

تعليق على بعض الاحداث العالمية

والعلامات حتى 22 سبتمبر 2020

Holy_bible_1

اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية.
والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه لأننا نور العالم
الذي أصبح مظلم وليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا
مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة
بأيمان عامل بالمحبة والتبشير وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان
الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان
وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك
زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقرب فنكون مستعدين سواء جاء او نحن ان
سلمنا وديعتنا عن أنى لا اقول انه اقرب لكيلا يقال عني كاذب وانشتر اشاعات او اخيف البعض
ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي
المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما
انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تَوْمِنُونَ.

ثالثا لننتبه ونستعد

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَأَنْتَضِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ».

The European Space Agency has awarded a contract worth €129.4 million (\$153.3 million) to German satellite manufacturer OHB to lead the development of the pioneering Hera planetary defense mission.

Hera, named after the Greek goddess of marriage and family, is Europe's addition to international asteroid defense systems. The contract covers Hera's design, integration and

SPACE PLANE GLIDES BY VENUS: Did you know, there's a space plane orbiting Earth? It's the US Air Force's [Boeing X-37](#) mini-shuttle. Kevin Fetter of Brockville, Ontario, video-recorded it last night passing by the planet Venus:

"The other satellite in the video is SAOCOM 1-B which passed above Venus," says Fetter.

The X-37 is a [semi-secret](#) robotic spacecraft with resembles NASA's old space shuttle. In fact, it started as a NASA project in 1999 before being transferred to the United States Department of Defense in 2004. The X-37 has been orbiting Earth off and on since April 2010, with some flights lasting as long as 780 days in orbit. The latest mission, the sixth, launched on an Atlas V rocket on May 17, 2020.

Earlier this month, China launched its own space plane, apparently to keep up with the X-37. [The Chinese version](#) also resembles NASA's retired space shuttle. It completed its first test flight, a 2-day trip into low-Earth orbit, on Sept. 6th when it landed [somewhere in China](#).

In yet another cosmic barrage of boulders and debris, NASA is warning of at least five close asteroid flybys this week, just days after Japan's space agency announced it would be extending its asteroid-hunter mission.

To kick things off, on September 21 the 10-meter and 16-meter 2020 RQ6 and 2020 SJ2 will shoot past the Earth at distances of 1.2 and 1.4 million kilometers respectively.

Hurricane Teddy could become catastrophic Category 4 storm: National Hurricane Center

Download this video

by: Associated Press

Posted: Sep 16, 2020 / 09:18 AM PDT / Updated: Sep 16, 2020 / 06:11 PM PDT

Tropical Storm Teddy has become a hurricane with maximum sustained winds of 100 mph, the National Hurricane Center said Wednesday.

Teddy is likely to become a major hurricane in the next day or so, and forecasters said it could reach Category 4 strength before closing in on Bermuda, which took a direct hit from Hurricane Paulette only days ago.

'Medicane,' a rare, hurricane-like storm in the Mediterranean, makes landfall in Greece

By [Brandon Miller](#) and [Jennifer Gray](#), CNN

Updated 7:15 AM ET, Fri September 18, 2020

lanos is set to impact Greece with hurricane-like winds 02:51

(CNN) — A rare Mediterranean hurricane -- otherwise known as a "medicane" -- has made landfall over Western Greece.

The storm, named Ianos, hit Lefkada Island on Friday morning, according to the Hellenic National Meteorological Service, and is expected to impact mainland Greece and the Peloponnese peninsula later.

Ianos was traveling with sustained winds of 100 kph (62 mph) just before landfall, making it the equivalent of a strong tropical storm in the Atlantic.

Summer of U.S. Disasters Set Records, Left Trail of Ruin

Bloomberg Will Wade and Marvin G Perez

Bloomberg September 18, 2020

(Bloomberg) -- It was a summer of violent weather in the U.S., with massive wildfires, searing heat, floods and hurricanes leaving trails of destruction. The disasters have hit in nearly every region of the country. They're further evidence that the Earth's climate is changing, bringing hotter temperatures, stronger storms and more widespread devastation. Here are some of the records, near records and meteorological grenades that Mother Nature has thrown at America over the last three months:

More than 100 000 livestock animals perish as intense snowstorms hit Patagonia, 70 percent of flock at risk

Posted by [Julie Celestial](#) on August 24, 2020 at 13:36 UTC (24 days ago)

[Follow @TheWatchers_](#)

Categories: [Agriculture](#), [Blizzards](#), [Featured articles](#), [Ice & snow](#)

Intense snowstorms and frosts hit Patagonia amid one of the region's worst winters in two decades, which has badly affected the agricultural sector. More than 100 000 livestock animals have perished, according to officials' first estimate of losses, who also warned that herdsmen in the highlands may lose up to 70 percent of the flock. In early August, an agricultural disaster emergency was declared for the affected territories.

Officials conducted the first assessment of losses together with technicians from the Agriculture Technology Institute, covering highlands next to the cordillera.

"Anyhow, we are talking of at least 100 000 sheep and 5 000 cattle," said provincial livestock secretariat Tabare Bassi this week.

Hundreds have occupied the streets of central Tel Aviv overnight to vent anger at a stringent second lockdown that will dramatically restrict people's mobility, shut down most businesses and enforce social distancing rules.

Numbering hundreds, the anti-lockdown rally kicked off in Tel Aviv on Thursday – not long after the government rolled out a set of measures on a second Covid-19 shutdown. Prime Minister Benjamin Netanyahu insisted the move was necessary as hospitals “raised the red flag” after a drastic surge in fresh Covid-19 cases.

Europe is facing a "very serious situation" with the coronavirus spreading at "alarming rates," the World Health Organization (WHO) has warned, as France reported its highest number of new cases in 24 hours since the outbreak hit.

The number of new Covid-19 cases in Europe has surpassed the spikes observed during the first wave of the disease that swept across the continent early this year, WHO Regional Director Hans Kluge said during a news conference on Thursday.

A proposal allowing police to preemptively lock up those they believe "might" violate coronavirus lockdown measures has gone before the Victoria state parliament, with many fearing it opens the door to unprecedented abuses.

If passed, the law would allow police to indefinitely detain any Victoria resident who either tests positive for Covid-19 or is a close contact of someone who has, as long as the officer believes they are "likely to refuse or fail to comply" with quarantine regulations. The state's parliament began hearings on Thursday but has not issued a public decision as of Friday.

UN Forced To Admit Gates-Funded Vaccine Is Causing Polio Outbreak In Africa

by Tyler Durden
Fri, 09/04/2020 - 23:43

Via [21stCenturyWire.com](#).

This really should be one of the biggest scandals in public health, but it's given little attention - mainly because of the high-profile nature of the people and organisations involved.

The United Nations has been **forced to admit** that a major international vaccine initiative is actually causing the outbreak of the very disease it was supposed to wipe-out.

While international organisations like the World Health Organization (WHO) will regularly boast about supposedly 'eradicating polio' with vaccines, the opposite seems to be the case. Their decades-long campaign to eradicate polio is now killing scores of innocent young people living in poor countries.

Now it seems that health officials are beginning to admit that their plan to stop 'wild' polio is backfiring, as scores of children are being paralyzed a deadly strain of the pathogen derived from a *live* vaccine - causing a virulent polio to spread.

Health officials administer polio vaccine to children at refugee camp in Maiduguri, Nigeria, Aug. 28, 2016 (AP Photo/Sunday Alambai)

This latest pharma-induced pandemic has broken out in the African countries of **Chad** and **Sudan**, and the culprit has been identified: a vaccine-derived polio virus type 2. Officials now fear this new dangerous strain could soon 'jump continents,' causing further deadly outbreaks around the world.

Shocking as it sounds, this Big Pharma debacle is not new. After spending some \$16 billion over 30 years to eradicate polio, international health bodies have 'accidentally' reintroduced the disease to in Pakistan, Afghanistan, and also Iran, as the central Asia region was hit by a virulent strain of polio caused by the *non-replicative* vaccine-derived virus distributed there. ~~Also, in 2005, the government of Ethiopia ordered the~~

Eyeing China, Pentagon plans larger, 'more lethal' navy

by Staff Writers
Washington (AFP) Sept 16, 2020

Secretary of Defense Mark Esper announced Wednesday an ambitious plan to expand the US Navy with a range of unmanned and autonomous ships, submarines and aircraft to confront the growing maritime challenge from China.

The Pentagon chief said a sweeping review of US naval power dubbed "Future Forward" had laid out a "game-changer" plan that would expand the US sea fleet to more than 355 ships, from the current 293.

The plan, which requires adding tens of billions of dollars to the US Navy's budget between now and 2045, is aimed at maintaining superiority over Chinese naval forces, seen as the primary threat to the United States.

"The future fleet will be more balanced in its ability to deliver lethal effects from the air, from the sea, and from under the sea," Esper said in a speech at the Rand Corp. in California.

The expansion will add "more and smaller" surface ships; more submarines; surface and subsurface vessels that are optionally manned, unmanned and autonomous; and a broad range of unmanned carrier-based aircraft.

The plan is for a fleet of ships more able to survive a high-intensity conflict, to project US power and presence, and to deliver precision strikes at very long distances, he said.

An example, Esper added, is a new guided missile frigate program, producing ships with "increased lethality, survivability, capability and capacity to conduct distributed warfare."

Air Force says it's testing a next-generation fighter jet

by Christen Mccurdy
Washington DC (UPI) Sep 15, 2020

The U.S. Air Force confirmed Monday that it has designed, built and flown at least one prototype of its next-generation fighter jet.

Roper revealed that the prototype has begun flight testing Tuesday during the Air Force Association's virtual Air, Space & Cyber Conference.

This marks the nearly the first flight of an experimental fighter in 20 years.

"We've already built and flown a full-scale flight demonstrator in the real world, and we broke records in doing it," Will Roper, the Air Force's acquisition chief, told Defense News. "We are ready to go and build the next-generation aircraft in a way that has never happened before."

The development of the prototype happened in secret, and other details will likely remain under wraps due to the classification of the Air Force's Next Generation Air Dominance Program, which connects air warfare systems that could include fighters, drones and other networked systems.

Roper did not say how many prototype aircraft have been flown or which defense contractors manufactured them, nor did he disclose when or where the first flight occurred.

It's also unclear whether the aircraft is a traditional piloted aircraft or a drone.

The last flight of an experimental fighter took place during the battle for the Joint Strike Fighter contract, and the rollout and successful first flight of a demonstrator was not expected for years.

"We're going after the most complicated systems that have ever been built, and checked all the boxes with this digital technology," Roper said. "In fact, [we've] not just checked the boxes, [we've] demonstrated something that's truly magical."

Air Force destroys surrogate cruise missile in hypervelocity projectile test

by Christen McCurdy
Washington DC (UPI) Sep 15, 2020

The Pentagon on Tuesday released video showing the rapid detection and destruction of surrogate Russian cruise missiles as part of a test of a new weapons system.

The Air Force ran its second test of the Advanced Battle Management System earlier this month. The system is meant to streamline the collection, analysis and sharing of information so that joint forces can make decisions faster in the battlefield.

The test included detecting and destroying the surrogate cruise missile using artificial intelligence-driven software systems that might help commanders make decisions about battle with China or Russia.

According to Will Roper, assistant secretary of the Air Force for acquisition, technology and logistics, a novel hypervelocity projectile successfully shot down one of the surrogate cruise missiles used in the test.

"Future battlefields will be characterized by information saturation. One of the key objectives of this onramp was to present a dizzying array of information for participants to synthesize, just like they would see in a real operation," Roper said.

The weeklong test included 70 industry teams, 65 government teams from every branch of the military including the Coast Guard, 35 military platforms and took place at 30 geographic locations and four national test ranges.

The Pentagon on Tuesday released footage of an Army howitzer firing an Air Force hypervelocity projectile at a surrogate Russian cruise missile and destroying it.

US will prevent Iran from getting Chinese, Russian arms: Pompeo

by Staff Writers
Paris (AFP) Sept 15, 2020

US Secretary of State Mike Pompeo vowed Tuesday that Washington would prevent Iran from purchasing "Chinese tanks and Russian air defence systems" as the end to a UN arms embargo against Tehran approaches.

While the European Union and United Nations disagreed with the US decision to withdraw from an international nuclear deal in 2018 and reimpose unilateral sanctions on Iran, Washington was acting to "keep the world safe," he told France Inter radio.

"We are going to act in a way -- and we have acted in a way -- that will prevent Iran from being able to purchase Chinese tanks and Russian air defence systems and resell weapons to Hezbollah to undermine the very efforts that (French) President Macron is ably trying to lead in Lebanon," Pompeo said.

Hezbollah, an Iran-backed Shiite militant group, has long been targeted by US sanctions and is blacklisted as a "terrorist" organisation.

But it is also a powerful political player with seats in parliament in Lebanon, where the French president is seeking to foster political reform.

"It's irreconcilable that you would permit Iran to have more money, more wealth, and more arms, and still be working to try and help disconnect Hezbollah from the disaster that they have created inside of Lebanon," Pompeo said.

UN nuclear watchdog to visit 2nd Iran site in 'a few days'

by Staff Writers
Vienna (AFP) Sept 14, 2020

The head of UN's nuclear watchdog said Monday that inspectors would "in a few days" visit the second of two sites in Iran where undeclared nuclear activity may have taken place in the early 2000s.

Iran's refusal to allow the International Atomic Energy Agency (IAEA) access to the two sites had caused a diplomatic row for months.

This had further strained efforts to save the 2015 landmark Iran nuclear deal, which has hung by a thread since the US pulled out of it in 2018.

The accord promises Iran sanctions relief in exchange for curbing its nuclear programme, but Tehran has stepped up nuclear activities since last year after the US reimposed sanctions.

IAEA Director General Rafael Grossi said a visit to a second site, to which the agency had requested access, was imminent following a recent visit to the first.

"The second one will happen in a few days," he told reporters after opening the agency's 35-member board of governors' meeting.

He said analysing environmental samples collected at the first site would take "not less than a couple of months, two or three months maybe".

Tehran announced in late August that it would allow the IAEA access to the two sites, following a visit to Tehran by Grossi.

The denial had prompted the IAEA's board of governors to pass a resolution in June urging Tehran to comply with the agency's requests.

Over 100 active & former soldiers were detained in counterterrorism raids in Turkey, local media say. The arrests were made in connection with self-exiled preacher Fethullah Gulen, who Ankara says was behind the 2016 coup attempt.

Authorities issued arrest warrants for 132 people, 106 of which were detained by counterterrorism units, Turkish news outlets reported, citing security sources. The operation

US Banning WeChat, TikTok Citing National Security

09-18-2020 - Eric Phillips

This coming Sunday two of the world's most popular apps will no longer be available in this country. After much controversy and debate, the US government is essentially banning TikTok and We Chat.

It's a move that has been expected for some time and now that it's finally happening, experts expect it to make the tense relationship between the US and China even more strained.

"It's a sign of rising tension between these two countries," said Nathaniel Bradley, CEO of Data Donate Technologies. "There's a new form of espionage. It's in our pocket,"

By Kate Kelland

LONDON, Sept 14 (Reuters) - Scientists have created gene-edited pigs, goats and cattle to produce sperm with traits such as disease resistance and higher meat quality in what they say is a step towards genetically enhancing livestock to improve food production.

The animals, created for the first time by researchers in the United States and Britain using a gene-editing tool called CRISPR-Cas9, could be used as "surrogate sires", essentially sterile blank slates that could then be transplanted with stem cells that produce the desired sperm, the scientists said. The process could help farmers rear healthier, more productive animals using fewer resources such as feed, medicines and water, they said. It could also give breeders in remote regions of the world better access to genetic material of elite animals from elsewhere, allowing for "precision breeding".

"With this technology, we can get better dissemination of desirable traits and improve the efficiency of food production," said Jon Oatley, a reproductive biologist at Washington State University in the United States, who co-led the work.

Kroger Named One of the Best Places to Work for LGBTQ Equality for the Second Consecutive Year

Company Release – 1/21/2020

CINCINNATI, Jan. 21, 2020 /PRNewswire/ -- The Kroger Co. (NYSE: KR) today announced it earned its second consecutive perfect score on the [2020 Corporate Equality Index](#), the Human Rights Campaign (HRC) Foundation's national benchmarking tool for corporate policies and practices supporting lesbian, gay, bisexual, transgender and queer (LGBTQ) employees.

The annual survey assesses non-discrimination workplace protections, domestic partner benefits, transgender-inclusive health care, competency programs and public engagement with the LGBTQ community. Kroger met or exceeded all Corporate Equality Index criteria, resulting in a perfect score of 100 and designation as a Best Place to Work for LGBTQ Equality.

"Kroger is extremely proud that HRC has once again recognized our unwavering commitment to promoting and celebrating diversity, inclusion and belonging across our company, our industry and our communities," said Tim Massa, Kroger's senior vice president and chief people officer. "This recognition reinforces the people-first, inclusive culture that we've built at Kroger. It's also a testament to the LGBTQ associates and allies who have shown us what we do well and where we can improve."
