

تعليق على بعض الاحداث العالمية

والعلامات حتى 17 نوفمبر 2015

Holy_bible_1

اكرر اننا لا نحدد مواعيد بل فقط نشجع بعضنا بعضا بقرب مجيء المسيح

وأیضا أوضح أنه يوجد نبوات لم نراها بعد مثل ابن الهلاك وهرمجدون

ولكن ایضا علامات كثيرة من التي قال عنها الكتاب انها في الزمان الاخير بدأت تحدث بوضوح

ويجب أن ننتبه اليها. ونذكر بعضنا باننا نحتاج ان نستعد. والاستعداد ليس فقط قبل مجيء

المسيح بل ایضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر

هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه. بمعنى نحتاج من الان ان نستعد بقوة بأيمان

عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيقة اقتربت

جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت

سيكون صعب جدا بل أستطيع ان أقول من مثل العذارى انه لن يكون هناك زيت الا ما جمعه

سابقا. أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشتر اشاعات ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لانه كان مستعد ومنتظر مجيء المسيح ولم ياتي المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَأَن تُوْمِنُونَ.

ثالثا لننتبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَاَنْتَصِبُوا وَاَرْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ».

علامات في السماء

A mysterious piece of space debris called WT1190F is expected to enter Earth's atmosphere near Sri Lanka Friday.

The piece of space debris is fittingly colliding with Earth on the unluckiest day on the calendar – Friday the 13th.

The object is believed to be a discarded rocket body and will likely enter Earth's atmosphere from above the Indian Ocean around 11:49 local time or 1:19 a.m. E.T., according to the European Space Agency. In preparation for the object's entry, there is a no-fly zone order and no fishing will be allowed in the "Southern sea area" on Nov.

Unprecedented: Second freak tropical cyclone strikes Yemen in the same week – cyclone Megh kills 13 on Socotra Island

Posted on [November 11, 2015](#)

November 2015 – GULF OF ADEN – Winds and rain from the second rare cyclone to hit Yemen in two weeks have killed 13 people, including three children, on Yemen's Socotra island, the fisheries minister said on Tuesday. Cyclone Megh slammed into Socotra on Sunday with category four hurricane-force winds, and arrived on the Yemeni mainland's southern shore near the port city of Aden on Tuesday. Fisheries Minister Fahd Kafayen said that three fishermen were also missing on the island, according to his Facebook page. The storm injured an estimated 60 people and damaged houses, the main power station and hospital on Socotra, the U.N. humanitarian office OCHA said.

It is an area of the Arabian Sea where cyclones were virtually unheard of before this month, but two such storms have battered Socotra within the past two weeks. Last week, Cyclone Chapala killed eight people on the Yemeni mainland. The lack of experience with cyclones means that Yemen, which has been ravaged by war this year, is ill-equipped to deal with floods and high winds. The latest storm weakened significantly after reaching mainland Yemen's mountainous terrain on Tuesday, about 70 km (40 miles) east of the port of Aden, a spokeswoman for the World Meteorological Organization (WMO) said.

Hold on! Coasts are battered by high winds and heavy rains as massive storm Abigail due to hit Britain tomorrow night

- Strong winds may reach 70mph and could cause mayhem this weekend as gusts and rain batter Britain's coasts
- Strong enough to be Britain's first ever storm with a human name and forecasters have already dubbed it Abigail
- Due to hit Britain tomorrow night and could send waves up to 20 foot high crashing into the Scottish coast

By JAMES DUNN and TOM WYKE FOR MAILONLINE

PUBLISHED: 21:39 GMT, 6 November 2015 | UPDATED: 17:06 GMT, 7 November 2015

Britain's first named storm is set to batter Britain's coastlines with winds of up to 70mph and 20ft waves this weekend.

Forecasters have dubbed the storm Abigail as winds sweep in from the Atlantic, due to hit Britain tomorrow evening and continue blowing across the country well into next week.

The storm will bring with it heavy downpours, near-hurricane winds and the risk of thunder that look set to put a dampener on the thousands of celebrations planned for the weekend.

El Nino is about to make food insecurity even worse

Simeon Tegel

Aug 16, 2012 @ 4:00 AM

LIMA, Peru — With global food prices spiking thanks to the US drought, El Nino was the last thing the world needed.

But now meteorologists are warning that the phenomenon, which sees unusually warm waters in the Pacific cause freak weather from California to Australia, is under way.

In the last 10 days, the national weather agencies of the US, Japan, Australia, India and Peru, among others, have confirmed the first effects of El Nino in the eastern Pacific.

In the past, El Nino has caused massive disruption to agriculture around the Pacific Rim.

In a [statement](#), the Climate Prediction Center, a US agency of the National Oceanic Atmospheric Administration, said it now expected the early signs to develop into a full-blown El Nino during August or

7.0 magnitude earthquake strikes off the southwest coast of Japan

Posted on [November 14, 2015](#)

November 2015 – JAPAN – A magnitude **7.0** earthquake struck Saturday off the coast of southwest Japan, triggering a small tsunami. There were no immediate reports of damage or injuries. The earthquake struck at 5:51 a.m. (20:51 GMT) at a depth of 10 kilometers (6 miles) about 190 kilometers southwest of Kagoshima city, the Japan Meteorological Agency said.

A 30-centimeter (one-foot) tsunami was recorded at 6:45 a.m. on Nakanoshima, a small island to the south of Kyushu, Japan's southernmost main island. A tsunami advisory for Kagoshima prefecture and a string of small islands was lifted at 7:20 a.m. –AD

6.9-magnitude quake hits off Chile; no damage reported

AP 9 hours ago

SANTIAGO, Chile (AP) — A strong earthquake has struck in the Pacific off central Chile, but authorities say there are no reports of injuries or serious damage.

The U.S. Geological Survey says the quake had a preliminary magnitude of 6.9 Tuesday night. It

Two Powerful Earthquakes Strikes Off La Serena In Northern Chile

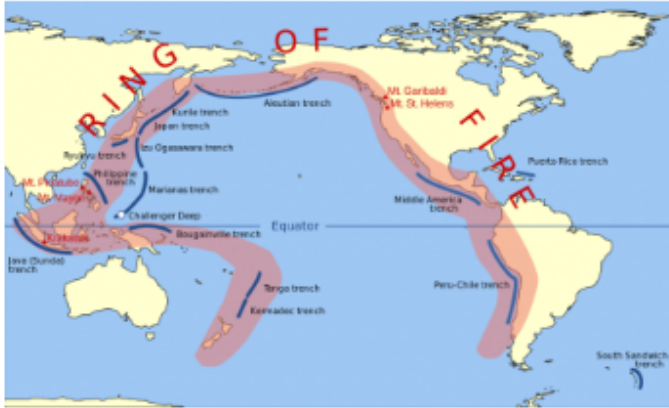

11 NOVEMBER, 2015

Two powerful earthquakes with preliminary magnitudes of 6.9 have struck off the coast of northern Chile, triggering a small tsunami, seismologists say. The first earthquake, which struck at 10:54 p.m. local time Tuesday, was centered in the ocean about 97 kilometers (60 miles) west of La Higuera, or 93 kilometers (58 miles) northwest of Coquimbo, according to the United States Geological Survey (USGS).

Violent Shaking Along The Ring Of Fire Continues A Progression Of Disasters That Began In September

8 NOVEMBER, 2015

(**Michael Snyder**) Have you noticed that seismic activity along the Ring of Fire appears to be dramatically increasing? According to Volcano Discovery, 39 volcanoes around the world have recently erupted, and 32 of them are associated with the Ring of Fire. This includes Mt. Popocatepetl which sits only about 50 miles away from Mexico City's 18 million inhabitants. If you are not familiar with the Ring of Fire, it is an area roughly shaped like a horseshoe that runs along the outer perimeter of the Pacific Ocean. Approximately 90 percent of all earthquakes and approximately 75 percent of all volcanic eruptions occur along the Ring of Fire.

Just within the last 24 hours, we have witnessed a 4.4, a 5.4 and a 5.7 earthquake in Alaska, a 6.8 earthquake in Chile and 20 earthquakes in Indonesia of at least magnitude 4.3. And as you will see below, this violent shaking along the Ring of Fire seems to continue a progression of major disasters that began back during the month of September. For whatever reason, our planet suddenly seems to be waking up. Unfortunately, the west coast of the United States is one of the areas where this is being felt the most. The little city of San Ramon, California is about 45 miles east of San Francisco, and over the past several weeks it has experienced a record-breaking 583

NEW DELHI: The sea around the Andaman and Nicobar archipelago has witnessed 12 earthquakes in 24 hours, with almost all measuring 5 and more on the Richter scale, but no tsunami alert has been issued.

The region yesterday saw nine quakes, of these, one was recorded in North Sumatra region in [Indonesia](#) while others have been recorded in and around the Andaman and Nicobar islands.

According to the [National Seismological Division](#), a body under the Ministry of Earth Science that tracks seismic activities, three jolts were recorded today which measured 4.9, 5.1 and 4.9 respectively on the Richter scale.

All earthquakes were recorded at a depth of 10-60 kms.

The area around the Andaman and Nicobar [islands](#) and the Indonesian archipelago is known to be a high seismic zone and often records tremors.

بركان كوليمبا في المكسيك يحدث به انفجار ثنائي مرة أخرى

Mexico: Colima volcano has another double eruption

Posted on [November 12, 2015](#)

November 2015 – MEXICO – Less than a week after a pair of eruptions, Mexico's Colima or Fire volcano pulled off the feat again on Tuesday (10 November) morning, as its period of activity continues. According to officials, the first eruption occurred at 7.03am local time, sending a column of ash and smoke some 2,500m into the sky. National Civil Protection coordinator Luis Felipe Puente said on his Twitter account that ash and smoke rose 2,000m above the crater of the volcano during the second explosion, which occurred at 9.02am local time.

Located in the south-western Mexican state of Colima, the Fire Volcano has been exhibiting continuous activity since 9 July. Over the past months, nearby villages have been blanketed with thick coats of ash, prompting evacuations. Officially known as the Colima Volcano, it was previously active in January and February and is part of the Pacific's Ring of Fire. Mexico contains over 3,000 volcanoes but only 14 are considered active. – **IB TIMES**

Earthquakes that occurred before the May 1980 eruption of Mount. St. Helens may have been caused by magma being injected from one chamber to another. Researchers said more tremors were observed in the area, which could hint of potential eruption.

(Photo : Davgood Kirshot | Pixabay)

The eruption of Mount St. Helens on May 18, 1980 has claimed 57 lives and caused serious damage to homes and infrastructure. Now, scientists have revealed that the volcano could possibly erupt again in the future based on findings of a pioneering \$3 million study of the volcano's plumbing system.

Geologists who studied the volcano have found a second enormous chamber lying between seven to 23 miles beneath the surface. This massive pool of molten rock was found connected to a smaller chamber lying directly beneath the volcano.

How these two chambers are connected is helping scientists understand the sequence of events prior to the 1980 eruption, whose

Massive Sinkhole Swallows A Dozen Vehicles, Stretches 400 Feet

8 NOVEMBER, 2015

A weekend cave-in of a restaurant parking lot in Mississippi swallowed 12 cars and now officials are to begin work Monday seeking to determine the cause of the collapse, authorities said. Meridian Public Safety Director Buck Roberts told The Meridian Star that the collapse on Saturday night was not the result of a sinkhole, which is generally caused when an underground water aquifer dries and leaves a void in the ground. "You can call it what you want, a sinkhole or whatever, but it is not a sinkhole," Roberts said.

Hundreds of dead fish wash ashore in Rameswaram

J Arockiaraj, TNN | Nov 9, 2015, 04:06PM IST

f Like Share 18 Tweet 3 G+ 2 in Share

RAMESWARAM: It was a shocking sight for many pilgrims who visited the Agnitheertham -- where devotees take a dip before entering the Ramanathaswamy Temple in Rameswaram - as hundreds of dead fish washed ashore on Monday morning.

The fish of all varieties, mostly young ones, were found dead at a one-km stretch, according to residents.

The sea around Rameswaram, which is part of the Gulf of Mannar biosphere, is rich in marine life including marine mammals like dugongs, dolphins and endangered turtles.

EnergyEastPipeline.com
Minimizing Environmental Impacts While Meeting Energy Demands.
energyeastpipeline.com

Ads by Google

Destructive fishing methods carried out by fishermen and sewage let out to the sea from several lodges in Rameswaram threaten the marine ecology of the region.

Municipal chairman A Arjunan said, "It could be either a natural phenomenon or that some fishermen might have abandoned their catch," he said. Trawl netting, especially bottom trawling, carried out by local fishermen destroyed fish wealth, he added.

Fisheries officials at Rameswaram ruled out any chemical pollution and oil spilling.

The current prolonged dry season has killed thousands of fish in reservoirs in Central Java and clove and nutmeg trees in North Maluku.

Fish farmers at the Gajah Mungkur reservoir in Wonogiri regency and the Kedung Ombo reservoir in Sragen regency claimed to have suffered hundreds of million in losses as thousands of nila fish (a tilapia species) died in their karamba (netted frames floated in the reservoirs) due to the long dry season.

"The karamba nets have reached the bottom of the reservoirs. They should normally be floating. The increasing temperature has caused the death of the fish," said Daryanto, one of the farmers at the Gajah Mungkur reservoir, on Friday.

The 47-year-old said the temperature was unusually hot, with no rain having fallen since the beginning of this month.

Extreme Radiation On California Beach Leads Nuclear Inspectors To Abandon Duties; Radioactive Waste Threatens Locals, Environment

11 NOVEMBER, 2015

Documents released as part of secret negotiations over the future of the San Onofre Nuclear Generating Stations near San Diego reveal that the now-shuttered plant was lax with security, exposing workers to dangerous levels of radioactivity from leaks and improperly disposing of nuclear waste. In January 2012, one of the two generators at San Onofre sprang a small leak, and the plant was shuttered.

Millions of starfish along Pacific coast are dying due to a mysterious disease that causes the sea stars to devour themselves

- Scientists are searching for what has triggered millions of starfish to 'commit suicide' along North America's Pacific coast for the past two years
- Starfish, also called sea stars, are essentially devouring themselves along the coastline thanks to a virus
- It causes white lesions to appear before the animal's body sags, ruptures and spills out its internal organs

Scientists are shocked by the epidemic of colorful starfish that are committing suicide along North America's Pacific coast.

For the last two years the stunning phenomenon that's been called 'the Wasting,' had Marine biologists intent on solving the mystery as to why millions of starfish were suddenly dying.

According to **Yahoo News**, scientists recently discovered that starfish, also known as sea stars, are essentially devouring themselves along the coastline from Mexico to Alaska thanks to a virus.

The virus, Sea Star Associated Densovirus, or SSaDV, that has been identified within many of the species that are dying has been around for nearly 70 years.

Brazil tests man for Ebola, puts others under obs

BRASILIA

A Brazilian man who visited Guinea is being tested for Ebola and authorities have preventively isolated a public health unit where he first sought medical attention, Brazil's Health Minister Marcelo Castro said on Wednesday.

The 46-year-old man arrived in Brazil on Nov. 6 and developed high fever with muscle pains and headaches two days later, he said. Officials declined to provide the man's name.

Guinea is one of three impoverished West African countries, along with Liberia and Sierra Leone, that have suffered with the most deadly outbreak of the Ebola virus in recent years.

The man sought medical help at an emergency room in Belo Horizonte, the capital of Brazil's southeastern state of Minas Gerais, the ministry said. That unit is no longer taking patients, the minister said at a new conference.

The man was then quarantined and will be flown in a military plane on Wednesday to Rio de Janeiro, where the government has set up a lab to test blood samples for Ebola according to international security protocols.

Medical workers and other patients who had contact with the man are being monitored by health officials, according to the ministry's statement.

Castro said Brazil immediately informed international health authorities of the suspected case.

RUSSIA TO DEPLOY NEW WEAPONS TO COUNTER US MISSILE SHIELD

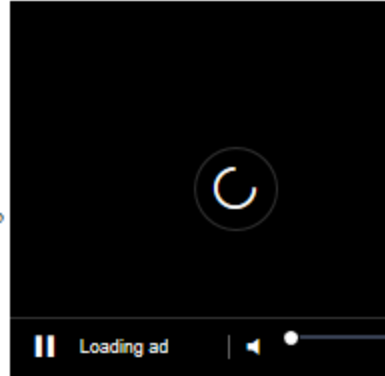

BY VLADIMIR ISACHENKOV
ASSOCIATED PRESS

MOSCOW (AP) -- Russia will counter NATO's U.S.-led missile defense program by deploying new strike weapons capable of piercing the shield, President Vladimir Putin said Tuesday.

Putin told defense officials that by developing defenses against ballistic missiles Washington aims to "neutralize" Russia's strategic nuclear deterrent and gain a "decisive military superiority."

He said that Moscow will respond by developing "strike systems capable of penetrating any missile defenses."

"Over the past three years, companies of the military-industrial complex have created and successfully tested a number of prospective weapons systems that are capable of performing combat missions in a layered missile defense system. Such systems have already begun to enter the military this year. And now we are talking about development of new types

Russian TV “Accidentally” Broadcasts Plans For A Massive Nuclear Torpedo

12 NOVEMBER, 2015

Two Russian state-run TV stations aired an image of plans for a long-range nuclear torpedo while showing a meeting between president Vladimir Putin and military generals in Sochi. According to Putin's spokesman, the image, containing “secret data,” should not have appeared in the media, and TV stations are deleting the footage from their websites. The document, translated by the BBC, says the “oceanic multi-purpose Status-6 system” is made to “destroy important economic installations of the enemy in coastal areas and cause guaranteed devastating damage to the country's territory by creating wide areas of radioactive contamination, rendering them unusable for military, economic or other activity for a long time.”

USS Kentucky (SSBN 737) transits the Hood Canal during its return to Naval Base Kitsap – Bangor, Wash., on April 16, 2015. The ship completed a weeklong sea trial period after emerging from an overhaul period at Puget Sound Naval Shipyard. (U.S. Navy photo/Kenneth G. Takada)

The U.S. Navy's USS Kentucky (SSBN-737), an Ohio-class ballistic missile submarine, launched an unarmed Trident missile as part of a test over the weekend in the Pacific Ocean.

The Pentagon released a statement late Saturday confirming the scheduled test flight of the Trident II (D5) missile in the Pacific Test Range off the coast of southern California.

China has conducted a test of an [advanced](#) new missile that could knock out US [satellites](#) and wreak havoc to the American defense industry, indicating Beijing is gaining the upper hand in [space warfare](#).

Two defense officials familiar with reports of the test revealed to [Washington Free Beacon](#) on Monday that the test of a Dong Neng-3 exoatmospheric vehicle took place on October 30, and was conducted from the Korla Missile Test Complex in western China.

While Chinese press claimed the test was of a missile defense interceptor, the officials revealed the missile is a direct-ascent type meant to take out satellites.

US State Department and Pentagon officials declined to comment on the test to the paper.

Chinese media site [Guancha.com](#) reported on November 1 regarding the unusual contrails near the city of Korla in Xinjiang province from the test, stating that they seemed to be signs of "a midcourse anti-missile test."

White House Warned Pentagon Not To Provoke China

11 NOVEMBER, 2015

At last weekend's Reagan National Defense Forum, top Pentagon officials warned about the coming great power battles with Russia and China. But the U.S. approach to both countries shows that other parts of the administration view those relationships in a very different way. Before Defense Secretary Ashton Carter's keynote speech at the Reagan Presidential Library in California, his staff sent out the message that Carter would be making significant remarks about Russia and China, following his recent trip to Asia.

"We do not seek a cold, let alone a hot, war with Russia," Carter said. "We do not seek to make Russia an enemy. But make no mistake; the United States will defend our interests, our allies, the principled international order, and the positive future it affords us all." Carter criticized Russian occupation of territory in Ukraine and Georgia, and he castigated Russia for what he called a destructive military intervention in Syria. He said that the Pentagon was doing a range of things

Russian S-400 'Growler' anti-missile systems

Reuters

Russia has revealed in photographs that it has deployed a highly advanced anti-missile system in western Syria, that is capable of downing planes taking off in Tel Aviv.

The S-400 anti-missile system, known to NATO as the SA-21 "Growler," was shown to be stationed in the Latakia Airbase on the Syrian coast of the Mediterranean Sea in photographs released by the Russian military, reports the *Daily Mail* on Thursday.

In the past there have been Arab media reports of Israeli airstrikes in Latakia against advanced weapons shipments headed for the Iranian terror proxy Hezbollah in Lebanon. Those operations would now be greatly threatened by the Russian deployment.

Hezbollah terrorist with missile

Reuters

An updated Israeli security assessment has placed the missile arsenal of Hezbollah, the Iranian Shi'ite terror proxy in Lebanon, as much higher than the previously thought 100,000 rockets - which was already roughly ten times more than those in Hamas's possession.

According to the new figures, Hezbollah has no fewer than 150,000 rockets aimed at Israel, reports [Walla](#) on Thursday.

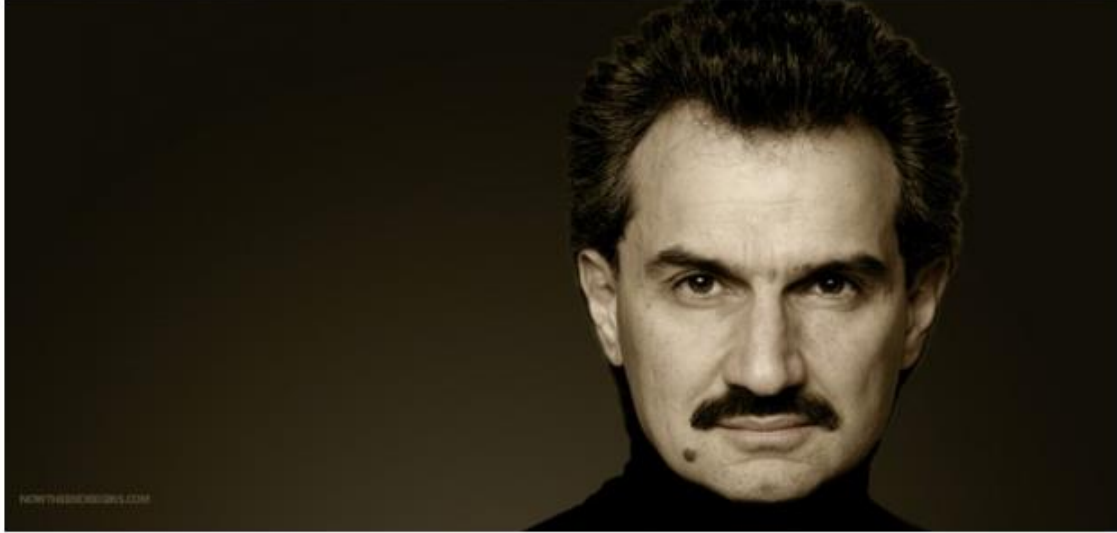

A majority of the missiles are short-range, but the arsenal includes a large number of the long-range variety as well, and many Iranian rockets from Hezbollah's [backers](#) in Tehran.

It appears that Hezbollah is continuing to obtain ground-to-air rockets of the SA-17 and SA-22 type, as well as Yakhont (P-800 Oniks) supersonic [cruise missiles](#), according to the assessment.

ANTI-MUSLIM PROTESTS BREAK OUT ACROSS FRANCE AS TENSIONS REACH

Paris Terrorist Was A Syrian Refugee Migrant Who Crossed "Open Borders"

14 NOVEMBER, 2015

It has now been confirmed that at least one of the Paris terrorists responsible for last night's attacks had crossed into Europe as a "Syrian refugee." He registered as a refugee on Leros island in Greece, according to Yannis Koutsomitis, who quotes Greece's Ministry of Public Order and Citizen Protection (see Tweet, below). "A Greek government official revealed the man, who died in the siege on the French capital, had passed through the southern European country last month," reports Express.co.uk.

ISIS Claims Responsibility, Calling Paris Attacks 'First of the Storm'

By RUKMINI CALLIMACHI NOV. 14, 2015

SINONE, Iraq — The Islamic State claimed responsibility on Saturday for the catastrophic attacks in the French capital, calling them “the first of the storm” and mocking France as a “capital of prostitution and obscenity,” according to statements released in multiple languages on one of the terror group’s encrypted messaging accounts.

The remarks came in a communiqué published in Arabic, English and French on the Islamic State’s account on Telegram, a messaging platform, and then distributed via its supporters on Twitter, according to a transcript provided by the [SITE Intelligence Group](#), which tracks jihadist propaganda.

An earlier statement was released but was deemed unlikely to be authentic because of anomalies in the language, as well as an error in a date provided, according to experts on jihadist propaganda.

Hacker group **Anonymous** have declared war against ISIS after the attacks in Paris on Friday night.

Posting a video on YouTube, the group said it would use its knowledge to "unite humanity" and warned the terrorists to "expect us".

Behind their signature mask, a spokesperson speaking in French said: "Anonymous from all over the world will hunt you down."

"You should know that we will find you and we will not let you go."

"We will launch the biggest operation ever against you."

President Obama responds to the Nov. 13, 2015, terror attacks in Paris, France (Photo: White House)

All the hallmarks of Islamic terror attacks in Paris, France, on Friday weren't enough to convince President Obama it would be prudent to use the word "Islam."

Obama briefly addressed the nation on Friday after a string of coordinated attacks prompted French President Francois Hollande to declare a state of emergency and shut all borders. Authorities confirmed eight terrorists dead by early Saturday morning.

The Obama administration is moving to increase and accelerate the number of Syrian refugees who might be admitted into the United States by opening new screening outposts in Iraq and Lebanon, administration officials told Reuters on Friday.

The move comes after President Barack Obama pledged in September to admit an additional 10,000 Syrian refugees in 2016, torn by four years of civil war and disorder.

Jindal demands answers about Syrian refugees arriving to Louisiana after Paris attacks

In the wake of the recent terrorist attacks by an IS (Islamic State) in Paris, Louisiana Governor Bobby Jindal released a letter addressed to President Obama in regards to Syrian refugees seeking asylum in Louisiana.

The letter was also copied to Sylvia Burwell, Secretary, Department of Health and Human Services, Jeh Johnson, Secretary, Department of Homeland Security and James Comey, Director, Federal Bureau of Investigations.

The letter is as follows:

November 14, 2015

The Honorable Barack Obama
The White House
1600 Pennsylvania Avenue NW
Washington, D.C. 20500

Dear President Obama,

In the wake of another round of appalling terrorist attacks, I write to express great sadness at the events in Paris, as well as my grave concern about the unreported diffusion of Syrian refugees in the United States.

Last week, the city of New Orleans began receiving its first wave of Syrian refugees. As with former immigration crises and federal relocation policy, Louisiana has been kept in the dark about those seeking refuge in the state. It is irresponsible and severely disconcerting to place

Obama approves of EU labeling of Jewish products

Obama administration says labeling 'not a boycott,' because 'settlements aren't part of Israel,' and adds: 'we label too.'

By Ari Yashar

President Barack Obama

Reuters

US President Barack Obama's administration on Thursday voiced its approval of the discriminatory EU decision [the day](#) before to [label Jewish goods](#) from Judea, Samaria, eastern Jerusalem and the Golan Heights.

The administration said the move is only a "technical guideline," and is not a boycott, reports *Associated Press* - despite the obvious assumption that consumers would [follow the](#) labeling when choosing what products to buy.

US State Department spokesperson Mark Toner said, "we do not believe that labeling the origin of products is equivalent to a boycott. And as you know, we do not consider [settlements](#) to be part of Israel. We do not view labeling the origin of products as being from the settlements as a boycott of Israel."

Despite Toner's words, an expert at NGO Monitor spoke to *Arutz Sheva* about the labeling on Wednesday, and revealed that the move is the first step in a planned [total boycott of Israel](#) based on the stated goals of the groups who brought about the labeling.

The science fiction of Aldous Huxley's "Brave New World" is quickly becoming reality.

One of biologist Ethan Bier's graduate students at the University of California, San Diego, recently conducted an experiment on fruit flies with far-reaching implications – both beneficial and nightmarish – for humanity.

"It was one of the most astounding days in my personal scientific career. When he first showed me, I could not believe it," Bier told Oregon Public Broadcasting on Thursday.

Graduate student Valentino Gantz's used a technique called "gene drive" to accomplish something simple, yet profound: He forced a generation of brown fruit flies to have mostly blond offspring. Bier told the station his students were "jumping up and down" when the next generation maintained the mutation.

Is Africa The Western World's Testing Ground For Microchip Implants, Weaponized Viruses And Experimental Vaccines?

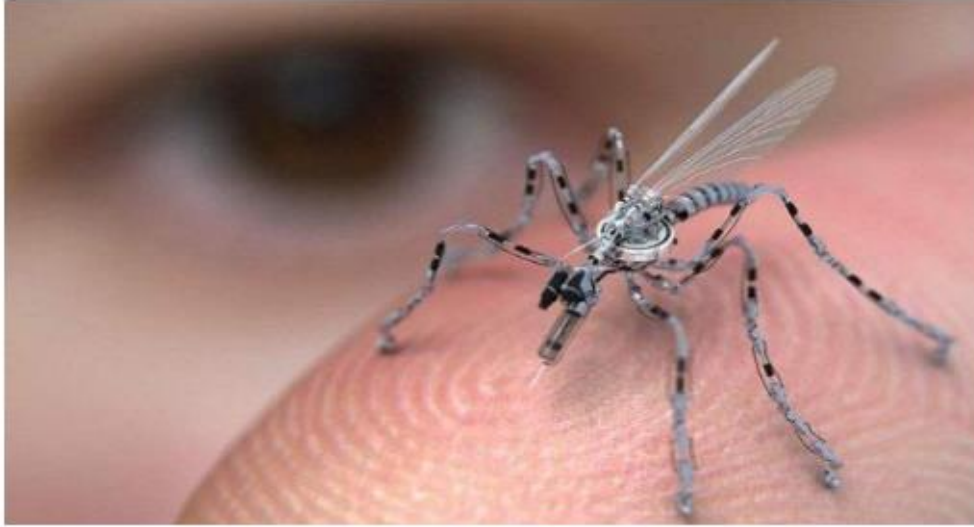

10 NOVEMBER, 2015

The African continent continues to be used by Western powers as a testing ground for some pretty heinous things, the latest of which appears to be microchip implants. This is a concept **privacy advocates in the U.S. have long warned about**. According to Patriot Truther and BusinessWire, credit card company Visa recently introduced a new specification for the use of biometrics with chip card transactions that can enable palm, iris, facial or voice biometrics. The first-of-its-kind technology is designed to be incorporated for use with the EMV® (Europay, MasterCard, Visa) chip industry standard to ensure the cards can be used around the globe.

Rise Of The Insect Drones

9 NOVEMBER, 2015

Being a fly on the wall in that highly guarded, closed or exclusive location used to be the stuff that daydreams were made of. Not any longer, though. Indications are that the U.S government now has increasingly advanced secret miniature drones, capable of spying on people and activities. These 'robobug' drones then record and transmit, or deliver sensitive private information that can be downloaded in the form of images, videos, and sound. They can even be programmed to kill.

Choose Samsung for business on

The unexpected discovery of oxygen around a distant comet has shocked secular astronomers and challenges

the current evolutionary models for the universe's origins.

In 2004, the European Space Agency (ESA) launched the "Rosetta" spacecraft to rendezvous with a comet. "Rosetta" arrived at Comet 67P last year and has since been orbiting the comet and relaying observations back to Earth.

On October 28, ESA announced that "Rosetta" had detected traces of oxygen (O₂) emanating from Comet 67P. In an [ESA news release](#), astronomers described the

The World's Biggest Bond Bubble Continues To Burst As China Suffers More Defaults

Submitted by Tyler Durden on 11/11/2015 07:43 -0500

[Bond](#) [Capital Markets](#) [China](#) [Credit Crisis](#) [Creditors](#) [default](#) [Fall](#) [Real estate](#) [Shadow Banking](#) [Yuan](#)

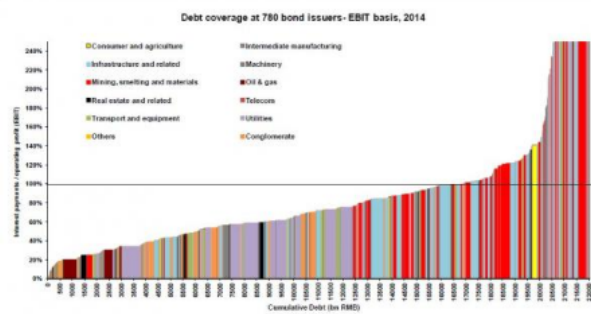

[f Like](#) [Share](#) [147](#) [t Tweet](#) [170](#) [in Share](#) [10](#) [G+1](#) [11](#)

Once China began to mark an exceptionally difficult transition from a smokestack economy to a consumption and services-led model, those who were aware of how the country had gone about funding years of torrid growth knew what was likely coming next.

Years of borrowing to fund rapid growth had left the country with a sprawling shadow banking complex and a massive debt problem and once commodity prices collapsed - which, in a bit of cruel irony, was partially attributable to China's slowdown - some began to suspect that regardless of how hard Beijing tried to keep up the charade, a raft of defaults was inevitable.

Sure enough, the cracks started to show earlier this year with [Kaisa](#) and [Baoding Tianwei Group](#) and as we documented last month, **if you're a commodities firm, there's a 50-50 chance you're not generating enough cash to service your debt:**

Fig 1 EBIT-debt coverage in 2014

Source: Wind, Macquarie Research, September 2015

There's only so long this can go on without something "snapping" as it were because even if Beijing intends to perpetuate things by continuing to engineer bailouts (e.g. [Sinosteel](#)), that will only add to the deflationary supply glut that's the root cause of the problem in the first place and ultimately, Xi's plans to liberalize China's capital markets aren't compatible with ongoing bailouts so at some point, the Politburo is going to have to choose between managing its international image and allowing the market to purge insolvent companies.

On Wednesday we get the latest chapter in the Chinese defaults saga as cement maker China Shanshui Cement Group Ltd said it won't be paying some CNY2 billion (\$314 million) of bonds due tomorrow.

Oh, and it's also going to default on its USD debt and file for liquidation.

Chinese marine geologists have discovered about 500 tons of gold under the seabed in the East China Sea, local media reporte

MOSCOW (Sputnik) — The first undersea gold reserves and the largest gold deposit found in China was discovered after three years of investigations near Sanshan Island in east China's Shandong province, 1.2 miles below sea level, the South China Morning Post newspaper reported Tuesday.

The new-found deposit is currently valued at over \$16.4 billion and is estimated to hold at least 1,600 tons of gold, according to the newspaper.

The gold mine is located near the city of Laizhou, which is home to the largest gold deposits in the country.

In May, China proposed to India that the two countries start several joint mining projects to explore the Southern Indian Ocean's seabeds for precious metals, including gold and silver.

DEKALB, Ill. — Officials at Northern Illinois University have agreed to remove all Bibles from the guest rooms at their campus student center following a complaint from a prominent atheist activist organization.

The Wisconsin-based Freedom from Religion Foundation (FFRF) reports that it recently sent a letter to the university to assert that the presence of the Bibles was unconstitutional. Co-president Annie Laurie Gaylor and her husband Dan Barker discovered the Bibles while staying at the Holmes Student Center Hotel during a visit to the area to speak to a chapter of the Secular Student Alliance.

"Providing Bibles to Holmes Student Center Hotel guests sends the message that NIU endorses the religious texts," the letter read. "Including Bibles sends the message to non-Christian and non-religious guests that they should read the Bible, and specifically the version of the Bible provided: the Gideon Bible."

A Detroit suburb may have elected the nation's first Muslim-majority city council.

On Tuesday, Hamtramck voters elected Saad Alasmari and re-elected Abu Musa and Anam Miah.

They join Mohammed Hassan, meaning Muslims now hold four of the council's six seats.

This Michigan city was settled by Germans, became predominantly Polish in the early 1900s, and now has a slight majority of Muslims from Yemen, Bangladesh and Bosnia-Herzegovina.

Schools in Maryland will close for a Muslim holiday.

The Board of Education for Maryland's largest school district, Montgomery County, voted to shutter classes for the Islamic holiday Eid al-Adha on next year's calendar.

It's all about fairness and diversity, said one board member, Jill Ortman-Fouse, in [EagNews.org](#).

"I get all my holidays off," she said.

The school closing was proposed by Christopher Barclay, one of the board members.

Some believe runner John Green was disqualified because his headband bore a Bible verse. (Courtesy/FOX)

Was a high school cross country runner disqualified from a state championship meet because there was a Bible verse embroidered on his headband?

Georgia Congressman Douglas Collins seems to think so.

"Religious expression being squashed right here in the Ninth District," the Republican lawmaker [tweeted](#). "This is outrageous."

Collins was referring an incident that occurred Nov. 7 at the Georgia 5-A cross country state championship.

Third place winner John Green was stripped of his victory just moments after crossing the finish line.

The West Forsyth High School runner was disqualified because of a headband he was wearing—a white headband that was adorned with a Bible verse.

It was embroidered with the words: "Isaiah 40:30-31."

Isaiah 40:31-31 says, "Even the youths shall faint and be weary, and the young men shall utterly fall, but those who wait upon the Lord shall renew their strength; they shall mount up with wings as eagles, they shall run and not be weary, and they shall walk and not faint."

It is a passage of Scripture that was sure to inspire any athlete—especially a cross-country runner.

FALLING AWAY - Most Christians In America Now Support Homosexuality?

9 NOVEMBER, 2015

A comprehensive study released by the Pew Research Center analyzing various questions surrounding Americans' relationship with religion has found that adults continue to overwhelmingly believe in God, but that support is declining. The poll also found that a majority American Christians now support homosexuality, but less so on abortion. Statistics from the 2014 Religious Landscape Study, which polled 35,000 American adults, found that 89 percent of the overall U.S. adult population believes in God, which is down from the 92 percent mark in 2007.

A circuit court judge in Oregon is beginning two weeks of hearings before a state panel as he pushes back against allegations he is unfit to serve on the bench because he will not officiate same-sex weddings.

In 2014, Oregon's definition of marriage as the union of one man and one woman was thrown out by court order, and the state refused to appeal the decision. There is no requirement for judges in the state to perform weddings, but some choose to do so. Judge Vance Day informed his staff to politely decline if any same-sex couple requested that he perform their ceremony and refer them to judges who would do the job.

A former Texas educator filed a federal discrimination complaint against a learning center in Katy, Texas, after being fired for refusing to address a 6-year-old girl as a transgender boy.

Madeline Kirksey, a former manager of the Children's Lighthouse Learning Center, was fired on November 3. According to a copy of the complaint, Kirksey refused to treat the child as male and call the child by a male name.

FEEDING HUNGRY AMERICANS

Kirksey told ABC News that the parents cut the child's hair, changed the child's name and asked the school to respect their decision.

Kirksey says she was unable to give her approval to the change in gender identity because of her religious beliefs and was promptly fired.

"At her age she was indecisive," Kirksey recalled the child's behavior. "Some days she wanted to be a girl; some days she wanted to be a boy. It was according to what situation she got in that day."

Kirksey and her former co-worker Akesha Wyatt have taken legal action against the school.

"Madeline has paid the price for standing her ground in defense of all her children at Children's Lighthouse," her attorney, Andy Taylor, said in a statement. "This has gotten out of control and now this dedicated experienced child care worker has been wrongfully terminated. That will not stand."

Houston just recently finished a nearly two-year long fight over a transgender ordinance that "gay" activists said was essential, and the same fight now is erupting in Dallas.

At both locations advocates for the protections that would allow transgenders in the public facility restrooms and locker rooms of their choice say that really has little or nothing to do with the need for an ordinance.

A governing body made up of students at the University of Kansas has voted to eliminate their use of gender specific pronouns, stating the terms pose "microaggressions" towards people who don't fit traditional gender roles.

Last Wednesday, the KU Student Senate, in a 2/3 majority vote, passed a bill altering the Senate's official [Rules & Regulations](#) which would require senators to use "inclusive" terminology, such as "they them or

Blasphemous Play Depicting Jesus As 'Transgender Woman' To Be Presented In Northern Ireland

11 NOVEMBER, 2015

A blasphemous play depicting Jesus Christ as a transgendered woman is set to be performed at a homosexual festival in Northern Ireland. "The Gospel According to Jesus Queen of Heaven" is scheduled for showing on Nov. 15 at the Outburst Queer Arts Festival in Belfast. It was created by Jo Clifford, a man who identifies as a woman. "The play imagines a transgender Jesus coming back to the world today," Clifford told BBC News. "She pitches a sermon and tells a few very familiar gospel stories." "Our mother who art on Earth, blessed is your name. ...

فالاضطهاد يزيد والاضطراب يزيد والزلازل والابوئة والفساد الأخلاقي يزيد والالحاد يزيد

فلهذا أقول المسيح اقترب ميعاد مجيؤه لا احدد مواعيد بل ارفض من يحدد مواعيد ولكن اطلب

أن نصلي ونستعد ونعد زيت لمصابيحنا لاستقبال العريس بالصلاة والصوم وخدمة أبناء الله وتنقية القلب والاستعداد بلبس العرس.

رسالة بولس الرسول الي أهل رومية 13

13: 11 هذا وأنكم عارفون الوقت انها الان ساعة لنستيقظ من النوم فان خلاصنا الان أقرب مما كان حين امنا

13: 12 قد تناهى الليل وتقارب النهار فلنخلع اعمال الظلمة ونلبس اسلحة النور

13: 13 لنسلك بلباقة كما في النهار لا بالبطر والسكر لا بالمضاجع والعهر لا بالخصام والحسد

13: 14 بل البسوا الرب يسوع المسيح ولا تصنعوا تدبيرا للجسد لأجل الشهوات

احترس ان لم تتمسك بالمسيح من الان قد لا تستطيع في المستقبل القريب بسبب الظلام.

وكما قلت هو اخبرنا لكي لا نخاف

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

بطرس الأولى 3: 14

وَلَكِنْ وَإِنْ تَأَلَّمْتُمْ مِنْ أَجْلِ الْبِرِّ، فَطُوبَاكُمْ. وَأَمَّا خَوْفُهُمْ فَلَا تَخَافُوهُ وَلَا تَضْطَرُّوْا،

بل نؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَاَنْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ».

افرحوا لان عريسنا قد اقترب مجيؤه. وانتبهوا الشيطان يريد أن نفقد سلامنا ولا ننال أكاليل.

وأيضا استعدوا فقد تسلموا وديعتكم في أي وقت فهناك 150 ألف شخص يموتوا في اليوم الواحد

انت لا تعرف متى ستكون منهم

المسيح اقترب فاصنعوا ثمار تليق بالتوبة واستعدوا لاستقبال العريس.

والمجد لله دائما
