## والعلامات حتى 27 يونية 2017

Holy\_bible\_1

اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض

ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي

المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما

انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

NASA's Kepler space telescope team have identified 219 new planet candidates, ten of which could prove to be humanity's next great hopes of life among the stars.

The exoplanets, planets which occupy space outside of our solar system, are all near-Earth size and occupy the habitable zones of their star systems where liquid water, the precursor for life, would pool on the surface rather than freeze.

The identified planets occupy the 'goldilocks' zone in orbit around their neighboring stars.

The Kepler team's findings were presented at a news conference Monday at NASA's Ames Research Center in Silicon Valley, California and later published online.

After more than 100 flights, they find that dose rates have increased over the Golden State by 13% since March 2015.

Now we know the same thing is happening over New England--only more so.

The [Earth to Sky team](#) has flown balloons over Maine and New Hampshire four times since 2015, most recently on June 15, 2017. Although the data are relatively sparse compared to the better-sampled west coast, the results are clear. Radiation in the stratosphere over the northeastern corner of the USA is not only stronger than California, but also intensifying much faster--a 19% increase in New England vs. 13% in California.

What's happening? Generally speaking, cosmic rays are increasing throughout the entire solar system. This is because of the sunspot cycle. The sun is [currently plunging](#) toward a deep Solar Minimum. As it descends, the sun's weakening magnetic field and flagging solar wind provides less and less shielding against high-energy particles from deep space. Every planet in the Solar System is getting an extra dose.

Violent thunderstorms hit Germany on Thursday, June 22, 2017, producing gale-force winds, heavy rain and large hail. The storms caused widespread damage and traffic chaos, killed two people and severely injured at least one person. Contrary to numerous media reports, there was no tornado ripping through the city of Hamburg yesterday.

The first set of storms marched through the country during the early morning hours, damaging power lines and rail tracks, thus forcing trains to be halted between Berlin, Hamburg, Bremen, Kiel, and Hanover. Regional train provider Metronom said its services in the northwest were also affected after storms downed trees onto the tracks in several places.

The storms also affected and temporarily closed some of the busiest road routes connecting Hamburg

## 296 Earthquakes Rattled Yellowstone in the Last 7 Days

11:00AM EDT 6/19/2017

Michael Snyder

*A geyser in the Aspen Mountains at Yellowstone. (Public Domain)*

Is it possible that the Yellowstone supervolcano is gearing up for a major eruption? If you follow my work on a regular basis, you already know that I spend a lot of time documenting how the crust of our planet is becoming increasingly unstable. Most of this shaking is taking place far away from the continental United States, and so most Americans are not too concerned about it. But we should be concerned about it, because a major seismic event could change all of our lives in a single instant.

For instance, a full-blown eruption of the Yellowstone supervolcano would have the potential of being an E.L.E. (extinction level event). That is why it is so alarming that there have been 296 earthquakes in the vicinity of the Yellowstone supervolcano within the last 7 days. Scientists are trying to convince us that everything is going to be OK, but there are others who are not so sure.

The biggest earthquake in this swarm occurred last Thursday evening. It was initially measured to be a magnitude 4.5 earthquake, but it was later downgraded to a 4.4. It was the biggest quake in the region since a magnitude 4.8 earthquake struck close to Norris Geyser Basin in March 2014.

The earthquake swarm affecting the western edge of Yellowstone National Park has included more than 460 quakes so far.

The University of Utah, whose seismography stations monitor the park's quake activity, said Monday night that 464 quakes have been recorded since June 12, including a magnitude 4.4 earthquake near West Yellowstone on June 15, which was the largest of the swarm to date.

Seismologists are studying a swarm of 500-plus earthquakes that have rattled the Yellowstone Park area since June 12. Most are centered 8 miles north-northeast of West Yellowstone. That is just a few miles east of the Hebgen Lake Basin, the site of the historic 1959 quake. That one measured 7.3 on the Richter scale, killed 28 people and created Quake Lake, near the Gallatin National Forest. JUNE 25, 2017

Almost 770 earthquakes have been recorded in Yellowstone Park over the past two weeks. This is more than normal but not a sign of volcanic activity, scientists say. As of 11:30 Friday morning, 769 quakes had been recorded in the current swarm. The swarm, which began June 12, is ongoing, though the frequency of earthquakes has slowed down a bit. Typical swarms comprise 10 to 50 quakes. As of now, everything that we can see looks like these are tectonic in origin. There's no

Em pouco menos de dois anos, 23 mil animais foram encontrados mortos nos 700 quilômetros de praia entre Laguna, em Santa Catarina, e Ubatuba, no litoral norte de São Paulo. Outros 2,5 mil foram resgatados em condições de saúde ruim e recolhidos para tratamento.

É o que mostra levantamento feito pela Universidade do Vale do Itajaí (Univale), que coordena o projeto de monitoramento de ocorrências e situação da fauna marinha na Bacia de Santos.

As principais causas das mortes têm sido a ingestão de lixo e acidentes com redes de pesca, variando de acordo com a espécie. As maiores vítimas são as tartarugas verdes, o bobo-pequeno (pequena ave marinha migratória), as toninhas e os botos cinzas.

WEATHERSFIELD TWP., Ohio - Neighbors around Westwood Weathersfield are wondering what is killing hundreds of fish in lake.

Dead fish have drifted into the shoreline, while others can be floating on the lake. A resident says he and his son starting n the fish about a week ago

"About a week ago or so we noticed that a lot of them were co into shore. We started looking out there further out in the lake and there's more and more e day," said Bill Kren who has lived at the lake for three years.

The Ohio Division of Wildlife said it was not aware of the problem but said is a concern and t be looking into it.

## MEAT ALLERGIES TRIGGERED BY TICK, AND THEY'RE SPREADING

'Enough to reprogram your immune system to forever reject smallest nibble of bacon'

Published: 22 hours ago

(WIRED) – First comes the unscratchable itching, and the angry blossoming of hives. Then stomach cramping, and—for the unluckiest few—difficulty breathing, passing out, and even death. In the last decade and a half, thousands of previously protein-loving Americans have developed a dangerous allergy to meat. And they all have one thing in common: the lone star tick.

Red meat, you might be surprised to know, isn't totally sugar-free. It contains a few protein-linked saccharides, including one called galactose-alpha-1,3-galactose, or alpha-gal, for short. More and more people are learning this the hard way, when they suddenly develop a life-threatening allergy to that pesky sugar molecule after a tick bite.

Yep, one bite from the lone star tick—which gets its name from the Texas-shaped splash of white on its back—is enough to reprogram your immune system to forever reject even the smallest nibble of perfectly crisped bacon. For years, physicians and researchers only reported the allergy in places the lone star tick calls home, namely the southeastern United States. But recently it's started to spread. The newest hot spots? Duluth, Minnesota, Hanover, New Hampshire, and the eastern tip of Long Island, where at least 100 cases have been reported in the last year. Scientists are racing to trace its spread, to understand if the lone star tick is expanding into new territories, or if other species of ticks are now causing the allergy.

North Korea has reportedly carried out another test of a space rocket engine, which could be used for an intercontinental ballistic missile (ICBM) that could potentially be capable of reaching the US mainland, American officials have told media outlets.

The rocket test was allegedly conducted on Wednesday at the Sohae Satellite Launching Station, where similar tests of the rocket technology took place on three occasions in March, one official familiar with the matter told Fox.

News of the test was also confirmed to Reuters by another US official, who said the test could be “for the smallest stage of ICBM rocket engine.”

# Terror attack at Michigan airport: Tunisian knifeman with a 'hatred of the United States' wounds cop by repeatedly stabbing him in the neck while shouting Allahu Akbar before being tackled to the ground

- Amor Ftouhi has been identified as the man who stabbed police officer Lt. Jeff Neville at Bishop Airport in Flint, Michigan Wednesday morning
- The approximately 50 year old man is Canadian, but is originally from Tunisia
- He yelled 'Allahu Akbar' before stabbing Neville in the neck with a 12-inch knife
- He was taken into custody within a minute of the terror attack
- Feds say they plan to charge Ftouhi with violence at an international airport - which carries a penalty of up to 20 years in prison
- Neville is resting comfortably at the hospital in satisfactory condition and is expected to survive his injuries

The man who yelled Allahu Akbar' as he stabbed a police officer at a Michigan airport on Wednesday has been identified as Amor Ftouhi, an approximately 50-year-old Canadian man who is originally from Tunisia.

Ftouhi repeatedly stabbed Lt. Jeff Neville from behind at Bishop airport near Flint leaving him in serious but stable condition. The attacker was tackled to the ground by fellow police officers.

This afternoon the FBI confirmed it is treating the episode as a terror attack and said Ftouhi also yelled about Syria, Iraq and Afghanistan while he carried out his attack.

The agency said he has 'a hatred of the US' and traveled to the US from Canada where he apparently worked as an insurance agent.

At an afternoon press conference, an FBI spokesman confirmed that they are investigating the stabbing as an act of terrorism.

RIYADH, Saudi Arabia (AP) — A suicide bomber blew himself up near the Grand Mosque in Mecca as police disrupted a plot to target the holiest site in Islam just as the fasting month of Ramadan ends, Saudi security forces said Saturday.

The Interior Ministry said it launched a raid around Jiddah, as well as two areas in Mecca itself, including the Ajyad Al-Masafi neighborhood, located near the Grand Mosque.

There, police said they engaged in a shootout at a three-story house with a suicide bomber, who blew himself up and caused the building to collapse. He was killed, while the blast

Superstitious villagers have been living in fear since a sheep gave birth to this creature that was said by elders to be half-human half-beast and 'sent by the devil'.

Many of the 4,000 residents and farmers of Lady Frere in Eastern Province, **South Africa**, were convinced that bestiality and witchcraft had led to the birth of the creature.

The panic got so great that the Eastern Cape Department of Rural Development sent out experts to carry out tests after pictures of it spread like wildfire through the community.

CHICAGO (AP) — Illinois is on track to become the first U.S. state to have its credit rating downgraded to "junk" status, which would deepen its multibillion-dollar deficit and cost taxpayers more for years to come.

S&P Global Ratings has warned the agency will likely lower Illinois' creditworthiness to below investment grade if feuding lawmakers fail to

## It's going to end 'extremely badly,' with stocks set to plummet 40% or more, warns Marc 'Dr. Doom' Faber

- Marc Faber, the editor of "The Gloom, Boom & Doom Report," isn't backing down from a dire prediction that would send stocks free-falling by 40 percent or more.
- He argues the stock market could see another "lurch" higher, but then investors may want to run for cover.

## Young Christian Girl Forced to Pray Muslim Prayer, Told to Forget Jesus to Pass Class in Philippines

JUNE 22, 2017

A young Christian schoolgirl in the Philippines recalled how teachers forced her to pray a Muslim prayer in order to pass a class, and ignored her explanations that she now prays to Jesus instead. Persecution watchdog group **Open Doors USA** said on Wednesday that the Christian girl, Jen-Jen, had been attending a Vocational Bible School in the southernmost region of the Philippines, where she learned Bible stories and listened to the pastor's teachings on salvation and Christ. At her regular school, however, she described how authority figures looked down on her faith and forced her to go against it. "Although she performed well in nearly every subject, for instance, Jen-Jen encountered pressure in Arabic class where the teacher

## Federal Judge Rules Cross Violates Law and Must Be Removed

*Atheists think this is unconstitutional. (Public Domain)*

Atheists across the fruited plain are rejoicing after a federal judge declared that a cross erected in a Florida park violated the law and must come down.

"I am aware that there is a lot of support in Pensacola to keep the cross as is, and I understand and respect that point of view," U.S. District Judge Roger Vinson wrote in his ruling. "But, the law is the law."

The lawsuit was filed in 2016 by the notorious Freedom From Religion Foundation and the American Humanist Association on behalf of four Pensacola citizens.

The judge pointed out that park has hosted tens of thousands of people for roughly 75 years without causing anyone offense—until now.

"When a city park serving all citizens—nonreligious, Jewish, Hindu, Buddhist, Muslim and Christian—contains a towering Latin cross, this sends a message of exclusion to non-Christians, and a corresponding message to Christians that they are favored citizens," said Annie Gaylor, the

Opening of Answers in Genesis' Ark Encounter

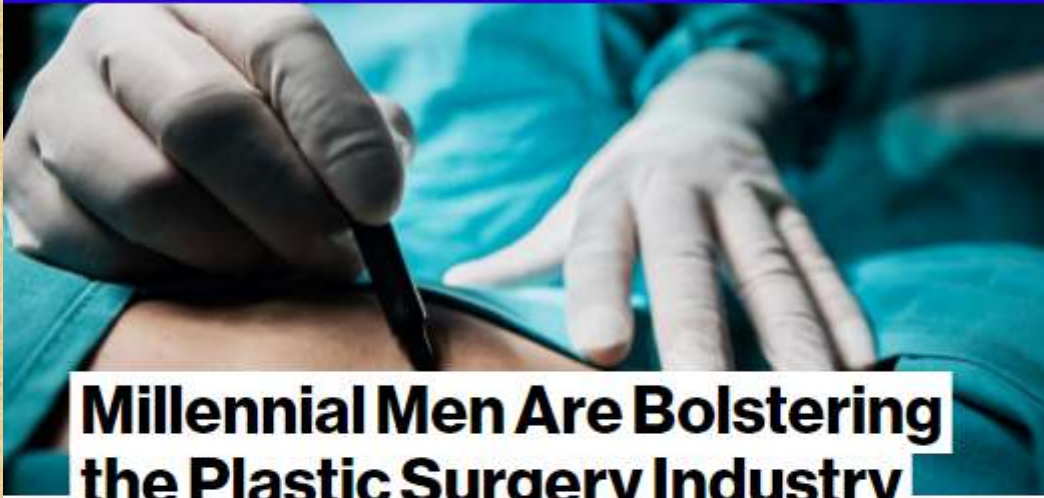

A couple of Internet postings in the past few days have attacked the Ark Encounter, the massive reproduction in Kentucky of the biblical Noah's Ark, blasting it for failing as an enterprise, for taking tax money, for not doing enough for the local government, for making money, for not "helping the sick, dying and impoverished," and a whole lot more.

Ken Ham, president of Answers in Genesis, which created the Ark Encounter, doesn't spend a lot of time worrying about such detractors.

Cosmetic procedures are of increasing interest to millennial men, a new industry report found.

Thirty one percent of men said they were extremely likely to consider a cosmetic procedure, either surgical or noninvasive, according to a survey conducted by the American Academy of Facial Plastic and Reconstructive Surgery. Among that 31 percent, 58 percent were from 25 to 34 years old and 34 percent were aged 18 to 24 years. Both age ranges are members of the millennial generation.

Whether the #MagicalResistance or *The Handmaid's Tale*, the age of the witch is upon us, top fashion magazine *Vogue* proclaims.

"Women across the globe are actively using the word 'witch' as a way to describe themselves because the witch is waking," third-generation hereditary witch Lisa Lister says. "The part of us that's been anesthetized, domesticated, tamed and kept numb by food, shopping, alcohol and drugs is now awakening within us. We are remembering the dismembered parts of being a woman—who we all were before patriarchy put all our fierce and feminine powers into the darkness, called them taboo and then taught us all to be afraid of the dark."

An LGBT activist is creating a new Bible app targeting "progressive" Christians who often feel marginalized by church and biblical traditions.

"At its core, the holy text was written to be inclusive of all of God's creation especially those on the margins. With all of the traditional versions of the Bible, Our Bible App will include translations that refer to God in gender-neutral terms, and a library of progressive devotionals and other resources," founder Crystal Cheatham says on the crowdfunding page.

PBS reports the app will include 20 Bible translations and more than 300 devotional readings, meditation exercises, articles and podcasts for LGBTQ Christians and other progressive

Several American cities recently approved the creation of rainbow crosswalks to celebrate "LGBTQ pride," and homosexual advocacy groups are circulating petitions to request that more cities paint their crosswalks with the "diversity" stripes.

Houston, Texas, Atlanta, Georgia and Washington, D.C. created rainbow crosswalks to coincide with their June homosexual pride events. In Atlanta, the display will be permanent.

Scotland's largest teaching union has voted for children across the country to be taught about same-sex families and LGBT history.

At its annual general meeting in Perth, the Educational Institute of Scotland (EIS) resolved to "affiliate to the Time for Inclusive Education (TIE) campaign."

TIE calls for compulsory teaching on a range of controversial topics including homosexuality and transsexualism.

### **Demands**

The demands of the TIE campaign include compulsory teaching on:
