اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت . بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعته سابقا .

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض

ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي

المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما

انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَأَن تَوْمِنُونَ.

ثالثا لننتبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

Meteor flyby near Coast of Australia registered the power of a nuclear bomb

May 25, 2019 | 0 | ★★★★★

(Express) – NASA has confirmed a rogue meteorite has near-missed the coast of Australia, striking the Great Australian Bight with the force of a nuclear bomb. The incredible meteor lit up the night skies as it passed over the south coast of Australia on Tuesday, May 21. According to NASA's Centre for Near-Earth Object Studies (CNEOS), the meteor entered the atmosphere at 11.5km per second or 25,724mph. The meteor then partially broke up and crash landed in the waters of the Great Australian Bight bay some 186 miles (300km) west-southwest of Mount Gambier.

Mile-Wide 'Walnut' Asteroid With Its Own Moon To Fly By Earth Saturday

May 21, 2019

(CBS Local) — An asteroid nearly a mile wide with a moon of its own is expected to pass by Earth on Saturday, traveling at 48,000 mph.

The unnamed space rock designated as Asteroid (66391) 1999 KW4 is actually a double asteroid or a binary asteroid. That means it's composed of one large asteroid orbited by a smaller moon. In this case, it's about a third of a mile wide and orbits around the larger body about once every 16 hours.

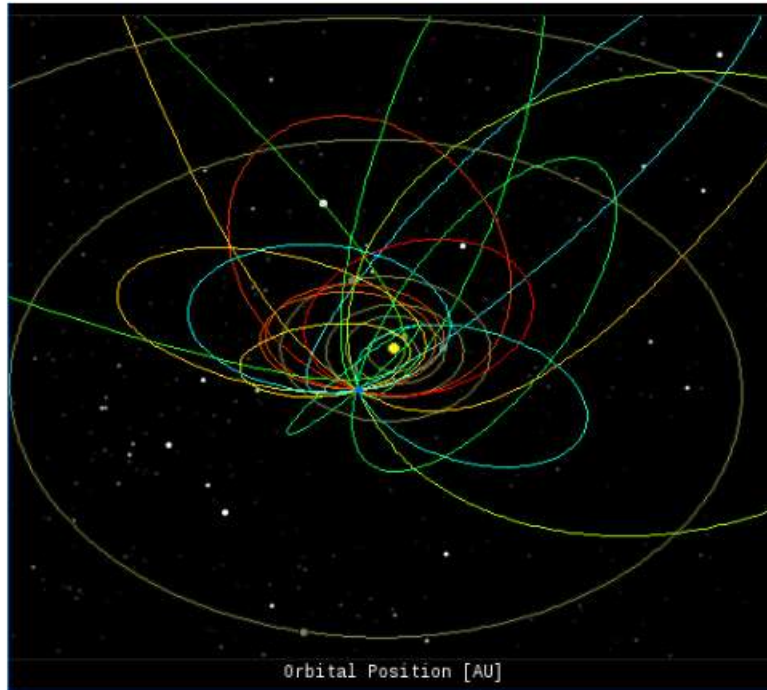

The Las Cumbres Observatory [describes](#) 1999 KW4 as "slightly squashed at the poles and with a mountain ridge around the equator, which runs all the way around the asteroid. This ridge gives the primary an appearance similar to a walnut or a spinning top."

TULSA, Okla. (AP) — Officials on Saturday warned some Tulsa residents to prepare to head to higher ground because old levees holding back the swollen Arkansas River are stressed and more rain is expected for the flood-weary region.

The river was four feet above flood stage on Friday and was already causing flooding in parts of Oklahoma's second-largest city, including in south Tulsa where the murky brown water had inundated low-lying neighborhoods and crept right up to the River Spirit Hotel and Casino,

Records to keep falling in southeastern US as scorching heat wave persists this week

Share this article:   

May 26, 2019; 12:13 PM

Memorial Day marks the unofficial start to summer and sweltering heat will have a firm grip on the Southeast beyond the extended holiday weekend.

While there will be little rain to aid firefights and to impact holiday festivities, residents will have to take the necessary precautions to avoid heat-related illnesses.

Dozens of record highs have fallen amid the heat wave since it began late last week.

Are We on the Brink of a Global Food Crisis?

12:00PM EDT 5/22/2019 | MICHAEL SNYDER

(Photo by Keagan Henman on Unsplash)

It looks like global food production could be well below expectations in 2019, and that could spell big trouble in the months ahead. In recent weeks, I have written extensively about the problems that we have been experiencing here in the United States.

As many as a million calves were lost to the flooding that hit the state of Nebraska [in March](#). farmers have planted [less than half](#) of the corn that is normally in the ground by this time of the year, and a lot of the crops that have been planted in the middle of the country are really struggling due to extremely wet soil.

But it isn't just the United States that is facing a very troubling year. Earlier today, one of my readers sent me an article entitled "[Global food crisis ahead as extreme weather events devastate crops and fields around the world](#)," which I would encourage everyone to read. In that article, we are told that after the worst drought in 116 years,

Total Catastrophe For U.S. Corn Production: Only 30% Of U.S. Corn Fields Have Been Planted – 5 Year Average Is 66%

May 26, 2019 | 0 | *****

OPINION (Michael Snyder) – 2019 is turning out to be a nightmare that never ends for the agriculture industry. Thanks to endless rain and unprecedented flooding, fields all over the middle part of the country are absolutely soaked right now, and this has prevented many farmers from getting their crops in the ground. I knew that this was a problem, but when I heard that only 30 percent of U.S. corn fields had been planted as of Sunday, I had a really hard time believing it. But it turns out that number is **100 percent accurate**. And at this point,

corn farmers are up against a wall because crop insurance final planting dates have either already passed or are coming up very quickly. In addition, for every day after May 15th that corn is not in the ground, farmers lose approximately 2 percent of their yield. Unfortunately, more rain is on the way, and it looks like thousands of corn farmers will not be able to plant corn at all this year. It is no exaggeration to say that what we are facing is a true

Iran Accelerates Production of Enriched Uranium as Tensions Rise

(Bloomberg) – Iran has accelerated the rate at which it's enriching low-grade uranium four-fold, weeks after threatening to gradually scale back its commitments under a 2015 deal meant to prevent it from developing a nuclear bomb.

The semi-official Tasnim news agency quoted Behrouz Kamalvandi, an official at Iran's Atomic Energy Organization, as saying that Iran had increased its output of 3.67% enriched uranium as of Monday, and that the United Nations nuclear watchdog had been informed. The number of active centrifuges has not been raised, it added. Crucially, Iran hasn't increased the level to which it is enriching beyond the agreed limit.

"This issue does not mean that there is an increase in the purity of the material or that there's an increase in the number of centrifuge machines or that there's a change in the

Iran urges China, Russia 'concrete action' to save nuclear deal

By Poornima WEERASEKARA
Beijing (AFP) May 17, 2019

Iranian Foreign Minister Mohammad Javad Zarif on Friday urged China and Russia to take "concrete action" to safeguard the 2015 nuclear deal as he warned of a "dangerous" situation amid rising tensions with the US.

Tensions have ratcheted up with the US deploying an aircraft carrier group and B-52 bombers to the Gulf last week over alleged threats from Iran.

"Iran and China need to think together and work together about preserving a multilateral global order and avoiding a unilateral global order," Zarif said during a meeting with his Chinese counterpart Wang Yi Friday evening.

Talking to reporters earlier, Zarif said he would talk with Chinese officials about "bilateral ties and the very dangerous issues that are ongoing in our region today", according to a video published on the Iranian foreign ministry website.

RUMORS OF WAR: Pentagon may send up to 10,000 troops to Mideast

May 22, 2019 | 0 📰 | ★★★★★

(WP) – The Pentagon on Thursday will present plans to the White House to send up to 10,000 more troops to the Middle East, in a move to beef up defenses against potential Iranian threats, U.S. officials said Wednesday. The officials said no final decision has been made yet, and it's not clear if the White House would approve sending all or just some of the requested forces. Officials said the move is not in response to any new threat from Iran but is aimed at reinforcing security in the region. They said the troops

would be defensive forces, and the discussions include additional Patriot missile batteries, more ships and increased efforts to monitor Iran. The officials spoke on condition of anonymity because the plans have not been formally announced. Thursday morning's meeting comes as tensions with Iran continue to simmer, and it wasn't clear if a decision would be made during the session. Any move to deploy more forces to the Middle East would signal a shift for President Donald Trump, who has repeatedly emphasized the need to reduce America's troop presence in the

Iran is prepared to deploy 'secret weapons' against American warships, a military official in Tehran said, after the Pentagon sent three destroyers to the Persian Gulf amid a wave of increased tensions between the two states.

Without mincing words, General Morteza Qorbani, an adviser to Iran's military command, cautioned that should Washington *"commit the slightest stupidity, we will send these ships to the bottom of the sea along with their crew and planes."*

Iran, he promised, would do so *"using two missiles or two new secret weapons."* He did not

Israel will not join a war against Iran unless attacked by Iran or its regional proxies, *Israel Hayom* reported.

The site quoted an *Independent Arabia* report noting that Israeli security officials met with their US counterparts to discuss the recent tensions between the US and Iran and to share sensitive intelligence, including on Iran's nuclear weapons program.

At the meeting, the Israelis emphasized that their country would only join an Iran-US war if they were attacked by either Iran or its proxies.

Both the US and Iran have claimed that they are not interested in war, but tensions still run high.

British Foreign Secretary Jeremy Hunt on Monday warned Iran not to underestimate the resolve of the US, warning that if American interests were attacked then Washington would retaliate.

"I would say to the Iranians: Do not underestimate the resolve on the US side," Hunt told reporters on the sidelines of the World Health Assembly in Geneva, according to *The Telegraph*.

"They don't want a war with Iran. But if American interests are attacked, they will retaliate. And that is something that the Iranians need to think about very, very carefully," he added.

Major-General Hossein Salami, the commander of the Islamic Revolution Guard Corps (IRGC), said on Sunday that Iran is not looking for war, but it is fully prepared to defend itself.

"The enemies of Iran don't hunt for a war, either. But there is a difference between them and us: they are afraid of war; their limit is where their life is in danger, which makes them easy to be defeated," he claimed, according to the *IRNA* news agency.

Salami further said that the enemy has a powerful façade, but it is actually eroding away, which is the path of all the satanic powers.

Turkey says to produce S-500s with Russia after S-400 missile deal

by Staff Writers
Ankara (AFP) May 18, 2019

Turkish President Recep Tayyip Erdogan on Saturday said Turkey and Russia would jointly produce S-500 defence systems after Ankara's controversial purchase of the S-400 missile defence system from Moscow.

Turkey's push to buy the S-400s has further strained already tense relations with the United States which has repeatedly warned Ankara of the risks including sanctions as a result of the purchase.

"There is absolutely no question of (Turkey) taking a step back from the S-400s purchase. That is a done deal," Erdogan said in Istanbul.

"There will be joint production of the S-500 after the S-400," Erdogan told an audience of young people asking questions.

Ties between NATO allies Turkey and the US have frayed over multiple issues including American support for a Syrian Kurdish militia viewed as terrorists by Ankara and the US failure to extradite a Muslim preacher blamed for the 2016 coup attempt against Erdogan.

Washington says the deal with Moscow is a threat to Western defence and in April suspended deliveries of the F-35 stealth fighter jet to Turkey in a bid to halt the purchase.

Turkish pilots are in the US receiving training on the F-35s, manufactured by Lockheed Martin. Turkey is expected to buy 100 of the jets in total.

The Equality Act would turn America upside down

May 21, 2019 | 0 📌 | ★★★★★

OPINION (TWT) – Democrats in the House are celebrating Friday's passage of the Equality Act, a misnamed legal jackhammer that would add "sexual orientation" and "gender identity" to federal civil rights law. It goes far beyond allowing men into women's sports and locker rooms, as bad as that is. It provides the state with the power to persecute anyone who won't celebrate any aspect of the LGBTQ agenda. Far from merely expanding civil rights categories, it turns any recognition of the differences between the sexes or any preference for traditional sexual morality into actionable "hate," creating fertile grounds for lawsuits. "It is the most dangerous bill to freedom of speech and the free exercise of religion that has

ever been proposed on a national level," says Houston Baptist University Prof. Robert Gagnon, an expert in biblical sexual morality. "It will codify into law that you are a bigot, the moral equivalent of a racist, tantamount to being a member of the Klu Klux Klan, who must be shut out of society and, wherever possible, harassed and persecuted for

Christianity is dying in Germany while Islam rises

Demographics, lack of community cohesion and lack of belief have brought about a mass demolition of churches.

Contact Editor Giulio Meotti, 20/05/19 22:43 | updated: 22:34

In 2001, then Cardinal Joseph Ratzinger told Peter Sewald: "The church will be reduced numerically. In a city like Magdeburg the percentage of Christians is only 8 percent of the total population, including - mind you - all Christian denominations. The statistical data show irrefutable tendencies".

Since 2000, the Catholic church in Germany has desecrated, demolished and sold 540 churches and chapels. Of these, 80 were in Magdeburg. In the diocese of Essen, Bishop Franz Hengsbach saw the number of Catholics halved, so 57 churches were abandoned. In the diocese of Hildesheim, as many as 51 churches have been deconsecrated since 2008.

17 years have passed since that Ratzinger interview and the data has almost collapsed everywhere. From "irrefutable", the numbers seem to have become irredeemable.

In a study commissioned by the Bishops' Conference, researchers at the Albert-Ludwigs-Universität in Freiburg are even more pessimistic than Ratzinger: the total of Christian denominations - adding up the Catholic and Protestant ones - will fall from the current 45 million to 34 million in 2035 and will halve to 22 million within 40 years. The number of Protestants in the next generation will fall from the current 21.5 million to 10.5 million, while that of Catholics from 23 million to 12.3 million.

This is due to demographic decline and dropouts. In the north and east of the country, Christians will be only a small minority with 3.8 and 1.5 million, respectively. The main Protestant churches already saw their percentage halved from 59 to 29 per cent. And today, as Erik Flügge explains in a new book, "90 percent of church members do not participate in community life".

Los Angeles County bans official travel to Alabama due to abortion bill

Los Angeles Alabama travel ban

BIRMINGHAM, Ala. (WBRC) - One of the largest counties in the country says it's not doing business with Alabama because of the recently passed abortion bill.

This week, the Los Angeles County Board of Supervisors voted to implement a one year travel restriction to Alabama for official LA County business except for emergencies.

This comes just a couple of weeks after Governor Kay Ivey signed the most restrictive abortion bill into law. The law bans nearly all abortions.

LA County supervisor Hilda Solis calls it an attack on the residents of Alabama.

DAYS OF LOT: First Same-Sex Couples Marry in Taiwan

May 24, 2019 | 0 | ★★★★★

(VOA) – Same-sex couples tied the knot in emotional scenes in Taiwan on Friday, the first legal marriages in Asia hailed by activists as a social revolution for the region. Taiwan's parliament passed a bill last week that endorsed same-sex marriage. More than 160 same-sex couples married Friday, according to government data, after years of heated debate over marriage equality that has divided the self-ruled and democratic island.

Twenty couples queued to tie the knot at a marriage registration office in downtown Taipei, where rainbow flags were on display alongside stacks of government-issued, rainbow-themed registration forms. "I feel very lucky that I

Middle School Celebrates Drag Queens: 'We Hope the Children Listen'

05-21-2019 - Emily Jones

A North Carolina school invited two drag queens to talk to middle school students about the LGBTQ community and what it's like to be transgender.

Taylor Schmidt and Schara Brooks, two teachers at Central Park School for Children in Durham, North Carolina, told CNN they organized the event with school administrators because they believed LGBTQ students were being bullied.

It's time for California parents to defy the law

By [Michael Brown](#), CP Op-Ed Contributor

As followers of Jesus, we are called to submit to the laws of the land and to honor those in authority. The New Testament is very clear on this (see especially Romans 13:1-7). It is also very clear that there are exceptions to this rule, namely, when the authorities require us to disobey the Lord (see Acts 5:40-42). In that case, with respect, we say, "We must obey God rather than man" (see Acts 4:18-20, 5:29; to be perfectly clear, I'm speaking of *non-violent* resistance to the law.)

That time has come for parents in California.

In good conscience, they must say NO to the school authorities and YES to the Lord. It's time to declare to the schools of California, "Quit using our children as pawns in the culture wars! Quit sexualizing our kids!"

I'm speaking about the radical new [sex-ed curriculum](#) being imposed on all students in the public schools, K-12, without exception, and without the option of parents removing their children from objectionable classes.
