## والعلامات حتى 10 نوفمبر 2015

Holy\_bible\_1

اكرر اننا لا نحدد مواعيد بل فقط نشجع بعضنا بعضا بقرب مجيء المسيح

وأیضا أوضح أنه يوجد نبوات لم نراها بعد مثل ابن الهلاك وهرمجدون

ولكن ايضا علامات كثيرة من التي قال عنها الكتاب انها في الزمان الاخير بدأت تحدث بوضوح

ويجب أن ننتبه اليها. ونذكر بعضنا باننا نحتاج ان نستعد. والاستعداد ليس فقط قبل مجيء

المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر

هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه. بمعنى نحتاج من الان ان نستعد بقوة بأيمان

عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيق اقتربت

جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت

سيكون صعب جدا بل أستطيع ان أقول من مثل العذارى انه لن يكون هناك زيت الا ما جمعه

سابقا. أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشتر اشاعات ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لانه كان مستعد ومنتظر مجيء المسيح ولم ياتي المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

## سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَأَن تُوْمِنُونَ.

ثالثا لننتبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَأَنْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

## Green fireball explodes over Bangkok

Taurid meteor shower may boost fireball sightings this week

CBC News · Posted: Nov 02, 2015 11:06 AM ET · Last Updated: Nov 02, 2015 4:13 PM ET

The dramatic meteor is seen in several dashcam videos captured by vehicles in Bangkok just before 9 p.m. local time (9 a.m. ET). (YouTube)

Facebook

A dramatic green fireball lit up the night sky over Thailand today as it streaked past and exploded.

## News On 6 Reporter Captures Video Of Meteor In Oklahoma Sky

*Posted: Nov 02, 2015 7:05 PM MST Updated: Nov 02, 2015 8:12 PM MST*

BY: RICHARD CLARK, NEWS ON 6.COM [EMAIL](#) [f](#) [t](#) [g](#) [e](#)

TULSA, Oklahoma - News On 6 reporter Emory Bryan captured video of a meteor in the sky over Tulsa Monday evening.

Bryan recorded the video with a dashcam he mounted in his car quite some time ago.

He was headed east at 7:01 p.m. on the Broken Arrow Expressway and had just passed the 21st Street exit when the meteor appeared heading north to south.

**INCOMING CME, CHANCE OF STORMS ON NOV 7th:** Another round of geomagnetic storms may be in the offing. Sunspot AR2443 erupted on Nov. 4th, hurling a CME into space: [movie](#). The magnetized cloud of plasma is expected to deliver a glancing blow to Earth's magnetic field on Nov. 7th. NOAA forecasters estimate a 60% chance of [G1-class](#) geomagnetic storms when the CME arrives.  
**Aurora alerts:** [text](#) or [voice](#)

**TAURID FIREBALLS:** There is no longer any doubt. Earth is passing through a stream of gravelly debris from Comet Encke, source of the annual Taurid meteor shower. Meteoroids the size of pebbles, and larger, are disintegrating as they hit our planet's atmosphere at 30 km/s. To see what effect this is having on the night sky, Martin Popek of Nýdek (Czech republic) activated a low-light camera in his backyard and let it run all night on Nov. 4th. This is what it recorded:

There were almost a dozen exploding meteors--all brighter than Venus and one as bright as a crescent Moon. "It was a very active night," says Popek.

Earth runs unto the debris zone of Comet Encke every year around this time. Usually, the encounter produces a minor meteor shower, but 2015 is different.

وستري كرات نارية كثيرة في السماء في ليالي نوفمبر

### Fireballs to Flash in November Night Sky as Taurid Meteor Shower Peaks

By Brian Lada, Meteorologist  
November 7, 2015; 1:37 PM ET

 Share |    

Cosmic fireballs will occasionally light up the night sky as the Taurid Meteor Shower peaks into next week.

"Every year, the Earth passes through a stream left by Comet Encke, producing the Taurid Meteor Shower," AccuWeather Meteorologist Dave Samuhel said.

"This shower is notorious for producing fireballs, and there are signs that this could be a year of enhanced activity," Samuhel added.

Fireballs are extremely bright meteors that last for several seconds and can light up an entire countryside when they are at their brightest.

**TAURID METEORS**  
Sat Dusk-Sun Dawn

**VISIBILITY**  
Good  
Fair  
Poor

AccuWeather.com

Unlike other meteor showers throughout the year, the peak of the Taurid shower is drawn out, lasting nearly a week.

This year, the peak is expected to occur from Nov. 5 through Nov. 12, but some meteors from the Taurids will continue through the end of the month.

**GEOMAGNETIC STORM UPDATE:** Earth is entering a region of dense and unsettled solar wind. This could be the leading edge of a high-speed solar wind stream originally expected to reach Earth on Nov. 2nd, but now more likely to arrive on Nov. 3rd. NOAA forecasters say a strong [G3-class](#) geomagnetic storm is possible during the next 24 hours, with auroras as far south as, e.g., Oregon and Illinois. **Aurora alerts:** [text](#) or [voice](#)

**GIANT SUNSPOT HIDES SPACESHIP:** Sunspot AR2443 is so big, it is attracting the attention of astrophotographers around the world. Yesterday when Peter Rosén of Stockholm, Sweden, photographed the sprawling complex, he found a spaceship hiding among its dark cores. Seriously. Take a close look at the image below:

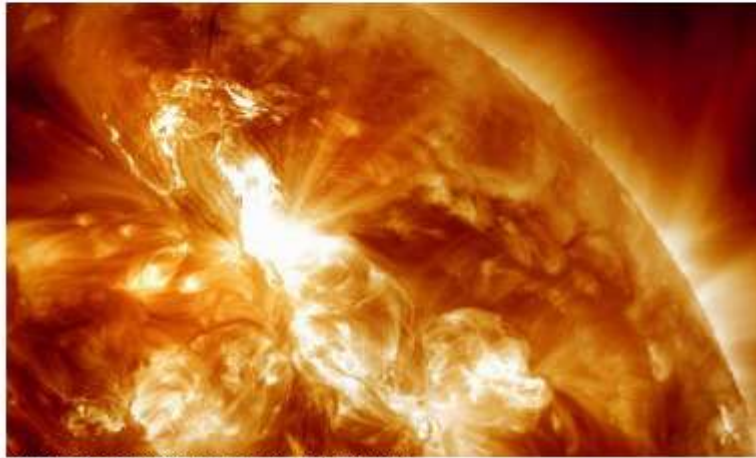

Can't find the spaceship? Click [here](#) and [here](#). "It is the International Space Station," explains Rosén. "I caught it making a split-second transit of the giant sunspot."

Indeed, AR244 is huge. From end to end it measures almost 200,000 km. Many of the dark cores are as large as terrestrial continents--and a couple are as large as Earth itself. These dimensions make it an easy target for backyard [solar telescopes](#).

## 'Solar storm' grounds Swedish air traffic

Published: 04 Nov 2015 17:01 GMT+01:00

Updated: 04 Nov 2015 17:25 GMT+01:00

Planes were grounded at some of Sweden's busiest airports on Wednesday afternoon because of a "solar storm" interfering with air traffic control radar systems, authorities said.

No aircraft were allowed to take off from airports in southern and central Sweden due to a massive geomagnetic solar flare storm causing problems for radar systems.

Ulf Wallin, press spokesperson at Swedavia, the organization managing Sweden's airports, told TT that airports at Landvetter in Gothenburg and Arlanda and Bromma in Stockholm were affected.

# The White House is preparing for catastrophic solar flares

By Michael Hawthorne • Published November 02, 2015 • Newser

A big enough solar flare could wipe out electricity on Earth. The White House announced Thursday it wants to be ready. (AP Photo/NASA)

If a giant solar flare hit the Earth, it could knock out the entire power grid, meaning no more new Justin Bieber singles, no more televised presidential debates, and no more Facebook photos of babies.

But it wouldn't be all good news. The *Washington Post* reports the electromagnetic pulse—or EMP—created by such an event could wipe out electricity for months on end, creating a global catastrophe.

Saudi Arabia has been hit by unprecedented ice flash floods, as seasonal low pressure brings huge downpours to Iraq and Iran as well. The shocking video shows chunks of ice the size of large ball bearings.

Extreme weather conditions have been lashing the country since October 28, as the low pressure area concentrated over the northern part of the Persian Gulf, according to climate scientist Dr Abd al-Aziz al-Rubaie, as cited by thewatchers.com.

## Cyclone Chapala Hammers Yemen; At Least 3 Dead

Published Nov 3 2015 07:42 PM EST | weather.com

### Devastating Impacts from Historic Cyclone

Meteorologist Danielle Banks takes a look at the impacts from the rare and historic Cyclone Chapala that slammed Yemen in the Middle East.

Follow @Sean\_Breslin

The coast of Yemen, an area unaccustomed to dealing with the devastation of tropical systems, has taken a direct hit from the powerful and dangerous Cyclone Chapala.

As Chapala made landfall Tuesday, it dumped enormous amounts of rainfall on the arid coast – as much as a decade's worth, according to some forecasts. This caused major flooding and swamped entire towns.

## Chile earthquake: Magnitude-6.8 tremor strikes area that suffered tsunami in September

Updated Sat at 3:32am

**A strong magnitude-6.8 earthquake has struck Chile but no tsunami alert has been triggered and there are no immediate reports of damage or injuries, seismologists say.**

**RELATED STORY:** [Chile lifts tsunami warning after deadly earthquake kills 10](#)

**MAP:** [Chile](#)

The quake hit the north-central Coquimbo region at a depth of 36 kilometres at 4:31am local time (6:31pm AEDT), the US Geological Survey (USGS) said, but the Pacific Tsunami Warning Centre did not issue an alert.

The epicentre was close to the coast, 47 kilometres from the city of Ovalle and nearly 300 kilometres north of Chile's capital Santiago.

ONEMI, the national emergency service, initially said that there was the possibility of a "minor tsunami," but a few minutes later called off the warning.

Chile is no stranger to earthquakes.

In September, the same area of the country [was hit by a magnitude-8.3 earthquake and tsunami that left 15 dead and over 16,000 homeless](#).

In February 2010, an 8.8-magnitude quake off the southern Chilean coast killed more than 500 people and inflicted an estimated \$30 billion in damage.

Chile lies on what is known as the Ring of Fire — an arc of fault lines that circles the Pacific Basin and is prone to frequent earthquakes and volcanic eruptions.

The country has long put in place anti-seismic engineering systems, applying a technique known as seismic isolation, or base isolation to protect buildings from the Earth's tremors.

ONEMI has also been leading a big push to educate the population, organising frequent drills and visiting schools to simulate earthquake situations.

## One Of The Most Dangerous Volcanoes In North America Is Roaring To Life

2 NOVEMBER, 2015

(Michael Snyder) More than 25 million people live in the vicinity of North America's 2nd-highest volcano, and in recent weeks this volcano has been steadily rumbling and has been spewing out massive amounts of black smoke and ash. I have previously written about "the most dangerous mountain in the United States" (Mt. Rainier), but if the volcano that I am talking about today experiences a full-blown explosive eruption it could potentially be a cataclysmic event beyond what most of us would dare to imagine.

## Lombok volcano ash forces cancellation of Bali flights

Posted on November 4, 2015

**November 2015 – INDONESIA** – An ash cloud from an eruption on Lombok's Mount Rinjani has led to flight cancellations in and out Bali airport on Tuesday (Nov 3). Authorities decided to close Ngurah Rai International Airport for four hours until 11.30pm (1530 GMT) so they could assess the risk posed by a large ash cloud drifting from Mount Rinjani, an active volcano on the nearby island of Lombok. Airport manager Trihora Harjo said the situation would be re-evaluated as the evening went on but unless conditions improved the airport could remain shut.

"If there's any chance available (to reopen the airport) I will, but if not, I will continue to keep it closed," he told AFP, adding he did not yet know how many flights would be affected. In a statement, Jetstar said it had cancelled all remaining flights "to and from Bali following assessment of the latest information from the Volcanic Ash Advisory Centre (VAAC)," with Singapore, Perth, Adelaide, Sydney and Melbourne among the affected destinations. Virgin Australia "has cancelled all flights to and from" Bali, reported *Sky News* Australia. *The Sydney Morning Herald* said that both airlines announced that volcanic ash "made flying conditions unsafe."

"The safety of our guests and crew is our highest priority," Virgin Australia said in a statement. The latest disruption comes three months after a major eruption at Mount Raung in Java led to widespread travel chaos at Bali airport, leaving passengers stranded for days. –[Channel News](#)

Its scarred and jagged crater is a reminder of the terrible devastation that Mount St Helens wrought over the Washington countryside 35 years ago.

Now a new study of the volcanic plumbing lurking beneath the 8,363ft (2,459 metre) summit suggests the volcano could yet again blow its top in an explosive eruption.

Geologists studying the volcano, which is responsible for the most deadly eruption in US history, have discovered a second enormous magma chamber buried far beneath the surface.

Thousands of dead fish were spotted in the Bhopal's Lower Lake, one of two lakes in the Bhoj wetland, which has been designated a wetland of international importance under the international Ramsar Convention, on Saturday morning.

When HT visited the Lower Lake, it found hundreds of dead fish floating in the water. There were heaps of garbage and floating debris with dead fish on the lake fringe, with a foul smell repelling onlookers.

*Popular with kids, Deep Lake in Westsyde sustained a summer fish kill on Oct. 29.*

Share

**CITY NEWS**

Deep Lake in Westsyde has undergone an unusual die-off of its trout population — a summer fish kill in the middle of fall.

The phenomenon was still occurring midday Thursday, with about 200 fish carcasses scattered around the lake and a dozen fish still pumping their gills near the shoreline.

"What's unusual about, I would say, is the timing," said Steve Maricle, senior fish biologist with the fish and wildlife branch.

**JAJARKOT:** The outbreak of infectious peste des petits ruminants (PPR) disease has claimed over 3,000 cattle, mostly goats, in Jajarkot district.

Over a dozen of VDCs in the northern belt in the district are affected from the outbreak of PPR, also known as goat plague. The local farmers have expressed their dissatisfaction over the oblivious nature of the stakeholders to contain the disease on animals.

The disease has gone out of control in Paik, Talegau, Archhani, Pajaru, Majkot, Daha, Kortang, Garkhakot, Nayakbada, Rokayagaun, Ramidanda and other areas, killing thousands

## Thousands Of Dead Fish Wash Ashore In Destin, Florida

2 NOVEMBER, 2015

For weeks, we've been telling you how red tide has been affecting locals and visitors in Panama City Beach, but it's affecting the shores of other cities too. On Wednesday afternoon there were still a lot of dead fish at the Destin Harbor, but it was nothing compared to that morning. Locals say thousands of dead fish were washing ashore. Crews came and cleaned up the mess, but when you look in the water, you can still see tons of dead fish floating in the water. The FWC released a new report on red tide Wednesday afternoon.

It's been found in high concentrations in six samples in and along the Bay County shores, and satellite images show red tide also on the shores of Walton, Gulf and Okaloosa Counties. Extensive fish kill and respiratory problems have been reported in Bay, Gulf, Walton, Okaloosa, and Santa Rosa Counties. Locals say all of the dead fish is a sore sight to see on their beautiful beaches. "It's horrible we've got fish everywhere on the beach," said Destin Resident

## Fish deaths trigger Rabindra Sarobar lake contamination fear

Subhro Niyogi, TNN | Nov 3, 2015, 06:48AM IST

in Share

KOLKATA: Dead fish in hundreds have surfaced in a section of the Rabindra Sarobar Lake, triggering fears of contamination and even poisoning. Officials of Kolkata Improvement Trust (KIT), the custodian of the waterbody, are puzzled by the development and are planning to requisition experts to test the water.

The surface of the lake was littered with dead fish on Sunday and Monday.

Morning walkers told TOI that they had been taken aback to find hundreds of dead fish, most of them Khaira fish that are 1.5-2 inches in size, floating on the water at the western section (Tollygunge end) of the lake opposite Menoka Cinema.

"I had seen some dead fish on Friday and Saturday. But on Sunday, the entire surface of the lake was littered with dead fish that attracted crows and other scavenging birds in large numbers. I have been frequenting the lake for 20 years but have never witnessed something like this," said Sagarika Devi, a morning walker who lives on Southern Avenue.

Fellow morning walkers KP Chokhani, Satinath Karmakar and Abir Pal also expressed concern over the fish deaths. "There is definitely something wrong with the water. Otherwise, so many fish would not have died all at once," said Karmakar. Incidentally, a religious congregation at Rabindra Sarobar Stadium had led to an influx of several thousand devotees over the weekend. Many had bathed, washed clothes and utensils in the stretch of the lake.

## Fish, Birds Wash Ashore

Wednesday, November 4, 2015 2:54 PM by Mariane McLeod

***MNR doesn't know why dead birds and fish are washing ashore in Wasaga.***

(Wasaga Beach) A warning for you if you're headed to the beach in Wasaga thanks to the summer-like temperatures: a fish die-off is underway.

The Ministry of Natural Resources says it doesn't yet know the reason for the large number of dead birds and fish washing up on shore, but they suspect Type E Botulism.

It's not uncommon for there to be mass die-offs in the Great Lakes.

You're being asked not to handle dead or dying fish or birds.

Park staff are aware of the problem and are working to dispose of dead fish and birds that are found within the park.

## Millions of B.C. salmon mysteriously 'just disappear' in troubling year

MARK HUME

VANCOUVER — The Globe and Mail

Published Tuesday, Nov. 03, 2015 9:35PM EST

Although spawning salmon are still returning to British Columbia's rivers – including some, surprisingly, to urban streams – early returns indicate another troubling year, despite some bright spots.

"It really is a mixed bag this year," said Brian Riddell, president and CEO of the Pacific Salmon Foundation. "How the heck can we sum it up? I'd say it's the good, the bad and the mysterious."

There were good sockeye salmon returns to the Great Central Lake system on Vancouver Island and to the Nass River on the North Coast, he said.

But contrasting that were very poor returns on the Fraser River, where only about two million sockeye returned, far short of the more than six million predicted in preseason forecasts. Even more dramatic was the collapse of the pink salmon on the Fraser, with only about five million fish showing up when more than 14 million had been forecast.

The federal Department of Fisheries and Oceans declined to provide a spokesperson to talk about the salmon runs, saying it is too early to have firm numbers.

But Dr. Riddell said it is possible at this point to paint a broad picture, and the indication is that some stocks are in serious trouble.

Agra: A large number of dead turtles were discovered in a pond in Kankpuri village, Khera Rathore, Agra district, adjoining the National Chambal Wildlife Sanctuary. The pond has turned toxic, forest department officials said. Water samples from it were sent for lab tests.

Villagers were stricken with panic on seeing the large number of dead turtles floating on the pond at Khera Rathore's Kankpuri village, 70 km from Agra. The Chambal sanctuary is home to turtles, Gangetic dolphins, gharials and crocodiles.

Villagers informed forest officials after the decomposing bodies of turtles caused an overpowering stench. "We saw a few dead turtles on Sunday, but did not think much of it then. On Tuesday, many turtles were seen floating on the water. The stench was unbearable," said Munna Lal, a resident of Kankpuri.

Forest ranger Brijesh Singh Parmar, who arrived at the pond with a team to check the reports of dying turtles, said, "By Wednesday morning, no one could miss the stench. We found that a large number of turtles had died."

Forest ranger Satya Pal of Fatehabad said the carcasses of 10 turtles had been sent to the Indian Veterinary Research Institute, Bareilly for post-mortem examination. He said carcasses of 74 turtles had been recovered. Thirty-nine turtles that were still alive have been sent to another pond, he said.

## Tourist Captures Pic of Strange Sea Monster off Greece Coast

Fox News

November 01, 2015

*A strange looking creature was photographed swimming off Greece's west coast. (Courtesy Harvey Robertson)*

**BY SKY MCCARTHY**

A Scottish tourist unwittingly captured an unidentifiable sea monster while vacationing in Greece.

Harvey Robertson was on a boat cruise off the coast of Parga, sailing through sea caves with his family. He was initially just trying to capture the unusual color of the surrounding water with his iPhone camera.

What he shot instead has baffled those across the Internet—and marine scientists. Looking back through his camera, Robertson saw that he had captured a grey creature that resembles an elongated manatee. The strange animal appears to pop out of the water in one photo, then disappears under the greenish water in the next.

An explosion occurred overnight at a nuclear power plant in Doel, northern Belgium, local media reported, adding that the blast caused a fire. The exact damage from the incident remains unknown.

The blast happened around 11pm local time on Saturday. The fire started in Reactor 1 of the plant, but was soon extinguished by personnel.

The explosion didn't cause any threat to nature, Els De Clercq, spokeswoman from Belgian energy corporation Electrabel that runs the plant, told Het Laatste Nieuws. There was no fuel present at the time of the incident as the reactor had been shut due to its expired operational license.

Russia's authorities should revive the old Cold War practice of training civilians on how to respond in the event of a large-scale nuclear attack, a senior government official said on Friday.

Speaking after a meeting of Russia's Security Council chaired by President Vladimir Putin, Dmitry Rogozin, the deputy prime minister in charge the defense industry, said the United States was upsetting the nuclear balance by developing new weapons systems.

Russia had no choice but to react to the aggressive capabilities of the United States, he said,

A doomed Russian passenger jet lurched up and down before plunging 31,000 feet after being blown apart by an 'external impact', airline bosses said today.

Travellers still strapped in their seats were sucked from the stricken Airbus A321 through a hole at the back of the jet when the tail blew off 23 minutes after leaving the Egyptian Red Sea resort of Sharm El Sheikh, it was claimed.

Meanwhile Investigators have started examining the black box of the jet that crashed in Egypt killing all 224 people on board in a bid to determine whether a bomb or technical fault was to blame.

Officials have begun downloading data from the plane's flight recorder in the hope it will reveal answers to what caused the Metrojet Airbus A321 to disintegrate at a high altitude shortly after take-off from the Egyptian resort of Sharm el-Sheikh on Saturday morning.

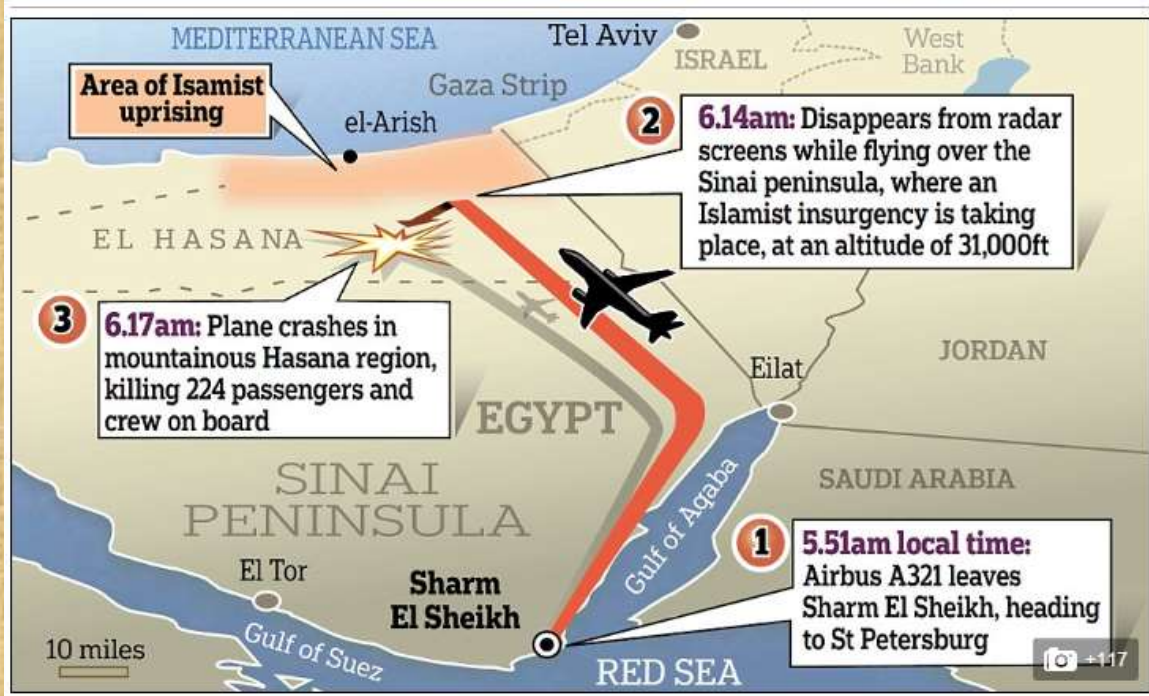

Terrorism and aviation experts believe a bomb may have been responsible for the crash, pointing to the fact there was no distress call and that the fuselage skin had peeled outwards possibly due to a 'force acting outwards from within'.

A top official at Russian airline Metrojet also blamed an 'external impact' for the disaster, insisting the jet was in 'excellent' condition and that the pilots 'totally' lost control of the aircraft.

However, officials will not confirm the exact cause of Russia's worst air disaster until the black box flight recorder is fully examined and all technical information recorded during the flight is gleaned from it.

The black box from Flight KGL 9268 was able to be salvaged from the crash scene, despite bodies and debris ending up scattered over a wide area in Sinai, and has now been returned to Egypt, where it remains at an undisclosed location.

An oddity of Canada's foreign policy of late is how gravely we viewed Russia's expanding power in distant Eastern Europe and Syria, yet took scarce note of Moscow's actions closer to our own Arctic and Asia-Pacific interests.

Even allowing for the vast distances involved, Vladimir Putin's strategic thrusts are almost on our doorstep and may well require far more serious attention from the incoming Liberal government.

For Russia is militarizing its section of the Arctic and expanding its naval operations through the already tense Asian rim of the Pacific at a time

The USS Ronald Reagan (Credit: Wikipedia)

U.S. defense officials said a Chinese attack submarine tracked and stalked the USS Ronald Reagan, one of the Navy's foremost aircraft carriers, during a recent encounter in waters near Japan.

The stalking represents the closest that one of China's Army Navy submarines has come to an American carrier in nine years, the officials said, the [Washington Free Beacon](#) reported. And according to one military analyst, the encounter only shows how much America's Navy needs more submarines with escort capabilities to protect and shield other craft, as well as funding to replace and repair attack submarines.

## Putin sends 4,000 troops to Syria as he steps up bid to WIPE OUT the evil Islamic State

THE number of Russian military forces in Syria has reportedly swelled to 4,000 as Vladimir Putin continues his bid to destroy the Islamic State.

By TOM PARFITT

00:03, Thu, Nov 5, 2015 | UPDATED: 06:22, Thu, Nov 5, 2015

Vladimir Putin has sent 4,000 troops to Syria to fight ISIS

The figure has doubled since Moscow began airstrikes against the notorious terror group at the end of September, according to US officials.

They also claimed the number of bases used by Mr Putin's men in the war-torn nation has grown.

Hundreds of ISIS jihadists are thought to have already been wiped out – along with the group's arms supplies.

belonging to the regime."

"The planes bombed three warehouses containing Scud missiles at the 155th Brigade [base] in western Qalamoun's Qutayfa area, completely destroying the above-ground [installations]," Ahmad Yabrudi, the activist, stated.

The base was reportedly one of the primary ones from where Syrian government forces had been firing Scud missiles at areas controlled by rebels combatting the regime, meaning the alleged airstrike would deal a blow to Assad's fight against insurgents.

A pro-Hezbollah news outlet also reported the air strike, an anonymous source explaining that the Israeli planes did not breach Syrian airspace but launched the strike from Lebanese territory.

The report comes just days after pro-rebel outlets claimed that Israel bombed two sites in Syria on Friday, one belonging to the regime and the other to Hezbollah, according to *Haaretz*.

November 2, 2015 3:14 pm

Israel reportedly bombed a missile base used by President Bashar al-Assad's regime in Syria near the country's border with Lebanon on Sunday, destroying multiple missile warehouses.

"Israeli planes breached Lebanese and Syrian airspace and bombed the Syrian regime's 155th Brigade [base] in the Qutayfa area, destroying a number of missile warehouses," sources told a pro-rebel news outlet, *NOW Syria* reported.

A Syrian activist also told the news outlet that Israeli planes "entered Syrian territory from Lebanon at 9:30 p.m. [Sunday] and bombed Scud missile warehouses

Russia's military intervention in Syria in support of the regime of Bashar al-Assad has made US operations in the country more complicated. Although both countries are purportedly fighting ISIS, their larger strategies are at cross-purposes in Syria, where the US advocates a political transition in which Assad eventually steps down.

With millions of Muslim migrants pouring into Europe, some experts are warning the continent faces a future of revolution, civil war or surrender to Islamic rule.

Author, WND columnist and anti-Shariah campaigner Pamela Geller thinks it is already too late. Asked if she thought it would come to civil war in Europe, Geller told WND, "Yes, I do."

She's not alone.

"If the European political establishment maintains its stranglehold on power, it seems unavoidable that Islam will continue to build a political presence that will ultimately lead to Muslim uprisings and a European reaction outside of accepted political channels," said G.M. Davis.

## Civil war erupts in Sweden as irate Swedes burn nine Muslim refugee centers to the ground

by Thomas Madison November 1, 2015 muslim invasion

SHARE ON FACEBOOK

SHARE ON TWITTER

By Thomas Madison

The Swedes have had it with the Muslim invasion currently underway in their country. Nine refugee centers have been burnt to the ground to get the message across – NO MORE MUSLIMS!

From [Jews News](#)

Refugee centers in Sweden are being burned to the ground in what appears to be a statement against the significant number of refugees the country has allowed in. The multiple arsons have all been at facilities which house or are slated to house immigrants.

One could say that someone in Sweden is mad as hell and bringing fire and brimstone to the facilities that are to be used for refugees. Seven arson fires have occurred, all of which seem to be connected with immigrant centers.

Germany now is somewhere at the edge of anarchy and sliding towards civil war, or to become a "banana republic without any government," says Hansjoerg Mueller of the Alternative for Germany party.

Bavarian official Peter Dreier called German Chancellor Angela Merkel to tell her personally that if Germany welcomes a million refugees, his town of Landshut will only take in around 1,800. Any extra will be put on buses and sent to her Chancellery in Berlin.

**READ MORE: No breakthrough at German 'refugee crisis meeting' as opposition grows**

**RT:** *He says he's going to send them to Berlin, but does he have the power?*

**Hansjoerg Mueller:** The person who wants to send them to Berlin is Mr. Dreier. He is the district head of Landshut, a town close to Munich. Usually he does not have the power, but we are not living in usual times. What we are now looking at is more and more Germany sliding towards anarchy. In this situation I think less and less is determined by law, more and more is determined by who acts. And the person who acts in fact has the power. So if he sends ... refugees to Berlin, he sends them!

## Obama Counterfeiting Millions Of Immigration Documents, Warns Sen. Cruz

7 NOVEMBER, 2015

Noted U.S. senator from Texas and potential 2016 GOP presidential contender Ted Cruz has accused the Obama Administration of ignoring the law while engaged in “counterfeiting immigration documents” under the president’s controversial executive amnesty order. In a recent interview on Fox News, Cruz was addressing Obama’s action — which he took in the weeks following the 2014 midterm elections in November — on the heels of a ruling by a federal judge in Texas ordering a temporary halt to President Obama’s executive action. U.S. District Judge Andrew Hanen, appointed to the federal bench by President George W. Bush, issued his order Feb. 16. It puts on hold Obama’s action to prevent up to 5 million people residing illegally in the country from being deported. In his interview, Cruz said Obama’s administration was ignoring the law and the judge’s order.

## The UN Plans To Implement Universal Biometric Identification For All Of Humanity By 2030

By Michael Snyder, on November 1st, 2015

Did you know that the United Nations intends to have biometric identification cards in the hands of every single man, woman and child on the entire planet by the year 2030? And did you know that a central database in Geneva, Switzerland will be collecting data from many of these cards? Previously, I have written about the 17 new "Global Goals" [that the UN launched at the end of September](#). Even after writing several articles about these new Global Goals, I still don't think that most of my readers really grasp how insidious they actually are. This new agenda truly is a template for a "New World Order", and if you dig into the sub-points for these new Global Goals you find some very alarming things.

For example, Goal 16.9 sets [the following target...](#)

## New Push For Universal ID After Thousands Of Muslim Migrants Disappear From Camps

2 NOVEMBER, 2015

Where oh where have the Muslim migrants gone? That is the question German authorities are asking themselves after some troubling reports of disappearances. According to German press reports, keeping track of all the Muhammads and Alis pouring across borders is proving ever so tricky for European countries being flooded with people on the move from the Middle East and Africa. Now, the United Nations is partnering with a private company to offer a solution – a new “universal” identification system that will comply with the United Nations’ sustainability goal of getting “legal” biometric IDs that include iris scans, photographs and fingerprints, “into the hands of everyone in the world by the year 2030.”

### Paralegal Training

# DECEPTION - Alien DNA And The New Master Race

4 NOVEMBER, 2015

( **Paul McGuire** ) A number of new scientific studies of human DNA have concluded that the popular theory of evolution is not completely true. Scientists now believe that Mankind acquired...through an extra-terrestrial source...foreign genes from microorganisms not of this Earth. This new scientific theory which is sometimes referred to as the Ancient Astronaut Theory proposes that Mankind as we know it has an ET genetic code in a statistically significant percentage of the human population. The research published in the Journal of Genome Biology focuses on "horizontal gene transfer" between "alien DNA" found in a co-habiting environment. "This is the first study to show how widely horizontal gene transfer (HGT) occurs in animals, including humans, giving rise to tens or hundreds of active 'foreign' genes," said Alastair Crisp from the University of Cambridge.

**Earn 2.6% interest on all new deposits.**

It's a good day to start saving.

[Learn more](#)

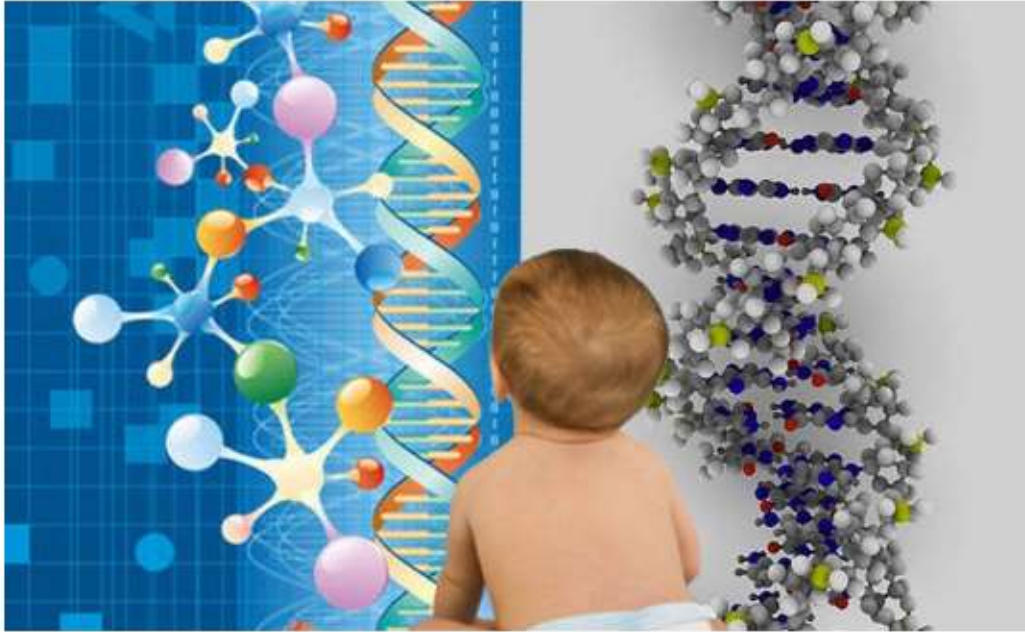

**FINANCIAL**

"Surprisingly, far from being a rare occurrence, it appears that HGT has contributed to the evolution of many, perhaps all, animals and that the process is ongoing, meaning that we may need to re-evaluate how we think about evolution." The bottom line is that an extraterrestrial genetic code may be found in human DNA, according to the research of two Kazakhstan scientists, who theorize that human DNA may have an extraterrestrial "stamp" embedded into it.

# UK Becomes First Country To Legalize Genetically Engineered 3-Parent Babies. United States Is Next

2 NOVEMBER, 2015

The United Kingdom has become the first country to legalize a controversial procedure that allows for the creation of a baby from DNA of three parents. Christian Today reports that the procedure uses DNA from two women—one the baby's actual mother—and one man—the baby's father—to create a baby outside the womb.

## Education Master Online

Earn a Canadian Master of Education in only 24 months. 100% On-line.

The reason why the DNA of a female donor is used in addition to the DNA of the actual parents is due to the fact that this can reduce genetic health conditions for the child. Researchers at Newcastle University say this procedure could help around 2,500 families a year. Although some view the new procedure as a scientific breakthrough, others are less than thrilled, and are

At the upcoming United Nations Climate Summit in Paris, participating nations have prepared a treaty that would create an "International Tribunal of Climate Justice" giving Third World countries the power to haul the U.S. into a global court with enforcement powers.

Congress would be bypassed – left out in the cold – by this climate deal, critics say.

Policies once left to sovereign nations could be turned over to a U.N. body if the U.S. and its allies approve the proposed deal in Paris during the summit scheduled for Nov. 30-Dec. 11.

Vatican exorcists have condemned the celebration of **Halloween** saying the festival is the equivalent 'of singing hosannas to the devil'.

Rome's chief exorcist, Gabriel Amorth, has warned of a danger to young people at Halloween, because of the increase in occult activity, which fuels insomnia, mental illness, depression and suicidal thoughts in children, he claims.

He said: 'Halloween is really a spiritual gathering presented as a form of game.'

'Europe is pulling away from God and Jesus and worshipping Satan. So should we really be surprised that the world seems to be going to wrack and ruin.'

# Ancient fortress discovery may solve one of Jerusalem's great archaeological mysteries

By **James Rogers** • Published November 03, 2015

Remains of the citadel and tower (Photographic credit: Assaf Peretz, courtesy of the Israel Antiquities Authority).

Archaeologists in Israel believe they have found the remains of an ancient Greek fortification used to control the Temple in Jerusalem more than 2,000 years ago.

The citadel was recently uncovered during archaeological excavations in a parking lot at the City of David, which is in the Jerusalem Walls National Park.

## US National Debt Under Obama Doubles To \$20 Trillion Dollars

1 NOVEMBER, 2015

When President Obama signs into law the new two-year budget deal Monday, his action will bring into sharper focus a part of his legacy that he doesn't like to talk about: He is the \$20 trillion man.

Mr. Obama's spending agreement with Congress will suspend the nation's debt limit and allow the Treasury to borrow another \$1.5 trillion or so by the end of his presidency in 2017. Added to the current total national debt of more than \$18.15 trillion, the red ink will likely be crowding the \$20 trillion mark right around the time Mr. Obama leaves the White House. **When Mr. Obama took over in January 2009, the total national debt stood at \$10.6 trillion.** That means the debt will have very nearly doubled during his eight years in office, and there is much more debt ahead with the abandonment of "sequestration" spending caps enacted in 2011.

## Forget China: This Extremely "Developed" Country Just Suffered Its Biggest Money Outflow Ever

While understandably all eyes have been fixed on every monthly capital outflow update from China (even the ones that the Politburo is clearly massaging), few have noticed that one of the biggest *total* outflows currently in the global *developed* economy is taking place right in America's own back yard.

According to BofA's Kamal Sharma, Canada's *basic balance* - a combination of the capital and the current account: a measure of national accounts that spans everything from trade to financial-market flows - swung from a surplus of 4.2% of GDP to a **deficit of 7.9% in the 12 months ending in June**. That's the fastest one-year deterioration among 10 major developed nations.

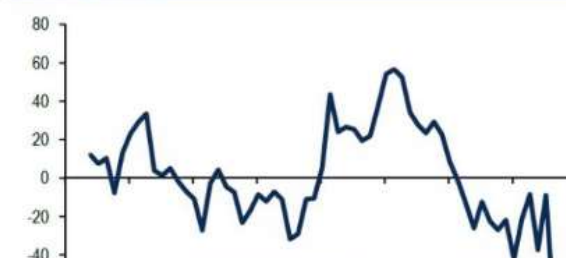

Chart 1: Change in the Basic Balance

Source: BofA Merrill Lynch Global Research, Haver

Citing Sharma's data Bloomberg writes that "money is flooding out of Canada at the fastest pace in the developed world as the nation's decade-long oil boom comes to an end and little else looks ready to take the industry's place as an economic driver." In fact, based on the chart below, the outflow is the fastest on record.

By Anjali Athavaley and Subrat Patnaik

(Reuters) - Kraft Heinz Co , the maker of Jell-O, Oscar Mayer meats and other brands, said on Wednesday it will close seven factories and lay off about 2,600 employees in North America as it seeks to cut costs.

The move to trim 5.9 percent of its workforce comes less than three months after the company, created when H.J. Heinz Co merged with Kraft Foods Group, said it would eliminate 2,500 jobs in the United States and Canada.

## Former Reagan Administration Official Warns That Financial Disaster Is Dead Ahead

By Michael Snyder, on November 4th, 2015

Why won't the American people listen to the warnings? David Stockman was a member of the U.S. House of Representatives from 1977 to 1981, and he served as the Director of the Office of Management and Budget under President Ronald Reagan from 1981 to 1985. These days, he is running a website called "[Contra Corner](#)" which I highly recommend that you check out. Stockman believes that a global "[debt super-cycle](#)" that has been building for decades is now bursting, and he is convinced that the consequences for the U.S. and for the rest of the planet will be absolutely catastrophic. His findings are very consistent with what I have been writing about on *The Economic Collapse Blog*, and if Stockman is correct the times ahead of us are going to be exceedingly painful.

But right now, most people don't seem to be in the mood to listen to these types of warnings. Even though there is a mountain of evidence that the global economy [has already plunged into recession](#), U.S. stocks had a great month in October, and so most Americans seem to think that the crisis has passed.

Of course the truth is that the stock market is not an accurate barometer of the economy and it never has been. Back in 2008, almost everything else started to go downhill before stocks did, and the same thing is happening once again. In a recent article, Stockman explained that stocks are surging to absolutely ridiculous levels even though corporate earnings [are actually way down](#)...

## Bank Of Ireland Bans “Small” Cash Withdrawals At Branches

5 NOVEMBER, 2015

As central planners the world over grapple with the effective “lower bound” that’s imposed by the existence of physical banknotes, there’s been no shortage of calls for a ban on cash. Put simply, if you eliminate physical currency, you also eliminate the idea of a floor for depo rates. After all, if people can’t withdraw paper money and stash it under the mattress, then interest rates can be as negative as the government wants them to be in order to “encourage” consumption. If, for instance, you’re being charged 10% for saving your money, then by God you will probably spend that money rather than see the bank collect a double-digit fee just for holding on to your paycheck.

## Int'l Day Of Prayer: Persecuted Christians Pray For Their Attackers

2 NOVEMBER, 2015

Christians from around the world shared their stories of persecution during the International Day of Prayer on Sunday, offering prayers for both victims and perpetrators of terrorism. Persecution watchdog Open Doors featured several Christian witnesses on its IDOP live webcast and fielded questions from social media regarding the Christian participants.

Open Doors President David Curry said Christian persecution around the world has increased this year, with international crises ranging from the continued conquests of the Islamic State terror group in Iraq and Syria; to Boko Haram's rampages in Nigeria; the oppression of religious minorities in North Korea, and a host of other cases. One Christian woman, an educator from Kenya identified as Gladys, spoke of the horrific attacks at a college in Garissa back in April,

## Atheist: Okay to Disparage Christians, But Islam Off-Limits Because of 'Fear'

By Penny Starr | October 30, 2015 | 3:38 PM EDT

**7.8K**  
Shares

(CNSNews.com) – An atheist professor said Tuesday that it's acceptable to criticize Christians but not Muslims, because he does not "fear" retaliation from Christians.

"I know what keeps me from critiquing Islam on my blog is just fear," Phil Zuckerman said at a discussion on religious liberty at Georgetown University in Washington, D.C. "I've got three kids.

"So I know I can say anything about Christianity or Mormonism, and I'm not living in fear, which is a testament to Christianity and Mormonism, and that's wonderful. Thank you," said Zuckerman, who is a self-described atheist and professor of secular studies at Pitzer College in Claremont, Calif.

# Battle Continues Over Christian Business' Right Not To Print T-Shirts With 'Gay Pride' Messages

1 NOVEMBER, 2015

A court battle continues over the right of a Christian business not to print t-shirts for a “gay pride” event in conflict with its biblical beliefs after the Kentucky Human Rights Commission recently filed an appeal of a ruling in favor of the company. As previously reported, the Gay and Lesbian Services Organization of Lexington (GLSO) had wanted the Kentucky-based Hand On Originals—a company that identifies as “Christian outfitters” on the home page of its website—to print t-shirts for the 2012 Lexington Gay Pride Festival. When manager Blaine Adamson declined the order due to the company’s biblical convictions, GLSO filed a complaint with the Lexington-Fayette Urban County Government Human Rights Commission.

“I want the truth to come out—it’s not that we have a sign on the front door that says, ‘No Gays Allowed,’” owner Blaine Adamson said following the filing of the complaint. “We’ll work with anybody. But if there’s a specific message that conflicts with my convictions, then I can’t promote that.” HRC examiner Greg Munson ruled in October 2014 that Hands On Originals violated the law by not printing the shirts for the event. The company was then ordered to

by PAUL JOSEPH WATSON | NOVEMBER 2, 2015

Primary schools and kindergartens in Germany are abolishing a Christian celebration and changing it into a generic "festival of lights" so as not to offend the hundreds of thousands of Muslim migrants pouring into the country.

According to a translated report out of the [Epoch Times](#), schools are re-naming the Christian-themed St. Martin's Day, an annual celebration that takes place in numerous European countries on November 11.

Several daycare centers in Düsseldorf have abolished the festival altogether out of "consideration for the refugees," a decision that has prompted fierce criticism from head teachers at other schools in the region.

What should have been a celebratory moment in the end zone at an Arizona high school football game has turned into controversy. Running back Pedro Banda, a senior at Dysart High School in El Mirage, Ariz., said he was ejected from the Oct. 30 game because of unsportsmanlike conduct.

Banda told ABC News Phoenix Affiliate KNXV that after scoring the touchdown that put his team into the playoffs for the first time in more than two decades, "I put my hand up to my face mask and I pointed to the sky and I looked up for about four seconds." The referee threw a flag and ejected Banda from the game. Banda is now ineligible to play in the first

4 NOVEMBER, 2015

Atheists are trying to eliminate the free speech of Christian athletes and coaches. 4 WINDS, a sports ministry that stands up for Christian athletes and coaches, believes university and school sports are a target for atheists, as they use the popularity of sports to get their message out as campus leaders at the targeted schools are silent. "The secular school system is a puppet of atheists even though they claim to be neutral," says 4 WINDS President Steve McConkey. "Christian free speech is being attacked as most educators are trained at universities that have put God on the shelf and have accepted different forms of Marxism without God."

## Christian Students Increasingly Coming Under Persecution

November 05, 2015

By Tom Olago

[Share this article](#)

The faith of Christian students seems to be increasingly coming under siege from two major fronts: a hostile public school system, as well as from many teachers and fellow students. Not to mention a government and legal system that, in many ways, tends to engage in what has been described as the "licensed discrimination of Christians".

Breitbart.com recently reported such an incident at West Memorial Junior High in Texas. 12-year old Jordan Wooley, a 7th grade student blew the whistle on an activity that questioned the existence of God. One Monday, a classroom assignment asked students to identify nine statements as opinion, factual claim, or commonplace assertion. One statement read: "There is a God." Wooley claimed the teacher said that anyone who put "fact or opinion" was wrong and that "God is only a myth."

She added that her 8th period reading teacher insisted God's existence "can't be proven," and noted that a classmate submitted her handout with God listed as a fact. "My teacher crossed the answer out several times, telling her it was completely wrong."

Wooley was testifying about the incident to members of the Katy Independent School District (ISD) board. The board apologized to Wooley and affirmed that corrective action would be taken with regards to the incident. The first step that was taken by the board was to send an apology letter to West Memorial Junior High School parents, guardians and staff. At least one other parent was reported to have privately spoken out in strong disapproval of the incident.

In the letter, the school district acknowledged that the assignment was teacher-developed and not curriculum-based, that the teacher was reprimanded and the activity scrapped. Katy ISD assured its "school community that the religious beliefs of all students and staff are welcomed and valued at West Memorial Junior High."

The district also termed the question about God's existence "unnecessary for achieving the instructional standard" for the assignment. However, it was further described within the apology letter as "intended as an exercise to encourage critical thinking skills and dialogue...and was not intended to question or challenge any student's religious beliefs as reported by some media outlets." The district asserted it was an ungraded class activity.

The Texas Education Code Chapter 25 states in part that a school district and its employees may not sponsor prayer or show preference for one religion or non-religion. Wooley's teacher was apparently in direct breach of this section of the code when she pressed for an atheistic viewpoint to the statement about the existence of God.

Wooley, in her statement to the board added: "Another child in my class asked the teacher if we could try to put what we believe in the paper, and she said you can if you want to get the problem wrong ... [but] you'll fail the paper if you do."

بل نؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَاَنْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

افرحوا لان عريسنا قد اقترب مجيؤه. وانتبهوا الشيطان يريد أن نفقد سلامنا ولا ننال أكاليل.

وأيضا استعدوا فقد تسلموا وديعتكم في أي وقت فهناك 150 ألف شخص يموتوا في اليوم الواحد

انت لا تعرف متى ستكون منهم

المسيح اقترب فاصنعوا ثمار تليق بالتوبة واستعدوا لاستقبال العريس.

والمجد لله دائما
