والعلامات حتى 12 سبتمبر 2017

Holy_bible_1

اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيق اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعه سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض

ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي

المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما

انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

علامات في السماء

FAA reports early morning flash in sky was meteor

UPDATED INFORMATION: A Federal Aviation Administration spokesman in Seattle says a Horizon Airlines pilot reported seeing a burst of light in Adams County around 5:45 Tuesday morning. The Adams County sheriff's office and State Patrol said they had no reports of an impact.

SPOKANE, Wash.- Thousands of people in Northwest woke to a huge streaking flash in the sky early Tuesday morning. According to the Oregonian.com the Federal Aviation Administration, after talking to air traffic controllers, is reported the flash was a meteor.

There have been reports from those who saw the flash as far away as Clarkston, Lewiston, Republic, Wenatchee, Hayden and Troy, Idaho, and Missoula, Montana.

Various websites reported eyewitnesses all across the Northwest saying the flash looked like anything from summer lightning, a meteor, a rocket, a satellite, or just an exploding transformer. Several other viewers reported feeling a sonic boom moments after the flash in the sky.

KNDU and KNDU is asking that if you have pictures of this event, or work at a business that has 24-hour surveillance, please send us pictures so that we can post them on our web channel and show them on-air. You can send pictures and video to news@kndu.com or news@kndu.com or call us with information on your security tapes at (509) 737-6725.

Emails from Viewers:

I saw it this morning from republic washington. it entered the atmosphere at 5:30 a.m. - i know because it was important to note the time. it was gold and orange in color with blue hue on its edges. it had an elongated top with a bulb bottom (like a christmas tree ornament or onion). it lasted about 5 seconds and lit up the entire mountain sky. it was to our south. there was no noise associated with it. it came straight down, not slanted like meteorites i have seen. I would very much appreciate it if you could follow this story. the information coming from your part of the

Black hole 100,000 times bigger than sun discovered near center of Milky Way

Published time: 4 Sep, 2017 21:59
Edited time: 5 Sep, 2017 12:13

[Get short URL](#)

© Paul Hanna / Reuters

A new kind of black hole has been found at the centre of the Milky Way – a find that may help explain the evolution of the phenomena.

In research conducted by Japanese astronomers using the ALMA Observatory in northern Chile, a black hole 100,000 times the size of our sun was found within a molecular gas cloud. Its relatively small size means that it is the first to be identified as an intermediate-mass black hole (IMBH).

Self-teaching neural networks help find super-fast stars traveling from mysterious epicenter of Milky Way

يوم 6 سبتمبر الشمس تطلق انفجار شمسي كبير قيم بدرجة 9.3

MAJOR X-CLASS SOLAR FLARE (UPDATED): On Sept. 6th at 1202 UT, sunspot AR2673 unleashed a major X9.3-class solar flare--the strongest solar flare in more than a decade. X-rays and UV radiation from the blast ionized the top of Earth's atmosphere, causing a strong shortwave radio blackout over Europe, Africa and the Atlantic Ocean: [blackout map](#).

Above: The extreme UV flash from today's X9-class flare. Credit: Solar Dynamics Observatory

Coronagraph images from the Solar and Heliospheric Observatory confirm that the explosion also produced a coronal mass ejection (CME) with an Earth-directed component. Click to view a movie of the plasma cloud racing away from the sun:

YourTango September 6, 2017

Solar Flare

If you thought fires, category 5 hurricanes and major floods were the only weather emergencies you had to worry about, think again.

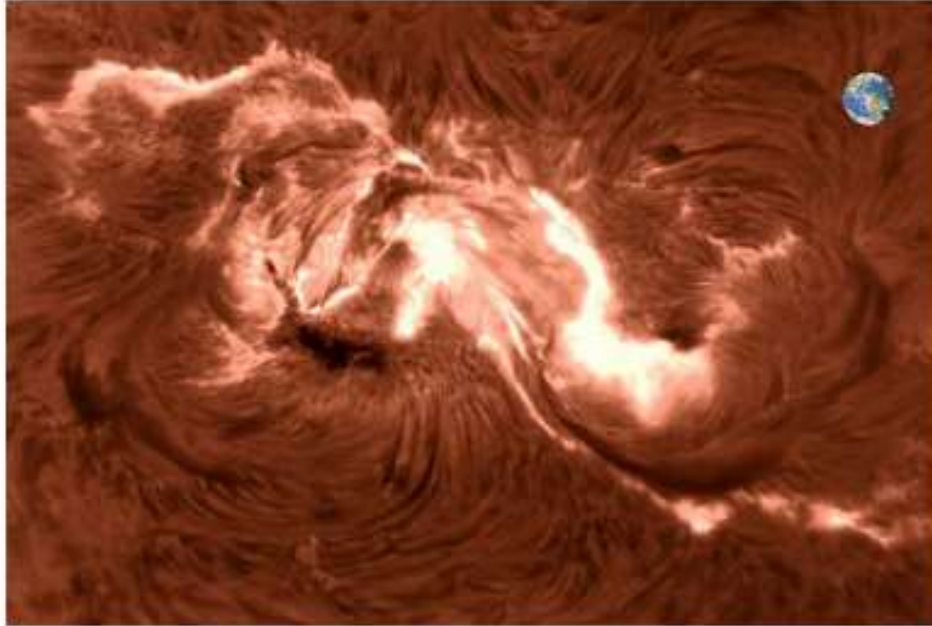

As the southern coast has been preparing itself for the wrath Hurricane Irma is supposed to bring (just days after Hurricane Harvey left Texas in mass destruction), **the sun decided to unleash the most powerful** category of solar flare.

The sun erupted on Wednesday morning and again in the afternoon sending what scientists call "coronal mass ejections," or CMEs, toward the earth. A coronal mass

Realtime Aurora Photo Gallery

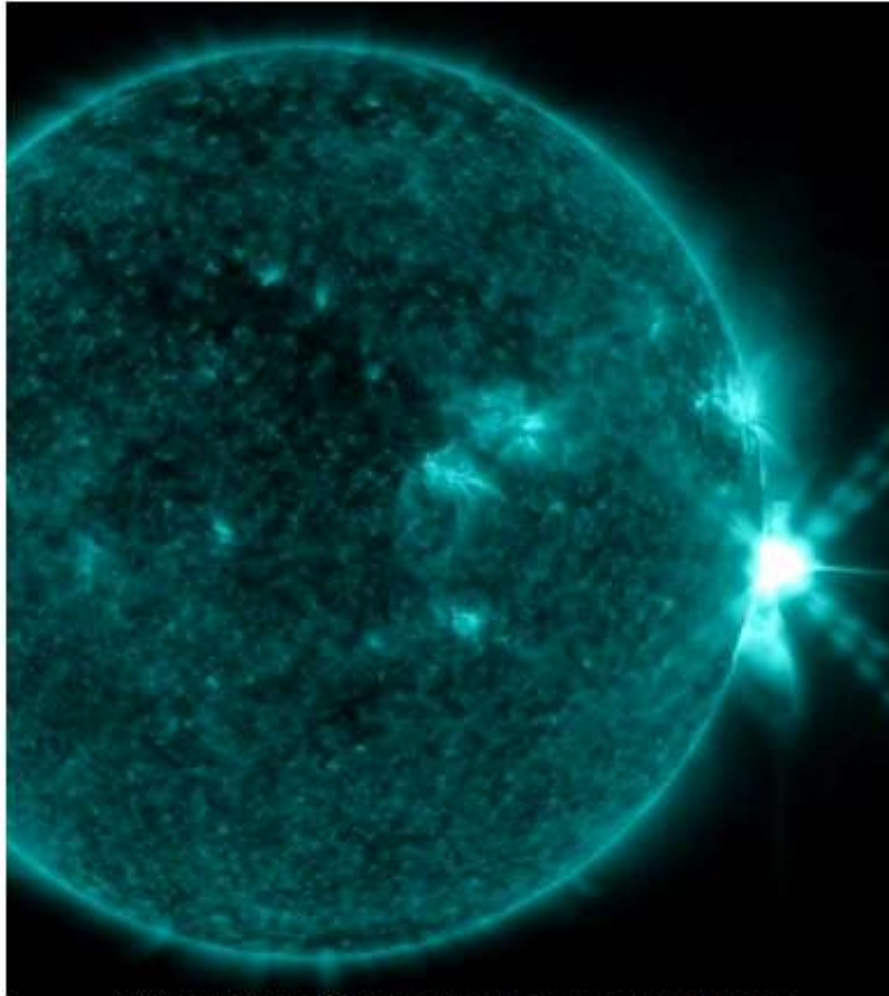

EARTH VS. SOLAR FLARE: Amateur astronomer Philippe Tosi photographed the sun on Sept. 6th, and his timing was perfect. He caught sunspot AR2673 in mid-explosion, producing the most powerful solar flare in more than a decade.

His image of the X9-category blast, with Earth inserted for comparison, highlights the advantages of being 93 million miles away from the sun. The explosion was big enough to swallow our entire planet with room to spare. More images of this outsized explosion may be found in the [Space Weather Photo Gallery](#).

وانفجار شمسي اخر قوي يوم 10 سبتمبر يقيم بفئة 8

MAJOR SOLAR FLARE AND RADIATION STORM: Departing sunspot AR2673 erupted again on Sept. 10th (1606 UT), producing a major [X8-class](#) solar flare. Protons accelerated toward Earth by the explosion are swarming around our planet now, causing a moderately strong solar radiation storm. (continued below)

NASA Solar Dynamics Observatory recorded the flare's extreme UV flash

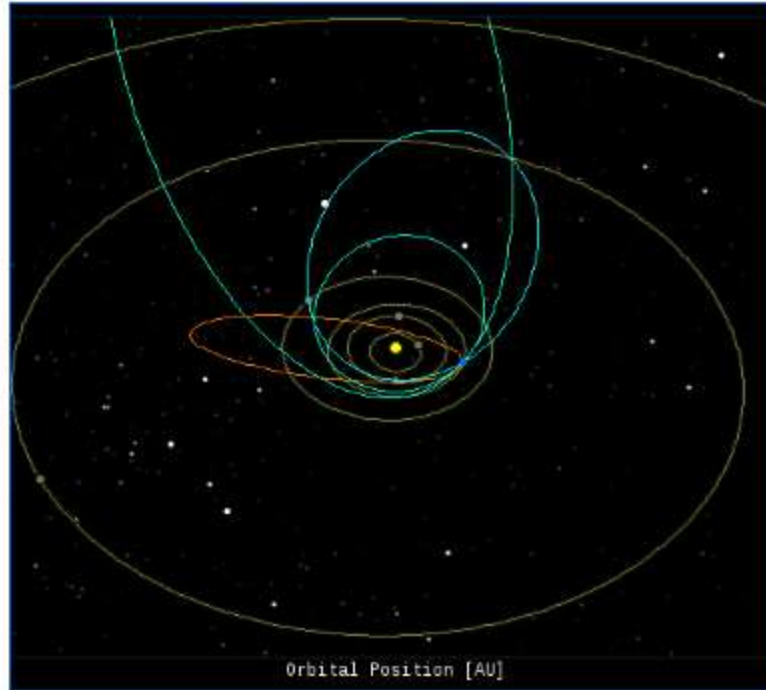

A pulse of ultraviolet and X-radiation from the flare ionized the top of Earth's atmosphere, triggering a shortwave radio blackout over the Americas ([blackout map #1](#)). That blackout is now subsiding. However, an even stronger blackout of shortwave radio communications around the poles is still underway ([blackout map #2](#)). Stay tuned for updates about this significant event.

Hurricane Irma: If There Was Such A Thing As A Category 6 Hurricane, This Would Be It

By Michael Snyder, on September 5th, 2017

Hurricane Irma has become even stronger than the most extreme forecasts were projecting. According to the National Hurricane Center, Irma had sustained winds of 185 miles per hour at one point on Tuesday. That makes it the strongest Atlantic hurricane in history "outside the Gulf of Mexico and Caribbean". I was criticized for suggesting that Irma could become so powerful that it could potentially be labeled a "category 6" storm if such a thing existed. Well, now it has actually happened. If you extrapolate the Saffir-Simpson scale, "category 6" would begin at 158 knots, which would be 181.8 miles per hour. Since Irma has surpassed that mark, I believe that it is entirely reasonable if people want to refer to it as a "category 6" storm.

Of course some meteorologists will get very heated with you when you use the term "category 6" because no such category exists at this point.

Hurricane expert Klotzbach: #Irma at landfall comes in 7th behind 1935 Labor Day storm

Anthony Watts / 1 day ago September 10, 2017

While this won't be of much comfort for those that are squarely in it's path right now, it is a small bit of good news. Dr. Philip Klotzbach has compiled rankings of both hurricane Irma and Harvey when they made landfall. Compared to the 1935 Labor Day storm, Irma is a distant 7th, tied with the 1928 Lake Okeechobee storm.

All Continental U.S. Hurricanes with <= 940 mb pressure at US Landfall					
Rank	Year	Storm Name	Landfall Wind (kt)	Landfall Pressure (mb)	SS Category
1	1935	Labor Day	160	892	5
2	1969	Camille	150	900	5
3	2005	Katrina	110	920	3
4	1992	Andrew	145	922	5
5	1886	Indianola	130	925	4
6	1919	Florida Keys	130	927	4
T-7	1928	Lake Okeechobee	125	929	4

WASHINGTON (AP) — With four big hurricanes, a powerful earthquake and wildfires, it seems that nature recently has just gone nuts.

Some of these disasters, like Friday's earthquake in Mexico, are natural. Others may end up having a mix of natural and human factors. We also always tend to look for patterns and order in chaos, even

6.1-magnitude quake hits off Japan's Bonin Islands – USGS

Published September 8, 2017 5:33am

TOKYO, Japan - A 6.1-magnitude earthquake hit off Japan's Bonin Islands on Friday, seismologists said.

The quake hit at a depth of 450 kilometers (280 miles) at 02:27 am (17:27 GMT) 770 kilometers south of Shimoda, according to the United States Geological Survey.

The Japan Meteorological Agency however said the quake posed no tsunami risk.

A 9.0-magnitude earthquake in March 2011 triggered a massive and deadly tsunami, which smashed into a power station and sparked the world's worst atomic accident since Chernobyl in 1986.

Tokyo Electric is working to clean up and dismantle the reactors in a process that is expected to take at least four decades. — Agence France-Presse/KVD

Dead fish are on the edge of the Guaymas Malecon

The Sun of Hermosillo | Wednesday 23 August 2017 | in Hermosillo

This morning hundreds of fish float on the shore of the bay on the Malecon de Guaymas, an event not very common to see.

Coastal fishermen discard any contamination that has caused this event, it could be a Sardinero boat has thrown them in the vicinity of the tourist malecon.

It can also be the nets drag against this species produced by fishermen in pangas with forbidden Maya and bad exercise that killed the fish, which today dented and the currents brought it to the shore.

More information coming soon.

Locals are baffled by the sudden appearance of a quarter of a million dead fish on a Cornish beach

- The three-inch-long fish appeared to opt for suicide in Carlyon Bay
- They thought that was a better fate than being chased and eaten by mackerel
- Experts believe the fish were caught out by the rising tide as they escaped
- The fish 'panic and become disorientated' Alix Harvey, Head Aquarist at The Marine Biological Association told MailOnline
- The small fish often called 'whitebait' is actually probably 'sprat', Ms Harvey said

Shocked tourists found a Cornish holiday beach's golden sands had turned silver overnight as quarter of a million fish had jumped to their deaths to escape being eaten.

Rather than end up as food for shoals of mackerel a few yards out from the beach, the three-inch-long fish appeared to opt for suicide and beached themselves.

An expert believes the fish - which are probably 'sprat' but commonly mistaken for whitebait - initially beach themselves to avoid predators but are caught out by the rising tide.

News No : 25911

Puzzling mass death in nature reserve Altrhein: Thousands of dead fish recovered from Altrhein - Possibly oxygen problem leads to fish deaths in a well-known nature reserve

Declining water levels and a warm climate in the former Rhine arm clearly lead to
an oxygen problem - fire brigade and THW in large scale

Date: Thursday, August 31, 2017 - 6 pm

Location: Altrhein near the Lampertheim, Hesse (near the
border between Germany and Germany)

(gs) Sudden fish death in the well-known nature reserve of
Lampertheim: officials of the water protection police had discovered
various fish carcasses on the water surface of the former
Rheinschleife and informed the water and shipping office as well as
the office of the city of Lampertheim.

Thereupon, the fire brigade Lampertheim, as well as other
surrounding weirs and also forces of the THW came out. Boats went

to the water, thousands of dead fish were collected. A part of this was transferred to the Heppenheim
veterinary center, in order to carry out laboratory tests from there. Results will be expected next week.
In order to question the background of the fish death, all the enemies were examined in the
Lampertheim Altrhein. Since no abnormalities were found here, poisoning as a reason for the dying of
the fish is rather excluded. Most likely, fish death was caused by lack of oxygen in the water. A very
low oxygen content was measured in the area of the canoe club. The reason for the lack of oxygen is

Mass fish deaths blamed on high temperatures

By Chang Kai-hsiang, Chung Hung-liang and Jake Chung / Staff reporters, with staff writer

Workers on a boat yesterday remove dead fish from the banks of the Keelung River in Taipei.

Photo: EPA

Large numbers of dead fish have washed up on the shores of the Keelung River from Zhongshan Bridge to Dazhi Bridge, probably because of consecutive days of high temperatures, the Taipei City Government said.

The city government said it expected to finish clearing the dead fish from the river today.

The Taipei Environmental Protection Bureau said that the amount of dissolved oxygen in the water near the dead fish was 3.5 milligrams per liter, which is about four to five times lower than normal.

The water temperature was 30.3oC, far higher than the average high temperature of 28.1oC in recent years, the bureau said.

China's military practices for 'surprise attack' over sea near Korea

Reuters Staff

2 MIN READ

BEIJING (Reuters) - China's air force has carried out exercises near the Korean peninsula, practicing to defend against a "surprise attack" coming over the sea, Chinese state media said.

The exercises came days after North Korea's sixth, and most powerful, nuclear test fueled global concern that the isolated nation plans more weapons tests, possibly of a long-range missile.

An anti-aircraft defense battalion held the exercises early on Tuesday, near the Bohai Sea, the innermost gulf of the Yellow Sea that separates China from the Korean peninsula, an official military website said.

Troops traveled to the site from central China before immediately beginning drills to fend off the "surprise attack" simulating real battle, it said.

Trump Orders Military to Shoot Down North Korean Missiles Aimed at Hawaii, Guam, US Mainland

Sep 10, 2017 | 0 | ★★★★★

U.S. President Donald Trump has reportedly ordered military forces to be ready to shoot down any missiles launched by North Korea aimed at Hawaii, Guam, or the U.S. mainland. Newsmax reported on Thursday that sources close to Trump's national security team revealed that the order comes after Kim Jong Un's verbal threats against Guam, and the refusal to end the ballistic missile tests.

About 4,000 ISIS fighters are already in place in Western nations, according to a jihadist smuggler.

German law-enforcement officials are busy tracking down dozens of members of Jabhat al-Nusra, one of the most brutal jihadist groups in Syria.

The jihadists are suspected of slaughtering hundreds of Syrian soldiers and civilians.

Police have identified roughly 25 of them and apprehended a few, but dozens more are thought to be hiding in towns and cities across Germany, according to the Gatestone Institute.

' Hamas is spreading to Lebanon'

Shin Bet has foiled 70 terror attacks in the last 2 months, 200 so far this year, but warns Hamas terror organization is spreading.

Contact Editor Arutz Sheva Staff, 10/09/17 16:08

Nadav Argaman (Flash 90)

The head of the Shin Bet security service, Nadav Argaman, said this morning (Sunday) that the [Shin Bet had thwarted 70 terrorist attacks](#) during July and August, and has prevented 200 attacks so far this year. The foiled attacks included suicide bombings, shootings, and kidnappings.

Argaman noted that despite the relative calm, the security situation in Judea and Samaria is fragile and is highly sensitive to events of a religious nature. In addition, stabbing, ramming, and shooting attacks continue to be carried.

Apocalyptic September? Here Is A List Of 27 Major Disasters That Have Already Happened So Far This Month

By Michael Snyder, on September 10th, 2017

Two major hurricanes, unprecedented earthquake swarms and wildfires roaring out of control all over the northwest United States – what else will go wrong next? When I originally pointed to the month of September as a [critical time](#), I had no idea that we would see so many catastrophic natural disasters during this time frame as well. Hurricane Harvey just broke [the all-time record for rainfall](#) in the continental United States, Hurricane Irma is so immensely powerful that it has been called “[a lawnmower from the sky](#)”, vast stretches of our country out west are literally being consumed by fire, and the magnitude-8.2 earthquake that just hit Mexico was completely unexpected. As I have stated so many times before, our planet is becoming increasingly unstable, but most people simply do not understand what is happening.

My good friend Zach Drew is getting married next month, and I would encourage everyone to go wish him well [on Facebook](#). On Friday, he [posted](#) the best summary of the major disasters that we have been experiencing so far this month that I have seen anywhere...

Fossil footprints challenge established theories of human evolution

The footprints were discovered by Gerard Gierlinski (1st author of the study) by chance when he was on holiday on Crete in 2002. Gierlinski, a paleontologist at the Polish Geological Institute specialized in footprints, identified the footprints as mammal but did not interpret them further at the time. In 2010 he returned to the site together with Grzegorz Niedzwiedzki (2nd author), a Polish paleontologist now at Uppsala University, to study the footprints in detail. Together they came to the conclusion that the footprints were made by hominins. Credit: Andrzej Boczarowski

Newly discovered human-like footprints from Crete may put the established narrative of early human evolution to the test. The footprints are approximately 5.7 million years old and were made at a time when previous research puts our ancestors in Africa - with ape-like feet.

Islamist militants went from house to house in villages on Kenya's north coast on Wednesday, dragging out victims, shooting them and then beheading them.

Witnesses to the horror said four died in total and called on police to act after they accused security services of being slow to respond to the threat.

ANCHA, Nigeria (*Morning Star News*) – Muslim Fulani herdsmen in central Nigeria's Plateau state massacred 20 Christians, including children, as they slept in the hours after midnight on Friday (Sept. 8) in an apparent reprisal attack that mystified villagers, sources said.

Police reportedly said the attack was an act of vengeance after the discovery last week of a slain and beheaded Fulani boy who was a resident of Ancha village, Miango District in the Bassa Local Government Area. But a village Christian told Morning Star News that the area's terrified

WYTHEVILLE, Va. — An elementary school in Virginia has removed a plaque from its cafeteria that thanks God for the food following a complaint from a prominent professing atheist organization.

The plaque at issue, which had been displayed in the cafeteria of Spiller Elementary School in Wytheville, read, "Our Father, we thank Thee for this food. Bless it to the nourishment of our bodies and our lives to Thy service. Amen." It is not known how long the plaque had been

“It will be a time of trouble, the like of which has never been since the nation came into being. At that time, your people will be rescued, all who are found inscribed in the book.” *Daniel 12:1 (The Israel Bible™)*

Photo: Shutterstock.com

8.4 magnitude earthquake hit Mexico, killing at least six and generating a tsunami. The quake, which was felt as far as Mexico City and Guatemala City, struck 74 miles off the southern Pacific Coast at 12:49 a.m. ET Friday. The United States Geological Survey reported several aftershocks, most registering more than magnitude 5.

واضيف عليهم سمك البحر وحيوانات البر تنزع امام اعيننا وأيضا براكين واوبئة وعلامات في
السماء

فلهذا اطلب أن نصلي ونستعد ونعد زيت لمصاييحنا لاستقبال العريس بالصلاة والصوم وخدمة
أبناء الله وتنقية القلب والاستعداد بلبس العرس.

رسالة بولس الرسول الي أهل رومية 13

13: 11 هذا وأنكم عارفون الوقت انها الان ساعة لنستيقظ من النوم فان خلاصنا الان أقرب مما
كان حين امنا

13: 12 قد تناهى الليل وتقارب النهار فلنخلع اعمال الظلمة ونلبس اسلحة النور

13: 13 لنسلك بلياقة كما في النهار لا بالبطر والسكر لا بالمضاجع والعهر لا بالخصام والحسد

13: 14 بل البسوا الرب يسوع المسيح ولا تصنعوا تدبيرا للجسد لأجل الشهوات

احترس ان لم تتمسك بالمسيح من الان قد لا تستطيع في المستقبل القريب بسبب الظلام.

وكما قلت هو اخبرنا لكي لا نخاف

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

بطرس الأولى 3: 14

وَلَكِنْ وَإِنْ تَأَلَّمْتُمْ مِنْ أَجْلِ الْبِرِّ، فَطُوبَاكُمْ. وَأَمَّا خَوْفُهُمْ فَلَا تَخَافُوهُ وَلَا تَضْطَرُّوْا،

بل نؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.».

افرحوا لان عريسنا قد اقترب مجيؤه. وانتبهوا الشيطان يريد أن نفقد سلامنا ولا ننال أكاليل.

وأيضا استعدوا فقد تسلموا وديعتكم في أي وقت فهناك 150 ألف شخص يموتوا في اليوم الواحد

انت لا تعرف متى ستكون منهم

المسيح اقترب فاصنعوا ثمار تليق بالتوبة واستعدوا لاستقبال العريس.

والمجد لله دائما
