اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيق اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعه سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض

ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي

المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما

انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

A NEW THREAT TO THE OZONE LAYER: High above Earth, more than 20 miles above sea level, a diaphanous layer of ozone surrounds our planet, absorbing energetic ultraviolet rays from the sun. It is, essentially, sunscreen for planet Earth. Without the ozone layer, we would be bathed in dangerous radiation on a daily basis.

For more than 30 years, the Montreal Protocol has regulated ozone-destroying chemicals, allowing Earth's ozone holes to heal and shrink. But there's trouble on the horizon. An international team of researchers led by David Oram of the University of East Anglia has found an unexpected, growing danger to the ozone layer from substances not regulated by the treaty.

The danger comes from a class of chemicals known as "chlorocarbons." Dichloromethane is an example. It is used in paint stripping, agricultural fumigation, and the production of pharmaceuticals. Over the past decade dichloromethane became approximately 60% more abundant. "This was a major surprise to the scientific community and we were keen to discover the cause of this sudden increase," says Oram.

Developing economies in East Asia appear to be the source. "Our estimates suggest that China may be responsible for around 50-60% of current global

Starting October 9, 2017, people of the South Africa have had to withstand a massive storm, which has caused the immeasurable damage to several provinces, including Gauteng, Mpumalanga, and KwaZulu-Natal, leaving Johannesburg flooded and other major South African cities. The storm claimed several lives and left many injured.

In the wake of October 9, 2017, South African Weather Service issued a warning of an upcoming massive storm that will bring thunderstorms, heavy rain, winds at high speed, and hailstones to Gauteng, but would quickly spread to surrounding areas, including Mpumalanga, and KwaZulu-Natal.

Born before 1985?

At least 40 people have been killed and 22 remain missing after Tropical Depression 23W dumped heavy rain and triggered floods and landslides across central and northern Vietnam. The death toll is currently one of the highest ever recorded in Vietnam caused by flooding, Vietnam's disaster prevention agency said.

Head of the office of the People's Committee in Hoa Binh, the hardest hit province, confirmed Thursday that rescuers have so far recovered 6 bodies from a landslide in Khanh Village, Tan Lac District. According to initial reports, the landslide occurred at around 01:00 local time Thursday, October 12, crushing 4 houses and burying 18 people.

At least 11 people have died and 21 went missing in the province.

The death toll caused by the latest round of severe flooding across central and northern Vietnam has risen to 54 and the number of missing to 39, country's disaster agency said Friday, October 13. This is the fourth wave of severe flooding to hit Vietnam in several months and the end of the misery is still not over as another storm is on the way and expected to hit Vietnam's central regions late October 16 or early on the 17th (UTC).

The floods that hit Vietnam this week starting on Monday, October 9 after Tropical Depression 23 made landfall are the worst in years, officials said. The death toll has risen to 54 and there are now 39

Worst wildfires in California history, 17 dead, 150 missing, 2 000 structures destroyed

Posted by TW on October 10, 2017 in categories [Featured articles](#), [Wildfires](#) Follow [@TheWatchers_](#)

Massive wildfires fanned by strong winds that ignited in Northern California on Sunday, October 8, 2017 are now the worst the state has seen in its history. As of early October 10, at least 11 people have been killed, more than 100 are believed to be missing and over 1 500 homes and businesses have been destroyed in just 12 hours. As of late Monday, more than 48 140 ha (119 032 acres) of land had been scorched.

More than 12 fires are burning across 8 counties in California since Sunday, forcing more than 20 000 people to evacuate their homes, some of them with little notice, officials said Tuesday.

Governor Jerry Brown declared an emergency in the affected counties (Butte, Lake, Mendocino, Napa, Nevada, Orange, Sonoma and Yuba) and asked for a federal declaration of a major disaster for the entire state.

A man who drove through raging wildfires in Portugal says luck was on his side after he filmed himself escaping the deadly blazes ravaging the region.

Wildfires have killed at least 39 people across Portugal and Spain as hundreds of blazes were fanned by strong winds caused by a hurricane, authorities said on Monday.

Thirty-five people - including a one-month-old baby - in Portugal have died and dozens have been injured, most of them firefighters, during fires raging in central and northern areas of the country.

Portugal's civil protection service said as of Monday morning, firefighters were fighting 145 separate blazes across the country, dozens of which are considered to still be serious.

In the northwestern Spanish region of Galicia, authorities said that four people had died, two of them trapped in a car, as a result of blazes that were threatening inhabited areas prompting the evacuation of thousands.

Authorities in both countries said that the strong winds from Hurricane Ophelia in the Atlantic Ocean and high

Following increased seismic activity detected since September 23, 2017, Shinmoedake volcano (Kirishimayama) in Kyushu, Japan started erupting at 20:34 UTC on October 10, 2017, coating nearby cities and towns in a thin layer of ash. The last eruption of this volcano occurred on September 7, 2011.

Increase in the number of volcanic earthquakes under the volcano was first detected on September 23, 2017. It further increased on October 4, prompting JMA to conduct a field survey on October 5 when they observed fumarolic activity and weak thermal anomalies. At 23:55 JST that day, JMA raised the alert level from 1 to 2, restricting entry to areas near the crater.

POZZUOLLI, Italy—Tragedy struck at the Solfatara volcano crater north of Naples a few weeks ago. An 11-year-old boy climbed over a low, wooden fence, ventured onto the chalky moonscape, and fell into an open fissure. His parents frantically tried to pull him out, just as the hollow floor of the crater crumbled, sending them all to their deaths in a gaseous pit of boiling gray mud, as the family's seven-year-old boy watched in horror. The accident was a freak occurrence, responsible for the only recorded deaths on this crater in centuries. But those hot gases hold an ominous story: Solfatara is part of the massive Phlegrean Fields, a threatening supervolcano experts agree could begin erupting anytime.

Hundreds of fish hit the shore in Silifke

Hundreds of fish struck the town of Silifke in Mersin. The fish deaths in the sandy neighborhood worried citizens.

The death of hundreds of fish on the beachside for an unknown reason worried the citizens who saw the event.

Citizens Silifke Police Department informed the incident came to the scene District Food, Agriculture and Animal Husbandry engineers and teams of the Provincial Health Directorate was investigated. The engineers stated that they would take samples of dead fish and water samples related to fish deaths and send them to the laboratories to make the necessary determinations and investigate the cause.

Mustafa Caliskan, who first saw the fish that hit the coast, said, "We came to the beach to enter the sea in the morning. We were surprised to see hundreds of dead fish on the beach. We were worried about this situation. We've never seen anything like this before. There is no idea why they died."

Cape Town - "The emotional impact for us as a family business has been severe," explains Pier Passerini.

As the managing director of Windmeul Eggs, Passerini is in the unenviable position of steering a 40-year-old family business through the catastrophic impacts of the avian influenza outbreak.

Located near Wellington, the business is among several in the Western Cape that have been forced to cull hundreds of thousands of hens in an effort to halt the spread of the deadly H5N8 virus, although the birds often die faster than they can kill them.

Over the past 5 days, 230 new suspected plague cases were reported in Madagascar, with the disease spreading to seven more of the country's districts, the World Health Organization (WHO) said today in an update.

NIH
D

In a related development, the European Centre for Disease Prevention and Control (ECDC) issued its first risk assessment on the outbreak, which said the outbreak's high number of pneumonic cases are concerning, especially since that form of the disease is known to spread in densely populated urban areas, such as its capital Antananarivo and port city of Toamasina, which are some of the main affected areas.

Plague is caused by *Yersinia pestis*, a bacterium spread by infected rats via flea bites. Human-to-human transmission fuels the spread of pneumonic plague.

Outbreak total nears 400 cases

Of the 230 new suspected cases reported since the WHO's Oct 4 update, 17 have proved fatal, the WHO said. The new cases lift the outbreak's number of suspected, probable, and confirmed cases to 387 and the number of deaths to 45.

After Hurricane Maria hit Puerto Rico on Sep 20, the island lost power, and experienced extensive flooding, leaving thousands homeless and without access to routine medical care. Now, as the waters recede, the Infectious Diseases Society of America (IDSA) is warning that the US territory faces public health threats that need to be countered by immediate funding and aid from the US government.

Underscoring worries about disease threats, local officials are reporting leptospirosis infections and deaths in people affected by the storm.

Concern over disaster relief

"We appreciate that the Trump administration has requested \$29 billion in disaster relief funds and request Congress act swiftly, at a minimum, to approve this level of much-needed support," said IDSA president Paul Auwaerter, MD, in a statement published with Melanie Thompson, MD, chair of the HIV Medicine Association (HIVMA) yesterday.

"Additional resources will likely be needed, and we are pleased that federal agencies are assessing additional needs." The \$29 billion is for hurricane relief

Experts: North Korea Targeted U.S. Electric Power Companies

by ANDREA MITCHELL and KEN DILANIAN

SHARE

WASHINGTON — The cybersecurity company FireEye says in a new report to private clients, obtained exclusively by NBC News, that hackers linked to North Korea recently targeted U.S. electric power companies with spearphishing emails.

The emails used fake invitations to a fundraiser to target victims, FireEye said. A victim who downloaded the invitation attached to the email would also be downloading malware into his or her computer network, according to the FireEye report. The company did not dispute NBC's characterization of the report, but declined to comment.

There is no evidence that the hacking attempts were successful, but FireEye assessed that the targeting of electric utilities could be related to increasing tensions between the U.S. and North Korea, potentially foreshadowing a disruptive cyberattack.

SEOUL (AFP) - North Korea is believed to be preparing to launch a ballistic missile ahead of an upcoming joint naval drill by the US and South Korea, a news report said Saturday, citing a government source.

The US navy said Friday that a US aircraft carrier will lead the drill in the coming week, a fresh show of force against North Korea as tensions soar over the hermit state's weapons programme.

The move will likely rile Pyongyang which has previously responded angrily to joint exercises.

Russia has begun working quietly but very diligently to defend Kim Jong Un's regime in North Korea because it is concerned that a collapse could open the door for NATO or even U.S. forces on its Asian border, reports Joseph Farah's G2 Bulletin.

Moscow already is alarmed over NATO influence on its border with Europe, and "does not want any replication on its Asian flank," according to a new report.

Reuters reported a Russian company has begun providing additional Internet resources to North Korea and that trade between the two nations reached \$31.4 million in the first quarter of 2017, double previous totals.

(ATTN: UPDATES throughout with details; MODIFIES headline; ADDS photo)

SEOUL, Oct. 11 (Yonhap) – Two B-1B strategic bombers of the U.S. Air Force trained with South Korea's fighter jets over and near the peninsula earlier this week in yet another show of force against North Korea, defense authorities here said Wednesday.

The bombers from Guam entered the Korean Air Defense Identification Zone (KADIZ) at around 8:50 p.m. on Tuesday, according to the Joint Chiefs of Staff (JCS).

They staged a simulated air-to-ground missile firing drill with two F-15K fighters over the East Sea and flew across the peninsula, it said.

The B-1Bs and the F-15Ks then had another round of a firing exercise over the Yellow Sea. The bombers flew out of the KADIZ at around 11:30 p.m., added the JCS.

China protests to US over sail-by in disputed waters

by Staff Writers
Beijing (AFP) Oct 11, 2017

China said Wednesday it has lodged a protest with the United States after an American warship sailed near disputed islands in the South China Sea.

The US Navy missile destroyer Chafee entered into China's territorial waters near the Sansha islands on Tuesday, according to Beijing's foreign ministry.

China immediately dispatched military vessels and aircraft for identification and warned the US ship to leave, ministry spokeswoman Hua Chunying told a regular briefing.

"The US vessel action violated Chinese laws and relevant international laws, undermined China's sovereignty and security interests," Hua said.

"China is firmly opposed to that and has lodged stern presentations with the US," Hua said, using the term for official diplomatic protests.

If confirmed by the United States, it would be the fourth "freedom of navigation" operation (FONOP) carried out by the US Navy since President Donald Trump took office in January.

A US defence ministry spokesman refused to confirm the manoeuvre.

But he said all operations are conducted in accordance with international law and "demonstrate that the United States will fly, sail, and operate wherever international law allows".

"We are continuing regular FONOPS, as we have routinely done in the past and will

Two Russian mercenaries are believed to have been killed by ISIS after refusing to recant their faith and become Muslim.

Roman Zabolotny, 39, and Grigory Tsurkanu, 38, were thought to be fighting for a private Russian mercenary force in Syria. They appeared in a video released earlier this week by ISIS' news outlet Amak after being captured by militants. The Russian Orthodox Church has declared them to be martyrs, according to [Aleteia](#).

Senior Russian MP Viktor Vodolatsky said he was 99 per cent sure the men were dead.

Carles Puigdemont was expected to declare the large region – which includes the city of Barcelona – would become independent from Spain this afternoon.

Spanish authorities were ready to arrest him if he did and Catalan police sealed off Barcelona's parliament "for safety reasons".

Puigdemont said the result of a referendum were a "yes" to independence and gave the region the right to be its own state.

Parents in a New York town could end up in jail if their children are found to have bullied others, thanks to a new law.

Victoria Crago began advocating for the law in North Tonawanda, New York, after she said her eighth-grade son was attacked by a classmate right in front of her.

"This young man just sucker-punched him right in the face and hit him as hard as he could," she told ABC News of the May incident. "What really alarmed me about the situation was the brazen act of violence in front of a parent."

Crago said "It was really traumatic for both of us."

The student accused of attacking Crago's son was charged with third-degree assault. His case was transferred to family court and he is now working with a

German Interior Minister Thomas de Maiziere prompted a backlash from his own party and political allies by suggesting that Germany introduce Muslim public holidays. He was, however, backed by the leader of the Social Democrats, Martin Schulz.

"I am ready to discuss the issue of whether we should also introduce a Muslim public holiday," de Maiziere said early this week, adding that the German authorities "could probably easily do that."

Not Enough Bibles to Meet Growing Demand in North Korea; Group Aims to Send 100,000

Oct 12, 2017 | 0 ● | ★★★★★

The United States-based Christian humanitarian aid organization World Help has launched a donation drive aiming to secretly provide 100,000 new Bibles to underground North Korean worshipers by the end of 2017 in order to feed an insatiable demand for God's Word in the isolated and oppressive nation. As North Korea has been ranked for the past 16 years as the worst persecutor of Christians in the world, World Help is now taking steps to ensure that the growing number of house churches in North Korea have Bibles to feed their spiritual "hunger." World Help President Vernon Brewer told reporters on a

'We Are Stopping Cold the Attacks on Judeo-Christian Values': Trump's History-Making Values Voters Speech

10-13-2017 - Ben Kennedy

Washington – President Donald Trump made history as he headlined the Family Research Council's Value Voters Summit on Friday. He's the first sitting U.S. president to speak at the event.

"America is a nation of believers and together we are strengthened and sustained by the power of prayer," said President Trump. "We are one nation, we hurt together and we hope together and we heal together."

"And above all else we know this: in America we don't worship government, we worship God," he said.

Persecution against Christians is the worst it has ever been in history, a new report from a Catholic charity is claiming.

Looking at 13 countries where Christians face the worst abuses the study by Catholic charity Aid to the Church in Need (ACN), released on Thursday, found the outlook has worsened in all of them with the one exception being Saudi Arabia 'where the situation was already so bad it could scarcely get any worse', the report says.

Persecuted and Forgotten? warns Christians in many countries will not survive if violence against them continues and highlighted 'unspeakable atrocities' around the world including in North Korea where believers face 'enforced starvation, abortion, and reports of faithful being hung on crosses over a fire and others being crushed under a steamroller'.

DAYS OF LOT: Greece Passes Law Allowing for Easier Gender Change

Oct 11, 2017 | 0 ● | ★★★★★

The Greek parliament passed a law on Tuesday to make it easier for people to change their legally recognized gender, a move that angered the Church but was welcomed as long-overdue by human rights groups. The law will allow people to change their gender on official documents with a court ruling, and without requiring medical tests or sterilization, as is the case now. It has been condemned as “immoral” by the Greek Orthodox Church and as a “monstrosity” by right-wing politicians. Until now, anyone

Georgia School District Defends Sexual Identity Quiz After Mom Complains

10-12-2017 - [Heather Sells](#)

The DeKalb County School District is defending its Family Life and Sexual Health curriculum after a parent complained about a sexual identity quiz.

Octavia Parks [told Fox 5 in Atlanta](#) that she was shocked when her 12-year-old daughter brought the assignment home. It asked students to identify various sexual preferences and gender identities. Some of the descriptions students were asked to identify included:

- "a woman who is attracted to women"
- "a man who is attracted to men"
- "a person who is attracted to men and women"
- "a man who is attracted to women or a woman who is attracted to men"
- "when a person's gender identity doesn't match the sex...the doctor said they were when they were born"

Parks told Fox 5 "we're talking about a sixth grader who still watches Nickelodeon. I'm not ready to explain what these words are nor what

كان حين امنا

13: 12 قد تنهى الليل وتقارب النهار فلنخلع اعمال الظلمة ونلبس اسلحة النور

13: 13 لنسلك بلباقة كما في النهار لا بالبطر والسكر لا بالمضاجع والعهر لا بالخصام والحسد

13: 14 بل البسوا الرب يسوع المسيح ولا تصنعوا تدبيرا للجسد لأجل الشهوات

احترس ان لم تتمسك بالمسيح من الان قد لا تستطيع في المستقبل القريب بسبب الظلام.

وكما قلت هو اخبرنا لكي لا نخاف
