اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيق اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعه سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض

ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي

المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما

انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

Near Earth Asteroids

Potentially Hazardous Asteroids (PHAs) are space rocks larger than approximately 100m that can come closer to Earth than 0.05 AU. None of the known PHAs is on a collision course with our planet, although astronomers are finding [new ones](#) all the time.

On December 15, 2017 there were **1872** potentially hazardous asteroids.

THE SUN IS DIMMING: Yesterday at Cape Canaveral, SpaceX [launched](#) a new sensor to the International Space Station named [TSIS-1](#). Its mission: to measure the dimming of the sun. As the sunspot cycle plunges toward its 11-year minimum, NASA satellites are tracking a decline in total solar irradiance (TSI). Across the entire electromagnetic spectrum, the sun's output has dropped nearly 0.1% compared to the Solar Maximum of 2012-2014. This plot shows the TSI since 1978 as observed from nine previous satellites:

The rise and fall of the sun's luminosity is a natural part of the solar cycle. A change of 0.1% may not sound like much, but the sun deposits a lot of energy on the Earth, approximately 1,361 watts per square meter. Summed over the globe, a 0.1% variation in this quantity exceeds all of our planet's other energy sources (such as natural radioactivity in Earth's core) combined. A 2013 report issued by the National Research Council (NRC), "[The Effects of Solar Variability on Earth's Climate](#)," spells out some of the ways the cyclic change in TSI can affect the chemistry of Earth's upper atmosphere and possibly alter regional weather patterns, especially in the Pacific.

NASA's current flagship satellite for measuring TSI, the Solar Radiation and Climate Experiment (SORCE), is now more than six years beyond its prime-mission lifetime. [TSIS-1](#) will take over for SORCE, extending the record of TSI measurements with unprecedented precision. It's five-year mission will overlap a deep Solar Minimum expected in 2019-2020. TSIS-1 will therefore be able to observe the continued decline in the sun's luminosity followed by a rebound as the

Forecasters are predicting that a tropical or subtropical system known as a "Medicane" will form in the Mediterranean Sea later this week, bringing with it heavy rain and strong winds to parts of Greece and especially southern Italy.

The area of low pressure is expected to form in the sea west of Italy before tracking south and strengthening as it moves east, eventually hitting parts of Greece.

Floods and landslides triggered by slow-moving Tropical Cyclone "Kai-Tak," locally known as Urduja, killed at least 26 people and left another 23 missing in the Philippines, authorities said Sunday, December 17, 2017. More floods and landslides are possible in the days ahead.

Tropical Depression "Urduja" formed December 12 near Palau and stalled with its center just off the coast of Sorsogon - Northern Samar area before it strengthened into a tropical storm December 14, the 26th named storm of the 2017 Pacific typhoon season. However, as is often the case with such storms in this region, Urduja was already causing floods and landslides even before it reached tropical storm status. The prime factor for the deluge it caused was its slow-moving nature. See image below:

Earliest ice formation on the Han River in 71 years

Posted December. 16, 2017 08:32, Updated December. 16, 2017 09:36

Kim In-sik, head of the Seoul Weather Station, stood on the Han River Bridge and looked down on the river for about two and a half hours since 5 a.m. He slapped his lap. At the dawn's light, it was definitely ice on the shining surface of the river. After two nights amid severe cold weather, the day set a record for the earliest ice formation on the Han River since 1946.

A five-day cold spell has led to ice formation on the Han River one month earlier than expected. The Korea Meteorological Administration said that the earliest ice formation of this winter was observed at the Han River Bridge at the dawn of Friday. The ice was formed between second and fourth piers on the Noryangjin side. This has been the first ice formation on the Han River before December 15 in 71 years since December 12, 1946.

Freezing of the Han River occurred 29 days earlier than the usual (January 13) and even 42 days earlier than last year (January 26). The biggest attributing factor is the unusual cold wave that hit the Korean Peninsula in the middle of December. The lowest temperatures of the morning in Seoul from Monday to Thursday were minus 11 C, 12.3 C, 12 C and 11.2 C, all dipped below minus 10 degrees Celsius. The sub-zero temperature continued during the day. Though the temperature rose on Friday as the weather got warmer, the weather was still icy cold in the morning with the temperature standing at minus 7.5 degrees Celsius. Usually, ice formation on the Han

California wildfire continues to grow as strong shifting winds bring new dangers...

Dec 17, 2017 | 0:00 | =====

The massive Thomas fire continued to grow Sunday even after an epic battle to protect homes along the Santa Barbara County coast Saturday proved successful despite intense winds. The third-largest wildfire in modern California history was burning a massive swath from Santa Barbara to Ventura, fueled by intense Santa Ana winds, with gusts topping 70 mph early Sunday in some valley and mountain areas.

H5N6 avian flu reassortant confirmed in Dutch outbreak

A reassortant H5N6 avian flu virus detected in three Asian nations over the past few weeks has been confirmed in an outbreak in the Netherlands.

Lawrence Wright / Flickr cc

In other developments, South Korea—one of the countries that has already reported outbreaks from the H5N6 reassortant this season—reported another at a duck farm. And Cambodia reported an H5N1 avian flu outbreak in poultry, its first in nearly a year.

Dutch flock numbered 16,000 birds

The outbreak in the Netherlands was first reported on Dec 8, and government officials had said initial tests from the duck farm near the city of Dronten was likely a highly pathogenic strain. In a notification yesterday from the World Organization for Animal Health (OIE), the country's economic affairs ministry said the outbreak began on Dec 7 at a fattening-duck farm near the town of Biddinghuizen.

The virus killed 40 of 15,985 birds, and the surviving ducks were culled to curb the spread of the virus. Tests revealed the H5N6 subtype is a reassortment linked to H5N8 and not the Asian zoonotic H5N6.

The Agriculture Ministry confirmed an outbreak of the highly pathogenic H5N6 bird flu at a duck farm in Yeongam, South Jeolla Province, Monday.

This is the fourth confirmation of highly pathogenic bird flu this season.

The government on Monday culled some 76,000 ducks at five farms located within a 3 kilometer radius of the original farm where the highly pathogenic strain of bird flu was detected. Since Monday midnight, a transportation ban was issued on all livestock industry persons across Daejeon, Gwangju, Sejong, South Chungcheong and South and North Jeolla provinces.

Authorities vaccinate duck farms (Yonhap)

Yeongam is about 380 kilometers south of Seoul. The rural region is home to one of Korea's biggest duck farms. Together with the adjacent Naju, the area accounted for 52 percent of the entire domestic duck produce in the third quarter of this year.

Russia is aggressively building up its nuclear forces and is expected to deploy a total force of 8,000 warheads by 2026 along with modernizing deep underground bunkers, according to Pentagon officials.

The 8,000 warheads will include both large strategic warheads and thousands of new low-yield and very low-yield warheads to circumvent arms treaty limits and support Moscow's new doctrine of using nuclear arms early in any conflict.

In addition to expanding its warheads, Russia also is fortifying underground facilities for command and control during a nuclear conflict.

Muslim nations set to declare east Jerusalem as future Palestinian state's capital

Leaders and ministers from more than 50 Muslim countries gather in Istanbul after Washington's recognition of Jerusalem as Israel's capital; Erdogan: 'Israel was rewarded for all the terrorist activities it has carried out'; Abbas: US biased in favor of Israel, UN should take charge of Mideast peace; Rouhani: US 'only seeking to secure the maximum interests of the Zionists.'

China has voiced its support for the establishment of an independent Palestinian state, based on pre-1967 borders with East Jerusalem as its capital.

A spokesperson for the foreign ministry made the statement during a regular press briefing, Thursday, while addressing questions on a declaration by Muslim nations asserting East Jerusalem as the capital of Palestine.

The Organisation of Islamic Cooperation (OIC) made the announcement at a summit in Istanbul, Wednesday, and condemned the US decision to recognize Jerusalem as the capital of Israel.

The UN Security Council is expected to vote Monday on a resolution confirming the international status of Jerusalem and outlawing any changes to it – which implies the recent US move to recognize it as the capital of Israel.

The text of the document, drafted by Egypt, which was seen by Reuters, says that *"any decisions and actions which purport to have altered the character, status or demographic composition of the Holy City of Jerusalem have no legal effect, are null and void and must be rescinded in compliance with relevant resolutions of the Security Council."*

WASHINGTON – Following President Trump's recognition of Jerusalem as Israel's capital, a Texas-based Islamic cleric has posted a recorded prayer on his Facebook page calling for Israel's destruction, along with "their allies, and those who assist them and those who allowed them into the abodes of the Muslims."

While Sheikh Ramadan Elsabagh does not mention Trump's Wednesday proclamation, the Investigative Project on Terrorism, which translated the message from Arabic, interprets it as a "clear reaction."

Thank President Trump for all he has accomplished in his first year in office. It's quick, easy and free. Go to ThankTrump.us

Sheikh Ramadan Elsabagh

"Our Lord. Help holy Palestine," Elsabagh chanted. "... O Allah, be with your oppressed worshipers in Palestine, O Allah destroy the Zionists and their allies, and those who assist them and those who allowed them into the abodes of the Muslims. By your power, O mighty one, O mighty one, through your power and might, O Allah, deflect them with what you will, and however you will, for you are omnipotent, and with a response omnipotent."

Elsabagh is listed as the head of the Islamic Services Foundation Quran Institute in Garland, Texas, and is featured as a Quran reader on many Internet sites. His YouTube pages have tens of thousands of views. His recitations are also featured in Google Play and iTunes.

"Oh Allah save [Al Aqsa] from the hands of the accursed violators, whom you have cursed in every book, and cursed them through every prophet," he said in conclusion. "Oh Allah destroy them."

Cryptocurrency Chaos: Bitcoin, Litecoin and Ethereum All Keep Surging To New Record Highs With No End In Sight

By Michael Snyder, on December 12th, 2017

The cryptocurrency revolution is the biggest story in the financial world right now. In recent days I have spent a lot of time writing about **Bitcoin**, but the truth is that all of the major cryptocurrencies have been on an unprecedented run lately. In fact, some of them have been rising much faster in price than Bitcoin has. So even though Bitcoin is now worth almost 18 times as much as it was at the beginning of 2017, that actually pales in comparison to how fast Litecoin has been rising. Of course not all of these cryptocurrencies will eventually succeed. There are about 1000 different cryptocurrencies in existence at the moment, and most of them will inevitably fail. But for now virtually every cryptocurrency is soaring, and the total market cap for all cryptocurrencies combined is rapidly approaching **half a trillion dollars**.

Bitcoin Is Now Worth More Than Wal-Mart (The Entire Company)

By Michael Snyder, on December 17th, 2017

Would you rather own 100% of Wal-Mart or every Bitcoin in existence? At one point such a question would have been completely absurd, but now things have changed. As I write this article, Wal-Mart has a market cap of **287.68 billion dollars**. Wal-Mart is the king of the retail industry in America, and nobody else is even close. Bitcoin, on the other hand, is an entirely digital creation that did not even exist until 2009. No government or central bank in the entire world recognizes it as a legitimate currency, and there are very, very few retail establishments that are willing to accept Bitcoin as a form of payment. And yet at this moment, Bitcoin has a market cap of **310 billion dollars**.

When the year began, Bitcoin had just crossed the \$1,000 threshold, and now it is selling for more than \$18,000. Of course other cryptocurrencies have been rising at an **even faster pace**. We have never seen anything quite like this before, and some are warning that this is a giant bubble that is about to burst...

LIMA, Peru — It is 8 a.m. and the line of Venezuelan refugees outside the Interpol office already stretches to the end of the block.

Most have just arrived in Lima with not much more than the clothes on their back and are here applying for a certificate to show they have no criminal record, a requirement for a work permit in Peru.

"Leaving was tough, but staying would have been tougher," said Andrea Sequiera, 29, as she waits at the back of the line with her husband Luis, 31, and 8-year-old son Fabian. "We know lots of people who would like to get out of Venezuela but can't afford the ticket."

Although Venezuelans for years have been fleeing the "socialist revolution" first launched by the late Hugo Chávez in 1999, in recent months the trickle has turned into a flood as living conditions become ever more dire — from hyperinflation to acute shortages of food and medicine to one of the worst homicide rates in the world.

A Christian student group is suing the University of Iowa after it claims it was kicked off campus for requiring its leaders to sign a statement of faith that forces them to live out their careers in the organization without engaging in "sexual immorality."

The legal nonprofit Becket announced Monday that the student organization Business Leaders in Christ (BLinC) has filed a federal discrimination lawsuit against the University of Iowa.

According to a press release, the school's dean of students, Lyn Redington, told BLinC, which was founded three years ago, that "it must 'revise' its religious beliefs and submit an 'acceptable plan' for selecting its leaders" if it wants to regain its status as an official student group recognized by the school.

"This is 2017, not 1984," Jacob Estell, the student president of BLinC, said in a statement. "Our beliefs weren't made by us, and they can't be changed by us either — certainly not just to satisfy Orwellian government rules."

BLinC allows anyone to join the group no matter their sexual orientation or gender identity but just asks that those in leadership positions within the group sign and uphold the group's statement of

Danish School for Cancels Christmas Event in Fear of Offending Nonbelievers

Dec 14, 2017 | 0 | =====

A school in Denmark has canceled its traditional Christmas service that's held every year at a church amid fears that it would offend non-Christian children and parents. "We took the decision because we have children of different faiths at the school than Protestants," said school Principal Marianne Vedersø Schmidt in a letter, according to a Daily Caller translation on Tuesday of a TV2 report. "We are very pleased with the cooperation with the churches and will certainly continue with this cooperation as it

The mission of the health non-profit Daniel Chapter One was simple. Using biblical principles, Jim and Patricia Feijo created a series of products enthusiastically endorsed by customers who claimed it soothed their ailments.

Yet that was enough for the Food and Drug Administration and the Internal Revenue Service to launch an aggressive raid, complete with screaming and drawn guns, to shut down the ministry.

On March 31, 2015, the United States government closed the 30-year ministry of Daniel Chapter One, claiming it might violate a governmental order – without any customer complaints or any

Number of Americans Believing the Birth of Jesus Was Based on Historical Events Is Diminishing!

Dec 13, 2017 | 0 = | = = = =

As some conservative commentators continue to call the public's attention to "the war on the celebration of Christmas in the U.S.," now comes word that fewer Americans believe that the New Testament account of the birth of Jesus is depicted based on actual events. A new Pew Research Center survey says there has been a noticeable decline in the percentage of U.S. adults who say they believe the biblical elements of the Christmas story were actual historical events. The four elements they cite found in

All Saints Church in Kingston on Thames

The theological fur is flying after a Church of England congregation hosted a joint birthday celebration for Muhammad and Jesus, with the church being accused of rejecting the fundamentals of the Christian faith.

The "Milad, Advent and Christmas Celebration" took place Sunday, Dec. 3, at All Saints Church in Kingston upon Thames and was organized with the Kingston Inter-Faith Forum and the South London Inter-Faith Group.

Milad, or Milwad, is the celebration of Muhammad's birth.

Entire Family Turns Transgender

By Craig Bannister | December 15, 2017 | 12:20 PM EST

An entire family – man, woman, son and daughter – in Arizona is transgender.

The father identifies as a woman. His fiancée, the mother-to-be, identifies as a man. The son considers himself a girl and, of course, the daughter thinks she's actually a boy. An entire transgender family, all under one roof.

Daniel Harrott was born a woman, while his fiancée, Shirley Austin was born a man. Both have previously been married.

Eleven year-old Mason and 13 year-old Joshua have also switched sexes.

"The whole family is in transition," Austin said in an interview with [KJZZ](#), which reports the two adults are teaching each other to adopt "traditional" gender roles:

"Shirley taught Daniel how to use a chainsaw. Daniel taught Shirley to memorize all the stones in her engagement ring, in case another woman asks. Daniel does the yard work. Shirley, the cooking.

"Daniel explained that they're actually 'very traditional' people, who really see

Outrage over question asking children if they "feel different" than gender born with

Dec 13, 2017 | 0 = | = = = =

Criticism by shocked parents and politicians has forced the U.K.'s National Health Service to remove a question asking primary school children if they "feel different" to the gender they were born with. The Daily Telegraph reported on Monday that the Lancashire Care NHS Foundation Trust will no longer be widely asking the question, which is found on surveys that 10- and 11-year-olds are given to complete. "We recognize that these are important issues and the need for sensitivity and an appropriate approach."

رسالة بولس الرسول الي أهل رومية 13

13: 11 هذا وأنكم عارفون الوقت انها الان ساعة لنستيقظ من النوم فان خلاصنا الان أقرب مما كان حين امنا

13: 12 قد تنهى الليل وتقارب النهار فلنخلع اعمال الظلمة ونلبس اسلحة النور

13: 13 لنسلك بلباقة كما في النهار لا بالبطر والسكر لا بالمضاجع والعهر لا بالخصام والحسد

13: 14 بل البسوا الرب يسوع المسيح ولا تصنعوا تدبيرا للجسد لأجل الشهوات

احترس ان لم تتمسك بالمسيح من الان قد لا تستطيع في المستقبل القريب بسبب الظلام.
