

تعليق على بعض الاحداث العالمية

والعلامات حتى 2 يولييه 2019

Holy_bible_1

اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت . بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيقه اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقه لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعه سابقا .

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض

ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي

المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما

انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

انجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَأَن تَوْمِنُونَ.

ثالثا لننتبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

علامات في السماء

The north pole is moving and if it flips, life on Earth is in trouble

The magnetic north pole is racing towards Siberia - but why? It's a mystery with huge implications, and to solve it, we're building an explosive model of the planet's core

EARTH 26 June 2019

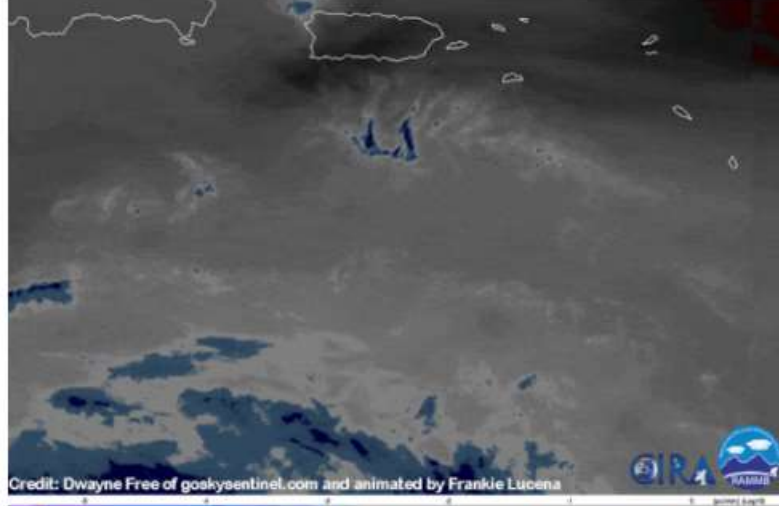

By **Michael Brooks**

CAN you point to the north pole? Almost certainly not. Even if you are armed with a compass, you could easily get it wrong. If you are in California, your needle might be a full 18 degrees out. "You need to take account of that, even if you're just hiking - it can be the difference between going left and going straight on," says [William Brown](#) at the British Geological

نيزك صغير انفجر قرب بورتريكو

SMALL ASTEROID EXPLODES NEAR PUERTO RICO--UPDATED: On June 22nd at 21:25 UT, a small asteroid entered Earth's atmosphere and exploded in broad daylight south of Puerto Rico. Airwaves recorded by the Comprehensive Nuclear Test Ban Treaty Organization's [infrasound station](#) in Bermuda pegged the blast energy between 3 and 5 kilotons of TNT—a fraction of a WW II atomic bomb. The explosion was clearly visible in images from NOAA's GOES-16 weather satellite:

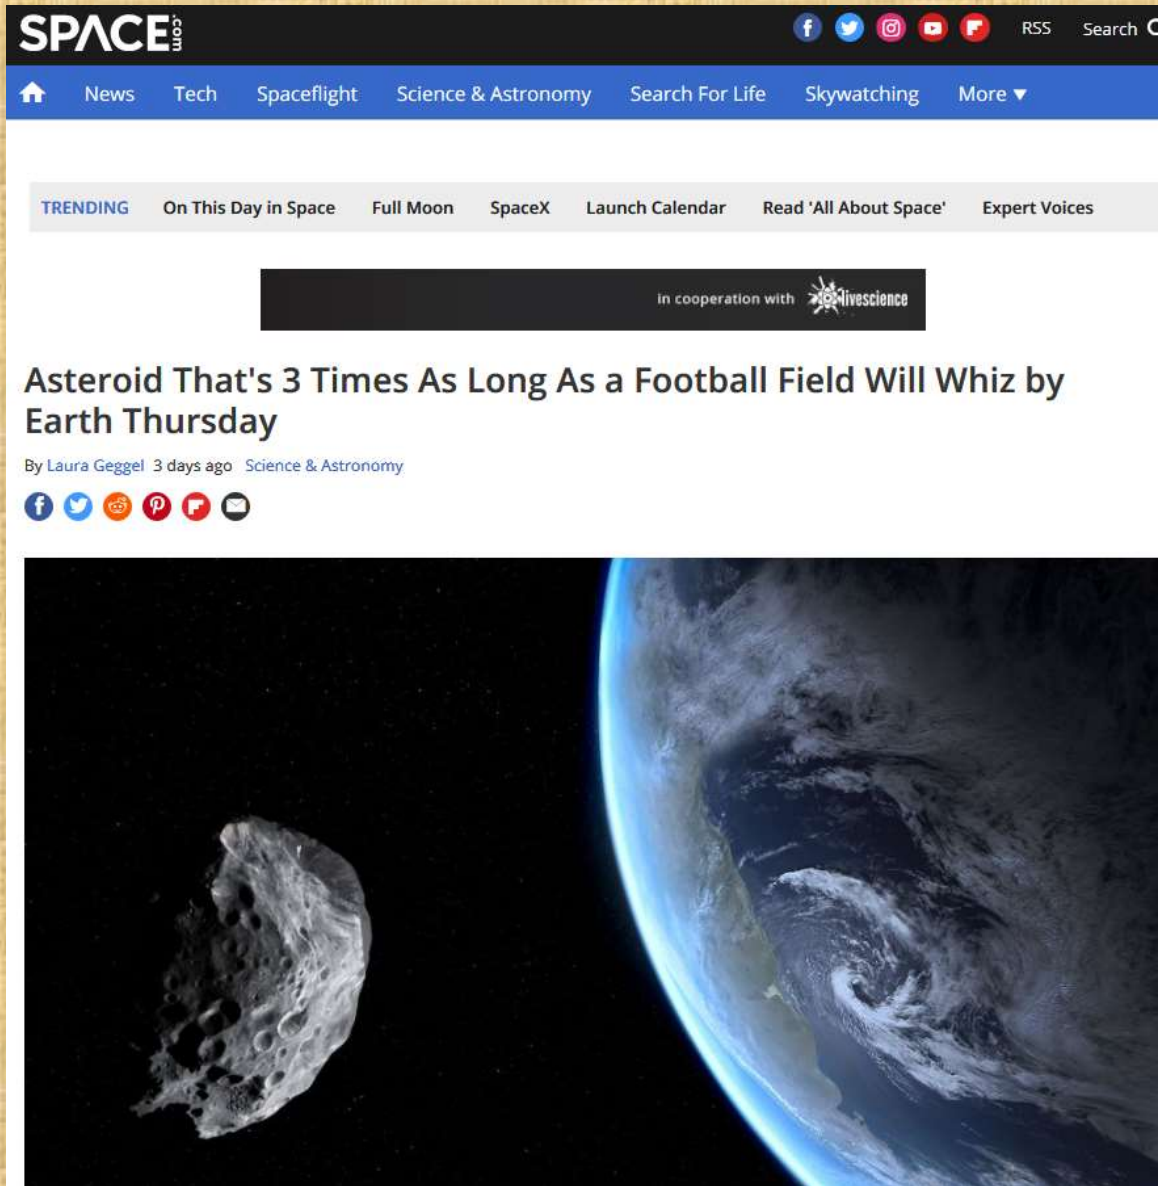

This movie combines data from GOES-16's Global Lightning Mapper and water vapor infrared spectrometer

Meteor expert Peter Brown of the University of Western Ontario says the infrasound signal is consistent with a "small multi-meter sized near-Earth asteroid." According to data compiled by NASA's Center for Near Earth Object Studies, asteroids of this size and energy hit Earth's atmosphere about once a year. That means it's rare—but not exceptionally so.

The asteroid fragmented as it ripped through the atmosphere. This infrared image from the GOES-16 satellite shows the space rock splitting into at least 3 pieces:

Huge Storm Unleashed Hail, Snow, Tornadoes, Floods, Putting 42M Americans at Risk

06-25-2019 - Dale Hurd

After almost 500 reports of wind damage and hail over the weekend, 42 million Americans were in the path of a storm Monday night. A front stretching from Texas to the northeast unleashed heavy rain, damaging winds, tornadoes and flooding.

An EF-2 tornado with speeds up to 125 miles per hour ripped through South Bend, Indiana. Thankfully, no children were inside the Growing Kids Learning Center when the roof was ripped off.

Shocking Before And After Photos Reveal The Truth About The Widespread Crop Failures The U.S. Is Facing In 2019

June 23, 2019

Facebook

Twitter

Pinterest

Email

Torrential rains have been hammering the heartland of America for months, and at this point vast stretches of farmland in the middle of the country are nothing but mud. As a result of the endless rain and unprecedented flooding that we have witnessed, millions of acres of farmland will have nothing planted on them at all in 2019, and that is a major national crisis. But most farmers were able to get seeds planted in the deplorable conditions, and now they are desperately hoping that something will actually grow. Unfortunately, on farm after farm what is coming out of the ground looks absolutely terrible. Even if we get ideal weather conditions for the rest of the summer, there is no way that many of these fields will be ready before the first hard frost arrives. As you will see below, the truth is that we are potentially facing the most widespread crop failures in all of U.S. history.

This is the biggest news story in America so far this year, and the mainstream media is finally starting to understand the gravity of what we are facing. Just consider the following

Spain weather forecast: Spain to hit 108F - health warning as humans DIE at 108F heat

SPAIN has been at the centre of a savage heatwave which hit mainland Europe this week. Spanish weather forecasts are now expecting the mercury to hit 108F (42C) in many holiday resorts popular with Brits – a temperature high enough to kill humans.

Europe Heat Wave Kills Several in France, Spain

By Jan Wesner Childs · 14 hours ago · weather.com

00:50

Several Deaths Reported as Heat Wave Continues to Bake Europe

The brutal heat is having deadly consequences in Europe.

At a Glance

- Authorities in France are attributing several deaths to the heat.
- The country issued its first-ever "red" weather alert.
- Record highs have been set in at least five countries.
- A wildfire burned more than 20 square miles of land in northeastern Spain.

Spain's So Unbearably Hot Right Now, a Manure Pile Spontaneously Ignited a Forest Fire

BI WILL MARTIN, BUSINESS INSIDER
28 JUN 2019

Northern Spain is facing its largest forest fires in two decades as the [heat wave scorching much of Europe](#) continues to intensify.

The fires have swept across Spanish province of Tarragona, near Barcelona, with officials warning that it could eventually engulf as much as 20,000 hectares (200 square kilometers) of land.

"We're facing a serious fire on a scale not seen for 20 years. It could burn through 20,000 hectares. Let's be very aware that any carelessness could lead to a catastrophe," Miquel Buch, the interior minister for the Catalonia region [said in a tweet](#).

Buch said that the cause of the largest of the wildfires was most likely the spontaneous ignition of a giant pile of manure which had been "improperly managed," [according to CNN](#).

Freak hailstorm buries major Mexico city under FIVE FEET of ice

Jun 30, 2019 | 0 | ★★★★★

(The Sun) – A freak hailstorm has buried a major city in Mexico under 5ft of ice – leaving dozens of drivers trapped and damaging buildings. Roads were completely blocked after hail and heavy rain bombarded Guadalajara, the capital of Jalisco state in western Mexico on Sunday. Piles of hail reached as high as 1.5 meters or 5ft in some places, with Rancho Blanco and the Industrial Zone the worst affected areas.

Jalisco Governor Enrique Alfaro Ramírez said he had “never seen” such a heavy blitz of hail in the area before. “I went there to evaluate the situation and I witnessed scenes which I had never seen before: hail accumulation more than a meter high, and then we wonder if climate change exists,” he said. Some streets were transformed into rivers of dense moving hail and several people had to be rescued from the roofs of their cars. Numerous cars

Yellowstone: Scientists were 'nervous' after earthquakes

2008 Holiday Swarm

James Fennell, Clark Utah

The **Yellowstone volcano** has been showing huge amounts of signs of activity in the past few weeks, with a staggering 81 earthquakes shaking the national park. Most of the tremors have been relatively small, with the largest registering as a two on the Richter scale. But some

الزلازل التي ضربت في أماكن براكين حول العالم في 24 ساعة

DEVELOPING: Earthquakes produce volcanic activity across the globe over the past 24 hours

Jul 1, 2019 | 0 🌐 | ★★★★★

(Express) – Earthquakes have caused volcanic activity across the globe over the last 24 hours, near some of the most potentially dangerous sites on the planet. Volcanoes throughout the world have felt the repercussions of earthquakes over the last 24 hours, as a rash of activity spread to the most distant corners of the globe. The Katla volcano in Iceland, Mount St Helens in California, Kilauea in Hawaii and Etna on Sicily were among those seeing increased activity.

Some of these volcanoes saw enough seismic activity to constitute an earthquake 'swarm'. Monitors with Volcano Discovery documented earthquakes near notable volcanoes with a magnitude of two or higher. Clear Lake volcano (California): 17 earthquakes over 23 hours, indicates possible earthquake swarm. All earthquakes in the area reached a magnitude of 1.1 or lower. – Katla volcano (Iceland): Six earthquakes under the volcano over 11

Russian Volcano Erupts for the First Time Since 1924 And the Images Are Stunning

Published: | weather.com
Jun 25 2019 9:30 PM

Raikoke Volcano on the Kuril Islands of Russia, south of the volcanically active Kamchatka Peninsula, erupted last weekend for the first time since 1924 and the images from space were out of this world.

A large plume of ash and volcanic gases shot up from the **stratovolcano's** 2,300-foot-wide crater about 4 a.m. local time on Saturday, June 22, ending a dormant period that had been ongoing for the past 95 years.

Several satellites, as well as astronauts aboard the International Space Station (ISS), captured **stunning images of this thick ash plume** as it rose and eventually streamed eastward, pulled into a storm system over the North Pacific Ocean.

ISS astronauts shot the photograph below, which shows the volcanic plume rising in a narrow column and then spreading out in a part of the plume known as the **umbrella region**. That's the area where the density of the ash plume becomes equal to that of the surrounding air, causing the plume to stop rising, NASA said.

Raikoke volcano: Satellite footage captures spectacular eruption

Images show by satellites show a massive plume of volcanic ash from the Raikoke volcano, located in the Pacific Ring of Fire, following an eruption on Saturday, June 22. The pictures, taken by NASA Earth Observatory shows the volcano erupting in the Kuril Islands in Russia's Sakhalin Oblast region, near the Kamchatka Peninsula. Unlike some of its perpetually active

Manam volcano erupts 2 days after eruption of Ulawun in Papua New Guinea

Jun 30, 2019 | 0 🌐 | ★★★★★

(VD) – Just 2 days after the large eruption of Ulawun, another large explosive eruption occurred in Papua New Guinea today, this time from Manam volcano located on a small island north of the mainland. Earlier today, the more or less permanently active volcano had another of its not usual, short-lived, but the very intense paroxysmal episode with lava fountaining occurred today, starting around 13:00 local time. An ash plume that rose to 50,000 ft (15 km) altitude. A few hours later, the ash plume became separated from the volcano and was observed

Thousands of floating dead fish in Lely Resort

A massive fish kill was discovered by locals at Eagle Lakes Community Park in Lely Resort Saturday.

Witnesses told us they were walking in the park near the lake and noticed a large silver mass lining the bank. As they got closer, they were surprised to see thousands of dead fish floating in the water.

"At first I thought it was like foam at the edge of the water or something," said Marcel Doese, a visitor. "But no this is 1,000, 1 million little fish and bigger fish."

Japan scrambles jets to counter Russian bombers in its airspace

by Ed Adamczyk
Washington (UPI) Jun 21, 2019

Russian bombers violated Japanese airspace, prompting a scramble of fighter planes to escort them away, Japan's defense ministry said.

Two Tu-95 bombers entered Japanese airspace near Minamidaito Island in Okinawa Prefecture on Thursday morning for about three minutes, and one later re-entered the airspace for about two minutes near Hachijo Island in the Izu island chain, the ministry said. It added no dangerous maneuvers were observed.

The planes were later seen flying southward from the Sea of Japan through the Tsushima Strait between Japan and South Korea in the morning.

A "stern protest" against Russia was lodged over the incident, the Japanese Foreign Ministry later said. Russia insisted that the planes did not violate Japan's airspace but flew over international waters during a 14-hour flight.

Fear and frustration in Iran's capital after aborted US attack

By Amir Havasi
Tehran (AFP) June 22, 2019

Fear of a potential war and frustration over biting sanctions are high in Iran's capital, after a last-minute decision by the US to pull back from attacking the Islamic Republic.

On the surface, it was business as usual on Saturday in Tehran's bustling Karim Khan street, a hub for printing parts and materials.

Shopkeepers loaded boxes of paper into trucks and print house agents haggled over ink and machine repair prices.

"We still don't know what's going to happen," said print shop manager Mehrad Farzanegan, less than 48 hours after Washington aborted a military operation against three Iranian targets in response to the Islamic Republic shooting down an unmanned US drone.

That escalation came after the US and key allies accused Iran of attacking two vessels earlier this month in the Gulf of Oman — a charge it has vehemently denied.

"The economic situation deteriorates by the day (and) sanctions get harder", Farzanegan said.

Last year US President Donald Trump unilaterally pulled out from the Iran nuclear deal and imposed biting

Additional US fighter planes sent to Gulf amid Iran tensions

By ROBERT BURNS yesterday

WASHINGTON (AP) — Nearly a dozen Air Force F-22 stealth fighters have deployed to the Persian Gulf state of Qatar, part of a force buildup requested by U.S. Central Command in May in response to what it called heightened Iranian threats against American forces in the region.

The Air Force arm of U.S. Central Command on Friday said the F-22 Raptors arrived this week at al-Udeid air base to “defend American forces and interests.” It posted to its website photos of several F-22s arriving there on Thursday and said this is the first time F-22s have deployed to al-Udeid, which is a hub for U.S. air operations in the Middle East.

F-22s, which carry air-to-air missiles and can perform ground-attack missions as well, had previously deployed to al-Dhafra air base in the United Arab Emirates, where they were used last year in support of U.S. and partner forces in Syria.

Four B-52 strategic bombers were deployed to al-Udeid days after a May 5 White House announcement that the USS Abraham Lincoln aircraft carrier strike group also was being rushed to the region in response to “troubling and escalatory indications and warnings” and as a “message to the Iranian regime that any attack on United States interests or on those of our allies will be met with unrelenting force.”

At the request of Gen. Frank McKenzie, commander of Central Command, additional Patriot air-and-missile defense systems also were sent to the Gulf region in recent weeks.

Iran plays down threat of new US sanctions

By Amir Havasi
Tehran (AFP) June 24, 2019

Iran on Monday played down the threat of new US sanctions as Washington was expected to tighten punitive measures on Tehran in a standoff sparked by the US withdrawal from a nuclear deal.

Tensions have flared after Iranian forces shot down a US drone Thursday, the latest in a series of incidents including attacks on tankers in sensitive Gulf waters that have raised fears of an unintended slide towards conflict.

Both the US and Iran have repeatedly said they want to avoid going to war, but the spiralling tensions saw US Secretary of State Mike Pompeo travel Monday to meet with Saudi leaders to build a "global coalition" against the Islamic republic.

Tehran says the drone violated Iranian airspace and Foreign Minister Mohammad Javad Zarif has backed the claim with maps and coordinates -- allegations dismissed by Washington.

US President Donald Trump claimed he called off a planned retaliatory military strike on Iran at the last minute, tweeting that Washington would instead place

Iran executes 'defence ministry contractor' over spying for CIA: news agency
Tehran (AFP) June 22, 2019 - Iran has executed a "defence ministry contractor" convicted of spying for the US Central Intelligence Agency, semi-official news agency ISNA reported Saturday.

"The execution sentence was carried out for Jalal Haji Zavar, a contractor for the defence ministry's aerospace organisation who spied for the CIA and the American government," ISNA reported, quoting the Iranian military.

Turkey unafraid of US sanctions over S-400 deal: minister

by Staff Writers
Ankara (AFP) June 24, 2019

Turkey said Monday it does not fear US sanctions over its decision to buy a Russian missile defence system that has frayed ties between the NATO allies.

The United States has given Turkey a deadline of July 31 to drop the purchase of the S-400 system, or face sanctions and removal from its F-35 fighter jet programme.

"Regardless of whatever sanctions there may be, whatever the messages from America, we've bought the S-400," Foreign Minister Mevlut Cavusoglu told reporters in Ankara.

He said Turkey was working on the date for the system's delivery, which President Recep Tayyip Erdogan has said would be in the first half of July.

"If there's an attack on Turkey tomorrow, we cannot expect NATO to protect us because NATO's capacity would only protect 30 percent of Turkey's airspace," Cavusoglu said.

NUKE WARS

Israel will do 'everything' to stop Iran going nuclear: Netanyahu

by Staff Writers
Jerusalem (AFP) June 24, 2019

Israel's Prime Minister Benjamin Netanyahu said Monday his country will do "everything" to prevent arch-rival Iran from obtaining nuclear weapons, during a visit by a senior Russian security official.

"Israel will not allow Iran, which calls for our destruction, to entrench on our border; we will do everything to prevent it from attaining nuclear weapons," Netanyahu said.

He was speaking alongside Nikolai Patrushev, the head of Moscow's powerful security council, whose visit followed weeks of simmering tensions between Tehran and Washington in the Gulf.

Israel has carried out repeated strikes to prevent Iranian forces becoming embedded in neighbouring Syria, where both Iran and Moscow back the government of President Bashar al-Assad.

The Israeli government has vowed never to let Iran obtain a nuclear weapon, believing Israel would be the target.

Bloomberg

Ellen Milligan

Bloomberg June 29, 2019

(Bloomberg) -- American psychologist Paul Ekman's research on facial expressions spawned a whole new career of human lie detectors more than four decades ago. Artificial intelligence could soon take their jobs.

While the U.S. has pioneered the use of automated technologies to reveal the hidden emotions and reactions of suspects, the technique is still nascent and a whole flock of entrepreneurial ventures are working to make it more efficient and less prone to false signals.

Facesoft, a U.K. start-up, says it has built a database of 300 million images of faces, some of which have been created by an AI system modeled on the human brain, The Times reported. The system built by the company can identify emotions like anger, fear and surprise based on micro-expressions which are often invisible to the casual observer.

"If someone smiles insincerely, their mouth may smile, but the smile doesn't reach their eyes — micro-expressions are more subtle than that and quicker," co-founder and Chief Executive Officer Allan Ponniah, who's also a plastic and reconstructive surgeon in London, told the newspaper.

‘Doomsday’ Math Says Humanity May Have Just 760 Years Left

An 18th-century equation that powers today’s computer algorithms also predicts the demise of humankind

By William Poundstone

Updated June 27, 2019 3:56 pm ET

SHARE

TEXT

58

Is humanity doomed? We certainly don’t lack apocalyptic scenarios: nuclear war, a robot uprising, out-of-control climate change. Unlikely, far-fetched? Not according to scientists and mathematicians who, in recent decades, have found a surprising new source for anxiety about the long-term survival of the human race: probability theory. The so-called “doomsday argument” holds that there is a 50% chance that the end of human life will come within 760 years.

New data shows depth of U.S. mental health crisis

U.S. suicide rates are at the highest level since World War II, according to a new Centers for Disease Control and Prevention report, per [Bloomberg's Cynthia Koons](#).

By the numbers: From 2000 to 2006, the suicide rate in the U.S. increased by an average of about 1% a year. From 2006 through 2016, it increased by 2% a year. There were 1.4 million suicide attempts in 2017 and 47,000 deaths.

Why it matters: Despite an improvement of material well-being, emotional distress in the U.S. has reached "crisis levels," according to the CDC.

- Koons reports that the national mental health epidemic stems from various causes, including "genetic, social, and environmental factors."
- It's reached the scale of "the global financial crisis" — and yet there is no groundwork in policy, manpower or in institutions to address it.

Go deeper: [Generation Z's suicide epidemic](#)

The National Suicide Prevention Lifeline ([1-800-273-8255](tel:1-800-273-8255)) provides 24/7, free and confidential support for anyone in distress, in addition to prevention and crisis resources. [Also available for online chat.](#)

United Church of Christ clergy hold service of blessing at Planned Parenthood

June 24, 2019

Written by Sara Fitzgerald

In the wake of new state legislation and Trump administration policies restricting the reproductive rights of women, a group of clergy and lay people attending the United Church of Christ's General Synod traveled to a Milwaukee Planned Parenthood clinic after worship on Sunday to join its staff in a service of blessing and solidarity.

The gathering reaffirmed the denomination's long history of support for reproductive choice for women and for health care providers delivering the full range of services to their women patients.

The Rev. Traci Blackmon, a trained nurse and the UCC associate general minister of Justice and Local Church Ministries, assured the participating Planned Parenthood staff members that "the UCC stands with you."

Referring to the new restrictions, Blackmon asserted, "This is not about reproductive rights. This is about controlling women. This is not about saving lives. It's about controlling women. It is not about children. It is about controlling women. If it were about children, we would have the same amount of energy at the border right now. If it was about children, we wouldn't have children being hungry at night.

"This is a fight for a woman's right to be," she concluded, "and we will not go back."

Tanya Atkinson, president and CEO of Planned Parenthood of Wisconsin, said she would not "be able to find the words to express how meaningful it was" to her and her colleagues to have UCC faith leaders join them on the "sacred ground" of the clinic. She said "that as

a person of faith," it was painful to her to "have faith used against us."

Condom Relay Races for 10-Year-Old Schoolgirls – CA Parents Outraged Over New Explicit Sex Lessons

Jun 25, 2019 | 0 | ★★★★★

OPINION (CBN) – Although schools are now in summer recess in almost every part of the country, there are more than a few parents in California who would like to “take a few of their school administrators to school.” Many parents are outraged at the newly approved sex education materials that are now being taught in public schools. One school even had condom relay races for 10 to 11-year-old girls, where in front of boys, were taught how to put a condom on a model of an adult male, according to [The Christian Post](#). “It’s

shocking,” Rebecca Friedrichs, the founder of [For Kids & Country](#) told the CP. “I always tell people that the scary thing is, I’ll give radio interviews and I can’t even say on the radio things that are being taught in our elementary and middle school classrooms in mixed company. There’s something very wrong there,” she said. As CBN News reported in May, the state of California was ready to adopt a no-holds-barred K-12 health curriculum that teaches

California's controversial new sex ed guidance contains medically risky advice that reads like it was written by a

فلهذا اطلب أن نصلي ونستعد ونعد زيت لمصاييحنا لاستقبال العريس بالصلاة والصوم وخدمة

أبناء الله وتنقية القلب والاستعداد بلبس العرس.

رسالة بولس الرسول الي أهل رومية 13

13: 11 هذا وأنكم عارفون الوقت انها الان ساعة لنستيقظ من النوم فان خلاصنا الان أقرب مما كان حين امنا

13: 12 قد تنهى الليل وتقارب النهار فلنخلع اعمال الظلمة ونلبس اسلحة النور

13: 13 لنسلك بلياقة كما في النهار لا بالبطر والسكر لا بالمضاجع والعهر لا بالخصام والحسد

13: 14 بل البسوا الرب يسوع المسيح ولا تصنعوا تدبيرا للجسد لأجل الشهوات

احترس ان لم تتمسك بالمسيح من الان قد لا تستطيع في المستقبل القريب بسبب الظلام.

وكما قلت هو اخبرنا لكي لا نخاف

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

بطرس الأولى 3: 14

وَلَكِنْ وَإِنْ تَأَلَّمْتُمْ مِنْ أَجْلِ الْبِرِّ، فَطُوبَاكُمْ. وَأَمَّا خَوْفُهُمْ فَلَا تَخَافُوهُ وَلَا تَضْطَرُّوْا،

بل نؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.».

افرحوا لان عريسنا قد اقترب مجيؤه. وانتبهوا الشيطان يريد أن نفقد سلامنا ولا ننال أكاليل.

وأيضا استعدوا فقد تسلموا وديعتكم في أي وقت فهناك 150 ألف شخص يموتوا في اليوم الواحد

انت لا تعرف متى ستكون منهم

المسيح اقترب فاصنعوا ثمار تليق بالتوبة واستعدوا لاستقبال العريس.

والمجد لله دائما
