والعلامات حتى 17 يناير 2017

Holy_bible_1

اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض

ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي

المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما

انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

'Very quickly, very nearby': Jumbo asteroid has close shave with Earth

Published time: 10 Jan, 2017 09:46
Edited time: 10 Jan, 2017 12:06

[Get short URL](#)

© Erik Simonsen / Getty Images

An asteroid between 11 to 34 meters across (36 to 111ft), roughly the size of 10 jumbo African elephants, made a remarkably close approach to Earth on Monday morning, passing by at a distance only half that of the Moon.

According to the Sloan Observatory, the space rock, dubbed 2017 AG13, was moving at about 10 miles per second, making it hard to spot with a telescope.

"This is moving very quickly, very nearby to us," Eric Edelman, an astronomer with Sloan, said during a live broadcast of the surprise flyby at 7:47am ET on January 9.

While you were hitting snooze, we nearly hit an asteroid! At 7:47 AM EST an asteroid we only first spotted Saturday gave us a wake up call.

Nasa detects two space rocks heading towards Earth: A comet and an unknown object

13 JANUARY, 2017

This week a comet that started life in the outer reaches of our solar system will be visible from Earth for the first time, as it approaches our planet's orbit. The comet will be 66 million miles (106 million km) from Earth at its closest approach. Another recently-discovered object, called 2016 WF9, has also been taking a scenic tour of our solar system, approaching

A new bright 'star' could appear in the night sky in 2022

Something to look forward to.

DAVID NIELD 10 JAN 2017

A huge collision between two stars some 1,800 light-years away could add a bright new object to our night sky, say scientists – though this temporary star will only be visible for two or three years.

This is the first time experts have tried to forecast a cosmic explosion like this, and the researchers say there's usually only a "one-in-a-

An elongated coronal hole stretching across the face of the sun sent solar wind particles gushing toward Earth last week.

NASA's Solar Dynamics Observatory has revealed a stunning animation of the phenomenon, showing the massive dark patch marring the surface of our star.

Space-weather forecasters warned that the resulting geomagnetic storm, while minor, could have some effects on satellites and the power grid.

And, the activity brought breathtaking auroras dancing across the sky in the higher latitudes.

Powerful storms head for U.S. West after thousands flee floods

Posted on January 10, 2017 by Staff

A partially submerged building is seen near the Petaluma River during a winter storm in Petaluma, California, January 8, 2017. REUTERS/Stephen Lam

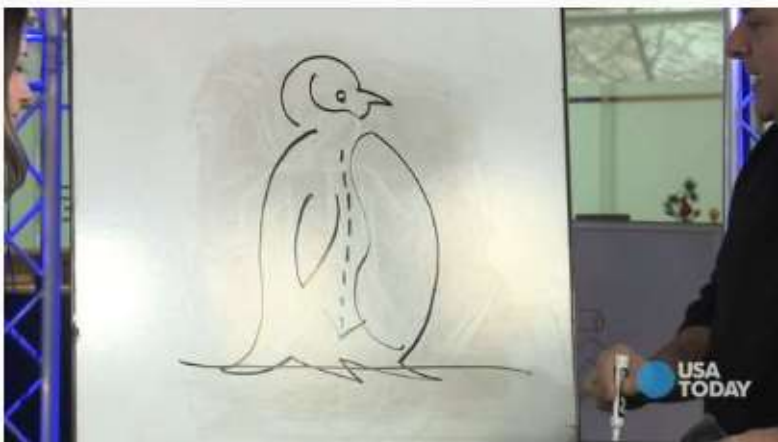

(Reuters) – Powerful storms packing heavy rain and snow will lash the U.S. West on Tuesday, a day after thousands of people fled their homes to escape floods, forecasters said.

A band of heavy downpours will drench northern California and heavy snow will fall in the Sierra Nevada mountains into Wednesday, exacerbating the threat of flooding, the National Weather Service said.

AP/File

WHAT TO KNOW

- Parts of the tri-state saw record highs on Thursday as temps soared above 60 degrees
- It's cold again this weekend and there's a chance of snow Saturday, but temps will be above average most of next week
- The unseasonably warm weather follows a week of rain, snow and frigid

After a week of snow, rain and bitter cold, parts of the tri-state set new records for warmth Thursday.

Central Park hit 65 degrees at 1:43 p.m., according to the National Weather Service, breaking the previous record of 64 degrees for Jan. 12 set more than a century ago in 1890.

SCIENTISTS DISCOVER GIANT VOLCANIC ERUPTION IN ARCTIC OCEAN

By Climatologist Cliff Harris

An international team of researchers was able to provide evidence of explosive volcanism in the depths of the ice-covered Arctic Ocean for the first time. Researchers from an expedition to the Gakkel Ridge, led by the American Woods Hole Oceanographic Institution (WHOI), report in the current issue of the journal Nature that they discovered, with a specially developed camera, extensive layers of volcanic ash on the seafloor, which indicates a gigantic volcanic eruption.

"Explosive volcanic eruptions on land are nothing unusual and pose a great threat for whole areas," explains Dr Vera Schlindwein of the Alfred Wegener Institute for Polar and Marine Research in the Helmholtz Association. She participated in the expedition as a geophysicist and has been, together with her team, examining the earthquake activity of the Arctic Ocean for many years. "Mount Vesuvius in Italy erupted in 79 AD and buried thriving Pompeii under a thick layer of ash and pumice. Far away in the Arctic Ocean, at 85 degrees North and 85 degrees East,

- Mexican volcano Colima erupts with force

One of Mexico's most active volcanoes has erupted, yet again.

Colima — known locally as the volcano of fire — spewed gas and ash into the air on Wednesday. An ongoing volcanic ash advisory, issued by the Volcanic Ash Advisory Center in Washington, remains in effect Thursday.

The volcano is in western Mexico, about 160 kilometres south of Guadalajara. Its eruptions date back to the 16th century, but have been steady since 1994.

Thousands of dead fish in a hinterland quarry

It happens in Basiglio. And three dead gulls were reported. It investigates the causes

drafting

9 January 2017 11:18

Dead fish in Basiglio (FFT photos, Facebook)

Die-off of fish, but also of birds, in Basiglio, hinterland south of Milan. It happens in a quarry in the country. The fish in particular, as described by some inhabitants of the area, would be attracted by the most water temperature present in some discharges, but not equipped with filters of networks that effectively would prevent the same of "fish traced."

Once inside of the discharges, the fish would not be able to turn back to the plague here. This explanation, which applies to fish, but can not "work" for the gulls: the Epiphany weekend they were found at least three deaths, around the quarry. The city administration has been informed and is taking care of the matter. The goal of environmentalists is now to determine who has responsibility for the plague of animals, and correct it.

Westport: A total of 30 fish farmers in Kelantan loss of about RM100,000 after their livestock died in the floods last.

Terengganu Fisheries Department director Mohd Zin Mohamed said the department already take early action to perform a survey to the scene and reports of loss.

"We also have to submit specimens of dead fish on Biosecurity Unit Fishery and water analysis as well we have done.

"To reduce the risk of loss to the farmer who has not been affected, we advise them to reap the results of which have reached market size to avoid greater losses," he said here, today.

He said they will also contribute to the fish farmers affected to ease their burden.

US woman killed by superbug resistant to every available antibiotic

By **David Lawler**, WASHINGTON

13 JANUARY 2017 • 7:33AM

A woman in Nevada has been killed by a superbug that proved resistant to every antibiotic available in the US, the Centers for Disease Control and Prevention (CDC) has said.

The woman's condition was deemed incurable, and 26 different antibiotics were tested in vain before she died in September.

She was in her 70s, and had recently returned to the US after an extended visit to India, according to the CDC's Morbidity and Mortality Weekly Report. She had been hospitalised there multiple times before returning to the US and being admitted to an acute care hospital in Nevada in mid-August.

One week later local health authorities were notified that every possible medication had been tried without success. The CDC later determined that no drug currently on the market would have stopped the bacteria's

The Zika Virus Just Quietly Spread to Southwest Africa

One might have thought that 2016 closed the door on the terrible Zika virus. But just weeks into a new year, Zika has reared its ugly head — this time in southwest Africa.

On Wednesday, Angola announced its first two cases of the virus. It's doubly bad news for a country that is still recovering from both a cholera and a yellow fever epidemic that has killed hundreds. The two cases may not yet be cause for concern, but they're an ominous reminder of how ripe the region could be for a widespread Zika outbreak.

Russia and China will be taking further "unspecified" countermeasures to the US plan to deploy an anti-missile system in South Korea, according to Chinese news agency, Xinhua.

According to the statement, Moscow and Beijing urge all those involved in the system's deployment to consider the escalation in tensions it would lead to, and to exercise restraint. But the two also reaffirm their commitment to a nuclear-free North Korea, and believe diplomacy should be the way forward.

The statement comes shortly after a Thursday meeting co-chaired by Russian Deputy Foreign Minister Igor Morgulov and Chinese Assistant Foreign Minister Kong Xuanyou.

Russia, Turkey agree to 'coordinate' strikes in Syria: Moscow

by Staff Writers
Moscow (AFP) Jan 12, 2017

Russia and Turkey have signed an agreement spelling out mechanisms to "coordinate" their air forces in Syria when conducting strikes "on terrorist targets", the Russian defence ministry said Thursday.

Delegations from the two countries, which last month brokered a ceasefire in war-torn Syria, met in Moscow Thursday for consultations on cooperating while fighting Islamic State jihadists, signing a memorandum, the ministry said.

"The document defines the mechanisms to coordinate and cooperate by the Russian airforce and the Turkish airforce while carrying out strikes on terrorist targets as well as the actions by the sides to prevent incidents while planes and unmanned aerial vehicles are in Syrian airspace," it said.

Moscow and Ankara agreed to back a ceasefire last month between the Syrian government and rebel groups which went into effect on December 30 and has been observed in vast parts of the country, though clashes have continued to rock areas near Damascus.

The fighting has notably damaged water infrastructure risking further military escalation, United Nation's Syria envoy Staffan de Mistura said earlier Thursday, adding that meetings in Moscow and Ankara would be addressing the issue.

N. Korea has plutonium for 10 nuclear bombs: S. Korea

by Staff Writers
Seoul (AFP) Jan 11, 2017

North Korea now has enough plutonium to make 10 nuclear bombs, South Korea said Wednesday, a week after leader Kim Jong-Un said it was close to test-launching an intercontinental ballistic missile.

The isolated communist state, which has carried out five nuclear tests and numerous missile launches, is thought to be planning a nuclear push in 2017 as it seeks to develop a weapons system capable of hitting the US mainland.

Analysts are divided over how close Pyongyang is to realising its full nuclear ambitions, but all agree it has made enormous strides since Kim took over as leader from his father Kim Jong-Il who died in December 2011.

Seoul's defence ministry said the North is believed to have some 50 kilogrammes (110 pounds) of weapons-grade plutonium as of the end of 2016 -- enough to make about 10 weapons -- up from 40 kilogrammes eight years earlier.

The North also has a "considerable" ability to produce weapons based on highly-enriched uranium, it said in a two-yearly white paper, but did not estimate weapons-grade uranium stocks, citing impenetrable secrecy in the state's uranium programme.

US think tank the Institute for Science and International Security estimated in June that the North's total nuclear arsenal was more than 21 bombs, up from 10-16 weapons in 2014, based on estimates of plutonium and uranium.

The North has boosted plutonium supplies by reactivating its once-mothballed nuclear reactor in Yongbyon, the defence ministry said.

North Korea deactivated the Yongbyon reactor in 2007 under an aid-for-disarmament

Obama approves huge shipment of uranium to Iran

9 JANUARY, 2017

Iran is to receive a huge shipment of natural uranium from Russia to compensate it for exporting tons of reactor coolant, diplomats say, in a move approved by the outgoing U.S. administration and other governments seeking to keep Tehran committed to a landmark nuclear pact. Two senior diplomats said the transfer recently agreed by the U.S. and five other

world powers that negotiated the nuclear deal with Iran foresees delivery of 116 metric tons (nearly 130 tons) of natural uranium. U.N. Security Council approval is needed but a formality, considering five of those powers are permanent Security Council members, they said. Uranium can be enriched to levels ranging from reactor fuel or medical and research purposes to the core of an atomic bomb. [READ MORE](#)

Pakistan fires 'first submarine-launched nuclear-capable missile'

 **Reuters** January 9, 2017

ISLAMABAD (Reuters) - Pakistan fired its first submarine-launched cruise missile on Monday, the military said, a show of force for a country that sees its missile development as a deterrent against arch-foe India.

The launch of the nuclear-capable Babur-3 missile, which has a range of 450 km (280 miles) and was fired from an undisclosed location in the Indian Ocean, is likely to heighten long-running tension between India and Pakistan.

The nuclear-armed neighbors have fought three wars since independence from Britain in 1947. Both nations have been developing missiles of varying ranges since they conducted nuclear tests in May 1998.

"Pakistan eyes this hallmark development as a step toward reinforcing the policy of credible minimum deterrence," the military's media wing said in a statement.

A spokesman at the Indian defense ministry was not immediately available to comment on the Pakistani missile test.

India successfully test-fired a nuclear-capable, submarine-launched missile in 2008 and tested a submarine-launched cruise missile in 2013.

The Pakistani military said the Babur-3 missile was "capable of delivering various types of payloads and will provide Pakistan with a Credible Second Strike Capability, augmenting deterrence".

An army spokesman later confirmed the language meant the missile was equipped to carry nuclear warheads.

Taiwan scrambles jets, navy as China aircraft carrier enters Taiwan Strait

Taiwan scrambles jets as Chinese carrier passes

01:45

Taiwan scrambled jets and navy ships on Wednesday as a group of Chinese warships, led by its sole aircraft carrier, sailed through the Taiwan Strait, the latest sign of heightened tension between Beijing and the self-ruled island.

China's Soviet-built Liaoning aircraft carrier, returning from exercises in the South China Sea, was not encroaching in Taiwan's territorial waters but entered its air defense identification zone in the southwest, Taiwan's defense ministry said.

As a result, Taiwan scrambled jets and navy ships to "surveil and control" the passage

UN warns Damascus water crisis may be 'war crime,' as 5.5 million people affected

Published time: 6 Jan, 2017 15:02

Edited time: 6 Jan, 2017 15:05

[Get short URL](#)

A view of Damascus from Mount Qasioun. © Mikhail Voskresenskiy / Sputnik

The UN has warned that the water crisis afflicting the Syrian capital may constitute a war crime. Millions of people have been deprived of running water after a reserve located in rebel-held Wadi Barada was cut off.

"In Damascus itself, 5.5 million people have had their water supplies cut or minimized," the UN's humanitarian adviser to Syria, Jan Egeland, told reporters in Geneva on Thursday.

In December, the running water supply for Damascus was shut off, having reportedly been contaminated with diesel fuel. This deprived millions of people of drinking water, and came amid fighting in the rebel-held area where the reservoir is located.

ISIS Shows Preschooler Killing Victim Tied to Carnival Ball Pit

BY BRIDGET JOHNSON JANUARY 8, 2017

2507 COMMENTS

(ISIS video screenshot)

After an end-of-the-year video showing pre-teens hunt down and kill bound prisoners in an abandoned building, the Islamic State today released an even more gory follow-up with children as young as preschool age murdering prisoners tied to broken carnival rides.

The 18-minute highly produced video out of ISIS' Khayr province in Syria was distributed through publicly accessible Islamic State media channels, social media and file-sharing sites, including Google Drive and, briefly, YouTube.

It begins by showing adults training in a bombed-out building, but transitions into adults leading small children in exercises. A boy about 9 or 10 years old is shown gleefully participating in a

Airport Shooter Converted to Islam, Identified as Aashiq Hammad Years Before Joining Army

JANUARY 10, 2017

The Ft. Lauderdale Airport shooter is a Muslim convert who years before joining the U.S. Army took on an Islamic name (Aashiq Hammad), downloaded terrorist propaganda and recorded Islamic religious music online, according to [public records](#) dug up by the investigative news site of an award-winning, California journalist. This is pertinent information that the Obama administration apparently wants to keep quiet, bringing up memories of the Benghazi cover up, in which the president and his cohorts knowingly lied to conceal that Islamic terrorists attacked the U.S. Special Mission in Libya.

Information is slowly trickling out that links the Ft. Lauderdale Airport shooter to radical Islam while the official story from authorities is that the gunman is a mentally ill, Hispanic Army veteran named Esteban Santiago that became unhinged after a tour in Iraq. Only one mainstream media outlet mentions the possibility of Santiago's "[jihadist identity](#)," burying it in a piece about New York possibly being his initial target. A paragraph deep in the story mentions that investigators recovered Santiago's computer from a pawn shop and the FBI is examining it to determine whether he created a "jihadist identity for himself using the name Aashiq Hammad..." The reset of the traditional mainstream media coverage promotes the government rhetoric that omits any ties to terrorism even though early on a photo surfaced of Santiago making an ISIS salute while wearing a keffiyeh, a Palestinian Arab scarf.

The public records uncovered in the days after the massacre suggest Santiago (Hammad) is a radical Islamic terrorist that's seriously committed to Islam. Besides taking on a Muslim name, he recorded three Islamic religious songs, including the Muslim declaration faith ("there is no God but Allah and Muhammad is his

The 70 Nations That Will Meet In Paris On January 15th Are Going To Publicly Commit To Dividing The Land Of Israel

By Michael Snyder, on January 10th, 2017

A draft of the summary statement that will be released at the conclusion of the 70 nation conference in Paris on Sunday has been leaked. As you will see below, this communique is going to call for the division of the land of Israel, for the establishment of a Palestinian state, for the 1967 borders to serve as the basis for final negotiations between the Israelis and the Palestinians, and for the condemnation of any officials that refuse to support a two state solution. Of course this comes on the heels of UN Security Council Resolution 2334, which many believe represented **America's greatest betrayal of Israel**. Israeli government officials are publicly warning that there is a possibility that the principles agreed upon at this conference may form the basis for another Security Council resolution before January 20th, and this is something that we should all be watching for very closely.

Christian Leaders Descend on Nation's Capital to Take a Stand for Israel

01-12-2017 - CBN News

WASHINGTON – This week, more than 250 leaders with Christians United For Israel are in the nation's capital to speak up for Israel in light of the United Nation's recent controversial resolution.

The resolution declared all settlements in Judea and Samaria -- also known as the West Bank -- "occupied Palestinian territory." The Obama administration abstained from voting for the U.N. measure, saying it lacked balance -- a move that ultimately allowed the resolution to pass.

Babies made without mothers 'will come sooner than we think', leading scientists warn after study discovered how to make embryos from skin cells

- Last year British doctors discovered how to make embryos from skin cells
- It would mean that men could conceive a baby with other men alone
- At the time, scientists said the scenario is 'speculative and fanciful'
- But top biologists at Harvard and Brown warn science is 'hurtling' faster than we think, and urge nations to look at the legal minefield that surrounds the idea

Babies made without mothers could come sooner than we think, leading biologists claim.

Late last year, a team at the University of Bath discovered that sperm and skin cells - or any other kind of non-egg cell - might be all you need for conception.

At the time, they said the scenario of men conceiving with men was 'speculative and fanciful'.

But in a new report published today, the top embryologists at Harvard and Brown Universities urge nations to begin contemplating the legal minefield that would

Facebook wants to know your deepest, darkest thoughts.

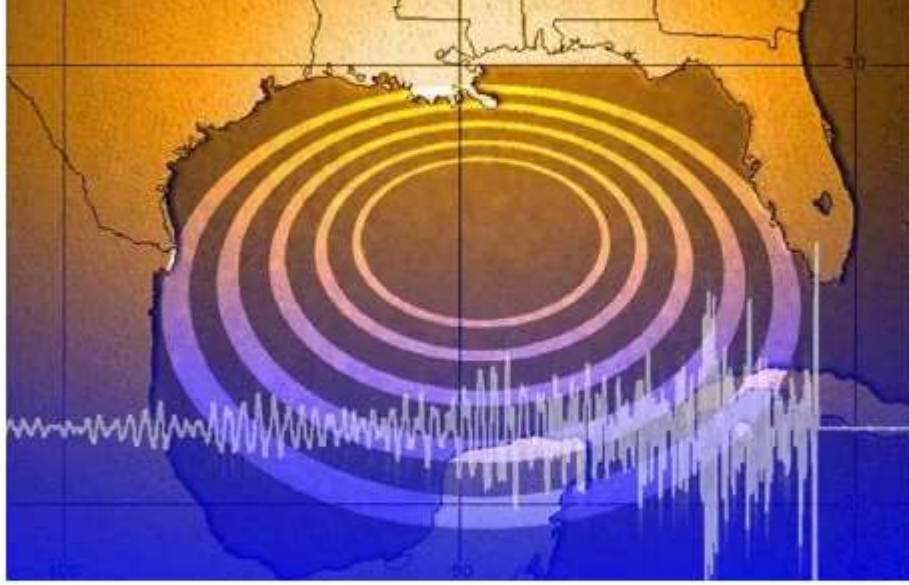

In April, the site revealed the existence of a new division, known only as 'Building 8' which is dedicated to creating ground-breaking products at the intersection of hardware, software, and content.

And a new job advert posting suggests that the mysterious division could be working on mind-reading technology.

L.L. Bean targeted by #Grabyourwallet Trump boycott after family heiress is revealed to have donated \$60,000 to his election

- L.L. Bean is a popular Maine-based retailer that sells winter apparel
- Linda Bean, one of 50 co-owners of L.L. Bean, donated to a pro-Trump PAC
- She gave \$60,000, which is 12 times the legal limit for individual contributors
- Bean's contribution prompted #Grabyourwallet to call for a boycott of L.L. Bean
- #Grabyourwallet wants to boycott entities that do business with Trump family

Popular retailer L.L. Bean is pushing back against a social media-fueled call for consumers to consider boycotting its products on Tuesday because one of its owners donated money to help elect Donald Trump.

The Maine-based company posted a message on its Facebook page asking that it be removed from a list of companies compiled by #Grabyourwallet, which seeks to discourage people from buying products from brand names tied to Trump.

The outdoor apparel maker became the subject of unwanted publicity in recent days after it was learned that Linda Bean, one of 50 co-owners and a member of the founding Bean family, donated \$60,000 to a pro-Trump political action committee.

Activists Are Hoping To Turn Donald Trump's Inauguration On January 20th Into One Of The Biggest Riots In U.S. History

By Michael Snyder, on January 9th, 2017

Radical leftists are planning to make January 20th the most chaotic Inauguration Day in American history. Their stated goal is to "disrupt" the Inauguration festivities as much as possible, and they are planning a wide range of "actions" to achieve that stated goal. Some of the more moderate groups are using terms such as "civil resistance" and "civil disobedience", but others are openly talking about "blockades", jumping barricades, throwing projectiles and "citywide paralysis". My hope is that all of their efforts will turn out to be a big flop, but it is important to understand that these groups are well funded, highly organized and extremely motivated. The election of Donald Trump has been perhaps the single most galvanizing moment for the radical left in modern American history, and they are working very hard to turn January 20th into a major political

It's A Retail Apocalypse: Sears, Macy's And The Limited Are All Closing Stores

By Michael Snyder, on January 8th, 2017

It has only been two weeks since Christmas, and already we are witnessing a stunning bloodbath of store closings. Macy's shocked the retail industry by announcing that they will be closing about 100 stores. The downward spiral of Sears hit another landmark when it was announced that another 150 Sears and Kmart stores would be shutting down. And we have just learned that The Limited is immediately closing all stores nationwide. If the U.S. economy is doing just fine, then why are we experiencing such a retail apocalypse? All over America, vast shopping malls that were once buzzing with eager consumers now resemble mausoleums. We have never seen anything quite like this in our entire history, and nobody is quite sure what is going to happen next.

Not too long ago I walked into a Macy's, and it was eerily quiet. I stumbled around the men's department looking for something to buy, but I was deeply disappointed in what was being offered. After some time had passed, an employee finally noticed me and came over to help, but they didn't have anything that I was looking for.

U.S. Small-Business Optimism Index Surges by Most Since 1980

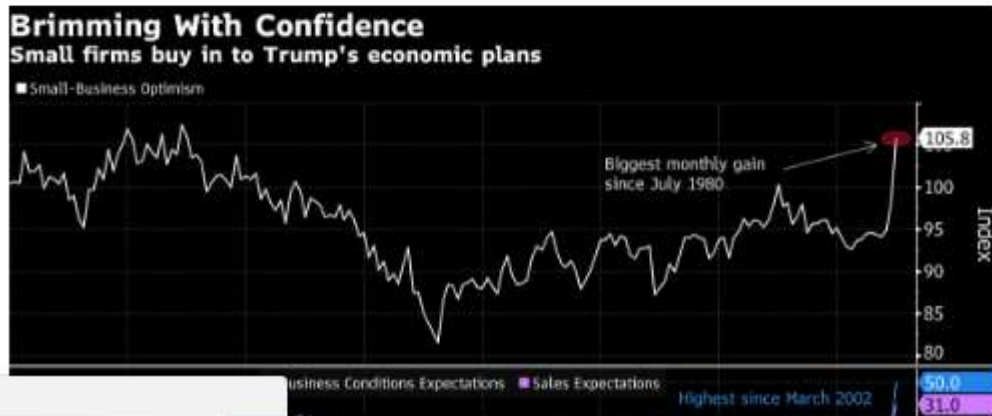

by Vince Golle

January 10, 2017, 4:00 AM MST Updated on January 10, 2017, 8:52 AM MST

- NFIB gauge jumps to 105.8 in month after presidential election
- Expectations for business conditions are highest since 2002

Optimism among America's small businesses soared in December by the most since 1980 as expectations about the economy's prospects improved dramatically in the aftermath of the presidential election.

The National Federation of Independent Business's index jumped 7.4 points last month to 105.8, the highest since the end of 2004, from 98.4. While seven of the 10 components increased in December, 73 percent of the monthly advance was due to more upbeat views about the outlook for sales and the economy, the Washington-based group said.

INDIANAPOLIS, Ind. – Dozens have expressed outrage after an Indiana employee of Domino's Pizza reportedly gave customers gospel

tracts along with their pizza orders.

According to WTHR, the local NBC affiliate in Indianapolis, a delivery person working for a Domino's Pizza restaurant in east Indianapolis gave several customers tracts along with their orders. The issue first came to light when customer Andrea Stone complained via a Facebook post.

"Honestly kind of fired up here," Stone wrote. "It's unprofessional and downright rude to proselytize your customers. You're entitled to your personal beliefs, but this is simply not ok."

Stone included a picture of the tract in her post and said

Taiwan on Brink of Legalizing Gay Marriage - Can Christians Turn the Tide?

01-09-2017 - Mengfei Li

The U.S. Supreme Court ruling legalizing same-sex marriage emboldened gay activists around the world.

Now, political pressure is rising in Taiwan to make that nation the first in Asia to follow America's lead.

فلهذا اطلب أن نصلي ونستعد ونعد زيت لمصاييحنا لاستقبال العريس بالصلاة والصوم وخدمة

أبناء الله وتنقية القلب والاستعداد بلبس العرس.

رسالة بولس الرسول الي أهل رومية 13

13: 11 هذا وأنكم عارفون الوقت انها الان ساعة لنستيقظ من النوم فان خلاصنا الان أقرب مما

كان حين امنا

13: 12 قد تناهى الليل وتقارب النهار فلنخلع اعمال الظلمة ونلبس اسلحة النور

13: 13 لنسلك بلباقة كما في النهار لا بالبطر والسكر لا بالمضاجع والعهر لا بالخصام والحسد

13: 14 بل البسوا الرب يسوع المسيح ولا تصنعوا تدبيرا للجسد لأجل الشهوات

احترس ان لم تتمسك بالمسيح من الان قد لا تستطيع في المستقبل القريب بسبب الظلام.

وكما قلت هو اخبرنا لكي لا نخاف

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

بطرس الأولى 3: 14

وَلَكِنْ وَإِنْ تَأَلَّمْتُمْ مِنْ أَجْلِ الْبِرِّ، فَطُوبَاكُمْ. وَأَمَّا خَوْفُهُمْ فَلَا تَخَافُوهُ وَلَا تَضْطَرُّوْا،

بل نؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتبّه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَأَنْتَضِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.».

افرحوا لان عريسنا قد اقترب مجيؤه. وانتبهوا الشيطان يريد أن نفقد سلامنا ولا ننال أكاليل.

وأيضاً استعدوا فقد تسلموا وديعتكم في أي وقت فهناك 150 ألف شخص يموتوا في اليوم الواحد

انت لا تعرف متى ستكون منهم

المسيح اقترب فاصنعوا ثمار تليق بالتوبة واستعدوا لاستقبال العريس.

والمجد لله دائما
