والعلامات حتى 20 سبتمبر 2016

Holy_bible_1

اكرر اننا لا نحدد مواعيد بل فقط نشجع بعضنا بعضا بقرب مجيء المسيح

وأیضا لا اقصد ان اخيف أحد بل من يخاف هو لا يثق في مواعيد الرب

هذفي فقط أن نذكر بعضنا باننا نحتاج ان نستعد. والاستعداد ليس فقط قبل مجيء المسيح بل

ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة

وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من

الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا

لان الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة

لان وقتها جميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك

زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان
سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات ولكنه يأتي بسرعة
بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي المسيح في زمنه
ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَأَن تُوْمِنُونَ.

ثالثا لننتبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَاَنْتَصِبُوا وَاَرْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ».

The world is still vulnerable to a potentially catastrophic asteroid strike, according to President Barack Obama's chief science adviser.

NASA has made substantial progress in finding the [asteroids](#) that pose the biggest threat to Earth, but there's still a lot of work to do, said John Holdren, director of the White House's Office of Science and Technology Policy.

"We are not fully prepared, but we are on a trajectory to get much more so," Holdren said today (Sept. 14) at NASA's Goddard Space

Super Typhoon Meranti to strike Taiwan with flooding rain, damaging winds Wednesday

By [Jordan Root](#), Meteorologist
September 13, 2016; 4:50 AM ET

[Share](#) | [f](#) [t](#) [in](#) [G+](#)

Super Typhoon Meranti will hold on to its intensity over next couple of days before pounding Taiwan with flooding rain, damaging winds and dangerous storm surge on Wednesday.

Meranti, currently equivalent to a Category 5 hurricane, reached super typhoon status on Monday afternoon local time. A super typhoon is classified when sustained wind speeds hit at least 240 km/h (150 mph).

"Meranti will be traveling through an environment with low wind shear and very warm ocean water which is favorable for holding on to this strength," AccuWeather Meteorologist Adam Douty said.

Super-Typhoon lashes South Taiwan leaving thousands without power

Posted on September 14, 2016

September 2016 – TAIPEI, Taiwan – Record-breaking winds and heavy rains disrupted transport today as Super-Typhoon Meranti cut a path across southern Taiwan and headed toward China. Toppled trees and storefront signs were strewn about a thoroughfare in Kenting National Park's Hengchun Township, images on Taipei-based Sanlih E-Television showed. Wind speeds of 52.2 meters per second (117 miles per hour) were the fastest since record-keeping began in 1896, according to the Taipei-based Apple Daily. Schools, offices and markets remained open in the capital of Taipei.

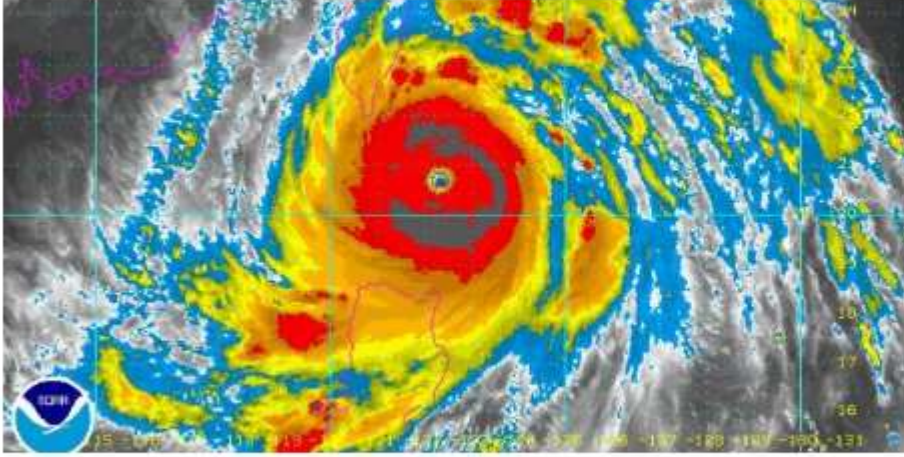

The super-typhoon comes just before a four-day weekend in Taiwan beginning Thursday, marking the Mid-Autumn Festival holiday. Most flights in and out of the southern port city of Kaohsiung were canceled, according to the Civil Aeronautics Administration. The Taiwan Railways Administration suspended train service for routes in the south and east, while schools and offices in the areas were closed. Cathay Pacific Ltd. canceled eight flights between Hong Kong and Kaohsiung, according to its website. EVA Airways Corp. also

Typhoon Meranti Is Officially One Of The Most Powerful Cyclones Ever Recorded

14 SEPTEMBER, 2016

Typhoon Meranti is a scary, powerful storm. And it's about to crash into Taiwan. A Category-5 tropical cyclone with sustained winds as fast as 185 miles-per-hour and gusts reaching 225 mph, Meranti poses a serious danger to the island nation and Southeastern China. It's expected to make landfall Thursday.

N. Korea says floods 'worst disaster' since WWII

AFP • September 14, 2016

UN says 138 people have died and 400 are missing after torrential rains caused devastation in North Korea (AFP Photo/Murat Sahin)

Seoul (AFP) - Floods in North Korea that have left hundreds dead or missing are the "worst disaster" to hit the country since World War II, state media said on Wednesday.

The official KCNA news agency did not give exact numbers of those killed or unaccounted for, but a UN report said 138 people have died and 400 are missing after torrential rains caused devastation in the country's far north.

The floods along the Tumen River, which partially marks the border with China and Russia, tore through villages, washing away buildings and leaving thousands in urgent need of food and shelter.

"The flood that resulted from the typhoon that hit North Hamgyong province from August 29 to September 2 was the worst disaster since liberation from Japanese

Tropical Storm Julia a Flood Threat for Coastal South Carolina

Published:

By Jonathan Belles and Brian Donegan

weather.com

Sep 14 2016 05:00 PM EDT

Watching Julia: Tropical Storm Crawling Northeast
Meteorologist Kait Parker is tracking Tropical Storm Julia that is making it's way up the Southern East Coast bringing heavy rain to parts of coastal Georgia and the Carolinas.

Story Highlights

Tropical Storm Julia is moving slowly northeast just off the Georgia coast.

Flooding rainfall is the main threat from this system in the coastal Southeast.

Tropical Storm Julia is crawling northeastward along the South Carolina coast near the Georgia/South Carolina border.

The main concern from Julia will be heavy rain along the immediate Southeast coast through late week, which could result in flooding.

There are no current tropical storm warnings in effect, but gusty winds are likely near the coast and in the nearshore waters.

Talk about some shocking news from the sky!

Scientists identified all-time world records for both the longest lightning bolt — nearly 200 miles — and the world's longest-duration lightning flash — over 7 seconds — according to a report released Thursday.

Both records were certified by the World Meteorological Organization, which is in charge of

documenting such things.

The record-long lightning bolt was spotted over Oklahoma on June 20, 2007, and traveled 199.5 miles, about three-quarters the length of the state. That's almost the distance from New York City to Washington, D.C.

New fault line discovered in Oklahoma after state rattled by strong 5.8 magnitude earthquake

Posted on [September 14, 2016](#)

September 2016 – OKLAHOMA – A magnitude-5.8 earthquake and a series of smaller aftershocks in Oklahoma has led to the discovery of a new fault line. The discovery stoked fears among some scientists about other unknown faults that could be triggered by oil and gas wastewater that's being injected deep underground. State and federal regulators this week said 32 disposal wells in northeastern Oklahoma must shut down because they are too near the newly discovered fault line that produced the state's strongest earthquake on record on Sept. 3. The quake shook Wichita and many other parts of Kansas. It caused minor damage to some city and county buildings.

Jeremy Boak, head of the Oklahoma Geological Survey, said it's possible that a large "pulse" of disposed wastewater is slowly moving deep underground and triggered the temblor along the new fault located near the town of Pawnee, farther east than most of the previous earthquake activity in Oklahoma. "My inclination is to worry about the (fault) we don't know about yet, more so than about another very large earthquake in this area," Boak said. "My general feeling is that the rate of earthquakes is declining. I'm more concerned, I think, about whether there's another one of these faults out here that is queued up and ready to go."

Boak said it's also possible that some aftershocks greater than magnitude 4 could still be triggered along the newly discovered fault that has yet to be named. The Pawnee quake damaged more than a dozen buildings and slightly injured one man when part of a chimney collapsed. It shook several states, including Kansas, Missouri and Arkansas, and was reportedly felt more than 1,000 miles away in Florida and Nevada,

Another Bird Flu Outbreak Found in China

08 September 2016

CHINA - A new outbreak of H5N6 highly pathogenic avian influenza has been reported in Guizhou province, China.

The farm affected lost all of its over 23,000 birds after 7,167 died and another 16,717 were destroyed to prevent the disease from spreading.

The source of the outbreak is unknown, but it is being controlled by movement controls, screening, disinfection and modified stamping out.

Farmed fish dying due to mystery disease

- KAMAL PANTHI, BARDIA

AdChoices (Farmed Fish) (Fish Table) (Pond Fish) (Fish Farms)

Sep 10, 2016- Nearly 50,000 fish have perished in the past one month in different parts of Bardia due to a mystery disease.

Most of the deaths have been reported from Sorahawa and Basgadi which are known as fish pocket areas. Fish farmers said that around 1,000 fish farmed in ponds and lakes were dying daily.

Fish ponds are filling up with dead fish and farmers have not been able to identify the disease that may cause their ruin. More than 20,000 fish raised on 75 hectares in Bardia Lake have died.

Pushpa Bhusal of Sorahawa has been rearing fish in the lake. He has leased the lake from the district development committee to rear fish. Local fish farmer Lallu Ram Tharu said he was losing 200 to 300 fish daily.

47 tons of fish found dead at aquatic farms in central Vietnam

By Le Hoang September 10, 2016 | 09:00 am GMT+7

f t Q

The dead fish is sold in a local market. Photo by VnExpress/Le Hoang

The fish raised for export purpose died as seawater turned red.

About 47 tons of fish were found dead at aquatic farms on September 8 in a bay near Ngoc Island, Nghi Son Commune, Tinh Gia District, Thanh Hoa northern central province.

The dead fish, worth about VND8 billion (\$354,000), belong to 21 households in Nghi Son, according to Nghiem Xuan Dung, vice chairman of the commune. There are total 60 fish farm households in the bay.

IDAHO FALLS - The Idaho Department of Fish and Game says biologists have confirmed thousands of dead whitefish on the South Fork of the Snake River in southeastern Idaho.

Biologists suspect it's an outbreak of proliferative kidney disease, the same pathogen responsible for killing thousands of whitefish in the Yellowstone River last month and which prompted the temporarily closure of large sections of that acclaimed river in Montana.

The same disease was responsible for whitefish die-offs on the South Fork of the Snake River in 2012.

The agency said in a news release Friday the outbreak is unlikely to affect the river's overall fish population.

It said fisheries biologist Brett High boated a stretch of the river and saw thousands of dead white fish in eddies and along the banks, mostly in the upper river.

High said they also confirmed that "healthy whitefish and trout are still very abundant, and only a small percentage of fish showed signs of disease."

Turtle mortality in Gulf of Ulloa is not the fault of fishermen: Neri Estrada

the Sudcaliforniano
September 12, 2016

Elias Medina P.

La Paz, Baja California Sur.- Two weeks before the end of the ban on fishing in 1.9 million hectares of the Gulf of Ulloa, has become abundantly clear that they are not fishermen who cause the death of turtles because even if no nets and boats in the water, has an official record of 140 dead turtles so far in 2016, against 133 the previous year, said the delegate of SAGARPA, César Estrada Neri.

It has become clear; he stressed, the fishing industry has nothing to do with the phenomenon and although the ban continues until 30 September there is no need to wait for the end to determine that turtles die from other causes, but not by interaction with fisheries, Indian.

He said investigators will be to determine the origin of this problem, and recalled that this hypothesis finally showed was marked even before the ban, with only two cases of dead turtles because of the interaction with man.

In that regard, he ruled out the possibility that the period of ban on fishing in this region expands, and announced that from October 1 all riverine communities of this vast area of the Pacific coast back to normal.

Moreover, he hoped that this day will be published in the Official Gazette start date of the season shrimp catch, an activity that can be developed in Magdalena Bay but not at the site where you apply the ban, until the 1st of October.

Finally, Neri Estrada said the three study projects that are underway will determine the causes of this phenomenon and are on the same page, once it has been demonstrated that the fishing industry is not the originator of this mortality; from SAGARPA and Conapesca we have done our part and fishermen have complied with all punctuality and responsibility this restriction, chased away with it the risk of a fishing embargo by the United States to Mexico.

Birds turning up dead on Gulf Coast beaches

Posted: September 13, 2016 - 11:53pm | Updated: September 14, 2016 - 12:05am

By Associated Press

ST. PETE BEACH — Dozens of juvenile seabirds called black skimmers have been found dead along Gulf Coast beaches over the past six weeks, and experts say the deaths could be linked to pollution.

The Tampa Bay Times reports volunteers who have been monitoring the die-off suspect the dumping of more than 1 million gallons of municipal sewage into Boca Ciega Bay

in Pinellas County has something to do with it. Forty-six birds have been found dead.

Heavy rains in August prompted a number of Pinellas County cities to dump sewage into area waterways.

Experts say the cause of death could be salmonella, a virus or even red tide. Each of those potential causes could be related to the dumping of sewage.

Gulfport dumped 302,400 gallons into Boca Ciega Bay on Aug. 8.

Hurricane Hermine exacerbated the problem when its rains lashed the Florida peninsula earlier this month. An additional 892,500 gallons spilled Sept. 2, according to Gulfport public works director Don Sopak. That's when the storm made landfall in North Florida.

The sewage issue could worsen as the region grapples with the amount of waste that was spilled onto streets and waterways. St. Petersburg officials on Monday estimated that the city dumped about 70 million gallons of sewage into the waters of Tampa Bay. That brings the official total that local cities and counties dumped to 135.1 million gallons — a number that continues to rise.

Dead fish wash ashore

By Express News Service nri | Published: 15th September 2016 07:05 AM
Last Updated: 15th September 2016 07:05 AM

Email 1

PARADIP: Thousands of fishes have been found dead in the 25 km stretch between Jatadhari river mouth and Siali beach in Jagatsinghpur district. Even as fishes are lying dead for the last five days along the Paradip, Erasama, Balikuda coasts, the authorities concerned are yet to take any action. The fish varieties are Kantia, Borei, Khanga and Pomfret, weighing between five to 10 kgs. President of Jagatsinghpur Fishermen Association, Jeevanlal Behera said if fish deaths continue, the daily catch of local fishermen will be affected. He sought a high-level probe to inquire into the case. Environmentalists said climate change and rise in temperature could be the reasons behind fish deaths. Assistant Director of Fisheries (Marine), Biraja Mohapatra said intervention of the Odisha State Pollution Control Board has been sought. A similar problem was witnessed earlier this year in Paradip when dead fishes were found floating in river Balijhara in Paradip.

Thousands of dead fishes were found floating in river Kaudia after miscreants drilled a hole in an IOCL pipeline at Kaudia riverbed to steal fuel. Earlier, fishermen had alleged that oil spill from IOCL pipeline and discharge of effluents by other industries has led to heavy pollution of the water bodies. Pollution leads to shortage of oxygen in the water bodies, killing fishes, prawns and crabs. Officials of Odisha State Pollution Control Board had also ascertained that drop in the oxygen level in water bodies has led to death of fishes like Rohu, Mrigal and Catla.

Flooded Dhaka Streets Turn Blood-Red On The Eid Al-Adha Holiday

13 SEPTEMBER, 2016

Muslims around the world celebrated the Eid al-Adha holiday on Monday, one of the two most important festivals of the Islamic calendar. Marking the willingness of Ibrahim, or Abraham, to sacrifice his son on God's command, Muslims mark the holiday by slaughtering animals such as sheep and goats.

Leprosy Suspected in 2 California Kids: How Could They Contract It?

Los Angeles Times September 11, 2016

This x-ray of the hands of someone with leprosy was taken in Thailand. The disease causes deformities and contractures, seen here.

Two schoolchildren in California are suspected of having leprosy, but where might they have caught the disease?

This week, officials in Riverside County (which is near Los Angeles) said they are investigating the suspected cases of leprosy, now usually called Hansen's disease, at an elementary school in the area. Nursing staff at the school first notified officials about the possible infections on Sept. 2, but it will take several weeks to confirm them, [according to the Los Angeles Times](#).

Cases of Hansen's disease in the United States are rare, but they do occur, with about 100 to 200 cases typically reported each year, according to the Centers for Disease Control and Prevention. In 2014, there were 175 new cases of Hansen's

Syrian army says U.S.-led coalition jets bombed it in support of Islamic State

 **Reuters** September 17, 2016

BEIRUT (Reuters) - Syria's army general command said warplanes from the U.S.-led coalition bombed a Syrian army position at Jebel Tharda near Deir al-Zor airport on Saturday, paving the way for Islamic State fighters to overrun it.

The air strike killed Syrian soldiers and was "conclusive evidence" that the U.S. and its allies support the jihadist group, the Syrian army said in a statement, noting that the strike was "dangerous and blatant aggression".

The U.S.-led coalition has been conducting air strikes against Islamic State since September 2014. In December Damascus accused the coalition of striking an army camp near Deir al-Zor, but Washington said it was done by Russian jets.

A strike list issued by the U.S. on Saturday said it had carried out a strike at Deir al-Zor against five Islamic State supply routes, as well as strikes near Raqqa and elsewhere in Syria.

Syria's army controls Deir al-Zor airport and parts of the city which are otherwise entirely surrounded by territory held by Islamic State.

The United States and Russia agreed a deal on Syria last week, involving a ceasefire which came into effect on Monday, aid deliveries to besieged areas and eventual joint targeting of militant jihadist groups if the truce works out.

Syria's five-year civil war between President Bashar al-Assad and rebels seeking to topple him has drawn in regional and global powers and allowed militant jihadist groups including Islamic State to gain territory and inspire attacks.

War of words after US air strike in Syria

SEPTEMBER 18, 2016 5:52PM

Reuters

US-led coalition air strikes have reportedly killed dozens of Syrian soldiers, endangering a US-Russian brokered ceasefire and prompting an emergency UN Security Council meeting as tensions between Moscow and Washington escalated.

The United States military said the coalition stopped the attacks against what it had believed to be Islamic State positions in northeast Syria after Russia informed it that Syrian military personnel and vehicles may have been hit.

The 15-member Security Council met on Saturday night after Russia demanded an emergency session to discuss the incident and accused the United States of jeopardising the Syria deal.

The US ambassador to the United Nations, Samantha Power, chastised Russia for the move.

"Russia really needs to stop the cheap point scoring and the grandstanding," Power told reporters.

She said the United States was investigating the air strikes and "if we determine that we did indeed strike Syrian military personnel, that was not our intention and we of course regret the loss of life."

When asked if the incident spelled the end of the Syria deal between Moscow and Washington, Russia's UN Ambassador Vitaly Churkin said: "This is a very big question mark."

"I would be very interested to see how Washington is going to react. If what Ambassador Power has done today is any indication of their possible reaction then we are in serious trouble," Churkin told reporters.

IDF carried out airstrikes in Syria in response to mortar shell fired into Golan Heights; Syrian army claims it downed Israeli jet and drone- IDF refutes reports, releases statement

The IDF carried out airstrikes on two Syrian military positions Monday evening, targeting artillery batteries in response to a projectile that landed in Israeli territory the same evening. It is the second such incident since the Russian-US brokered ceasefire which went into effect on Monday.

Following the incident, the Syrian army claimed that it had downed an Israeli jet and drone early Tuesday morning, the IDF officially denying the reports. The General Command of the Syrian army claimed Tuesday morning that "Our air defenses blocked the attack and shot down the military aircraft in the southern province of Quneitra and a drone west of Sa'sa" in the province of Damascus."

A man sits on an old tank as he watches fighting taking place in Syria as seen from the Israeli side of the border fence between Syria and the Israeli-occupied Golan Heights September 11, 2016. REUTERS/Baz Ratner

BEIRUT/JERUSALEM (Reuters) – Israel said its aircraft attacked a Syrian army position on Tuesday after a stray mortar bomb struck the Israeli-controlled Golan Heights, and it denied a Syrian statement that a warplane and drone were shot down.

The air strike was a now-routine Israeli response to the occasional spillover from fighting in a five-year-old civil war, and across Syria a ceasefire was holding at the start of its second day.

Syria's army command said in a statement that Israeli warplanes had attacked an army position at 1 a.m. on

Iron Dome intercepts two rockets over Golan

For the first time ever, the anti-missile system is used operationally in the Golan Heights. The rockets were 'strays.'

Orli Harari, 17/09/16 21:01

Iron Dome system (Flash 90)

The Iron Dome anti-missile system intercepted two missiles or mortar shells fired from Syria Saturday afternoon at the Israeli Golan Heights. The interceptions – the system's first ever in the Golan Heights – were reportedly successful.

No one was hurt and no damage was caused.

Sources in the security establishment estimated that the rockets or mortar shells were "strays" from the civil war in Syria and that they were not intended to hit Israel.

A warning siren did not go off, but the IDF said that this was because the Iron Dome radar predicted that the missiles' trajectory would not

No injuries after device explodes before Marine charity run in New Jersey

Posted: Sep 17, 2016 10:25 AM MDT
Updated: Sep 17, 2016 10:25 AM MDT

An unknown device detonated in a garbage can Saturday morning before runners were set to take part in a third annual Semper Five run that benefits marines and sailors.

Runners were expected to be near the Seaside Park area at the time the blast occurred but the 5k race had been delayed due to an unattended backpack, officials told CBS NY.

"We have various K9s throughout the area, bomb dogs that are making sure the area is safe and secure," a law enforcement official told WCBS 880.

CBS NY reported that officials identified the device as a pipe bomb.

The FBI and the Department of Homeland Security are investigating the explosion and another suspicious package, NBC NY reported.

Charlottesville FD Investigating Underground Transformer Explosion - 00:51

Reported Explosion
DOWNTOWN CHARLOTTESVILLE

CHARLOTTESVILLE, Va. (WVIR) - The Charlottesville Fire Department was investigating a reported underground explosion of a transformer owned by Dominion on the Downtown Mall.

The fire chief says there was no fire or smoke, and no injuries from the reported explosion near the Downtown Mall between 3rd street and Water street.

"We are still investigation reports of an explosion on the street there there's no fire at this time there's no smoke. We are waiting on dominion power to arrive and assist us with the investigation," said Chief Mike Johnson.

Johnson says the damage was contained to the underground transformer. The situation has been turned over Dominion.

Islamic State claims responsibility for Minnesota mall attack

REUTERS September 18, 2016

By Dustin Volz and Alex Dobuzinskis

(Reuters) - A man who stabbed nine people at a mall in central Minnesota before being shot dead is a "soldier of the Islamic State," the militant group's news agency said on Sunday, as the FBI investigated the attack as a potential act of terrorism.

The man, who was wearing a private security uniform, made references to Allah and asked at least one person if they were Muslim before he assaulted them at the Crossroads Center mall in St. Cloud on Saturday, the city's Police Chief William Blair Anderson told reporters.

Authorities declined to identify the suspect, who was killed by an off-duty policeman, because the investigation was under way.

The Federal Bureau of Investigation considers the incident a "potential act of terrorism," Richard Thornton, FBI special agent in charge of the agency's Minneapolis division, told a news conference on Sunday.

He said the investigation was in its early stages and it was not known if the man had discussed his plan with others.

Authorities said earlier there were eight stabbing victims. One injured person transported himself to a hospital and was not initially counted, St. Cloud Mayor Dave Kleis told the news conference.

Three victims remained hospitalized as of Sunday but none had life-threatening injuries, Kleis said.

Kleis said Jason Falconer, the off-duty officer from the Avon Police Department, a jurisdiction outside of St. Cloud, "clearly prevented additional injuries and loss of life" by shooting the man.

ELIZABETH, N.J. — The bomb drama that rattled the New York region over the weekend arrived here on Sunday night when two men walked out of Hector's Place Restaurant near the city's train station and found a backpack containing five explosives resting atop a municipal garbage can, Mayor J. Christian Bollwage said.

After finding that the backpack contained "wires and a pipe," the mayor

(Reuters) – Facebook and Twitter have joined a network of over 30 news and technology companies to tackle fake news and improve the quality of information on social media, the group said on Tuesday.

First Draft Coalition, formed in June 2015 with the backing of Alphabet Inc's Google, said it would create a voluntary code of practice, promote news literacy among social media users, and launch a platform where members can verify questionable news stories.

The platform will be launched by the end of October, Jenni Sargent, managing director of the coalition, said in an email.

Members of the group include the New York Times, Washington Post, BuzzFeed News, Agence France-Presse and CNN.

How Google is helping to crack down on illegal fishing — from space

By Brady Dennis September 15

A new satellite-based technology from Google, Oceana, and SkyTruth aims to help governments and the public track the movement of tens of thousands of fishing vessels across the world, in nearly real time. (Courtesy of Oceana)

Illegal and unreported fishing is a multibillion-dollar business around the globe, and one that has proven notoriously difficult to combat. In part, that's because it involves a constant stream of renegade fishermen being pursued by countries that have only limited resources to carry out a perpetual cat-and-mouse game on the high seas.

YOU'VE GONE TOO FAR: Eastern Europe makes five demands to block EU superstate

THE European Union appeared more fractured than ever today after a powerful group of eastern states laid down a series of demands over migration and the economy.

By NICK GUTTERIDGE

00:01, Sat, Sep 17, 2016 | UPDATED: 02:23, Sat, Sep 17, 2016

France, Spain and Italy have formed their own interest group to counter the power wielded by Merkel

Members of the influential Visegrad group, which comprises of Poland, Hungary, the Czech Republic and Slovakia, rejected migrant quotas and blasted the overbearing EU Commission with an incendiary ultimatum.

The group represents a faction of nations which have become increasingly concerned by authoritarian Brussels, with Poland and Hungary both locked in bitter legal battles with the EU.

Their demands come after a separate clique of Mediterranean states, including France, Spain and Italy, formed their own interest group to counter the power wielded by Angela Merkel.

Kentucky Governor Warns Patriots May Need To 'Shed Blood' If Clinton Gets Elected

14 SEPTEMBER, 2016

Kentucky Gov. Matt Bevin (R) said over the weekend that patriots may need to "shed blood" if Hillary Clinton is elected president. Bevin, speaking at the annual Values Voter Summit in Washington, D.C., said he was asked recently if the country would ever be able to "survive" if the Democratic nominee gets elected. He acknowledged that, while some have said "no," he does think the U.S. could "recover."

The site's casemate walls are reminiscent of the type of urban planning found only in Judah and Transjordan. (Maayan Jaffe-Hoffman/Jns.org)

Archaeologists believe they have found evidence of King David's footprints in a mysterious two-gated city from 3,000 years ago, mentioned in the Bible's story of David and Goliath.

The site is known by its modern name, Khirbet Qeiyafa, in Israel's Elah Valley.

After nearly seven years of excavations, the public can now explore the archaeological findings of Qeiyafa through "In the Valley of David and Goliath," a new Bible Lands Museum exhibition that opened earlier this week in Jerusalem. The Qeiyafa findings have sparked debate and intrigued historians and archaeologists since they were first revealed.

The city was discovered between Sokho and Azekah, on the border between the Philistines and the Judeans, in the place where David and Goliath battled. It's mentioned in the Torah in 1 Samuel 17:1-2.

Carbon-14 dating of some 28 charred olive pits found during excavations date the city as existing around the end of the 11th century BCE, until the early 10th century, in the days of Saul and David.

"No one can argue with this data," said Prof. Yosef Garfinkel, Yigal Yadin Chair of Archeology at the Institute of

Parents' fury after school gives them just THREE DAYS' notice that it will be shut so Muslim staff can celebrate Eid

- Chobham Academy in Newham, London, closed for Eid-al-Adha festival
- Religious leaders only announced festival would take place ten days ago
- Mother 'got text at 11am Friday saying school would be closed on Monday'
- School is partially closed for nursery, reception, Year 1 and Year 2 pupils
- CAGE group tried to use school to host talk involving Islamist extremists
- 'Super head' Mark Elms was Britain's highest paid headteacher on £276k

By AMIE GORDON FOR MAILONLINE

PUBLISHED: 08:19 GMT, 12 September 2016 | UPDATED: 19:37 GMT, 12 September 2016

An 1,800-pupil academy gave parents just three days' notice it was closing to allow staff to celebrate a religious festival.

Chobham Academy in Newham, east London, is partially closed today due to a 'high number of staff requesting leave for religious observance' for the Muslim festival Eid-al-Adha.

But families were given just days to find alternative childcare arrangements - with one saying working parents were being 'penalised'.

Like countless others, Rich McCormack snapped a photo of the Tribute in Light at the World Trade Center site.

But the freelance photographer from Jersey City got more than he bargained for when he captured the beams of light towering into the sky last week.

At the top of the beams appears to be a silhouette of an angel, though the photographer himself said it bears a striking resemblance to Jesus.

INDIANAPOLIS (AP) — The NCAA has pulled seven championship events from North Carolina, including opening-weekend men's basketball tournament games, for the coming year due to a state law that some say can lead to discrimination against LGBT people.

In a news release Monday, the NCAA says the decision by its board of governors came "because of the cumulative actions taken by the state concerning civil rights protections."

"This decision is consistent with the NCAA's long-standing core values of inclusion, student-athlete well-being and creating a culture of fairness," said Georgia Tech president G.P. "Bud" Peterson, the chair of the board of governors.

A page on UCL's website introducing the campaign asserts there are people who don't 'identify' as male or female and consider themselves to be "non-binary". Stressing the apparent importance of gender pronouns to such people, the page urges readers use

فلهذا اطلب أن نصلي ونستعد ونعد زيت لمصاييحنا لاستقبال العريس بالصلاة والصوم وخدمة أبناء الله وتنقية القلب والاستعداد بلبس العرس.

رسالة بولس الرسول الي أهل رومية 13

13: 11 هذا وأنكم عارفون الوقت انها الان ساعة لنستيقظ من النوم فان خلاصنا الان اقرب مما كان حين امنا

13: 12 قد تنهى الليل وتقارب النهار فلنخلع اعمال الظلمة ونلبس اسلحة النور

13: 13 لنسلك بلباقة كما في النهار لا بالبطر والسكر لا بالمضاجع والعهر لا بالخصام والحسد

13: 14 بل البسوا الرب يسوع المسيح ولا تصنعوا تدبيرا للجسد لأجل الشهوات

احترس ان لم تتمسك بالمسيح من الان قد لا تستطيع في المستقبل القريب بسبب الظلام.

وكما قلت هو اخبرنا لكي لا نخاف

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب لا ترتاعوا لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

بطرس الأولى 3: 14

وَلَكِنْ وَإِنْ تَأَلَّمْتُمْ مِنْ أَجْلِ الْبِرِّ، فَطُوبَاكُمْ. وَأَمَّا خَوْفُهُمْ فَلَا تَخَافُوهُ وَلَا تَضْطَرُّوْا،

بل نؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَاَنْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

افرحوا لان عريسنا قد اقترب مجيؤه. وانتبهوا الشيطان يريد أن نفقد سلامنا ولا ننال أكاليل.

وأیضا استعدوا فقد تسلموا وديعتكم في أي وقت فهناك 150 ألف شخص يموتوا في اليوم الواحد

انت لا تعرف متى ستكون منهم

المسيح اقترب فاصنعوا ثمار تليق بالتوبة واستعدوا لاستقبال العريس.

والمجد لله دائما
