اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض

ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي

المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما

انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

Gunmen opened fire on two buses and a truck carrying Coptic Christians in Minya, Egypt on Friday, killing at least 28, including children. Some 24 people were also injured in the attack.

The group of between eight and 10 gunmen, reportedly dressed in military uniforms according to eyewitnesses, approached the convoy in three four-wheel-drive pickup trucks before opening fire, according to local media reports and the Egyptian Interior

Murdered Coptic Christians, Including Children, Were Asked to Deny Faith in Jesus but Refused

MAY 30, 2017

According to a chaplain, Friday's **massacre of 29 Coptic Christians** who were on their way to a monastery in Egypt occurred after Islamic radicals marched them off the bus one by one and asked them to deny their faith in Jesus Christ. A priest identified as Father Rashed, a chaplain for one of the groups comforting the survivors of the attack, said in an article in **Breitbart News** on Sunday that 10 masked Islamic State militants did not simply open fire on the bus on its way to the Monastery of Saint Samuel the Confessor.

A DISTANT star has begun exhibiting the same strange behaviour which led astronomers to suggest an "alien megastructure" is orbiting it.

Tabby's Star first attracted the world's attention last year when stargazers suggested the distinctive "blinking" of its light was caused by a gigantic spaceship passing in front of it.

Climate change will worsen food and water shortages in the Middle East and north Africa, and risk triggering more conflict and mass migration, with serious implications for the wider world, lawmakers from NATO's Parliamentary Assembly said Monday.

"The long-term prospects for food and water security in the MENA region are dire," said Osman Askin Bak, a member of the Turkish Parliament who will present the draft report on Saturday at the Parliamentary Assembly - a gathering of senior parliamentarians from the North Atlantic Treaty Organization's 28 member states.

"Climate change will worsen the region's outlook," he added.

War, poor governance, climate change and other issues have worsened tensions over competition for scarce water and food in the Middle East and north Africa, the lawmakers said.

In the Black Sea recorded a massive death of dolphins

As of May 9, bodies of 103 dolphins were found in the coastal zone of the Black Sea, of which 31 were found in the Crimea. Investigation of the causes of the tragedy is handled by the Azov-Black Sea Environmental Prosecutor's Office.

According to preliminary data, the mass death of dolphins can occur for 4 different reasons. At autopsy, in the stomachs of individuals, a hard shellfish was found. Also consider the version of physical impact. Mammals could get confused in established fishing nets, as it happened many times. Another version is the loss of the leader of the geolocation pack. He could throw himself ashore, after which the rest of the pack followed suit. Also in the Black Sea, water samples were taken

for laboratory testing, Rossiyskaya Gazeta reports.

Scientists environmentalists say that over the past few years this is the most massive case of death of dolphins.

The incidence of catfish catfish from March 18 from the sporadic death, to the late April incidence increased, the rapid growth of death, there have been 300 acres of ponds died every day 100,000 kilograms of cases, the peak of Dafeng, Sheyang, etc. The amount of dead fish per day more than 120 million pounds.

Since mid-March in Jiangsu coastal catfish catfish disease since the efforts in many efforts, has come up with the prevention and treatment programs, and achieved good results, but on May 17 received the phone on the farmers, told the breeding of the channel catfish died The amount of the last few days from the daily one hundred to three thousand tail, I think it is necessary for the recent catfish channel for the prevention and treatment of the case to sum up, to the farmers a little reference.

Channel catfish domestic consumer market is becoming more mature, the price tends to be stable, and there is considerable profit margins, in this context, Jiangsu coastal farming area gradually expanded in Yancheng formed about 40,000 acres of aquaculture concentrated area, mainly in the Dafeng's deer fishery, Shanghai farm, Jianfeng farm, Sheyang's Linhai farm, Sheyang salt field, Nanjing military area non-staple food base and so on. Recently the area of the catfish has occurred in an acute, serious loss of disease, a large amount of death, so many farmers lose confidence, the situation is described as follows:

First, the incidence of disease

The incidence of catfish catfish from March 18 from the sporadic death, to the late April incidence increased, the rapid growth of death, there have been 300 acres of ponds died every day 100,000 kilograms of cases, the peak of Dafeng, Sheyang, etc. The amount of dead fish per day more than 120 million pounds. The incidence of acute, long course of the disease is the characteristics of the outbreak, the amount of death increased from the daily number to the daily tens of thousands of just 10 days or so, many ponds reflect the poor control of disease.

A fourth person has likely died from Ebola in remote northeastern Democratic Republic of Congo during the most recent outbreak, the World Health Organization (WHO) said on Sunday.

The overall number of cases is now at 37 from 29.

WHO's Congo spokesman, Eugene Kabambi, told Reuters that of the 37 cases of hemorrhagic fever discovered since early May:

- Two have been confirmed as Ebola.
- Three, including the latest death, are considered probable.
- Thirty-two are suspected.

Just under two weeks since the emergency at the **Hanford nuclear facility in Washington state** (following a tunnel collapse), NBC's local affiliate King5 reports Hanford's owner, The U.S. Department of Energy, is scrambling to deal with a second emergency - signs have emerged that a massive underground double shell nuclear waste holding tank may be leaking.

Nuclear nightmare worse than Fukushima could hit US because of ignored risks – study

The US has underestimated the risks to its nuclear safety as a single nuclear fuel fire could lead to fallout "much greater than Fukushima," according to a new study. Researches slammed the Nuclear Regulatory Commission for ignoring the potential danger.

If spent fuel at one of the dozens of US nuclear sites sets alight, it "could dwarf the horrific consequences of the Fukushima accident [in Japan]," researchers from Princeton University and the Union of Concerned Scientists warned in their study published in the May 26 issue of Science magazine.

CDC: Alzheimer's disease deaths spike 55% over 15 years

Federal researchers have found the death rate for those with Alzheimer's disease rose significantly since 1999, especially among certain ethnicities over 85 years old or those in the south-east region of the US.

On Thursday, the US Centers for Disease Control and Prevention (CDC) released a *Morbidity and Mortality Weekly Report* that showed the number of deaths caused by Alzheimer's rose by 54.5 percent from 1999 to 2014.

Using data from the National Vital Statistics System, the CDC reported that 93,541 people died in 2014 from Alzheimer's disease. Adjusting for a rising population of senior citizens, the death rate in 2014 was 25.4 deaths per 100,000 people, a 54.5 percent increase compared to the death rate in 1999.

Without adjusting for age and population, the rate would have increased by 83.8 percent.

North Korea still faces hurdles, the director of the Defense Intelligence Agency said

The testimony came days after a North Korean ballistic missile test

(CNN) — North Korea will eventually obtain a nuclear weapon capable of hitting the United States if left unchecked, a top US intelligence official said.

"If left on its current trajectory, the regime will ultimately succeed in fielding a nuclear-armed missile capable of threatening the United States homeland," said Lt. Gen.

Vincent Stewart, the director of the Defense Intelligence Agency. "While nearly impossible to predict when this capability will be operational, the North Korean regime is committed and is on a pathway where this capability is inevitable."

The only hurdle left, Stewart said in a hearing before the Senate Armed Services Committee on Tuesday, is finding a way for its ballistic missile to re-enter the atmosphere. Perfecting re-entry is "really a matter of enough trial and error to make that work," Stewart said. "They understand the physics, so it's just a matter of design."

(LEAD) South Korea fires warning shots at flying object from North

2017/05/23 18:33

(ATTN: UPDATES throughout with details)

SEOUL, May 23 (Yonhap) – South Korean troops fired warning shots at an "unidentified object" flying across the heavily fortified border from North Korea Tuesday afternoon, the South's military announced.

The military detected the object traversing the Military Demarcation Line (MDL) southward in the Chorwon area in the eastern province of Gangwon at around 4 p.m., according to the Joint Chiefs of Staff (JCS).

It added the South's military fired warning shots along with dispatching a warning broadcast.

A defense source said the military fired more than 90 K-3 machine gun rounds, adding it may have been a drone.

The South's military is analyzing the object and its route and has beefed up its air defense posture, said the JCS.

The incident added to already-high tensions between the Koreas following the North's continued ballistic missile launches.

In January last year, a North Korean drone flew over the MDL into the western section of the demilitarized zone. The South opened machine gun fire on it.

TAIPEI, Taiwan (AP) -- Taiwan's military practiced repelling a simulated Chinese assault on an outlying island group on Thursday as part of annual military drills addressing the threat from across the Taiwan Strait.

Units from the army, navy and air force were deployed for the drills on the Penghu islands. They featured tanks, rocket launchers, assault helicopters and soldiers using shoulder-fired missiles to repel a force invading from across the 160-kilometer (100 mile) -wide strait.

Warships maneuvered offshore and fighter jets deployed flares.

The drills come amid heightened tensions with China, which claims Taiwan as its own territory to be brought under its control by force if necessary.

Taiwanese President Tsai Ing-wen observed the drills wearing a helmet and flak jacket and said they would improve command and cooperation between the different branches of the

Islamic State supporters celebrate Manchester attack online, no official claim

CAIRO (Reuters) - Islamic State supporters celebrated on social media on Tuesday after a blast at a concert venue in the north of England killed at least 19 people, although the militant Islamist group has not formally claimed responsibility.

British police have said they are treating the blast at the Manchester Arena at the end of a concert by U.S. singer Ariana Grande as a "terrorist incident". More than 50 people were wounded.

Twitter accounts affiliated to Islamic State have used hashtags referring to the blast to post celebratory messages, with some users encouraging similar attacks elsewhere.

Some messages described the attack as an act of revenge in response to air strikes in Iraq and Syria.

"It seems that bombs of the British airforce over children of Mosul and Raqqa has just came back to #Manchester," one user named Abdul Haqq said on Twitter, in reference to the Iraqi and Syrian cities held by the militants where a U.S.-led coalition, of which Britain is a member, is conducting air strikes.

Supporters posted messages encouraging each other to carry out "lone wolf" attacks in the West and shared Islamic State videos threatening the United States and Europe.

One user said he hoped Islamic State was responsible for the attack, although no claim has appeared on any of the militant's group's official social media channels.

"We hope that the perpetrator is one of the soldiers of the caliphate," he wrote on a channel affiliated to the group hosted by messaging network Telegram.

Others posted banners saying "the beginning is in Brussels and Paris, and in London we

Troops are to be deployed onto Britain's streets amid fears a further terror attack 'may be imminent', the Prime Minister has announced.

Theresa May revealed the move less than 24 hours after the bomb attack at a teen concert in Manchester, which left 22 dead and 59 injured.

The Prime Minister confirmed the identity of the Manchester suicide bomber as 22-year-old Salman Abedi, a Mancunian of Libyan descent.

But intelligence agencies fear he may not have acted alone - leaving open the possibility of an active Islamist terror cell on the loose.

Britain's Joint Terrorism Analysis Centre last night raised the terror threat level to 'critical', its highest level.

The threat level has only been raised to 'critical' twice since the system was introduced on August 1, 2006.

Suspects arrested May 11, 2017, in Minneapolis, allegedly with an arsenal in their car.

The Manchester suicide bomber was reported to authorities repeatedly over a period of five years, as British citizens pointed out his radical activities. Nothing was done.

It mirrors the script of previous jihadists who struck at San Bernardino, Orlando, Fort Hood, the Boston Marathon, London, Nice and many other places in the U.S. and Europe over the last three years.

"We knew of this man," police said, but they were either unwilling or unable to monitor the suspect, let alone arrest him.

Philippine President Rodrigo Duterte said on Wednesday he wouldn't rule out placing the entire country under martial law if the threat of Islamic State spreads.

Duterte cut short a visit to Russia and placed the southern island of Mindanao under military rule on Tuesday, and said he would keep it that way for a year if necessary.

Duterte assured the public he will not allow abuses under martial rule, even as he repeatedly said he will deal with terrorism harshly.

LIVE NOW President Donald Trump Visits Western Wall

President Donald Trump made even more history during his first overseas trip by becoming the first sitting U.S. president to ever visit the Temple Mount and the Western Wall.

During the visit, the met with Rabbi Shmuel Rabinowitz, rabbi of the Western Wall, as well as archeologists and historians who are working at the site. Following a brief presentation about the historical and biblical significance of the Western Wall, the president prayed at the wall and, as is tradition, placed a handwritten prayer inside the wall.

During his meeting with Palestinian Authority (PA) President Mahmoud Abbas Tuesday and in speeches throughout the day, President Donald Trump notably omitted any mention of a two-state solution to the Israeli-Palestinian conflict.

Trump rebuked Palestinian leaders in a joint press conference with Abbas in Bethlehem, saying, "Peace can never take root in an environment where violence is tolerated, funded and even rewarded," referring to stipends the PA pays to terrorists and their families.

The U.S. president also pledged his support for renewed Israeli-Palestinian peace negotiations.

"I am truly hopeful that America can help Israel and the Palestinians forge peace and bring new hope to the region and its people," Trump said. "I also firmly believe that if Israel and the Palestinians can make peace, it can begin a process of peace all throughout the Middle East and

They Are Killing Small Business: The Number Of Self-Employed Americans Is Lower Than It Was In 1990

By Michael Snyder, on May 23rd, 2017

After eight long, bitter years under Obama, will things go better for entrepreneurs and small businesses now that Donald Trump is in the White House? Once upon a time, America was the best place in the world for those that wanted to work for themselves. Our free market capitalist system created an environment in which entrepreneurs and small businesses greatly thrived, but today they are being absolutely eviscerated by the control freak bureaucrats that dominate our political system. Year after year, leftist politicians just keep piling on more rules, more regulations, more red tape and more taxes. As a result, the number of self-employed Americans is now lower than it was in 1990...

Taiwan court rules in favor of same-sex marriage, first in Asia

By J.R. Wu | TAIPEI

Taiwan's constitutional court declared on Wednesday that same-sex couples have the right to legally marry, the first such ruling in Asia, sparking celebration by activists who have been campaigning for the right for years.

The court, known as the Judicial Yuan, said current marriage laws were "in violation of both the people's freedom of marriage ... and the people's right to equality", and it gave two years for legal amendments to allow same-sex marriage.
