اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية.
والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه لأننا نور العالم
الذي أصبح مظلم وليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا
مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة
بأيمان عامل بالمحبة والتبشير وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان
الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان
وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك
زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان
سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشتر اشاعات او اخيف البعض
ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي
المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما
انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَأَنْتَضِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.».

The ongoing search for life on other planets hinges on finding traces of water. However, a new study about how organisms on Earth fail to thrive even in watery conditions offers a cautionary tale on this approach.

For their research into the extreme limits of life's survival, scientists traveled to the Dallol hydrothermal pools of northern Ethiopia, near the Eritrean border.

JUST ONE WEEK UNTIL THE TRANSIT OF MERCURY: One of the biggest astronomy events of the year is just one week away: [The Transit on Mercury](#). On Monday, Nov 11th, Mercury will pass directly in front the sun. The rare transit begins at 12:35 UT (7:35 am EST) and lasts for almost six hours. Mercury's tiny form—jet black and perfectly round—will glide slowly across the solar disk, like this:

Credit: Tom Polakis of Tempe AZ made this movie of a previous Mercury transit on May 9, 2016. [\[more\]](#)

People in every continent except Australia can see at least a portion of the crossing. In the USA, the best place to be is on the Atlantic coast, where the entire transit will be visible. On the Pacific coast the transit will already be in progress at sunrise.

Warning! Do not stare at the sun during the transit. Mercury covers only a tiny fraction of the solar disk, so the sun remains as bright as ever. Eye damage can occur.

Ordinary [eclipse glasses](#) will keep your eyes safe, but they won't do much to help you see tiny Mercury. The planet is only 1/194th of the sun's apparent diameter. To watch this event, a safely-filtered telescope with a magnification of

Spooky Halloween asteroid flyby one of the closest near misses ever seen

A big space boulder scopes out the trick-or-treating situation here on Earth. Fortunately, it doesn't knock on any doors.

Eric Meck October 31, 2019 10:14 AM PDT

Even space rocks are supplying jump scares on Halloween, just like your favorite horror flick.

A near-Earth asteroid identified as COPPEV1 was spotted in the early morning hours Thursday by the Catalina Sky Survey, based in Arizona, and shortly thereafter by

New Mexico's Magdalena Ridge Observatory and Arizona's Mt. Lemmon Steward Observatory. According to data from these early observations, the asteroid came closer to the surface of our planet (without actually colliding with our atmosphere) than any other close approach in NASA's

Right now there are [17 wildfires](#) currently burning in the state, but that number is expected to rise significantly over the next 72 hours. High winds can carry embers a great distance from the existing fires, and it only takes a single ember to start a new blaze. Over the next

Major fault line in California under stress from series of earthquakes

Nov 3, 2019 | 0 | *****

(**Newsweek**) – A series of earthquakes that shook Southern California earlier this year may have increased stress on parts of a major dormant fault line which has not produced any significant activity since records began, according to a study.

Scientists from the University of Iowa examined the so-called Ridgecrest earthquakes, which began with a 6.4 magnitude foreshock in the Mojave Desert on July 4, followed the next day by a 7.1 magnitude quake—the largest in Southern California for two decades. In addition, more than 100,000 smaller aftershocks were recorded. By analyzing satellite imagery and data collected by seismic instruments, the

Why is the mainstream media being so quiet about all of the seismic activity that has been happening all across the United States? During the last 7 days, there has been an earthquake swarm directly along the New Madrid Fault zone, Kansas and Oklahoma have been hit by a very unusual number of significant quakes, and there have been several sizable seismic events in the vicinity of the Yellowstone supervolcano. But of course the west coast is getting hammered more than anyone else. According to [Cal Tech](#), there have been more than 1000 earthquakes in

Ticks are parasitic arachnids that can carry a number of infections.

(CNN) — A potentially fatal infection spread by ticks has been detected for the first time in the UK, according to health authorities.

Experts described the risk of infection as "very low," but called on members of the public to be aware of ticks, small parasitic arachnids that are related to spiders and mites.

Tick-borne encephalitis (TBE) virus is an infection that causes no symptoms in most people. However some will suffer flu-like symptoms and a small number will develop a more serious disease affecting the brain and central nervous

MOSCOW, Oct 30 (Reuters) - Russia's most advanced new nuclear-powered submarine test-launched a Bulava intercontinental ballistic missile for the first time and hit a target thousands of kilometres away, the Defence Ministry said on Wednesday.

The test was carried out while the Borei-class vessel was submerged and comes amid arms control tensions between Moscow and the West following the demise of a landmark Cold War-era nuclear pact that has sparked fears of a burgeoning arms race.

The launch was conducted in the White Sea off Russia's north with a dummy payload reaching a test site in the Far East Russian region of Kamchatka, the ministry said.

The Knyaz Vladimir submarine is the first upgraded 955A model to be produced in the Borei class of Russian nuclear-powered ballistic missile submarines.

It will enter service with Russia's Northern Fleet at the end of this year once it has completed trials including weapons tests, the fleet's commander, Vice Admiral Alexander Moiseev said according to TASS news agency.

The global arms control architecture erected during the Cold War to keep Washington and Moscow in check has come under strain since the demise of the Intermediate-Range Nuclear Forces Treaty.

Russian top diplomat says US refuses to discuss Russian-Chinese idea against militarisation of space

by Staff Writers
Moscow (Sputnik) Nov 05, 2019

The United States has been refusing to launch negotiations on the initiative of Russia and China on preventing an arms race in space, Russian Foreign Minister Sergey Lavrov said.

"The United States remains practically the only side that refuses to launch discussions on the initiative introduced by Russia and China at the Conference on Disarmament and Prevention of an Arms Race in Outer Space," Lavrov said in an interview with the Rossiya 24 TV channel late on Friday.

Moscow and Beijing have offered to draft a binding international document that would outline guarantees that no weapons would be placed in orbit around the Earth and would include measures to prevent an arms race in space.

Lavrov noted that for nearly 20 years, Russia has been working on the creation of a verification mechanism for the

Extensive Russian submarine operation in North Atlantic: Norway

by Staff Writers
Oslo (AFP) Oct 29, 2019

Russia has sent about 10 submarines into the North Atlantic in the largest such operation since the end of the Cold War, the Norwegian military said on Tuesday.

Since last week, the Russian submarines – based on the Kola Peninsula in Russia's far north – have been dispatched for manoeuvres in the Atlantic Ocean, according to information from the Norwegian Intelligence Service, first reported by broadcaster NRK and later confirmed to AFP.

"There's a lot of activity in the North Atlantic at the moment and Norway together with other Nato states are monitoring with air and surface capabilities," Brynjar Stordal, a spokesman for the Norwegian armed forces, told AFP.

This is the largest operation of its kind conducted by Russia "since the end of the Cold War by the number of assets operating at the same time," he added.

According to sources cited by NRK, the Russian submarines, which all left their base in submerged mode, are

NATO demands Russia 'withdraw all troops' from Ukraine

by Staff Writers
Kiev (AFP) Oct 30, 2019

NATO chief Jens Stoltenberg on Wednesday welcomed a pullback by the Ukrainian army and Moscow-backed separatists in eastern Ukraine, but reiterated calls for Russia to "withdraw all their troops".

Tuesday saw a long-awaited pullback between the two sides in a key area of the war-torn east.

The move was a precondition for the first face-to-face talks between Russian President Vladimir Putin and his Ukrainian counterpart Volodymyr Zelensky.

"We welcome all efforts to reduce tensions, to withdraw forces and to make sure that we have a peaceful solution to the conflict," Stoltenberg said in the Ukrainian port city of Odessa, praising Zelensky's "renewed effort".

"But we know there is a long way to go because there are still ceasefire violations," he said as he began a two-day visit to the ex-Soviet country that was set to include a meeting with Zelensky on Thursday.

Prime Minister Binyamin Netanyahu on Monday accused Iran of wanting to strike Israel with precision-guided missiles from Yemen.

Speaking during a meeting with US Treasury Secretary Steven Mnuchin in Jerusalem, Netanyahu called for "a lot more" sanctions against Iran.

"First, I want to congratulate President Trump, the Armed Forces of the United States and the American people for [the successful action](#) against [ISIS leader] Baghdadi, and it's good that this murderer has met his fate," Netanyahu said.

"We do know that we still have an ongoing battle against terrorism, both of the extremist Sunnis led by Daesh (the Arabic name for ISIS -ed.), but also the extremist Shiites led by Iran, that is making a plunge for everything and everywhere in the Middle East," he added.

Iran will resume uranium enrichment at the Fordow nuclear plant on Wednesday, Iranian President Hassan Rouhani announced Tuesday morning.

Speaking live on Iranian state television, Rouhani declared that Iran would move forward quickly with gas injection at the Fordow Fuel Enrichment plant outside of the city of Qom, beginning Wednesday. A total of 1,044 centrifuges will be injected with uranium gas, according to Rouhani's televised statement.

The Iranian leader added, however, that such moves were reversible, and that Tehran would return to compliance with the 2015 Iran nuclear deal if the remaining signatories do the same.

In October, the Minister of Information and Communications Technology Mohammad-Javad Azari Jahromi said that Iran intended to send an astronaut into space, adding that Tehran would hold talks with Russia on the issue as foreign assistance would be needed.

The head of the Iranian Space Agency (ISA) Morteza Barari has announced that Iran plans to launch three satellites in the near future.

"Following the implementation of the country's second decade-long space development program, three satellites are being developed to be ultimately put into orbit," Barari, who is also Iran's Deputy Minister of Communication and Information Technology, said on Sunday.

According to the senior official, the newly emerging space technology field has grown by 139 percent in 10 years, leading to "major" developments in the country's economy.

Iran's FM says new US sanctions show 'maximum failure'

by Staff Writers
Tehran (AFP) Nov 1, 2019

Iranian Foreign Minister Mohammad Javad Zarif said Friday that the latest round of US sanctions against the Islamic republic show the "maximum failure" of Washington's anti-Iran policy.

Washington extended its sanctions on Iran on Thursday by targeting its construction sector, which the US linked to the country's Revolutionary Guards.

"Subjecting construction workers to #EconomicTerrorism only manifests maximum failure of 'maximum pressure'," Zarif tweeted.

"Rather than dig itself deeper, US should abandon failed policies & return to #JCPOA," Zarif added, referring to the formal title of the 2015 nuclear deal, the Joint Comprehensive Plan of Action.

Iranian tensions with the United States have escalated sharply since US President Donald Trump last year withdrew from the nuclear deal and reimposed unilateral sanctions as part of its "maximum pressure" campaign.

US to Turkey: Don't turn on Russian system, avoid sanctions

by Staff Writers
Washington (AFP) Oct 25, 2019

The United States will spare Turkey from sanctions over its purchase of the S-400 missile system from Russia if it does not turn it on, a US official said Friday.

President Donald Trump on Wednesday lifted sanctions on Turkey that had been imposed over its assault on US-allied Syrian Kurdish fighters, which created a crisis between the NATO allies.

But tensions remain, with Turkey still facing punishment for buying the S-400 missile defense system from Russia despite its membership in the Western alliance.

"There are probably cooler heads in Ankara that are saying, for heaven's sake, don't turn this on," a State Department official told reporters on condition of anonymity.

The official said it did not appear that Turkey had activated the S-400, which NATO powers fear could help Russia hone its skills in shooting down Western planes and missiles.

"There is still work to get the Turks to walk away from the S-400 – be it turn it off, send it back, destroy it, what

Russian and Egyptian air forces are involved in a joint training exercise in Egypt, a sign of growing Russian involvement on the African continent.

The 13-day "Arrow of Friendship 1," held in Egypt and ending on Nov. 7, is the first bilateral military exercise by the two countries, and involves large-scale air defense drills, and combat training.

The Egyptian Ministry of Defense called the exercise a "joint cooperation between the Egyptian and Russian armed forces, which reflects the depth of partnership relations and strategic cooperation of both friendly countries in many fields," in a statement at the start of the event.

Over 100 Russian personnel are involved, the Russian defense ministry said. The two countries held a similar exercise in Russia in 2018, involving 400 military personnel, 15 aircraft and several airports.

The air exercises include tests of Russia's Buk-M2E, Tor-M2E, Kub, portable Igla-S and Shilka-M4 air defense

A Middle Tennessee pastor has been arrested in India and is unable to return to the U.S. due to alleged religious persecution, [according to information from his church](#) and his attorney.

Bryan Nerren, leader of the International House of Prayer Ministries in Shelbyville has been stuck in Bagdogra for more than three weeks, [according to a petition posted online by CeCe Heil, an attorney with the American Center for Law and Justice](#).

Nerren, who is from Jackson, runs the non-profit ministry Asian Children's Education Fellowship which has trained Sunday School teachers in India and Nepal for nearly two decades. Heil wrote in the petition. During a recent trip to attend conferences in India and Nepal, Nerren was "targeted and arrested as he stepped off the plane in Bagdogra, India."

Heil said that on Oct. 5, Bryan and two other pastors were traveling for mission work and were approached at an Indian airport by a customs agent.

Urgent Call to Pray for Syria: Thousands of Christians Face Exile or Extinction

11-02-2019 - Chris Mitchell

CBN News reports from northern Syria that there is no ceasefire.

JERUSALEM, Israel - Turkish-led jihadist troops advancing on a Syrian Christian town could begin an ethnic cleansing campaign in the next few hours, attorney and religious freedom advocate Lauren Homer tells CBN News.

Homer, an attorney with Law and Liberty International, has been working with Christians and other religious minorities in Northeast Syria for years. These groups enjoyed religious freedom under a new

JERUSALEM, Israel - Despite claims of a cease-fire, Turkish backed jihadist forces are continuing their assault in strategic areas of northeast Syria. The attacks assisted by Turkish air and artillery threaten Christians and other religious minorities. Many see the invasion as the first step in President Recep Tayyip Erdogan's dream to establish a greater Turkey.

During this so-called ceasefire, hundreds have died, thousands more have been wounded and hundreds of thousands have fled. Turkish

An atheist group says plans to put an "In God We Trust" decal on the back of new police cars in Brevard County, Florida is an "inappropriate" injection of religion into public life.

Annie Laurie Gaylor of the Freedom From Religion Foundation (FFRF) warned in an October 28th letter to Sheriff Wayne Ivey that the decals amount to an unconstitutional "endorsement" of religion. "Statements

In case you've been living under a rock or been trapped deep inside an ultra-leftist bubble, allow me to enlighten you. There is a definite, concerted war on gender in our society today. And if you had even the slightest doubt about it, look no further than the November edition of GQ magazine.

There, on the front cover, stands singer and fashion designer Pharrell Williams, adorned gorgeously in a long, flowing robe and looking quite ladylike. And there, around Pharrell's beautiful form, the theme of this special edition of GQ is spelled out: The New Masculinity.

I kid you not.

According to editor-in-chief Will Welch, GQ has been working on this [special edition](#) since January, not only tackling abusive aspects of masculinity in our culture, but also featuring an article from "a gender-nonbinary actor

We now find ourselves amidst an epidemic of perversion as disturbing content is shared far and wide by today's major media. One of the most distressing subjects is the sexualization of children.

From gaming websites to news organizations, children are now props in a war on decency. Just last December, Desmond, an 11-year-old boy who has been described by [Good Morning America](#) as "trailblazing," twirled around on stage in female attire as men [whooped](#)

فلهذا اطلب أن نصلي ونستعد ونعد زيت لمصاييحنا لاستقبال العريس بالصلاة والصوم وخدمة

رسالة بولس الرسول الي أهل رومية 13

13: 11 هذا وأنكم عارفون الوقت انها الان ساعة لنستيقظ من النوم فان خلاصنا الان أقرب مما

كان حين امنا

13: 12 قد تنهى الليل وتقارب النهار فلنخلع اعمال الظلمة ونلبس اسلحة النور

13: 13 لنسلك بلياقة كما في النهار لا بالبطر والسكر لا بالمضاجع والعهر لا بالخصام والحسد

13: 14 بل البسوا الرب يسوع المسيح ولا تصنعوا تدبيراً للجسد لأجل الشهوات

احتسب ان لم تتمسك بالمسيح من الان قد لا تستطيع في المستقبل القريب بسبب الظلام.

وكما قلت هو اخبرنا لكي لا نخاف
