والعلامات حتى 29 سبتمبر 2020

Holy_bible_1

اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية.
والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه لأننا نور العالم
الذي أصبح مظلم وليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا
مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة
بأيمان عامل بالمحبة والتبشير وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان
الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان
وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك
زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقرب فنكون مستعدين سواء جاء او نحن ان
سلمنا وديعتنا عن أنى لا اقول انه اقرب لكيلا يقال عني كاذب وانشرا اشاعات او اخيف البعض
ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي
المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما
انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تَوْمُنُونَ.

ثالثا لنتنبه ونستعد

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَأَنْنَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ».

Astronauts on board the International Space Station were forced to take evasive action to avoid an incoming piece of debris, which shot past within "several kilometers" late on Tuesday night.

The three crew members, Russian cosmonauts Anatoly Ivanishin and Ivan Vagner along with American astronaut Chris Cassidy, began the maneuver before taking up positions on board the Soyuz spacecraft at around 10:21pm GMT in case anything went wrong and they needed to abandon ship.

Why Are So Many Asteroids Having Close Calls With Earth In 2020?

Have you noticed that it seems like stories about asteroids that are approaching the Earth are constantly in the news this year? It wasn't always this way. In the old days, maybe there would be a story about an asteroid every once in a while, and those stories were never a big deal. But now asteroids are zipping by our planet with frightening regularity, and several more very notable passes will happen over the next few weeks. For example, an asteroid that was just discovered on September 18th will come very, very close to the Earth on Thursday. According to NASA, it will

In its latest bulletin, NASA has warned of five Near-Earth Objects headed towards our planet this week, one of which is larger than the Statue of Liberty. Meanwhile, the agency is gearing up for its asteroid-sampling mission.

It'll be a ferocious finale to September, as five space rocks measuring between 11 meters and 110 meters in diameter are due in just three days.

Kicking things off on Monday will be the 11-meter, telephone pole-sized 2020 SY4, which will come within 724,000km of Earth at a blistering pace of 16.12km/s (58,032kph, or 21

A CRACK IN EARTH'S MAGNETIC FIELD: You know it's a good geomagnetic storm when *everything* turns green. Sky. Water. Earth. Even the wheels of your Jeep. That's what happened last night in Tromsø, Norway:

"It was a great display--our first 'big one' of the season," says photographer [Markus Varik](#).

The outbreak of green occurred during a [G1-class](#) geomagnetic storm. Solar wind blowing almost 500 km/s slipped through [a crack](#) in Earth's magnetic field, fueling the display. Such cracks form often in the weeks around equinoxes--a phenomenon called "the [Russell-McPherron effect](#)."

Varik is an aurora tour guide who normally gets to show these outbursts to dozens of visitors from around the world. Not this time, though. "It was a solitary experience," he says, acknowledging that 2020 will be "a tough and strange year for tourism because of the global pandemic."

A rare hurricane force wind warning was just issued for Alaska

By Gene Norman and Allison Chinchar, CNN Meteorologists

Updated 4:19 PM ET, Sat September 26, 2020

(CNN) — The National Weather Service office in Anchorage issued a rare Hurricane Force Wind Warning for the Northern Gulf of Alaska on Saturday.

Parts of the Gulf could experience hurricane force winds and waves as high as a three-story building on Sunday into early Monday, the NWS said. The warning extends up to 100 nautical miles out, including Kodiak Island and Cook Inlet.

LAKE CHARLES, La. (BRPROUD)- After heavy rainfall brought in by Hurricane Laura, fish in Lake Charles are another victim of Hurricane Laura.

Rainfall water can carry high amounts of dissolved oxygen into large bodies of water via hurricanes.

The dissolved oxygen can cause life under water to suffocate.

Therefore, large amounts of fish in Lake Charles are showing up dead.

'DO NOT USE' WATER ADVISORY LIFTED FOR LAKE JACKSON RESIDENTS WHILE BOIL ORDER REMAINS

By Mycah Hatfield

Updated a few seconds ago

The 'Do-Not-Use' advisory was lifted Saturday for customers as officials work to bring the water system back to normal operations.

LAKE JACKSON, Texas (KTRK) -- The city of Lake Jackson has lifted a Do-Not-Use Advisory for water customers while a Boil Order remains in place.

The change comes as state and city officials worked to flush and disinfect the city's system after tests revealed the possible presence of a brain-eating amoeba in three water samples.

Putin says Russia was forced to create hypersonic weapons after US withdrew from treaty

by Staff Writers
Moscow (Sputnik) Sep 21, 2020

by Ilya Tsukanov Russia unveiled half a dozen cutting edge strategic weapons systems, including the Kinzhal air-launched hypersonic missile and the ICBM-launched Avangard hypersonic glide vehicle, in 2018, in response to US efforts to build a missile shield, and the general beefing up of NATO forces on Russia's western borders.

Russia had no choice but to pursue the development of nuclear-capable hypersonic weapons systems in the aftermath of the Bush administration's decision in 2002 to tear up the 1972 Anti-Ballistic Treaty, which prohibited the creation of missile defences, President Vladimir Putin has said.

"America's withdrawal from the ABM Treaty in 2002 forced Russia to start developing hypersonic weapons. We had to create these weapons in response to the deployment of the US strategic missile defence system, which would have been able to neutralise and render obsolete our entire nuclear potential," Putin said, speaking to Gerbert Efremov, honorary general director and designer of the legendary NPO Mashinostroyeniya rocket design bureau on Saturday.

The first regiment of Avangard-armed strategic missiles was delivered to the Missile Forces in December 2019, and the gliders are expected to be fitted on RS-28 Sarmat heavy intercontinental ballistic missiles when they begin stepping into service in 2021. The Avangard and the Kinzhal ('Dagger') air-launched nuclear missile, which was first delivered to the Russian military in late 2017, are the first hypersonic weapons systems in the world to go on active duty.

Russia's season of war games unites West-weary allies

By Maxime POPOV
Moscow (AFP) Sept 24, 2020

President Vladimir Putin will on Friday oversee massive military exercises as Russia stages a series of drills with China and other allies amid fresh tensions with the West.

The largest of these games, Caucasus-2020, kicked off in southern Russia this week and include land and naval exercises involving a total of 80,000 people including more than 12,000 troops.

China, Iran and Myanmar are taking part along with Armenia and Belarus. The Kremlin announced Putin will attend the drills on Friday.

"These exercises are the main annual test of the Russian armed forces' readiness to engage in a large-scale conflict," Vasily Kashin, a Moscow-based military analyst, told AFP.

The drills that last until Saturday and feature naval deployments on the Black Sea and the Caspian have been organised "for the top echelons of the military leadership", he said.

According to the defence ministry, up to 250 tanks and around 450 infantry combat vehicles and armoured personnel carriers are

Moscow slams Sofia's expulsion of diplomats for spying
Moscow (AFP) Sept 24, 2020 - Russia on Thursday criticised Bulgaria's expulsion of two of its diplomats, dismissing "far-fetched" accusations that they were spying on the military.

Bulgaria's foreign ministry said Wednesday that it had ordered the expulsion of the diplomats, who Russia said worked in its trade mission.

The Russian foreign ministry in a statement expressed "regret" and said it viewed the decision as a "deliberate attempt to harm constructive Russia-Bulgaria cooperation.

It said it would announce retaliatory measures later.

The order for the pair to leave within 72 hours came after the Bulgarian public prosecutor alleged the Russians had been seeking out classified information on military modernisation plans since 2016.

Increased China Warplane Activity Unnerves Taiwan

In this photo released by the Taiwan Ministry of National Defense, a Chinese People's Liberation Army H-6 bomber fitted with the YJ-12 anti-ship cruise missile is seen flying near the Taiwan air defense identification zone near Taiwan on Sept. 18, 2020.

TAIPEI, TAIWAN - The increasing number of air force incursions from China is starting to fray nerves among ordinary Taiwanese, who wonder if their heavily armed political rival finally plans to attack after decades of threats, polls and analysts say.

China 'must back off', says Taiwan

by Staff Writers
Taipei (AFP) Sept 22, 2020

Taiwan on Tuesday demanded that China "back off" and accused it of threatening peace, after a Beijing official rejected a largely respected marine boundary following recent incursions.

Foreign minister Joseph Wu urged Beijing to "return to the civilised international standards" after a Chinese foreign ministry spokesman said there was no so-called median line in the Taiwan Strait "as Taiwan is an inseparable part of Chinese territory".

Wu told reporters: "The median line has been a symbol of preventing military conflicts and maintaining peace and stability in the Taiwan Strait for many years. The Chinese foreign ministry's comment is equivalent of destroying the status quo."

"I call on the international community to condemn the CCP for its dangerous and provocative words and deeds threatening peace... China must back off," he added in a tweet.

China considers Taiwan part of its territory, to be absorbed into the mainland, by force if necessary even though it has been self-ruled for more than seven decades.

Beijing has ratcheted up pressure on the democratic island since the 2016 election of President Tsai Ing-wen, who rejects its view that Taiwan is part of "one China".

Last year, Taiwan accused China of violating a long-held tacit agreement after its fighter jets -- for the first time in years -- crossed the median line of the waters that separate the two sides.

Iran says US faces 'maximum isolation' as world powers dismiss sanctions

By Karim Abou Merhi
Tehran (AFP) Sept 20, 2020

Iran said Sunday its arch-foe the United States is facing "maximum isolation" after major powers dismissed a unilateral US declaration that UN sanctions on Tehran were back in force.

Washington said the sanctions had been re-activated under the "snapback" mechanism in a landmark 2015 nuclear treaty -- despite Washington having withdrawn from the deal.

As other signatories cast doubt on the move having any legal effect, Washington threatened to "impose consequences" on states failing to comply.

But Iran's President Hassan Rouhani said a concerted campaign by Washington to pressure Tehran had backfired.

"We can say that America's 'maximum pressure' against Iran, in its political and legal aspect, has turned into America's maximum isolation," he said in a televised cabinet meeting.

The sanctions in question had been lifted when Iran, the UN Security Council's five permanent members (Britain, China, France, Russia and the US) and Germany signed the 2015 treaty on Iran's nuclear programme, known as the Joint Comprehensive Plan of Action.

But President Donald Trump withdrew the US from the JCPOA in 2018, saying the deal -- negotiated by his predecessor Barack Obama -- was insufficient.

A knife attack near the former offices of French satirical magazine Charlie Hebdo in Paris has left several injured. The magazine was the target of a deadly terrorist attack in 2015.

It's still unclear how many people suffered in the attack. Prime Minister Jean Castex said, "the stabbing attack was carried out in the 11th arrondissement in front of the former headquarters of Charlie Hebdo, leaving four injured, two of whom are in serious condition." Later, Franceinfo reported that the police have lowered the number of those injured to two.

A major hospital chain has been hit by what appears to be one of the largest medical cyberattacks in United States history.

Computer systems for Universal Health Services, which [has more than 400 locations](#), primarily in the U.S., began to fail over the weekend, and some hospitals have had to resort to filing patient information with pen and paper, according to multiple people familiar with the situation.

Universal Health Services did not immediately respond to requests for comment, but posted a [statement](#) to its website that its company-wide network “is currently offline, due to an IT security issue. One person familiar with the company’s response efforts who was not authorized to speak to the press said that the attack “looks and smells like ransomware.”

Russian authorities mounted a special operation to arrest a former traffic police officer who claims to be the reincarnation of Jesus and has **run a cult** based in the depths of Siberia for the past three decades.

Helicopters and armed officers stormed communities run by Sergei Torop, known to his followers as Vissarion, and arrested him and two of his aides. Russia's investigative committee said it would charge him with organising an illegal religious organisation, alleging that the cult

Canadian doctors get ready for child euthanasia

(NATIONAL REVIEW) It never made any sense. The assurance that active euthanasia would always be limited to terminally ill, competent adults just never made any sense. Here's the problem: Once a society widely supports eliminating suffering by eliminating the sufferer and redefines as a "medical treatment" the act whereby doctors kill seriously ill patients, there is no logical argument for limiting euthanasia to adults with legal decision-making capacity. After all, children suffer too, so how can they be logically refused "medical aid in dying" — or MAID, the current euphemism for euthanasia and assisted suicide — only because of their age?

The short answer, of course, is that they can't and they won't be, once a society generally embraces euthanasia consciousness, as is demonstrated by the three countries where lethal-jab euthanasia has been legalized and now has popular support. Belgium legalized euthanasia in 2002 for anyone age twelve and

(Daily Star) – Michel F  ro do Prado, 44, has transformed himself into a “sinister creature” sporting dozens of tattoos, piercings, and even customized teeth to achieve his Satan image. He has shaped his teeth into arches and even got two horns implanted onto his head.

And now tattoo artist has taken his transformation even further – by completely removing his nose. In his recent Instagram photos, Michel has a gaping hole in his nose with a large piece of it being removed and stitched up. Details of the procedure remain unclear and the risks or health complications of the surgery are unknown.

Students as young as 13 are rolling dice as part of a U.K. school program designed to be a "fun, interactive, engaging and [inclusive sexual health toolkit](#)."

The game, called aGENDER v2, was developed by The Proud Trust "to create LGBTQ+ positive resources for schools, colleges and other youth settings, to equip them in being fully inclusive in their practice, policy and curriculum." It's being used in the U.K. and is for sale internationally online for \$96.06 U.S.

The dice game asks students to roll a die that has various body parts on each of the sides. The die is rolled twice, and the student is asked to describe and discuss an explicit sexual act involving those body parts.
