## والعلامات حتى 12 أبريل 2016

Holy\_bible\_1

اكرر اننا لا نحدد مواعيد بل فقط نشجع بعضنا بعضا بقرب مجيء المسيح

وأیضا لا اقصد ان اخيف أحد بل من يخاف هو لا يثق في مواعيد الرب

هدفي فقط أن نذكر بعضنا باننا نحتاج ان نستعد. والاستعداد ليس فقط قبل مجيء المسيح بل

ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة

وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من

الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا

لان الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة

لان وقتها جميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذارى انه لن يكون هناك

زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقرب فنكون مستعدين سواء جاء او نحن ان  
سلمنا وديعتنا عن أنى لا اقول انه اقرب لكيلا يقال عني كاذب وانشر اشاعات ولكنه يأتي بسرعة  
بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي المسيح في زمنه  
ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

## سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَأَن تُوْمِنُونَ.

ثالثا لننتبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَاَنْتَصِبُوا وَاَرْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ».

# 'Behemoth' black hole discovered in far-off galaxy

**Doyle Rice, USA TODAY**
3:01 p.m. EDT April 7, 2016

 **481**

 **1**
 **36**

Astronomers discovered a "behemoth" black hole weighing as much as 17 billion suns in a remote part of the universe, according to a report published Wednesday.

Black holes are collapsed stars — bottomless pits of gravity from which not even light can escape. The biggest ones are typically located at the center of large galaxies in crowded parts of the universe.

What is surprising about the new discovery is the remote location of the galaxy where it resides.

"The newly discovered supersized black hole resides in the center of a massive elliptical galaxy, NGC 1600, located in a cosmic backwater, a small grouping of 20 or so galaxies," said lead discoverer Chung-Pei Ma, a University of California-Berkeley astronomer.

The observations, made by NASA's Hubble Space Telescope and the Gemini Telescope in Hawaii, could indicate these monstrous objects are more common than thought.

While impressive, this supermassive black hole is not the biggest ever discovered: The current record holder tips the scale at 21 billion suns, NASA said.

What makes a black hole "black" is that its gravity bends light so strongly it can't escape. The more massive the black hole, the wider its "event horizon," the surrounding sphere of space that traps all light and anything else that falls within its gravitational well.

# Newly discovered planet could destroy Earth any day now

By The Sun

April 6, 2016 | 9:34am

ORIGINALLY PUBLISHED BY:

THE Sun

A mysterious planet that wiped out life on Earth millions of years ago could do it again, according to a top space scientist.

And some believe the apocalyptic event could happen as early as this month.

Planet Nine — a new planet discovered at the edge of the solar system in January — has triggered comet showers that bomb the Earth's surface, killing all life, says Daniel Whitmire, of the University of Louisiana.

The astrophysicist says the planet has a 20,000-year orbit around the sun and, at its closest to us, it knocks asteroids and comets toward Earth.

### Record Cold Temperatures Sweep Into Northeast; Another Arctic Blast on the Way [FORECAST]

*April 5, 2016*

Record cold temperatures for early April have swept into some Northeast and Great Lakes cities to begin this week. Subzero readings were even observed near the Canadian border in northern Michigan, northern New York and northern Maine Tuesday morning.

More record cold is possible on Wednesday morning in the Northeast. Then the cold will become more expansive late this week due to yet another southward dip in the jet stream which will allow more arctic air to push south from Canada.

## Hailstones damage 1,000 houses in northern Vietnam

Thanh Nien News

TUYEN QUANG - Monday, April 04, 2016 10:33  Email

Around 1,000 houses and 100 hectares of vegetables fields were damaged in Tuyen Quang Sunday in the province's worst hailstorm in 30 years.

Hailstones as large as 10 centimeters across fell for eight minutes from 6:40 a.m. Sunday, leaving holes in many roofs and injuring several farmers on their way to work. Fortunately, no one was killed.

Several solar panels and outdoor steel water tanks were also damaged.

Dinh Thi Nghia, 50, a local, said it was the biggest hailstorm she had ever experienced.

"Luckily it happened on a day kids don't go to school."

A meteorologist said the hail was the biggest recorded in the province in 30 years.

## Ethiopia: 28 people killed in floods in remote regions

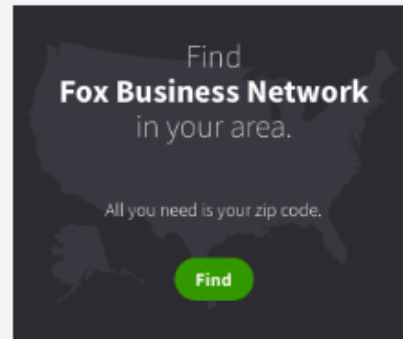

Published April 05, 2016 · Associated Press

ADDIS ABABA, Ethiopia — The state broadcaster in Ethiopia says 28 people have been killed in severe flooding in two remote regions.

The Ethiopian Broadcasting Corporation reported Monday that 23 people were killed and 84 more people were injured when a river that crosses Jigjiga, the regional capital of the Somali region, burst its banks on Sunday.

It said intense rains in another drought-stricken region, Afar, led to floods in which five people were killed.

Ethiopian meteorology officials said thick clouds around the Indian Ocean could lead to more flooding in the coming days and the government is taking precautionary measures to assist people in the two affected regions.

## 30 people killed by lightning in 10 days

Probir K Sarker

### Precautions can save lives during lightning

At least 30 people mostly farmers were struck and killed by lightning in the last 10 days at different parts of the country as nor'westers started to hit since last month.

#### WHAT TO DO DURING LIGHTNING?

- ♦ Take shelter under a concrete ceiling
- ♦ Stay away from tin-made ceiling
- ♦ Stay away from tall trees
- ♦ Avoid ponds, rivers
- ♦ If stuck in car, don't touch metal body
- ♦ Don't use electronic items
- ♦ Don't get close to electric pillars, towers

frequency of the storms (Kalboishakhi) usually rises in April and May, and the deaths from lightning could go up significantly if precautions are not taken properly. This seasonal storm is typically accompanied by lightning.

The maximum 13 people were killed by lightning on Thursday in seven districts. Most of the victims were farmers working on the field. Of them, three teenagers were killed in Munshiganj and two each in Faridpur, Kishoreganj, Bagerhat and Manikganj districts.

بسبب الجفاف الشديد وغيره الكثير من العوامل 5 مليون امريكي يغادروا كاليفورنيا

## The Exodus Of People Moving Away From California Is Becoming An Avalanche

By Michael Snyder, on April 4th, 2016

Over the past ten years, **approximately five million people** have moved away from the state of California, and as you will see in this article this mass exodus appears to be accelerating. So exactly why is this happening? Once upon a time, it seemed like almost everyone wanted to live in California. The nearly endless sunshine, the incredible weather, the pristine beaches and a booming economy motivated millions of young Americans to move out there to pursue "the California Dream". In fact, in the early nineties I actually explored the idea of moving out there myself. But now the California Dream has become a nightmare. Californians are being taxed to death, traffic in the major cities is absolutely horrific, violent crime and gang activity are on the rise, millions of illegal immigrants are putting an incredible strain on social support systems, and the ultra-liberal government in Sacramento seems to have gone completely insane. In addition, the state faces constant threats from earthquakes, wildfires, droughts and mudslides, so it is quite understandable why so many people feel motivated to leave and never come back.

## 'Suspicious' brush fire spreads along Arizona-California border

Reuters

April 06, 2016

PHOENIX (Reuters) - A "suspicious" brush fire broke out in Arizona and spread into California on Wednesday, sparking the evacuation of two recreational vehicle parks, as hot and dry weather complicated efforts to contain the blaze.

"It's hot and windy and we're expecting the fire to grow," said Jeff Allen, an engineer and paramedic with the San Bernardino County Fire Department in Southern California. Allen said the fire was 5 percent contained.

The fire broke out as agencies across the western United States gear up for what is expected to be another busy fire season in a region suffering the effects of a prolonged drought, including millions of trees dead from lack of water.

In 2015, more than 10 million acres burned in wildfires nationwide, according to the National Interagency Fire Center.

Authorities said Wednesday's fire started at about 4:30 a.m. local time in the Havasu National Wildlife Refuge, which spans both California and Arizona, and jumped the Colorado River, burning through river bottom vegetation and Salt Cedar and Mesquite trees.

Firefighters from both states are battling the blaze and additional crews have been requested, Mohave Valley (Ariz.) Fire District Chief Ted Martin said in a statement.

Hyderabad: The unusually harsh summer heat in Telangana has already started taking a huge toll of human life.

With heatwave conditions prevailing across the state, 66 people have died due to sun stroke and other related problems, officials said.

The highest number of deaths — 28 — were reported from Mahbubnagar, followed by 11 in Medak and five each from Karimnagar and Khammam.

Other deaths were reported in Adilabad, Nizamabad, Warangal and Nalgonda.

According to the Meteorological Department Nizamabad, north Telangana continues to be the hottest area in the state with maximum temperatures of 43.4C followed by Medak and Karimnagar with 43C. Hyderabad recorded 41C.

## Rains And Floods Kill Over 200 In Northern Pakistan

6 APRIL, 2016

Rescue workers in northwestern Pakistan dug through debris and mud on Tuesday in hopes of finding survivors after a landslide buried at least 30 people alive on Monday as the death toll from days of torrential rains and flashfloods passed the 200-mark, local officials have said. Footage aired on local television channels showed army troops and rescue workers digging through the rubble on the outskirts of the Kohistan district where they managed to recover six dead bodies and two survivors.

## Strongest earthquake in recent swarm hits NW Arizona

Posted: Apr 08, 2016 9:15 AM MDT  
Updated: Apr 08, 2016 9:16 AM MDT  
By Phil Benson **CONNECT**

PHOENIX (KPHO/KTVK) - The largest in a recent swarm of earthquakes in northwest Arizona hit the region early Friday morning, the Arizona Geological Survey said.

A magnitude 3.4 quake was reported at 2:23 a.m. in the same remote area rattled by 19 other quakes.

The survey said the swarm started on March 29 with a magnitude 2.3 quake and has continued through Friday with 19 more small quakes ranging in size from magnitude 0.7 to Friday's magnitude 3.4.

[RELATED: [Magnitude 2.6 earthquake reported near AZ border](#)]

A quake of magnitude 2.5 to 3 is the smallest generally felt by people.

The swarm occurred along the Arizona-Nevada line south-southwest of Littlefield, Arizona, which is also close to southwestern Utah.

[RELATED: [View list and magnitudes of the earthquake swarm](#)]

The survey said the area has several active faults and that its geologic features suggest there could be additional potentially active faults just north of the largest quake.

MEXICO CITY, April 4 (UPI) – Mexico's Popocatépetl volcano violently erupted over the weekend, launching ash and burning rocks into the air after weeks of increased activity.

Mexico's National Center for Disaster Prevention last week raised the environmental alert level to the second degree out of three, meaning nearby residents should be prepared to evacuate.

Officials have warned nearby residents to avoid the area, adding that low-level to intermediate-level explosive activity is expected. Falling ash may affect nearby towns.

Sunday's eruption occurred at 8:31 p.m., which led to an ash cloud reaching 1.2 miles in height and the raining down of burning rock fragments.

Volcanic activity has [recently increased in Popocatépetl](#), which is in central Mexico – about 43 miles southeast of Mexico City. Sunday's eruption has been the most significant in the past month.

Saturday, April 9, 2016, 1:47 PM - The question I keep getting when I tell people that I [jumped into Nyiragongo](#), an active volcano in the Democratic Republic of Congo is: "What did you do to the mountain!?"

It's an odd question, but it makes sense when you realize that Nyiragongo is suddenly undergoing a new, more active phase. And it's got the volcanologists at the Goma Observatory worried.

New activity in the crater over the last few weeks has spurred the scientists into action as a new vent has opened up on the ledge just above the lava lake. This was preceded by a series of earthquakes that knocked large rocks off the crater walls that I had only recently scaled.

## Bird flu hits South Sulawesi in Indonesia

📅 April 2, 2016, Saturday

Share this:

[Tweet](#)[✉ Email](#)

JAKARTA: Bird flu has struck the Sidenreng Rappang regency, South Sulawesi and as of yesterday, the avian flu virus is reported to have killed about 11,000 birds, mostly ducks.

The Jakarta Post quoted the province's Husbandry Agency head Abdul Aziz as saying that approximately 7,000 ducks and 4,000 chickens had died, thus far.

"The figure is based on reports which we have received. It could be higher," he was quoted by the newspaper.

He said his agency had ordered the Sidenreng Rappang Husbandry Agency to isolate the area affected by the H5N1 virus to prevent the spread of the disease.

Abdul Aziz claimed the province was low in stocks of the vaccine and no longer had any medicine.

## Geese culled in Chiayi after bird flu found

By Christine Chou, The China Post  
April 5, 2016, 12:14 am TWN

TAIPEI, Taiwan -- Nearly 1,700 geese were slaughtered at a farm in Chiayi County's (嘉義縣) Taibao City (太保市) on Monday after an outbreak of the highly pathogenic avian influenza sub-type H5N2, in an effort to stop the disease from spreading.

The strain came a day after 1,652 geese, also infected with the H5N2 virus, had been killed at a farm in Yunlin County (雲林縣).

According to the Livestock Disease Control Center of Chiayi County (LDCC, 家畜疾病防治所), the farm located in Taibao owned a total of around 1,700 susceptible geese, among which 200 were suspected of infection, reported by the owner surnamed Hung (洪) on April 1.

Officials told the Central News Agency that after receiving test results confirming the birds had been infected, authorities were sent to kill off the entire flock as a control measure, as well as cleaning and disinfecting the farm and nearby public spaces.

The dead birds were then sent to a nearby incinerator for disposal.

According to Chiayi County's Agriculture Department (AD, 農業處), the goose farm has been keeping the flock for almost a year, and the birds have begun to hatch eggs. Currently, the birds at two nearby farms have not shown unusual symptoms, but will be monitored over the next three months.

Recently, there have been isolated cases of bird flu found around the country, which indicates that viruses are still active in the environment. Farms and retailers should step up preventive efforts, restrict the entrance of people and cars, and report suspicious cases to authorities as soon as possible, stated the LDCC.

## SPAIN: REAL LIFE 'BIBLICAL JONAH' SURVIVED THREE DAYS IN WHALE'S BELLY

March 24th, 2016 | by Bob Flanagan

**Puerto Real | A Spanish fisherman which was believed to have drowned at sea has miraculously reappeared several days later after he went overboard during a violent storm off the coast of Spain last week.**

The 56-year-old fisherman was lost at sea and believed to be dead after Spanish coastal guards found no living sign of him after days of research.

"This is truly a miracle! Saint Mary of Jesus has heard our prayers" told his wife, Penelope Marquez, to local reporters. "I prayed and I prayed and I never lost faith, and the Lord has brought me back my precious Luigi" she said in tears, visibly happy at the turn of events.

## Samsung Patents Contact Lenses With Built-In Camera

April 5, 2016 2:48 PM

Filed Under: [Samsung](#)

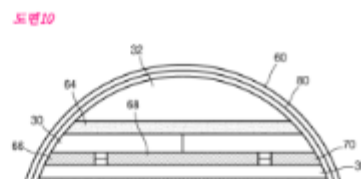

**LOS ANGELES (CBSLA.com)** — Samsung has been granted a patent in South Korea for contact lenses with a display that projects images directly into the wearer's eyes.

According to [SamMobile](#), the patent includes a "contact lens equipped with a tiny display, a camera, an antenna, and several sensors that detect movement and the most basic form of input using your eyes: blinking."

A smartphone will be required for the device to work, according to documents.

The "smart" contact lenses could prove to be a substantial upgrade from so-called "smart glasses", posing a threat to what will be its main competitor in the market, Google Glasses.

SamMobile states that the "lenses can provide a more natural way to provide augmented reality than smart glasses."

### The Yomiuri Shimbun

Starting this summer, the government will test a system in which foreign tourists will be able to verify their identities and buy things at stores using only their fingerprints.

The government hopes to increase the number of foreign tourists by using the system to prevent crime and relieve users from the necessity of carrying cash or credit cards. It aims to realize the system by the 2020 Tokyo Olympic and Paralympic Games.

A man walks past ancient ruins which archaeologists say may be part of a Byzantine church or cathedral dating from around 1,500 years ago, in Gaza City April 4, 2016.

An ancient Greek symbol for Christ was reportedly discovered at the ruins of a Byzantine church in Gaza dating back from around 1,500 years ago, the Palestinian Tourism and Antiquities Ministry revealed Monday.

"Our first thought is that the site is a cathedral or a church from the Byzantine period," said Jamal Abu Rida, the general director of the

## Obama Claims Power to Make Illegal Immigrants Eligible for Social Security, Disability

By Terence P. Jeffrey | April 6, 2016 | 2:31 PM EDT

Does the president of the United States have the power to unilaterally tell millions of individuals who are violating federal law that he will not enforce that law against them now, that they may continue to violate that law in the future and that he will take action that makes them eligible for federal benefit programs for which they are not currently eligible due to their unlawful status?

Through Solicitor General Donald Verrilli, President Barack Obama is telling the Supreme Court exactly this right now.

The solicitor general calls what Obama is doing "prosecutorial discretion."

He argues that under this particular type of "prosecutorial discretion," the executive can make millions of people in this country illegally eligible for Social Security, disability and Medicare.

On April 18, the Supreme Court will hear arguments in the case. Entitled *United States v. Texas*, it pits President Obama against not only the Lone Star State, but also a majority of the states, which have joined in the litigation against the administration.

At issue is the policy the administration calls Deferred Action for Parents of Americans and Lawful Permanent Residents, which would allow aliens in this country illegally who are parents of citizens or lawful permanent residents to stay in the United States.

"The Executive Branch unilaterally created a program — known as DAPA — that contravenes Congress's complex statutory framework for determining when an alien may lawfully enter, remain in, and work in the country," the attorney general and solicitor general of Texas explained in a brief submitted to the Supreme Court on behalf of the states seeking to block the policy.

## USA Takes In 2 Muslim Migrants For Every 1 From Europe

7 APRIL, 2016

The United States issues twice as many green cards to migrants from Muslim-majority countries than from Europe, adding to a Middle Eastern migrant population in the country that is one of the fastest growing demographics. From 2009 to 2013, the U.S. issued 680,000 green cards to migrants from Muslim countries, more than twice the approximately 270,000 green cards issued to migrants from European countries.

Syrian refugees arrive in Europe. Another 10,000 are set to arrive in the U.S. this year and at least that many in 2017. But Syria is only one of 49 Muslim countries from which the U.S. draws immigrants.

The torrid pace of Muslim migration into the United States should be sending off alarm bells in the nation's Jewish community, but so far it has barely registered as the sound of a pin dropping.

The U.S. issued approximately 680,000 green cards to migrants from 49 Muslim-majority nations, as identified by [Pew Research Center](#), in the five-year period from fiscal years 2009-2013, a figure that should be a red flag to American Jews.

CNBC SR. ECONOMICS REPORTER

It may turn out the economy did not grow at all in the first quarter.

Trade data released Tuesday show the U.S. deficit widened more than expected to \$47.1 billion in February and was a bigger drag on growth than expected. It's the latest economic metric that chiseled away at the tracking model for first quarter growth.

The median of economists who participate in the [CNBC/Moody's Analytics Rapid Update](#) is now 0.5 percent for tracking GDP growth, down from 0.9 percent last week. Their average forecast for growth is 1.1 percent.

## 19 Facts That Prove Things In America Are Worse Than They Were Six Months Ago

By Michael Snyder, on April 4th, 2016

Has the U.S. economy gotten better over the past six months or has it gotten worse? In this article, you will find solid proof that the U.S. economy has continued to get worse over the past six months. Unfortunately, most people seem to think that since the stock market has rebounded significantly in recent weeks that everything must be okay, but of course that is not true at all. If you look at a chart of the Dow, a very ominous head and shoulders pattern is forming, and all of the economic fundamentals are screaming that big trouble is ahead. When Donald Trump told the Washington Post that we are heading for a "very massive recession", he wasn't just making stuff up. We are already seeing lots of things happen that never take place outside of a recession, and the U.S. economy has already been sliding downhill fairly rapidly over the past several months. With all that being said, the following are 19 facts that prove things in America are worse than they were six months ago...

#1 U.S. factory orders have now declined on a year over year basis for 16 months in a row. As [Zero Hedge](#) has noted, in the post-World War II era this has never happened outside of a recession...

## Auditor: Government Will Owe More Money Than Entire Economy Produces

Report finds issues with reliability of government's financial statements, improper payments

f SHARE t TWEET e EMAIL

BY: Ali Meyer Follow @DJAMeyer

April 7, 2016 12:15 pm

An auditor for the Government Accountability Office told lawmakers Wednesday that in the next few years the federal government will owe more than our entire economy produces.

Gene Dodaro, the comptroller general for the Government Accountability Office, testified at the Senate Budget Committee to provide the results of its audit on the government's financial books.

"We're very heavily leveraged in debt," Dodaro said. "The historical average post-World War II of how much debt we held as a percent of gross domestic product was 43 percent on average; right now we're at 74 percent."

Dodaro says that under current law, debt held by the public will hit a historic high.

"The highest in the United States government's history of debt held by the public as a percent of gross domestic product was 1946, right after World War II," he said. "We're on mark to hit that in the next 15 to 25 years."

Another economic projection which assumes that cost controls for Medicare don't hold and that healthcare costs continue to increase, shows debt rising even further.

"These projections go to 200, 300 percent, and even higher of debt held by the public as a percent of gross domestic product," said Dodaro. "We're going to owe more than our entire economy is producing and by definition this is not sustainable."

Additionally, the audit found fault with the number of improper payments that should not have been made or were the incorrect amount. The audit found that in fiscal year 2015 there were \$136.7 billion improper payments, which was up by \$12 billion from the

## Growth worries weigh on world stocks

John Biers

AFP

April 05, 2016

Global stock markets fell Tuesday as anxiety about slowing growth, weak German economic data and a potentially poor earnings season led to heavy selling.

Frankfurt's benchmark DAX 30 index slumped 2.6 percent as dire German factory orders sparked fresh questions about the health of the eurozone's biggest economy.

France's CAC 40 index shed 2.2 percent, Britain's FTSE 100 dropped 1.2 percent in value and the FTSE-Mib in Milan fell 3.0 percent as Italian banking shares dove.

"A three-week low in the price of oil goes someway to explaining deteriorating market sentiment," said CMC Markets analyst Jasper Lawler.

**LONDON** — An occupational therapist who was suspended from her job for nine months after her Muslim co-worker

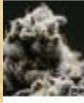

alleged that she was trying to convert her to Christianity has lost her appeal before an employment tribunal.

As previously reported, Victoria Wasteney, now 39, had developed a friendship with her colleague Enya Nawaz, now 28, as they worked at the St. John Howard Center in London. The two had discussed Islam and Christianity, and Wasteney had talked to Nawaz about her church's efforts to fight human trafficking.

"The whole basis of our conversations around faith started with her telling me that she'd had an encounter with God, that she felt she had been brought to London for a particular reason," Wasteney told reporters.

## Indiana State Trooper Is Fired for Proselytizing During Traffic Stops

By CHRISTINE HAUSER APRIL 8, 2016

Officer Brian Hamilton of the Indiana State Police.  
Indiana State Police

An Indiana state trooper has been fired after drivers complained that he gave them more than tickets and a lecture about road rules after pulling them over — he also shared a little religion on the roadside, in one case asking a woman if she had “accepted Jesus Christ as her savior.”

The State Police said on Friday that the trooper, Brian L. Hamilton, a 14-year veteran, was let go on Thursday for repeatedly proselytizing and for handing out a religious pamphlet during traffic stops.

The authorities said his termination was based on a complaint in

January that said he had questioned a driver’s religious affiliations after pulling over the vehicle — the second time in about 18 months that the State Police were aware he had done so. After a similar episode in 2014, officials said, Trooper Hamilton was formally told not to question drivers about their religious beliefs or try to convert them.

Executives of several major U.S. corporations urged Mississippi on Wednesday to repeal a new state law that allows businesses to deny wedding services to same-sex couples on religious grounds.

The measure, which also permits employers to cite principles of faith in setting workplace policies on dress code, grooming and bathroom access, was signed into law on Tuesday by Republican Governor Phil Bryant.

Bryant hailed the statute, the latest in a series of state laws opposed by lesbian, gay, bisexual and transgender (LGBT) activists, as designed to "protect sincerely held religious beliefs and moral convictions ... from discriminatory action by state government."

## Victory! The Arch From The Temple Of Baal Planned For New York City Has Been CANCELED

By Michael Snyder, on April 10th, 2016

The Temple of Baal is NOT coming to Times Square in New York City next month. This is great news, and it represents an incredible victory for Christians in the United States. As you will see below, [the New York Times](#), [Snopes](#) and a whole host of other mainstream news sources reported last month that everything was on track for reproductions of the giant 48-foot-tall arch that stood in front of the Temple of Baal in Palmyra, Syria to be put up simultaneously in Times Square in New York City and Trafalgar Square in London during the month of April. But now that will not be happening. The only arch that will be going up will be in Trafalgar Square, and it won't be the one from the Temple of Baal. Instead, the Institute for Digital Archaeology has changed plans and will be putting up a reproduction of the Arch of Triumph which the Romans originally built in Palmyra and that has nothing to do with Baal. So why has there been such a dramatic change in plans?

On Friday, I received an urgent message from a contact that has been investigating this, and she told me that she had talked directly to someone from the Institute for Digital Archaeology and that she had been informed that no arch was going up in

The Archbishop of Wales has apologised "unreservedly" to gay couples for discrimination they may have faced within the Christian community.

The Church in Wales tweeted that Archbishop Barry Morgan "offers a pastoral letter on same-sex relationships apologising unreservedly for prejudice within the church".

Morgan was speaking at a meeting in Llandudno with the governing body of the Church today.

The Church released a statement saying that while it "is not yet ready to allow or bless same-sex marriage, the debate is not over."

It reiterated that gay and lesbian people "are fully affirmed as equal disciples" and apologised for "the persecution and mistreatment they have endured at the hands of the Church".

Archbishop Barry Morgan

Introducing the letter, Archbishop Barry said: "We are not ready, as a church, to take the step of authorising same-sex marriage. There is no point in bringing forward a Bill to fail.

"That I know will be a disappointment to those who voted for change and will be a deep disappointment to same-sex couples within the Church in Wales who long for the opportunity to make their vows in one of our churches."

Morgan has authorised prayers for gay and lesbian couples to be said after a celebration of civil partnership or civil marriage, but clarified that "these prayers do not constitute a service of blessing."

A transgender former banker claims to be the first and only person to have both ears cosmetically removed as part of her ongoing quest to become a 'dragon'.

Born Richard Hernandez in Maricopa County, Arizona, the 55-year-old has undergone a number of painful procedures over the past few years including nose modification, tooth extraction and eye colouring.

She also has a forked tongue and a full-face tattoo as part of her transformation into a 'mythical beast'.

Dragon lady: Tiamat is November 2012, before undergoing nose and ear surgery. She has had extensive cosmetic treatments and body modification, including facial tattooing and 'horns' on her forehead (pictured)

فلهذا اطلب أن نصلي ونستعد ونعد زيت لمصاييحنا لاستقبال العريس بالصلاة والصوم وخدمة

أبناء الله وتنقية القلب والاستعداد بلبس العرس.

رسالة بولس الرسول الي أهل رومية 13

13: 11 هذا وأنكم عارفون الوقت انها الان ساعة لنستيقظ من النوم فان خلاصنا الان أقرب مما

كان حين امنا

13: 12 قد تناهى الليل وتقارب النهار فلنخلع اعمال الظلمة ونلبس اسلحة النور

13: 13 لنسلك بلياقة كما في النهار لا بالبطر والسكر لا بالمضاجع والعهر لا بالخصام والحسد

13: 14 بل البسوا الرب يسوع المسيح ولا تصنعوا تدبيرا للجسد لأجل الشهوات

احترس ان لم تتمسك بالمسيح من الان قد لا تستطيع في المستقبل القريب بسبب الظلام.

وكما قلت هو اخبرنا لكي لا نخاف

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

بطرس الاولى 3: 14

وَلَكِنْ وَإِنْ تَأَلَّمْتُمْ مِنْ أَجْلِ الْبِرِّ، فَطُوبَاكُمْ. وَأَمَّا خَوْفُهُمْ فَلَا تَخَافُوهُ وَلَا تَضْطَرُّوْا،

**بل نؤمن**

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثًا لِنُنْتَبِه ونستعد

## انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَأَنْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

افرحوا لان عريسنا قد اقترب مجيؤه. وانتبهوا الشيطان يريد أن نفقد سلامنا ولا ننال أكاليل.

وأيضا استعدوا فقد تسلموا وديعتكم في أي وقت فهناك 150 ألف شخص يموتوا في اليوم الواحد

انت لا تعرف متى ستكون منهم

المسيح اقترب فاصنعوا ثمار تليق بالتوبة واستعدوا لاستقبال العريس.

# والمجد لله دائما
