## والعلامات حتى 15 نوفمبر 2016

اكرر اننا لا نحدد مواعيد بل فقط نشجع بعضنا بعضا بقرب مجيء المسيح

وأیضا لا اقصد ان اخيف أحد بل من يخاف هو لا يثق في مواعيد الرب

هذفي فقط أن نذكر بعضنا باننا نحتاج ان نستعد. والاستعداد ليس فقط قبل مجيء المسيح بل

ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة

وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من

الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا

لان الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة

لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك

زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقرب فنكون مستعدين سواء جاء او نحن ان  
سلمنا وديعتنا عن أنى لا اقول انه اقرب لكيلا يقال عني كاذب وانشر اشاعات ولكنه يأتي بسرعة  
بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي المسيح في زمنه  
ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

## سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَأَن تُوْمِنُونَ.

ثالثا لننتبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَاَنْتَصِبُوا وَاَرْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.».

في البداية

فوز ترمب بالرئاسة الامريكية بعد ان كثير جدا من مسيحيين أمريكا اجتمعوا للصلاة ثلاث أيام

لكيلا تفوز هيلري هذا يدل ان الصلاة لا تزال تستطيع ان تغير وتفعل المستحيلات

ولكن على مسيحيين أمريكا الا يضعوا ثقتهم فيه ولكن في الرب

اعتقد هي فترة هدنة من انتشار الشذوذ والفساد والكثير من الشر مثلما كان يسمح الرب بفترات

راحة بين العشر اباطرة الرومانيين الذين كانوا يضطهدون الكنيسة ولكن لو لم يحدث هذا لا نكتب

لان ما اعلى احكام الله عن الفحص وطرقه عن الاستقصاء

حتى وسائل الاعلام تقول ان فوزه هو بتدخل من الرب لأنه يخالف كل التوقعات السياسية

As the political pundits weigh in on the many sociological and ideological factors that contributed to Donald Trump's stunning victory, allow me to weigh in on the spiritual side of things.

I believe Trump has been elected president by divine intervention.

I'm aware, of course, that some people believe that everything happens by the will of God, which means that whoever wins the presidency wins by God's express will.

Yet there are times when there are so many odds against something happening, when it so greatly defies logic, that it is easier to recognize God's involvement.

That, I believe, is the case with Donald Trump winning—and remember, this comes from someone who endorsed Ted Cruz and was one of Trump's stronger conservative critics during the primaries.

You may have heard about Monday's supermoon, but what exactly is it, and is it really all that super?

In order to understand the supermoon, you need to know a little bit about the orbital mechanics of our solar system, specifically how the sun, Earth and moon move.

The distance from Earth to the moon is an average of 384,000 km. However, the moon's orbit is elliptical — as opposed to circular —

A 6.2 magnitude earthquake has struck off the coast of the Japanese island of Honshu, according to USGS data. TEPCO said the quake did not affect the integrity of its crippled Fukushima nuclear plant, located relatively close to its epicenter.

The quake struck around 9:43pm GMT on Friday, some 65 km east-northeast of the city of Sendai. The Japan Meteorological Agency measured the quake at the lower magnitude of 5.8.

## Residents forced to flee huge 'wall of water' after earthquake causes major New Zealand river to break its banks - as ANOTHER huge tremor strikes

A 7.8 magnitude earthquake struck near Christchurch in New Zealand around midnight on Sunday. That was followed by a 6.3 magnitude aftershock which hit north of Christchurch at around 1.30pm. A third strong aftershock measuring 5.8 hit the Kaikoura region at about 7.45 local time on Monday. The NZ Government said the earthquake was felt throughout the country and aftershocks followed. A two-metre high tsunami hit the east coast of South Island, people told to head for higher ground. The touring Pakistan cricket team were in the middle of prayers and forced to evacuate their hotel in Nelson. A major 5.8 magnitude aftershock has rocked New Zealand's South Island, north of where two massive earthquakes measuring 6.3 and 7.8 struck less than 24 hours before.

The recent 'strong' quake, which was 35km deep, hit the Kaikoura region at about 7.45 local time on Monday.

An intense 6.3 magnitude aftershock centred in Cheviot, located between Christchurch and Kaikoura, also hit around 1.30pm local time on Monday.

They are included in close to 400 aftershocks in New Zealand since 12am on Sunday when an initial 7.8 earthquake centred north of Christchurch struck, causing extensive destruction, killed two people and triggered a tsunami up

## "Supermoon" and Earthquakes: Is There a Correlation?

March 14, 2011; 8:00 AM ET

[| Share](#)

There has been much speculation about the upcoming "supermoon" on March 19, 2011 and what impacts it could have on the Earth.

Earthquakes and tsunamis, like the devastating ones that just hit Japan Friday, as well as volcanic eruptions and major storms, are included in the list of possibilities, according to some astrologers and conspiracy theorists.

There are scientists, however, who argue that "supermoons" do not play a role, and that natural disasters that have occurred around the time of a "supermoon" are just coincidence.

### What Is a "Supermoon?"

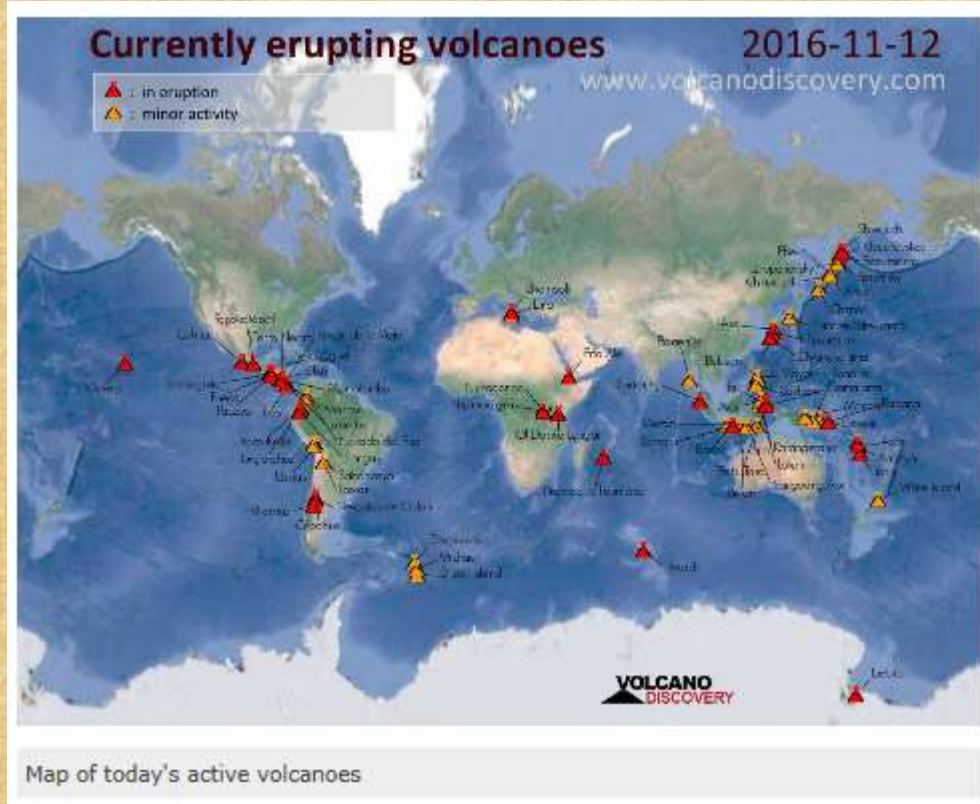

A "supermoon" occurs when a new or full moon is at or near (within 90 percent of) its closest approach to Earth in a given orbit. This is the definition provided by Astrologer Richard Nolle, who gave this phenomenon its name in 1979.

The Bolivian volcano Cerro Uturuncu is a massive barren peak rising from the high plateau of South America's Altiplano. If you've heard of the volcano, it may be because of recent news stories claiming that scientists have found a "lake" beneath its base, deep in the Earth's crust.

That's only partially true. There is no actual lake under Cerro Uturuncu — but there is an incredible amount of water locked up in the melted rock beneath the volcano, approximately enough to fill Lake Superior. This sort of

A Canadian lab worker may have been accidentally exposed to Ebola while working with pigs that were infected with the virus on Monday.

The man was working with six infected pigs as part of an experiment, government officials said on Tuesday.

He noticed a split in the seam of his protective suit during standard decontamination procedures and prior to leaving the Winnipeg, Manitoba lab, said John Copps, director of Canadian Food Inspection Agency's National Centre for Foreign Animal Disease, where the incident happened.

In the 2014-15 influenza season, when seasonal flu vaccines performed unusually poorly overall, people who had not been vaccinated the previous year were the ones most likely to benefit from the vaccine, whereas those who were vaccinated 2 years in a row did not, a new study from Canada's influenza surveillance network suggests.

In an even more unusual finding, people who were vaccinated 3 years in a row—in the 2012-13, 2013-14, and 2014-15 seasons—appeared to have a *higher* risk of being infected with the dominant flu strain in the latter season, according to the report, published last week in *Clinical Infectious Diseases*.

The long range rockets will be moved to Estonia next year amid fears Russian President Vladimir Putin could be planning to invade the country.

The rockets are part of a huge military build-up by NATO countries in order to defend the Baltic States.

Around 800 UK troops will deploy to Estonia next year as part of a 15-nation force, including soldiers from the US, France and Denmark.

## Russian warship flotilla now off Syrian coast: military

By Anna MALPAS  
Moscow (AFP) Nov 12, 2016

A flotilla of Russian warships is now in the eastern Mediterranean off the Syrian coast after being sent to reinforce Russia's military in the area, a naval commander said on state television.

The commander of Russia's flagship Admiral Kuznetsov aircraft carrier, Sergei Artamonov, said via videolink that the ships are now in the "designated zone... in the eastern Mediterranean" and "are now jointly carrying out tasks, manoeuvring to the west of the Syrian coast".

The battle group has travelled to Syria from the North Sea through the English Channel in the biggest such naval deployment in recent years as part of Russia's military intervention in Syria.

Russia has been flying a bombing campaign in Syria for the past year in support of President Bashar al-Assad and has deployed a naval contingent to back up its operation.

The naval task force has been monitored closely by NATO, whose chief Jens Stoltenberg voiced concern the ships would be used to support the Russian military operation in Syria and "increase human and civilian suffering."

The ship's commander was speaking to a presenter on Russia-1 television from inside the defence ministry for a news show that will air this evening in Moscow.

He confirmed that aircraft are already taking off from the ship's deck to view the conflict zone.

"Flights are being carried out from the deck... they are working on coordination with the shore port," he said.

"The flights have been going on practically every day for the last four days," he added.

Russia's Interfax news agency on Friday had cited a Russian military and diplomatic source as saying that Russian MiG and Sukhoi jets have been regularly flying into Syrian airspace from the Kuznetsov to "determine combat missions."

## Military On High Alert Against North Korea Issues Threats Around US Election

8 NOVEMBER, 2016

South Korea's military said Monday it will stay on high alert as North Korea may fire an intermediate-range ballistic missile (IRBM) around the US presidential election scheduled for Tuesday. Military officials said Pyongyang may want to send a strong message to the new US president that it will not give up its nuclear and missile development programs despite international condemnations and sanctions.

"We are closely watching every move by the North Korean military at its Punggye-ri nuclear test site and other possible missile-launching sites. The military is fully prepared to respond to any provocative acts by the North," an official from Seoul's Joint Chiefs of Staff told reporters in a briefing. ## Democrats Are Now Calling For A 'Revolution In The Streets', And I Believe That They Are Quite Serious

By Michael Snyder, on November 13th, 2016

The surprise victory by Donald Trump on November 8th has spawned a series of violent protests and riots all over the nation as stunned leftists continue to throw the largest post-election temper tantrum in U.S. history. Protesters in large cities all across America have been disrupting public transportation, looting stores, hurling objects at the police and burning Trump in effigy. There have even been shootings at anti-Trump rallies in Seattle and in Portland. Hundreds of protesters have been arrested so far, and organizers are promising that this is only just the beginning. Meanwhile, large numbers of enraged leftists are physically threatening Trump on Twitter, and some are even calling for a violent revolution. Sadly, I believe that they are quite serious about this.

Even some big celebrity names are starting to use the word "revolution" in messages to their followers. On Twitter, Katy Perry has ominously warned that "the revolution is coming", and comedian Sarah Silverman has boldly declared that "Trump gets a chance to hear us (or else we R them) If he fails REVOLUTION IN THE STREETS".

## Trump's Election Leaves American Muslims Reeling and Scared

On the morning after the election, Alia Ali had a sickening feeling as she headed to her job as a secretary at a New York City public school, her hijab in place as usual. Ali is a Muslim who lives and works in one of the most diverse places in the U.S., and yet the ascension of Donald Trump to the [White House](#) left her wondering how other Americans really viewed her.

"Half of America voted one way and half of America voted the other, and you're like, 'Which half am I looking at?'" she said. "You become almost like strangers to the people you've worked with. Is this person racist? Do they like me? Do they not like me? Because that's what this election has done."

American Muslims are reeling following the election of Trump, whose campaign was rife with anti-Muslim rhetoric and proposals that included banning Muslims from entering the country and heightened surveillance of mosques across the nation. Now, among many of the 3.3 million Muslims living in the U.S., there is significant fear, along with some reports of harassment; one hijab-wearing student at San Diego State University said she was briefly choked by suspects who made remarks about Trump's victory.

"There are lots and lots of people who aren't going out of the house," said Eboo Patel, a Muslim who heads the Interfaith Youth Core, a Chicago-based organization that works with colleges and government officials to build interreligious relationships.

At New York University late last week, hundreds of people sat shoulder-to-shoulder on a grand staircase of a student center to express solidarity after the word "Trump!" was scrawled on the door of a Muslim prayer space at the school. Students spoke of friends who wore headscarves or other traditional clothing and were afraid to take public

# Dow Record Comes in Market Radically Polarized by Trump Victory

- ▶ Facebook, Amazon lead rout in tech shares; Nasdaq 100 off 2%

The Dow Jones Industrial Average's first record close in three months comes amid a market drawing increasingly bright lines between what it views as winners and losers in a Donald Trump presidency.

Consider that the 30-stock gauge's 218-point ascent Thursday happened the same day the Nasdaq 100 Index dropped the most since September, their biggest divergence since the internet bubble burst. Weakness in technology stocks and a handful of defensive industries that soared in the first half held the S&P 500 Index's gain to roughly a fifth of the Dow's.

Colorado has become the fifth state to approve assisted suicide.

Terminally ill people with six months or less left to live, as determined by their doctor, will be allowed to buy medicine to kill themselves thanks to a vote Tuesday, NBC 9 News reported.

With more than 65 percent of the votes counted, Colorado voters were giving the proposal the nod by a margin of 65 percent to 34 percent, according to the Denver Post.

But 9NEWS is projecting that Proposition 106 will pass.

The measure was modeled after Oregon's "Death with Dignity" law that's been in place for the last two decades. Five states in the U.S. have laws like this.

to recover costs from its recent legal battle over Davis' refusal to issue marriage licenses to homosexuals as long as her name was on the document.

The ACLU is asking U.S. District Judge David Bunning to order Davis to pay up \$233,058 in legal fees and other expenses, but Davis' attorneys state that the organization isn't entitled to the payment since Davis prevailed in the matter in the long run.

"Courts recognize that when successful civil rights plaintiffs obtain a direct benefit from a court-ordered victory, such as in this case, they can be entitled to their legal expenses to deter future civil rights violations by
