اكرر اننا لا نحدد مواعيد بل فقط نشجع بعضنا بعضا بقرب مجيء المسيح

وأیضا أوضح أنه يوجد نبوات لم نراها بعد مثل ابن الهلاك وهرمجدون

ولكن ایضا علامات كثيرة من التي قال عنها الكتاب انها في الزمان الاخير بدأت تحدث بوضوح

ويجب أن ننتبه اليها. ونذكر بعضنا باننا نحتاج ان نستعد. والاستعداد ليس فقط قبل مجيء

المسيح بل ایضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر

هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه. بمعنى نحتاج من الان ان نستعد بقوة بأيمان

عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيقه اقتربت

جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقه لان وقتها تجميع زيت

سيكون صعب جدا بل أستطيع ان أقول من مثل العذارى انه لن يكون هناك زيت الا ما جمعه

سابقا. أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقتررب فنكون مستعدين سواء جاء او نحن
ان سلمنا وديعتنا عن أنى لا اقول انه اقتررب لكيلا يقال عني كاذب وانشرب اشاعات ولكنه يأتي
بسرعة بغته. لا اعتقد اي أحد ندم لانه كان مستعد ومنتظر مجيء المسيح ولم يأتي المسيح في
زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَأَن تُوْمِنُونَ.

ثالثا لننتبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَاَنْتَصِبُوا وَاَرْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ».

Storms wash away part of Interstate 10 in Southern California

Published July 20, 2015 • FoxNews.com

July 19, 2015: In this photo provided by the CAL FIRE/Riverside County Fire Department, emergency crews respond after a pickup truck crashed into the collapse of an elevated section of Interstate 10 in Desert Center, Calif. The bridge, which carries the eastbound Interstate about 15 feet above a normally dry wash, snapped and ended up in the flooding water below, the California Highway Patrol said, blocking all traffic headed toward Arizona. Both sides of Interstate 10 in a remote desert area of Southern California were closed late Sunday after heavy rains washed away an elevated portion of the highway, injuring a motorist.

The California Highway Patrol confirmed to the [Los Angeles Times](#) that approximately 30 feet of the eastbound roadway "is washed away and bridge is gone." The Tex Wash bridge carries traffic 15 feet above a normally dry desert wash about 50 miles west of the Arizona border.

This is a new kind of heat. In more than 135 years of global temperature data, four of the five hottest months on record all happened in 2015: February, March, May, and now June.

This has been the hottest start to a year by far, according to data released today by the National Oceanic and Atmospheric Administration. The record heat is likely to continue as an already strong El Niño weather pattern in the Pacific Ocean continues to intensify, ripping more heat into the atmosphere. This monster El Niño may itself be on track to break records.

The animation below shows the Earth's warming climate, recorded in monthly measurements from land and sea dating back to 1880. Temperatures are displayed in degrees above or below

CALIFORNIA SO DESPERATE FOR WATER THEY ARE TURNING TO MAGIC, SPIRITUALISM AND WITCHERS TO FIND IT

Geoffrey Grider | July 20, 2015 | 16 Comments

WITH NEARLY 50 PERCENT OF THE STATE IN "EXCEPTIONAL DROUGHT," CALIFORNIANS ARE INCREASINGLY TURNING TO SPIRITUAL METHODS AND EVEN MAGIC IN THEIR DESPERATION TO BRING AN END TO THE DRY SPELL.

"A drought *is* upon her waters; and they shall be dried up: for it *is* the land of graven images, and they are mad upon *their* idols." Jeremiah 50:38 (KJV)

Vern Tassey doesn't advertise. He's never even had a business card. But here in California's Central Valley, word has gotten around that he's a man with "the gift," and Tassey, a plainspoken, 76-year-old grandfather, has never been busier. Farmers call him day and night — some from as far away as the outskirts of San Francisco and even across the state line in Nevada. They ask, sometimes even beg, him to come to their land. "Name your price," one told him. But Tassey has so far declined. What he does has never been about money, he says, and he prefers to work closer to home.

Savage drought will drive Lake Mead to record low on Sunday

LAS VEGAS REVIEW-JOURNAL

Sunday's forecast for [Lake Mead](#) calls for breezy conditions, with a high in the low 80s and a [water level](#) as low as it has been in 78 years.

The reservoir east of Las Vegas is expected to reach a new record low this weekend and continue downward another 7 feet through June, as the drought-stricken Colorado River withers from its 12th dry year since 2000.

Controversial video now shows exact location of healing miracle

Unexplained event or God's gift?

(NaturalNews) The severe droughts affecting the western United States are approaching apocalyptic proportions as the water level of Lake Mead - America's largest capacity reservoir - has reached the lowest point in its history.

Lake Mead, which was formed when the Hoover Dam was built, supplies water to around 40 million people and is also a crucial agricultural resource in the region. Humans, livestock and crops in Arizona, California, Nevada and even northern Mexico depend on water from Lake Mead (and the Colorado River which feeds it) for power, drinking water and irrigation.

California is dealing with droughts, floods, earthquakes and fire all at once. (Reuters)

Join us on our **new** podcast each weekday for an interesting story, well told, from Charisma News. Listen at charismapodcastnetwork.com.

When God flooded the earth in the days of Noah, He promised that He would never destroy the planet again by water. Instead, God would use fire.

Is the word of the Lord being fulfilled right here in the United States? California has been under a drought warning for months, yet within 48 hours, the state went from [wildfires to floods](#) and saw a 4.0 [earthquake](#) rock the southern part of the state.

[Luke 17](#) details the coming of the kingdom, referencing both Noah's flood and the fire and brimstone that destroyed Sodom and Gommorrah. Now, both appear to be happening in the same place at the same time.

Magnitude-5.1 earthquake jolts Pakistan's capital and northwest, killing 3 people

Published July 25, 2015 • Associated Press

MANSEHRA, Pakistan – Authorities in Pakistan say an earthquake that jolted the country early this morning has killed three people.

The U.S. Geological Survey says the magnitude-5.1 quake rocked Islamabad and elsewhere in northwest Pakistan at 2 a.m. Saturday.

The tremor was so strong that people came out of their homes and started reciting verses from the Quran.

Senior police officer Akhtar Hayat Khan said the roofs of three homes caved in because of the earthquake in a village on the outskirts of Abbottabad, killing three people. He said police did not receive any other reports about damage in the region.

Pakistan and the Himalaya region, along an active continental plate boundary, is often hit by earthquakes. In September 2013, a magnitude-7.7 quake struck Pakistan's Baluchistan province, killing at least 376 people.

Strong quake hits off Indonesia, but no tsunami warning

AP July 26, 2015 5:31 AM

JAKARTA, Indonesia (AP) — A strong earthquake hit off of Indonesia's main island of Java on Sunday afternoon, causing residents to pour into the streets, but there were no immediate reports of injuries or damage, and no tsunami warning was issued.

The U.S. Geological Survey said the magnitude-6.0 undersea quake was centered 93 kilometers (58 miles) south of the East Java province town of Krajan Tambakrejo, at a depth of 59 kilometers (37 miles).

Five Volcanoes Erupt In Indonesia, Blanketing Skies In Ash

AP

Posted: 07/22/2015

JAKARTA, Indonesia (AP) -- Eruptions of ash at five volcanoes shrouded the skies over parts of the Indonesian archipelago Wednesday, forcing three airports to close.

Mount Raung on Java island blasted ash and debris up to 2,000 meters (6,560 feet) into the air after rumbling for several weeks, government volcanologist Surono said.

Ash erupted also from Gamalama and Dukono mountains on the Moluccas islands chain, Sinabung volcano on Sumatra island and Mount Karangetang on Siau island, darkening the skies, Surono said.

A total of more than 13,000 people have been evacuated due to the volcanic eruptions since last month, mostly from around the slopes of Sinabung in Tanah Karo District, added Surono, who uses a single name.

CARBONDALE - On cold, clear winter days, the underground fire burning near Russell Park is easy to see.

Smoke and steam shoot through fissures in the rocks, smelling of sulfur. Moss thrives in the cracks, warmed by the gases.

Smoldering since 1995, this fire is one of eight active coal fires in Lackawanna and Luzerne counties on record with the state Department of Environmental Protection.

A ninth fire could eventually make the list. This week, a DEP-contracted crew began work to stop a culm dump fire that has been burning for at least a month off Jefferson Street in Fell Twp.

Volcano-like underground fire is put out after a month

WOODBURY, N.J. (AP) — Crews have put out a fire that burned underground in southern New Jersey for a month, melting the ground around it and reaching 1,000 degrees. Woodbury Mayor Bill Volk tells the [Courier-Post](#) that the fire was extinguished Thursday, a month after it started during a severe storm. He says it “looked like a volcano.”

It began when a power line snapped, sending electricity into the ground and igniting a mixture of coal and cinder used as the foundation for train tracks in a wooded area.

"Yellow" in the sea, 60 turtles death in three weeks

From Caorle Chioggia, take the emergency

VENICE Someone has seen floating in the sea during a boat trip. Others have found stranded on the beaches of the smell caused by decomposition. The latest reports are on Friday, two carcasses found in Pellestrina, two in area A and a beach in Eurotel. From Caorle Chioggia are almost sixty species of sea turtles "caretta caretta" found dead in the last three weeks. The warning is the WWF, but the signals bounce already on social networks. For the dimensions of the phenomenon we speak now of real emergency. "It had never happened before in our coast - confirms the president of the Venetian branch of WWF, Sonia Bernath - animals were found in an advanced state of decomposition, with missing limbs, for most sub-adult specimens of size between 30 and 70 cm ». On the reasons there is currently no hypothesis. The conditions of decomposition of the specimens found not allow a definitive diagnosis of the cause of death. The environmental organization, with the Department of Biomedicine at the University of Padua, is carrying out autopsies.

"The investigations have started in the stomach, you can understand much of what they eat - says Bernath - If you were stranded because injuries from the impact with a boat stomach would empty carcasses instead we have is full and this means that the ' animal was fed and exhausted at the time of death. " They excluded from causes pollution and ingestion of plastic.

The scandal in the village of Lazo Drochia. In rural lake surfaced dead fish. Unpleasant smell spread all around. People complain that they can not breathe and blame the tenants of the lake. Those pleaded not guilty.

People say that a week of the unbearable smell choking. "This stench everywhere, even in the house. I can not get over it. And yesterday, a woman almost died, so she became ill, "- says a local resident.

According to tenants, the lake can not be cleaned, as there is no flow of water. Moreover, land in the water protection zone of the former leadership of the village sold.

"This year there is no rain, and it happened what happened. That often happens. It is necessary to clean the lake, but what will I do with the land if the land was privatized, "- said the tenant of Lake George Weaver. "Think of something. Let us pour something that does not stink. That's the only thing we can do, "- said another tenant Viktor Tkach.

In turn, local authorities all over the blame tenants lake.

"I think this could have been avoided. People who rent the lake should be aware that it is necessary to maintain a certain level of water. They did not do "- says the mayor of the commune Hesnesheny Noah Drochia Roman Caraseni.

Fish dying in Winnebago County's Lake Summerset and other Illinois lakes

Posted: Jul 20, 2015 4:44 PM EDT

By Rebecca Klopf [CONNECT](#)

Dead fish are turning up everyday one Winnebago County lake. The Illinois Department of Natural Resources says carp are dying in Lake Summerset by the thousands. They say people do need to be careful, not just in the lakes, but also with their boats.

Two weeks ago the Lake Summerset Association say they pulled 400 dead carp from the lake.

"For some reason, a virus, a carp virus that is specific to carp has struck," says Ken Clodfelter, fish biologist at the IDNR.

Biologists with the IDNR were called in. They are not sure how the fish got the virus but say more than likely it was something already in the water. Normally the fish would fight off. But because stress factors, the fish are dying from it.

"We've had a below average temperatures these summer so some of these carp may have held off in spawning and that stresses them and they are kind of a group spawner so all of a sudden they are together. It's kind of like a kid with a running nose in a classroom it's easier to pass it on when they are all together," Clodfelter says.

There are an estimated 7,000 to 10,000 carp in Lake Summerset. Biologist say this virus could wipe out as much as 80 percent of them.

It's one of four lakes IDNR officials say the virus has been found in. They say it is still okay to boat in the lake but swimming near a lot of dead fish is not advised.

"You may not want to expose that much skin or swimming during that time when the bacteria counts are up but you can still use the lake," Clodfelter says.

They say boaters need to be careful, too. They can unknowingly carry the virus from one lake to another if they don't clean off their boat.

The Lake Summerset Association says they are picking up the dead fish daily to limit any bacteria build up. The IDNR says the virus usually lasts in fish for only a few weeks.

turtle camps there in the Veracruz coast, this is a significant amount, in recent years We passed barely 300 000 and that he talks about the work that is being done," he said.

Boca del Rio, ver.- Regional coordination of the Ministry of Environment and Natural Resources (Semarnat) reports that over the entity Veracruz found 40 dead turtles was found last Sunday in Boca del Rio beaches opposite the Fiesta Inn.

Of these 40, ten have been found on beaches in the conurbation Veracruz - Boca del Rio, said Angel Villareal Barragan, coordinator of the regional office center.

"Like the others that have appeared no hits, no lacerations, and good for all staff modes Profepa did the survey, samples were taken and then we will wait to see the results indicate. However, this also indicates that the dead turtle dragged by the sea currents and died in the northern Gulf of Mexico came," he said.

An important part has been the support of the citizens themselves who are reporting to the environmental authorities of findings of dead turtles.

Also they contribute to the protection of these species.

Yesterday morning were detected in the Anleo River, a tributary of the Navia, hundreds of dead fish, mostly trout. The discovery took place in the section between the towns of Anleo and Armental, in about three kilometers of runway where found dead specimens of trout and eels. In addition, other specimens found dead protected newts like the Iberian or even earthworms.

Hardest hit was the trout, as stated, Amador Rodriguez, president of the environmental group Salternavia "We can quantify hundreds of copies," which

"Ammonia poisoning" blamed for mass fish die-off in Egypt's Delta: official

Jul. 22, 2015 10:45

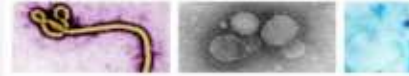

By THE CAIRO POST

CAIRO: The mass fish die-off, currently seen off Egypt's western Nile branch city of Rosetta, is caused by ammonia poisoning and lack of oxygen in the water, water ministry sources said Wednesday.

"Preliminary testing carried out on the water and the dead fishes indicate that most fishes suffocated due to the hot weather and lack of oxygen in overloaded commercial fishing farms concentrated in the area," Engineer Ahmed Fathy of the Water Ministry told Youm7 Tuesday.

PILIBHIT: With more and more tourists flocking the Gohania pond in Pilibhit, it has become a threat for its fish. The boating facility here has turned the water body into a picnic spot and thousands end up in dumping garbage in the water, thus killing a majority of the fish.

On Wednesday hundreds of dead fish surfaced on the Gohania water and the loss incurred is expected to go up to Rs 1.5 lakhs.

"At first we suspected it to be a case of poisoning. However, it looks like the fishes died due to a

severe lack of oxygen content in the water. This also happens when the water is contaminated and has toxic substances released by garbage or industrial waste," said Hires Saxena, general secretary of UP medical and public health ministerial association.

Anthrax confirmed in bison at Wood Buffalo

Hot, dry weather created prime conditions for an outbreak, official says

Parks Canada has confirmed that anthrax is to blame for the recent deaths of dozens of bison.

Fifty-two bison have died in the latest outbreak at the park.

"The risk to humans is very, very low," said Stuart MacMillan with Parks Canada.

"What we advise people to do is if they do see a carcass, don't approach it, report it to the Park office so that we know where it is."

MacMillan says most of the bison have died in remote areas, which virtually eliminates the risk to humans.

Parks officials believe the worst is over, now that the weather has turned cooler.

They say dry, hot weather earlier this summer allowed the anthrax spores to surface, creating prime conditions for an outbreak.

"As conditions become a little bit less dry and hot over the course of the summer, as the summer proceeds and the days get a little bit shorter and perhaps we get some cooler weather, we already feel like we've passed the peak of the outbreak," MacMillan said.

"We'll continue to do surveillance to see if that's true."

Dead Fish, Wildlife In Aleutians May Be Victims Of Toxic Algae Outbreak

Scientists have been receiving reports of dead and dying mammals, birds and small fish in the Aleutian Islands. They think the killer might be toxic algae proliferating in unusually warm ocean waters.

"All the signs are that we're having a major harmful algal bloom event," Bruce Wright with the Aleutian Pribilof Islands Association said.

Wright said it could be the algae that cause paralytic shellfish poisoning; the algae that generate domoic acid are another possible culprit.

Melissa Good with University of Alaska Fairbanks has been looking for the microscopic green suspects around Unalaska.

"They're a suspected cause for some of the mass deaths we've been seeing--the 10 fin whales that were spotted dead off of Kodiak

(NaturalNews) The country's fourth largest producer of chickens for meat and the third largest producer of turkeys is responding to the ongoing bird flu scare by shutting down all shows and sales of live poultry beginning in mid-August. North Carolina State Veterinarian Doug Meckes says the move is necessary to thwart a potential outbreak of bird flu in the Southern U.S., where no cases of the disease have been reported yet.

With a rising death toll of some 50 million birds nationally – only a tiny fraction of which actually had bird flu; the rest were slaughtered out of "precaution" – the ongoing bird flu crisis is having a significant

Moscow Could Be Prepping for Space War With Aggressive New Satellites

The Kremlin says its nimble new satellites are just for communications. But they look—and act—an awful lot like prototype weapons.

On Christmas Day in 2013, a rocket blasted off from the Russian Federal Space Agency's Plesetsk Cosmodrome, about 500 miles north of Moscow. The 95-foot-tall, 118-ton Rokot booster—an unarmed version of a Cold War nuclear-tipped missile—lanced into low orbit, shedding spent stages as it climbed.

Seventy-five miles above the Earth's surface, the Rokot's nose cracked open and its payload spilled out. The rocket carried Rodnik communications satellites, according to Russian officials.

OBAMA WON'T ALLOW CONGRESS TO REVIEW ENTIRE TEXT OF IRANIAN NUCLEAR DEAL

Geoffrey Grider | July 22, 2015 | 19 Comments

PRESIDENT OBAMA WON'T ALLOW CONGRESS TO REVIEW TWO KEY ASPECTS OF THE IRANIAN NUCLEAR DEAL, REPUBLICAN LAWMAKERS LEARNED FROM INTERNATIONAL PARTNERS LAST WEEK.

EDITOR'S NOTE: Barack Obama has a sinister power behind him, how else do you explain his success? He forced Congress to vote on Obamacare without even reading what was in it, and they passed it through with flying colors. Now he is doing the exact same thing with the awful, demonic Iranian Nuclear Deal. Hiding key concessions from Congress, yet still somehow getting them to vote on it. You are watching the Devil in action.

Under the terms of the Joint Comprehensive Plan of Action (JCPOA), the International Atomic Energy Agency would negotiate separately with Iran about the inspection of a facility long-suspected of being used to research long-range ballistic missiles and nuclear weapons.

UN ENDORSES IRAN NUCLEAR DEAL WITH 6 WORLD POWERS

BY EDITH M. LEDERER
ASSOCIATED PRESS

UNITED NATIONS (AP) -- The U.N. Security Council on Monday unanimously endorsed the landmark deal to rein in Iran's nuclear program and authorized measures leading to the end of U.N. sanctions, but also approved a provision that would automatically reinstate the harsh measures if Tehran reneges on its promises.

AP Photo/Seth Wenig

European Union foreign ministers meeting in Brussels immediately followed suit, endorsing the agreement between Iran and six major powers and taking the first step to lift EU sanctions.

President Barack Obama told reporters he hopes the Republican-controlled U.S. Congress, where there is strong opposition to the deal, will pay attention to the "broad international consensus," stressing that the deal is "by far our strongest approach to ensuring that Iran does not get a nuclear weapon."

But House Speaker John Boehner accused Obama of "ignoring the concerns of the American people" by allowing "such a consequential vote" to go ahead in the U.N. just 24 hours after submitting the agreement to Congress, which has 60 days to consider it. "This is a bad start for a bad deal," he said.

While sharp differences remain between the United States and Iran, ambassadors from both countries called the agreement an important achievement for diplomacy.

The new nuclear deal with Iran gives Tehran full legitimacy to engage in further atomic work and will set off a regional nuclear and conventional arms race, a senior Israeli official warned on Friday.

Ram Ben Barak said Iran was plainly still determined to break out to the bomb at a time of its choosing, and that its insistence in the deal on preventing inspectors from gaining instant access to suspect facilities, and on winning the right to continue R&D on fast-enrichment centrifuges, demonstrated that the regime remains committed to attaining nuclear weapons.

A senior Iranian cleric delivered Friday prayers in Tehran while standing behind a podium that declared, "We Will Trample Upon America," according to photos released by Iran's state-controlled media.

Iranian cleric Ayatollah Mohammad Ali Movahedi Kermani, who was handpicked by the Islamic Republic's supreme leader to deliver the prayers, delivered a message of hostility toward the United States in the first official remarks since a final nuclear deal was signed between Iran and world powers in Vienna last week.

A Persian-language message on the podium declared,

"We will trample upon America" while the English phrase "We Defeat the United States" can be seen underneath.

Friday prayers are known for being officially sanctioned by the state and a sign of the supreme leader's thinking on various issues. Analysts who spoke to the *Washington Free Beacon* about the anti-American tone of last week's prayers said it is a sign Tehran believes it bested the United States in the talks.

"The slogans of the Iranian nation on Al-Quds Day show what [Iran's] position is," said the Middle East Media Research Institute. "The slogans 'Death to Israel' and 'Death to America' have resounded throughout the country, and are not limited to Tehran and the other large cities. The entire country is under the umbrella of this great movement [of 'Death to America']."

(CNSNews.com) – Secretary of State John Kerry said in a television interview screened Sunday that when President Obama came into office he was “dealt ... a hand” of “19,000 [Iranian] centrifuges already spinning.”

In fact, most of the increase in Iran's centrifuge numbers occurred under the current administration. And under the just-completed Joint Comprehensive Plan of Action (JCPOA) agreement, Iran will have the international community's blessing to keep more centrifuges than it had when Obama entered the White House.

In one of a series of interviews taped Friday as part of the administration's effort to sell the Iran nuclear deal to the American people and Congress, Kerry told CNN's State of the Union that Iran has “12,000 kilograms of highly-enriched uranium, and that's enough if they enriched it further for 10 to 12

JERUSALEM -- Israeli Prime Minister Benjamin Netanyahu stepped up his criticism Wednesday of the **U.S.-led nuclear deal with Iran**, telling CBS Evening News anchor Scott Pelley that the agreement is a "very dangerous deal for the world" and warning that Israel has a "great and mighty" strength to defend itself.

"Giving the preeminent terrorist state of our time access to nuclear technology that they will ultimately turn into an arsenal of nuclear weapons and hundreds of billions of dollars to finance their

JERUSALEM, Israel – Israeli Prime Minister Benjamin Netanyahu's meeting Tuesday with U.S. Secretary of Defense Ashton Carter did nothing to dissuade him from the belief that the new nuclear agreement with Iran is a fool's bargain.

"We are told the whole world supports this bad deal; well, that's just not true. Israel and many Arab states oppose this deal, and, in any case, sometimes the entire world can be wrong," Netanyahu said.

As the debate over the agreement shifts to Capitol Hill, Israeli officials are calling attention to the danger Iran poses not just to Israel, but to the United States.

Director General of Israel's Foreign Ministry Dore Gold told reporters Iran not only shouts "death to America," it also operates inside the United States.

"When we're speaking about Iran, we're dealing with a country whose leadership calls for death to America," Dore said. "It's not as though Israel is taking action because it alone is in the crosshairs of the Iranian military. The United States is in the crosshairs of the Iranian military."

"America is targeted by Iran," he continued. "Hezbollah today, which is, let's be clear about it, Hezbollah is an extension of the Iranian security apparatus. It has networks in Europe and in the United States."

"And we say that both the Revolutionary Guards and Hezbollah are operating in 30 countries, according to our best information," he said.

Despite the worldwide influence of Hezbollah and Iran's Revolutionary Guards, the agreement gives a long list – 70 pages worth of Iranian companies, entities, and individuals – freedom from sanctions. That will represent a windfall for Iran's economy – and critics warn some of that money will be used to fund terrorist activities around the world.

JOHN KERRY WARNS ISRAEL NOT TO STRIKE IRAN'S NUCLEAR FACILITIES

LESS THAN A DAY AFTER INDICATING IN A SENATE HEARING THAT THE IRAN NUCLEAR DEAL WOULD HAVE THE US DEFEND IRAN FROM ISRAEL, US SECRETARY OF STATE JOHN KERRY WARNED ISRAEL ON FRIDAY THAT A UNILATERAL STRIKE ON IRAN'S COVERT NUCLEAR PROGRAM WOULD BE A "HUGE MISTAKE."

"And I will bless them that bless thee, and curse him that curseth thee: and in thee shall all families of the earth be blessed." **Genesis 12:3 (KJV)**

"That'd be an enormous mistake, a huge mistake with grave consequences for Israel and for the region, and I don't think it's necessary," Kerry answered in an ominous answer. Just on Thursday he was asked in a Senate hearing about a clause in the deal requiring the West to train Iran to block sabotage attempts against its nuclear program.

Former Arkansas Gov. Mike Huckabee (R) on Saturday invoked the specter of the Holocaust to criticize President Barack Obama for his decision to negotiate with Iran over its nuclear program.

"This president's foreign policy is the most feckless in American history. It is so naive that he would trust the Iranians. By doing so, he will take the Israelis and march them to the door of the oven," Huckabee said in an interview with [Breitbart News](#).

The presidential contender, a social conservative who is seen favorably by Republican voters, has promised to rescind the deal with Iran on his first day in office.

Isis could be plotting a drone bomb attack in Britain

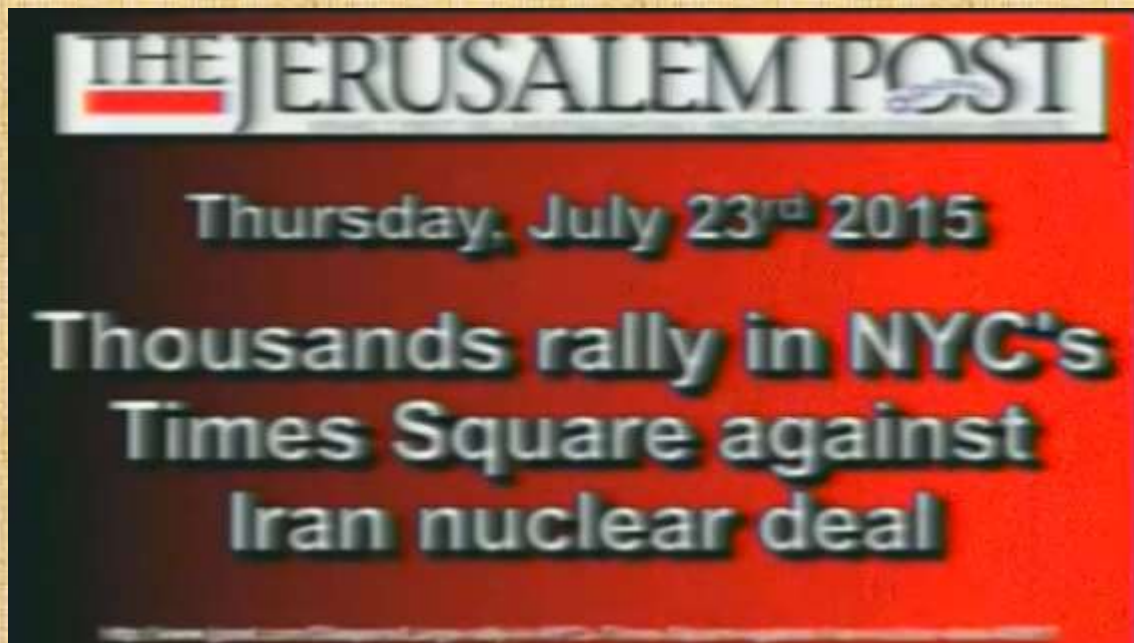

Terrorists want to use the unmanned machines - available for as little as £100 on the high street - to drop explosives on large crowds at popular sporting and cultural gatherings.

Defence chiefs fear they could launch a multi-drone attack carrying several bombs, even using airborne cameras to film the bloody carnage below for twisted **propaganda videos**.

Senior MI5 figures believed that **Isis** has already tested how much plastic explosive the flying machines can carry, getting as far as experimenting with detonation devices.

Today, on the Fast of Av, Jews throughout the world mourn the destruction of the two Holy Temples of Jerusalem and pray for the rebuilding of the Third Temple.

But one organization has been doing a lot more than just praying.

The Temple [Institute](#) has released a modern three-dimensional architectural rendition of the future Third Holy Temple, utilizing the latest building material and techniques.

The vivid, three-minute [video](#) walks viewers through the main sanctuary, showcasing decades of research and tens of innovative *Halakhic* (Jewish law) solutions to various perplexing issues that were resolved to create [fully](#) functional, ready-to-use plans.

While staying true to the *Halakhic* requirements and dimensions, the project also adds some clear modern twists.

As the [visual](#) tour sweeps through the sanctuary, one can see the menorah, incense altar and showbread table, all of which have already been prepared by the Institute, among 70 other sacred vessels.

The presentation was specially released to coincide with the Ninth of Av, the Jewish national day of mourning which commemorates the destruction of the First and Second Temples.

(NaturalNews) Is the "Jade Helm 15" exercise involving hundreds of U.S. special operations troops set to begin this month in the Southeast really an exercise involving the use of artificial intelligence (AI)?

It's possible, say analysts who believe that "JADE" is an acronym for a Defense Advanced Research Project Agency (DARPA)-developed AI quantum computing technology that is capable of producing holographic battlefield simulations. The technology, they say, is heading up the drill in order to "master the human" domain and learn to predict human responses.

Farmersville residents may have a new addition to their community: a Muslim cemetery.

Residents of a Farmersville, Texas, a town located about 25 miles from the site of a Garland attack by two radical Islamists – who were then shot by local police – say they'll do whatever it takes to keep a Muslim cemetery away from their county, even if it means dumping pig parts on the requested property site.

Members of the Islamic Association of Collin County have proposed building a cemetery in the small Texas town and have petitioned city council for permit permission, the Daily Mail reported. But many in the community say no way – the property is located too close to the site of a radical Islamist terror attack on those participating in a "Draw Muhammed" contest in Garland.

7th Dead Doctor: Found Among Five Slain in California

By [Heather Callaghan](#)

Perhaps you've heard about a tragic rash of dead or missing doctors in one month's time? Seven have either died under strange circumstances or were victims of brutal murders. There are also five who have simply vanished along with one medical lawyer. The previous dead or murdered doctors are as follows: Autism researcher [Dr. Jeff Bradstreet](#), [Dr. Bruce Hedendal DC PhD](#), [Dr. Teresa A. Two adult women and three girls ages six and under were found dead on Saturday. The youngest was six months old.

Commodities Collapsed Just Before The Last Stock Market Crash – So Guess What Is Happening Right Now?

By Michael Snyder, on July 22nd, 2015

If we were going to see a stock market crash in the United States in the fall of 2015 (to use a hypothetical example), we would expect to see commodity prices begin to crash a few months ahead of time. This is precisely what happened just before the great financial crisis of 2008, and we are watching the exact same thing happen again right now. On Wednesday, commodities got absolutely pummeled, and at this point the Bloomberg Commodity Index is down a whopping 26 percent over the past twelve months. When global economic activity slows down, demand for raw materials sinks and prices drop. So important global commodities such as copper, iron ore, aluminum, zinc, nickel, lead, tin and lumber are all considered to be key "leading indicators" that can tell us a lot about where things are heading next. And what they are telling us right now is that we are rapidly approaching a **global economic meltdown**.

A higher percentage of children live in poverty now than did during the Great Recession, according to a [new report](#) from the Annie E. Casey Foundation released Tuesday.

About 22% of children in the U.S. lived below the poverty line in 2013, compared with 18% in 2008, the foundation's 2015 Kids Count Data Book reported. In 2013, the U.S. Department of Human and Health Service's official poverty line was \$23,624 for a family with two adults and two children.

"The fact that it's happening is disturbing on lots of levels," said Laura Speer, the associate director for policy reform and advocacy at the Casey Foundation, a non-profit based in Baltimore. "Those kids often don't have the access to the things they need to thrive." The foundation says its mission is to help low-income children in the U.S. by providing grants and advocating for policies that promote economic opportunity.

The report examined data from several federal agencies ranging from 2008 to 2013 to assess state-by-state trends of 16 factors of children's well-being, including economics, education, health and family and community. It found that one in four children — a total of 18.7 million kids — lived in low-income households in 2013; low-income families were defined as those who use more than 30% of their pre-tax income for housing.

However, the numbers are from 2013, and Speer said the outcome may be different now that the unemployment rate has lowered to 5.3%; it was 7.5% in June 2013. Speer said more employed parents would naturally lead to fewer impoverished

Copper, China And World Trade Are All Screaming That The Next Economic Crisis Is Here

By Michael Snyder, on July 23rd, 2015

If you are looking for a "canary in a coal mine" type of warning for the entire global economy, you have a whole bunch to pick from right now. "Dr. Copper" just hit a six year low, Morgan Stanley is warning that this could be the worst oil price crash in 45 years, the Chinese economy is suddenly stalling out, and world trade is falling at the fastest pace that we have seen since the last financial crisis. President Obama did not sing "Amazing Grace" at a Chattanooga church over the weekend. Instead, he took in a Broadway show and played a round of golf.

Five members of the Armed Forces were gunned down by a Muslim terrorist on American soil last week and yet the flag was not lowered to half-staff at 1600 Pennsylvania Avenue.

Immigration To Swell U.S. Muslim Population To 6.2 Million

July 20, 2015 | [Julia Hahn](#)

Share this article

According to U.S. Census Data, the United States admits roughly 100,000 Muslim immigrants legally each year, representing the fastest growing block of immigration into the United States.

Tennessee, in fact, is home to one of the fastest growing immigrant populations in the country, causing the President to give a recent speech there in favor of expansive immigration.

The Mayor of Nashville has launched a New American Advisory Council to help facilitate the legally-sanctioned transition from the previous inhabitants of Nashville to the new ones.

Both of Tennessee's Senators, Sen. Lamar Alexander (R-TN) and Sen. Bob Corker (R-TN), helped pass the Senate's Gang of Eight bill which would have tripled the number of green cards issued over the next ten years.

Unlike illegal immigrants, legal immigrants invited into the United States with green cards are granted automatic work permits, welfare access, and the ability to become voting citizens.

Pew Research has estimated that immigration will cause the population of U.S. Muslims to more than double over the next two decades—from 2.6 million in 2010 to 6.2 million in 2030. This demographic change is entirely the product of legal admissions—that is, it is a formal policy of the federal government adopted by Congress.

Another major source of Middle Eastern immigration into the United States is done through our nation's refugee program. Every year the United States admits 70,000 asylees and refugees. Arabic is the most common language spoken by refugees, and 91.4 percent of refugees from the Middle East are on food stamps.

DOCUMENTS PROVE IRS TARGETED CONSERVATIVE GROUPS

Judicial Watch documents prove the IRS used donor lists of tax exempt organizations to target them with audits

by JOSHUA KRAUSE | THE DAILY SHEEPLE | JULY 26, 2015

It's been a rough week for the IRS. On Monday it was revealed that during the last tax season, the IRS phone system hung up on **8.8 million callers** looking for help with their taxes, a massive increase from the half a million hangups that were experienced the year before. The IRS is also being criticized for levying **outrageous fines** on businesses that reimburse their employees for health insurance; fines that are **12 times higher** than the statutory limit written in the Affordable Care Act.

But the latest news on a long running IRS scandal takes the cake. Judicial Watch announced earlier this week, that they had **obtained documents** that prove the IRS used donor lists of tax exempt organizations to target them with audits. These were largely conservative organizations opposed to the Obama administration. The IRS attempted to issue a "gift tax" of 35% on some of these donors, despite the fact that a gift tax on donations was ruled unconstitutional by the Supreme Court, and hasn't been used since 1982.

TV Land's "Impastor" mocks pastors. (Facebook)

Connect with the newsmakers and storytellers who are impacting our world. Listen to Charisma Connection at charismapodcastnetwork.com.

Buddy Dobbs is "a hard-core gambling addict who, in order to go on the run from a loan shark, ends up stealing the identity of a gay pastor in a local small-town community." Such is the plot for *Impastor*, a new "comedy" that started July 15 on TV Land. This is the same network that brought us reruns of *Bonanza*, *Gunsmoke*, *I Love Lucy* and *The Andy Griffith Show*. I wonder what Andy would think of his network now.

According to OneMillionMoms, "This show not only depicts pastors in a negative light, but the entire program will also be based on lies about Christianity." The website also notes that "TV Land is not ridiculing any other religion currently and wouldn't dream of mocking Muhammad or Muslims."

Christians can respond in two ways.

Skipping church? Facial recognition software could be tracking you

By Sarah Pulliam Bailey July 24 [Follow @spulliam](#)

Identify Members Attending Your Events

Churchix is a facial recognition software company that helps churches track who attends their services. (Screenshot via Churchix)

Could Big Brother be coming to a church near you? One software company is now providing churches with facial recognition software to better track who shows up at their worship services.

Manually tracking attendance is a chore for some churches, especially large ones that have multiple services and entrances. Now a company called [Churchix](#) provides facial recognition software, which captures someone's face through a photo or video and then identifies it by comparing it with those in a

The Satanic Temple is planning Saturday to unveil an 8-foot-tall bronze statue of a goat-headed Devil in Detroit — and it's being called the "largest public satanic ceremony in history," [WWJ-TV reported](#).

The unveiling is a private event at a location disclosed only to those holding \$25 tickets, but once on site attendees are promised "a night of chaos, noise, and debauchery... Come dance with the Devil and experience history in the making," WWJ added.

Shofars sounded amid the chanting and cheering, clapping and crying as about 100 people crowded together on a strip of sidewalk in Eastern Market today to pray and protest the Satanic Temple's plans to unveil a Baphomet monument in Detroit later tonight.

The group gathered across the street from Bert's Marketplace, where the Satantic Temple had originally planned to unveil the bronze, goat-headed idol. But Bert Dearing said he gave the group back its \$3,000 rental fee when he learned who booked the place.

CAPE TOWN, South Africa — A college student in South Africa has been removed as acting president of her student council after she posted a comment on her personal Facebook page expressing disapproval over the U.S. Supreme Court's ruling on "gay marriage."

Zizipho Pae, who had been serving as acting president of the University of Cape Town's Student Representative Council (SRC) while elected President Ramabina Mahapa was on leave, is now under investigation over her comment on her Facebook page.

"We are institutionalizing and normalizing sin! Sin. May God have mercy on us," she wrote earlier this month.

Pae said that after she posted the status, those who disagreed began threatening her and posting homosexual pornography on her page. She states that her office was also vandalized, as the Scriptures she had displayed in the room were torn down and replaced with signs that read "Get out of here."

One Group Rules In Secret This New Report Exposes All

Christians considering how to respond to the Supreme Court's creation of "same-sex marriage" face a challenge from within – those who call themselves "gay Christians" and contend the Bible does not condemn homosexual behavior.

One of the most conspicuous figures in the movement is Matthew Vines, who has written a book arguing Scripture does not condemn same-sex sexual relationships. Vines has also produced a video presenting his evidence, "The Biblical Case in Support of Same-Sex Relationships," which has accumulated 750,000 views.

Vines' organization, [The Reformation Project](#), explains it "exists to train Christians to support and affirm lesbian, gay, bisexual, and transgender (LGBT) people."

And he recently boasted in [Politico](#) of the "embrace" he is finding at some churches.

Vines believes the next step for Christian churches is determining the "kind of peace conservative Christians can make with the LGBT community" with the help of self-defined homosexual and transgender

Woman to marry her pet Dog after the death of Cat

— 22 July, 2015

Dominique Lesbirel was devastated after the death of her husband from kidney failure. They had been together for 16 years and did everything together. Happily she has now found love again – but still believes it is too soon to marry, remaining loyal to her first love Doerack. It is a predicament many people can relate to – except for a couple of small details. Dominique's first husband Doerack was her CAT – and her new love is her DOG Travis.
