virus was declared eradicated in the country in 2000. The total number of cases has been dominated by three outbreaks in particular, including a large outbreak in Washington state, two ongoing outbreaks in New York and an ongoing outbreak in California.

In a scene ripped from the pages of my latest novels, leaders of Russia & North Korea meet in Vladivostok to forge anti-American alliance. Here's the latest.

(Jerusalem, Israel) — North Korea's "Dear Leader" Kim Jong Un **arrived** yesterday in the far-Eastern Russian city of Vladivostok to hold his **first-ever summit** with Russian Czar Vladimir Putin, having made the lengthy journey onboard a bulletproof train.

The reason for the meeting: to forge a far closer ties between Moscow and Pyongyang, complicate U.S. efforts to bring about peace between North and South Korea, and ostensibly for Putin to persuade his colleague to "**denuclearize**." The prospects of these two powers drawing closer should be worrisome to anyone paying attention to Putin's efforts in recent years to build a far broader and more aggressive anti-American and anti-Western front.

What struck me in particular was that the **headlines** of the last 24 hours seem ripped right out of the pages of *The Kremlin Conspiracy* and *The Persian Gamble*, in which a Russian-North Korean military and political alliance plays a central role.

Coast Guard plans to add resources in Arctic to counte Russia, China

by Allen Cone
Washington DC (UPI) Apr 23, 2019

The U.S. Coast Guard wants to add resources to the Arctic because "dramatic changes in the physical environment" of the region have allowed China and Russia to become more competitive there.

The military branch has proposed upgrading ships, aircraft, unmanned systems and communications systems in a 48-page Arctic Strategic Outlook, which was released Monday.

"Since the release of the Coast Guard Arctic Strategy in 2013, the resurgence of nation-state competition has coincided with dramatic changes in the physical environment of the Arctic, which has elevated the region's prominence as a strategically competitive space," the report says. "America's two nearest-peer powers, Russia and China, have both declared the region a national priority and made corresponding investments in capability and capacity to expand their influence in the region."

Because of Russia and China's "persistent challenges to the rules-based international order around the globe, there is concern of "similar infringement to the continued peaceful stability of the Arctic region."

The agency said it can uniquely address these challenges as the only U.S. service that combines military and civil authorities.

AMPARA, Sri Lanka (AP) — Militants linked to Easter suicide bombings opened fire and set off explosives during a raid by Sri Lankan security forces on a house in the country's east, leaving behind a grisly discovery Saturday: 15 bodies, including six children.

The gunbattle that began Friday night and the carnage that followed come amid widespread fear of more attacks as officials hunt for militants with explosives believed to still be at large after the coordinated bombings of churches and luxury hotels that killed more than 250 people last weekend.

The bombings in Sri Lanka have once again put a spotlight on the rising tide of violence against Christians all over the world. According to [Open Doors USA](#), an average of [105 churches and/or Christian buildings](#) are burned or attacked every month. That is more than three per day, and almost all of those attacks get ignored by the mainstream media in the western world. In addition, an average of [345 Christians](#) are killed for faith-related reasons every single month. Of course these numbers will soon be out of date, because violence against Christians continues to escalate all over the globe, and the horrifying attacks that we just witnessed in Sri Lanka are a perfect example. Seven people have been shot, one of them fatally, near Perkins Square Baptist Church in Baltimore, Maryland, police say. The attacker is reportedly on the run. The shooting doesn't seem to be connected with the church itself.

A gunman opened fire indiscriminately at a crowd of people on Sunday in what authorities called an "extremely targeted" shooting. Police have confirmed that one of the seven victims has died. Another possible victim, a man with a leg injury, was hospitalized, according to the Baltimore Sun.

The shooting took place near two cookouts located on opposite sides of the street, the

JIHADISTS KILL PASTOR, FOUR OTHERS IN BURKINA CHURCH ATTACK

by AFP | 29 Apr 2019

Ouagadougou (AFP) – Gunmen killed four worshippers and a pastor in the first jihadist attack on a church in Burkina Faso, security and local sources said Monday, in the latest violence to rock the formerly peaceful west African nation.

Sunday's raid took place in the small northern town of Silgadji near Djibo, the capital of Soum province.

"Unidentified armed individuals have attacked the Protestant church in Silgadji, killing four members of the congregation and the main pastor," a security source told AFP.

Federal Court Punishes Philly Faith-Based Foster Care Agency Over Biblical Views on Marriage

04-22-2019 - [Steve Warren](#)

A federal appeals court has upheld a new Philadelphia city policy that forbids Catholic Social Services from placing foster children with families due to the agency's longstanding religious beliefs about marriage.

As [CBN News reported](#), Catholic Social Services has partnered with the city for over 50 years in placing foster children with families. Last year, the city threatened to close the agency because it disagreed with the agency's biblical belief that marriage is between one man and one

IRS Officially Recognizes Satanic Temple as a Church

The Satanic Temple is the perfect religion for progressives. You can believe anything you want, as long as you hate what Donald Trump, Christians and conservatives believe. Unlike the Church of Satan, the Satanic Temple doesn't even believe in a supernatural entity called Satan.

Instead, they celebrate Satan as "the ultimate rebel," and they relish in using the symbol of Satan to greatly upset Christians. The Satanic Temple was founded in 2013, and from the very beginning it was clear that they were primarily a political movement. In fact, they openly tell prospective members that the only real requirement for joining is to

Kansas Supreme Court Strikes Down Ban on 'Gruesome' Dismemberment Abortions

04-26-2019 - CBN News

The Kansas Supreme Court ruled Friday blocking a 2015 ban on dismemberment abortions.

The decision prevents the state from enforcing a previously passed law that greatly limited second-trimester abortions.

The Unborn Child Protection from Dismemberment Abortion Act (SB 95) was the first in the nation to ban the procedure known as "dilation and evacuation abortions."

An Evil So Great America May Never Recover

Approximately [800,000 children](#) go missing in the United States every year, and many of them end up in the hands of sex traffickers. After you read what I have to share with you, I guarantee you will start watching your children much more carefully when they are in public. Earlier today, I received an email from one of my readers encouraging me to check out [John W. Whitehead's latest article](#). So I did, and I was absolutely horrified by what I learned.

In America today, authorities believe that the number of under-age sex workers is somewhere between 100,000 and 150,000. Those children are purchased [millions of times a year](#), and it has become [a \\$9.5 billion industry](#). Every major city in the U.S. has a problem with child slavery, but there are certain areas (such as Washington, D.C.) that have become central hubs. This is a major national crisis, and yet for some reason, very

People in Nevada can now get a driver's license or ID card with an "X" for their gender instead of "M" for male or "F" for female.

The Nevada Department of Motor Vehicles started giving that option Monday in a "final step in a years-long effort to modernize policies toward transgender residents and those who don't identify with either sex."
