اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض

ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي

المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما

انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

انجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لننتبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَأَنْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

Snow in the SAHARA: Desert sees snow for the FIRST time in 37 years

ENGLAND is not set to have a white Christmas - but snow has fallen in the Sahara desert for only the second time in living memory.

11:35, Tue, Dec 20, 2016 | UPDATED: 17:37, Tue, Dec 20, 2016

Amateur photographer Karim Bouchetata took incredible pictures of snow covering the sand in the small Saharan desert town of Ain Sefra, Algeria, yesterday afternoon.

He captured the amazing moment snow fell on the red sand dunes in the world's largest hot desert for the first time in 37 years.

Snow was last seen in Ain Sefra on February 18, 1979, when the snow storm lasted just half an hour.

Potential cyclones are brewing off Australia's northern coasts in the lead-up to Christmas.

The Bureau of Meteorology has bumped up the risk of a cyclone in the Northern Territory region from low to moderate.

Meanwhile, two tropical cyclones may develop in waters off northern Western Australia on Tuesday and Wednesday, the Bureau says.

And further developing systems could bring rough weather to Queensland's Gulf of Carpentaria and Coral Sea areas during the festive season, according to the **Courier Mail**.

It comes as forecasts predict a scorcher for major cities around the country on Christmas day.

Magnitude 6.7 earthquake strikes off Solomon islands: USGS

An earthquake with a magnitude of 6.7 struck off the Solomon Islands on Tuesday, according to the United States Geological Survey (USGS), the second powerful tremor in the islands to Australia's north in less than two weeks.

The Pacific Tsunami Warning Centre (PTWC) said the quake, which was centered some 120 km (70 miles) northwest of Kira Kira at a depth of 44 km, had not triggered any tsunami threat.

It came less than two weeks after a powerful 7.8 earthquake struck off the Solomons, perched on the geologically active "Pacific Ring of Fire", triggering a tsunami warning for a wide swath of the South Pacific that sent hundreds of villagers rushing to higher ground.

22 DECEMBER, 2016

More than 120 tiny earthquakes have taken place during a seven-day period recently beneath Mount St. Helens, but the U.S. Geological Survey said there are no signs of an imminent eruption. Beginning Nov. 21, the USGS said, four swarms of small quakes were detected. The tiny earthquakes were mostly too small — magnitude 0.3 or less — to be exactly located by the Pacific Northwest Seismic Network or even felt on the surface.

An Italian supervolcano is showing signs of reawakening, with any eruption potentially affecting half a million people, scientists say. The volcano is located across the Bay of Naples from the famous Vesuvius, which saw one of the most destructive eruptions in history.

Campi Flegrei, or the Phlegraean Fields, is a large volcanic area located in the metropolitan area of Naples, one of the most densely-inhabited areas in the world, with over 3 million people. The 13km-wide 'caldera', a large cauldron-like depression, lies mostly underwater and has 24 craters and volcanic edifices.

Highly pathogenic bird flu confirmed in Hokkaido for 1st time

NATIONAL DEC. 17, 2016 - 06:45AM JST (7) Recommend 226

SAPPORO — The Hokkaido prefectural government on Friday announced the first case of a highly virulent strain of bird flu virus in poultry in Japan's northernmost island prefecture.

With a highly pathogenic H5 strain confirmed in a detailed analysis, the Hokkaido government will begin Saturday culling around 210,000 chickens at the poultry farm in the town of Shimizu.

Earlier Friday, about 30 chickens were found dead at the farm and five tested positive for bird flu, as well as two living chickens, in a preliminary test.

Seven other poultry farms are located within a 10-kilometer radius, with a total of another 192,000 chickens.

Outbreaks of the highly pathogenic H5 virus have been seen at poultry farms in the prefectures of Aomori and Niigata since November where a total of about 570,000 chickens have been culled.

Schools of dead herring keep washing ashore along the rocky beaches of western Nova Scotia, prompting a retired scientist to enlist the help of local naturalists and bird watchers as he continues to gather data about the mysterious phenomenon.

Ted Leighton, an adjunct biology professor at Nova Scotia's University of Sainte-Anne, said Friday he has compiled more than 40 sightings since tens of thousands of dead and dying fish started appearing in St. Marys Bay in late November.

Russia's Vladimir Putin said on Friday he was unfazed by President-elect Donald Trump's plans to boost the U.S. nuclear arsenal, praising Trump for being in touch with U.S. public opinion while branding the Democrats sore election losers.

Speaking at his annual news conference in Moscow, the Russian president said earlier comments he had made about his country's own military modernization had been misunderstood in the United States and that he accepted that the U.S. military, not Russia's, was the most powerful in the world.

Turkey's military deployed tanks and guns on the Syrian border as President Recep Tayyip Erdogan urged joint action with the Trump administration against Islamic State in its de facto capital, Raqqa.

The deployment, including long-range guns and armored personnel carriers, followed Erdogan's remark on Saturday that Turkish troops fighting to capture the jihadists' stronghold of al-Bab in northwest Syria could move first to the town of Manbij and then to Raqqa. The artillery reinforcements were sent to the border towns of Oguzeli and Karkamis, north of Manbij, state-run Anadolu Agency reported Sunday.

With the news that ISIS has claimed responsibility for Monday's attack in Berlin, the world is seeing another example of terrorists trading bullets and bombs for cars and trucks as a way to more discreetly unleash carnage across the world.

On Tuesday afternoon, SITE Intelligence reported that the ISIS terror group has claimed responsibility for the attack, calling the fugitive terror truck driver a "soldier of the Islamic State," that worked "in response to calls for targeting nationals of the international coalition."

The water supply in the Syrian capital of Damascus has been poisoned, authorities say. Al-Jazeera reports that the "rebels" against the Assad regime are suspected, while the Iranian news agency says it was "terrorists." Both are referring to the same group.

Either way, Syrian authorities say they have cut water supplies to Damascus as a result. The Al-Fija spring, northwest of the capital, was reportedly contaminated with diesel oil.

Water reserves are now being used to meet the city's demands. The problem is expected to be solved within a few days, according to the water authority.

JERUSALEM (Reuters) - Israel will re-assess its ties with the United Nations following the adoption by the Security Council of a resolution demanding an end to Israeli settlement building, Prime Minister Benjamin Netanyahu said on Saturday.

The vote was able to pass the 15-member council on Friday because the United States broke with a long-standing approach of diplomatically shielding Israel and did not wield its veto power as it had on many times before - a decision that Netanyahu called "shameful".

The UN Security Council Has Just Officially Given Every Inch Of East Jerusalem To The Palestinians

Barack Obama has just made the worst decision of his entire presidency. On Friday, the UN Security Council adopted resolution 2334, and this never would have happened without the support and approval of Barack Obama. Since the United States has veto power on the Security Council, no resolution can ever pass unless the United States allows it to pass. For decades, it has been the policy of the U.S. government to veto all anti-Israel resolutions at the Security Council, and the Israeli government had been expecting that Barack Obama would not suddenly change that policy at the very end of his second term. Most of the news headlines about resolution 2334 refer to "Israeli settlements", but the reality of the matter is that this resolution is about much more than that. The truth is that this resolution has established legally binding parameters for a "two-state solution" that Israel will never accept, and this includes giving every inch of East Jerusalem to the Palestinians.

The decision, taken during a recent cabinet session chaired by King Salman Bin Abdul Aziz, is an austerity measure to deal with its budget deficit, according to reports, which say the drop in crude oil prices beginning 2014 has hit the world's top oil exporter hard.

The Muslim calendar, also known as Hijri, loses some 11 days a year so that Islamic holy days rotate around the seasons every 32 years, according to [Gulf News](#), which also said the move will lead to civil servants losing 11 days of payment with salary days being cut. Earlier, only the private sector used the Gregorian calendar of its oil customers to calculate salaries.

The measure, which involves many other cost cutting measures, came into effect in October.

The salaries of ministers have been cut by 20 percent, and those of Shura Council members by 15 percent. Government employees will not get annual bonus for a year, and the renewal or extension of existing contracts will not include any salary increases.

Congress passes bill to protect non-believers for time

WASHINGTON — In updating an 18-year-old religious freedom law, Congress this year decided for the first time to expressly protect the rights of people around the world who practice no religion at all.

President Obama signed the International Religious Freedom Act on Friday, hailed by Republicans and Democrats as way to strengthen the ability of the United States to call out countries that oppress or

persecute people for their religious beliefs.

But now the law includes a reference to nonbelievers as well.

"The freedom of thought, conscience, and religion is understood to protect theistic and non-theistic beliefs and the right not to profess or practice any religion," according to the new law governing international programs, which passed the House and Senate unanimously, without controversy.

The addition was lauded by humanists, who said incidents of violence against atheists in places like Bangladesh and Saudi Arabia are an affront to anyone who cares about religious freedom. Shaping U.S. foreign policy to protect human rights is common ground for groups that normally don't agree on much, like atheists and Christian conservatives.

"Religious freedom for all people, theists and non-theists, is an American value we must protect," said Matthew Bulger, legislative director of the American Humanist Association.

The new legislation strengthens the 1998 International Religious Freedom Act, which

Christmas Sign Battle: Atheist's 'There Is No God' Message Duels 'Merry Christmas' Greeting

23 DECEMBER, 2016

Local news station WFSB reports that Jerry Bloom, the resident who has been trying to get approval to display the atheist sign in Shelton for years, but was not allowed to do so until now, says he's happy that freedom of speech has won. "We'd like an agreement, they'll continue to honor freedom of speech," Bloom said. "You've permitted viewpoints to be expressed in this public forum, you cannot deny me the same right, they did," he said. "That's censorship, first amendment violation, freedom of speech."

A Christian student prevented from sharing his faith due to restrictive and subjectively applied "free speech" rules at Georgia Gwinnett College has filed a 76-page lawsuit against 11 named college officials.

"The First Amendment guarantees every student's freedom of speech and religion. Every public school – and especially a state college that is supposed to be the 'marketplace of ideas' – has the duty to protect and promote those freedoms," said ADF legal counsel Travis Barham, representing student Chike Uzuegbunam in the matter.

COLUMBIA, S.C.

— A proposed bill in South Carolina would allow teachers to participate in times of student-led prayer and to

join in on any student-led religious clubs.

H.B. 3345, sponsored by Reps. Bill Chumley, Mike Bums and Stephen Long, was filed in the state General Assembly on December 15.

"[T]he South Carolina General Assembly finds that the concept of academic freedom is derived from the guarantee of free speech under the First Amendment to the United States Constitution, which also permits the free exercise of religious beliefs," the bill's introduction reads in part.

A French woman has revealed she is in love with a robot and determined to marry it.

Lilly's partner is a robot called InMoovator, who she 3D-printed herself and has been living with for a year.

On her Twitter page, where she goes by 'Lilly InMoovator,' she says: 'I'm a proud robosexual, we don't hurt anybody, we are just happy.'

Now, Lilly is reportedly engaged to the robot and says they will marry when human-robot marriage is legalised in France.

Extreme ideas about 'changing' sex have "infiltrated" society and are pushing children down a path that threatens their mental health, a columnist has warned. (Ted Eytan/Flickr/CC)

Extreme ideas about "'changing" gender have "infiltrated" society and are pushing children down a path which threatens their mental health, a columnist has warned.

Sarah Vine said some adults in the worlds of medicine, politics and education have bowed to transsexual activists "for fear of being branded as 'backward.'"

The result, she suggested, is that an increasing number of children are questioning their identity.
