## والعلامات حتى 28 مارس 2017

Holy\_bible\_1

اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيقه اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقه لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض

ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي

المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما

انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

## Sun Experiences Longest Period of Inactivity in 7 Years

MARCH 21, 2017

According to reports, the Sun has gone on a two-week **drought** of sunspots which is the longest stretch since 2010. The report reveals that the sun is currently blank with no visible sunspots. According to the investigation, it appears that it has been this way for 14 straight days now which results in the longest such stretch since April 2010 according to spaceweather.com.

**AN EXPLOSION OF GREEN:** A hole in the sun's atmosphere is spewing solar wind toward Earth and, as a result, the Arctic Circle is glowing with bright auroras. Last night in Fairbanks, Alaska, "the auroras came on like an explosion with hundreds of aftershocks," reports Sacha Layos, who watched the sky fill with waves of green:

"The entire night of March 22nd was dynamic and delightful," says Layos.

More auroras are in the offing. Solar wind speeds are currently topping 600 km/s as Earth moves deeper into the gaseous stream. NOAA forecasters estimate a 60% chance of polar geomagnetic storms on March 23rd. Free: [Aurora Alerts](#)

**SUNSPOT GENESIS:** A large sunspot is growing in the sun's northern hemisphere. Only 24 hours ago it didn't exist, now the active region sprawls across more than 70,000 km of solar "terrain" and contains at least two dark cores as large as Earth. Watch [this movie](#) of sunspot genesis.

**POTENT CORONAL HOLE FACES EARTH:** A canyon-shaped hole in the sun's atmosphere is facing Earth, and it is spewing a stream of fast-moving solar wind toward our planet. NASA's Solar Dynamics Observatory photographed the giant fissure on March 25th:

This is a "coronal hole" (CH) -- a vast region where the sun's magnetic field opens up and allows solar wind to escape. A gaseous stream flowing from this coronal hole is expected to reach our planet on during the late hours of March 27th and could spark moderately-strong [G2-class](#) geomagnetic storms around the poles on March 28th or 29th.

We've seen this coronal hole before. In early March, it lashed Earth's magnetic field with a fast-moving stream that sparked several consecutive days of intense auroras around the poles. The coronal hole is potent because it is spewing solar wind threaded with "negative polarity" magnetic fields. Such fields do a good job connecting to Earth's magnetosphere and energizing geomagnetic storms.

## Nepal reports severe H5N8 bird flu on farm: OIE

Nepal has reported a new outbreak of severe H5N8 bird flu on a poultry farm in the Koshi region, the World Organisation for Animal Health (OIE) said on Monday, citing a report from the Nepalese authorities.

The virus killed 3,650 of the 6,200 hens exposed, with the remaining animals culled, the Paris-based OIE said.

Nepal had already reported last month an outbreak of highly pathogenic H5N1 bird flu among backyard chickens and ducks.

Thousands of dead fish emerged in Hafik Lake in Sivas as the ice began to melt in Lake Hafik, which is frozen in winter.

Sivas'da surface covered with ice in Hafik Lake without oxygen, giving life, the ice began to emerge with the prosperity.

### 40 CYTOMETERIC ICE LAYER MADE

On the surface of Hafik Lake from Turkey's 135 international wetlands, an ice sheet of about 40 centimeters, which formed during the winter months, began to melt with the heat of the air.

While the strong wind was effective in the region, the ice masses on the ground and the dead fish caught the attention of the coast.

### OXYGEN FREE

Due to the deaths of fish in Hafik Lake, the District Governor of Hafik and the Municipality had made some studies. The fisheries and fishery division teams of the Provincial Directorate of Food, Agriculture and Livestock, who were at the scene of the investigation, determined that the fish died because they were oxygen free in the lake covered with ice.

Thousands of dead fish washed ashore in Somavaradahalla rivulet near Punaje village in Tirthahalli taluk.

The dead fish were noticed on Thursday. Since the basin of the rivulet is considered holy, fishing is not allowed. Following the mass death, a foul smell is emanating from the river basin and the gram panchayat has deputed five workers to clean up the area. Locals suspect poisoning of the water by miscreants as a cause for the mass death.

Revathi, Assistant Director, Department of Fisheries, said that the samples of water and the dead fish have been sent for analysis. The scarcity of oxygen caused by a depletion in the water level in the rivulet may be a cause.

At least 1,350 American, British and Romanian soldiers have been sent to Poland from a base in Germany. US commanders said that the troops were ready "to deter Russian aggressive actions."

The US, British and Romanian soldiers left the Rose Barracks military base in Vilseck, western Germany, for Poland where they are expected take part in NATO's mission. The troops are "fully prepared to deter Russian offensive actions," US Colonel Patrick Ellis said at the departure ceremony on Saturday.

SEOUL: A nuclear-powered US aircraft carrier arrived in South Korea today for joint military exercises, the US Navy said, in the latest show of force against the North.

The USS Carl Vinson berthed in the southern port of Busan as US Secretary of State Rex Tillerson began a tour of the region, where tensions have spiked in recent weeks with missile launches from the nuclear-armed North and the brazen assassination of Kim Jong-Un's half-brother in Malaysia.

Pyongyang has long condemned the annual joint drills, which involve tens of thousands of troops, as provocative rehearsals for invasion, while Seoul and Washington insist they are purely defensive in

The aircraft carrier and a US destroyer will conduct naval drills including an anti-submarine manoeuvre with South Koreans in waters off the Korean peninsula as part of the annual Foal Eagle exercise.

## Russia may be supplying the Taliban

by Staff Writers

Washington (AFP) March 23, 2017

Russia is "perhaps" supplying the Taliban as they fight US and NATO forces in Afghanistan, a top US general said Thursday.

General Curtis Scaparrotti, NATO's supreme allied commander who also heads the US military's European Command, told lawmakers he had seen Russian influence expand in multiple regions, including in Afghanistan.

"I have seen the influence of Russia of late -- an increased influence -- in terms of association and perhaps even supply to the Taliban," Scaparrotti told the Senate Armed Services Committee, without elaborating.

NATO troops have been fighting in Afghanistan since a US-led invasion in late 2001, following the September 11 attacks.

About 13,000 NATO service members are in Afghanistan, the bulk of them American, under its Resolute Support training mission.

Scaparrotti's comment goes one step further than remarks last month by General John Nicholson, the US commander of NATO forces in Afghanistan.

Nicholson testified that Russia is giving the Taliban encouragement and diplomatic cover in order to undermine US influence and to defeat NATO, but he did not address whether Russia is supplying the Islamist insurgents.

The United States in the 1980s supplied the Mujahideen, parts of which ultimately became the Taliban, with high-tech weapons as they battled the Soviet Union.

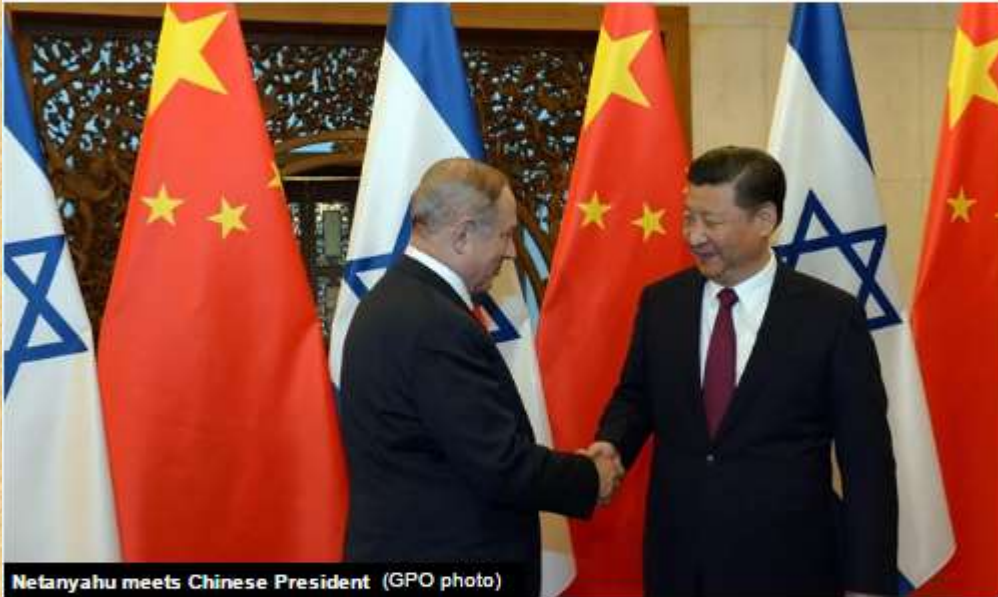

After more than 15 years of war, US generals say the Afghanistan conflict is stuck in a "stalemate," with the Taliban continuing to carry broad regional influence and NATO-backed Afghan security forces struggling to make progress.

# Rabbi, three children shot dead outside Jewish school in France

By Edward Cody March 19, 2012

PARIS — France was plunged into mourning and national outrage Monday by the terrorist-style killings of three young children and a rabbi as they gathered for classes at a Jewish school in a quiet residential neighborhood of Toulouse.

The lone gunman rode up on a motor scooter and opened fire with two pistols, first shooting at a group of waiting children outside the school and then following some of them into a courtyard as they ran for safety toward the building, a local prosecutor, Michel Valet, told reporters. In addition to the four people killed, six students were wounded, including a 17-year-old boy reported to be in serious condition at a Toulouse hospital.

Those killed were a French-Israeli rabbi sent to France to help teach in the school, and his two sons, 3 and 6, along with a girl who was the daughter of the principal. Her age was given variously as 8 and 10.

The first 24-hour police drone unit is to be launched, amid fears that forces may have to rely on them because of falling officer numbers.

The 'flying squad' will pursue suspects, find missing people and help solve murders. Assistant Chief Constable Steve Barry, national spokesman on drones, predicted forces across Britain would soon be using them as they are cheaper than helicopters and can perform some duties of bobbies on the beat.

But the move has prompted privacy concerns and warnings that the technology should 'never be an excuse to cut officers'.

Devon and Cornwall Police has advertised for a drone manager to lead its new dedicated unit, which will be launched in the summer and shared with Dorset.

## The Upcoming Trade War Between The U.S. And China Will Be The Biggest In The History Of The Planet

By Michael Snyder, on March 20th, 2017

The United States and China are the two largest economies in the world by far, and the upcoming trade war that is about to erupt will be cataclysmic for both sides. The Trump administration and the Chinese government are both gearing up for a prolonged trade war, and this is going to have very severe implications for the entire global economy. During the campaign, Donald Trump repeatedly stated that we "can't continue to allow China to

## The Worst Retail Cataclysm Ever: Sears Warns It Is On The Verge Of Collapse As Payless Prepares To File For Bankruptcy

More than 3,500 retail stores are going to close all across America over the next few months as the worst retail downturn in U.S. history gets even deeper. Earlier this week, Sears shocked the world when it announced that there is "substantial doubt" that the company will be able to "continue as a going concern" much longer. In other words, Sears has announced that it is on the verge of imminent collapse. Meanwhile, Payless stunned the retail industry when it came out that they are preparing to file for bankruptcy. The "retail apocalypse" that I have been warning about is greatly accelerating, and many believe that this is one of the early warning signs that the economic collapse that is already going on in other parts of the globe will soon reach U.S. shores.

I have repeatedly warned my readers that "Sears is going to zero", and now Sears is officially saying that it might actually happen. When you file official paperwork with the government that says there is "substantial doubt" that the company will survive, that means that the end is very near...

**WILLIS, Texas** — A prominent professing atheist group has filed a lawsuit against a Texas judge over his practice of opening court with a prayer from a local

chaplain.

As previously reported, the Wisconsin-based Freedom From Religion Foundation (FFRF) first sent a letter to Judge Wayne Mack of Willis in 2014, stating that it had received a complaint from an attorney and a local citizen, who said they felt coerced to participate out of fear of being disrespectful. Mack ignored the correspondence.

FFRF then sent a complaint to the Texas State Commission on Judicial Conduct, which—along with Lt. Gov. Dan Patrick—then requested that Texas Attorney General Ken Paxton issue a formal opinion on the prayers in Mack's courtroom.

WAYNE, Pa.

— Two student groups at a Christian-identified university in Pennsylvania are asking that the

school soften its policies on homosexuality, including removing language in its student handbook that defines marriage as being between a man and a woman.

Members of Eastern University's "gay-straight alliance" club known as Refuge, as well as its Political Activism Club (PAC), teamed up to host "LGBT Solidarity Week" on campus March 13-17. Prior to the event, the groups also sent correspondence to the university board to ask that changes be made to the student handbook in accordance with recommendations from the Human Sexuality Task Force.

"This movement would like to advocate for changes that it does not feel are controversial, so as to make Eastern

What will be the next step in the evolution of the gender revolution? Well, try to imagine a day when parents wait until their child goes to kindergarten before assigning their gender identity.

"It will never happen," you say. Don't be so sure. Gender-neutral parenting is already seen by some parents as the only fair way to raise a child these days.

## SCHOOL ORDERS BOY TO “TOLERATE” UNDRESSING WITH GIRL AND MAKE IT “NATURAL”

By Todd Starnes

A teenage boy was told by his principal that he had to “tolerate” undressing in front of a female student and to make it as “natural” as possible, according to a blockbuster lawsuit filed in a Pennsylvania federal district court.

[Click here for a copy of Todd's new book – “The Deplorables' Guide to Making America Great Again.”](#)

The lawsuit, filed Tuesday by [Alliance Defending Freedom and Independence Law Center](#), alleges the Boyertown Area School District shamed the teenage boy and violated his personal privacy. They are also alleging sexual harassment.

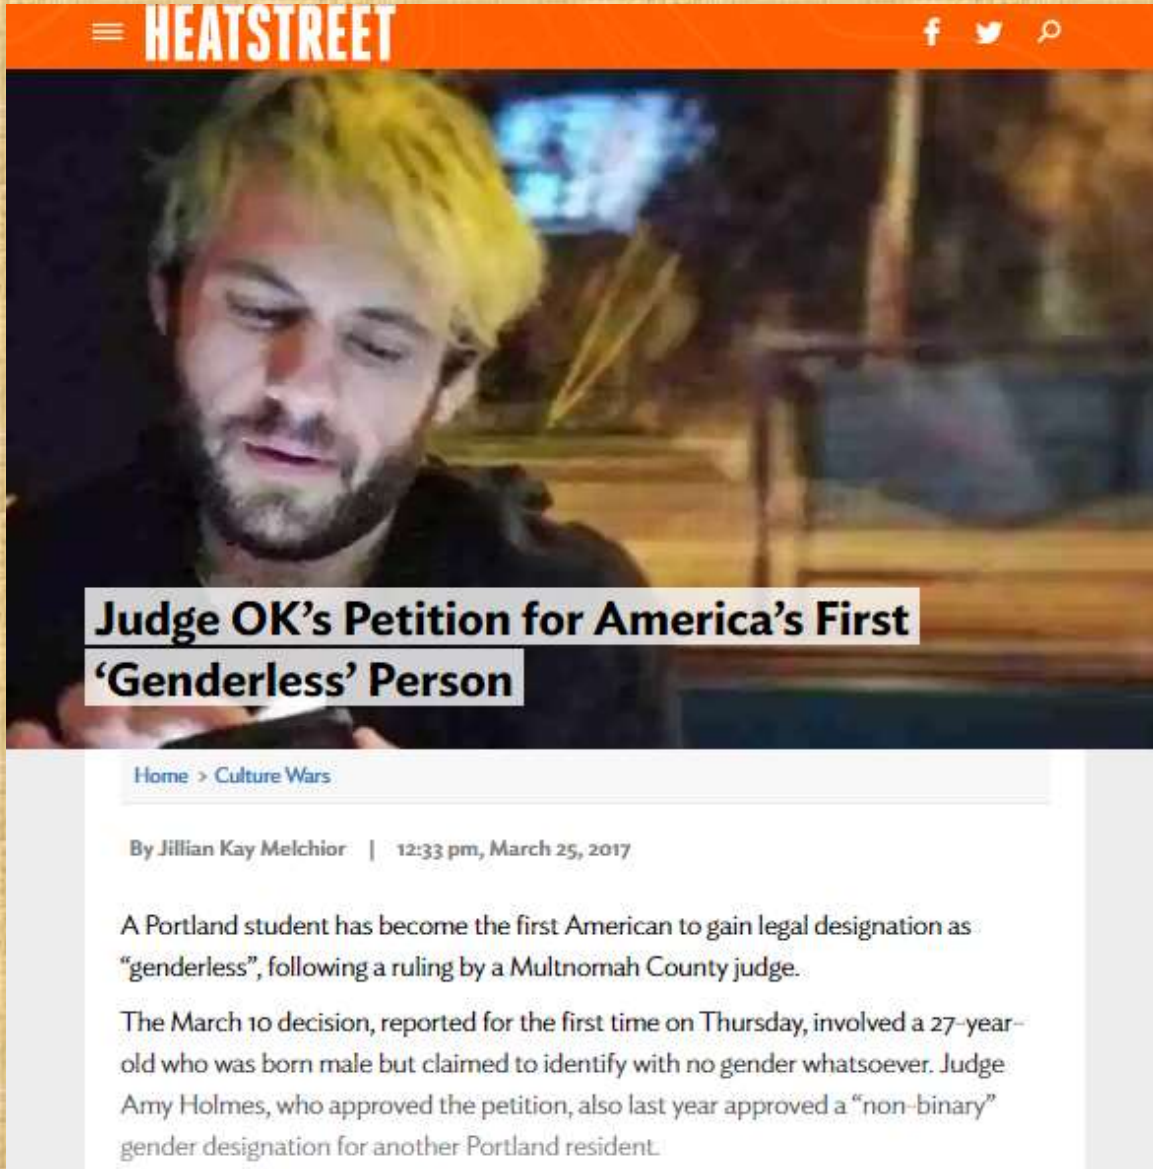

“No school should rob any student of this legally protected personal privacy,” ILC attorney Randall Wenger said. “We trust that our children won’t be forced into emotionally vulnerable situations like this when they are in the care of our schools because it’s a school’s duty to protect and respect the bodily privacy and dignity of all students.”

In the case of “Joel Doe” – they clearly ignored that duty.

Last Fall, the teen boy was standing in his underwear inside a locker room at Boyertown Area High School preparing to change for a physical education class.

“He suddenly realized there was a member of the opposite sex changing with him in the locker room, who was at the time, wearing nothing but shorts and a bra,” the lawsuit states.
