## والعلامات حتى 13 يونية 2017

Holy\_bible\_1

اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيقه اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقه لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض

ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي

المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما

انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

يوم الجمعة مساء يظهر قمر كبير لونه محمر يلقب بقمر الفراولة

**THE STRAWBERRY FULL MOON:** According to folklore, tonight's full Moon is the Strawberry Moon, named after plants that bear their delicious red fruit during the month of June. But if this is really the Strawberry Moon, why does it look so ... orange? John Stetson photographed the [carotene-colored](#) orb setting over Sebago Lake, Maine, on June 8th:

The orange color is imprinted by the atmosphere. When the Moon is hanging low, airborne dust and other particles [scatter blue](#) from moonlight, leaving only red and orange hues.

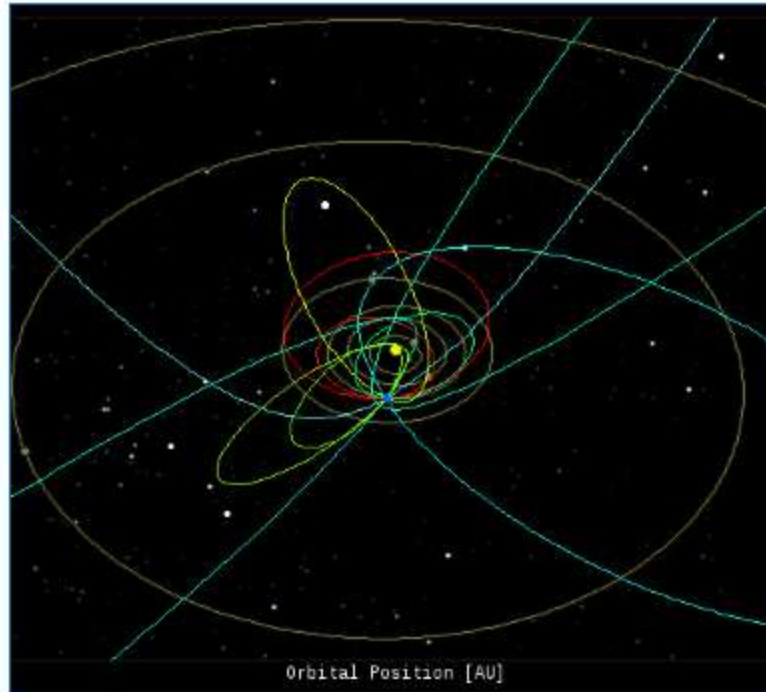

Something else happens when the Moon is hanging low: The [Moon Illusion](#) magnifies the apparent size of the orb. It looks huge. Some commentators have pointed out that the June 9th Strawberry Moon is a "mini-Moon" because it is located on the distant [apogee](#) side of the Moon's elliptical orbit. Apogee is no match for the Moon Illusion, though. Look for the Strawberry Moon rising in the east at sunset. It's a huge delight.

[Severe storms](#)

A major winter storm hit South Africa's province of Western Cape and the Cape Town metropolitan area around 23:00 SAST (21:00 UTC) on Tuesday, June 6, 2017, and intensified on Wednesday morning. It brought powerful winds, huge waves and coastal flooding, frequent lightning, heavy rain and snow at higher elevations. By 16:00 UTC, it claimed the lives of at least 8 people.

Gale force winds and heavy rain associated with the worst storm to hit the region in 30 years brought Cape Town and neighboring cities to a standstill on Wednesday morning. Local media dubbed it 'the mother of all storms,' while South African Weather Service forecasters are unofficially calling it 'one hell

The worst winter storm to hit South Africa's drought-stricken province of Western Cape fueled a massive wildfire near the city of Knysna (population 77 000). The fire has so far destroyed at least 150 structures, caused deaths of 3 people and forced 10 000 Knysna residents to evacuate. Provincial fire officials are describing the fire as the largest and most destructive in a built-up area in recent memory. The region is suffering its worst drought in more than 100 years.

Strong winds produced by a [massive winter storm](#), 'mother of all storms' as it's been named by South African media, turned wildfire that started near Knysna on June 6 into a massive blaze on June 7, 2017.

A major eruption occurred at Mount Sakurajima volcano in Kagoshima Prefecture, southwestern Japan at 22:56 UTC on June 5, 2017 (07:56 JST on June 6). This is the second significant eruption at the volcano in recent weeks.

The eruption occurred at Showa crater, ejecting a plume of ash up to 4.2 km (14 000 feet) above sea level, according to the Tokyo VAAC.

The Japan Meteorological Agency (JMA) warned that similar eruptions could occur at the volcano at any time. There were no immediate reports of injuries or damage.

JMA maintains at Level 3, orange alert, signifying the volcano is active and should not approach.

Mr. James Reynolds of Earth Uncut TV has an excellent video footage of the event:

## Congo reports outbreaks of severe bird flu in Ituri: OIE

The Democratic Republic of Congo has reported three outbreaks of highly pathogenic H5 bird flu among poultry in the northeastern province of Ituri, the World Organisation for Animal Health (OIE) said on Wednesday.

The virus was detected among ducks and hens in three villages near the border with Uganda, the Paris-based OIE said, citing a report from the Congolese agriculture ministry.

The disease caused the death of more than 12,000 birds, with mortality higher in ducks than in hens, according to the report.

The H5N8 strain of bird flu has been present in Uganda and the heavy trade of poultry animals and products across the border would have to be considered, the report said.

H5N8 bird flu has been found in Europe, the Middle East and Africa since late last year, propagated by wild birds, and has led to massive preventive culling of poultry in countries such as France.

Bird flu outbreak in Shaanxi province kills 20,000 chickens

HEALTH NEWS | Wed May 31, 2017 | 6:32am EDT

## Bird flu outbreak in Shaanxi province kills 20,000 chickens

More than 20,000 chickens died from an outbreak of H7N9 bird flu in northwest China's Shaanxi province, official media said on Wednesday citing a local government statement.

The outbreak occurred at an egg farm run by Lvxiangyuan Ecology Co based in Yulin, a city of more than 3 million people.

A three-kilometer-radius area has been closed for disinfection, said the Xinhua report, and all poultry in the area will be culled. Poultry trading sites have been shut down.

The H7N9 bird flu has claimed the lives of more than 200 people in China in the first four months of this year, almost three times higher than the fatalities from the strain for all of 2016.

Around 400,000 birds have been culled in China since last October following outbreaks of bird flu and live poultry markets around the country have been shut down.

# Indiana toddler dies from suspected tick bite infection, family says

Published June 07, 2017 • Fox News

An Indiana toddler died on Sunday after she caught a bacterial infection she may have got from a tick bite, her family said.

Kenley Ratliff, 2, fell ill a week ago after she contracted an infection believed to be Rocky Mountain spotted fever, transmitted through tick bites, her family told [WTHR](#). They said they went camping just before Ratliff got sick.

Within days, the toddler went from being healthy to battling the infection in the hospital.

"Yes, within less than like five days," Monica Kirby, a family friend, told the news station. "Her little body couldn't handle it."

The recent diplomatic fracture among some of the biggest Arab nations is so "dramatic," it could spiral into a war, Germany's foreign minister has warned in an interview with local media.

Sigmar Gabriel described the ongoing crisis in the Arab world as being "dramatic," while speaking exclusively to the *Frankfurter Allgemeinen Sonntagszeitung*.

The isolation of Doha by such key players as Saudi Arabia and its allies present "a danger that this conflict could become a war," Gabriel, who is also Germany's vice-

The US Navy says it has conducted strikes against Islamic State targets from an aircraft carrier in the eastern Mediterranean Sea.

The George H.W. Bush Carrier Strike Group "resumed strike missions in support of Operation Inherent Resolve," the Navy said in a news release.

The carrier entered the Mediterranean on June 5 and had previously conducted Operation Inherent Resolve strikes from the eastern Mediterranean in early March, according to the Navy.

## 12 Dead After Suicide Bomber at Iranian Parliament, Mausoleum

10:15AM EDT 6/7/2017

Bozorgmehr Sharafedin/Reuters

Women are seen inside the Parliament during an attack in central Tehran, Iran. (TIMA via REUTERS)

Join us on our podcast each weekday for an interesting story, well told, from Charisma News. Listen at [charismapodcastnetwork.com](http://charismapodcastnetwork.com).

Suicide bombers and gunmen attacked Iran's parliament and the Mausoleum of Ayatollah Khomeini in Tehran on Wednesday morning, killing at least 12 people in a twin assault at the heart of the Islamic Republic, Iranian officials and media said.

Islamic State claimed responsibility and released a video purporting to show gunmen inside the parliament building and one body, apparently dead, on the floor.

The rare attacks were the first claimed by the hardline Sunni Muslim militant group inside in the tightly controlled Shi'ite Muslim country. Islamic State has regularly threatened Iran, one of the powers leading the fight against the militants' forces in neighboring Iraq and, beyond that, Syria.

The raids took place at a particularly charged time, after Iran's main regional rival Saudi Arabia

## AI 'good for the world'... says ultra-lifelike robot

June 8, 2017 by Nina Larson

Sophia, a humanoid robot, is the main attraction at a conference on artificial intelligence this week but her technology has raised concerns for future human jobs

Sophia smiles mischievously, bats her eyelids and tells a joke. Without the mess of cables that make up the back of her head, you could almost mistake her for a human.

The humanoid robot, created by Hanson robotics, is the main attraction at a UN-hosted conference in Geneva this week on how artificial intelligence can be used to benefit humanity.

The event comes as concerns grow that rapid advances in such technologies could spin out of human control and

## Pilotless planes could soon be a reality, according to Boeing

Published time: 9 Jun, 2017 22:27

[Get short URL](#)

© Global Look Press

If you have a fear of flying, this probably isn't going to do you any favors. Boeing has revealed plans to develop planes that fly with no pilots, and intends to test the new technology next year.

*"The basic building blocks of the technology clearly are available,"* Mike Sinnett, Boeing's vice president of product development, said at a briefing ahead of the Paris Airshow which takes place later this month.

The idea of air travel in an autonomous plane sounds scary, but, at the moment, jetliners can already take off, land and cruise using their computers. Planes are also fitted with flight management systems which determine the best flight path based on the flight plan inputted by the pilot.

The U.S. Senate voted 90-0 Tuesday to encourage President Trump to move the U.S. Embassy in Israel from Tel Aviv to Jerusalem. (Reuters photo)

The U.S. Senate urged President Donald Trump to fulfill his campaign promise of relocating the American embassy in Tel Aviv to Jerusalem, unanimously passing legislation in support of the move Monday.

The Senate voted 90-0 in favor of a resolution introduced in May by Majority Leader Sen. Mitch McConnell, R-Ky., commemorating the 50th anniversary of Jerusalem's reunification and acknowledging Israel's sovereignty over its capital.

The resolution urges the "president and all United States officials to abide by" the 1995 Jerusalem Embassy Act, which calls on the U.S. to relocate its embassy and recognize Jerusalem as Israel's capital. Since the law's passage, every sitting president has signed successive six-month waivers delaying the move. Most recently, Trump signed the waiver June 1.

## Israeli Scientists Verify Miraculous Bible Event

6:00AM EDT 6/5/2017

United With Israel

*The book of Joshua says God caused the sun to stand still in the sky while the Israelites defeated their enemies. (Pixabay)*

Israeli scientists have discovered evidence for an event recorded in the Bible that took place thousands of years ago.

University researchers in Israel say they now have proof that a miraculous event recorded in the book of Joshua undoubtedly occurred.

According to Scripture, the sun stood still, enabling Joshua to lead the Israelites to victory in the Land of Israel. Israeli scientists have concluded, based on new research, that the event indeed took place, and they were even able to verify the exact date and time.

How do they define the occurrence in scientific terms? [Click here](#) to watch the video and find out.

# Prostate cancer: Drug trial breakthrough could DOUBLE life expectancy

A TREATMENT that could more than double the life expectancy of prostate cancer sufferers has been hailed as a once-in-a-career discovery.

By LUCY JOHNSTON

PUBLISHED: 00:01, Sun, Jun 4, 2017

A prostate cancer treatment has been hailed as a breakthrough

Researchers believe giving patients two drug treatments at once cuts disease progression and offers some patients the chance of a cure.

It could help 20,000 men who are diagnosed with the illness each year.

Those with the most advanced form of the disease, about 5,000, could see their life expectancy jump from 3.5 years to seven years on average.

UN Secretary-General Antonio Guterres is now calling on Israel to end its "occupation" of Palestinian areas. (United Nations photo)

United Nations Secretary-General Antonio Guterres expressed concern with Israel's "occupation" in the disputed territories on the Gregorian calendar's 50th anniversary of the start of the Six-Day War, which saw Israel take control over eastern Jerusalem, the West Bank, the Golan Heights, the Gaza Strip and the Sinai Peninsula from June 5-10.

Guterres, who has previously slammed critics of Israel as anti-Semites and reaffirmed Jerusalem's Jewish roots, shifted gears by saying the Israeli "occupation" sends "an unmistakable message to generations of Palestinians that their dream of statehood is destined to remain just that, a dream; and to Israelis that their desire for peace, security and regional recognition remains unattainable."

The U.N. leader said only a two-state solution would "achieve the inalienable rights of the Palestinian people."

## Sign of the Times? Facial-Recognition Software Coming to Stores

1:00PM EDT 6/7/2017

Jim Denison

*Every visitor's face is tracked automatically and compared at 30 frames per second. (Courtesy)*

I still remember my first crime. I was 6 or 7-years-old and was standing with my mother in the grocery store checkout line. As she paid for our food, I snatched a pack of chewing gum from a nearby rack and buried it in my pocket.

I have not shoplifted since. Apparently, I'm the exception to the rule.

The National Association for Shoplifting Prevention (its existence tells us this is a serious problem) reports that 1 in 11 Americans is a shoplifter. Many become addicted to the rush of getting away with their crime; 57 percent of adult shoplifters say it is hard for them to stop even when they're apprehended.

Enter facial-recognition software, which uses biometrics of known shoplifters from store databases and police logs. Every visitor's face is tracked automatically and compared at 30 frames per second. A match is sent to employees' smartphones. One company says its software has reduced shoplifting by 91 percent.

Germany will start testing facial recognition software at a Berlin train station this summer to help police track down and identify terrorist suspects, criminal offenders, and other security threats.

The software will initially be tested with volunteers at Berlin's Suedkreuz Station. If the new system proves effective, its use will not be limited to railway stations, Interior Minister Thomas de Maiziere said.

### Read more

"We already have video surveillance in train stations," Maiziere said on Saturday in an interview with German Tagesspiegel newspaper.

"We are not able, however, to put a picture of a terrorist on the run into software that would alert us when he appears somewhere at a

A Pakistani man has been sentenced to death for making a derogatory remark about the Prophet Mohammad in a Facebook post.

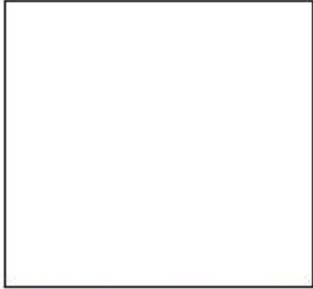

A counter-terrorism court has sentenced Taimoor Raza, 30, to be executed after finding him guilty of committing blasphemy online.

It is the first time anybody has been handed the death penalty for blaspheming on social media and follows a high-profile crackdown by the government of Prime Minister Nawaz Sharif.

Blasphemy is a highly sensitive topic in Muslim-majority Pakistan, where insulting the Prophet Mohammad is a capital crime for which dozens are sitting on death row.

Under Pakistan's harsh laws, anyone accused of insulting God, Islam or other religious personalities can be sentenced to death.

Pakistan last year arrested 15 people, 10 Muslims and five non-Muslims, on blasphemy charges, according to a report issued by the independent rights group Human Rights Commission of Pakistan.

Taimoor Raza has been sentenced to death

## IRS Can Seize Your Money Based on a Hunch

5:00PM EDT 6/9/2017

Neil Siefring/The Daily Signal

*If there are multiple transactions of just under \$10,000—by a business, for example—the IRS may become suspicious that there is nefarious activity occurring. (Public Domain)*

The federal government currently wields a tremendous amount of power over the citizens of the United States, far more than the Founders intended.

One manifestation of federal overreach is civil asset forfeiture. This practice allows the federal government to confiscate the wealth of its citizens upon the mere suspicion of wrongdoing.

The IRS, not content with expropriating the wealth of its citizens on April 15 every year, has now taken up the practice of seizing funds that have been involved in perfectly legal transactions on the basis of a hunch.

Thankfully, legislation in the House and the Senate has been introduced to bring this practice to a halt. Both chambers should act on the bills swiftly.

Under the Bank Secrecy Act, financial transactions of over \$10,000 trigger bank reporting requirements. If there are multiple transactions of just under \$10,000—by a business, for example—the IRS may become suspicious that there is nefarious activity occurring.

“

And the waters shall fail from the sea, and the river shall be drained dry.” [Isaiah 19:5](#) ([The Israel Bible™](#))

The Sea of Galilee, December 2015. (Photo: Adam Eliyahu Berkowitz/ Breaking Israel News)

Israel's Sea of Galilee, also known as the [Kinneret](#), hit an all-time-low recorded water level in May, prompting concerns about Israel's largest freshwater lake and heralding the fulfillment of a prophecy by Isaiah.

According to Israel's Water Authority, the Sea of Galilee lost 15 centimeters (5.9 inches) of its water level in May, decreasing the level to 9 million cubic meters (318 million cubic feet), an all-time

*Members of the Falash Mura Jewish Ethiopian community attend a prayer service at the HaTikvah Synagogue in Gondar, northern Ethiopia, September 30, 2016. (Reuters/Tiksa Negeri)*

A group of Ethiopian Falash Mura arrived at Ben Gurion Airport on Tuesday, the first group in a new wave of *aliyah* (immigration to Israel).

The 72 new Jewish immigrants arrived in the Jewish state as part of a collaborative effort between the Jewish Agency for Israel and the International Christian Embassy Jerusalem (ICEJ).

More than 200 families and supporters greeted the new immigrants at the airport.

Another three immigrant flights from Ethiopia are expected to arrive in Israel this month.

Tuesday night's flight marked the first group of Jewish immigrants from Ethiopia to arrive in Israel since the Israeli government approved and renewed the Ethiopian Aliyah program in October 2016.

ICEJ, a Christian Zionist global ministry, sponsored the latest Ethiopian immigration wave to Israel and has worked to raise funds for the first year of the reintroduced Ethiopian Aliyah program, which will bring 1,400 new immigrants to the Jewish state.

## Family loses everything in a fire, except a Bible

Melissa Guz and Jeannie Blaylock , KHOU 5:07 PM EDT June 10, 2017

CONNECTTWEETINTEREST

God works in mysterious ways. At least, that's what one Glynn County family believes after they lost everything in a fire, except a Holy Bible.

The fire happened on Belle Point Parkway in Brunswick last Friday. A family friend, Stephanie Levy, said Rachel was living at the residence with her aunt and uncle, Carol and Phil Reese, while she attended college.

According to Levy, the aunt woke up to a loud noise that day. When she went to check it out, she found the back porch engulfed in flames.

The house was at a total loss. Fortunately, no one was injured, but it claimed the lives of one dog, two cats and a kitten.

%INLINE%

It also destroyed all of their belongings, except for Rachel's Bible, a gift from her mom when she graduated high school, Levy said.

"The firefighter recovered it," Levy said. "It was in her room. He showed it to her. She was amazed by that... She was very moved by that."

## Why Are So Many Big Investors Positioning Themselves To Make Giant Amounts Of Money If The Stock Market Crashes?

By Michael Snyder, on June 5th, 2017

I keep hearing from people that think that the stock market is going to crash by the end of the year. Hopefully that will not happen, but the ridiculous stock prices that we are seeing right now **certainly cannot last forever**. On Sunday, I was chatting with a friend that had just been to a financial conference. He was quite surprised that one of the things being taught to the attendees of this conference was how to position themselves to make an enormous amount of money when the stock market crashes dramatically in the near future. Markets tend to go down a lot faster than they go up, and so when the inevitable market crash does take place those that have made large bets against the market will make huge fortunes. It happened in 2008, and it will happen again. But it was unsettling to my friend Robert that there were so many people that were gleefully looking forward to this.

Of course some of the biggest names in the investing world are also anticipating a major downturn very soon. I have previously written about how Warren Buffett's Berkshire Hathaway Inc. is sitting on a pile of 86 billion dollars in cash right now. Nobody ever knows exactly what Buffett is thinking, but it isn't too hard to figure out that he plans to use those billions to buy up stocks for a song after a big market crash happens.

# Stocks Fall; Tech Shares Take Brunt

Tech stocks were the S&P 500's worst-performing sector for a second straight session but still are up 18% this year

By *Alexander Osipovich* and *Riva Gold*

Updated June 12, 2017 7:50 p.m. ET

U.S. stocks fell Monday, as technology shares declined for a second straight session.

Companies including Apple and Google parent Alphabet have soared in 2017, prompting concerns that major indexes' gains have been overly concentrated in a handful of large technology firms. Technology was the worst-performing sector in the S&P 500 for a second straight session on Monday.

## 100,000 New Converts Reported Per Year Despite Ongoing Crackdown in China

JUNE 7, 2017

The growth of the Christian faith in China continues its remarkable rise, with one pastor reporting as many as 100,000 new followers of Christ per year, despite the worsening human rights abuses and crackdown by communist authorities. The Rev. Erik Burklin of China Partner, which trains Chinese Christian leaders, said that God is in the business of "changing lives" and "building His Church." "Like Jesus said to Peter, 'On this rock I will build my church.' When He said

(Wenzhou, Zhejiang—June 8, 2017) Disputes over government surveillance devices in house churches continue in China's coastal Zhejiang as officials cut power and water supplies to several area churches and the homes of church leadership at the beginning of June.

Members of Tuanqian Village Church in Rui'an, a county-level city in Wenzhou, Zhejiang, spoke with reporters on June 4, saying that after their church refused to install government surveillance equipment, they lost power and water to several buildings associated with the church.

The leaders of the church believe they may need to relent and install the cameras.

"I heard that the church leaders are about to give up their resistance because the wires in the director's factory were cut off," an anonymous church member said. "The wires of the church leaders' houses were damaged

Christianity is "not welcome" in Sudan, according to the lawyer who defended a church leader and an activist abruptly released from jail last month.

Muhanad Nur, who represented Rev. Hassan Abdulraheem Taour and Darfuri activist Abdumonem Abdumawla, told the Sudanese news service [Nuba Reports](#): "It seems as if every week I am hearing about another case of Christians being persecuted here."

Rev. Taour, who was released from Khartoum's Kober prison, where political opponents are detained alongside terrorists, said: "It's hard to remain in prison all that time, especially when we think about our families ... But it was also a good experience for us—to help build up the church in prison and encourage parishioners."
