

# تعليق على بعض الاحداث العالمية

## والعلامات حتى 8 سبتمبر 2020

Holy\_bible\_1

اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية.  
والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه لأننا نور العالم  
الذي أصبح مظلم وليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا  
مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة  
بأيمان عامل بالمحبة والتبشير وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان  
الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان  
وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك  
زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان  
سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشتر اشاعات او اخيف البعض  
ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي  
المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما  
انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

## سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُمْنُونَ.

ثالثا لنتنبه ونستعد

## انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَأَنْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.».

## Hundreds of chunks of meteorite worth up to \$26,000 each rain down on Brazilian town: Thousands rush to remote settlement as locals dub it 'The day money fell from the sky'

- The meteorite dates back to the origins of the Solar System, before Earth formed
- Locals in Santa Filomena, in the northeast of Brazil, described it as a 'miracle'
- Many fear the largest rock - weighing 40kg - will be shipped out of Brazil

An unidentified object was spotted on a collision course with Earth, triggering the alarm among planetary defense specialists. Thankfully, the object was identified before any drastic emergency measures were taken.

Given the slew of space rocks which shoot through our cosmic backyard each week, it's unsurprising that an unidentified object spotted headed right at the Earth would raise the alarm. The University of Arizona's Catalina Sky Survey, funded by NASA's Planetary

NASA is warning of four asteroids over 20 meters in diameter due to make a close flyby of Earth this week, while the ESA has shared a video showing just how difficult it is for planetary defenses to spot these inbound space rocks.

The first two Near Earth Objects (NEOs), due on Tuesday, were both only spotted in the last month: 2020 PT4, which is 34m in diameter or roughly half the wingspan of a 747, will pass us at a distance of 1.8 million km while the 24m 2020 RJ, roughly three London buses

China successfully launched a 'reusable experimental spacecraft' on Friday, state media reported. The mission was shrouded in mystery, with those attending the event reportedly banned from filming or even discussing it.

The spacecraft was delivered to orbit by a Long March-2F rocket, which blasted off from Jiuquan Satellite Launch Center in the northwest of the country, Xinhua news agency reported.

At least one person died as Typhoon Maysak hit South Korea early on Thursday, knocking down traffic lights and trees, smashing shop windows, flooding streets and causing other damage.

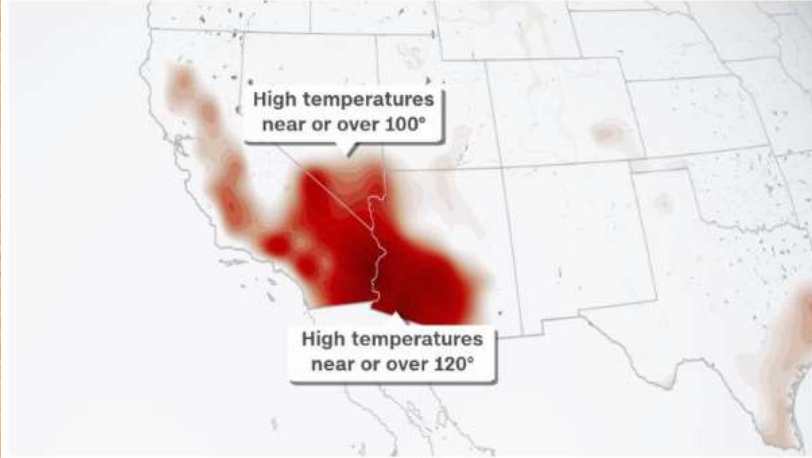

The typhoon made landfall at the port city of Busan on the southern coast of the Korean Peninsula, bringing heavy rain and lashing winds of up to 170kph (105mph) with it.

# A dangerous heat wave is expected to hit the West Coast over Labor Day weekend

By [Allen Kim](#) and Taylor Ward, CNN

Updated 6:41 PM ET, Wed September 2, 2020

Sunday is expected to be the hottest day during this heat wave.

**(CNN)** — A dangerous heat wave is expected to hit the West Coast over the holiday weekend.

Forty-three million people across much of California, southern Nevada and western Arizona are already under an excessive heat watch, and that number is expected to rise.

Forecasters warn that this heat wave has the potential to break all-time high temperature records for the region. National Weather Service Los Angeles suggested that "all daytime outdoor activities should be limited or canceled."

Excessive heat watches are expected to start on Friday for valleys and

# 'Severe' punishment for N.Korea officials after typhoon casualties

by Staff Writers  
Seoul (AFP) Sept 5, 2020

North Korea has pledged severe punishment for local officials it says failed to protect residents from a typhoon which caused a "serious incident" with dozens of casualties, the ruling party's newspaper reported.

Typhoon Maysak brought heavy downpours across the country earlier this week, with footage showing a street inundated with water in the eastern port town of Wonsan, Kangwon province.

Saturday's Rodong Sinmun, an official newspaper, reported that leaders had decided to punish "irresponsible" city and provincial officials for causing "a serious incident involving dozens of casualties".

The report did not say how many were injured, missing or dead.

The officials failed to "immediately organise a project to thoroughly identify properties at risk and evacuate all residents" despite being ordered by the ruling Workers' Party of Korea headed by leader Kim Jong Un, it added.

"A decision was made to impose severe party, administrative, and legal punishment to those responsible for the casualties."

## Magnitude-6.8 earthquake strikes off the coast of Chile

*The U.S. Geological Survey says a strong earthquake with a preliminary magnitude of 6.8 has struck off the coast of northern Chile*

By The Associated Press

September 1, 2020, 1:12 AM • 1 min read

SANTIAGO, Chile -- A strong earthquake with a preliminary magnitude of 6.8 struck off the coast of northern Chile in the first minutes of Tuesday, the U.S. Geological Survey said.

There were no immediate reports of casualties or damage and the Chilean navy said there was no possibility of a tsunami.

The quake occurred at 12:09 a.m. local time at a depth of 35 kilometers (22 miles). It was centered 78 kilometers (48 miles) northeast of the Atacama city of Vallenar. A few minutes later, a second quake occurred with a preliminary magnitude of 6.3.

The quake was felt as far south as the capital, Santiago, and in Antofagasta, 1,330 kilometers (826 miles) further north.

Video from the scene showed windows rattling and items falling to the ground. Local radio stations reported that boulders broke off hills. The electricity was briefly cut off.

# Massive mystery holes appear in Siberian tundra — and could be linked to climate change

By Katie Hunt, CNN

Updated 1:10 PM ET, Fri September 4, 2020

In August 2020, the RAS Institute of Oil and Gas Problems, supported by the local Yamal authorities, conducted a major expedition to the new crater. Skoltech researchers were part of the final stages of that expedition. Credit: Evgeny Chuvilin

(CNN) — A Russian TV crew flying over the Siberian tundra this summer spotted a massive crater 30 meters (100 feet) deep and 20 meters wide -- striking in its size, symmetry and the explosive force of nature that it must have taken to have created it.

## Cinque tartarughe marine spiaggiate sulla spiaggia di Boccasette

PRIMO PIANO &gt; CRONACA

Sabato 8 Agosto 2020 di Anna Nani

PORTO TOLLE - Non è la prima volta che accade, anzi. Ogni anno capita di incontrare sui litorali del Delta qualche **tartaruga** spiaggata, ma ieri non si è trattato di un caso isolato: sono state ben cinque le testuggini che sono state ritrovate lungo la spiaggia di **Boccasette**. Nonostante alcune settimane fa sia stata fatta una pulizia ambientale con le sue quattro tonnellate di rifiuti raccolti, è bastato il maltempo di questa settimana per far ripiombare il litorale nella plastica, soprattutto boe e reti da allevamento di cozze in mare aperto. Ed è tra questi rifiuti che sono state ritrovate anche le tartarughe morte, alcune di esse prive di carapace quindi molto probabilmente morte da tempo.

### ESEMPLARI GIÀ MORTI

Come spesso accade sul litorale polesano, gli esemplari ritrovati dovrebbero essere relativi a tartarughe marine della specie **Caretta-Caretta** (il tipo più comune nel mare Mediterraneo), che sono arrivate alla spiaggia con il fortunale. Quattro di questi esemplari sono stati ritrovati andando verso la punta sud del litorale: dal bagno Girotti in direzione del santuario della Madonnina, mentre una è stata individuata verso la zona che va a nord partendo dal bagno Scano Palo di Bellan. Questi ritrovamenti sono fenomeni tristemente diffusi e che purtroppo stanno aumentando in questi anni, anche a causa dell'aumentare dell'inquinamento dei mari.

## Thousands of Dead Fish Wash Up on Shores of South Florida's Biscayne Bay

By Jan Wesner Childs · August 14 2020 04:05 PM EDT · weather.com

00:42

### Thousands of Dead Fish Wash up in South Florida's Biscayne Bay

A fish kill in South Florida's Biscayne Bay is a dire warning sign for the bay, experts say.

#### At a Glance

- Piles of dead fish, crabs, eels and other sea life were spotted from North Miami to Virginia Key.
- Investigators say they most likely died from a lack of dissolved oxygen in the water.
- Efforts were underway to try and save a large group of rays huddled together near the shoreline.

## KEY POINTS

- The World Economic Forum and market research firm Ipsos polled close to 20,000 adults across 27 countries between July 24 and Aug. 7 this year to find out their attitudes toward a coronavirus vaccine.
- The survey found that 74% of adults globally are willing to get vaccinated if a coronavirus vaccine became available, with respondents from China the most enthusiastic to do so.
- But the 26% of people not interested in getting a vaccine "is significant enough to compromise the effectiveness of rolling out a Covid-19 vaccine," said the World Economic Forum.

These days, going out without wearing a face mask is considered poor form – and, in some places, an offense. But the mayor of an Italian town says fines should be slapped on those wearing a mask in an “inappropriate” situation.

In the same way global health authorities insist masks contain the spread of coronavirus, Vittorio Sgarbi, the mayor of Sutri, is confident his unorthodox initiative will help stem the spread of “pandemic-related hysteria,” as he put it, according to the TASS news agency.

البنتاجون يعلن ان الصين تحاول ان تضاعف مخزون الرؤوس النووية لديها

# China pushing to double nuclear warhead arsenal: Pentagon

by Staff Writers  
Washington (AFP) Sept 1, 2020

The Chinese military is pressing to double its 200-plus nuclear warheads within a decade with the ability to launch them aboard ballistic missiles by land, sea and air, the Pentagon said in a report Tuesday.

Aside from aiming for technological parity with the United States, the People's Liberation Army is also focused on conducting joint operations, to be able to deter or defeat any US effort to intervene on Taiwan's behalf, the report said.

It said that PLA has already matched or surpassed the US military in several areas, including shipbuilding, land-based ballistic and cruise missiles, and air defense systems.

And in its first public estimate of China's nuclear capacity, the annual report said the country has warheads numbering "in the low 200s" in its nuclear stockpile, fewer than the 300 or more estimated by independent analysts.

The report says that number is expected to double over 10 years. China can already launch nuclear weapons by ballistic missile from land and sea, and is developing the capacity to do develop an air-launched ballistic missile as well, the report said.

The report by the US Defense Department, which claims that Beijing plans to double the number of its nuclear warheads, is biased, the Chinese Foreign Ministry said.

The statement by ministry spokeswoman, Hua Chunying, followed the release of the Pentagon's annual report to Congress on China's military operations on Tuesday.

Among other things, the paper claimed that Beijing's nuclear warhead stockpile, which is currently estimated in the low 200s, "is projected to at least double in size" over the next

# Palau invites US military to build bases as China seeks regional clout

By Bernadette CARREON  
Koror, Palau (AFP) Sept 4, 2020

The tiny Pacific nation of Palau has urged the United States military to build bases on its territory -- which lies in a region where Washington is pushing back against growing Chinese influence.

US Defense Secretary Mark Esper visited the island nation last week and accused Beijing of "ongoing destabilising activities" in the Pacific.

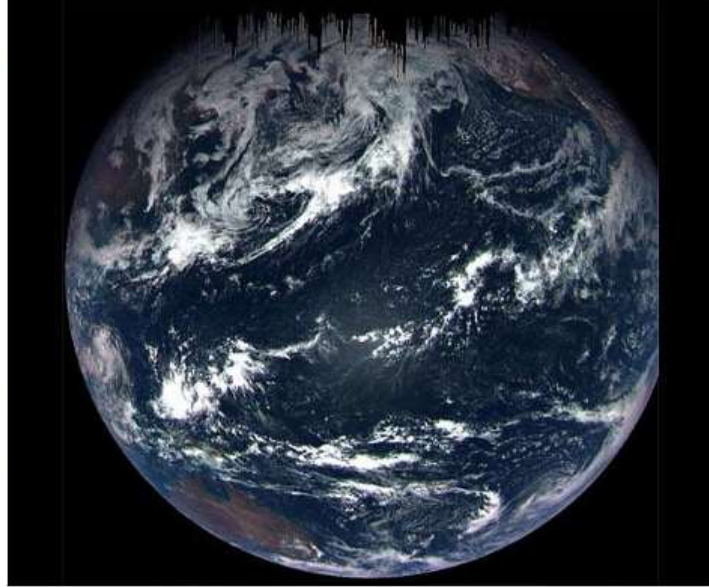

Palau President Tommy Remengesau later revealed he told Esper the US military was welcome to build facilities in his country, an archipelago about 1,500 kilometres (930 miles) east of the Philippines.

"Palau's request to the US military remains simple -- build joint-use facilities, then come and use them regularly," he said in a letter to the US defence chief that his office released this week.

The note, addressed to Esper and marked "by hand delivery, Koror, Palau," said the nation of 22,000 was open to hosting land bases, port facilities and airfields for the US military.

Remengesau also suggested a US Coast Guard presence in Palau to help patrol its vast marine reserve, which covers an area of ocean the size of Spain and is difficult for the tiny nation to monitor.

While Palau is an independent nation, it has no military and the US is responsible for its defence under an agreement with Washington called the Compact of Free Association.

# Philippines will not follow US in blacklisting China firms: official

by Staff Writers  
Manila (AFP) Sept 1, 2020

The Philippines will not follow the US lead in blacklisting Chinese companies involved in the construction of artificial islands in the disputed South China Sea, the president's spokesman said Tuesday, arguing Manila needed Beijing's investment.

Washington last week announced sanctions against 24 Chinese state-owned companies -- including subsidiaries of China Communications Construction Co, which is involved in a \$10 billion airport project in Manila.

The US has been pushing back against Beijing's military buildup in the South China Sea, where sovereignty is contested by several countries -- including the Philippines.

China claims the majority of the area, invoking its so-called nine-dash line to justify its alleged historic rights to a key waterway through which trillions of dollars of international trade pass every year.

President Rodrigo Duterte's spokesman told reporters Tuesday that Chinese involvement in major Philippine infrastructure projects would go ahead despite Washington's sanctions -- including turning Sangley Point, a US naval station until the early 1970s, into a commercial airport.

"The Sangley project will push through," Harry Roque told reporters, adding the Philippines "will not follow the American directive because we are a free and independent state and we need investments coming from China".

# UN watchdog concerned over NKorea nuclear 'violation'

by Staff Writers  
Vienna (AFP) Sept 2, 2020

North Korea continues to operate some nuclear facilities and its activities remain "a cause for serious concern", the UN's nuclear watchdog said.

"The continuation of the DPRK's nuclear programme is a clear violation of relevant UN Security Council resolutions and is deeply regrettable," the International Atomic Energy Agency (IAEA) said in its report to members, referring to North Korea's official name.

Among activities during the period since its last report in August 2019, the IAEA said there were "indications consistent with the production of enriched uranium" at the reported Yongbyon nuclear site.

The Vienna-based agency noted in its report, dated Tuesday but publicised on Wednesday, that it had not had access to the Yongbyon site or other locations in North Korea, basing its analysis on "information available to it", including open source information and satellite imagery.

It said because of the apparent absence of steam or cooling water discharge at Yongbyon, "it is almost certain that the reactor has remained shut down since early December 2018".

## Iran hails support for nuclear deal against US

Tehran (AFP) Sept 2, 2020 - Iran's President Hassan Rouhani on Wednesday hailed the show of unity by parties to a 2015 nuclear deal, after they defeated US efforts to restore international sanctions.

Britain, China, France, Germany, and Russia -- dubbed the "4+1" -- are struggling to save the accord after the United States withdrew from it in 2018.

Washington unilaterally reimposed sanctions on the Islamic republic.

Iran has stepped up its nuclear activities in the past year in retaliation for Washington's pullout from the deal, officially known as the Joint Comprehensive Plan of Action, or JCPOA.

"Fortunately, yesterday in Vienna, the 4+1 clearly stated that they stand by the JCPOA and that America does not have the right to misuse it," Rouhani said in remarks to the weekly cabinet meeting broadcast on state television.

"They have not only pulled out of the JCPOA but also punished whoever has abided by it."

## FBI Reports Chicago Gangs Have Formed Pact to Shoot Cops 'On Sight'

NATIONAL REVIEW

Zachary Evans, National Review • September 1, 2020

A federal intelligence alert from the FBI field office in Chicago, Ill., warned that about 30 gangs in the city have made a pact to shoot police officers if they draw their weapons in public, ABC 7 reported on Monday.

Intelligence alerts are frequently distributed to law enforcement officials, especially if the alerts involve threats to an officer's safety. This particular alert was based on "a contact whose reporting is limited and whose reliability cannot be determined," meaning a

### Abstract

Despite decades of study, the molecular mechanisms and selectivity of the biomolecular components of honeybee (*Apis mellifera*) venom as anticancer agents remain largely unknown. Here, we demonstrate that honeybee venom and its major component melittin potently induce cell death, particularly in the aggressive triple-negative and HER2-enriched breast cancer subtypes. Honeybee venom and melittin suppress the activation of EGFR and HER2 by interfering with the phosphorylation of these receptors in the plasma membrane of breast carcinoma cells. Mutational

أمريكا ستنفق 625 مليون دولار على مركز أبحاث كمبيوترات سوبر

# US to spend \$625 mn on super-computing research centers

by Staff Writers  
San Francisco (AFP) Aug 26, 2020

The US on Wednesday said it will spend \$625 million over the next five years on centers to research artificial intelligence and quantum computing.

An additional \$340 million will be contributed by the private sector and academic institutions, bringing the total planned investment close to \$1 billion, according to a release by the Department of Energy.

The money will go to establishing a dozen research institutes focused on artificial intelligence and quantum computing, the DOE said.

"These institutes will be world-class hubs for accelerating American innovation and building the 21st century American workforce," said US Chief Technology Officer Michael Kratsios.

The US invests more than \$500 million annually in AI research and is building on that effort to "advance American competitiveness," according to National Science Foundation director Sethuraman Panchanathan.

A Google official warned in January that in a technological race to the future, China could pour "enormous resources" into developing super-computers with quantum technology.

US officials and scientists in July began laying the groundwork for a more secure "virtually unhackable" internet based on quantum computing technology.

## At least 500 Ethiopian Christians reported slaughtered in relentless door-to-door attacks since June

An Ethiopian Christian leader called for an international inquiry into the slaying of hundreds of Christians, including pregnant women, children and whole families, in ongoing Oromo Muslim extremist attacks in the parts of the Oromia regional state, extending south, south-east and east of Addis Ababa, since the end of June. According to reports, more than 500 were killed.

The coordinated killings, targeting Christians from a wide range of ethnicities including Oromo Christians, began soon after the alleged assassination of a popular Oromo singer, Hachallu Hundessa, who was shot dead on 29 June, while driving in the outskirts of the capital.

# FRANKLIN GRAHAM'S HATEFUL, PRO-TRUMP POLITICS ARE RUINING YOUR CREDIBILITY

OUR GOAL: **15,000** signatures

POSTED: Aug. 28, 2020

The final night of the 2020 Republican convention began with a partisan appearance from notoriously homophobic preacher Franklin Graham, who prayed, "I thank you tonight for our president, Donald J. Trump... in the mighty name of your Son."

Standing behind a Trump-Pence campaign sign, Graham also used Jesus's name to give thanks for "the many blessings we have received these past four years." We would hardly consider family separation, the deadly federal COVID-19 response, rampant corruption and authoritarianism, or ongoing systemic racism to be "blessings."

(EVANGELICAL FOCUS) -- According to a preliminary release on the findings of the 2020 State of Theology survey, 52% of American adults believe that Jesus was a great teacher, but he is not God.

Among those surveyed who identified as evangelicals, 30% agree that Jesus was merely a great teacher, and “nearly 65% still agree with the statement, Jesus is the first and greatest being created by God.”

Ligonier Ministries' biennial State of Theology survey “provides key findings on what Americans think about God, truth, the Bible, worship, and ethical issues,” the authors say.

فلهذا اطلب أن نصلي ونستعد ونعد زيت لمصاييحنا لاستقبال العريس بالصلاة والصوم وخدمة

أبناء الله وتنقية القلب والاستعداد بلبس العرس.

رسالة بولس الرسول الي أهل رومية 13

13: 11 هذا وأنكم عارفون الوقت انها الان ساعة لنستيقظ من النوم فان خلاصنا الان أقرب مما كان حين امنا

13: 12 قد تنهى الليل وتقارب النهار فلنخلع اعمال الظلمة ونلبس اسلحة النور

13: 13 لنسلك بلياقة كما في النهار لا بالبطر والسكر لا بالمضاجع والعهر لا بالخصام والحسد

13: 14 بل البسوا الرب يسوع المسيح ولا تصنعوا تدبيرا للجسد لأجل الشهوات

احترس ان لم تتمسك بالمسيح من الان قد لا تستطيع في المستقبل القريب بسبب الظلام.

وكما قلت هو اخبرنا لكي لا نخاف

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

بطرس الأولى 3: 14

وَلَكِنْ وَإِنْ تَأَلَّمْتُمْ مِنْ أَجْلِ الْبِرِّ، فَطُوبَاكُمْ. وَأَمَّا خَوْفُهُمْ فَلَا تَخَافُوهُ وَلَا تَضْطَرِبُوا،

**بل نؤمن**

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.».

افرحوا لان عريسنا قد اقترب مجيؤه. وانتبهوا الشيطان يريد أن نفقد سلامنا ولا ننال أكاليل.

وأیضا استعدوا فقد تسلموا وديعتكم في أي وقت فهناك 150 ألف شخص يموتوا في اليوم الواحد

انت لا تعرف متى ستكون منهم

المسيح اقترب فاصنعوا ثمار تليق بالتوبة واستعدوا لاستقبال العريس.

والمجد لله دائما
