## والعلامات حتى 7 فبراير 2017

Holy\_bible\_1

اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض

ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي

المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما

انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

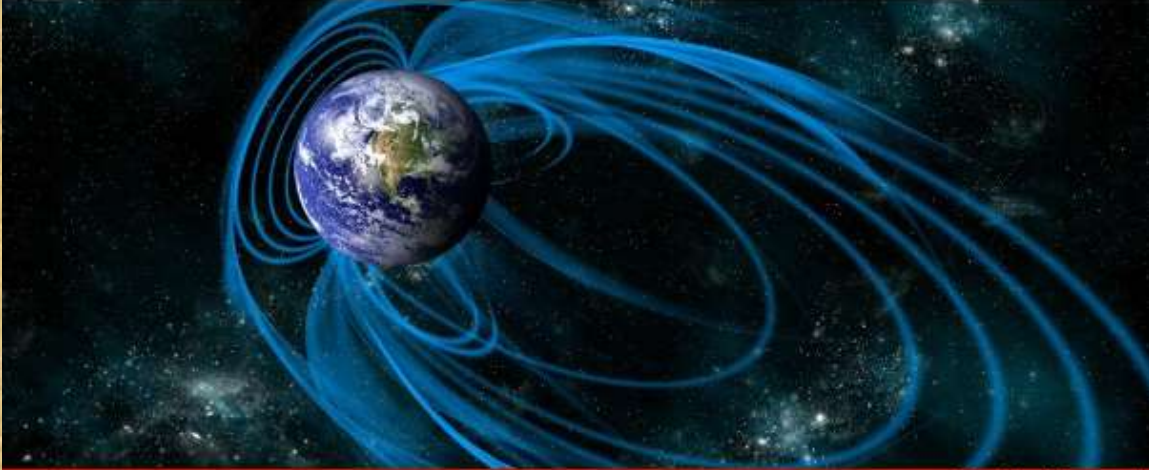

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

## Earth's magnetic poles are set to swap places - and we're totally unprepared

When north becomes south.

PHIL LIVERMORE & JON MOUND, THE CONVERSATION 30 JAN 2017

Earth's [magnetic field](#) surrounds our planet like an invisible force field - protecting life from harmful solar radiation by deflecting charged particles away. Far from being constant, this field is continuously changing.

Indeed, our planet's history includes at least several hundred global magnetic reversals, where north and south magnetic poles swap places. So when's the next one happening and how will it affect life on Earth?

During a reversal the magnetic field won't be zero, but will assume a weaker and more complex form.

Potentially Hazardous Asteroids (PHAs) are space rocks larger than approximately 100m that can come closer to Earth than 0.05 AU. None of the known PHAs is on a collision course with our planet, although astronomers are finding [new ones](#) all the time.

On February 1, 2017 there were **1770** potentially hazardous asteroids.

A HUGE asteroid is due to hit Earth in days destroying cities and curing tsunamis, an astronomer has claimed.

The object, known as 2016 WF9, is hurtling towards Earth and is being tracked by NASA.

NASA says the object, which could be a comet or an asteroid, will safely pass Earth at a distance of nearly 32 million miles on February 25.

But Russian astronomer Dr Dyomin Damir Zakharovich has said the space agency is wrong.

**GREEN COMET APPROACHES EARTH:** A small comet named "45P/Honda-Mrkos-Pajdusakova" (45P for short) is approaching Earth. At closest approach on **Feb. 11th**, the comet will be 7.4 million miles from our planet, visible in binoculars and small telescopes. This is what it looks like:

Michael Jäger of Stixendorf, Austria, took the picture on Dec. 31, 2016, just as the comet was swinging around the sun en route to Earth. Since then 45P's icy nucleus has been heated by solar radiation, causing it to spew brightening jets of gas into the comet's green atmosphere. Why green? Because the comet's vaporizing nucleus emits diatomic carbon, C<sub>2</sub>, a gas which glows green in the near-vacuum of space.

According to the Minor Planet Center, this is the 8th closest pass of any comet in the modern era (since ~1950, when modern technology started being used to study comets). It will only be 31 times farther from Earth than the Moon. Interestingly, 45P made an even closer approach on its previous orbit (23 lunar distances), so it is also on the list as the 5th closest.

Proximity makes the comet bright despite its small size. Forecasters say 45P could be on the verge of naked eye visibility (6th magnitude) when it emerges into the pre-dawn sky later this week. The best time to look is during the dark hours before sunrise between Feb 9th and 12th. The comet will be racing through the

## Macedonia reports outbreak of H5N8 bird flu at farm: OIE

 Reuters January 30, 2017

PARIS (Reuters) - Macedonia reported an outbreak of the highly contagious H5N8 bird flu virus at a farm in the southwestern part of the country, the World Organisation for Animal Health (OIE) said on Monday, citing a report from the local veterinary authorities.

The infected birds were found at a farm in the region of Struga, the report sent by the Paris-based OIE said, without giving details on the type of birds contaminated.

The H5N8 bird flu virus has been spreading across Europe since late last year, leading to the large-scale slaughter of poultry in several countries, while other bird flu strains lead to some human deaths in China.

China flight tested a new variant of a long-range missile with 10 warheads in what defense officials say represents a dramatic shift in Beijing's strategic nuclear posture.

The flight test of the DF-5C missile was carried out earlier this month using 10 multiple independently targetable reentry vehicles, or MIRVs. The test of the inert warheads was monitored closely by U.S. intelligence agencies, said two officials familiar with reports of the missile test.

The missile was fired from the Taiyuan Space Launch Center in central China and flew to an impact range

ANKARA (Reuters) - A top adviser to Supreme Leader Ayatollah Ali Khamenei said on Thursday Iran will not yield to "useless" U.S. threats from "an inexperienced person" over its ballistic missile program.

U.S. President Donald Trump's national security adviser, Michael Flynn, said on Wednesday the United States was putting Iran on notice over its "destabilizing activity" after it test-fired a ballistic missile.

Trump echoed that language on Thursday, saying in a tweet "Iran has been formally put on notice" after his administration said it was reviewing how to respond to the

Retired Gen. David Petraeus warned lawmakers on Wednesday that the world order created in part by the United States in the 20<sup>th</sup> century is under "unprecedented threat from multiple directions," pointing to Russia, China, Islamist extremists and cyber threats.

Those threats are compounded by an America whose "resolve about its defense has become somewhat ambivalent," he added.

"Americans should not take the current international order for granted," Petraeus said at a House Armed Services Committee hearing. "It did not will itself into existence. We created it. Likewise, it is not naturally self-sustaining. We have sustained it. If we stop doing so, it will fray and, eventually, collapse."

Everyone who is numbered, from twenty years old and over, shall give the contribution to the Lord. The rich shall not pay more and the poor shall not pay less than the half shekel, when you give the contribution to the Lord to make atonement for yourselves.” Exodus 30:15 (The Israel Bible™)

After a 2,000 year moratorium, it is now possible for a Jew anywhere in the world to perform the mitzvah (commandment) of paying the half-shekel, a Biblically-mandated tax incumbent on every Jew to finance the day-to-day operations of the Temple.

# Texas Board of Ed. Starts to Cave on Evolution Debate

02-02-2017

The Texas Board of Education has voted preliminarily to ease, but not completely get rid of, the state high school curriculum requirement that educators should help students question the theory of evolution.

The Board of Education's 10 Republicans and five Democrats voted Wednesday to remove the mandate that "all sides" be presented.

But they voted to keep curriculums on cell complexity and the origin of life.

They also modified lessons on the fossil record, but kept language that highlights gaps.

The evolution issue has been tense for years in the schools in Texas, and it still not settled.

The board will vote again on Friday before a final decision is made in April.

There are four parts of the Texas curriculum that are at issue.

The first and most disputed asks biology teachers to have students scrutinize "all sides of scientific evidence" on evolution "so as to

TOKYO (Reuters) – Japan is putting together a package it says could generate 700,000 U.S. jobs and help create a \$450-billion market, to present to U.S. President Donald Trump next week, government sources familiar with the plans said.

The five-part package, to be unveiled when Prime Minister Shinzo Abe visits Trump on Feb. 10 in Washington, envisage investments in infrastructure projects such as high-speed trains and cybersecurity, said the sources, who declined to be identified as they were not authorized to speak to the media.
