والعلامات حتى 16 يوليه 2019

اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت . بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيقه اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقه لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعه سابقا .

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض

ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي

المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما

انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لننتبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

NASA Warns Violent Explosions On Sun's Surface Will Increase

NASA warned that the Sun's solar minimum cycle is about the end, which would lead to more violent and frequent solar eruptions in the coming years. These could cause large coronal mass ejections that are capable of paralyzing Earth's technology.

According to NASA, the Sun is still in its solar minimum phase. During this time, solar activity is pretty low and sunspots and solar flares do not happen regularly. However, the space agency noted that the current phase, which cycles every 11 years, is about to end soon.

After more than a month of inactivity in the tropical Atlantic basin, development is likely in the northern Gulf of Mexico with potential impacts to residents and visitors later this week and this weekend.

A non-tropical system tracking through and triggering showers and thunderstorms across the South early this week will eventually end up over the warm waters of the Gulf of Mexico around midweek.

DEVELOPING: Gulf Coast Prepares for Tropical Storm Barry, Evacuations Ordered in Louisiana

Jul 11, 2019 | 0 | ★★★★★

(TWC) – Residents in several Gulf Coast states continued to prepare Thursday for the potential of days of flooding from Tropical Storm Barry. Jefferson Parish President Michael Yenni issued a mandatory evacuation order Thursday for residents in the lower lying Lafitte, Crown Point and Barataria, effective 2 p.m. CDT Thursday. "With the way the storm has shifted, and with the winds, we do feel like people could get trapped, and we certainly don't want that to happen,"

Tropical Storm Barry could dump 20 inches New Orleans, nearing levees' limits

Doug Stanglin, Doyle Rice and Leigh Guidry, USA TODAY Published 9:03 a.m. ET July 12, 2019 | Updated 11:57 p.m.

NEW ORLEANS – Tropical Storm Barry, building strength as it churned through the heated waters of the Gulf of Mexico, was on track to hit the Louisiana coast early Saturday as a Category 1 hurricane, threatening to pack its biggest punch not with high winds but heavy rain and a dangerous storm surge.

Across Louisiana, National Guard troops and rescue crews manned boats and high-water vehicles while utility repair crews with bucket trucks moved into position. Homeowners sandbagged their property or packed up and left.

"The real damage has never been about wind; it has always been about rain," Gov. John Bel Edwards said Friday after a meeting with his command center team.

Edwards said there are forecasts for 10 to 20 inches of rain over widespread areas and up to 25 inches in isolated areas.

As of 10 p.m. CDT, Barry was 75 miles south of Morgan City, Louisiana, and was crawling through the Gulf of Mexico at 3 mph. The storm is expected to shift northwest

A confirmed F1 tornado swept through the town of Saint-Roch-de-l'Achigan, about 50 km (31 miles) north of Montreal, Quebec, Canada on July 11, 2019.

The twister touched down at about 18:30 LT and was about 200 m (656 yards) in diameter.

It caused significant damage on the grounds of Camping Horizon where trailers were damaged, trees stripped of the branches and hydro lines severed, the Montreal Gazette [reports](#). One person was injured after the tornado caused a trailer she was in to roll over.

At least 25 trailers were damaged, camp officials said. Luckily, most of the campsite was empty at the time as residents were attending a public consultation about a small airport being planned in the region.

An earthquake measuring 5.5 on the Richter scale jolted Western Australia on Monday morning, according to the US Geological Survey.

This comes a day after a 6.6 magnitude earthquake struck the same region on Sunday.

Monday's tremor had a depth of 10 kilometres and has an epicentre in the Indian Ocean, close to Derby in Western Australia.

No tsunami warnings have been issued and no reports of destruction or casualties have surfaced yet.

THOUSANDS of fish have been wiped out in the Blackwater and Owenass rivers, which run through Mountmellick.

Dead fish floating on top of the water were first noticed by a man walking along the bank of the Owenass on Friday evening. He subsequently alerted members of Mountmellick Angling Association.

Il fiume Mella e la precarietà del suo ecosistema tornano a far parlare di sé. Lo dimostra un video inviato da un nostro lettore, girato tra il centro di Castel Mella e la frazione di Onzato, dove una moria di pesci (centinaia gli esemplari morti) si è registrata nella giornata di venerdì.

La moria potrebbe esser stata causata dalle alte temperature, unite al livello molto basso dell'acqua nella zona. Non si escludono comunque altri motivi, da uno svuotamento illegale alle tossine rilasciate da un'altra. Per far

3 triệu con lợn bị tiêu huỷ vì nhiễm dịch tả châu Phi

Bốn tháng sau khi ổ dịch đầu tiên được phát hiện ở Hưng Yên, dịch tả châu Phi đã lan rộng ra 60 tỉnh, thành.

▪ Phát hiện ổ dịch tả lợn châu Phi ở Việt Nam

Ngày 28/6, phát biểu tại cuộc họp của Bộ Nông nghiệp và Phát triển nông thôn, ông Phạm Văn Đông (Cục trưởng Thú y) nói, dịch tả lợn châu Phi đang lây lan nhanh; đến nay 3 triệu con lợn nhiễm bệnh ở 60 tỉnh, thành trên cả nước đã bị tiêu huỷ. Tuy nhiên, dịch vẫn chưa có dấu hiệu giảm và nguy cơ tiếp tục lây lan các tỉnh còn lại, nhất là khu vực đồng bằng sông Cửu Long.

Ông Nguyễn Xuân Dương - Cục trưởng Chăn nuôi cho hay, để bù đắp thị phần thịt lợn bị thiếu hụt do dịch, ngành nông nghiệp đang đẩy nhanh tái cơ cấu, tăng thị phần chăn nuôi đại gia súc (trâu, bò); mở rộng quy mô đàn lợn ở những vùng không có dịch, những cơ sở chăn nuôi an toàn sinh học.

Bộ trưởng Nông nghiệp và Phát triển nông thôn Nguyễn Xuân Cường nói, dịch tả lợn châu Phi không chỉ gây thiệt hại về kinh tế mà còn đe dọa đến môi trường. Do vậy, ông đề nghị các đơn vị liên quan cố gắng cao nhất hạn chế thiệt hại, đồng thời cần nhìn lại chiến lược của ngành chăn nuôi sau đợt dịch tả.

Nearly 60 dying birds fell from the sky in Australia, leaving witnesses horrified.

Sarah King, founder of local nonprofit Casper's Bird Rescue in Adelaide, a city in Southern Australia, was contacted by a member of her staff who discovered corella birds falling out of nearby trees and the sky.

A few were dead on sight. The rest, she told [the Guardian](#), were screaming in pain with blood gushing out of their eyes and beaks.

"What we were seeing was something out of a horror movie," she said to the Guardian.

King suspected poisoning of the birds, as the short-billed species of corella — a type of cockatoo — is a known pest in Australia. They are known to kill crops and damage power lines.

Brand-New S-500 Missile Systems Can Tackle Attack From Space

by Staff Writers
Moscow (Sputnik) Jul 09, 2019

In late June, Sergei Chemezov, chief executive of the country's defence industry giant Rostec, said that Russia had recently started manufacturing the sophisticated S-500 missile systems.

The new S-500 air defence system will specifically be aimed at countering an attack from outer space, Yuri Muravkin, the deputy chief of the Russian Aerospace Forces' anti-aircraft missile troops, told the Russian daily Krasnaya Zvezda.

"Realising the fact that nowadays and in the foreseeable future, the boundaries between air and space are being and will be erased as the aerial enemy gradually becomes an aerospace one, it is safe to say that the S-500 Prometey missile systems entering service is [already] in the pipeline", Muravkin pointed out.

The remarks come after Sergei Chemezov, CEO of the state-run corporation Rostec, said in an interview with the Russian broadcaster Rossiya 1 in late June that they are "already starting to produce the S-500".

France's Macron announces creation of a new space force command

By Daphne BENOIT
Paris (AFP) July 13, 2019

French President Emmanuel Macron on Saturday announced the creation of a new national military space force command that will eventually be part of his country's air force.

The declaration -- made on the eve of France's Bastille Day national celebrations that feature a military parade down Paris's Champs-Élysées -- mirrors an initiative in the US championed by President Donald Trump.

"To assure the development and the reinforcement of our capacities in space, a high command for space will be created in September," Macron told military brass gathered for a traditional pre-Bastille Day reception.

He called the renewed military focus on space a "true national security issue".

Last year Macron had spoken of the need for a strategy for space defence and this was the result, he said.

"The new spatial and military doctrine that has been proposed to me by the (defence) ministry, which I have approved, will allow us to ensure our defence of space...", he added.

"We will reinforce our knowledge of the situation in space, we will better protect our satellites, including in an active manner," he said.

Defence Minister Florence Parly would reveal details of the funding at a later date, he added.

China demands US cancel arms sale to Taiwan

by Staff Writers
Beijing (AFP) July 9, 2019

China demanded Tuesday that the United States "immediately cancel" a potential sale of \$2.2 billion in arms to self-ruled Taiwan, including battle tanks and anti-aircraft missiles, adding fuel to tensions between the two powers.

It would be the first big-ticket US military sale to the democratically-governed island in decades, and comes as ties between Washington and Beijing are already strained by their trade war.

China has lodged formal complaints through diplomatic channels expressing "strong dissatisfaction and resolute opposition" to the move, foreign ministry spokesman Geng Shuang said at a regular press briefing.

The deal includes 108 M1A2T Abrams tanks, 250 Stinger portable anti-aircraft missiles, related equipment and support at an estimated cost of just over \$2.2 billion, according to the US Defense Security Cooperation Agency (DSCA).

The proposed sale "will contribute to the modernization of the recipient's main battle tank fleet", improve its air defense system and "support the foreign policy

In his speech at the United Nations, Netanyahu claimed that in August 2018, the Iranians removed 15 kilograms of enriched uranium from the atomic reactor, which it did not declare before the International Atomic Energy Agency, and said it was one of a series of steps the Iranians had taken to "cleanse" the site from incriminating evidence. Instead, they claimed that this was a carpet factory and denied that any nuclear activity had taken place.

Iranian Foreign Minister Mohammad Javad Zarif said on Sunday that the Europeans have shown no willingness to invest what is necessary to maintain the 2015 nuclear agreement between his country and world powers.

"There is a big difference between expressing willingness and willingness to invest," Zarif told reporters in New York, according to *Kan News*.

Iran has threatened to abandon further nuclear commitments under the 2015 deal unless the partners remaining after the US withdrew last year -- Britain, China, France, Germany and Russia -- helped it circumvent US sanctions, especially to sell its oil.

A Virginia family is reeling after a terrifying first night in their new home. They told police that a naked woman wearing a blue ponytail broke in, attacked the family, and claimed to be the devil.

The house in Chesterfield County is now in a state of disarray, with bullet-riddled walls, blood-soaked carpets, and broken windows. The home invasion occurred around 10:30 p.m. on Independence Day, when the woman allegedly entered the home through the basement.

The husband in the Lewis family, who declined to appear on camera to [local](#) media and whose first name was not reported, said the woman claimed to be Satan.

"I said, 'Who are you?' he explained. "She said, 'I need your help,

Revival Exploding in Sri Lanka 2 Months After Horrific Easter Church Bombings

8:00AM EDT 7/12/2019
Lyndsey Koh/Mission Network News

Devotees pray during the reopening ceremony of the St. Anthony's Shrine, one of the churches attacked in the April 21st Easter Sunday bombings in Colombo, Sri Lanka, June 12, 2019.. (Reuters)

It has been over two months since ISIS suicide bombers in Sri Lanka devastated three churches and three hotels on Easter Sunday, killing over 250 people and injuring around 500. Since then, national leaders have responded with investigations and arrests.

But the Christian community is responding to extremist hate with something even more radical: love and forgiveness.

At least 100 men, women and children have been incinerated in a "well-targeted attack" on Christians by jihadists in central Mali, according to reports.

The exact number of victims who died in Sobame Da, a mainly Christian village, isn't known because many of the bodies were burned beyond recognition.

The Barnabas Fund, a global ministry to the persecuted Christian church, said the heavily armed Muslim attackers struck at night.

A source said it was the "worst massacre in Mali since 1946 and happened when jihadists encircled a village that was home to ethnic Dogon people."

The Muslims then set fire to "everything that moved" in their "well-targeted attack."

CBNhas reported this week that a book written by NRB member Anne Paulk, who heads the Christian ministry Restored Hope Network, has been stripped off of Amazon's popular book site. When questioned about the banning of Paulk's book, *Restoring Sexual Identity: Hope for Women Who Struggle with Same-Sex Attraction*, Amazon replied that the book violated its "content guidelines." The tech giant's rules openly state that even though books containing "objectionable" viewpoints will be permitted on its site, nevertheless works exhibiting "intolerance" toward "sexual orientation" issues will be stricken.

If you told me 20 years ago that I would write three major books on LGBT themes along with several hundred articles, I would have been quite surprised, to say the least. But if you told me just one year ago that I'd be writing an increasing number of articles on the subject of witchcraft, not to mention including it as a major theme in a book, I would have been equally surprised. Witches? Witchcraft?

The American Psychological Association has created a task force on what it calls "consensual non-monogamy". (Adobe stock image)

In the 1960s, the popular saying was, "If it feels good, do it." Now the American Psychological Association has created a task force on what it calls "Consensual Non-Monogamy" to encourage people to do just that. And do it with no societal stigma or shame attached to it.

According to the [APA's Division 44](#) website, the Task Force "promotes awareness and inclusivity" for any kind of sexual impulse, including "polyamory (group sexual relations), open relationships, swinging, relationship anarchy," and other kinds of so-called "ethical" non-monogamous relationships.

10-Year-Olds Suspended From UK School After Teachers Accuse Children of 'Homophobic Remarks'

By Heather Clark on July 6, 2019 · 8 Comments

LONDON — Two 10-year-old children in the United Kingdom were reprimanded and suspended for five days over allegations that they had made “homophobic remarks” after expressing objection to a lesson for Pride Month.

According to the Christian Legal Centre, the incident took place on June 20 as a fifth grade teacher at Heavers Farm Primary School handed out a coloring sheet to his class.

“Sir, please, may I not take part in this lesson?” a boy named Farrell asked, [according to a press release from the organization](#). The teacher advised that

Fleeting Depiction of Lesbian Mothers in ‘Toy Story 4’ Characterized as Being ‘Subtle to Desensitize Children’

By Heather Clark on July 9, 2019 - 4 Comments

The quiet and fleeting depiction of lesbian mothers in an opening scene of “Toy Story 4” is being praised by homosexual advocates as a “small moment of normalization.” However, the cursory inclusion has also raised concern among some family groups who opine that it is a “subtle [way] to desensitize children” to homosexuality.

According to reports, in the beginning of the animated film, as Woody’s new owner, Bonnie, attends her first day of kindergarten, in the background — among the other children arriving for class — is a boy who is dropped off by two women. The women, who appear to be the child’s “mothers,” also embrace the boy as they return later at the end of the school day.
