## والعلامات حتى 31 يناير 2017

Holy\_bible\_1

اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض

ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي

المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما

انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

**CORONAL HOLE TURNS TOWARD EARTH:** A hole has opened in the sun's atmosphere, and it is spewing a stream of solar wind into space. An extreme ultraviolet telescope onboard NASA's Solar Dynamics Observatory photographed the structure turning to face Earth on Jan. 23rd:

This is a "coronal hole" (CH)--a region in the sun's atmosphere where the magnetic field opens up and allows solar wind to escape to escape. A gaseous stream emerging from this coronal hole should reach Earth on or about Jan. 27th. Arctic sky watchers, mark your calendars. Auroras are in the offing later this week. Free: [Aurora alerts](#).

ويوم 27 يناير تصل موجات كهرومغناطيسية شمسية قوية الى الأرض

**THE SOLAR WIND HAS ARRIVED:** Arriving a day earlier than expected, a stream of solar wind hit Earth's magnetic field on **Jan. 27th**. This is causing intermittent [G1-class](#) geomagnetic storms and Northern Lights around the Arctic Circle. Rauno Pakarinen sends this photo from Pieksämäki in eastern Finland:

The solar wind responsible for this display is flowing from a hole in the sun's atmosphere. It is expected to influence our planet for the next 2 to 3 days, with a 40% chance of continued geomagnetic storms on Jan. 27th and Jan. 28th. Arctic sky watchers should remain alert for auroras this weekend. Free: [Aurora Alerts](#)

## Near Earth Asteroids

Potentially Hazardous Asteroids (PHAs) are space rocks larger than approximately 100m that can come closer to Earth than 0.05 AU. None of the known PHAs is on a collision course with our planet, although astronomers are finding [new ones](#) all the time.

On January 24, 2017 there were **1762** potentially hazardous asteroids.

### Recent & Upcoming Earth-asteroid encounters:

Asteroid	Date(UT)	Miss Distance	Size
<a href="#">2016 YC8</a>	Jan 18	9.5 LD	52 m
<a href="#">2015 BB</a>	Jan 18	13.8 LD	45 m
<a href="#">2002 LS32</a>	Jan 24	53.9 LD	1.0 km
<a href="#">2017 BX</a>	Jan 25	0.7 LD	10 m
<a href="#">1991 VK</a>	Jan 25	25.2 LD	1.9 km
<a href="#">2000 WN107</a>	Jan 26	62.3 LD	2.8 km
<a href="#">2017 AK3</a>	Jan 26	11.3 LD	52 m
<a href="#">2016 YP4</a>	Jan 26	12.6 LD	18 m
<a href="#">2005 VL1</a>	Feb 4	9.1 LD	18 m
<a href="#">2013 FK</a>	Feb 5	7.1 LD	101 m
<a href="#">2014 DV110</a>	Feb 10	9.8 LD	45 m
<a href="#">2015 QR3</a>	Feb 12	13.1 LD	31 m
<a href="#">2017 BW</a>	Feb 17	4.6 LD	95 m
<a href="#">2013 WT67</a>	Feb 17	44.2 LD	1.1 km
<a href="#">1992 FE</a>	Feb 24	13.1 LD	275 m
<a href="#">1998 QK56</a>	Feb 24	53 LD	1.2 km
<a href="#">2012 DR32</a>	Mar 2	2.7 LD	52 m

**Notes:** LD means "Lunar Distance." 1 LD = 384,401 km, the distance between Earth and the Moon. 1 LD also equals 0.00256 AU. MAG is the visual magnitude of the asteroid on the date of closest approach.

## Second near miss in 3 weeks: Unexpected asteroid slips between Earth and the moon

**26 JANUARY, 2017**

Less than 3 weeks ago, an asteroid the size of a building slipped past Earth from a distance about halfway to the moon. Now a similar space rock, asteroid 2017 BX, discovered only a few days ago, is about to zoom by our helpless planet. The new near-Earth object (NEO), dubbed asteroid 2017 BX, was only discovered a few days ago, on Friday, January 20. It swang Tuesday night at 11:54 p.m. ET at a distance of about 162,000 miles (261,000 kilometers) —

## Tornado Strikes East Jerusalem

24 JANUARY, 2017

A tornado hit East Jerusalem on Saturday, and it received very little media coverage – possibly because it was East Jerusalem, Mississippi, and not its more famous namesake. Yet as the world argues over the fate of East Jerusalem in Israel, it seems that the fates of the two cities, with identical names on opposite sides of the globe, are remarkably intertwined.

## Greece reports outbreak of H5N8 bird flu at hen farm - OIE

Greece reported an outbreak of the highly contagious H5N8 bird flu virus among laying hens on a farm in the southern part of the country, the World Organisation for Animal Health (OIE) said on Thursday, citing a report from the Greek farm ministry.

The country had already reported a case of H5N8 in a swan in December but this would be the first outbreak on a farm.

Some 28,000 hens died of the virus, the report said.

The H5N8 Bird flu virus has spread among European countries in recent months with more than 20 countries hit so far, according to the OIE.

## Investigate the death of whales found in the current season in Nayarit

Already 3 dead whales have reached the beaches of Nayarit since the beginning of the current sighting period. The state's PROFEPA delegation has hired specialists to investigate the cause of the deaths.

Published in he 19.01.2017 15:21:55 in [National](#) , [General Science](#) , [Nayarit](#)

There are already three whales that have lost their lives during this period of sighting on Nayarit coasts according to the reports of the Delegation of PROFEPA in the entity; The first occurred on December 27 in La Puntilla in the municipality of Tecuala, the next was on January 4 in Santiago Ixcuintla and the last cetacean died only 500 meters away where the death of the first animal was recorded in the Tecuala region on 10 January.

"The three whales that we have already, appeared dead on the beaches of Nayarit were perfectly checked and do not present something that indicates that they have died for any reason other than the natural one," said Omar Canovas, delegate of PROFEPA in Nayarit.

The official explained that a specialist has been hired to investigate the death of whales in the Nayarit sea; According to one of the theories that were shared by the deaths of cetaceans, is related to the phenomenon of "La Niña" that could cause a disorientation in the animals, until they are stranded and lose their lives, however, not yet You can check this fact.

"We were talking with people specialized in this subject of the University of Sinaloa and the Technological University of Bahía de Banderas, and we are being stressed that we always keep in mind that right now in the sea is the 'La Niña' effect that sometimes We find unusual circumstances, it could be this, they did not give it as a reference does not mean that it has to be that, that's why they are going to do studies. "

Since January 02, signs of bird flu were detected in Uganda where fishermen reported "mass death of wild birds" on the shores of Lake Victoria, near Entebbe, which lies near the capital Kampala. Burundi is on alert.

The director in charge of animal health in the Burundian ministry of agriculture and livestock, Mr. Nsanganiyumwami Déogratias says they are aware of the presence of the disease in East African Community since Monday 16th January 2017. "We held a meeting with the minister and competent experts to impose measures to protect people against any contamination", he says.

"Uganda is not very far from Burundi and there are comings and goings of people and

Bird flu is caused by H5N1 virus and spreads very fast among birds and can be transmitted to human beings.

## Bangladesh finds two outbreaks of H5N1 bird flu in poultry

By REUTERS

PUBLISHED: 17:47 GMT, 23 January 2017 | UPDATED: 17:47 GMT, 23 January 2017

PARIS/DHAKA, Jan 23 (Reuters) - Bangladesh discovered two outbreaks of the highly contagious H5N1 bird flu virus in poultry last week, according to reports from the World Organisation for Animal Health (OIE) and a senior Bangladeshi health ministry official on Monday.

A first case was found at a poultry farm in Dhamrai, just outside the capital, Dhaka. Out of 3,000 Sonali type poultry at risk from the outbreak, 732 died from the virus and the rest were slaughtered, according to the Paris-based OIE.

The other outbreak was found in a village in the Western district of Rajshahi where about 450 backyard poultry died from the virus, a senior health ministry official, who asked not to be named as he is not authorized to talk to media, told Reuters.

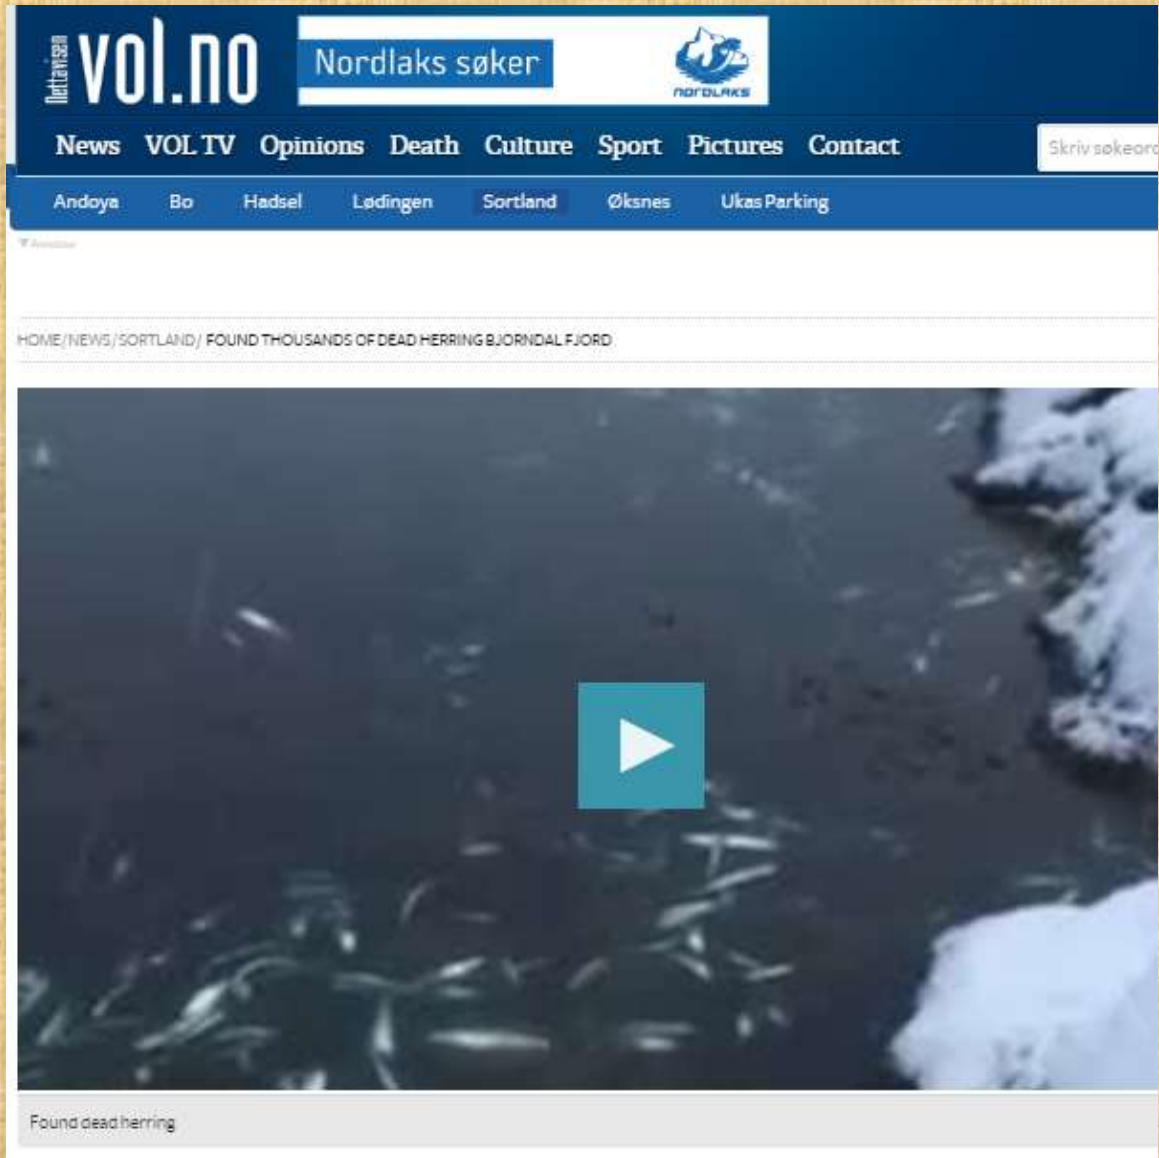

"There is no reason to panic, people should inform us if they see birds are dying," he said, adding there had been no case of human infection in the country.

Bangladesh was first hit by bird flu in 2007, when more than a million birds were culled.

Different strains of bird flu have been spreading across Europe and Asia since late last year, leading to mass culling of poultry in certain countries and some human

## Massive fish death in Port-Saint-Louis du Rhône

1 / 1

The number of stranded fish has arrested many inhabitants.

Published on : 23/01/2017 at 16h51 by R.Chape

Last week, many inhabitants of Port-Saint-Louis du Rhône called the Eco-Citizen's Institute for the Knowledge of Pollution (IECP) to report the presence of many dead fish in front of Port Napoleon, on the shores Of the Canal Saint-Antoine.

Researchers from the IECP immediately visited the site and found several hundreds of failed salmon. 8 fish were harvested for analysis. In order to identify the causes of this sudden, single-species mortality, scientists first measured the different parameters of water: temperature, pH, salinity, dissolved oxygen, total nitrogen and organic carbon. These last two indicators, normal, have eliminated all organic pollution. A parameter was, however, very surprising, that of the temperature of the water: between 4 and 5 ° C on the surface, but also in depth. This is a very low temperature for the Mediterranean, which rarely goes below 10 ° C.

Since fish are cold-blooded animals, they must necessarily pump calories into the water, under penalty of entering into near-hibernation and thus, unable to feed or to move, to die.

The saucers collected on the banks were dissected at the IECP laboratory. The

## MISSILE DEFENSE

# S-500 to strengthen Russia's 'air defense system for the 21 Century'

by Staff Writers

Moscow (Sputnik) Jan 24, 2017

Russia is in the process of creating an integrated national air defense system, which is expected to become fully operational once the cutting-edge S-500 Prometey surface-to-air missile system, also known as the 55R6M Triumfator-M, enters service, Major General Andrei Cheburin said.

Cheburin, commander of the missile defense division of the 1st Air and Anti-Ballistic Missile Defense Army of the Russian Aerospace Defense Forces, told the newspaper Krasnaya Zvezda that activities aimed at creating "an integrated national defense system of the 21st century are in full swing."

"This system will be finalized when [the Russian] Armed Forces receive the brand new long-range S-500 surface-to-air missile system and advanced radars," he explained.

The S-500 is currently in development. Russian defense officials have not specified when the next-generation air defense system will begin tests.

The S-500, designed by Almaz Antey, is said to have a range of 600 kilometers (more than 370 miles). The system can simultaneously intercept up to ten ballistic and hypersonic missiles traveling at a speed of 7 kilometers per second. The Prometey is capable of engaging targets at an altitude of up to 200 kilometers (more than 120 miles).

The system is capable of intercepting aircraft and UAVs, as well as destroying low-earth-orbit satellites, space destruction devices and orbital weaponry.

The S-500 will be a major upgrade to the state-of-the-art S-400 complex that is already in service with the Russian Armed Forces.

The S-500, designed by Almaz Antey, is said to have a range of 600 kilometers (more than 370 miles). The system can simultaneously intercept up to ten ballistic and hypersonic missiles traveling at a speed of 7 kilometers per second. The Prometey is capable of engaging targets at an altitude of up to 200 kilometers (more than 120 miles).

US Air Force Gen. John Hyten said that Russia and China are developing their anti-satellite capabilities and will soon pose a threat to the United States in space.

Russia and China are developing their anti-satellite capabilities and will soon pose a threat to the United States in space, US Air Force Gen. John Hyten, the head of US Strategic Command (STRATCOM) said.

"In the not-too-distant future, they will be able to use that capability to threaten every spacecraft we have in space. We have to prevent that, and the best way to prevent war is to be prepared for war. So the United States is going to do that, and we're going to make sure that everybody knows we're prepared for war," Hyten said on Thursday, as quoted by the US Department of Defense.

According to the general, Russia is exploring anti-satellite capabilities, including lasers for use in space and other "capabilities that would threaten our satellites, and many of which would create debris."

He added that the use of such weapons can create a large amount of debris in orbit, which would hinder access to space.

Hyten also noted that China tested its capabilities "at multiple orbital regimes."

Russia and China have both declared their commitment to the use of space for peaceful purposes and are members of the United Nation's Committee on the Peaceful Uses of Outer Space.

## China must expand nuclear arsenal in response to Trump

by Staff Writers  
Beijing (AFP) Jan 24, 2017

China must strengthen its nuclear arsenal to "force the US to respect it" in response to the stance of new US President Donald Trump, a leading newspaper said Tuesday.

The comments in the Global Times, a popular paper known for its inflammatory rhetoric and hawkish views, came just days after President Xi Jinping called for the eventual global elimination of atomic weapons.

In recent days, Chinese social media has carried pictures purporting to show an advanced intercontinental ballistic missile system deployed in the northeast.

The Dongfeng-41 is reportedly a nuclear road-mobile missile thought to have a payload of 10-12 warheads and a range of 14,000 kilometres (8,700 miles), according to the Global Times.

The paper, a subsidiary of the Communist Party mouthpiece People's Daily, plays to nationalist sentiment and is often believed to channel hardline views within the government.

The Global Times said some media claimed the People's Liberation Army leaked the photos as a warning to Trump.

"They think this is Beijing's response to Trump's provocative remarks on China," it added.

The US president, who took office Friday, has rattled Beijing with tough talk on trade and national security.

## US faces stiff China pushback in S. China Sea

By Ludovic EHRET

Beijing (AFP) Jan 25, 2017

If Donald Trump's hawkish new administration follows through on threats and tries to cut Beijing off from artificial islands in the South China Sea, it could face a stiffer pushback than many imagine, experts say.

The US president and his team have made much of their desire to put Beijing in its place, including in the strategically vital waterway, which China claims almost entirely and where it has reclaimed -- and fortified -- thousands of acres of land, according to the Pentagon.

Trump's nominee for Secretary of State, Rex Tillerson, told his confirmation hearing the US needs to send a clear signal that China's access to the islands is "not going to be allowed".

Observers quickly pointed out the full-scale blockade this would require was likely to provoke a military response from Beijing -- a response that might be enough to make the US think twice.

While Beijing may have a poorer and less well-equipped military, it is stocking its arsenal with submarines, anti-ship missiles and other weapons tailor-made to neutralise Washington's most valuable naval assets, they say.

"Beijing knows that it cannot win a conventional frontal conflict with the US," with its vastly superior military, Valerie Niquet of French think tank Foundation of Strategic Research told AFP.

Instead, it is developing "capacities that would restore its freedom to manoeuvre by pushing Washington to hesitate before a potentially costly intervention in Asia."

Prime Minister Benjamin Netanyahu repeated his long-held belief on Thursday that Iran poses the "greatest danger" to Israel and predicted that the world's silence in the face of the Islamic Republic's threats to annihilate the Jewish state will end now that US President Donald Trump is in office.

Speaking at the Yad Vashem Holocaust Memorial Museum in Jerusalem in an address for International Holocaust Remembrance Day, Netanyahu said "the greatest danger that we face, of hatred for the Jewish people and the Jewish state ... comes from Iran. It comes from the ayatollah regime that is fanning [the] flames [of anti-Semitism] and calling outright for the destruction of the Jewish state."

Netanyahu lashed out bitterly at the world's "deafening silence" when the Iranian regime "merely calls to wipe out every

Left-wing advocacy group Media Matters for America has been quietly working with social media giant Facebook to combat what the group describes as "propaganda" and "fake news," internal documents reveal.

Media Matters told current and prospective donors at a retreat in Florida over the weekend that it has been in discussions with Facebook leadership about their policies on inaccurate and partisan news stories on the website that many liberals blame for political losses last year.

*Local governments are cracking down on churches trying to serve the homeless. (Nick Dertavitian/Flickr/CC)*

If you want to be a Good Samaritan to the homeless in your community, you might want to check and see if it is legal first.

All over the country, cities are passing laws that make it illegal to feed and shelter the homeless. For example, in this article, you will read about a church in Maryland that was just fined \$12,000 for simply allowing homeless people to sleep outside the church at night. This backlash against homeless people comes at a time when homelessness in America is absolutely exploding.

In a previous article, I shared with my readers the fact that the number of homeless people in New York City has just set a new all-time high, and the homelessness crisis in California has

Jerusalem (AFP) - Israel has approved 2,500 settler homes in the occupied West Bank, officials said Tuesday, marking a major settlement expansion following the election of US President Donald Trump.

The planned new homes approved by Prime Minister Benjamin Netanyahu and Defence Minister Avigdor Lieberman may be the largest number to have been given the green light since 2013, said settlement watchdog Peace Now.

Washington (AFP) - Comments by US President Donald Trump on nuclear weapons and climate change have helped make the world less safe, the Bulletin of the Atomic Scientists warned Thursday, moving its symbolic "Doomsday Clock" 30 seconds closer to midnight.

The clock -- which serves as a metaphor for how close humanity is to destroying the planet -- was last changed in 2015, from five to three minutes before midnight.

It is now set at two and a half minutes to midnight, amid concerns about "a rise in

## Foreigners Are Dumping U.S. Debt At A Record Pace And Our \$20 Trillion National Debt Is Poised To Become A Major Crisis

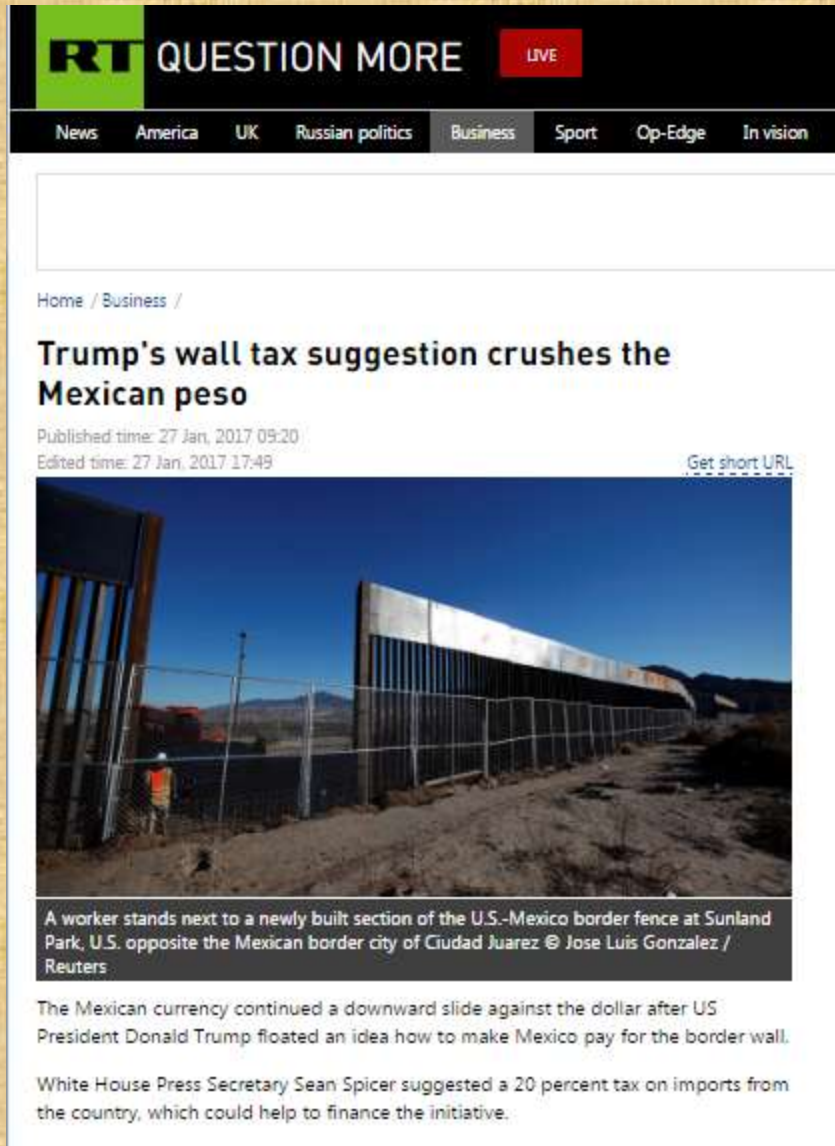

By Michael Snyder, on January 22nd, 2017

While most of the country has been focused on [the inauguration of Donald Trump](#), a very real crisis has been brewing behind the scenes. Foreigners are dumping U.S. debt at a faster rate than we have ever seen before, and U.S. Treasury yields have been rising. This is potentially a massive problem, because our entire debt-fueled standard of living is dependent on foreigners lending us gigantic mountains of money at ultra-low interest rates. If the average rate of interest on U.S. government debt just got back to 5 percent, which would still be below the long-term average, we would be paying out about a trillion dollars a year just in interest on the national debt. If foreigners keep dumping our debt and if Treasury yields keep climbing, a major financial implosion of historic proportions is absolutely guaranteed within the next four years.

# Pro-Sharia law middle school worksheet angers parents

🕒 Sunday, January 22, 2017 | Michael F. Haverluck (OneNewsNow.com)

After students at a southern Indiana middle school were assigned to study and complete a worksheet that allegedly portrays the oppressive and brutal Islamic Sharia law in a positive light, parents are speaking out in strong opposition.

Seventh graders at Highland Hills Middle School in Georgetown, Indiana, were given the pro-

Muslim assignment that spurred several parents to voice their disapproval of it at a recent New Albany-Floyd Country School Board meeting, alleging that it indoctrinated students certain beliefs about the Middle Eastern religion, according to the [Courier-Journal](#).

## Sharia law ... all good?

The controversial assignment introduces students to Sharia law in a disarming and conversational way.

"The worksheet in question features a passage attributed to a fictional 20-year-old woman from Saudi Arabia named Ahlima," [The Christian Post \(CP\) reports](#). "In the passage, Ahlima states that she is 'very fortunate' to be living under the rule of Sharia law – which in many Muslim cultures is a strict religious code that governs the way Muslims dress and act. She goes on to explain that she will soon be married and become a man's second wife."

On the worksheet, the Islamic garb that covers women from head to toe – which is considered to be a sign of oppression and inequality for Muslim women – is portrayed as something

LOUISVILLE, Ky. (COURIER-JOURNAL) — If two Kentucky lawmakers get their way, the crucifixion of Jesus, the trials of Job and the Ten Commandments could land on high school syllabuses.

A bill introduced early this month, penned by Republican Reps. DJ Johnson of Owensboro and Wesley Morgan of Richmond, would create state regulations for public high schools wanting to offer elective social studies courses on Hebrew scriptures and the Bible. Doing so would familiarize students with biblical characters and narratives that are "prerequisites to understanding contemporary society and culture," the bill reads.

Johnson and Morgan did not return phone messages seeking comment.

Under the bill, all school districts would be expected to maintain "religious neutrality" and accommodate "diverse religious views."

To be sure, public schools in Kentucky are already free to study the Bible and other religious texts, provided instruction is strictly academic and isn't a "ruse to promote religious beliefs," according to the Kentucky Department of Education. In fact, some schools have offered Bible literacy classes in the past as an English elective, department spokeswoman Nancy Rodriguez said in an email.

Jim Potash, president of the Kentucky Secular Society, which supports the separation of church and state, said in theory, it'd be fine for schools to offer a class that delves into the contents of the Bible for academic purposes. But given that Gov. Matt Bevin recently declared 2017 the "Year of the Bible," he said he worries about how such a bill would actually play out.

"I don't think it really would be just teaching about religion," Potash said. "I think I'd have to worry about them actually preaching religion."

## Awash in overdoses, Seattle creates safe sites for addicts to inject illegal drugs

By Katie Zezima January 27 

Officials in Seattle on Friday approved the nation's first "safe-injection" sites for users of heroin and other illegal drugs, calling the move a drastic but necessary response to an epidemic of addiction that is claiming tens of thousands of lives each year.

The sites — which offer addicts clean needles, medical supervision and quick access to drugs that reverse the effects of an overdose — have long been popular in Europe. Now, with the U.S. death toll rising, the idea is gaining traction in a number of American cities, including Boston, New York City and Ithaca, N.Y.

While opponents say the sites promote illegal drug use, supporters say

# California lawmakers want third-gender option on IDs

Published January 26, 2017 • Associated Press

SACRAMENTO, Calif. — Democratic lawmakers on Thursday introduced a bill supporters say would make California the first state to add a third gender option on state identifying documents.

## ADVERTISEMENT

State Sen. Toni Atkins' bill would add a non-binary gender marker option for driver's licenses, birth certificates, identity cards and gender change court orders. The San Diego Democrat says SB 179 would also simplify the process for changing one's gender on those documents.
