اكرر اننا لا نحدد مواعيد بل فقط نشجع بعضنا بعضا بقرب مجيء المسيح

رسالة بولس الرسول الأولى إلى أهل تسالونيكي 4: 18

لِذَلِكَ عَزُّوا بَعْضُكُمْ بَعْضًا بِهَذَا الْكَلَامِ.

يوجد نبوات لم نراها بعد حدثت مثل ابن الهلاك وحرب هرمجدون وظهور الشاهدين وغيره ولا نعرف متى ولكن أشعر انها اقتربت. ولكن ايضا علامات كثيرة من التي قال عنها الكتاب انها في الزمان الاخير وفي الجيل الأخير بدأت تحدث بوضوح ويجب أن ننتبه اليها. فلا نعرف هل المسيح سيأتي في سنة ام سبع سنين ام سبعين سنة أم أكثر فكرر لا احدد مواعيد ولكن نذكر بعضنا باننا نحتاج ان نستعد. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت

مجيؤه. بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نشمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعته سابقا.

فمثال العشر عذاري نعسن كلهن ونمن في الظلمة والشيء الوحيد الذي نجى العذاري الحكيمات انهن كان عندهن زيت كافي من البداية قبل الظلام كفى ان يعبر بهم الظلمة والنوم. استعد من الان ليس فقط لاقتراب المسيح ولكن لاقتراب الظلمة والضيقة التي قبل المسيح لأنك صعب جدا تستعد وقتها والتي قال عنها الرب ليضلوا ولو أمكن المختارين أيضا. مطلب تستعد من الان حتى لو لم تكن مقتنع بان علامات اقتراب المسيح بدأت تظهر وحتى لو تشعر ان المستقبل امامك مفتوح لأنك لا تعرف متى تفاجئك الظلمة التي سيكون صعب ان تستعد فيها.

وأيضا محتاجين نستعد لانه في أي وقت ممكن نسلم وديعتنا فابدا من اليوم في تجميع زيت.

أنجيل لوقا 21

21: 36 اسهروا اذا و تضرعوا في كل حين لكي تحسبوا اهلا للنجاة من جميع هذا المزعم ان

يكون و تقفوا قدام ابن الانسان

وأيضا نتابع العلامات لكي نفتخر أيضا بدقة كتابنا بان الذي تنبأ به وسبق فأخبر به يحدث بمنتهى الدقة إذا ما قاله عن الدينونة والابدية أيضا دقيق.

انجيل لوقا 21

21: 28 و متى ابتدات هذه تكون فانتصبوا و ارفعوا رؤوسكم لان نجاتكم تقترب

21: 29 و قال لهم مثلا انظروا الى شجرة التين و كل الاشجار

21: 30 متى افرخت تنظرون و تعلمون من انفسكم ان الصيف قد قرب

21: 31 هكذا انتم ايضا متى رايتم هذه الاشياء صائرة فاعلموا ان ملكوت الله قريب

بعض الاحداث التي قال عنها الكتاب

انجيل لوقا 21

21: 25 و تكون علامات في الشمس و القمر و النجوم و على الارض كرب امم بحيرة البحر و

الامواج تضج

21: 26 و الناس يغطى عليهم من خوف و انتظار ما ياتي على المسكونة لان قوات السماوات

تتزعزع

(Before It's News)

Are these brand new Comet ISON fireballs just seen over Saudi Arabia as shared in the videos below? The first one shows eyewitness video of the multiple fireballs. There sure seems to be an awful lot of 'space dust' in the atmosphere surrounding Earth recently. Are all of these chunks of rock flying through space related to Comet ISON or something else altogether?

Has the Sun gone to sleep? Strange solar behavior baffles astrophysicists

Posted on [January 17, 2014](#)

SIGNS IN THE SUN - Scientists are saying that the Sun is in a phase of “solar lull” – meaning that it has fallen asleep – and it is baffling them. History suggests that periods of unusual “solar lull” coincide with bitterly cold winters. Rebecca Morelle reports for BBC Newsnight on the effect this inactivity could have on our current climate, and what the implications might be for global warming.

Water sampling in fish kill area yields nitrite ammonia

[f Recommend](#) 45 [t Tweet](#) 4 [g+1](#) 0 [Share](#) 7

By Anjo Bacarisas

Tuesday, January 14, 2014

NITRITE ammonia was found in the three water sampling that the Regional Health Fish Laboratory of the Bureau of Fisheries and Aquatic Resources (BFAR) in Northern Mindanao conducted on Monday after a fish kill occurred in the river of Barangay Agusan on January 11.

Rey Hojas, lab analyst of BFAR, said the river water contained high amounts of nitrite ammonia.

He added that the chemicals can bring stress to the fishes that could have caused the fish kill.

Cold Temps Kill Thousands of Fish in the Olentangy River

text size [A](#) [A](#) [A](#)

Updated: Tuesday, January 14 2014, 08:17 PM EST

COLUMBUS (Andrew Michael/Kate Liebers) -- Wildlife biologists investigated the Olentangy River Tuesday after reports of a mass fish death.

Hundreds of seagulls feasted Tuesday on small dead fish floating just below the murky water, near where the Olentangy dumps into the Scioto River.

Ohio Division of Wildlife's Karen Norris said the recent sub-zero temperatures killed off thousands of gizzard shad, a temperature-sensitive species.

EIGHT whales stranded off the northern tip of New Zealand's South Island will be euthanised after attempts over two day to refloat them proved unsuccessful.

The pilot whales that originally stranded on Farewell Spit on Tuesday were refloated on Wednesday and volunteers helped stop them beaching again when they were forced out of the water at nightfall.

The whales were found beached again on Thursday morning.

Department of Conservation ranger John Mason says they will not attempt to rescue them again and they will be euthanised on Thursday morning.

Охотники подозревают, что чума свиной добралась до Литвы (2)

Томас Янонис, ru.DELFI.lt
понедельник, 13 января 2014 г. 22:17

GRYNAS.lt получил письмо охотников, которые сообщили, что в Алитусском районе наблюдается массовый падеж кабанов. Охотники считают, что причина этого явления – чума свиной, которая попала в Литву из Беларуси. Мало того, охотники обвиняют государственные ведомства в том, что они скрывают факт появления этой болезни в Литве. Государственная продовольственно-ветеринарная служба (ГПВС) утверждает, что чума свиной в нашей стране не зафиксирована.

Scientists Baffled by Mass Sardine Die-Off on West Coast

Posted on [January 15, 2014](#)

Experts are baffled by a confirmed and unexpected die-off of the West Coast's sardine population, a mystery adding to an already long list of devastating environmental mysteries taking place in the wake of the Fukushima radiological disaster. One that follows not only the discovery of various radiation hot spots along the very same coast, such as a 1,400% increase as documented by Infowars' ongoing investigation into the subject, but

anomalies such as seen with the conjoined gray whale calves that were found dying along the coast. "Scientists are uncertain of what is causing the biggest sardine crash in generations, which is expected to wreak havoc up the food chain and cause economic problems for those who fish," a recent Los Angeles Times article states. The steep decline of 74 percent of the sardine population is not the first that's ever been documented, but it is the most drastic in the last 60 years, according to the Times. At the start of 2011, the sardine population was absolutely booming. "In the last 100 years, the number of small fish – such as pilchards, herrings, anchovies sprats and sardines – has more than doubled, according to a study," the Daily Mail reported in February 2011, mere months before a tsunami slammed into Japan's Fukushima-Daiichi nuclear reactor. The massive fish decline follows a spate of strange ocean occurrences that appear to have sprung up in synchronicity with the timing of the nuclear meltdown. For example, a recent study found 98 percent of the ocean floor is covered with dead sea life, a number that has increased 97 percent in the last two years alone.

Up to 100,000 dead fish in Nevada marina a mystery

Posted on [January 16, 2014](#)

January 16, 2014 – NEVADA – State wildlife officials are trying to figure out why all the fish have died in a northern Nevada marina where the stocked fishery has flourished since the man-made lake was created nearly 15 years ago. As many as 100,000 trout, bass and catfish have died over the past month in the Sparks Marina along U.S. Interstate 80 east of Reno, apparently the result of a dramatic, unexplained drop in dissolved oxygen levels, Nevada Department of Wildlife spokesman Chris Healy said Wednesday. Scientists say a bitter cold snap could have caused oxygen-poor waters to rise from the old rock quarry's bottom to the surface, but they don't understand what sparked the massive die-off. Fish biologists confirmed low oxygen levels caused the death of an estimated 3,000 fish in one corner of the lake in mid-December but Healy said they thought at the time the event was localized

An alarmingly high number of Olive Ridley turtles seem to have died on the southern and northern parts of the east coast this season.

Supraja Dharini of TREE Foundation, an organisation involved in Olive Ridley conservation, said that nearly 155 turtles have been reported dead on the stretch between Napier Bridge and Marakkanam since the beginning of this season in December.

During the entire nesting season (December to March) last year, the total deaths were not more than 190, she said.

CLINTON — A large winter fish kill at Clinton Lake near DeWitt has been attributed to recent fluctuations in water temperatures.

A wide selection of species, including walleye, bass, crappie and channel catfish, was among more than 5,300 fish located Tuesday by a fisheries biologist from the Illinois Department of Natural Resources.

The fish were found between the Illinois 48 and DeWitt bridges, near the hot water channel for the Clinton Power Station, said IDNR spokesman Tim Schweizer.

"Abrupt changes in water temperatures are not uncommon at a power plant lake" and likely caused the fish kill, said Schweizer.

Lake fishing should not be negatively impacted, said Schweizer.

Fishkill reported off Mati City

By Ben O. Tesiorna

Incidents of fishkill were reported in Mati City days after torrential rains were spawned by the low pressure area that has now become Tropical Depression Agaton, leading to flooding and excessive runoff from nearshore areas.

The fish die-off incidents happened off Purok Guang-guang along Pujada Bay, where fish cages are located.

About 20,000 fish reportedly died in the area.

Authorities from the Bureau of Fisheries and Aquatic Resources (BFAR) said the fishkill could be related to the weather condition affecting the city since last week.

Twenty-six dead dolphins found along the coast of Sechura

Details Posted on January 17, 2014 Written by Super User

Sechura. Inspection in a multisectoral was 20 kilometers from the beaches of Sechura 26 specimens of dead dolphins that were stranded by the waters of the sea south sector Reventazón found. The bodies of 11 sea lions and 15 turtles were also found.

The delegation led by the Instituto del Mar del Peru located Paita (Imarpe) and the Management of Natural Resources and Environmental Management Regional Government of Piura, the journey began at 10 am, taking advantage of the low tide. On the way, I was surprised to find remains of pelicans above the natural average.

The head of Imarpe Paita, Barriga Edward Rivera, described the event as unusual, the high number of deaths, but denied that these were produced by human activities.

"The species we found are at a high level of decomposition, so it is quite difficult to draw samples for the cause of death. What I have observed is that there are external factors that determine who may have been killed by shots bullet or some kind of entanglement in fishing nets," said Barriga.

The official said that it is very likely to be an anomalous oceanographic event which is causing this unusual mortality in the marine area.

However, in the case of seals, I would have said yes human intervention, as indicated that two of them were found in a suspicious position.

SEOUL, Jan. 18 (Yonhap) -- Health authorities opened an investigation Saturday to determine what killed about 1,000 ducks in a southern county recently hit by an outbreak of avian influenza (AI).

The Animal and Plant Quarantine Agency found the flock of migratory birds dead in a reservoir in North Jeolla Province a day earlier and began an investigation to confirm a possible link to AI, according to the provincial government.

The investigation comes after bird flu was confirmed in thousands of ducks at a duck farm in Gochang, a nearby village in the same province.

South Korea on Alert after Bird Flu Confirmed

TEHRAN (FNA)- South Korea stepped up the culling of poultry and enforced strict quarantine measures Saturday to stop the country's first outbreak of bird flu in three years from spreading, officials said.

Some 21,000 ducks on a poultry farm in Gochang in North Jeolla Province - 300 kilometers (187 miles) Southwest of Seoul - were culled after avian influenza was found there, the agriculture ministry said, Voice of Russia reported.

"Testing showed it was confirmed as H5N1 avian flu," Kwong Jae-Hwan, a senior ministry official, told reporters on Saturday.

Mass fish die-off underway in the Nile's Rosetta branch

On Wed, 15/01/2014 - 16:52

Sherif Sadek

[Tweet](#) 20 [Like](#) 0 [g+](#) 1

Al-Masry Al-Youm

Increasing numbers of dead fish are floating to the surface of the water in the Nile's Rosetta branch near the coastal city of Desouk, which indicates a potentially serious environmental disaster could be underway.

Fishermen reported a foul stench, thinking at first it was coming from the sewage or the industrial waste of the factories.

The governor has formed a committee to take samples of the fish and send them to the central laboratories of Kafr al-Sheikh to analyze and determine the causes.

About this Saturday down to the beaches of Puerto Azul club in Naiguatá, Vargas state, were surprised by the huge number of dead fish along the entire shore.

It is common schools of sardines and mackerel in somewhat deeper waters off the Central Coast.

So far unknown causes fish kills, however Environment Ministry sources said that on Monday they will test the water to determine if the phenomenon is the result of water pollution.

Pilot whales stranded in Gordon Pass headed to deeper water

Published: Jan 19, 2014 1:06 PM EST
Updated: Jan 19, 2014 10:29 PM EST

[f Share](#) 27 [Tweet](#) 1 [Pinterest](#) 0 [Email](#) 0

NAPLES, Fla. - Rescue efforts are underway to help free a pod of 24 pilot whales that became stranded in Gordon Pass. Officials say they are headed for deeper water and out of the pass.

WINK News Photojournalist Kelly Frizzell is with Sea Tow of Naples on the water in Gordon Pass. Kelly reports that several whales were temporarily stuck in the shallow water.

A NOAA spokesperson says the high tide helped push the whales back into the Gulf of Mexico. The whales appear thin and emaciated.

Back in December, more than 50 pilot whales stranded themselves in Everglades National Park. Seven died and four were euthanized. Officials do not know if this is the same pod that beached themselves in that area. Pilot whales are a social species and often involved in mass strandings.

Sea Tow of Naples is on scene to keep other boaters away from the whales. WINK News will stay on top of this developing story and update you here on the web and on WINK News tonight.

Sinabung volcano (Sumatra) – eruption increases again, large pyroclastic flows

Posted on [January 14, 2014](#)

January 14, 2014 – INDONESIA - After a few days of deceiving calm, the eruption of the volcano intensified again today and produced the so-far largest pyroclastic flows, reaching probably more than 5-6 km in length, and associated ash plumes that rose to approx. 25,000 ft (8 km) altitude. It seems that the previous dome which grew at the summit of Sinabung, collapsed a few days ago, leaving a large crater breached on the side where the earlier pyroclastic flows had gone down. The temporary absence of a lava dome in the past days led to the cessation of pyroclastic flows. Now, the new dome has again surpassed the boundary of the breach and sheds pyroclastic flows into the deep ravine below. On the other hand, a strong increase in SO₂ emissions and hybrid earthquakes indicate that a larger new batch of new magma has risen, which also explains the new more vigorous activity. –[Volcano Discovery](#)

El Salvadoran officials on alert for Chaparrastique Volcano activity

Posted on [January 14, 2014](#)

January 14, 2014 – EL SALVADOR – The alert status remains today in El Salvador by seismic activity of the Chaparrastique volcano, except in the eastern department of San Miguel, where the volcano of 2130 meters above sea level is located. According to the latest special report from Ministry of Environment and Natural Resources (MARN), as vibrations persist and gases column is visible, the possibility of another eruption is not ruled out in the coming days or weeks through the central crater or their flanks. Environment officials are urging people not to approach the volcano crater and abide by the instructions issued by the General Department of Civil Protection. MARN explained that the vibration levels and emission have shown changes but remain. Comments that include images captured by Web cameras installed northwest, southwest and south of the volcano indicate that the emission of gases from the crater have remained without significant changes and have reached a height of 150 meters. The Chaparrastique had an eruption on 29 December that forced the country's authorities to evacuate nearby populations. The performance of Civil Protection, in coordination with the various state agencies prevented loss of life and serious injuries.

New Mexico Judge Rules That Doctors May Prescribe Lethal Drugs to Terminally Ill Patients

January 15, 2014 | Filed under: Law & Government, Life & Society, Top Stories | By: Heather Clark

ALBUQUERQUE, N.M. — A state judge in New Mexico has ruled that mentally-competent terminally ill patients have a constitutional right to obtain lethal drugs to end their life.

Second Judicial District Judge Nan Nash issued the ruling on Monday in a decision that some believe may open the doors to full-fledged physician-assisted suicide in the state.

“This Court cannot envision a right more fundamental, more private or more integral to the liberty, safety and happiness of a New Mexican than the right of a competent, terminally ill patient to choose aid in dying,” Nash wrote. “If decisions made in the shadow of one’s imminent death regarding how they and their loved ones will face that death are not fundamental and at the core of these constitutional guarantees, than what decisions are?”

The ruling is the result of a lawsuit filed by two doctors in the state, and 49-year-old Aja Riggs, a cancer patient who is now in remission. The challenge was supported by the American Civil Liberties Union (ACLU) and the right-to-die advocacy organization Compassion & Choices.

Video: 10-Cent 'Tummy Tuck' Trims Masses of Belly Fat Without Surgery

Have you seen the incredible video that

(NaturalNews) A middle school in the Kansas City suburb of Shawnee is under fire after a parent of one of its students caught wind of a controversial sex education module being taught to 13-year-olds. According to *Fox 4 News*, a poster affixed to a classroom door at Hocker Grove Middle School contained descriptions of some of the lewd sex acts being taught to younger students, which included things like "anal sex" and "touching each other's genitals."

Hostility toward Christian students in public schools 'epidemic,' says attorney

Becky Yeh - California correspondent (OneNewsNow.com) Tuesday, January 14, 2014

19

A^A A C

A California-based legal group says the number of cases showing hostility against Christian students in public schools is increasing.

Over the last year, [Advocates for Faith & Freedom](#) has experienced a surge in phone calls from both parents and students who are victims of religious-motivated bullying. The group has noticed roughly two to three times the number of calls for assistance in the past 60 to 90 days than it typically receives within a year. Most of the calls originate in California, but requests are coming from all across the country.

The legal group [reported Monday](#) that another first-grader in the Golden State was told by school officials that she is "not allowed to talk about the Bible in school." That incident in Temecula, California, came on the heels of a [similar report](#) out of West Covina, California, in which first-grader Isaiah Martinez was told "Jesus is not allowed in school."

General counsel Robert Tyler tells OneNewsNow that what concerns Advocates is that the silencing and bullying of Christian students is mainly by school officials and teachers.

"The disapproval and hostility that Christian students have come to experience in our nation's public schools has become epidemic," he states. "We stand for the purpose of trying to protect kids in the public school system from the unlawful hostility that is so often directed these days towards Christian students and towards their religious beliefs."

Arkansas Police Chief Defies Atheist Demands to Remove Cross From Department Property

January 15, 2014 | Filed under: Highlights, Law & Government, Life & Society, Top Stories | By: Heather Clark

[Like](#) 7.8k [Share](#) 5024 [Tweet](#) 35 [+1](#) 0 [Email](#) 29 [ShareThis](#) 5500

SEARCY, Ark. – An Arkansas police chief is defying atheist demands to remove a cross from the lawn of the police department.

Searcy Police Chief Jeremy Clark told reporters this week that the cross was planted in the ground before he took office a year ago, and that he has no intentions of removing it. He stated that the cross is just outside of his private office and that no one sees it there.

“Someone put it there. I didn’t put it there, [and] I don’t know who did,” Clark told local television station KARK-TV. “I wasn’t going to remove it just because this organization in another state told us that we should.”

“The only person that sees that cross everyday is me, unless someone is purposely trying to look for it,” he added to *The Daily Citizen*. “You can see these crosses in yards all over the community we serve. I don’t for one-second think a wooden cross staked into the ground is offensive to the majority of the people that we serve.”

The Wisconsin public university system removed all its copies of the Gideon Bible from the campus conference center after the Freedom From Religion Foundation complained of a constitutional violation.

Administrators with the University of Wisconsin-Extension said they received the complaint in November and after weeks of consideration and discussion, decided to remove from the Lowell Center all 137 copies of the bible — a normal fixture at guest rooms and in hotels around the nation.

'Fatal spiral' of fiscal crises threatens global economy in 2014

Ballooning debt levels in advanced economies pose biggest threat to the global economy, World Economic Forum report warns

Ahead of next week's WEF annual meeting in Davos, Switzerland, the forum's annual assesment of global dangers said high levels of debt in advanced economies, including Japan and America, could lead to an investor backlash that would create a "vicious cycle" of ballooning interest payments, rising debt piles and investor doubt that would force interest rates up further.

China's Central Bank May Be Stocking Up On Gold: Report

By **Nat Rudarakanchana**

China's secretive central bank may have stocked up heavily on gold in the past few years, and might own about 2,710 tons as of the end of 2013, according to an [industry expert](#).

Precious metals expert and gold bug [Jeff Nichols](#), a managing director of the American Precious Metals Advisors, wrote on Thursday that much of this reported increase in holdings came from domestic Chinese mine production and secondary supply, which involves scrap or recycling gold.

According to Nichols' sources, the Peoples' Bank of China (PBOC) bought 654 metric tons of gold from 2009 to 2011, 388 tons in 2012, and more than 622 tons in 2013. There is no recent official data about Chinese central bank gold holdings, as the institution last announced its gold holdings in April 2009, at 1,054 tons.

Obama: 'Give Peace a Chance'

4:23 PM, JAN 13, 2014 • BY [DANIEL HALPER](#) 

     Send to Kindle

President Barack Obama talked briefly about the Iran nuclear deal and said "give peace a chance." Via the pool report:

Pres. Obama said the implementation agreement finalized over the weekend gives the parties "the time and space" to reach a comprehensive accord.

"It's going to be difficult, it's going to be challenging, but ultimately this is how diplomacy should work."

"If Iran is willing to walk through the door of opportunity that's presented to them" then the country and its people will benefit.

"If they fail to walk through this door of opportunity, then we are in position to reverse the interim agreement and put in place additional pressure to make sure that Iran does not develop a nuclear weapon."

"My preference is for peace and diplomacy, and this is one of the reasons why I've sent the message to Congress that now is not the time for us to impose new sanctions, now is the time for us to allow the diplomats and technical experts to do their work."

Iran's Rouhani: 'World Powers Surrendered to Iranian Nation's Will'

7:38 AM, JAN 14, 2014 • BY DANIEL HALPER 

     Send to Kindle

Iranian president Hassan Rouhani is taking to Twitter to gloat about the nuclear deal his country struck with the U.S. and other Western countries.

"Our relationship w/ the world is based on Iranian nation's interests. In #Geneva agreement world powers surrendered to Iranian nation's will," Rouhani tweeted about an hour ago.

Our relationship w/ the world is based on Iranian nation's interests. In [#Geneva](#) agreement world powers surrendered to Iranian nation's will

— Hassan Rouhani (@HassanRouhani) [January 14, 2014](#)

وتقرير يقول ان إيران متى تقرر ان تصنع قنبلة نووية هي تستطيع ذلك في خلال 2-3 أسابيع ولكنها لا تريد ان تفعل هذا الان بسبب ما تكتسبه من اتفاقية الهدنة الستة شهور حتى شهر ابريل القادم. مع ملاحظة انها لا تتوقف عن تجهيزات أخرى مثل تطوير صواريخ بعيدة المدى وغيره.

13,000 teens complete Hamas training camps to emulate 'suicide martyrs'

Posted on [January 16, 2014](#)

The Hamas government in Gaza celebrated the graduation on Monday of paramilitary camps geared at training high-school children "to follow in the footsteps of the suicide martyrs. The camps, titled "the pioneers of liberation," are run by Hamas's ministries of education and interior. Some 13,000 students in grades 10-12 participated in the one-week training camps this year, compared to 5,000 last year when the program was launched, Israeli sources with knowledge of the program said. The corps of instructors consists mainly of active members of Hamas's security forces, and the curriculum includes weapons training, first aid, self defense, marching exercises and "security awareness" classes on identifying Israeli spies. Hamas Prime Minister Ismail Haniyeh, Interior Minister Fathi Hammad and Education Minister Usama Mzeini attended the graduation ceremony on Monday, each delivering fiery speeches stressing the importance of military training in developing a new generation of Palestinian combatants. "Beware this generation," Haniyeh said, addressing Israel.

Israel Planning to Build Holy Temple, Claims PA Official

"The construction of the false Temple on the Temple Mount is closer than ever before," claims an official with the Al-Aqsa Mosque.

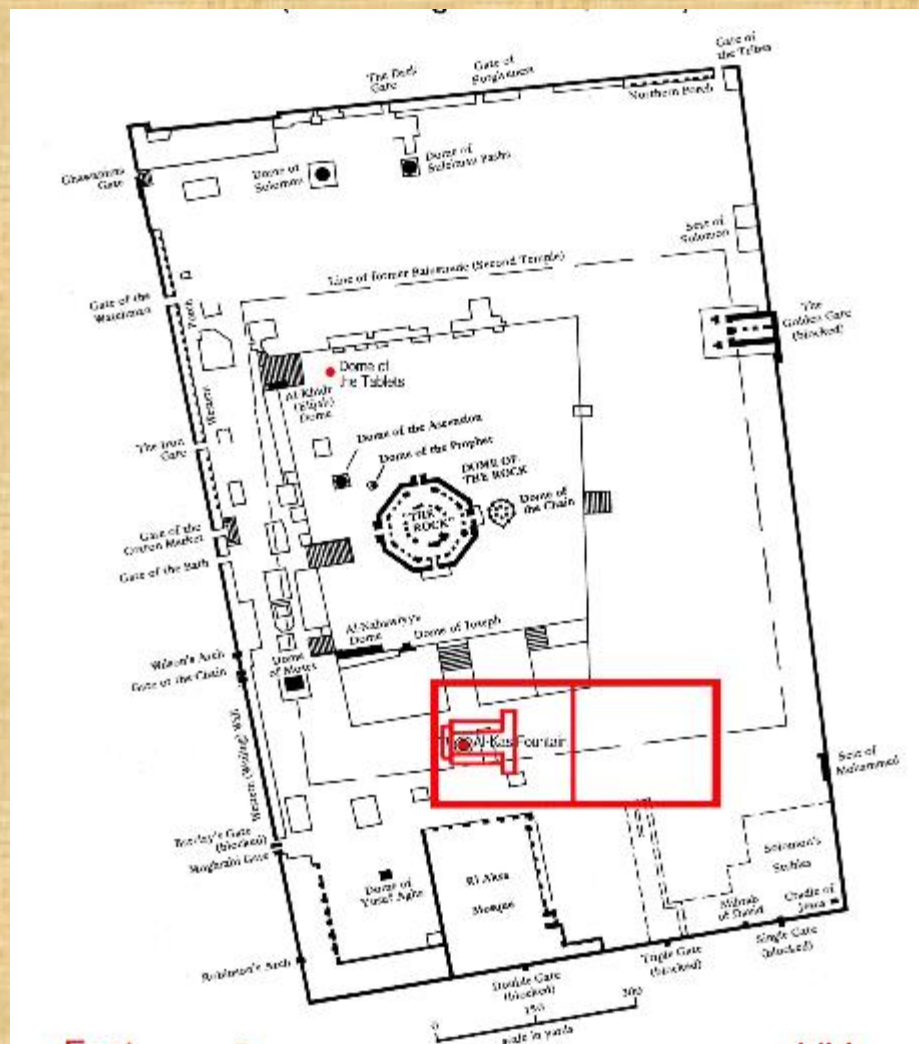

By Elad Benari

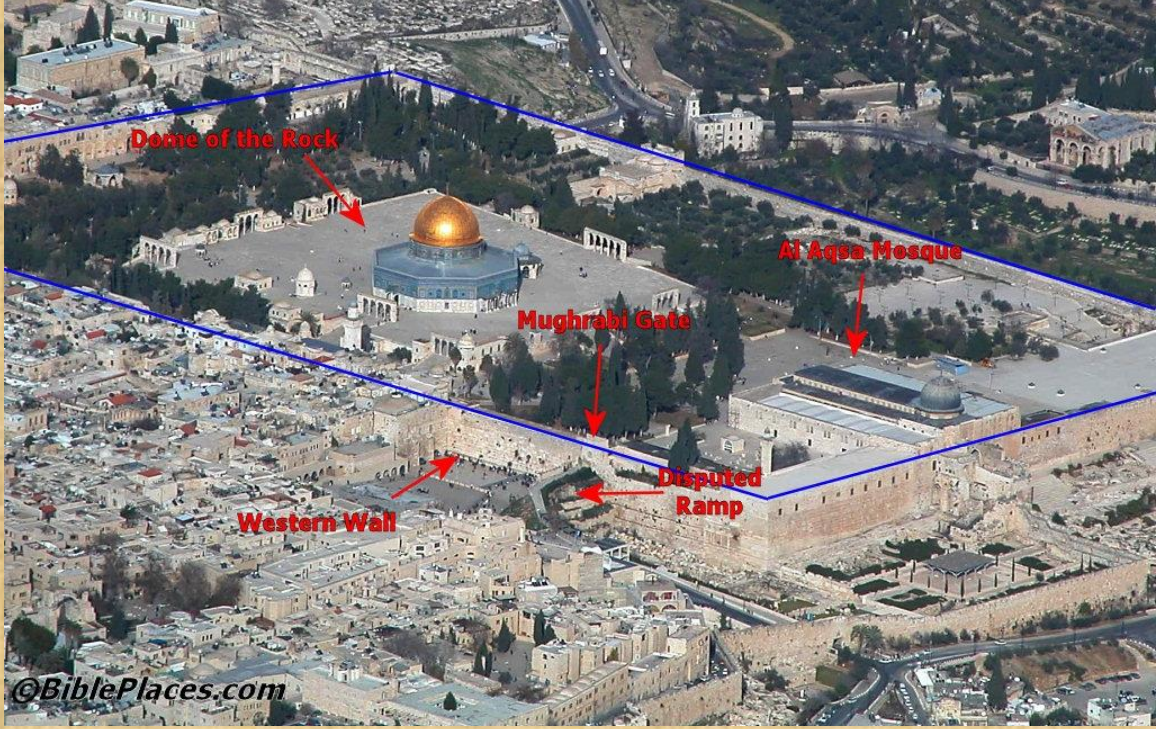

Font Size [A](#) [A](#)

الكلام عن الهيكل الجديد لليهود سيكون جميل ولكنه أصغر حجما فهم سيهتمون بالقدس وقدس

الاقداس اما الدار الخارجية فلن يستطيعوا ان يبنوها لأنها لا بد ان تترك للمسلمين لاجل اتفاق

السلام الذي تجبرهم أمريكا عليه.

وهذا لو تحقق يكون ما قاله سفر الرؤيا بالإضافة الي المعنى الرمزي والروحي فهو نبوة حرفية دقيقة جدا.

سفر الرؤيا 11

11: 1 ثم اعطيت قصبة شبه عصا و وقف الملاك قائلا لي قم و قس هيكل الله و المذبح و

الساجدين فيه

11: 2 و اما الدار التي هي خارج الهيكل فاطرحها خارجا و لا تقسها لانها قد اعطيت للامم و

سيدوسون المدينة المقدسة اثنين و اربعين شهرا

بعدها كنت اقول ان هذا العدد معناه رمزي وروحي ولكن اتضح انه لفظيا ايضا وهذا ما قد يحدث

قريبا جدا ويصبح الهيكل والمذبح لليهود والدار الخارجية للمسلمين يدوسونها بسبب المسجد

الاقصى. ولو هذا حدث فعلا هذا يعني أن الشاهدين قرب وقت ظهورهما جدا

11: 3 و ساعطي لشاهدي فيتنبان الفا و مئتين و ستين يوما لابسين مسوحا

افرحوا واستعدوا المسيح على الابواب

والمجد لله دائما
