Holy_bible_1

اكرر اننا لا نحدد مواعيد بل فقط نشجع بعضنا بعضا بقرب مجيء المسيح

وأیضا لا اقصد ان اخيف أحد بل من يخاف هو لا يثق في مواعيد الرب

هدفي فقط أن نذكر بعضنا باننا نحتاج ان نستعد. والاستعداد ليس فقط قبل مجيء المسيح بل

ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة

وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من

الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا

لان الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة

لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذارى انه لن يكون هناك

زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان
سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات ولكنه يأتي بسرعة
بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي المسيح في زمنه
ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانِ تُؤْمِنُونَ.

ثالثا لننتبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَاَنْتَصِبُوا وَاَرْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

'SECOND EARTH' DISCOVERED Planet orbiting Earth's 'closest neighbour' Proxima Centauri could be home to ALIENS

Astronomers spot mystery world which could finally answer the question of whether we're alone in the universe

REVEALED

BY JASPER HAMILL | 24th August 2016, 6:00 pm

COMMENTS

Astronomers have discovered a "second Earth" orbiting our closest star and it could have exactly the right conditions to sustain alien lifeforms.

Stargazers from the European Southern Observatory spotted the [mystery world circling Proxima Centauri](#), a red dwarf star that's just four light years away.

The planet is [orbiting in the "goldilocks zone" of Proxima Centauri](#), which means it's close enough to the star that water would not freeze but far away enough so that water wouldn't boil.

This is important because the presence of liquid water is thought to be necessary for the development of life.

DONT STARE DIRECTLY —

America hasn't seen a solar eclipse like this since the end of World War I

Next August, Americans will get best chance to see solar eclipse in their lifetimes.

ERIC BERGER - 8/21/2016, 11:00 AM

[Enlarge](#) / Path of totality for the August 21, 2017 total solar eclipse.

119

For many cultures a total solar eclipse represents a time when either a demon or animal consumes the Sun. For example, the Vikings saw a pair of sky wolves chasing the Sun, and when one caught it, the wolf would eat it. In Vietnam, either a frog or toad consumed the Sun. For the Kwakiutl tribe on the western coast of Canada, it was the mouth of heaven.

Soon, the United States will have a chance to see an eclipse of our own (and assign cultural value as we please). Mark your calendars: the next total solar eclipse comes to the USA one year from today, on August 21, 2017.

Modern Americans probably don't know exactly what to make of a total solar eclipse—because most of them have never seen one. The last total solar eclipse in the contiguous United States, 37 years ago, only clipped the northwestern United States, mostly rural areas of Washington, Oregon, Idaho, Montana and North Dakota. According to [Eclipse2017.org](#), the day of Feb. 26, 1979, was cold and dreary in the Northwest, and most people in the path of totality

France's weird weather causes more chaos – just as the grapes are due to be harvested.

By Wine-Searcher staff | Posted Saturday, 20-Aug-2016

Growers in Languedoc are in shock after a brutal hailstorm wiped out half the grape crop just days away from the start of harvest.

The sudden storm arrived in the [Hérault](#) department on Wednesday afternoon and pelted the vineyards – especially in the area around [Pic Saint-Loup](#) – with hailstones the size of golfballs, according to French media reports.

In the village of Lauret, where the storm was at its fiercest, some vineyards were wiped out, according to Mas de l'Oncle winemaker Fabrice Bonmarchand.

Bonmarchand, who has been in the region for five years, said he had never seen a storm like it. "I don't have much experience of this kind of disaster, but I was speaking to the former winemaker, who is 92, and he told me this morning that he can't remember as violent an incident of hail either."

Staff from the local chamber of agriculture are assessing the damage and it appears that at least 50 percent of the crop has been destroyed, with bunches reduced to mush by the hail. Chamber president Jérôme Despey told the local Free Midi newspaper that some growers had been

Tropical Storm Gaston Getting Stronger in the Atlantic

By THE ASSOCIATED PRESS -
MIAMI — Aug 23, 2016, 12:52 PM ET

[Share with Facebook](#)[Share with Twitter](#)

SHARE

Tropical Storm Gaston is strengthening as it moves over the far eastern Atlantic.

The storm's maximum sustained winds had increased Tuesday to near 65 mph (100 kph). The U.S. National Hurricane Center says additional strengthening is forecast and Gaston is expected to become a hurricane by Wednesday.

Gaston is centered about 685 miles (1105 kilometers) west of the southernmost Cabo Verde Islands and is moving west-northwest near 21 mph (33 kph).

Elsewhere in the Atlantic, Fiona is breaking up as a [tropical depression](#) and should gradually weaken over the next couple of days. Maximum sustained winds have decreased to near 30 mph (45 kph). The National Hurricane Center has discontinued its advisories.

Meanwhile in the Pacific, Kay is expected to become a remnant low later on Thursday.

A tropical disturbance, moving just north of the large islands of the Caribbean, will take aim at Cuba, the Bahamas and southern Florida into this weekend.

The disturbance, currently dubbed 99L, will continue to move along a west-northwest path.

"This has the potential to be a life-threatening situation due to the heavy rain, flooding and mudslide risk in the short term," according to AccuWeather Hurricane Expert Kottowski.

Development of the disturbance on Friday into early Saturday appears unlikely at this time.

Think It's Hot Now? Just Wait

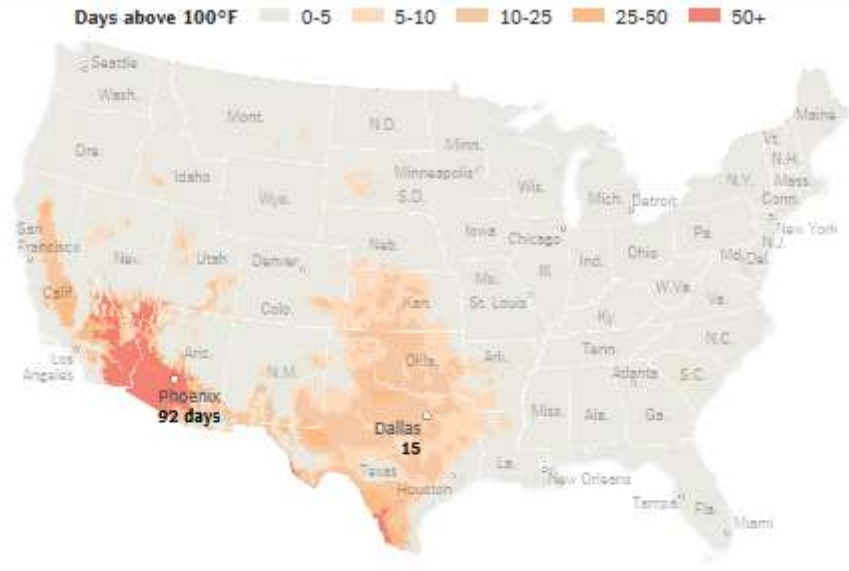

By HEIDI CULLEN AUG. 20, 2016

July wasn't just hot — it was the hottest month ever recorded, according to NASA. And this year is likely to be the hottest year on record.

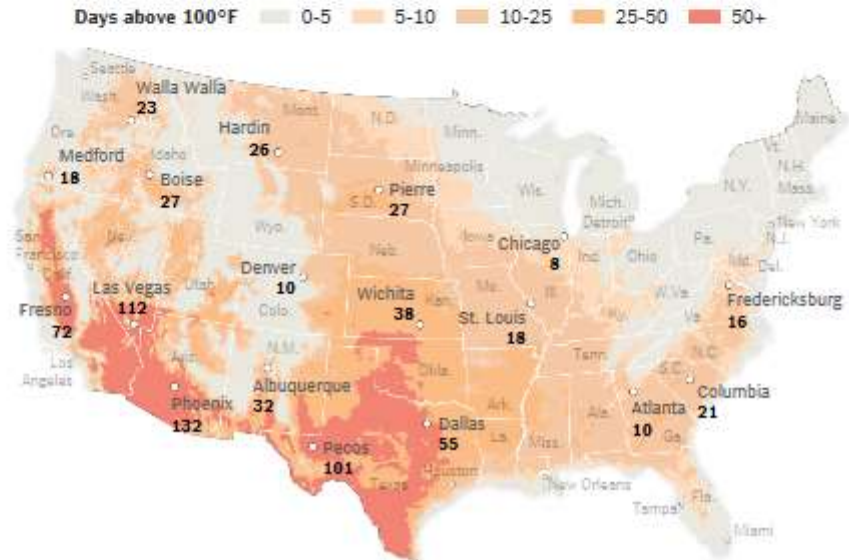

Fourteen of the 15 hottest years have occurred since 2000, as heat waves have become more frequent, more intense and longer lasting. A [study](#) in the journal *Nature Climate Change* last year found that three of every four daily heat extremes can be tied to global warming.

This map provides a glimpse of our future if nothing is done to slow climate change. By the end of the century, the number of 100-degree days will skyrocket, making working or playing outdoors unbearable, and [sometimes deadly](#). The effects on our health, air quality, food and water supplies will get only worse if we don't drastically cut greenhouse gas emissions right away.

7.3 magnitude earthquake strikes southeast Atlantic

Posted on [August 25, 2016](#)

August 2016 – SOUTH ATLANTIC – A major earthquake with a magnitude of 7.3 on the Richter scale was reported in the Atlantic Ocean, to the south-east of Argentina on Friday. According to an observatory in Germany, it occurred about 1,500 miles east of the southern tip of Argentina.

The German Research Center for Geosciences said that the earthquake struck early on Friday, August 19th and the epicenter was near the British administered South Georgia Island region. No tsunami alert has been issued by authorities. The US Geological Survey said that the epicenter was 195 miles (316 kilometers) from islands hosting a British Antarctic research station. The quake struck at 5:32 am local time (0732 GMT) at a depth of 10 kilometers. –[IB Times](#)

(Photo: Filippo Monteforte, AFP/Getty Images)

ROME — A powerful earthquake toppled homes, churches and shops in a wide swath of medieval towns in central Italy Wednesday, killing at least 247 people and injuring hundreds of others, according to Italy's civil protection agency.

Dozens more were missing or feared dead from the magnitude-6.2 earthquake and a series of aftershocks that jolted Umbria, Lazio and Le Marche, three regions 80 to 100 miles northeast of Rome.

Rescue teams using bulldozers, and aided by townspeople with their bare hands, were still poring through the piles of rock, metal and wood late Wednesday looking for possible survivors. Police near the town of Ascoli said they could hear cries for help from under the rubble but lacked the heavy equipment to move the rocks, according to the RAI radio.

"We need chain saws, shears to cut iron bars, and jacks to remove beams: everything,

High warning alert for Vanuatu volcano

RUBY TAYLOR
Wednesday, August 24, 2016

Update: 2:38PM VANUATU Authorities have upgraded warnings around Ambae Volcano in northern Vanuatu, Radio New Zealand has just reported.

According to radionz, the country's Geohazards Observatory has raised the alert to Level two on a scale of one to five which signifies the volcano is in a stage of major unrest.

"The observatory says volcanic activity could increase at any time over the next few days.

"It's warned the local community, tourists and travel agencies to stay well away from the Manaro crater lakes to avoid the effects of volcanic gas, ash and other volcanic activity," radionz reported.

The Department of Meteorology and Geohazards is closely monitoring the volcano which last erupted in 2009.

Iceland Raises Alarm After Largest Volcano Starts to Rumble

by Omar Valdimarsson

August 29, 2016 – 3:58 AM MDT

Iceland raised the alarm after its largest volcano was hit by the biggest tremors since 1977.

Two quakes larger than 4 in magnitude early Monday rocked the crater of Katla, the country's Met Office said in a statement. That was followed by at least 10 more tremors at the volcano, which rises 1,450 meters (4,757 feet) into the air on the North Atlantic island's southern coast.

There were no immediate reports of casualties or damages to property.

Katla last erupted in 1955 and 1999. Neither of those were large enough to break the ice covering its 10 kilometer-wide (6 mile) caldera. Its last major eruption was back in 1918, when it spewed ash for more than five weeks.

An eruption of the Eyjafjallajokull volcano in 2010 caused the cancellation of more than 100,000 flights across Europe on concern that glass-like particles formed from lava might melt in aircraft engines and clog turbines. Historically, Eyjafjallajokull has been known to erupt one to two years prior to Katla.

Odisha: Chicken deaths spark bird flu scare

Veterinary experts who inspected the poultry farm allayed fears of flu and said chickens died of coccidiosis disease.

By: PTI | Kendrapara | Published: August 17, 2016 3:26 pm

En-masse death of over a thousand chickens at a poultry farm in a seaside village triggered panic with the locals suspecting the death to be an outbreak of bird flu.

However, veterinary experts who inspected the poultry farm in Kharinasi village allayed fears of flu and said the chickens died of coccidiosis disease not bird flu.

"Around 1,100 birds including chicks died during the past one week. After the deaths were reported to us by the farm owner Bankim Majhi, we rushed to the poultry farm. After sounding an alert, the bodies of chickens were subjected to laboratory test at the district veterinary college," Chief District Veterinary Officer (CDVO), Chaitanya Charan Sethy said.

"Some of the samples were sent for test to the Animal Disease Research Institute near Bhubaneswar," he said.

The untimely death of chickens in the farm had fuelled fears of bird flu among the locals. But preliminary tests conducted on the birds found dead have ruled out bird

WASHINGTON, D.C. — Officials believe the recent extreme heat has been responsible for the deaths of several hundred fish found belly-up in a pond on the National Mall.

A mix of bluegill, sunfish and bass was found dead this week in the pond at Constitution Gardens. The shallow pond sits just west of the World War II Memorial.

National Park Service spokesman Mike Litterst says he did not have an exact number of the number of fish that have died.

Officials say the recent heat likely spurred on the growth of algae, robbing the water

By RAUL GARCIA Staff Writer

RIO HONDO — It got a little fishy on the Arroyo Colorado earlier this week.

On Monday, thousands of fish were found floating dead in the water.

"You could smell them even before you could see them," said Al Ziegelgruber, 77, a Rio Hondo resident. "They were rotting fast."

By yesterday afternoon, the thousands of fish that had covered the water in the Rio Hondo area had all but disappeared.

Rio Hondo Public Safety Director William Biloquory said the Texas Commission on Environment Quality was in town and tested the water.

Raul Garcia/Valley Morning Star

Only small numbers of the dead fish could be found under the Rio Hondo bridge yesterday. Some of the fish that were found dead in the water were flounder, shad and catfish.

Workers doing construction work around the Rio Hondo bridge worked around the dead fish floating down the river.

Even crabs were seen to have come all the way up to the shoreline to get out of the water.

Witnesses said the fish covered the river from upstream going downstream toward Arroyo City.

Ziegelgruber lives on the river more than three miles downstream from the Rio Hondo bridge and has been fishing on the arroyo for many years.

Hundreds of dead fish turn up in Bronx Hutchinson River

Updated August 19, 2016 10:32 PM

5 Comments

Meteorologist Mike Favetta offered insight into the phenomena, suggesting that there is not enough oxygen in the water during hot summer months so fish simply die. (8/19/16)

THE BRONX - Hundreds of dead fish are turning up in the Hutchinson River in the Bronx.

A viewer reported seeing the fish floating on top of the water, but it's not just the sight of dead fish that they reported, it was also the smell.

The odor of dead fish can be smelled around the area, causing many workers at a scrap yard close by to avoid the area.

'Unprecedented': Deadly parasite kills thousands of fish, prompts Yellowstone river closure

Published time: 20 Aug, 2016 03:49

[Get short URL](#)

© Iggooy el Fitra / Reuters

Nearly 200 miles of a popular Yellowstone river is closed to the public, as thousands of fish have gone belly up in an "unprecedented" way. Officials in Montana suspect the cause is a human-spread parasitic disease.

Fishing, rafting, swimming and other water-based recreational activities were banned for an undetermined amount of time as of Friday morning. The immediate closure is stretching from Yellowstone National Park's northern boundary at Gardiner to the Highway 212 Bridge in Laurel, the area surrounding the affected zone.

Thousands of dead fish found in Pamlico River

Posted: Mon 5:13 PM, Aug 22, 2016 | Updated: Mon 9:31 PM, Aug 22, 2016

BEAUFORT COUNTY, NC (WITN) - Authorities are investigating thousands of dead fish found in the Pamlico River.

Pamlico-Tar Riverkeeper Heather Jacobs Deck says reports started coming in this afternoon upstream of Bath Creek and also at Core Point.

So far, all of the killed fish are menhaden.

Jacobs Deck says the kill is likely due that some of the algae bloom last week is starting to die off, causing low oxygen conditions in the river.

The riverkeeper says a swim advisory was supposed to be issued by the state for the area, but we haven't seen one yet.

North Korea claims it's now able to nuke U.S.

Christopher Woolf, GlobalPost 1:44 p.m. EDT August 26, 2016

North Korea says it launched a missile from a submarine. The country says the launch gives it a fully equipped nuclear attack capability and puts the U.S. mainland within striking distance. (Aug. 25) AP

(Photo: KNS, AFP/Getty Images)

The nation is celebrating its first successful test of a submarine-launched missile.

The country's leader — Kim Jong Un — says the U.S. mainland is now within striking range of his nuclear weapons.

That sounds like a threat.

Joel Wit, a former U.S. nuclear negotiator with North Korea, says he's concerned, but not worried. "Because — despite this success — we're not within striking range of their nuclear weapons."

The threat to the U.S. mainland does not yet exist; there's no evidence North Korea has yet been able to miniaturize its nuclear weapons to fit into a warhead.

It's also extremely unlikely they could get a submarine within range of the U.S. coast: The new North Korean missile only appears to have a range of about 600 miles. But Wit says there is cause for concern, "because this is just one more step in

Air Force beefs up Guam fleet with bombers

Published August 19, 2016 · FoxNews.com

A B-52 Stratofortress, B-1 Lancer and B-2 Spirit fly over Guam after launching from Andersen Air Force Base, Guam, for an integrated bomber operation Aug. 17. (US Air Force photo/Senior Airman Joshua Smoot)

In a strong and unmistakable signal to North Korea and China, the U.S. Air Force has deployed three types of strategic bombers to its base on Guam.

A senior defense official told Fox News the B-1, B-2 and B-52 bombers are together for the first time in the Pacific. The muscling up comes after China's recent rejection of an international tribunal saying its claims to the South China Sea, where it has constructed artificial islands, are not valid.

China responded to the ruling by launching fighter jets. Satellite photos show new hangars on its contested islands in the South China Sea. In addition, North Korea recently launched a ballistic

Reports: North Korea test fires missile toward Japan

Melanie Eversley, USA TODAY 8:22 a.m. EDT August 24, 2016

(Photo: Jung Yeon-Je, AFP/Getty Images)

North Korea fired a submarine-based missile toward Japan Wednesday, CNN, Reuters and other news organizations are reporting, attributing the word to South Korea's Joint Chiefs of Staff and its Defense Ministry.

The missile was fired at around 5:30 a.m. local time from the city of Sinpo on North Korea's east coast, Reuters reported.

The act is one of a series of launches conducted by the country in defiance of [United Nations sanctions](#).

The launch comes during an annual drill between the United States and South Korea that involves 25,000 U.S. troops, CNN reported. North Korea has called the exercises preparation for invasion and has threatened retaliation, according to Reuters.

The missile traveled more than 300 miles toward Japan and [U.S. Pacific Command](#) tracked it into the [Sea of Japan](#), CNN reported.

The launch was believed to be "part of North Korea's armed protest to escalate military tension in the Korean Peninsula using annual U.S.- South Korea joint drill as an excuse," read a statement from the South Korea Joint Chiefs of Staff, CNN reported.

The launch appeared to be North Korea's most successful attempt so far at launching a submarine-based ballistic missile, the BBC reported. Such launches are considered particularly tricky because preparation for launch can be difficult to detect, according to the BBC.

Though the missile went down into the sea, it penetrated an air defense security zone outside of Japan, the BBC reported.

Three Reasons Why Russia, Iran and Turkey Should Foster Political, Military Ties

POLITICS 16:20 27.08.2016 [Get short URL](#)

8 4241 17 6

Russia, Iran and Turkey have increasingly improved their political and military cooperation in a bid to tackle Daesh and resolve the Syrian crisis. The China Youth Daily singled out three reasons behind this process.

While Moscow and Tehran have long fostered working relations, bilateral ties between Moscow and Ankara were damaged when Turkey, a NATO member and a key Washington ally in the region, downed a Russian bomber in northern Syria.

*"Disagreement with NATO on ways to fight Daesh in Syria and the botched coup prompted Ankara to turn to Russia. According to available information, Recep Tayyip Erdogan managed to prevent the military coup from succeeding because Moscow shared intelligence data with him," the newspaper **noted**.*

U.S. Navy ship fires warning shots at Iranian vessel

By Idrees Ali August 25, 2016

By Idrees Ali

WASHINGTON (Reuters) - A U.S. Navy ship fired warning shots toward an Iranian fast-attack craft that approached two U.S. ships, a Pentagon spokesman said on Thursday, in the most serious of a number of incidents in the Gulf area this week.

"They did feel compelled ultimately to fire three warning shots and the reason for that is... they had taken steps already to try and de-escalate this situation," spokesman Peter Cook told reporters.

Tensions have increased in the Gulf in recent days despite an improvement in relations between Iran and the United States.

Years of mutual animosity eased when Washington lifted sanctions on Tehran in January after a deal to curb Iran's nuclear ambitions but serious differences still remain over Iran's ballistic missile program, Syria and Iraq.

A U.S. defense official, speaking on the condition of anonymity, said the USS Squall patrol craft fired three warning shots from a .50 caliber gun in the northern Gulf on Wednesday after warning flares did not work.

The incident started with three Iranian vessels, but there was only one around by the time the warning shots were fired, the official said. He described the Iranian behavior as "unsafe, unprofessional, and not routine."

At one point, the Iranian vessel came within 200 yards (193 meters) of a U.S. ship, the official said.

Another interaction took place between an Iranian and U.S. ship on Wednesday,

U.S. CALLS ON AMERICANS TO LEAVE GAZA 'AS SOON AS POSSIBLE'

BY JACK MOORE ON 8/24/16 AT 3:57 AM

WORLD

GAZA

US

The United States on Tuesday called on Americans in the Gaza Strip to leave the coastal enclave "as soon as possible."

Palestinian militants and the Israeli military have not engaged in a conflict since the seven-week war that began in July 2014 and left more than 2,200 Palestinians and 70 Israelis dead but flare-ups have been intermittent, particularly on the border between the two territories.

The U.S. State Department said that Americans in Gaza should enter into Israeli or Egyptian territory when they could due to the security threat to its citizens.

DHS Preparing For Nuke Attack With Massive Order For Radiation Detectors

27 AUGUST, 2016

(Reported By **Mac Slavo**) Earlier this year we reported that Texas game wardens on the southern border have been issued radiation detectors due to concerns that a nuclear or radiological device could be smuggled into the United States through the porous Mexican border. It appears that the Department of Homeland Security is also taking the potential for a nuclear-based weapon of mass destruction seriously. According to a new report from NextGov the government has ordered some \$20 million worth of wearable intelligent nuclear detection (WIND) units in an effort to

Sunni extremists are infiltrating the United States with the help of alien smugglers in South America and are crossing U.S. borders with ease, according to a U.S. South Command intelligence report.

The Command's J-2 intelligence directorate reported recently in internal channels that "special interest aliens" are working with a known alien smuggling network in Latin America to reach the United States. The smuggling network was not identified.

Army Col. Lisa A. Garcia, a Southcom spokeswoman, did not address the intelligence report directly but said Sunni terrorist

infiltration is a security concern.

"Networks that specialize in smuggling individuals from regions of terrorist concern, mainly from the Afghanistan-Pakistan region, the Middle East, and East Africa, are indeed a concern for Southcom and other interagency security partners who support our country's national security," Garcia told the *Washington Free Beacon*.

"There are major hubs that serve as entry points into the region for migrants from those areas of concern attempting to enter the U.S. along our border with Mexico," she said.

The infiltrators from terrorist states and unstable regions exploit vulnerabilities in commercial transportation systems and immigration

Last week the Obama Administration approved its largest-ever release of detainees from Guantanamo Bay, sending 15 extremists back into the world.

By now, the pattern has become familiar: the President lets hardened terrorists go free, Congress and the American people express outrage, and the White House ignores the uproar.

But the grave risks of this policy *cannot* be ignored. The President is giving terrorists a one-way ticket back to the battlefield.

AMMAN, Jordan - The U.S. will reach its target this week of taking in 10,000 Syrian warrefugees in a year-old resettlement program, the U.S. ambassador to Jordan said Sunday, after meeting families headed to California and Virginia.

The resettlement program has emerged as an issue in the U.S. presidential campaign, with Republican nominee Donald Trump alleging displaced Syrians pose a potential security threat.

Alice Wells, the U.S. ambassador to Jordan, said Sunday that keeping Americans safe and taking in some of the world's most vulnerable people are not mutually

FBI says foreign hackers penetrated state election systems

Michael Isikoff
August 29, 2016

The FBI has uncovered evidence that foreign hackers penetrated two state election databases in recent weeks, prompting the bureau to warn election officials across the country to take new steps to enhance the security of their computer systems, according to federal and state law enforcement officials.

The FBI warning, contained in a "flash" alert from the FBI's Cyber Division, a copy of which was obtained by Yahoo News, comes amid heightened concerns among U.S. intelligence officials about the possibility of cyberintrusions, potentially by Russian state-sponsored hackers, aimed at disrupting the November elections.

Those concerns prompted Homeland Security Secretary Jeh Johnson to convene a conference call with state election officials on Aug. 15, in which he offered his department's help to make state voting systems more secure, including providing federal cybersecurity experts to scan for vulnerabilities, [according to a "readout" of the call released by the department](#).

Johnson emphasized in the call that Homeland Security was not aware of "specific or credible cybersecurity threats" to the election, officials said. But three days after that call, the FBI Cyber Division issued a potentially more disturbing warning, titled

Phasing in cleaner air.

The US Air Force reveals radical plan to 'bomb the sky' to improve radio reception

- CubeSats carrying ionized gas could create radio-reflecting plasma
- This would occur in the ionosphere, which becomes denser at night
- Bouncing signals between ground and ionosphere can improve range

By CHEYENNE MACDONALD FOR DAILYMAIL.COM

PUBLISHED: 17:34 GMT, 22 August 2016 | UPDATED: 19:40 GMT, 22 August 2016

A fleet of tiny satellites could one day be used to detonate plasma bombs in Earth's upper atmosphere to improve the range of radio communications.

The US Air Force has granted contracts to three research teams to develop the technology needed to do this, with hopes that CubeSats could carry massive amounts of ionized gas to the ionosphere to create radio-reflecting plasma.

The ionosphere begins roughly 40 miles above the surface and becomes denser with charged particles at night, allowing signals to travel much farther.

Over the past few years China has shown increased interest in exploring the moon and space, with its Jade Rabbit lunar rover and the world's biggest radio telescope.

Now the country is looking into building a manned radar station on our natural satellite, in order to monitor our planet in more detail than current satellites allow.

But experts have said the potentially massive cost of the project could outweigh the benefits.

Scientists install 'memories' in DNA of human cells

Published time: 22 Aug. 2016 20:44

Edited time: 23 Aug. 2016 14:01

[Get short URL](#)

© mit.edu

Scientists have managed to record histories in the DNA of human cells, allowing them to recall past "memories." The advancement could prove vital for researchers studying how cells undergo genetic changes that lead to disease.

The advancement was made by biological engineers at Massachusetts Institute of Technology (MIT), using the genome-editing system CRISPR. The system consists of a DNA-cutting enzyme called Cas9 and a short RNA strand. The strand guides the enzyme to a specific area of the genome, directing Cas9 where to make its cut.

Although CRISPR is well known for its gene editing capabilities, the MIT team managed to use it for memory storage – the first that can record the duration and intensity of events in human cells. Such memories include events such as inflammation.

Pennsylvania Residents Left Baffled By Mystery 'Sonic Boom'

22 AUGUST, 2016

Mystery booms have been popping up all over the Nation over the last few years and now residents in Pennsylvania are left scratching their heads. The question is, what caused the loud blast heard by many throughout the area? At approximately 12:15 a.m. Sunday many residents across the Hazleton area reported experiencing what sounded and felt like a "sonic boom" — rattling windows, and "echoing like an explosion."

A prominent Iranian ayatollah says the Mahdi, the end-times Muslim savior, will come back in a spaceship with the sound "of thunder and its power and speed is that of lightning."

Actually, his recent explanation wasn't completely clear.

"It is like a spaceship and like other swift and amazing space vessels that are found [only] in stories today, but nobody knows how close [these vessels] come to truth and reality. Maybe it will be like [a spaceship] but in any case it is not a spaceship," he said.

Detroit Has Gone From Being The Greatest Manufacturing City In The World To A Global Joke

By Michael Snyder, on August 22nd, 2016

In 1960, the city of Detroit was the greatest manufacturing city that the world had ever seen. Nearly two million people lived there, and it had the highest per capita income in the United States. That may be hard to believe, because today it actually has one of the lowest per capita incomes of all of our major cities. Over the decades more than a million people have left the city, and thousands of abandoned homes have been torn down. But there are still tens of thousands of abandoned dwellings that remain standing, and some have sold for as little as one dollar in recent years. Once Detroit was the envy of the entire planet, but now it has become a global joke and in other countries they love to do news stories about "the ruins of Detroit" to show how rapidly America is rotting and decaying. Sadly, Detroit is far from alone, because there are other formerly great manufacturing cities that have declined just as fast as Detroit has.

Earlier today, I came across a video that contains footage that someone recently captured as they drove through the city of Detroit at night. To say that the footage is disturbing would be a tremendous understatement...

Activist Seeks 'Aggressive Punishment' Of Air Force Major Who Left Open Bible On Desk

22 AUGUST, 2016

Perhaps you remember the story we brought you last week on the Air Force Major who left his Bible open on his desk and resulted in attack from an activist organization. Well now the leader of this prominent activist organization that seeks to separate God from the military is asking that the Air Force "aggressively punish" a superior officer who has long displayed an open Bible on his desk. According to reports, Mikey Weinstein of the Military Religious Freedom Foundation (MRFF) recently sent a letter to Col. Damon Feltman, the commander of the 310th Space Wing at the Peterson Air Force Base in Colorado Springs, to issue a complaint about the Bible displayed by Maj. Steve Lewis, a supervisor at the Reserve National Security Space Institute.

Maryland School Official Claims Students OK With Transgenders Bunking With Girls; Parents Are The Ones With Problem

28 AUGUST, 2016

UPDATE: A Maryland school official who recently stirred controversy for saying that transgender students should be allowed to bunk on school-related trips with the gender group of their choice, told The Christian Post that the students “get it” when it comes to transgender acceptance. Bob Mosier, chief communications officer for Anne Arundel County Public Schools, told CP on Friday that the district has long respected the rights of students regardless of their race, religion, sex, cultural background, or gender identity, among other labels.

Israel's first transgender beauty pageant

A behind the scenes look at the Jewish, Muslim, and Christian contestants vying for the title of Miss Trans Israel

Caroline *Cakebread*

Beauty pageants are ubiquitous the world over. But in Tel Aviv this year, one beauty pageant became historic — Miss Trans Israel was the country's first-ever transgender beauty pageant.

Five States Sue Obama Admin Over Rules That Might Require Doctors To Perform Sex Change Operations

24 AUGUST, 2016

A new report tonight reveals that Five states have filed a legal challenge against the Obama administration over its recently-released healthcare rules, which some believe might be used to force doctors to perform sex change operations or other services that may violate their conscience. Texas, Wisconsin, Kentucky, Nebraska and Kansas are all a part of the suit, as well as the Christian Medical and Dental Association and the Roman Catholic Franciscan Alliance.

BREAKING NEWS TEHRAN WARNS US TO STAY OUT OF

MD School District Admits It Won't Inform Parents If Transgenders Bunk With Daughters On Field Trips

25 AUGUST, 2016

Once again, "the State" oversteps its boundaries and assumes the role of parent — or better put, seeks to usurp the role of parent. A new report in the The Washington Times reveals how a Maryland school district is training its faculty and administrators how to accommodate transgender females, particularly during overnight field trips. The issue, according to Bob Mosier, a chief spokesman for Anne Arundel County Public Schools, is that these transgender females wish to bunk with other girls during field trips and that there is no question the school will allow

فلهذا اطلب أن نصلي ونستعد ونعد زيت لمصايبحنا لاستقبال العريس بالصلاة والصوم وخدمة

أبناء الله وتنقية القلب والاستعداد بلبس العرس.

رسالة بولس الرسول الي أهل رومية 13

13: 11 هذا وأنكم عارفون الوقت انها الان ساعة لنستيقظ من النوم فان خلاصنا الان أقرب مما

كان حين امنا

13: 12 قد تنهى الليل وتقارب النهار فلنخلع اعمال الظلمة ونلبس اسلحة النور

13: 13 لنسلك بلياقة كما في النهار لا بالبطر والسكر لا بالمضاجع والعهر لا بالخصام والحسد

13: 14 بل البسوا الرب يسوع المسيح ولا تصنعوا تدبيراً للجسد لأجل الشهوات

احترس ان لم تتمسك بالمسيح من الان قد لا تستطيع في المستقبل القريب بسبب الظلام.

وكما قلت هو اخبرنا لكي لا نخاف

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب انظروا لا ترتاعوا لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

بطرس الأولى 3: 14

وَلَكِنْ وَإِنْ تَأَلَّمْتُمْ مِنْ أَجْلِ الْبِرِّ، فَطُوبَاكُمْ. وَأَمَّا خَوْفُهُمْ فَلَا تَخَافُوهُ وَلَا تَضْطَرُّوهُ،

بل نؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

افرحوا لان عريسنا قد اقترب مجيؤه. وانتبهوا الشيطان يريد أن نفقد سلامنا ولا ننال أكاليل.

وأيضاً استعدوا فقد تسلموا وديعتكم في أي وقت فهناك 150 ألف شخص يموتوا في اليوم الواحد

انت لا تعرف متى ستكون منهم

المسيح اقترب فاصنعوا ثمار تليق بالتوبة واستعدوا لاستقبال العريس.

والمجد لله دائماً
