

تعليق على بعض الاحداث العالمية

والعلامات حتى 1 سبتمبر 2020

Holy_bible_1

اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه لأننا نور العالم الذي أصبح مظلم وليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل بالمحبة والتبشير وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان
سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض
ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي
المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما
انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُمْنُونَ.

ثالثا لنتنبه ونستعد

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَأَنْتَضِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.».

علامات في السماء

Clear, unobstructed images of the stars above will "no longer be the norm," a group of US scientists warned, thanks to Elon Musk's network of Starlink satellites. But Musk is not the only businessman who may blot out the sky.

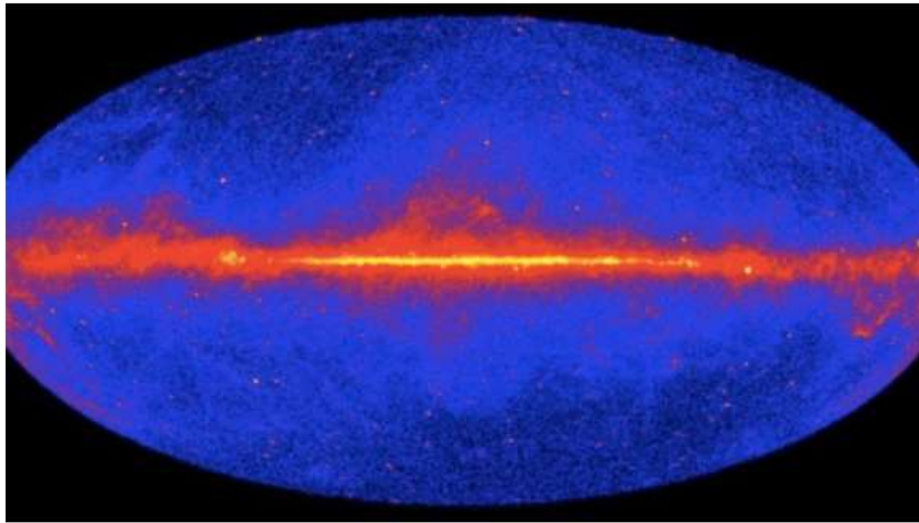

Musk launched his Starlink project last year with a lofty goal: to bring high-speed internet access to the remotest corners of our planet, using tens of thousands of low-Earth orbit

Experts have long puzzled over the high-energy glow that lights up the center of the Milky Way. The mystery has been deepened by new research that picked apart the leading explanation for the inexplicable phenomenon.

Complete with a massive black hole, the heart of our galaxy is a highly energetic region. This abundance of energy is boosted by the extraordinary gamma-ray glow, which has been the source of intense debate among astronomers since it was discovered over 10 years ago.

Strengthening Typhoon Maysak to strike Japan, South Korea this week

By Maura Kelly, AccuWeather meteorologist & Courtney Spamer, AccuWeather meteorologist

Published Aug. 26, 2020 7:17 AM

AccuWeather's Bill Wadell recorded from inside a hotel as Hurricane Laura lashed Sulphur, Louisiana, on Aug. 27. The storm's strong winds knocked the power out, while heavy wind and rain caused windows and doors to leak.

An area of low pressure that was meandering over the Philippine Sea organized and strengthened Friday, becoming a tropical depression and then eventually Tropical Storm Maysak. This tropical feature is also referred to as Julian in the Philippines. Maysak has just strengthened into a typhoon Saturday night, local time.

Maysak will move northward through the end of the weekend.

However, this trajectory will bring Maysak nearer to the southern Ryukyu Islands by Sunday.

Violent flooding leaves at least 110 fatalities, 2 000 houses destroyed in Parwan, Afghanistan

Posted by [Julie Celestial](#) on August 27, 2020 at 14:10 UTC (4 days ago) [Follow @TheWatchers_](#)

Categories: [Featured articles](#), [Floods](#), [Severe storms](#)

At least 110 people died and around 2 000 houses were destroyed after violent flash flooding swept through Parwan, Afghanistan, on August 26, 2020, with authorities noting that the death toll may continue to rise. The disaster management added that dozens were injured and more than 1 000 people have been evacuated.

Torrential rains poured overnight, triggering the deluge that caught people off guard. Gushing waters carried mud and debris, toppling houses and sweeping away bodies in their wake.

Mahmood Samadi, a resident of Parwan's capital Charikar, said he was awakened by the sound of floodwaters raging through his

Powerful storms brought lightning, giant hail, and tornadoes to northern Italy over the weekend, causing significant material damage and leaving at least 4 people dead. Severe weather continued into Monday, August 31, but the threat is now shifting into southeastern Europe, including Croatia, Hungary, Serbia, etc. where yellow and orange weather alerts are in effect.

Severe weather hit wide swaths of Italy over the weekend, from South Tyrol down to the central region of Lazio around Rome, killing at least 4 people in two separate incidents and leaving several missing.

ANNAPOLIS, Md. (WJZ) — Thousands of dead fish were found in Sullivan Cove off the Severn River in Annapolis.

The State Department of Environment says it's because of Tropical Storm Isaias.

Experts say the fish suffocated because of low concentrations of oxygen in the water.

BUFFALO, N.Y. (WKBW) — University at Buffalo earthworm expert Nick Henshue says Amyntas, invasive "jumping" earthworms with destructive potential, are appearing in the WNY area.

The earthworms live in the top few inches of soil, can grow to about the length of a pencil and gobble up fallen leaves that experts say play a vital role in forest ecosystems.

US floats idea of early approval for eventual vaccine
FDA Commissioner Stephen Hahn has drawn criticism that he is giving in to pressure from President Donald Trump as the US struggles against the pandemic.

The head of the US Food and Drug Administration raised the possibility in an interview published Sunday that a future vaccine against the coronavirus might be given emergency approval before

Wuhan, the city where the Covid-19 outbreak was first detected in China, is reopening schools and kindergartens next week. However, contingency plans are in place to switch back to online education should the coronavirus reemerge.

When the autumn semester starts on Thursday, as many as 2,842 educational institutions across the Chinese city of 11 million people will open their doors to some 1.4 million students, local authorities in Wuhan said.

New treatment?

Study suggests **vitamin B** may help strengthen immune system response to COVID-19

Getty Images

Doctors remain focused on finding a treatment to slow or stop the deadly immune overreaction to COVID-19 known as a "cytokine storm." As they do, experts in the nutrition world are aiming to find ways to stop it before it begins. Early on in the pandemic, these recommendations from health experts focused on **vitamin C** and **vitamin D**, both of which can significantly strengthen the immune system.

But now, in a new [study](#) published in the international peer-reviewed journal *Maturitas*, researchers suggest that another, equally important vitamin is being overlooked: vitamin B.

India has reported 78,761 new Covid-19 cases in 24 hours, marking the biggest-ever daily increase for a nation. The number of coronavirus infections in the world passed the 25 million mark on Sunday.

Before Sunday's update, which pushed the total number of infections in India to more than 2.5 million, the US held the record with 77,638 daily infections reported on July 17. The surge in India comes shortly after the government eased lockdown restrictions, to alleviate pressure on the economy.

Extraordinary breakthrough research has indicated that a small group of HIV-infected people, dubbed "elite controllers," have the power to rid themselves of the virus without any medical help.

Numerous previous studies, carried out over the course of several years, had found that a very small number of the 38 million people infected with the dreaded virus were able to suppress it without any treatment.

US 'walking on thin ice' with spy plane flight

by Staff Writers
Beijing (XNA) Aug 27, 2020

Chinese experts warned that the United States military is "walking on thin ice" by allowing one of its U-2 spy planes to trespass into a no-fly zone over Chinese live-fire military drills, calling the move extremely provocative and prone to misjudgement.

On Tuesday, a Lockheed U-2 high-altitude reconnaissance aircraft trespassed into the no-fly zone that is hosting a live fire drill by the People's Liberation Army Northern Theater Command, Senior Colonel Wu Qian, spokesman of the Ministry of National Defense, said in a statement on Tuesday.

Wu said the trespass had "seriously disrupted China's regular training activities" and violated China-US maritime and flight safety codes and international norms.

illustration only

"The incident could very easily lead to misunderstanding and misjudgment, and may even lead to an accident," he said. "It is also a blatant provocation that China resolutely opposes."

Foreign Ministry spokesman Zhao Lijian said in a news briefing on Wednesday that China resolutely opposes the US trespass and urged the US to immediately stop such provocative acts and take concrete measures to maintain regional peace and stability.

The US Pacific Air Forces said in a statement on Tuesday that a U-2 flight had been conducted in the Indo-Pacific region and it had operated within the accepted international rules and regulations governing aircraft flights.

"Pacific Air Forces personnel will continue to fly and operate anywhere international law allows, at the time and tempo of our choosing," it added.

Beijing has cautioned against further US naval operations in the South China Sea, claiming that recent activities by the American side create conditions for an unintentional military confrontation.

A spokesman for the People's Liberation Army (PLA) said on Friday that a US warship entered Chinese territorial waters without permission.

وسفينة حربية أمريكية تبجر قرب جزر متنازع عليها في احتداد الموقف في جنوب بحر الصين

US warship sails near disputed islands in tense South China Sea

by Staff Writers
Beijing (AFP) Aug 28, 2020

An American warship sailed near the disputed Paracel Islands in the South China Sea, the US Navy has said, challenging Beijing's claims on the resource-rich waterway and prompting a warning from the Chinese military.

The Thursday operation came a day after China fired ballistic missiles into the sea as part of ongoing live-fire exercises, inflaming already high tensions between Washington and Beijing.

The US regularly conduct "freedom of navigation operations" in the area to challenge Chinese territorial claims.

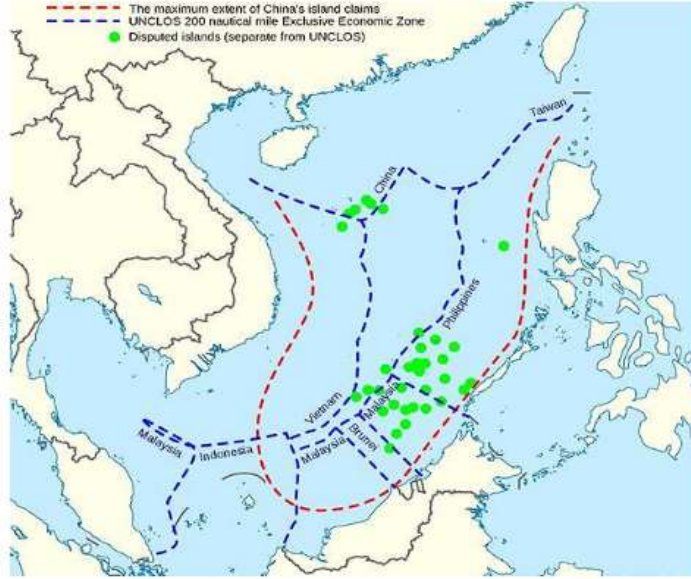

The US Navy's Pacific Fleet said in a statement that the USS Mustin, a guided-missile destroyer, sailed Thursday "in the vicinity of the Paracel Islands to ensure critical shipping lanes in the area remain free and open".

The Chinese military on Friday accused the US ship of entering "China's territorial waters" near the islands "without authorisation".

Chinese forces tracked the warship and then warned it to leave, said military spokesman Li Huamin.

In recent years, China has aggressively pursued its territorial claims in the South China Sea, building small shoals and reefs into military bases with airstrips and port facilities.

Vietnam, the Philippines, Malaysia and Taiwan also have competing claims in the South China Sea, through which international trade worth trillions of dollars passes a year.

روسيا تختبر نظام S500 جديد وسيبدأ انتاج موسع له

Russia testing news S-500 Systems, mass production on the way

by Staff Writers
Moscow (Sputnik) Aug 25, 2020

Deputy Defence Minister Aleksey Krivoruchko announced that Russia Armed Forces are looking to receive the first batch of the newest systems in 2021. The full-scale supply of the S-500s is scheduled for 2025.

Russia has begun tests of its advanced S-500 surface-to-air missile systems, Russian Deputy Prime Minister Yuriy Borisov told journalists at the Army-2020 forum.

The official added that a light configuration of the systems already exists and its parts are already being purchased for mass production.

The S-500 Prometey ("Prometheus"), also known as 55R6M "Triumfator-M", is a universal system for long-range and high-altitude interception with increased missile defence potential. The weapon's main tasks will include combating medium-range ballistic missiles and intercontinental ballistic missiles if they are in close proximity.

The cutting-edge defence system was tested by the air defence troops in 2019, and 2021 is expected to be the year when the S-500 will be first deployed by the Russian armed forces, according to the Defence Ministry.

Indian troops armed with Russian portable SAMs deployed near China border

by Staff Writers
Moscow (Sputnik) Aug 26, 2020

Relations between the Asian powers worsened dramatically in June, after Indian and Chinese troops engaged in deadly melee combat in a disputed area in the Galwan River Valley situated between Ladakh, India and China's Tibet Autonomous Region.

Indian troops armed with Russian-made Igla portable shoulder-launched air defence systems have been deployed near the Line of Actual Control in Eastern Ladakh amid alleged Chinese helicopter flights along the disputed border area, Asia News International has reported, citing unnamed sources.

"Indian troops armed with Russian-origin Igla air defence system have been deployed on the crucial heights along the border to take care of any enemy aircraft trying to violate Indian air space here," one of the sources said.

In addition to the portable surface to air missile systems, India is also said to have deployed radar and other air defences amid claims that a number of Chinese military helicopters had attempted to enter Indian territory near areas including Galwan Valley and Patrolling Point 14.

Despite millennia of cooperation and close economic ties between their ancient predecessors, modern China and India have faced decades of tensions due to border disputes. On May 10 and then again on June 15, Chinese and Indian troops engaged in clashes which left dozens of

The Indian military has accused China of conducting "provocative military movements" along the disputed border in Eastern Ladakh, where clashes occurred earlier this year. The Chinese side denied crossing the de facto border.

Indian troops have pre-empted the Sunday night maneuvers of the Chinese military on the southern bank of the Pangong Tso Lake and strengthened their positions to "thwart Chinese intentions to unilaterally change facts on ground," the Indian side said in a statement on Monday.

والهند تتهم الصين انها تقوم بعمليات استفزازية جديدة على الحدود

SUPER POWERS

India accuses China of new 'provocative' border action

by Staff Writers
New Delhi (AFP) Aug 31, 2020

The Indian military on Monday accused China of carrying out "provocative" movements on their contested Himalayan border near where 20 Indian troops were killed in a battle in June.

A defence ministry statement said the incidents happened in eastern Ladakh on Saturday night but did not indicate whether there was a new clash.

Chinese People's Liberation Army troops "carried out provocative military movements to change the status quo" at the border, it said.

It added the two sides were holding military talks on Monday.

On June 15, troops from the two sides fought hand-to-hand combat in which 20 Indian troops were killed. China also acknowledged casualties but did not give numbers.

New Delhi and Beijing have blamed each other for the latest frontier tensions between the two sides who fought a border war in 1962 and have been involved in regular showdowns since.

The Chinese and Indian militaries have poured tens of thousands of troops into the region since the June fighting. But their military and diplomatic talks on easing tensions are in an apparent stalemate.

The Indian statement said Chinese troops "violated the consensus" to ease border tensions.

"Indian troops pre-empted this PLA activity on the southern bank of Pangong Tso Lake, undertook measures to strengthen our positions and thwart Chinese intentions to unilaterally change facts on ground," said the ministry.

الجهاد الإرهابي الإسلامي لا يزال يهدد أوروبا مع بعض التغير في أشكاله كما يقول الخبراء

Mutating terror threat still looms over Europe

By Didier LAURAS
Paris (AFP) Aug 28, 2020

The terrorist threat against Europe has mutated in the last half-decade as jihadist groups have seen their Middle East sanctuaries eroded, but analysts say the West must remain braced for more attacks.

Both Al-Qaeda and the Islamic State group -- together responsible for the highest-profile and most horrific terror attacks of the past two decades -- have lost potency as global organisations.

Despite splintering into branches and franchises, their murderous ideology is still able to inspire individuals to carry out random attacks in their name.

Next week in Paris, 14 people face trial over the massacres in January 2015 at satirical magazine Charlie Hebdo, a policewoman and hostages in a Jewish supermarket -- violence claimed for both IS and Al-Qaeda.

The murderous shooting spree heralded an unprecedented wave of attacks in France.

The deadliest were the coordinated attacks in Paris on November 13 that year at the Bataclan music venue and other venues, when gunmen killed 130 in a plan stemming from the IS group's core leadership in Syria.

Experts believe the same style of assault would be unlikely to recur now, not least because IS has seen a dramatic loss of its territory and membership in Iraq and Syria.

French satirical magazine Charlie Hebdo, which was targeted by jihadists in 2015, is to republish the controversial cartoons of the Prophet Muhammad ahead of the trial of the gunmen this week.

A special edition of the magazine on Wednesday will feature interviews with family members of the victims of the terrorist attack, an article on the public's attitude towards freedom of expression and a reprint of Islam-themed cartoons, including those featuring the

Protesters in Montreal pulled down and defaced a statue of John Macdonald, Canada's first prime minister, as police stood by, echoing attacks on controversial historical figures in the US.

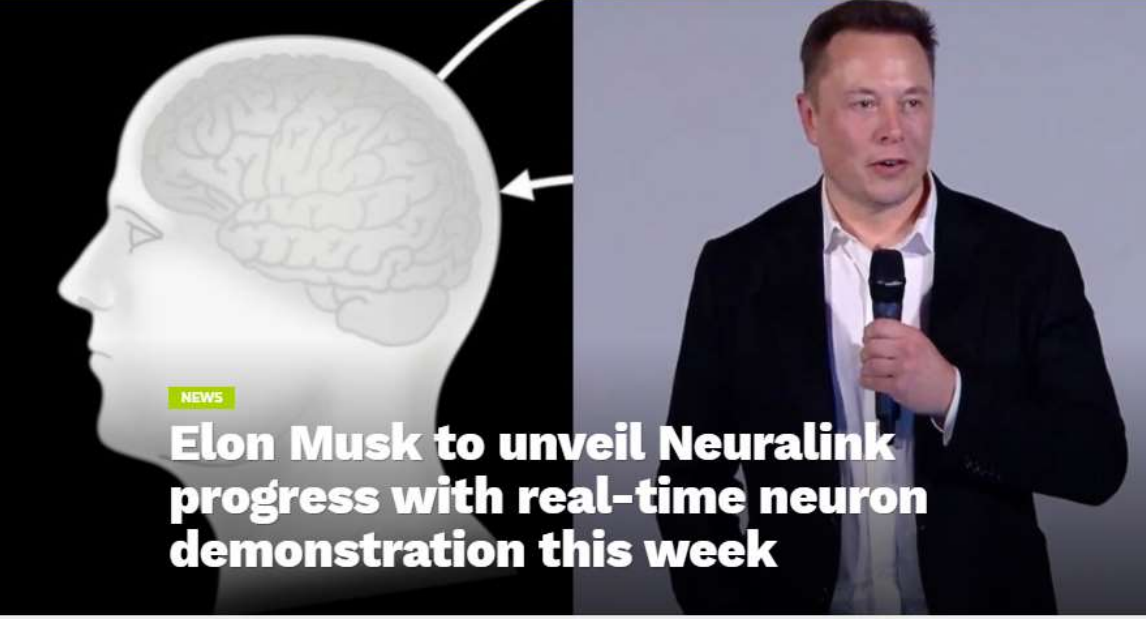

The statue's head was broken off as it slammed to the ground from its high pedestal on Saturday in Montreal's Dominion Square. Activists were shielded from view with umbrellas and sheets as they unbolted the statue, which was pulled from behind with a strap around its

Elon Musk to unveil Neuralink progress with real-time neuron demonstration this week

By Dacia J. Ferris 

Posted on August 23, 2020

Elon Musk's brain-machine interface company, Neuralink, has an event scheduled for later this week to update the public on its progress since last year's presentation. While the agenda is speculative for the most part, one expectation is a live demonstration of neuron activity.

"Will show neurons firing in real-time on August 28th. The matrix in the matrix," [Musk tweeted](#) at the end of July.

He also revealed a few other clues about the early fall announcement at the beginning of the year. "Wait until you see the next version vs what was presented last year. It's *awesome*," he wrote in February. "The profound impact of high bandwidth, high precision neural interfaces is underappreciated. Neuralink may have this in a human as soon as this year. Just [needs to be unequivocally better than Utah Array](#), which is already in some humans & has severe drawbacks."

Could the coronavirus? Musk

(Adds details on presentation, comments by neuroscience experts)

By Tina Bellon

Aug 28 (Reuters) - Billionaire entrepreneur Elon Musk's neuroscience startup Neuralink on Friday unveiled a pig named Gertrude that has had a coin-sized computer chip in its brain for two months, showing off an early step toward the goal of curing human diseases with the same type of implant.

Co-founded by Tesla Inc and SpaceX CEO Musk in 2016, San Francisco Bay Area-based Neuralink aims to implant wireless brain-computer interfaces that include thousands of electrodes in the most complex human organ to help cure neurological conditions like Alzheimer's, dementia and spinal cord injuries and ultimately fuse humankind with artificial intelligence.

"An implantable device can actually solve these problems," Musk said on a webcast Friday, mentioning ailments such as memory loss, hearing loss, depression and insomnia.

Musk did not provide a timeline for those treatments, appearing to retreat from earlier statements that human trials would begin by the end of this year. Neuralink's first

Swedish researchers have successfully created an out-of-body experience in which they "swapped participants" bodies, drastically changing their perceptions of themselves while also interfering with their ability to make memories.

The team from the Brain, Body, and Self Laboratory led by Henrik Ehrsson took 33 pairs of friends and "swapped" their bodies using VR headsets, which allowed participants to see themselves in their friend's body.

In the 1880s, the first automobile was developed and about two decades later, the Wright brothers in North Carolina invented the first successful airplane. Today, the world is closer to combining those two concepts as a Japanese tech company said it completed a manned test flight of a “flying car.”

The company, SkyDrive, [said in a news release](#) on Friday that it had completed a flight test using “the world’s first manned testing machine,” its SD-03 model, an electrical vertical takeoff and landing (eVTOL) vehicle. The flight time was four minutes, the company said.

RICHMOND, Va. — A 2-1 panel with the Fourth Circuit Court of Appeals has again ruled that a Virginia school district discriminated against a female student who identifies as male by declining to allow her to use the boys' restroom.

فلهذا اطلب أن نصلي ونستعد ونعد زيت لمصاييحنا لاستقبال العريس بالصلاة والصوم وخدمة

أبناء الله وتنقية القلب والاستعداد بلبس العرس.

رسالة بولس الرسول الي أهل رومية 13

13: 11 هذا وأنكم عارفون الوقت انها الان ساعة لنستيقظ من النوم فان خلاصنا الان أقرب مما

كان حين امنا

13: 12 قد تنهى الليل وتقارب النهار فلنخلع اعمال الظلمة ونلبس اسلحة النور

13: 13 لنسلك بلياقة كما في النهار لا بالبطر والسكر لا بالمضاجع والعهر لا بالخصام والحسد

13: 14 بل البسوا الرب يسوع المسيح ولا تصنعوا تدبيراً للجسد لأجل الشهوات

احترس ان لم تتمسك بالمسيح من الان قد لا تستطيع في المستقبل القريب بسبب الظلام.

وكما قلت هو اخبرنا لكي لا نخاف

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

بطرس الأولى 3: 14

وَلَكِنْ وَإِنْ تَأَلَّمْتُمْ مِنْ أَجْلِ الْبِرِّ، فَطُوبَاكُمْ. وَأَمَّا خَوْفُهُمْ فَلَا تَخَافُوهُ وَلَا تَضْطَرُّوهُ،

بل نؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَاَنْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.».

افرحوا لان عريسنا قد اقترب مجيؤه. وانتبهوا الشيطان يريد أن نفقد سلامنا ولا ننال أكاليل.

وأيضاً استعدوا فقد تسلموا وديعتكم في أي وقت فهناك 150 ألف شخص يموتوا في اليوم الواحد

انت لا تعرف متى ستكون منهم

المسيح اقترب فاصنعوا ثمار تليق بالتوبة واستعدوا لاستقبال العريس.

والمجد لله دائما
