مبروك لمصر لتحقيق هدف كثيرين ورؤيتهم أن سفينة مصر تسير في الاتجاه الصحيح والرياح مواتية للتقدم وهذا رائع ومفرح لبلدنا. وصدقوني أنا فرح جدا لفرح الكثيرين وربنا يديم افراحكم أتمنى أن تستمر السفينة للأمام وان يستمر التقدم وليجعله مستمر لسنين كثيرة وازمنة مديدة وفرحكم دائم. ولكن فقط أقول لا تضعوا امالكم في البشر لان البشر يتغيروا. لا تحزن لو تغيرت اتجاه الرياح فجأة ولا تكتئب لو ظهر اشخاص من الذين وضعتم ثقتكم فيهم على عكس ما كنتم تتخللوا. لهذا ضع ثقتك في المسيح واستمر في الصلاة ولا يتغير رجاؤك في الرب لان وطننا هو السماوي وليس الأرضي فالأرضي يتغير بسهولة اما السماوي فلا يتغير.

اكرر اننا لا نحدد مواعيد بل فقط نشجع بعضنا بعضا بقرب مجيء المسيح

رسالة بولس الرسول الأولى إلى أهل تسالونيكي 4: 18

لِذَلِكَ عَزُّوا بَعْضُكُمْ بَعْضًا بِهَذَا الْكَلَامِ.

يوجد نبوات لم نراها بعد حدثت مثل ابن الهلاك وحرب هرمجدون وظهور الشاهدين وغيره ولا نعرف متى ولكن أشعر انها اقتربت. ولكن ايضا علامات كثيرة من التي قال عنها الكتاب انها في الزمان الاخير وفي الجيل الأخير بدأت تحدث بوضوح ويجب أن ننتبه اليها. فلا نعرف هل المسيح سيأتي في سنة ام سبع سنين ام سبعين سنة أم أكثر ولا اعرف متى ستحدث بقية النبوات التي لا بد أن تحدث قبل مجيؤه وهل سيستغرق تحقيقها أيام وتحدث فجأه أم تستغرق عشرات السنين. فأكرر لا احدد مواعيد ولكن نذكر بعضنا باننا نحتاج ان نستعد. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه. وأيضا محتاجين نستعد لأنه في أي وقت ممكن نسلم وديعتنا بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذارى انه لن يكون هناك زيت الا ما جمعته سابقا.

فمثال العشر عذارى نعسن كلهن ونمن في الظلمة والشيء الوحيد الذي نجى العذارى الحكيمات انهن كان عندهن زيت كافي من البداية قبل الظلام كفى ان يعبر بهم الظلمة والنوم. استعد من الان ليس فقط لاقتراب المسيح ولكن لاقتراب الظلمة والضيقة التي قبل المسيح أنك صعب جدا تستعد وقتها والتي قال عنها الرب ليضلوا ولو أمكن المختارين أيضا. مطلب تستعد من الان حتى

لو لم تكن مقتنع بان علامات اقتراب المسيح بدأت تظهر وحتى لو تشعر ان المستقبل امامك مفتوح لأنك لا تعرف متى تفاجئك الظلمة التي سيكون صعب ان تستعد فيها. فكما تهتم لحياتك اليومية اهتم لحياتك الأبدية التي اقتربت.

فأبدا من اليوم في تجميع زيت.

أنجيل لوقا 21

21: 36 اسهروا اذا و تضرعوا في كل حين لكي تحسبوا اهلا للنجاة من جميع هذا المزمع ان يكون و تقفوا قدام ابن الانسان

وأيضا نتابع العلامات لكي نفتخر أيضا بدقة كتابنا بان الذي تنبأ به وسبق فأخبر به يحدث بمنتهى الدقة إذا ما قاله عن الدينونة والابدية أيضا دقيق.

انجيل لوقا 21

21: 28 و متى ابتدأت هذه تكون فانتصبوا و ارفعوا رؤوسكم لان نجاتكم تقترب

21: 29 و قال لهم مثلا انظروا الى شجرة التين و كل الاشجار

21: 30 متى افرخت تنظرون و تعلمون من انفسكم ان الصيف قد قرب

21: 31 هكذا انتم ايضا متى رايتم هذه الاشياء صائرة فاعلموا ان ملكوت الله قريب

بعض الاحداث التي قال عنها الكتاب

انجيل لوقا 21

21: 25 و تكون علامات في الشمس و القمر و النجوم و على الارض كرب امم بحيرة البحر و

الامواج تضج

21: 26 و الناس يغشى عليهم من خوف و انتظار ما ياتي على المسكونة لان قوات السماوات

meteor Caught on Video streaking across North Texas sky

Posted on [January 26, 2014](#)

SIGNS IN THE HEAVENS: Lots of North Texans reported seeing a meteor streaking across the sky on Friday night. One video posted on YouTube shows a bright light falling from the sky around seven o'clock. It was taken by a motorist traveling west on LBJ Freeway near La Prada Drive. Dozens of meteor sightings were registered from Texas to Kansas, and even as far away as Oregon.

Study finds dangerous New Madrid fault 'alive and active'

Posted on January 25, 2014

January 25, 2014 – MISSOURI — The New Madrid fault zone in the nation's midsection is active and could spawn future large earthquakes, scientists reported Thursday. It's "not dead yet," said U.S. Geological Survey seismologist Susan Hough, who was part of the study published online by the journal *Science*. Researchers have long debated just how much of a hazard New Madrid (MAD'-rihd) poses. The zone stretches 150 miles, crossing parts of Arkansas, Illinois, Indiana, Kentucky, Mississippi, Missouri and Tennessee. In 1811 and 1812, it unleashed a trio of powerful jolts — measuring magnitudes 7.5 to 7.7 — that rattled the central Mississippi River valley. Chimneys fell and boats capsized. Farmland sank and turned into swamps. The death toll is unknown, but experts don't believe there were mass casualties because the region was sparsely populated then. Unlike California's San Andreas and other faults that occur along boundaries of shifting tectonic plates, New Madrid is less understood since it's in the middle of the continent, far from plate boundaries. Previous studies have suggested that it may be shutting down, based on GPS readings that showed little strain accumulation at the surface. Other research came to the same conclusion by blaming ongoing quake activity on aftershocks from the 1800s, which would essentially relieve strain on the fault. The latest study suggests otherwise.

Local News

Hundreds of dead fish are being found in shallow water and along the banks of Thompson's Bayou at the University of West Florida today. Dead mullet and other fish started to appear a few days after arctic cold weather hit the area two weeks ago.

Today, many dead fish could be seen around the bayou that flows into the Escambia River.

The Florida Fish and Wildlife Conservation Commission suspects cold weather may be to blame.

Fish kills have been reported at various locations in Escambia County in recent days including Smith's Fish Camp on the

Workers try to contain bird disease

Updated at 9:37 pm on 22 January 2014

Contractors trying to stop the spread of avian botulism in North Canterbury now estimate that 1000 birds have been killed.

Dead birds were discovered in oxidation ponds in Kaiapoi earlier in January and contractors are now removing carcasses to contain the outbreak.

Waimakariri District Council spokesperson Gerard Cleary said on Wednesday that the ponds are monitored several times a year in the Brooklands Lagoon area and the previous check on 6 January showed no evidence of the disease.

Mr Cleary said by Tuesday, there were about 1000 dead birds on pond banks and in the water, with a further 20 showing classic symptoms of avian botulism - lethargy and partial paralysis of the feet and wings.

The disease, which cannot be contracted by humans, is relatively common with several outbreaks in the greater Christchurch area in the past few years. However, this is the largest known outbreak at the Kaiapoi oxidation ponds, the council says.

The species most affected to date are: Paradise Shelduck, Black Swan, Mallard, Grey Teal and New Zealand Shoveler. The Kaiapoi ponds typically contain a total bird population of between 5000 and 6000 birds. The majority of these are currently moulting, which renders them flightless for a short period and thereby increases the risk of them contracting the disease.

Minimisation of the outbreaks consists of the removal and safe disposal of dead carcasses, which prevents the spread of the disease. The outbreak is unlikely to end completely until the arrival of cooler weather, with frosts breaking the re-generation cycle of the disease.

BURLESON – A strange scene prompted a lot of calls from concerned motorists Thursday morning: Dead starlings and grackles scattered on and around the Interstate-35W south service road at Alsbury Boulevard.

SEE ALL 2 PHOTOS »

"The ones we found in the grass did not have any signs of trauma we could see," said Burleson animal control supervisor Kim Peckler.

Crews collected just over 200 dead birds, and one that died a short time later. Peckler said she's never seen anything like it in her 25 years of working with animal control.

Thousands of dead fish found in Oxfordshire (Picture: Environment Agency)

Thousands of dead fish have been found near the River Thames in Goring, Oxfordshire.

The recent bad weather and flooding has caused higher-than-usual river flows over an extended period of time, which has caused some fish to seek refuge in flooded fields and meadows.

A mixture of perch, roach, dace, ruffe and minnow fish were found on Goring farmland.

Fish become trapped in the long grass and suffocate (Picture: Environment Agency)

The Environmental Agency (EA) said the incident was down to the 'severity and longevity' of the floods.

25 dead whales found on Florida coast: NOAA

25 PILOT WHALES FOUND DEAD
COLLIER COUNTY

By Edward B. Colby, NBC Miami

Twenty-five dead pilot whales were discovered Thursday near Kice Island in southwest Florida, the National Oceanic and Atmospheric Administration said.

They were part of a pod of whales first seen swimming around Gordon Pass in Naples in Collier County on Sunday, NOAA Fisheries Southeast marine mammal stranding coordinator Blair Mase said.

Biologists marked the whales, which were spotted again off Marco Pass near Marco Island on Monday. A Florida Fish and Wildlife Conservation Commission boat stayed with the group for much of Monday, when they were two miles off-shore, before officials stopped monitoring them.

But early Thursday afternoon, officials received a report from a boater who saw the whales on Kice Island, Mase said.

Updated : 2014-01-26 15:50

The government is considering imposing a lockdown at all poultry farms throughout the country as avian influenza was showing signs of further spreading, officials said Sunday.

A nationwide lockdown, if issued, will prohibit the movement of any poultry, workers or vehicles from farms for 48 hours. Such a move can be extended once for another 48 hours.

Such a move will create what health authorities here have called a "window of opportunity" to sterilize all poultry farms at the same time and thus prevent a further spread of the disease.

The consideration for such a move apparently comes as the animal disease is fast spreading to surrounding areas from Gochang in North Jeolla Province, where the first outbreak of AI was confirmed Jan. 17.

Tons of fish in Cirata, Saguling dams dead

The Jakarta Post, Jakarta | Archipelago | Mon, January 27 2014, 4:44 PM

Archipelago News

Jembrana cacao farmers strive toward sustainability

Evacuees get debt relief as eruptions continue

In Kalimantan, orangutans still rare sight

Tons of fish cultivated at the Cirata and Saguling dams in West Bandung regency, West Java, died due to the impacts of extreme weather in the regency over the last few days.

"The deaths [of the fish], which were sparked by the absence of sunlight, caused fish farmers in the Cirata and Saguling dams to suffer losses estimated at billions of rupiah," Sundaya, a representative of the local fish farming association, said on Monday as quoted by Antara.

He added that the lack of sunlight reduced the oxygen content in water, making it difficult for the fish to breathe, leading them to die. "Additionally, the high intensity of rainfall caused water from the bottom of dams, containing sediment and mud and the remains of fish food, to rise to the surface," said Sundaya.

Whistleblower: 7 Deadly Drugs the Government Wants You to Swallow

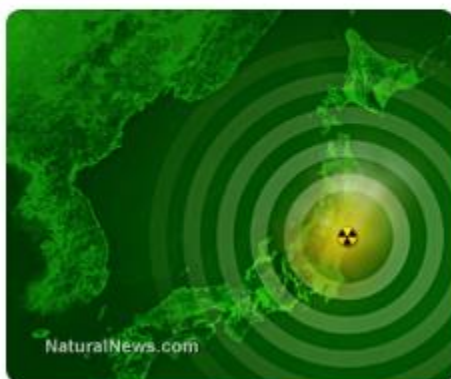

THIS JUST IN: An insider near Washington D.C. has just blown the lid off the 7 Deadly Drugs the U.S. Government can't wait for you to swallow. This whistleblower has concrete evidence "the powers that be" are shoving **pure poison** down your throat... Who knows how long this list will be up before "Big Brother" catches on... [Click here now for the full list](#)

(NaturalNews) Radiation at the Fukushima Daiichi power plant has now exceeded more than eight times the radiation limit set by the Japanese government - presenting new concerns for problems that many say are exacerbating.

The largely government-owned Tokyo Electric Power Company (TEPCO) admitted that radiation levels had elevated to an estimated 8 millisieverts per year (mSv/y) outside of the Fukushima No. 1 nuclear plant in December.

This greatly eclipses the Japanese government-set limit of 1 mSv/y, put in place as part of the officially-sanctioned reactor decommissioning plan for the disaster-stricken nuclear plant as a safety measure to diminish the level of harmful effects on the surrounding areas so that the exclusion zone can

[Click here for details...](#)

(NaturalNews) It has been almost three years, and Fukushima continues to endanger the biosphere. A study published in the October 2013 *Journal of Environmental Radioactivity* on the effects of the Daiichi Nuclear Power Plant disaster in marine life confirms that radioactive cesium is continuing to be concentrated in the Pacific Ocean's aquatic food chain.

While cesium-134 has a half-life of just over two years, cesium-137's half life is over 30 years. Although the radioactive concentrations found differ amongst various types of ocean life, in the years following the disaster, researchers have continued to frequently detect cesium-134 and cesium-137 concentrations above the set regulatory limit of 100 becquerels per kilogram. Sixty-three different species in 2011 and 41 species in 2012 were found to exceed radioactive cesium levels in this study, and the main

source of cesium appears to be detritus within ocean sediment

اخبار عن اقتراب حروب قوية. الصين تهدد وبقوة اليابان على الجزر المتنازع عليها وأيضا
الصين تهدد كوريا الشمالية. وأيضا الصين تحذر أمريكا او أي دولة أخرى من الدخول في مجال

الجزر التي سيطرت عليها الصين حديثا واخذتها من اليابان وكوريا. وكوريا الشمالية تهدد كوريا الجنوبية والصين. الامر يحتاج طلقة واحدة وتشتعل الحرب العالمية الثالثة في الشرق الأقصى.

وتهديد شديد لاولمبيات روسيا الشتوية بل يتدخل في هذا الامر دول لأجل أمور سياسية مثل السعودية التي تريد منع تأييد روسيا لبشار الأسد.

ولو اندلعت أي حرب لا نعرف من سيكون مع من فالموقف ساخن جدا ومعقد جدا حاليا.

قرار قضائي في نيومكسيكو في امريكا يسمح لأطباء بكتابة روثتات بعقار قاتل للمرضي الذين يريدوا ان ينتحروا

New Mexico Judge Rules That Doctors May Prescribe Lethal Drugs to Terminally Ill Patients

January 15, 2014 | Filed under: Law & Government, Life & Society, Top Stories | By: Heather Clark

ALBUQUERQUE, N.M. — A state judge in New Mexico has ruled that mentally-competent terminally ill patients have a constitutional right to obtain lethal drugs to end their life.

Second Judicial District Judge Nan Nash issued the ruling on Monday in a decision that some believe may open the doors to full-fledged physician-assisted suicide in the state.

“This Court cannot envision a right more fundamental, more private or more integral to the liberty, safety and happiness of a New Mexican than the right of a competent, terminally ill patient to choose aid in dying,” Nash wrote. “If decisions

made in the shadow of one’s imminent death regarding how they and their loved ones will face that death are not fundamental and at the core of these constitutional guarantees, than what decisions are?”

The ruling is the result of a lawsuit filed by two doctors in the state, and 49-year-old Aja Riggs, a cancer patient who is now in remission. The challenge was supported by the American Civil Liberties Union (ACLU) and the right-to-die advocacy organization Compassion & Choices.

US military relaxes uniform rules for religious wear

Sikh soldiers such as Army Cpt Kamaljeet Singh Kalsi, photographed in 2010, may receive religious dispensations to wear head coverings and facial hair

The US military is easing its uniform rules to allow religious wear including turbans, skullcaps, beards and tattoos, officials have said.

Muslim, Sikh, Jewish and Wiccan soldiers, marines, sailors and airmen can now request exemptions to strict military uniform and grooming policies.

Requests will be evaluated individually and can be denied if they hinder military readiness.

Previously, at least three Sikhs had won specific accommodation.

Hostility toward Christian students in public schools 'epidemic,' says attorney

Becky Yeh - California correspondent (OneNewsNow.com) Tuesday, January 14, 2014

19

A^A A^A C

A California-based legal group says the number of cases showing hostility against Christian students in public schools is increasing.

Over the last year, [Advocates for Faith & Freedom](#) has experienced a surge in phone calls from both parents and students who are victims of religious-motivated bullying. The group has noticed roughly two to three times the number of calls for assistance in the past 60 to 90 days than it typically receives within a year. Most of the calls originate in California, but requests are coming from all across the country.

The legal group [reported Monday](#) that another first-grader in the Golden State was told by school officials that she is "not allowed to talk about the Bible in school." That incident in Temecula, California, came on the heels of a [similar report](#) out of West Covina, California, in which first-grader Isaiah Martinez was told "Jesus is not allowed in school."

General counsel Robert Tyler tells OneNewsNow that what concerns Advocates is that the silencing and bullying of Christian students is mainly by school officials and teachers.

"The disapproval and hostility that Christian students have come to experience in our nation's public schools has become epidemic," he states. "We stand for the purpose of trying to protect kids in the public school system from the unlawful hostility that is so often directed these days towards Christian students and towards their religious beliefs."

Tyler

Divided Virginia Senate Narrowly Passes Student Religious Freedom Bill

January 26, 2014 | Filed under: Education, Law & Government, Life & Society, Top Stories | By: Heather Clark

 Like 541  Share 298  Tweet 12  3  Email 9  ShareThis 386

RICHMOND, Va. – The Virginia Senate narrowly passed a student religious freedom bill this week, sending the measure on to the House of Delegates for a full vote.

As previously reported, Senator Bill Carrico (R-Grayson County) recently introduced SB 236 as part of his longtime fight for faith in the public arena. The legislation reinforces students' rights to be open about their faith without retribution or restriction.

Text of the bill outlines that it "[c]odifies the right of students to (i) voluntarily pray or engage in religious activities or religious expression before, during, and after the school day in the same manner and to the same extent that students may engage in nonreligious activities or expression; (ii) organize prayer groups, religious clubs, 'see you at the pole' gatherings, or other religious gatherings before, during, and after school to the same extent that students are permitted to organize other activities and groups; and (iii) wear clothing, accessories, or jewelry that display religious messages or religious symbols in the same manner and to the same extent that other types of clothing, accessories, and jewelry are permitted."

It also reiterates students' rights to speak and write about their faith at school events and in homework assignments, provided that principals issue a disclaimer at events, noting that the views of students do not necessarily reflect those of the school.

Arkansas Police Chief Defies Atheist Demands to Remove Cross From Department Property

January 15, 2014 | Filed under: Highlights, Law & Government, Life & Society, Top Stories | By: Heather Clark

[Like](#) 7.8k [Share](#) 5024 [Tweet](#) 35 [+1](#) 0 [Email](#) 29 [ShareThis](#) 5500

SEARCY, Ark. — An Arkansas police chief is defying atheist demands to remove a cross from the lawn of the police department.

Searcy Police Chief Jeremy Clark told reporters this week that the cross was planted in the ground before he took office a year ago, and that he has no intentions of removing it. He stated that the cross is just outside of his private office and that no one sees it there.

“Someone put it there. I didn’t put it there, [and] I don’t know who did,” Clark told local television station KARK-TV. “I wasn’t going to remove it just because this organization in another state told us that we should.”

“The only person that sees that cross everyday is me, unless someone is purposely trying to look for it,” he added to *The Daily Citizen*. “You can see these crosses in yards all over the community we serve. I don’t for one-second think a wooden cross staked into the ground is offensive to the majority of the people that we serve.”

The Wisconsin public university system removed all its copies of the Gideon Bible from the campus conference center after the Freedom From Religion Foundation complained of a constitutional violation.

Administrators with the University of Wisconsin-Extension said they received the complaint in November and after weeks of consideration and discussion, decided to remove from the Lowell Center all 137 copies of the bible — a normal fixture at guest rooms and in hotels around the nation.

DAYS OF LOT – Second sitting congressman to marry a same-sex partner.

Posted on January 23, 2014

Rep. Sean Maloney (D-N.Y.) is set to be the second sitting congressman to marry a same-sex partner.

Maloney's office on Tuesday announced his engagement to his partner of 21 years, Randy Florke. "After 21 years together, we are excited for the next step in our journey as a family," they said in a statement released by Maloney's office. "For decades, we've fought to ensure that all families can experience the joys of loving commitment and we are proud to have our friends and family share this special moment with us in the near future." The freshman Democrat represents New York's 18th District, which he won in a narrow victory over Rep. Nan Hayworth (R-N.Y.) in 2012. Maloney and Florke have three adopted children. The two got engaged on Christmas Day and have not yet announced a wedding date, according to CNN, which first reported the news. In 2012, Barney Frank became the first congressman to wed his same-sex partner. Another freshman congressman, Rep. Mark Pocan (D-Wis.), married his husband in 2006 in Canada before entering Congress.

'Fatal spiral' of fiscal crises threatens global economy in 2014

Ballooning debt levels in advanced economies pose biggest threat to the global economy, World Economic Forum report warns

Ahead of next week's WEF annual meeting in Davos, Switzerland, the forum's annual assesment of global dangers said high levels of debt in advanced economies, including Japan and America, could lead to an investor backlash that would create a "vicious cycle" of ballooning interest payments, rising debt piles and investor doubt that would force interest rates up further.

By Szu Ping Chan

China's Central Bank May Be Stocking Up On Gold: Report

By **Nat Rudarakanchana**

on January 17 2014 9:29 AM

0

0

0

0

more

China's secretive central bank may have stocked up heavily on gold in the past few years, and might own about 2,710 tons as of the end of 2013, according to an [industry expert](#).

Precious metals expert and gold bug [Jeff Nichols](#), a managing director of the American Precious Metals Advisors, wrote on Thursday that much of this reported increase in holdings came from domestic Chinese mine production and secondary supply, which involves scrap or recycling gold.

According to Nichols' sources, the Peoples' Bank of China (PBOC) bought 654 metric tons of gold from 2009 to 2011, 388 tons in 2012, and more than 622 tons in 2013. There is no recent official data about Chinese central bank gold holdings, as the institution last announced its gold holdings in April 2009, at 1,054 tons.

Obama: 'Give Peace a Chance'

4:23 PM, JAN 13, 2014 • BY [DANIEL HALPER](#) 

     Send to Kindle

President Barack Obama talked briefly about the Iran nuclear deal and said "give peace a chance." Via the pool report:

Pres. Obama said the implementation agreement finalized over the weekend gives the parties "the time and space" to reach a comprehensive accord.

"It's going to be difficult, it's going to be challenging, but ultimately this is how diplomacy should work."

"If Iran is willing to walk through the door of opportunity that's presented to them" then the country and its people will benefit.

"If they fail to walk through this door of opportunity, then we are in position to reverse the interim agreement and put in place additional pressure to make sure that Iran does not develop a nuclear weapon."

"My preference is for peace and diplomacy, and this is one of the reasons why I've sent the message to Congress that now is not the time for us to impose new sanctions, now is the time for us to allow the diplomats and technical experts to do their work."

وفي نفس الوقت يقول روحاني رئيس ايران ان قوى العالم خضعت لارادة ايران

وتقرير يقول ان إيران متى تقرر ان تصنع قنبلة نووية هي تستطيع ذلك في خلال 2-3 أسابيع لان كل شيء معد بالفعل. ولكنها لا تريد ان تفعل هذا الان بسبب ما تكتسبه من اتفاقية الهدنة الستة شهور حتى شهر ابريل القادم. مع ملاحظة انها لا تتوقف عن تجهيزات أخرى مثل تطوير صواريخ بعيدة المدى وغيره.

'Govt. to Split Jerusalem – Where are the Rabbis?'

Rabbi Yisrael Ariel wonders at fellow rabbis' silence over plan to give away Jerusalem holy sites.

By Maayana Miskin

Font Size [A](#) [A](#)

First Publish: 1/23/2014, 9:01 AM

The government is planning to cede several sites in ancient Jerusalem to Muslim and Christian ownership, and Israel's rabbis remain silent, Rabbi Yisrael Ariel has accused.

"There is a terrible plan, called the "holy basin," to split Jerusalem between Christians, Muslims and Jews," Rabbi Ariel said, speaking to Arutz Sheva.

Church of the Holy Sepulchre
Flash90

Rabbi Ariel, who heads the [Temple Institute](#), continued, "The Christians will get the Church of the Holy Sepulchre and Mount Zion, the Muslims will get the Temple Mount, and we Jews will need to visit the Kotel (Western Wall) under the auspices of the Palestinian Authority."

The Palestinian Authority (PA) [denies the Jewish connection](#) to the Western Wall, and PA TV has labeled Jewish worship at the holy site "[sin and filth](#)."

Even if Jewish worship at the Kotel were to [continue](#) freely, the loss of access to the Temple Mount would be highly significant. The Temple Mount is the holiest site on earth according to Judaism, and is the place where the First Temple and Second Temple once stood.

[The plan](#) to split Jerusalem's holy sites between various religions "has existed for some time, and now they're going to implement it in stages," Rabbi Ariel warned, adding, "During the Pope's next visit they plan to transfer the Cenacle on Mount Zion to him, turning it into a pilgrimage site."

13,000 teens complete Hamas training camps to emulate 'suicide martyrs'

Posted on [January 16, 2014](#)

The Hamas government in Gaza celebrated the graduation on Monday of paramilitary camps geared at training high-school children "to follow in the footsteps of the suicide martyrs. The camps, titled "the pioneers of liberation," are run by Hamas's ministries of education and interior. Some 13,000 students in grades 10-12 participated in the one-week training camps this year, compared to 5,000 last year when the program was launched, Israeli sources with knowledge of the program said. The corps of instructors consists mainly of active members of Hamas's security forces, and the curriculum includes weapons training, first aid, self defense, marching exercises and "security awareness" classes on identifying Israeli spies. Hamas Prime Minister Ismail Haniyeh, Interior Minister Fathi Hammad and Education Minister Usama Mzeini attended the graduation ceremony on Monday, each delivering fiery speeches stressing the importance of military training in developing a new generation of Palestinian combatants. "Beware this generation," Haniyeh said, addressing Israel.

ونتتياهاوا يقول انه لن يسمح بطرد اليهود من مساكنهم

دور الاردن بدا يزيد في موضوع اتفاق السلام ونتتياهاو يزور الاردن لثالث مرة وتدور محادثات

بينه وبين الملك عبد الله غير معلنة والاردن واحدة من الخمس دول التي ستشرف علي الاماكن

المقدسة في اورشليم ولها الحق في التدخل لحماية هذه الاماكن مع كل من امريكا واسرائيل

وفلسطين والسعودية. بل واضح ان الاردن هي التي ستكون مسئولة عن حماية المسجد الاقصى.

الكتاب تكلم عن الخراب السريع للاردن فهل يكون هذا احد الاسباب؟

وفلسطين تفاجئ امريكا بانها تتقرب لروسيا وهذا انذار برفض فلسطين لاتفاقية السلام التي

تفرضها امريكا علي فلسطين واسرائيل

Palestinian leader turns to Putin for Palestinian state, dumps US and Israel as peace partners

DEBKAfile Exclusive Report January 24, 2014, 11:07 AM (IST)
Tags: Mahmoud Abbas, Vladimir Putin, oil, John Kerry, Binyamin Netanyahu

Good friends once again

Signs of The End Times

www.rcg.org

Bible Prophecy in the End Times. Know What's Coming—Read Now.

Palestinian Authority Chairman Mahmoud Abbas (Abu Mazen) launched his “diplomatic intifada” against Israel and exit from the Kerry peace initiative Thursday, Jan. 23, from Moscow. His meetings with President Vladimir Putin and Prime Minister Dmitry Medvedev marked his breakaway from the US-led peace process with Israel, four months before it was due to expire, and signaled his bid for Russian backing for a Palestinian state.

The Palestinian leader’s defection caught both Secretary of State John Kerry and Prime Minister Binyamin Netanyahu unprepared – and surprised their intelligence agencies. Putin and Abbas almost certainly planned in advance to drop their bombshell on the day both Kerry and Netanyahu were otherwise engaged at two international events in Switzerland, Geneva 2 on Syria and the World Economic Forum.

For the Russian leader it was a chance to show the international community and the Obama administration that he was several steps ahead of the game on the three hottest Middle East issues – Iran’s nuclear program, the Syrian civil conflict and the Palestinian bid for statehood.

The first intimation that something big was up came from an ITAR-TASS agency report Thursday that Abbas and Medvedev were due to sign an intergovernmental agreement for a \$1 billion natural gas project in the Gaza section of the Mediterranean Sea. Russia’s natural gas giant Gazprom hoped to produce 30 billion cubic metres of natural gas at the site.

The report added that Russia’s Technopromexport engineering firm was also considering a small oil development project near the West Bank city of Ramallah, hub of the Palestinian Authority government headed by Abbas.

The Palestinian leader began his conversation with Putin by calling Russia a “great power” that deserved to play a more prominent role in the volatile Middle East region.

Will your next phone be powered by your HEARTBEAT? Scientists reveal implantable battery that can charge from the movement of our organs

- Implanted battery can already power a pacemaker
- Could be implanted on constantly moving organs such as the heart, lungs or diaphragm
- Transforms movement of the organ into energy

Forget carrying around a charger - your next mobile could be powered by the beating of your heart, researchers have revealed.

A team of US and Chinese researchers has revealed a tiny implantable battery they have used to power a pacemaker.

It converts the constant movement of organs such as the heart, lungs and diaphragm into energy.

All European newborn Babies will be Microchipped from May 2014

By [Vlad Dmitrievich](#) | January 22, 2014 190 Comments

On May 2014, through Europe newborn children will be compelled to take in a subcutaneous RFID chip.

Public clinics in the European Union are to be alerted. The chip in inquiry will be contributed with the report sheet on the newborn.

This chip will also be an impressive GPS sensor that will task with a micro- disposable battery every 2 years in state clinics. GPS chip grants an edge of error of 5 meters, as a statement that it is excellent.

ويوم الاحد في الفاتيكان في احتفالية مع البابا فرانسيس ومع الأطفال تم إطلاق حمامتين ابيض
اللون رمز للسلام وفجاه ظهر غراب ونورس وهاجم الحمامتين. وهاجم واحدة طائر النورس

(طائر متوحش بحري) وفقدت بعض الريش. والغراب الأسود الكبير (طائر متوحش ارضي) هاجم الثانية عدة مرات متتالية وغالبا اصطادها.

لا تعليق.

المسيح أقرب وقبل المسيح أيضا الشيطان سيحل زمان يسير وستكون أيام صعبة وظلمة شديدة
الا لمن كان مستعد و متمسك بالرب فيكون هذه الفترة ليست عذاب ولكن تكون فترة تعزية وأيضا
فترة بركة ليكون للإنسان أن احتمل أكليل أفضل فعلى قدر تعبك سيكون لك أفضل بكثير فلا تخاف
بل أفرح بقرب مجيء العريس. ولكن المهم هو حياة الاستعداد.

والمجد لله دائما
